Risk Factors Comparison 2025-02-26 to 2024-02-21 Form: 10-K

Legend: **New Text** ~~Removed Text~~ Unchanged Text Moved Text Section

If our risk management programs are not effective in identifying, or adequate in controlling or mitigating, the risks we face, or if the models **we** ~~used~~ **use** ~~in our businesses~~ are inaccurate, it could have a material adverse impact on our business, results of operations and financial condition. Our enterprise risk management program, described in" Business- Our Products and Services- Risk Management" in Item 1 of our Annual Report on Form 10- K for the year ended December 31, 2023, may not be effective in identifying, or adequate in controlling or mitigating, the risks we face in our business. We employ proprietary and third- party models for a wide range of purposes, including the following: projecting losses, premiums, expenses, and returns; pricing products (through our risk- based pricing system); determining the techniques used to underwrite insurance; estimating reserves; evaluating risk; determining internal capital requirements; and performing stress testing. These models rely on estimates, projections, and assumptions that are inherently uncertain and may not always operate as intended. This can be especially true when extraordinary events occur, such as wars, periods of extreme inflation, pandemics, or environmental disasters related to changing climatic conditions. In addition, our models are being continuously updated over time. Changes in models or model assumptions could lead to material changes in our future expectations, returns, or financial results. The models we employ are complex, which could increase our risk of error in their design, implementation, or use. Also, the associated input data, assumptions, and calculations may not always be correct or accurate and the controls we have in place to mitigate these risks may not be effective in ~~MGIC Investment Corporation 2023 Form 10- K | 33 MGIC Investment Corporation and Subsidiaries~~ all cases. The risks related to our models may increase when we change assumptions, methodologies, or modeling platforms. Moreover, we may use information we receive through enhancements to refine or otherwise change existing assumptions and / or methodologies. Information technology system failures or interruptions may materially impact our operations and / or adversely affect our financial results. We are heavily dependent on our information technology systems to conduct our business. Our ability to efficiently operate our business depends significantly on the reliability and capacity of our systems and technology. The failure of our systems and technology, or our disaster recovery and business continuity plans, to operate effectively could affect our ability to provide our products and services to customers, reduce efficiency, or cause delays in operations. Significant capital investments might be required to remediate any such problems. We are also dependent on our ongoing relationships with key technology providers, including provisioning of their **services,** products and technologies, and their ability to support those products and technologies. The inability of these providers to successfully provide and support those products could have an adverse impact on our business and results of operations. From time to time we upgrade, automate or otherwise transform our information systems, business processes, risk- based pricing system, and our system for evaluating risk. Certain information systems have been in place for a number of years and it has become increasingly difficult to support their operation. The implementation of technological and business process improvements, as well as their integration with customer and third- party systems when applicable, is complex, expensive and time consuming. If we fail to timely and successfully implement and integrate the new technology systems, if the third party providers upon which we are reliant do not perform as expected, if our legacy systems fail to operate as required, or if the upgraded systems and / or transformed and automated business processes do not operate as expected, it could have a material adverse impact on our business ~~, business prospects~~ and results of operations. We could be materially adversely affected by a cybersecurity breach or failure of information security controls. As part of our business, we maintain large amounts of confidential and proprietary information both on our own servers and those of cloud computing services. This includes personal information of consumers and our employees. Personal information is subject to an increasing number of federal and state laws and regulations regarding privacy and data security, as well as contractual commitments. Any failure or perceived failure by us, or by the vendors with whom we share this information, to comply with such obligations may result in damage to our reputation, financial losses, litigation, increased costs, regulatory penalties or customer dissatisfaction. All information technology systems are potentially vulnerable to damage or interruption from a variety of sources, including by cyber attacks, such as those involving ransomware. We regularly defend against threats to our data and systems, including malware and computer virus attacks, unauthorized access, system failures and disruptions. Threats have the potential to jeopardize the information processed and stored in, and transmitted through, our computer systems and networks and otherwise cause interruptions or **MGIC Investment Corporation 2024 Form 10- K | 34 MGIC Investment Corporation and Subsidiaries** malfunctions in our operations, which could result in damage to our reputation, financial losses, litigation, increased costs, regulatory penalties or customer dissatisfaction. We could be similarly affected by threats against our vendors and / or third- parties with whom we share information. Globally, attacks are expected to continue accelerating in both frequency and sophistication with