The accompanying consolidated financial statements include the accounts of Morningstar, & # 160; Inc. and our subsidiaries. We consolidate assets, liabilities, and results of operations of subsidiaries in which we have a controlling interest and eliminate all significant intercompany accounts and transactions. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for investments in entities in which we exercise significant influence, but do not control, using the equity method. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; As part of our investment management operations, we manage certain funds outside of the U. S. that are considered variable interest entities. For most of these variable interest entities, we do not have a variable interest. In cases where we do have a variable interest, we are not the primary beneficiary. Accordingly, we do not consolidate any of these variable interest entities. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Use of Estimates & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The preparation of financial statements in conformity with accounting principles generally accepted in the U. S. (GAAP) requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses during the reporting period. Actual results may & # 160; differ from these estimates. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Cash and Cash Equivalents & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Cash and cash equivalents consist of cash and investments with original maturities of three months or less. We state them at cost, which approximates fair value. We state the portion of our cash equivalents that are invested in money market funds at fair value, as these funds are actively traded and have quoted market prices. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Investments & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for our investments in debt securities in accordance with FASB ASC 320, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Investments & # x2014; Debt Securities & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 320). We classify our debt securities into two categories: held- to- maturity and available- for- sale. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 36pt; text- indent:- 18pt" & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # x2022; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 14. 5pt" & gt; Held- to- maturity: We classify certain investments, primarily certificates of deposit, as held- to- maturity securities, based on our intent and ability to hold these securities to maturity. We record held- to- maturity investments at amortized cost in our Consolidated Balance Sheets. & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 36pt; text- indent:- 18pt" & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # x2022; & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 14. 5pt" & gt; Available- for- sale: Investments not considered held- to- maturity or trading securities are classified as available- for- sale securities. Available- for- sale securities primarily consist of marketable debt securities. We report unrealized gains and losses for available- for- sale securit & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; ies as other comprehensive income (loss), net of related income taxes. We record these securities at their fair values in our Consolidated Balance Sheets. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- indent: 36pt" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for our investments in equity securities in accordance with FASB ASC 321, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Investments & # x2014; Equity Securities & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 321). We measure equity investments at fair value with the related realized and unrealized gains and losses recognized in & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; our Consolidated Statements of Income & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;. For equity investments without a readily determinable fair value, we measure these at cost less impairment and adjusting for observable price changes in orderly transactions. We will apply this measurement method to the investment until or if it becomes eligible to be measured at fair value, which is reassessed at each reporting period. Investments in equity securities that we do not intend to hold for more than a year are presented in" Investments" in our Consolidated Balance Sheets. Investments in equity securities that we intend to hold for more than one year are included in" Investments in unconsolidated entities" in our Consolidated Balance Sheets. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for our equity method investments in accordance with FASB ASC 323, Investments & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; & # x2014; Equity Method and Joint Ventures & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 323). We account for non- marketable equity investments over which we exercise significant influence, but do not have control over the investee, under the equity method. We record our estimated share of earnings or losses in the periods they are reported by the investee and record any dividends as a reduction to the carrying amount of the investment. We evaluate our equity method investments for other than- temporary declines in value. If the estimated fair value of the investment is less than the carrying amount and management considers the decline in value to be other than temporary, the excess of the carrying amount over the estimated fair value is recognized in net income in the period the impairment occurs. Our equity method investments are recorded within" Investments in unconsolidated entities" in our Consolidated Balance Sheets. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Fair Value Measurements & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; FASB ASC 820, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Fair Value Measurements & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 820) defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The standard applies whenever other standards require (or permit) assets or liabilities to be measured at fair value. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; FASB ASC 820 uses a fair value hierarchy based on three broad levels of valuation inputs: & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 18pt; text- indent:- 18pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # x2022; & # 160; & # 160; & # 160; & # 160; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level 1: & # 160; Valuations based on quoted prices in active markets for identical assets or liabilities that we have the ability to access. & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 18pt; text- indent:- 18pt" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 18pt; text- indent:- 18pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # x2022; & # 160; & # 160; & # 160; & # 160; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level 2: & # 160; Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 18pt; text- indent:- 18pt" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 18pt; text- indent:- 18pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # x2022; & # 160; & # 160; & # 160; & # 160; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level 3: & # 160; Valuations based on inputs that are unobservable and significant to the overall fair value measurement. & lt; / span & gt; & lt; / div & gt; & lt; div

style =" padding- left: 18pt; text- indent:- 18pt" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We provide additional information about our cash equivalents and investments that are subject to FASB ASC 820 in Note 7. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Business Combinations & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; When we acquire a business, we account for the business combination in accordance with FASB ASC 805, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Business Combinations & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 805). We recognize and measure the fair value of the acquired business and allocate the purchase price to the identifiable tangible and intangible assets acquired and liabilities assumed based upon their estimated fair values at the date of acquisition. The difference between the purchase price and the estimated fair value of the net assets acquired or the excess of the aggregate estimated fair values of assets acquired and liabilities assumed is recorded as goodwill. In determining the estimated fair values of assets acquired and liabilities assumed in a business combination, we use various recognized valuation methods, including discounted cash flow, Monte Carlo simulations, and relief from royalty. For a business combination achieved in stages, we remeasure our previously held equity interest immediately before the acquisition to the acquisition date fair value and recognize any gain in our Consolidated Statements of Income. