License- based performance obligations are generally satisfied over time as the customer has access to the product or service during the term of the subscription license and the level of service is consistent during the contract period. License- based agreements typically have a term of 1 to 3 years and are accounted for as subscription services available to customers and not as a license under the accounting guidance. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Asset- based performance obligations are satisfied over time as the customer receives continuous access to a service for the term of the agreement. Asset- based arrangements typically have a term of 1 to 3 years. Asset- based fees represent variable consideration, and the customer does not make separate purchasing decisions that result in additional performance obligations. The timing of client asset reporting and the structure of certain contracts can result in a lag between market movements and the impact on earned revenue. Significant changes in the underlying fund assets and significant disruptions in the market are evaluated to determine whether estimates of earned asset- based fees need to be revised for the current quarter. An estimate of variable consideration is included in the initial transaction price only to the extent it is probable that a significant reversal in the amount of the revenue recognized will not occur. Estimates of asset- based fees are based on the most recently completed quarter and, as a result, it is unlikely a significant reversal of revenue would occur. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Transaction- based performance obligations are satisfied when the product or service is completed or delivered. Some transaction- based revenue includes revenue from surveillance services, which is recognized over time, as the customer has access to the service during the surveillance period. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Contract liabilities & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Our contract liabilities represent deferred revenue. We are applying the optional exemption available under FASB ASC Topic 606, as the variable consideration relates to these unsatisfied performance obligations being fulfilled as a series. The performance obligations related to these contracts are expected to be satisfied over the next 1 to 3 years as services are provided to the client. For license- based contracts, the consideration received for services performed is based on the number of future users, which is not known until the services are performed. The variable consideration for this revenue can be affected by the number of user licenses, which cannot be reasonably estimated. For asset- based contracts, the consideration received for services performed is based on future asset values, which are not known until the services are performed. The variable consideration for this revenue can be affected by changes in the underlying value of fund assets due to client redemptions, additional investments, or movements in the market. For transaction- based contracts for Internet advertising, the consideration received for services performed is based on the number of impressions, which is not known until the impressions are created. The variable consideration for this revenue can be affected by the timing and quantity of impressions in any given period and cannot be reasonably estimated. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; As of December & # 160; 31, 2023, the table above also does not include revenue for unsatisfied performance obligations related to certain of our license- based and transaction- based contracts with durations of one year or less since we are applying the optional exemption under FASB ASC Topic 606. For certain license- based contracts, the remaining performance obligation is expected to be less than one year based on the corresponding subscription terms or the existence of cancellation terms that may be exercised causing the contract term to be less than one year from December & # 160; 31, 2023. For transaction- based contracts, such as new credit rating issuances and Morningstar- sponsored conferences, the related performance obligations are expected to be satisfied within the next 12 months. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Contract Assets & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Our contract assets represent accounts receivable, less allowance for credit losses, and deferred commissions. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The following table summarizes our contract assets balance: & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- top: 5pt; text- align: center" & gt; & lt; table style =" border- collapse: collapse; display: inline- table; margin- bottom: 5pt; vertical- align: text- bottom; width: 99. 707 %" & gt; & lt; tr & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width:

000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 127 %" & gt; FASB ASC 280 establishes standards for reporting information about operating segments. Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the CODM, in deciding how to allocate resources and assess performance. The company' s chief executive officer, who is considered to be its CODM, reviews financial information presented on an operating segment basis for purposes of making operating decisions and assessing financial performance. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The CODM allocates resources and assesses performance of segments based on segme & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; nt revenue & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; as well as Adjusted Operating Income. The CODM does not consider these items for the purposes of making decisions to allocate resources among segments or to assess segment performance. Although the amounts are excluded from segment Adjusted Operating Income, they are included in reported consolidated operating income and are included in the reconciliation to consolidated results. Expenses presented as part of the company' s segments include allocations of shared costs. These allocations are based on expected utilization of shared resources. Adjusted Operating Income is the reported measure that the company believes is most consistent with those used in measuring the corresponding amount in the consolidated financial statements. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 127 %" & gt; The CODM does not review any information regarding total assets on a segment basis. We began consolidating the financial results of LCD in our consolidated financial statements as of June 1, 2022. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The total consideration transferred was recorded as $ 645. 5 & # 160; million, comprised of a $ 600. 0 million cash payment plus contingent consideration with an acquisition date fair value of $ 45. 5 million. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The transaction was accounted for as a business combination under the acquisition method of accounting pursuant to FASB ASC 805, which requires that assets acquired and liabilities assumed be recognized at fair value as of the acquisition date. We finalized the purchase price allocation related to our acquisition of LCD during the second quarter of 2023 and did not record any significant adjustments compared to the preliminary estimates at the date of acquisition. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The final contingent consideration was determined based upon the achievement of certain conditions related to the separation of LCD & # x2019; s contractual relationships from S & amp; amp; P contracts that include other S & amp; amp; P products and services during the six- month period following closing. To estimate the fair value of the contingent consideration at the acquisition date, we calculated the weighted average of the estimated contingent payment scenarios. At subsequent balance sheet dates, the contingent consideration was measured at fair value and any changes in the estimate were recorded in earnings unless the change in fair value was the result of facts and circumstances that existed as of the acquisition date. During the third and fourth quarters of 2022, the contingent consideration was remeasured and increased by $ 0. 9 & # 160; million and $ 3. 6 & # 160; million, respectively, for total consideration of $ 50. 0 & # 160; million as of December 31, 2022. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Th & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Arial', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; e contingent consideration is classified as" Contingent consideration liabilities" on our Consolidated Balance Sheet as of December 31, 2022. Included in this increase, is $ 8. 1 million of foreign tax credits that will expire in 2031 through 2033. In assessing the need for a valuation allowance, many factors are considered, including the specific taxing jurisdiction, the carryforward period, income tax strategies and forecasted earnings for the entities in each jurisdiction. A valuation allowance is recognized if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred tax asset will not be realized. & lt; / span & gt;