increasing use by actors of tools and techniques that may hinder **our** ~~the Company' s~~ ability to identify, investigate and recover from incidents. ~~Such~~ **The development and use of artificial intelligence (" AI") may increase our information security risks. For example, it may be more difficult to defend against cybersecurity breaches if AI is used to create attacks or bypass security measures. The relative newness of AI technology, and the lack of laws, regulations or standards governing its use may also increase the risk of misuse by us or by third parties with whom we do business. Cyber** attacks may ~~also~~ **additionally** increase as a result of retaliation by threat actors against actions taken by the U. S. and other countries in connection with wars and other global events. **We** ~~The Company operates~~ **operate** under a hybrid workforce model and such model may be more vulnerable to security breaches. While we have information security policies and systems in place to secure our information technology systems and to prevent unauthorized access to or disclosure of sensitive information, there can be no assurance with respect to our systems and those of our third- party vendors that unauthorized access to the systems or disclosure of ~~the~~ sensitive information, either through the actions of third parties or employees, will not occur. Due to our reliance on information technology systems, including ours and those of our customers and third- party service providers, and to the sensitivity of the information that we maintain, unauthorized access to the systems or disclosure of the information could adversely affect our reputation, severely disrupt our operations, result in a loss of business and expose us to material claims for damages and may require that we provide free credit monitoring services to individuals affected by a security breach. Should we experience an unauthorized disclosure of information or a cyber attack, including those involving ransomware, some of the costs we incur may not be recoverable through insurance, or legal or other processes, and this may have a material adverse effect on our results of operations. Our underwriting practices and the mix of business we write affects our Minimum Required Assets under the PMIERs, our premium yields and the likelihood of losses occurring. The Minimum Required Assets under the PMIERs are, in part, a function of the direct risk- in- force and the risk profile of the loans we insure, considering LTV ratio, credit score, vintage, Home Affordable Refinance Program (" HARP") status and delinquency status; and whether the loans were insured under lender- paid mortgage insurance policies or other policies that are not subject to automatic termination consistent with the Homeowners Protection Act requirements for borrower- paid mortgage insurance. Therefore, if our ~~MGIC Investment Corporation 2023 Form 10- K | 34~~ direct risk- in- force increases through increases in NIW, or if our mix of business changes to include loans with higher LTV ratios or lower FICO scores, for example, all other things equal, we will be required to hold more Available Assets in order to maintain GSE eligibility ~~. The percentage of our NIW from all single premium policies was 4. 0 % in 2023. Beginning in 2012, the annual percentage of our NIW from single policies has been as low as 4. 3 % in 2022 and as high as 20. 4 % in 2015~~ . Depending on the actual life of a single premium policy and its premium rate relative to that of a monthly premium policy, a single premium policy may generate more or less premium than a monthly premium policy over its life. **The percentage of our NIW from all single premium policies was 2. 4 % in 2024. Beginning in 2012, the annual percentage of our NIW from single premium policies has been as low as 2. 4 % in 2024 and as high as 20. 4 % in 2015.** As discussed in our risk factor titled" Reinsurance may ~~not always~~ be ~~available~~ **unavailable at current levels and prices, and /** or ~~its cost~~ **the GSEs** may ~~increase~~ **reduce the amount of capital credit we receive for our reinsurance transactions** ," we have in place various QSR transactions. Although the transactions reduce our premiums, they have a lesser impact on our overall results, as losses ceded under the transactions reduce our losses incurred and the ceding commissions we receive reduce our underwriting expenses. The effect of the QSR transactions on the various components of pre- tax income will vary from period to period, depending on the level of ceded losses incurred. We also have in place various XOL reinsurance transactions under which we cede premiums. Under the XOL reinsurance transactions, for the respective reinsurance coverage periods, we retain the first layer of aggregate losses and the reinsurers provide second layer coverage up to the outstanding reinsurance coverage amount. In addition to the effect of reinsurance on our premiums, **if credit performance remains strong and loss ratios remain low,** we expect a decline in our ~~premium yield (net premiums earned divided by the average insurance~~ in force ~~)~~ **portfolio yield** over time as **competition in the industry results in** ~~a large percentage of our current IIF is from book years with~~ lower premium rates ~~due a decline in premium rates in recent years resulting from pricing competition, insuring mortgages with lower risk characteristics, lower required capital, and certain policies undergoing premium rate resets on their ten- year anniversaries~~ . Refinance transactions on single premium policies benefit **the** ~~our premium~~ yield due to the impact of accelerated earned premium from cancellation prior to their estimated life. Recent low levels of refinance transactions have reduced that benefit. Our ability to rescind insurance coverage became more limited for new insurance written beginning in mid- 2012, and it became further limited for new insurance written under our revised master policy that became effective March 1, 2020. These limitations may result in higher losses paid than would be the case under our previous master policies. From time to time, in response to market conditions, we change the types of loans that we insure. We also may change our underwriting guidelines, including by agreeing with certain approval recommendations from a GSE automated underwriting system. We also make exceptions to our underwriting requirements on a loan- by- loan basis and for certain customer programs. Our underwriting requirements are available on our website at http: / / www. mgic. com / underwriting ~~/ index~~ . ~~html.