line- height: 120 %" & gt; In the third quarter of 2023, under the terms of our 9 % Debentures, we exercised our option to redeem the outstanding principal of $ 21. 1 & # 160; million. The 9 % Debentures were convertible into shares of MGIC common stock at a rate of 77. 9620 shares per $ 1, 000 principal amount. Prior to the redemption date, substantially all holders elected to convert into shares of common stock. Under the terms of the 9 % Debentures, we paid cash of $ 28. 6 & # 160; million in lieu of issuing shares of common stock. The conversion of our 9 % Debentures resulted in a $ 5. 3 & # 160; million reduction in our shareholders & # x2019; equity, net of tax, and a reduction of 1. 6 & # 160; million potentially dilutive shares. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 3pt; text- align: justify" & gt; & lt; span style =" color: # 0084ce; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; 2022 Transactions & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; During 2022, we repurchased $ 89. 1 & # 160; million in aggregate principal of our 9 % Debentures at a purchase price of $ 121. 2 & # 160; million plus accrued interest. The excess of the make- whole price over the carrying value, plus the write- off of unamortized issuance costs on the par value, resulted in a $ 6. 8 & # 160; million loss on debt extinguishment. The make- whole amount was calculated as the sum of the present values of the remaining scheduled payments of principal and interest discounted at the treasury rate defined in the notes plus 50 basis points and accrued interest. The 5. 75 % Notes were an obligation of our holding company. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 3pt; text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 3pt; text- align: justify" & gt; & lt; span style =" color: # 0084ce; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; 5. 25 % Notes & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; Interest on the 5. 25 % Notes is payable semi- annually on February 15 and August 15. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; Until August 15, 2025, we may redeem the notes at 101. 313 % of principal; on or after August 15, 2025, we may redeem the notes at 100 % of principal; in each case, plus accrued and unpaid interest. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; The 5. 25 % Notes have covenants and events of default, which are customary for securities of this nature, and further provide that the trustee or holders of at least 25 % in aggregate principal amount of the outstanding 5. 25 % Notes may declare them immediately due and payable upon the occurrence of certain events of default after the expiration of the applicable grace period. Such loans are referred to as being in our delinquency inventory. Case reserves are established by estimating the number of loans in our delinquency inventory that will result in a claim payment, which is referred to as the claim rate, and further estimating the amount of the claim payment, which is referred to as claim severity. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; IBNR reserves are established for estimated losses from delinquencies we estimate have occurred prior to the close of an accounting period, but have not yet been reported to us. IBNR reserves are also established using estimated claim rates and claim severities. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; Estimation of losses is inherently judgmental. The conditions that affect the claim rate and claim severity include the current and future state of the domestic economy, including unemployment and the current and future strength of local housing markets; exposure on insured loans; the amount of time between delinquency and claim filing (all else being equal, the longer the period between delinquency and claim filing, the greater the severity); and curtailments and rescissions. The actual amount of the claim payments may be substantially different than our loss reserve estimates. Our estimates could be adversely affected by several factors, including a deterioration of regional or national economic conditions, including unemployment, leading to a reduction in borrowers & # x2019; income and thus their ability to make mortgage payments, the impact of past and future government initiatives and actions taken by the GSEs (including mortgage forbearance programs and foreclosure moratoriums), and a drop in housing values which may affect borrower willingness to continue to make mortgage payments when the value of the home is below the mortgage balance. Loss reserves in future periods will also be dependent on the number of loans reported to us as delinquent. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; Changes to our estimates could result in a material impact to our consolidated statements of operations and financial position, even in a stable economic environment. Given the uncertainty of the macroeconomic environment, including the effectiveness of loss mitigation efforts, changes in home prices, and level of employment, our loss reserve estimates may continue to be impacted. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; In considering the potential sensitivity of the factors underlying our estimate of loss reserves, it is possible that even a relatively small change in our estimated claim rate or claim severity could have a material impact on loss reserves and, correspondingly, on our consolidated statements of operations even in a stable economic environment. & # 160; For example, as of December & # 160; 31, 2024, assuming all other factors remain constant, a $ 1, 000 increase / decrease in the average severity reserve factor would change the loss reserve amount by approximately /- $ 7 & # 160; million. A one percentage point increase / decrease in the average claim rate reserve factor would change the loss reserve amount by approximately /- $ 18 & # 160; million. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 3pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; The & # x201c; Losses incurred & # x201d; section of table 8. 