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We recognize the fair value of any contingent payments at the date of acquisition as part of the consideration transferred to acquire a business. The liability associated with contingent consideration is remeasured to fair value at each reporting period subsequent to the date of acquisition considering factors that may impact the timing and amount of contingent payments until the term of the agreement has expired or the contingency is resolved. Any changes in the fair value measurement will be recorded in our Consolidated Statements of Income. In evaluating the characterization of contingent and deferred payments, we analyze relevant factors, including the nature of the payment, continuing employment requirements, incremental payments to employees of the acquired business, and timing and rationale underlying the transaction, to determine whether the payments should be accounted for as additional purchase consideration or post- combination related services. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We expense direct costs related to the business combination, such as accounting, legal, valuation, and other professional fees, as incurred. We recognize restructuring costs, including severance and relocation for employees of the acquired entity, as post- combination expenses unless the target entity meets the criteria of FASB ASC 420, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Exit or Disposal Cost Obligations & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, on the acquisition date. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; As part of the purchase price allocation, we follow the requirements of FASB ASC 740, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Income Taxes & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 740). This includes establishing deferred tax assets or liabilities reflecting the difference between the values assigned for financial statement purposes and income tax purposes. In certain acquisitions, the goodwill resulting from the purchase price allocation may not be deductible for income tax purposes. FASB ASC 740 prohibits recognition of a deferred tax asset or liability for temporary differences in goodwill if goodwill is not amortizable and deductible for tax purposes. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Goodwill & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Changes in the carrying amount of our recorded goodwill are mainly the result of business acquisitions and the effect of foreign currency translations. In accordance with FASB ASC 350, & # 160; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Intangibles & # x2014; Goodwill and Other & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, we do not amortize goodwill; instead, goodwill is subject to an impairment test annually, or whenever indicators of impairment exist. An impairment would occur if the carrying amount of a reporting unit exceeded the fair value of that reporting unit. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; When reviewing goodwill for impairment, we assess a number of qualitative factors to determine whether it is more likely than not that the fair value of our reporting units is less than their respective carrying values. Examples of qualitative factors that we assess include macroeconomic conditions affecting our reporting units, financial performance of our reporting units, market and competitive factors related to our reporting units, and other events specific to our reporting units. If we conclude that it is more likely than not that the fair value of a reporting unit is less than its carrying value, we perform a quantitative impairment test. The quantitative impairment test compares the estimated fair value of the reporting unit to its carrying value, and recognizes an impairment loss for the amount by which a reporting unit & # x2019; s carrying amount exceeds its fair value, without exceeding the total amount of goodwill allocated to that reporting unit. We determine the fair value of a reporting unit using a market approach. Determining the fair value of a reporting unit involves judgment and the use of significant estimates and assumptions, which include assumptions regarding the revenue growth rates and operating margins used to calculate estimated future cash flows, as well as revenue and earnings multiples of publicly traded companies whose services and markets are comparable. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We performed our annual impairment review in the fourth quarter and did not record any impairment losses in 2023, 2022, and 2021. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Intangible Assets & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We amortize intangible assets using the straight- line method over their estimated useful lives, which range from & lt; span style ="- sec- ix- hidden: f- 497" & gt; one & lt; / span & gt; to & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; twenty years & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;. We have no intangible assets with indefinite useful lives. In accordance with FASB ASC 360- 10- 35, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Subsequent Measurement & # x2014; Impairment or Disposal of Long- Lived Assets & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, & # 160; we review intangible assets for impairment whenever events or changes in circumstances indicate that the carrying value may & # 160; not be recoverable. If the value of future undiscounted cash flows is less than the carrying amount of an asset group, we record an impairment loss based on the excess of the carrying amount over the fair value of the asset group. We did not record any impairment losses in 2023 & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 2022, and 2021. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Property, Equipment, and Depreciation & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We state property and equipment at historical cost, net of accumulated depreciation in accordance with FASB ASC 360- 10, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Property, Plant, and Equipment & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;. We depreciate property and equipment using the straight- line method based on the useful life of the asset, which ranges from & lt; span style ="- sec- ix- hidden: f- 500" & gt; three & lt; / span & gt; to seven years. We amortize leasehold improvements over the lease term or their useful lives, whichever is shorter. Long- lived assets that are held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may & # 160; not be recoverable. If the value of future undiscounted cash flows is less than the carrying amount of an asset group, we record an impairment loss based on the excess of the carrying amount over the fair value of the asset group. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Computer Software and Intern & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; al Product Development Costs & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We capitalize certain costs in accordance with FASB ASC 350- 40, & # 160; & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: #

000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Internal- Use Software & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;. Inter & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; nal product development costs mainly consist of employee and third- party resource costs for developing new web- based products and certain major enhancements of existing products. We amortize these costs on a straight- line basis over the estimated economic life, which is generally three years. We include capitalized software development costs related to projects that have not been placed into service in our construction in progress balance. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for our right- of- use assets and operating lease liabilities in accordance with FASB ASC 842, & # 160; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Leases & lt; / span & gt; & lt; span style =" color: # 000000;