~~ **MGIC Investment Corporation 2024 Form 10- K | 35** Even when home prices are stable or rising, mortgages with certain characteristics have higher probabilities of claims. As of December 31, ~~2023~~ **2024** , mortgages with these characteristics in our primary risk in force included mortgages with LTV ratios greater than 95 % (~~16~~ **17** %), mortgages with borrowers having FICO scores below 680 (~~7~~ **6** %), including those with borrowers having FICO scores of 620- 679 (6 %), mortgages with limited underwriting, including limited borrower documentation (1 %), and mortgages with borrowers having DTI ratios greater than 45 % (or where no ratio is available) (~~18~~ **20** %) ~~,~~ **. ~~each~~ Each** attribute is determined at the time of loan origination. Loans with more than one of these attributes accounted for 5 % of our primary risk in force as of December 31, ~~2023~~ **2024** , **and 5 %** and 4 % of our primary risk in force as of December 31, ~~2022~~ **2023** and December 31, ~~2021~~ **2022 , respectively** . When home prices increase, interest rates increase and / or the percentage of our NIW from purchase transactions increases, our NIW on mortgages with higher LTV ratios and higher DTI ratios may increase. Our NIW on mortgages with LTV ratios greater than 95 % was **14 % in 2024 and** 12 % in 2023 ~~and 2022~~ . Our NIW on mortgages with DTI ratios greater than 45 % was **29 % in 2024 and** 26 % in 2023 **. Our NIW on mortgages with borrowers having FICO scores less than 680 was 4. 0 % in 2024** and ~~21~~ **4. 2** % in ~~2022~~ **2023** . From time to time, we change the processes we use to underwrite loans. For example: we rely on information provided to us by lenders that was obtained from certain of the GSEs' automated appraisal and income verification tools, which may produce results that differ from the results that would have been determined using different methods; we accept GSE appraisal waivers for certain ~~refinance~~ loans; and we accept GSE appraisal flexibilities that allow property valuations in certain transactions to be based on appraisals that do not involve an onsite or interior inspection of the property. Our acceptance of automated GSE appraisal and income verification tools, GSE appraisal waivers and GSE appraisal flexibilities may affect our pricing and risk assessment. We also continue to further automate our underwriting processes and it is possible that our automated processes result in our insuring loans that we would **have insured at a different premium rate or** not otherwise have insured under our prior processes. Approximately 71 % of our NIW during **2024 and** 2023 ~~and 72 % of our 2022 NIW~~ was originated under delegated underwriting programs pursuant to which the loan originators had authority on our behalf to underwrite the loans for our mortgage insurance. For loans originated through a delegated underwriting program, we depend on the originators' compliance with our guidelines and rely on the originators' representations that the loans being insured satisfy the underwriting guidelines, eligibility criteria and other requirements. While we have established systems and processes to monitor whether certain aspects of our underwriting guidelines were being followed by the originators, such systems may not ensure that the guidelines were being strictly followed at the time the loans were originated. The widespread use of risk- based pricing systems by the private mortgage insurance industry (discussed in our risk factor titled" Competition or changes in our relationships with our customers could reduce our revenues, reduce our premium yields and / or increase our losses") makes it more difficult to compare our premium rates to those offered by our competitors. We may not be aware of industry rate changes until we observe that our mix of new insurance written has changed and our mix may fluctuate more as a result. **In March** ~~MGIC Investment Corporation 2023~~ **2024** ~~Form 10- K | 35 If state or federal regulations or statutes are changed in ways that ease mortgage lending standards and / or requirements~~ , ~~or if lenders seek ways~~ **the National Association of Realtors (" NAR") reached a settlement agreement** to **resolve a series** ~~replace business in times~~ of **lawsuits against** ~~lower mortgage originations,~~ it ~~is possible that more mortgage loans could be originated with higher risk characteristics than are currently being originated, such as loans with lower FICO scores and higher DTI ratios~~ . ~~The focus~~ **As part** of the ~~new FHFA leadership~~ **settlement, NAR now prohibits the requirement that home sellers, through the seller' s agent commission structure, offer to pay the real estate brokerage fees of homebuyers' real estate agents in order to list for- sale properties** on ~~increasing homeownership opportunities for borrowers~~ **NAR- affiliated Multiple Listing Services. If the expense of the buyer' s agent commission** is ~~likely~~ **shifted** to ~~have this effect. Lenders could pressure mortgage insurers~~ **the buyer, it may negatively impact the ability of the buyer** to **secure financing** ~~insure such loans, which are expected to experience higher claim rates. Although we attempt to incorporate these higher expected claim rates into our underwriting and pricing models, there can be no assurance that the premiums earned and the associated investment income will be adequate to compensate for actual