1 below shows losses incurred on delinquencies that occurred in the current year and in prior years. The amount of losses incurred relating to delinquencies that occurred in the current year represents the estimated amount to be ultimately paid on such delinquencies. The amount of losses incurred relating to delinquencies that occurred in prior years represents the difference between the actual claim rate and claim severity associated with those delinquencies resolved in the current year compared to the estimated claim rate and claim severity at the prior year- end, as well as a re- estimation of amounts to be ultimately paid on delinquencies continuing from the end of the prior year. & # 160; This re- estimation of the claim rate and claim severity is the result of our review of current trends in the delinquency inventory, such as percentages of delinquencies that have resulted in a claim, the amount of the claims relative to the average loan exposure, changes in the relative level of delinquencies by geography and changes in average loan exposure. & lt; Assumed reinsurance refers to the acceptance of certain insurance risks that other insurance companies have underwritten. Ceded reinsurance involves transferring certain insurance risks we have underwritten to other insurance companies who agree to share these risks. The purpose of ceded reinsurance is to protect us, at a cost, against losses arising from our mortgage guaranty policies covered by the agreement and to manage our capital requirements under PMIERs. Reinsurance is currently placed on a quota share and excess of loss basis. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; We receive the benefit of a ceding commission equal to 20 % of premiums ceded before profit commission. We also receive the benefit of a profit commission through a reduction of premiums we cede. The profit commission varies inversely with the level of losses on a & # x201c; dollar for dollar & # x201d; basis and can be eliminated at annual loss ratios higher than we have experienced on our QSR transactions. Ceded losses incurred are impacted by the delinquencies covered by our QSR Transactions, our estimates of payments that will be ultimately made on those delinquencies, and claim payments covered by our QSR Transactions. & lt; The coverage premiums are generally calculated as the difference between the amount of interest payable by the Home Re Entity on the remaining reinsurance coverage levels, and the investment income collected on the collateral assets held in reinsurance trust account and used to collateralize the Home Re Entity' s reinsurance obligation to MGIC. The amount of monthly reinsurance coverage premium ceded will fluctuate due to changes in the reference rate and changes in money market rates that affect investment income collected on the assets in the reinsurance trust. As a result, we concluded that each Home Re Transaction contains an embedded derivative that is accounted for separately as a freestanding derivative. The fair values of the derivatives at & # 160; December & # 160; 31, 2024 and December & # 160; 31, 2023, were not material to our consolidated balance sheet, and the change in fair values during the years ended December & # 160; 31, 2024, December & # 160; 31, 2023 and December & # 160; 31, 2022 were not material to our consolidated statements of operations. A VIE is a legal entity that does not have sufficient equity at risk to finance its activities without additional subordinated financial support or is structured such that equity investors lack the ability to make sufficient decisions relating to the entity & # x2019; s operations through voting rights or do not substantively participate in gains and losses of the entity. Given that MGIC (1) does not have the unilateral power to direct the activities that most significantly affect each Home Re Entity & # x2019; s economic performance and (2) does not have the obligation, outside the terms of the reinsurance agreement, to absorb losses or the right to receive benefits of each Home Re Entity that could be significant to the Home Re Entity, consolidation of the Home Re Entities is not required. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; We are required to disclose our maximum exposure to loss, which we consider to be an amount that we could be required to record in our statements of operations, as a result of our involvement with the VIEs under our Home Re Transactions. As of December & # 160; 31, 2024, December & # 160; 31, 2023 and December & # 160; 31, 2022, we did not have material exposure to the VIEs as we have no investment in the VIEs and had no reinsurance claim payments due from the VIEs under our reinsurance transactions. We are unable to determine the timing or extent of claims from losses that are ceded under the reinsurance transactions. The VIE assets are deposited in reinsurance trusts for the benefit of MGIC that will be the source of reinsurance claim payments to MGIC. The purpose of the reinsurance trusts is to provide security to MGIC for the obligations of the VIEs under the reinsurance transactions. The trustee of the reinsurance trusts, a recognized provider of corporate trust services, has established segregated accounts within the reinsurance trusts for the benefit of MGIC, pursuant to the trust agreements. The trust agreements are governed by, and construed in accordance with, the laws of the State of New York. If the trustee of the reinsurance trusts failed to distribute claim payments to us as provided in the reinsurance trusts, we would incur a loss related to our losses ceded under the reinsurance transactions and deemed unrecoverable. We are also unable to determine the impact such possible failure by the trustee to perform pursuant to the reinsurance trust agreements may have on our consolidated financial statements. As a result, we are unable to quantify our maximum exposure to loss related to our involvement with the VIEs. MGIC has certain termination rights under the reinsurance transactions should its claims not be paid. We consider our exposure to loss from our reinsurance transactions with the VIEs to be remote. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; Table 9. 5 presents the total assets of the Home Re Entities as of December & # 160; 31, 2024, December & # 160; 31, 2023 and December & # 160; 31, 2022. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- top: 5pt; text- align: justify" & gt; & lt; table style =" border- collapse: collapse; display: inline- table; margin- bottom: 5pt; vertical- align: text- bottom; width: 99. 861 %" & gt; & lt; tr & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 10. 165 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 10. 165 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 329 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 24. 212 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 24. 212 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 24. 217 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 12" style =" padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 8pt; font- weight: 700; line- height: 100 %" & gt; Home Re Entities total assets & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" border- top: 2pt solid # d5efff; padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 7pt; font- weight: 700; line- height: 100 %" & gt; Table & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 2pt solid # d5efff; padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 7pt; font- weight: 700; line- height: 100 %" & gt; 9. 5 & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top:

executive retirement plan, that covered eligible employees through December 31, 2022. & # 160; Effective January 1, 2023, these plans were frozen (no future benefits will be accrued for participants due to employment and no new participants will be added). Participants in these plans were fully vested in their benefits as of December 31, 2022. We also offer benefits for retired domestic employees and their eligible spouses and dependents under a postretirement benefit plan. Participation in this plan is limited to eligible employees that participated in the defined benefit pension plan. The following tables 11. 1, 11. 2, and 11. 3 provide the components of aggregate annual net periodic benefit cost for each of the years ended December & # 160; 31, 2024, 2023, and 2022 and changes in the benefit obligation and the funded status of the pension, supplemental executive retirement and other postretirement benefit plans as recognized in the consolidated balance sheets as of December & # 160; When the discount rate increases, the impact on the benefit obligation is a decrease, resulting in an actuarial gain. When the discount rate decreases, the impact on the benefit obligation is an increase, resulting in an actuarial loss. The discount rate increased to 5. 70 % at December 31, 2024 from 5. 20 % at December 31, 2023, compared to a decrease to 5. 20 % at December 31, 2023 from 5. 60 % at December 31, 2022. The modeling was performed using a bond portfolio of noncallable bonds with at least $ 50 million outstanding. The average yield of these hypothetical bond portfolios was used as the benchmark for determining the discount rate. In selecting the expected long- term rate of return on assets, we considered the average rate of earnings expected on the classes of funds invested or to be invested to provide for the benefits of these plans. & # 160; This included considering the trusts' targeted asset allocation for the year and the expected returns likely to be earned over the next 20 years. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; The liability driven component seeks to align the duration of the fixed income asset allocation with the expected duration of the plan liabilities or benefit payments. Overall asset allocation is dynamic and specifies target allocation weights and ranges based on the funded status. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify; text- indent: 18pt" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; An improvement in funded status results in the de- risking of the portfolio, allocating more funds to fixed income and less to equity. In converting from statutory to GAAP, typical adjustments include deferral of policy acquisition costs, the inclusion of net unrealized holding gains or losses in shareholders' equity relating to fixed income securities, and the inclusion of statutory non- admitted assets. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify; text- indent: 18pt" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; In addition to the typical adjustments from statutory to GAAP, mortgage insurance companies are required to maintain contingency loss reserves equal to 50 % of premiums earned under SSAP and principles prescribed by the OCI. Such amounts cannot be withdrawn for a period of ten years except as permitted by insurance regulations. With regulatory approval, a mortgage guaranty insurance company may make early withdrawals from the contingency reserve when incurred losses exceed 35 % of premiums earned in a calendar year. Changes in contingency loss reserves impact the statutory statement of operations. & # 160; Contingency loss reserves are not reflected as liabilities under GAAP and changes in contingency loss reserves do not impact the GAAP consolidated statements of operations. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; As a mortgage guaranty insurer, we are eligible for a tax deduction, subject to certain limitations, under Section 832 (e) of the IRC for amounts required by state law or regulation to be set aside in statutory contingency reserves. The deduction is allowed only to the extent that we purchase tax and loss bonds (& # x201c; T & amp; amp; L Bonds & # x201d;) in an amount equal to the tax benefit derived from deducting any portion of our statutory contingency reserves. We refer to these requirements as the & # x201c; State Capital Requirements & # x201d; and, together with the GSE Financial Requirements, the & # x201c; Financial Requirements. & # x201d; While they vary among jurisdictions, the most common State Capital Requirements allow for a maximum risk- to- capital ratio of 25 to 1. A risk- to- capital ratio will increase if (i) the percentage decrease in capital exceeds the percentage decrease in insured risk, or (ii) the percentage increase in capital is less than the percentage increase in insured risk. & # 160; Wisconsin does not regulate capital by using a risk- to- capital measure but instead requires a minimum policyholder position (" MPP"). MGIC' s & # x201c; policyholder position & # x201d; includes its net worth or surplus, and its contingency loss reserve. Our policyholders position was above the required MPP and our risk- to- capital ratio was below the maximum allowed by jurisdictions with State Capital Requirements at December & # 160; 31, 2024. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; In 2023, the NAIC adopted a revised Mortgage Guaranty Insurance Model Act. The updated Model Act includes requirements relating to, among other things: (i) capital and minimum capital requirements, and contingency reserves; (ii) restrictions on mortgage insurers & # x2019; investments in notes secured by mortgages; (iii) prudent underwriting standards and formal underwriting guidelines; (iv) the & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; establishment of formal, internal & # x201c; Mortgage Guaranty Quality Control Programs & # x201d; with respect to in- force business; and (v) reinsurance and prohibitions on captive reinsurance arrangements. It is uncertain when the revised Model Act will be adopted in any jurisdiction. It is unknown whether any changes will be made by state legislatures prior to adoption, and the effect changes, if any, will have on the mortgage guaranty insurance market generally, or on our business. Wisconsin has begun the process to replace current mortgage insurance regulations with the Model Act, though it is expected that some changes will be made before formal adoption. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 3pt; text- align: justify" & gt; & lt; span style =" color: # 003b5c; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 700; line- height: 120 %" & gt; DIVIDEND RESTRICTIONS & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; MGIC is subject to statutory regulations as to payment of dividends. The maximum amount of dividends that MGIC may pay in any twelve- month period without regulatory approval by the OCI is the lesser of adjusted statutory net income or 10 % of statutory policyholders' surplus as of the preceding calendar year end. Adjusted statutory net income is defined for this purpose to be the greater of statutory net income, net of realized investment gains, for the calendar year preceding the date of the dividend or statutory net income, net of realized investment gains, for the & lt; span style ="- sec- ix- hidden: f- 1567" & gt; three & lt; / span & gt; calendar years preceding the date of the dividend less dividends paid within the first & lt; span style ="- sec- ix- hidden: f- 1568" & gt; two & lt; / span & gt; of the preceding & lt; span style ="- sec- ix- hidden: f- 1569" & gt; three & lt; / span & gt; calendar years. The maximum dividend that could be paid, without regulatory approval, is reduced by dividends paid in the twelve months preceding the dividend payment date. Before making any dividend payments, we notify the OCI to ensure it does not object. In 2024, MGIC paid

$ 750 & # 160; million in dividends to the holding company. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 3pt; text- align: justify" & gt; & lt; span style =" color: # 003b5c; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 700; line- height: 120 %" & gt; STATUTORY FINANCIAL INFORMATION & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; The OCI recognizes only statutory accounting principles prescribed, or practices permitted, by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company. The OCI has adopted certain prescribed accounting practices that differ from those found in other states. Specifically, Wisconsin domiciled companies record changes in the contingency loss reserves through the income statement as a change in underwriting deduction. As a result, in periods in which MGIC is increasing contingency loss reserves, statutory net income is reduced. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; Under the fair value method, compensation cost is measured at the grant date based on the fair value of the award and is recognized over the service period which generally corresponds to the vesting period. Awards under our plans generally vest over periods ranging from & lt; span style ="- sec- ix- hidden: f- 1592" & gt; one & lt; / span & gt; to three years, although awards to our non- employee directors vest immediately. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; We have an omnibus incentive plan that was adopted on April 23, 2020. When the 2020 plan was adopted, no further awards could be made under our previous 2015 plan. The purpose of the 2020 plan is to motivate and incentivize performance by, and to retain the services of, key employees and non- employee directors through receipt of equity- based and other incentive awards under the plan. Awards issued under the plan that are subsequently forfeited will not count against the limit on the maximum number of shares that may be issued under the plan. The 2020 plan provides for the award of stock options, stock appreciation rights, restricted stock and restricted stock units, as well as cash incentive awards. No awards may be granted after April 23, 2030 under the 2020 plan. The vesting provisions of options, restricted stock and restricted stock units are determined at the time of grant. At December & # 160; 31, 2024, 3. 6 million shares were available for future grant under the 2020 plan. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" & gt; The compensation cost that has been charged against income for share- based plans was $ 31. 2 million, $ 31. 5 million, and $ 24. 7 million for the years ended December & # 160; 31, 2024, 2023 and 2022, respectively. & # 160; The related income tax benefit recognized for share- based plans was $ 2. 4 million, $ 2. 9 million, and $ 2. 1 million for the years ended December & # 160; 31, 2024, 2023, and 2022, respectively.