font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 842) & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt;. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We determine if a contract is or contains a lease at the inception of the contract. For identified operating leases, we recognize a lease liability and right- of- use asset on the consolidated balance sheet. The right- of- use asset represents our right to use an underlying asset for the lease term, and the operating lease liability represents the company' s obligation to make lease payments. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Our lease agreements consist primarily of real estate leases for office space and non- real estate leases for office equipment. In cases where an agreement contains both a lease and non- lease component, we do not allocate consideration to both components, but account for each as a single lease component by class of underlying asset. There are few instances of short- term agreements in our lease portfolio, which are typically arranged as needed and paid on a month- to- month basis. These leases are not recognized on the Consolidated Balance Sheet, but monthly lease expense is recognized on the Consolidated Statements of Income. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Right- of- use assets and operating lease liabilities are measured using the present value of future lease payments of the lease term at the commencement date. Right- of- use assets also include initial direct costs incurred by the company, net of prepayments and lease incentives. In the absence of an explicit rate in the lease agreement, the discount rate used to calculate present value is equal to the company' s incremental borrowing rate. Operating lease expense is recognized on a straight- line basis over the life of the lease and is included in general and administrative expenses on the Consolidated Statements of Income. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Revenue Recognition & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We recognize revenue in accordance with FASB ASC Topic 606, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Revenue from Contracts with Customers & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC Topic 606). & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Under FASB ASC Topic 606, we recognize revenue by applying the following five- step model to each of our customer arrangements: & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 1. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 27. 67pt" & gt; Identify the customer contract; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 2. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 27. 67pt" & gt; Identify the performance obligations in the contract; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 3. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 27. 67pt" & gt; Determine the transaction price; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 4. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 27. 67pt" & gt; Allocate the transaction price to the performance obligations; and & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 5. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 27. 67pt" & gt; Recognize revenue when (or as) performance obligations are satisfied. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Revenues are recognized when (or as) performance obligations are satisfied by transferring a promised product or service to the customer. Products or services are transferred when (or as) the customer obtains control of the product or service. The transaction price for a customer arrangement is the amount we expect to be entitled to in exchange for transferring the promised product or service. The transaction price may include fixed amounts, variable amounts, or both. When the right to payment exceeds revenue recognized, the result is an increase to deferred revenue. Deferred revenue represents the amount billed or collected in advance of the service being provided which we expect to recognize as revenue in future periods. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Revenue from contracts with customers is derived from license- based arrangements, asset- based arrangements, and transaction- based arrangements. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; License- based revenue, which represents subscription services available to customers and not a license under the accounting guidance, is generated through subscription contracts. Our performance obligations under these contracts are typically satisfied over time, as the customer has access to the service during the term of the subscription license and the level of service is consistent during the contract period. Each individual day within the contract period is viewed to be a service and the entirety of the service subscription term is determined to be a series combined into a single performance obligation and recognized over- time and on a straight- line basis, typically over terms of 1 to 3 years. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; When a customer & # x2019; s license- based contract is signed, the customer & # x2019; s service is activated immediately, except where customizations are required. License- based arrangements, our largest source of revenue from customers, generally are billed quarterly or annually. Customers are typically given payment terms of & lt; span style =" - sec- ix- hidden: f- 516" & gt; zero & lt; / span & gt; to 30 days. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Asset- based revenue is generated through contracts with daily asset management, which is determined to be a daily performance obligation and thus satisfied over time as the customer receives continuous access to a service for the contract term. We recognize revenue daily over the contract term based on the value of assets under management and a tiered fee agreed to with the customer. Asset- based arrangements typically have a term of 1 to 3 years. The fees from such arrangements represent variable consideration, and the customer does not make separate purchasing decisions that result in additional performance obligations. Significant changes in the underlying fund assets, or significant disruptions in the market, are evaluated to determine if revisions to estimates of earned asset- based fees for the current quarter are needed. An estimate of the average daily portfolio balance is a key input in determining revenue for a given period. Estimates are based on the most recently reported quarter, and, as a result, it is unlikely a significant reversal of revenue would occur. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Transaction- based revenue is generated through contracts with performance obligations that are satisfied when the product or service is delivered. Some of our performance obligations include the issuance of the rating and may include surveillance services for a period of time as agreed with the customer. We allocate the transaction price to the deliverables based on their relative selling price, which is generally determined by the price we charge when the same deliverable is sold separately. Our performance obligation for the issuance of the rating is satisfied when the rating is issued, which is when we recognize the related revenue. Our performance obligations for surveillance services are satisfied over time, as the customer has access to the service during the surveillance period and the level of service is consistent during the contract period. Therefore, we recognize revenue for this performance obligation on a straight- line basis. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Our contracts with customers may include multiple performance obligations. For most of these arrangements, we generally allocate revenue to each performance obligation based on its estimated standalone selling price. We generally determine standalone selling prices based on prices charged to customers when the same performance obligation is sold separately. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Accounts Receivables and Allowance for Credit Losses & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for accounts receivable in accordance with FASB ASC Topic 310, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Receivables & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 310) and FASB ASC Topic 326, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Financial Instruments- Credit Losses & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 326). We record a receivable when a customer is billed or when revenue is recognized prior to billing a customer. Accounts receivables are measured at amortized cost basis. We evaluate our allowance to include expected credit losses based on a variety of factors, including customer specific information, the current economic environment, and forecasted macroeconomic conditions. & lt; / span & gt; & lt; / div & gt; & lt; div & gt;

& lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Sales Commissions & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We capitalize sales commissions, which are considered directly attributable to obtaining a customer contract under FASB ASC Topic 606 and FASB ASC 340- 40, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Other Assets and Deferred Costs- Contracts with Customers & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;. Estimates of these capitalized costs are developed by using a portfolio approach that aggregates these costs by legal entity within their geographical regions. Capitalized sales commissions are amortized using the straight- line method over a period that is consistent with the transfer of the products or services to the customer to which the sales commission relates. The period of transfer for each portfolio is the shorter of the weighted- average customer life, or the economic life of the underlying technology that delivers the products or services. As of December & # 160; 31, 2023, the period of transfer was determined to be approximately three years. Discretionary amounts which are added to sales commission payments are expensed as incurred, as they are not considered to be directly attributable to obtaining a customer contract. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Stock- Based Compensation Expense & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for our stock- based compensation expense in accordance with FASB ASC 718, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Compensation & # x2014; Stock Compensation & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 718). Our stock- based compensation expense reflects grants of restricted stock units, performance share awards, and market stock units. We measure the fair value of our restricted stock units and performance share awards on the grant date based on the closing market price of Morningstar' s common stock on the day prior to the grant. For market stock units, we estimate the fair value of the awards using a Monte Carlo valuation model. We amortize the fair values to stock- based compensation expense, net of estimated forfeitures, ratably over the vesting period. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We estimate expected forfeitures of all employee stock- based awards and recognize compensation cost only for those awards expected to vest. We determine forfeiture rates based on historical experience and adjust the estimated forfeitures to actual forfeiture experience, as needed. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Income Taxes & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We record deferred income taxes for the temporary differences between the carrying amount of assets and liabilities for financial statement purposes and tax purposes in accordance with FASB ASC 740, which prescribes the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. It also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, and disclosure for uncertain tax positions. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We recognize interest and penalties related to unrecognized tax benefits as part of income tax expense in our Consolidated Statements of Income. We classify liabilities related to unrecognized tax benefits as either current or long- term liabilities in our Consolidated Balance Sheet, depending on when we expect to make payment. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 107 %" & gt; Segment Reporting & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 107 %" & gt; Under FASB ASC 280, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 107 %" & gt; Segment Reporting & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 107 %" & gt; (FASB ASC 280), operating segments are defined as components of a company that engage in business activities from which they may earn revenues and incur expenses, and for which discrete financial information is available and is evaluated regularly by the chief operating decision maker (CODM) in deciding how to allocate resources and in assessing performance. Aggregation of similar operating segments into a single reportable operating segment is permitted if the businesses have similar economic characteristics and meet established qualitative criteria. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 107 %" & gt; Effective as of December 31, 2023, we revised our presentation of our seven operating segments to the following five reportable segments: Morningstar Data and Analytics, PitchBook, Morningstar Wealth, Morningstar Credit, and Morningstar Retirement. The operating segments of Morningstar Sustainalytics and Morningstar Indexes do not individually meet the quantitative segment reporting thresholds and have been combined and presented as part of Corporate and All Other, which is not a reportable segment. Corporate and All Other provides a reconciliation between revenue from our reportable segments and consolidated revenue amounts. Refer to Note 6 for detailed segment information. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Severance & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for post- employment benefits in accordance with FASB ASC 712, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Compensation- Non- retirement Post- employment Benefits & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 712). Under FASB ASC 712, we recognize compensation expense associated with these benefits as a liability when probable and estimable. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In July 2022, the company began to significantly reduce its operations in Shenzhen, China and to shift the work related to its global business functions, including global product and software development, managed investment data collection and analysis, and equity data collection and analysis, to other Morningstar locations. During the third quarter of 2023, the company substantially completed these activities. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 112 %" & gt; As a result of these activities, the company incurred $ 25. 9 million of severance expense in 2022. These amounts were recorded within" General and administrative" on our Consolidated Statements of Income. The liability was recorded within" Accrued compensation- current" on our Consolidated Balance Sheet. The company has substantially paid all of the accrued severance amounts as of December 31, 2023. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 112 %" & gt; In 2023, the company incurred $ 15. 4 million of severance expense of which $ 9. 0 million was related to targeted reorganizations and headcount reductions in certain parts of the business and $ 2. 4 million was related to the Company' s China operations transition during 2023. & lt; / span & gt; & lt; / div & gt; < / us- gaap: SignificantAccountingPoliciesTextBlock > < morn: SummaryofAcronymsUsedTableTextBlock contextRef =" e- 1" id =" f- 488" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The acronyms that appear in these Notes to our Consolidated Financial Statements refer to the following: & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- top: 5pt; text- align: center" & gt; & lt; table style =" border- collapse: collapse; display: inline- table; margin- bottom: 5pt; vertical- align: text- bottom; width: 99. 707 %" & gt; & lt; tr & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 7. 844 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 89. 956 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 100 %" & gt; ASC & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 100 %" & gt; Accounting Standards Codification & lt; / span & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 100 %" & gt; ASU & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 100 %" & gt; Accounting Standards Update & lt; / span & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" display: none" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" display: none" & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 100 %" & gt; FASB & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 100 %" & gt; Financial Accounting Standards Board & lt; / span & gt; & lt; / td &

Actual results may & # 160; differ from these estimates. & lt; / span & gt; & lt; / div & gt; < / us- gaap: UseOfEstimates > < us- gaap: CashAndCashEquivalentsPolicyTextBlock contextRef =" c- 1" id =" f- 491" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Cash and Cash Equivalents & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Cash and cash equivalents consist of cash and investments with original maturities of three months or less. We state them at cost, which approximates fair value. We state the portion of our cash equivalents that are invested in money market funds at fair value, as these funds are actively traded and have quoted market prices. & lt; / span & gt; & lt; / div & gt; < / us- gaap: CashAndCashEquivalentsPolicyTextBlock > < us- gaap: InvestmentPolicyTextBlock contextRef =" c- 1" id =" f- 492" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Investments & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for our investments in debt securities in accordance with FASB ASC 320, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Investments & # x2014; Debt Securities & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 320). We classify our debt securities into two categories: held- to- maturity and available- for- sale. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 36pt; text- indent:- 18pt" & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # x2022; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 14. 5pt" & gt; Held- to- maturity: We classify certain investments, primarily certificates of deposit, as held- to- maturity securities, based on our intent and ability to hold these securities to maturity. We record held- to- maturity investments at amortized cost in our Consolidated Balance Sheets. & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 36pt; text- indent:- 18pt" & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # x2022; & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 14. 