losses paid even under our current underwriting requirements~~ . The premiums we charge may not be adequate to compensate us for our liabilities for losses and as a result any inadequacy could materially affect our financial condition and results of operations. When we set our premiums at policy issuance, we have expectations regarding likely performance of the insured risks over the long term. Generally, we cannot cancel mortgage insurance coverage or adjust renewal premiums during the life of a policy. As a result, **changes in economic conditions or the practices of the GSEs,** higher than anticipated claims **, or other unexpected events** generally cannot be ~~offset~~ **addressed** by premium increases on policies in force or mitigated by our non- renewal or cancellation of insurance coverage. Our premiums are subject to approval by state regulatory agencies, which can delay or limit our ability to increase premiums on future policies. In addition, our customized rate plans may delay our ability to increase premiums on future policies covered by such plans. The premiums we charge, the investment income we earn and the amount of reinsurance we carry may not be adequate to compensate us for the risks and costs associated with the insurance coverage provided to customers. An increase in the number or size of

claims, compared to what we anticipated when we set the premiums, could adversely affect our results of operations or financial condition. Our premium rates are also based in part on the amount of capital we are required to hold against the insured risk. If the amount of capital we are required to hold increases from the amount we were required to hold when we set the premiums, our returns may be lower than we assumed. For a discussion of the amount of capital we are required to hold, see our risk factor titled" We may not continue to meet the GSEs' private mortgage insurer eligibility requirements and our returns may decrease if we are required to maintain more capital in order to maintain our eligibility." **If state or federal regulations or statutes are changed in ways that ease mortgage lending standards and / or requirements, or if lenders seek ways to replace business in times of lower mortgage originations, it is possible that more mortgage loans could be originated with higher risk characteristics than are currently being originated, such as loans with lower FICO scores and higher DTI ratios. The focus of the FHFA leadership on increasing homeownership opportunities for borrowers is likely to have this effect. Lenders could pressure mortgage insurers to insure such loans, which are expected to experience higher claim rates. Although we attempt to incorporate these higher expected claim rates into our underwriting and pricing models, there can be no assurance that the premiums earned and the associated investment income will be adequate to compensate for actual losses paid even under our current underwriting requirements. MGIC Investment Corporation 2024 Form 10- K | 36** Actual or perceived instability in the financial services industry or non- performance by financial institutions or transactional counterparties could materially impact our business. Limited liquidity, defaults, non- performance or other adverse developments that affect financial institutions, transactional counterparties or other companies in the financial services industry with which we do business, or concerns or rumors about the possibility of such events, have in the past and may in the future lead to market- wide liquidity problems. Such conditions may negatively impact our results and / or financial condition. While we are unable to predict the full impact of these conditions, they may lead to among other things: disruption to the mortgage market, delayed access to deposits or other financial assets; losses of deposits in excess of federally- insured levels; reduced access to, or increased costs associated with, funding sources and other credit arrangements adequate to finance our current or future operations; increased regulatory pressure; the inability of our counterparties and / or customers to meet their obligations to us; economic downturn; and rising unemployment levels. Refer to our risk factor titled " Downturns in the domestic economy or declines in home prices may result in more homeowners defaulting and our losses increasing, with a corresponding decrease in our returns " for more information about the potential effects of a deterioration of economic conditions on our business. We routinely execute transactions with counterparties in the financial services industry, including commercial banks, brokers and dealers, investment banks, reinsurers, and our customers. Many of these transactions expose us to credit risk and losses in the event of a default by a counterparty or customer. Any such losses could have a material adverse effect on our financial condition and results of operations. We rely on our management team and our business could be harmed if we are unable to retain qualified personnel or successfully develop and / or recruit their replacements. Our success depends, in part, on the skills, working relationships and continued services of our management team and other key personnel. The unexpected departure of key personnel could adversely affect the conduct of our business. In such event, we would be required to obtain other personnel to manage and operate our business. In addition, we will be required to replace the knowledge and expertise of our aging workforce as our workers retire. In either case, there can be no assurance that we would be able to develop or recruit suitable replacements for the departing individuals; that replacements could be hired, if necessary, on terms that are favorable to us; or that we can successfully transition such replacements in a timely manner. We currently have not entered into any employment agreements with our officers or key personnel. Volatility or lack of performance in our stock price may affect our ability to retain our key personnel or attract replacements should key personnel depart. Without a properly skilled and experienced workforce, our costs, including productivity costs and costs to replace employees may increase, and this could negatively impact our earnings. Competition or changes in our relationships with our customers could reduce our revenues, reduce our premium yields and / or increase our losses. The ~~private~~ mortgage insurance industry is highly competitive and is expected to remain so **. Our competitors primarily include other private mortgage insurers and governmental agencies, principally the FHA and VA** . We believe we currently compete with other private mortgage insurers based on premium rates, underwriting requirements, financial strength (including based on credit or financial strength ratings), customer relationships, name recognition, reputation, strength of management teams and field organizations, the ~~MGIC Investment Corporation 2023 Form 10- K | 36~~ ancillary products and services provided to lenders, and the effective use of technology and innovation in the delivery and servicing of our mortgage insurance products. **Recently reported increases in the credit quality of borrowers, and the relative financial results of the existing mortgage insurance companies, may encourage new entrants into the private mortgage insurance industry, which could further increase competition in our business. Changes in the competitive landscape, including as a result of new market entrants, may adversely impact our results.** Our relationships with our customers, which may affect the amount of our NIW, could be adversely affected by a variety of factors, including if our premium rates are higher than those of our competitors, our underwriting requirements are more restrictive than those of our competitors, our customers are dissatisfied with our claims- paying practices (including insurance policy rescissions and claim curtailments), or the availability of alternatives to mortgage insurance. In recent years, **pricing has become a key competitive factor in** the **private mortgage insurance market, with an increasing number of customers prioritizing the lowest premium rate available for any particular loan. The** industry has materially reduced its use of standard rate cards, which were fairly consistent among competitors, and correspondingly increased its use of (i) pricing systems that use a spectrum of filed rates to allow for formulaic, risk- based pricing based on multiple attributes that may be quickly adjusted within certain parameters, and (ii) customized rate plans **pursuant to which rates may be available to customers for a defined period of time** . The widespread use of risk- based pricing systems by the private mortgage insurance industry makes it more difficult to compare our rates to those offered by our competitors. We may not be aware of industry rate changes until we observe that our volume of NIW has changed. In addition, business under customized rate plans is awarded by certain customers for only limited periods of time. As a result, our NIW may fluctuate more than it had in the past. Failure to maintain our business relationships and business volumes with our largest customers could materially impact our business. Regarding the concentration of our new business, our top ten customers accounted for approximately 37 % ~~and 33 %~~ in the twelve months ended December 31, ~~2023~~ **2024** and December 31, ~~2022~~ **2023** , respectively. We monitor various competitive and economic factors while seeking to balance both profitability and market share considerations in developing our pricing strategies. Our premium yield is expected to decline over time as older insurance policies with premium rates that are generally higher run off and new insurance policies with premium rates that are generally lower remain on our books. **MGIC Investment Corporation 2024 Form 10- K | 37 Additionally, technological advancements and innovation are occurring at a rapid pace that may continue to accelerate. Our competitive position could be impacted if we are unable to utilize, in a cost effective and competitive manner, technology such as AI and machine learning that collects and analyzes data to inform underwriting or other decisions, or if our competitors collect and use data which we do not have the ability to access or use. Changes in technology related to collection and application of data could expose us to regulatory or legal actions and may have a material adverse effect on our business, reputation, results of operations and financial condition.** Certain of our competitors have access to capital at a lower cost than we do (including, through off- shore intercompany reinsurance vehicles, which have tax advantages that may increase if U. S. corporate income taxes increase). As a result, they may be able to achieve higher after- tax rates of return on their NIW compared to us, which could allow them to leverage reduced premium rates to gain market share, and they may be better positioned to compete outside of traditional mortgage insurance, including by participating in alternative forms of credit enhancement pursued by the GSEs discussed in our risk factor titled" The amount of insurance we write could be adversely affected if lenders and investors select alternatives to private mortgage insurance or are unable to obtain capital relief for mortgage insurance." Adverse rating agency actions could have a material adverse impact on our business, results of operations and financial condition. Financial strength ratings, which various rating agencies publish as independent opinions of an insurer' s financial strength and ability to meet ongoing insurance and contract obligations, are important to maintaining public confidence in our mortgage insurance coverage and our competitive position. PMIERs requires approved insurers to maintain at least one rating with a rating agency acceptable to the respective GSEs. Downgrades in our financial strength ratings could materially affect our business