5pt" & gt; Available- for- sale: Investments not considered held- to- maturity or trading securities are classified as available- for- sale securities. Available- for- sale securities primarily consist of marketable debt securities. We report unrealized gains and losses for available- for- sale securit & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; ies as other comprehensive income (loss), net of related income taxes. We record these securities at their fair values in our Consolidated Balance Sheets. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- indent: 36pt" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for our investments in equity securities in accordance with FASB ASC 321, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Investments & # x2014; Equity Securities & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 321). We measure equity investments at fair value with the related realized and unrealized gains and losses recognized in & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; our Consolidated Statements of Income & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;. For equity investments without a readily determinable fair value, we measure these at cost less impairment and adjusting for observable price changes in orderly transactions. We will apply this measurement method to the investment until or if it becomes eligible to be measured at fair value, which is reassessed at each reporting period. Investments in equity securities that we do not intend to hold for more than a year are presented in" Investments" in our Consolidated Balance Sheets. Investments in equity securities that we intend to hold for more than one year are included in" Investments in unconsolidated entities" in our Consolidated Balance Sheets. & lt; / span & gt; & lt; / div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for our equity method investments in accordance with FASB ASC 323, Investments & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; & # x2014; Equity Method and Joint Ventures & lt; / span & gt; (FASB ASC 323). We account for non- marketable equity investments over which we exercise significant influence, but do not have control over the investee, under the equity method. We record our estimated share of earnings or losses in the periods they are reported by the investee and record any dividends as a reduction to the carrying amount of the investment. We evaluate our equity method investments for other than- temporary declines in value. If the estimated fair value of the investment is less than the carrying amount and management considers the decline in value to be other than temporary, the excess of the carrying amount over the estimated fair value is recognized in net income in the period the impairment occurs. Our equity method investments are recorded within" Investments in unconsolidated entities" in our Consolidated Balance Sheets. < / us- gaap: InvestmentPolicyTextBlock > < us- gaap: FairValueOfFinancialInstrumentsPolicy contextRef =" c- 1" id =" f- 493" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Fair Value Measurements & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; FASB ASC 820, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Fair Value Measurements & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 820) defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The standard applies whenever other standards require (or permit) assets or liabilities to be measured at fair value. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; FASB ASC 820 uses a fair value hierarchy based on three broad levels of valuation inputs: & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 18pt; text- indent:- 18pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # x2022; & # 160; & # 160; & # 160; & # 160; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level 1: & # 160; Valuations based on quoted prices in active markets for identical assets or liabilities that we have the ability to access. & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 18pt; text- indent:- 18pt" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 18pt; text- indent:- 18pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # x2022; & # 160; & # 160; & # 160; & # 160; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level 2: & # 160; Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 18pt; text- indent:- 18pt" &

gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 18pt; text- indent:- 18pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # x2022; & # 160; & # 160; & # 160; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level 3: & # 160; Valuations based on inputs that are unobservable and significant to the overall fair value measurement. & lt; / span & gt; & lt; / div & gt; & lt; div style =" padding- left: 18pt; text- indent:- 18pt" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We provide additional information about our cash equivalents and investments that are subject to FASB ASC 820 in Note 7. & lt; / span & gt; & lt; / div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We classify our investments into two categories: equity investments and debt securities. We further classify our debt securities into available- for- sale and held- to- maturity & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;. Our investment portfolio consists of stocks, bonds, options, mutual funds, money market funds, or & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; exchange- traded products that replicate the model portfolios and strategies created by Morningstar. These investment accounts may als & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; o include exchange- traded products where Morningstar is an index provider. All investments in our investment portfolio have valuations based on quoted prices in active markets for identical assets or liabilities that we have the ability to access, and, therefore, are classified as Level 1 within the fair value hierarchy. & lt; / span & gt; < / us- gaap: FairValueOfFinancialInstrumentsPolicy > < us- gaap: BusinessCombinationsPolicy contextRef =" c- 1" id =" f- 494" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Business Combinations & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; When we acquire a business, we account for the business combination in accordance with FASB ASC 805, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Business Combinations & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 805). We recognize and measure the fair value of the acquired business and allocate the purchase price to the identifiable tangible and intangible assets acquired and liabilities assumed based upon their estimated fair values at the date of acquisition. The difference between the purchase price and the estimated fair value of the net assets acquired or the excess of the aggregate estimated fair values of assets acquired and liabilities assumed is recorded as goodwill. In determining the estimated fair values of assets acquired and liabilities assumed in a business combination, we use various recognized valuation methods, including discounted cash flow, Monte Carlo simulations, and relief from royalty. For a business combination achieved in stages, we remeasure our previously held equity interest immediately before the acquisition to the acquisition date fair value and recognize any gain in our Consolidated Statements of Income. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We recognize the fair value of any contingent payments at the date of acquisition as part of the consideration transferred to acquire a business. The liability associated with contingent consideration is remeasured to fair value at each reporting period subsequent to the date of acquisition considering factors that may impact the timing and amount of contingent payments until the term of the agreement has expired or the contingency is resolved. Any changes in the fair value measurement will be recorded in our Consolidated Statements of Income. In evaluating the characterization of contingent and deferred payments, we analyze relevant factors, including the nature of the payment, continuing employment requirements, incremental payments to employees of the acquired business, and timing and rationale underlying the transaction, to determine whether the payments should be accounted for as additional purchase consideration or post- combination related services. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We expense direct costs related to the business combination, such as accounting, legal, valuation, and other professional fees, as incurred. We recognize restructuring costs, including severance and relocation for employees of the acquired entity, as post- combination expenses unless the target entity meets the criteria of FASB ASC 420, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Exit or Disposal Cost Obligations & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, on the acquisition date. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; As part of the purchase price allocation, we follow the requirements of FASB ASC 740, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Income Taxes & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 740). This includes establishing deferred tax assets or liabilities reflecting the difference between the values assigned for financial statement purposes and income tax purposes. In certain acquisitions, the goodwill resulting from the purchase price allocation may not be deductible for income tax purposes. FASB ASC 740 prohibits recognition of a deferred tax asset or liability for temporary differences in goodwill if goodwill is not amortizable and deductible for tax purposes. & lt; / span & gt; & lt; / div & gt; < / us- gaap: BusinessCombinationsPolicy > < us- gaap: GoodwillAndIntangibleAssetsGoodwillPolicy contextRef =" c- 1" id =" f- 495" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Goodwill & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Changes in the carrying amount of our recorded goodwill are mainly the result of business acquisitions and the effect of foreign currency translations. In accordance with FASB ASC 350, & # 160; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Intangibles & # x2014; Goodwill and Other & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, we do not amortize goodwill; instead, goodwill is subject to an impairment test annually, or whenever indicators of impairment exist. An impairment would occur if the carrying amount of a reporting unit exceeded the fair value of that reporting unit. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; When reviewing goodwill for impairment, we assess a number of qualitative factors to determine whether it is more likely than not that the fair value of our reporting units is less than their respective carrying values. Examples of qualitative factors that we assess include macroeconomic conditions affecting our reporting units, financial performance of our reporting units, market and competitive factors related to our reporting units, and other events specific to our reporting units. If we conclude that it is more likely than not that the fair value of a reporting unit is less than its carrying value, we perform a quantitative impairment test. The quantitative impairment test compares the estimated fair value of the reporting unit to its carrying value, and recognizes an impairment loss for the amount by which a reporting unit & # x2019; s carrying amount exceeds its fair value, without exceeding the total amount of goodwill allocated to that reporting unit. We determine the fair value of a reporting unit using a market approach. Determining the fair value of a reporting unit involves judgment and the use of significant estimates and assumptions, which include assumptions regarding the revenue growth rates and operating margins used to calculate estimated future cash flows, as well as revenue and earnings multiples of publicly traded companies whose services and markets are comparable. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We performed our annual impairment review in the fourth quarter and did not record any impairment losses in 2023, 2022, and 2021. & lt; / span & gt; & lt; / div & gt; < / us- gaap: GoodwillAndIntangibleAssetsGoodwillPolicy > < us- gaap: GoodwillAndIntangibleAssetsIntangibleAssetsPolicy contextRef =" c- 1" id =" f- 496" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Intangible Assets & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We amortize intangible assets using the straight- line method over their estimated useful lives, which range from & lt; span style =" - sec- ix- hidden: f- 497" & gt; one & lt; / span & gt; to & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; twenty years & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;. We have no intangible assets with indefinite useful lives. In accordance with FASB ASC 360- 10- 35, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Subsequent Measurement & # x2014; Impairment or Disposal of Long- Lived Assets & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, & # 160; we review intangible assets for impairment whenever events or changes in circumstances indicate that the carrying value may & # 160; not be recoverable. If the value of future undiscounted cash flows is less than the carrying amount of an asset group, we record an impairment loss based on the excess of the carrying amount over the fair value of the asset group. We did not record any impairment losses in 2023 & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 2022, and 2021. & lt; / span & gt; & lt; / div & gt; < / us- gaap: GoodwillAndIntangibleAssetsIntangibleAssetsPolicy > < us- gaap: FiniteLivedIntangibleAssetUsefulLife contextRef =" c- 61" id =" f- 498" > P20Y < / us- gaap: FiniteLivedIntangibleAssetUsefulLife > < us- gaap: PropertyPlantAndEquipmentPolicyTextBlock contextRef ="

For identified operating leases, we recognize a lease liability and right- of- use asset on the consolidated balance sheet. The right- of- use asset represents our right to use an underlying asset for the lease term, and the operating lease liability represents the company' s obligation to make lease payments. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Our lease agreements consist primarily of real estate leases for office space and non- real estate leases for office equipment. In cases where an agreement contains both a lease and non- lease component, we do not allocate consideration to both components, but account for each as a single lease component by class of underlying asset. There are few instances of short- term agreements in our lease portfolio, which are typically arranged as needed and paid on a month- to- month basis. These leases are not recognized on the Consolidated Balance Sheet, but monthly lease expense is recognized on the Consolidated Statements of Income. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Right- of- use assets and operating lease liabilities are measured using the present value of future lease payments of the lease term at the commencement date. Right- of- use assets also include initial direct costs incurred by the company, net of prepayments and lease incentives. In the absence of an explicit rate in the lease agreement, the discount rate used to calculate present value is equal to the company' s incremental borrowing rate. Operating lease expense is recognized on a straight- line basis over the life of the lease and is included in general and administrative expenses on the Consolidated Statements of Income. & lt; / span & gt; & lt; / div & gt; < / us- gaap: LesseeLeasesPolicyTextBlock > < us- gaap: RevenueFromContractWithCustomerPolicyTextBlock contextRef =" c- 1" id =" f- 513" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Revenue Recognition & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We recognize revenue in accordance with FASB ASC Topic 606, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Revenue from Contracts with Customers & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC Topic 606). & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Under FASB ASC Topic 606, we recognize revenue by applying the following five- step model to each of our customer arrangements: & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 1. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 27. 67pt" & gt; Identify the customer contract; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 2. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 27. 67pt" & gt; Identify the performance obligations in the contract; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 3. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 27. 67pt" & gt; Determine the transaction price; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 4. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 27. 67pt" & gt; Allocate the transaction price to the performance obligations; and & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; 5. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 27. 67pt" & gt; Recognize revenue when (or as) performance obligations are satisfied. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Revenues are recognized when (or as) performance obligations are satisfied by transferring a promised product or service to the customer. Products or services are transferred when (or as) the customer obtains control of the product or service. The transaction price for a customer arrangement is the amount we expect to be entitled to in exchange for transferring the promised product or service. The transaction price may include fixed amounts, variable amounts, or both. When the right to payment exceeds revenue recognized, the result is an increase to deferred revenue. Deferred revenue represents the amount billed or collected in advance of the service being provided which we expect to recognize as revenue in future periods. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Revenue from contracts with customers is derived from license- based arrangements, asset- based arrangements, and transaction- based arrangements. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; License- based revenue, which represents subscription services available to customers and not a license under the accounting guidance, is generated through subscription contracts. Our performance obligations under these contracts are typically satisfied over time, as the customer has access to the service during the term of the subscription license and the level of service is consistent during the contract period. Each individual day within the contract period is viewed to be a service and the entirety of the service subscription term is determined to be a series combined into a single performance obligation and recognized over- time and on a straight- line basis, typically over terms of 1 to 3 years. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; When a customer & # x2019; s license- based contract is signed, the customer & # x2019; s service is activated immediately, except where customizations are required. License- based arrangements, our largest source of revenue from customers, generally are billed quarterly or annually. Customers are typically given payment terms of & lt; span style ="- sec- ix- hidden: f- 516" & gt; zero & lt; / span & gt; to 30 days. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Asset- based revenue is generated through contracts with daily asset management, which is determined to be a daily performance obligation and thus satisfied over time as the customer receives continuous access to a service for the contract term. We recognize revenue daily over the contract term based on the value of assets under management and a tiered fee agreed to with the

customer. Asset- based arrangements typically have a term of 1 to 3 years. The fees from such arrangements represent variable consideration, and the customer does not make separate purchasing decisions that result in additional performance obligations. Significant changes in the underlying fund assets, or significant disruptions in the market, are evaluated to determine if revisions to estimates of earned asset- based fees for the current quarter are needed. An estimate of the average daily portfolio balance is a key input in determining revenue for a given period. Estimates are based on the most recently reported quarter, and, as a result, it is unlikely a significant reversal of revenue would occur. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Transaction- based revenue is generated through contracts with performance obligations that are satisfied when the product or service is delivered. Some of our performance obligations include the issuance of the rating and may include surveillance services for a period of time as agreed with the customer. We allocate the transaction price to the deliverables based on their relative selling price, which is generally determined by the price we charge when the same deliverable is sold separately. Our performance obligation for the issuance of the rating is satisfied when the rating is issued, which is when we recognize the related revenue. Our performance obligations for surveillance services are satisfied over time, as the customer has access to the service during the surveillance period and the level of service is consistent during the contract period. Therefore, we recognize revenue for this performance obligation on a straight- line basis. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Our contracts with customers may include multiple performance obligations. For most of these arrangements, we generally allocate revenue to each performance obligation based on its estimated standalone selling price. We generally determine standalone selling prices based on prices charged to customers when the same performance obligation is sold separately. & lt; / span & gt; & lt; / div & gt; < / us- gaap: RevenueFromContractWithCustomerPolicyTextBlock > < us- gaap: RevenueRemainingPerformanceObligationExpectedTimingOfSatisfactionPeriod1 contextRef =" c- 66" id =" f- 514" > P1Y < / us- gaap: RevenueRemainingPerformanceObligationExpectedTimingOfSatisfactionPeriod1 > < us- gaap: RevenueRemainingPerformanceObligationExpectedTimingOfSatisfactionPeriod1 contextRef =" c- 67" id =" f- 515" > P3Y < / us- gaap: RevenueRemainingPerformanceObligationExpectedTimingOfSatisfactionPeriod1 > < morn: RevenueRecognitionTimingofCashPayments contextRef =" c- 69" id =" f- 517" > P30D < / morn: RevenueRecognitionTimingofCashPayments > < us- gaap: RevenueRemainingPerformanceObligationExpectedTimingOfSatisfactionPeriod1 contextRef =" c- 70" id =" f- 518" > P1Y < / us- gaap: RevenueRemainingPerformanceObligationExpectedTimingOfSatisfactionPeriod1 > < us- gaap: RevenueRemainingPerformanceObligationExpectedTimingOfSatisfactionPeriod1 contextRef =" c- 71" id =" f- 519" > P3Y < / us- gaap: RevenueRemainingPerformanceObligationExpectedTimingOfSatisfactionPeriod1 > < us- gaap: TradeAndOtherAccountsReceivablePolicy contextRef =" c- 1" id =" f- 520" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Accounts Receivables and Allowance for Credit Losses & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for accounts receivable in accordance with FASB ASC Topic 310, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Receivables & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 310) and FASB ASC Topic 326, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Financial Instruments- Credit Losses & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 326). We record a receivable when a customer is billed or when revenue is recognized prior to billing a customer. Accounts receivables are measured at amortized cost basis. We evaluate our allowance to include expected credit losses based on a variety of factors, including customer specific information, the current economic environment, and forecasted macroeconomic conditions. & lt; / span & gt; & lt; / div & gt; < / us- gaap: TradeAndOtherAccountsReceivablePolicy > < us- gaap: CommissionsExpensePolicyPolicyTextBlock contextRef =" c- 1" id =" f- 521" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Sales Commissions & lt; / span & gt; & lt; / div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We capitalize sales commissions, which are considered directly attributable to obtaining a customer contract under FASB ASC Topic 606 and FASB ASC 340- 40, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Other Assets and Deferred Costs- Contracts with Customers & lt; / span & gt;. Estimates of these capitalized costs are developed by using a portfolio approach that aggregates these costs by legal entity within their geographical regions. Capitalized sales commissions are amortized using the straight- line method over a period that is consistent with the transfer of the products or services to the customer to which the sales commission relates. The period of transfer for each portfolio is the shorter of the weighted- average customer life, or the economic life of the underlying technology that delivers the products or services. As of December & # 160; 31, 2023, the period of transfer was determined to be approximately three years. Discretionary amounts which are added to sales commission payments are expensed as incurred, as they are not considered to be directly attributable to obtaining a customer contract. < / us- gaap: CommissionsExpensePolicyPolicyTextBlock > < us- gaap: CapitalizedContractCostAmortizationPeriod contextRef =" c- 61" id =" f- 522" > P3Y < / us- gaap: CapitalizedContractCostAmortizationPeriod > < us- gaap: ShareBasedCompensationOptionAndIncentivePlansPolicy contextRef =" c- 1" id =" f- 523" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Stock- Based Compensation Expense & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We account for our stock- based compensation expense in accordance with FASB ASC 718, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Compensation & # x2014; Stock Compensation & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; (FASB ASC 718). Our stock- based compensation expense reflects grants of restricted stock units, performance share awards, and market stock units. We measure the fair value of our restricted stock units and performance share awards on the grant date based on the closing market price of Morningstar' s common stock on the day prior to the grant. For market stock units, we estimate the fair value of the awards using a Monte Carlo valuation model. We amortize the fair values to stock- based compensation expense, net of estimated forfeitures, ratably over the vesting period. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We estimate expected forfeitures of all employee stock- based awards and recognize compensation cost only for those awards expected to vest. We determine forfeiture rates based on historical experience and adjust the estimated forfeitures to actual forfeiture experience, as needed. & lt; / span & gt; & lt; / div & gt; < / us- gaap: ShareBasedCompensationOptionAndIncentivePlansPolicy > < us- gaap: IncomeTaxPolicyTextBlock contextRef =" c- 1" id =" f- 524" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Income Taxes & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We record deferred income taxes for the temporary differences between the carrying amount of assets and liabilities for financial statement purposes and tax purposes in accordance with FASB ASC 740, which prescribes the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. It also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, and disclosure for uncertain tax positions. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We recognize interest and penalties related to unrecognized tax benefits as part of income tax expense in our Consolidated Statements of Income. We classify liabilities related to unrecognized tax benefits as either current or long- term liabilities in our Consolidated Balance Sheet, depending on when we expect to make payment. & lt; / span & gt; & lt; / div & gt; < / us- gaap: IncomeTaxPolicyTextBlock > < us- gaap: SegmentReportingPolicyPolicyTextBlock contextRef =" c- 1" id =" f- 525" > & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 107 %" & gt; Segment Reporting & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 107 %" & gt; Under FASB ASC 280, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 107 %" & gt; Segment Reporting & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 107 %" & gt; (FASB ASC 280), operating segments are defined as components of a company that engage in business activities from which they may earn revenues and incur expenses, and for which discrete financial information is available and is evaluated regularly by the chief operating decision maker (CODM) in deciding how to allocate resources and in assessing performance. Aggregation of similar operating segments into a single reportable operating segment is permitted if the businesses have similar economic characteristics and meet established qualitative criteria. & lt; / span & gt; & lt; / div & gt; Effective as of December 31, 2023, we revised our presentation of our seven operating segments to the following five reportable segments: Morningstar Data and Analytics, PitchBook, Morningstar Wealth, Morningstar Credit, and Morningstar Retirement. The operating segments of Morningstar Sustainalytics and Morningstar Indexes do not individually meet the quantitative segment reporting thresholds and have been combined and presented as part of Corporate and All Other, which is not a reportable segment. Corporate and All Other provides a reconciliation between revenue from our reportable segments and consolidated revenue amounts. Refer to Note 6 for detailed segment information. < / us- gaap: SegmentReportingPolicyPolicyTextBlock > < us- gaap: NumberOfOperatingSegments contextRef =" c- 1" decimals =" INF" id =" f- 526" unitRef =" segments" > 7 < /

The 2019 Credit Agreement provided the company with a five- year multi- currency credit facility with an initial borrowing capacity of up to $ 750. 0 million, including a $ 300. 0 million revolving credit facility (the 2019 Revolving Credit Facility) and a term loan facility of $ 450. 0 million. The 2019 Credit Agreement also provided for the issuance of up to $ 50. 0 million of letters of credit and a $ 100. 0 million sub- limit for a swingline facility under the 2019 Revolving Credit Facility. On May 6, 2022, the company terminated the 2019 Credit Agreement. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; On May 6, 2022, the company entered into a new senior credit agreement (the 2022 Credit Agreement). The 2022 Credit Agreement provided the company with a five- year multi- currency credit facility with an initial borrowing capacity of up to $ 1. 1 & # 160; billion, including a $ 650. 0 & # 160; million term loan (the 2022 Term Facility) with an initial draw of $ 600. 0 & # 160; million and an option for a second draw of up to $ 50. 0 & # 160; million and a $ 450. 0 & # 160; million revolving credit facility (the 2022 Revolving Credit Facility). The 2022 Credit Agreement also provided for the issuance of up to $ 50. 0 million of letters of credit and a $ 100. 0 million sub- limit for a swingline. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The proceeds of the first draw under the 2022 Term Facility and initial borrowings under the 2022 Revolving Credit Facility were used to finance the acquisition of & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Leveraged Commentary & amp; amp; Data (LCD) & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; and to repay a portion of the borrowings under the 2019 Revolving Credit Facility. The optional second draw on the 2022 Term Facility was available to fund the contingent consideration payment of up to $ 50. 0 & # 160; million in connection with the LCD acquisition. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The 2022 Credit Agreement was amended (the Amended 2022 Credit Agreement) on September 13, 2022 (the First Amendment to the 2022 Credit Agreement) and on September 30, 2022 (the Second Amendment to the 2022 Credit Agreement). The First Amendment to the 2022 Credit Agreement terminated the unfunded term commitment related to the optional second draw of up to $ 50. 0 & # 160; million in the 2022 Term Facility and increased the 2022 Revolving Credit Facility to $ 600. 0 & # 160; million. The Second Amendment to the 2022 Credit Agreement increased the 2022 Term Facility to a fully funded $ 650. 0 & # 160; million facility (the Amended 2022 Term Facility) and increased the 2022 Revolving Credit Facility to $ 650. 0 & # 160; million (the Amended 2022 Revolving Credit Facility) for total borrowing capacity of $ 1. 3 & # 160; billion. As of December 31, 2023, our total outstanding debt under the Amended 2022 Credit Agreement was $ 623. 9 million, net of debt issuance costs, with borrowing availability of $ 635. 0 & # 160; million under the 2022 Revolving Credit Facility. Except for incremental borrowing capacity, there were no material changes to the existing terms and conditions of the 2022 Credit Agreement. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The proceeds of the additional draw

under the Amended 2022 Term Facility were used to repay borrowings under the 2022 Revolving Credit Facility. The proceeds of future borrowings under the Amended 2022 Revolving Credit Facility may be used for working capital, capital expenditures, or other general corporate purposes. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The interest rate applicable to any loan under the Amended 2022 Credit Agreement is, at the company' s option, either: (i) the applicable Secured Overnight Financing Rate (SOFR) plus an applicable margin for such loans, which ranges between 1. 00 % and 1. 48 %, based on the company' s consolidated leverage ratio or (ii) the lender' s base rate plus the applicable margin for such loans, which ranges between 0. 00 % and 0. 38 %, based on our consolidated leverage ratio. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 6pt" & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The portions of deferred debt issuance costs related to the Amended 2022 Revolving Credit Facility are included in other current and non- current assets, and the portion of deferred debt issuance costs related to the Amended 2022 Term Facility is reported as a reduction to the carrying amount of the Amended 2022 Term Facility. Debt issuance costs related to the Amended 2022 Revolving Credit Facility are amortized on a straight- line basis to interest expense over the term of the Amended 2022 Credit Agreement. Debt issuance costs related to the Amended 2022 Term Facility are amortized to interest expense using the effective interest method over the term of the Amended 2022 Credit Agreement. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Private Placement Debt Offering & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; On October 26, 2020, we completed the issuance and sale & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; of $ 350. 0 & # 160; million a & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; ggregate principal amount of 2. 32 % senior notes due October 26, 2030 (the 2030 Notes), in a private placement exempt from the registration requirements of the Securities Act of 1933, as amended. Proceeds were primarily used to pay off a portion of the company' s outstanding debt under the 2019 Credit Agreement. Interest on the 2030 Notes will be paid semi- annually on each October 30 and April 30 during the term of the 2030 Notes and at maturity, with the first interest payment date occurring on April 30, 2021. As of December & # 160; 31, 2023, our total outstanding debt, net of issuance costs, under the 2030 Notes was $ 348. 5 million. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Compliance with Covenants & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Each of the Amended 2022 Credit Agreement and the 2030 Notes include customary representations, warranties, and covenants, including financial covenants, that require us to maintain specified ratios of consolidated earnings before interest, taxes, depreciation, and amortization (EBITDA) to consolidated interest charges and consolidated funded indebtedness to consolidated EBITDA, which are tested on a quarterly basis. We were in compliance with these financial covenants as & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;