and results of operations, including in the ways described below: • Our failure to maintain a rating acceptable to the GSEs could impact our eligibility as an approved insurer under PMIERs. • A downgrade in our financial strength ratings could result in increased scrutiny of our financial condition by the GSEs and / or our customers, potentially resulting in a decrease in the amount of our NIW. • If we are unable to compete effectively in the current or any future markets as a result of the financial strength ratings assigned to our insurance subsidiaries, our future NIW could be negatively affected. • Our ability to participate in the non- GSE residential mortgage- backed securities market (the size of which has been limited since 2008, but may grow in the future), could depend on our ability to maintain and improve our investment grade ratings for our insurance subsidiaries. We could be competitively disadvantaged with some market participants because the financial strength ratings of our insurance subsidiaries are lower than those of some competitors. MGIC' s financial strength rating from A. M. Best is A **–** (with a ~~positive~~ **stable** outlook), from Moody' s is A3 (with a ~~stable~~ **positive** outlook) and from Standard & Poor' s is A- (with a stable outlook). • Financial strength ratings may also play a greater role if the GSEs no longer operate in their current capacities, for example, due to legislative or regulatory action. In addition, although the PMIERs do not require minimum financial strength ratings, the GSEs consider financial strength ratings to be important when using forms of credit enhancement other than traditional mortgage insurance, as discussed in our risk factor titled" The amount of insurance we write could be adversely affected if lenders and investors select alternatives to private mortgage insurance or are unable to obtain capital relief for mortgage insurance." The final GSE capital framework provides more capital credit for transactions with higher rated counterparties, as well as those who are diversified. Although we are currently unaware of a direct impact on MGIC, this could potentially become a competitive disadvantage in the future. • Downgrades to our ratings or the ratings of our mortgage insurance subsidiary could adversely affect our cost of funds, liquidity, and access to capital markets. ~~MGIC Investment Corporation 2023 Form 10- K | 37~~ We are subject to the risk of legal proceedings. We operate in a highly regulated industry that is subject to the risk of litigation and regulatory proceedings, including related to our claims paying practices. From time to time, we are a party to material litigation and are also subject to legal and regulatory claims, assertions, actions, reviews, audits, inquiries and investigations. Additional lawsuits, legal and regulatory proceedings and inquiries or other matters may arise in the future. The outcome of future legal and regulatory proceedings, inquiries or other matters could result in adverse judgments, settlements, fines, injunctions, restitutions or other relief which could require significant expenditures or have a material adverse effect on our business ~~prospects~~ , results of operations and financial condition. See our risk factor titled" We are subject to comprehensive regulation and other requirements, which we may fail to satisfy" for additional information about risks related to government enforcement actions. From time to time, we are involved in disputes and legal proceedings in the ordinary course of business. In our opinion, based on the facts known at this time, the ultimate resolution of these ordinary course disputes and legal proceedings will not have a material adverse effect on our financial ~~position~~ **condition** or results of operations. Under ASC 450- 20, until a loss associated with settlement discussions or legal proceedings becomes probable and can be reasonably estimated, we do not accrue an estimated loss. When we determine that a loss is probable and can be reasonably estimated, we record our best estimate of our probable loss. In those cases, until settlement negotiations or legal proceedings are concluded it is possible that we will record an additional loss. **MGIC Investment Corporation 2024 Form 10- K | 38** Our success depends, in part, on our ability to manage risks in our investment portfolio. Our investment portfolio is an important source of revenue and is our primary source of claims paying resources. Although our investment portfolio consists mostly of ~~highly~~ – **high quality, investment** - ~~rated~~ **grade** fixed income investments, our investment portfolio is affected by general economic conditions and tax policy, which may adversely affect the markets for credit and interest- rate- sensitive securities, including the extent and timing of investor participation in these markets, the level and volatility of interest rates and credit spreads and, consequently, the value of our fixed income securities. Prevailing market rates have increased for various reasons, including inflationary pressures, which has reduced the fair value of our investment portfolio holdings relative to their amortized cost. The value of our investment portfolio may also be adversely affected by ratings downgrades, increased bankruptcies, and credit spreads widening. In addition, the collectability and valuation of our municipal bond portfolio may be adversely affected by budget deficits, and declining tax bases and revenues experienced by state and local municipalities. Our investment portfolio also includes commercial mortgage- backed securities, collateralized loan obligations, and asset- backed securities, which could be adversely affected by declines in real estate valuations, increases in unemployment, geopolitical risks and / or financial market disruption, including more restrictive lending conditions and a heightened collection risk on the underlying loans. As a result of these matters, we may not achieve our investment objectives and a reduction in the market value of our investments could have an adverse effect on our liquidity, financial condition and results of operations. We carry certain financial instruments at fair value and disclose the fair value of all financial instruments. Valuations use inputs and assumptions that are not always observable or may require estimation; valuation methods may be complex and may also require estimation, thereby resulting in values that are less certain and may vary significantly from the value at which the investments may be ultimately sold. For additional information about the methodologies, estimates and assumptions we use in determining the fair value of our investments refer to Note 3 of Item 8 in Part II our Annual Report on Form 10- K for the year ended December 31, 2023-" Fair Value Measurements." Federal budget deficit concerns and the potential for political conflict over the U. S. government' s debt limit may increase the possibility of a default by the U. S. government on its debt obligations, related credit- rating downgrades, or an economic recession in the United States. Many of our investment securities are issued by the U. S. government and government agencies and sponsored entities. As a result of uncertain domestic political conditions, including potential future federal government shutdowns, the possibility of the federal government defaulting on its obligations due to debt ceiling limitations or other unresolved political issues, investments in financial instruments issued or guaranteed by the federal government pose liquidity risks. Any potential downgrades by rating agencies in long- term sovereign credit ratings, as well as sovereign debt issues facing the governments of other countries, could have a material adverse impact on financial markets and economic conditions worldwide. For the significant portion of our investment portfolio that is held by MGIC, to receive full capital credit under insurance regulatory requirements and under the PMIERs, we generally are limited to investing in investment grade fixed income securities whose yields reflect their lower credit risk profile. Our investment income depends upon the size of the portfolio and its reinvestment at prevailing interest rates. A prolonged period of low investment yields would have an adverse impact on our investment income as would a decrease in the size of the portfolio. We structure our investment portfolio to satisfy our expected liabilities, including claim payments in our mortgage insurance business. If we underestimate our liabilities or improperly structure our investments to meet these liabilities, we could have unexpected losses resulting from the forced liquidation of fixed income investments before their maturity, which could adversely affect our results of operations. **The inability of our insurance subsidiaries to pay dividends in sufficient amounts would harm our ability to meet our obligations, pay future shareholder dividends and / or make future share repurchases.** MGIC Investment Corporation **is the** ~~2023 Form 10- K | 38 Our~~ holding company ~~debt obligations~~ **for our insurance operating subsidiaries. At the holding company level, our principal assets** are **the shares of capital stock of our insurance company subsidiaries and** ~~material. At December 31, 2023, we had approximately $ 918 million in~~ cash and investments ~~at our~~ **. Dividends and other permitted distributions from MGIC are the** holding company **'** ~~and our holding company's~~ **primary source of funds used to meet ongoing cash requirements, including future** ~~long- term debt obligations were $~~

~~650 million in aggregate principal amount. Annual~~ debt service **payments, repurchases** ~~on the long- term debt obligations outstanding as~~ of ~~December 31, 2023, is approximately $ 34 million. The long- term debt obligations are owed by our holding company, MGIC Investment Corporation, and not~~ its **shares,** ~~subsidiaries. The~~ payment of dividends **to** ~~from MGIC is the principal source of~~ our ~~holding company cash inflow~~ **shareholders, and other expenses** . Other sources of holding company cash inflow include investment income and raising capital in the public markets. The payment of dividends **from** ~~on our common shares in the future depends largely on the earnings and cash flows of~~ MGIC ~~, and~~ is ~~additionally~~ subject to regulatory approval as described ~~below. Although MGIC holds assets~~ in **our Annual Reports on Form 10- K** ~~excess of its minimum statutory capital requirements and its PMIERs financial requirements, the ability of MGIC to pay dividends is restricted by insurance regulation~~ . In general, dividends in excess of prescribed limits are deemed " extraordinary " and may not be paid if disapproved by the OCI. ~~In 2024~~ **The prescribed limits are based on a rolling 12- month period** , ~~MGIC can pay $ 64 million~~ **and as such, the impact** of ~~ordinary dividends without OCI approval, before taking into consideration dividends paid in~~ the **limitations will vary over time** ~~preceding twelve months. A dividend is extraordinary when the proposed dividend amount plus dividends paid in the last twelve months from the dividend payment date exceed the ordinary dividend level~~ . In the twelve months ended December 31, ~~2023~~ **2024** , MGIC paid $ ~~600~~ **750** million in dividends to the holding company. Future dividend payments from MGIC to the holding company will be determined in consultation with the ~~board~~ **Board** of ~~directors~~ **Directors** , and after considering any updated estimates about our business **, subject to regulatory approval** . **The long- term debt obligations are owed by the holding company and not its subsidiaries. At December 31, 2024, we had approximately $ 1. 1 billion in cash and investments at our holding company and our holding company' s long- term debt obligations were $ 650 million in aggregate principal amount. Annual debt service on the long- term debt obligations outstanding as of December 31, 2024, is approximately $ 34 million. The inability of MGIC to pay dividends (or other intercompany amounts due) in an amount sufficient to enable us to meet our cash requirements at the holding company level could have an adverse effect on our operations, and our ability to repay debt, repurchase shares and / or pay dividends to shareholders. MGIC Investment Corporation 2024 Form 10- K | 39** If any capital contributions to our subsidiaries are required, such contributions would decrease our holding company cash and investments. Your ownership in our company may be diluted by additional capital that we raise. As noted above under our risk factor titled " We may not continue to meet the GSEs' private mortgage insurer eligibility requirements and our returns may decrease if we are required to maintain more capital in order to maintain our eligibility, " although we are currently in compliance with the requirements of the PMIERs, there can be no assurance that we would not seek to issue additional debt capital or to raise additional equity or equity- linked capital to manage our capital position under the PMIERs or for other purposes. Any future issuance of equity securities may dilute your ownership interest in our company. In addition, the market price of our common stock could decline as a result of sales of a large number of shares or similar securities in the market or the perception that such sales could occur. The price of our common stock may fluctuate significantly, which may make it difficult for holders to resell common stock when they want or at a price they find attractive. The market price for our common stock may fluctuate significantly. In addition to the risk factors described herein, the following factors may have an adverse impact on the market price for our common stock: changes in general conditions in the economy **or the housing market** , the mortgage insurance industry or the financial stability of markets and financial services industry; announcements by us or our competitors of acquisitions or strategic initiatives; our actual or anticipated quarterly and annual operating results; changes in expectations of future financial performance (including incurred losses on our insurance in force); changes in estimates of securities analysts or rating agencies; actual or anticipated changes in our share repurchase program or dividends; changes in operating performance or market valuation of companies in the mortgage insurance industry; the addition or departure of key personnel; **failure to establish and maintain effective internal controls over financial reporting,** changes in tax law; and adverse press or news announcements affecting us or the industry. In addition, ownership by certain types of investors may affect the market price and trading volume of our common stock. For example, ownership in our common stock by investors such as index funds and exchange- traded funds can affect the stock' s price when those investors must purchase or sell our common stock because the investors have experienced significant cash inflows or outflows, the index to which our common stock belongs has been rebalanced, or our common stock is added to and / or removed from an index (due to changes in our market capitalization, for example). MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~39~~ **40** Item 1B. Unresolved Staff Comments None. Item 1C. Cybersecurity **RISK MANAGEMENT AND STRATEGY** MGIC' s Information Security Program **(ISP)** includes information security policies, annual risk assessments and analyses, threat monitoring and alerting, vulnerability management, incident response, and data loss prevention controls. With ~~this program~~ **the ISP** , MGIC seeks to prevent, detect, and respond to unauthorized access, use, or disclosure of confidential information. MGIC' s Information Risk Management (IRM) team is responsible for safeguarding the organization' s information assets, data, and technology infrastructure from security threats and vulnerabilities. The IRM team' s primary focus is the protection of the confidentiality, integrity, and availability of sensitive information and compliance with relevant laws, regulations, and industry standards. **The IRM team is overseen by the Company' s Chief Information Security Officer (CISO). Our ISP is benchmarked against the National Institute of Standards and Technology (NIST) Cybersecurity Framework. Additionally,** ~~Various~~ **various** aspects of the **ISP** ~~Information Security Program~~ are subject to periodic audit by the Company' s Internal Audit department or third- party professionals engaged by the Internal Audit department. Such audits vary from year- to- year but are generally focused on compliance with stated control activities, standards, and internal policies, as well as maintaining the integrity and independence of the audit process. Cybersecurity risk reviews such as SOC2, SOX controls, ~~Penetration~~ **penetration** ~~Tests~~ **tests** , and regulatory controls are conducted by independent third parties. The **ISP** ~~Information Security Program~~ also incorporates a vendor due diligence process that is designed to **assess vendor control environments and** evaluate ~~whether a~~ **risks associated with** vendor **access to the Company' s** ~~or third- party service provider that receives~~ confidential data ~~meets MGIC' s information security governance, risk,~~ and **systems** ~~compliance requirements~~ . The process includes assessing and managing the cyber risks associated with engaging third- party vendors and reviewing their information security practices. In the event of a suspected or threatened cybersecurity incident, the ~~Company' s Chief Information Security Officer (" CISO ")~~ determines whether to activate the Company' s Cyber Incident Response Team (" CIRT "), composed of different subject matter experts from applicable domains such as network, infrastructure, and application areas in order to evaluate the technical issues relative to the incident. The CIRT is overseen by the CISO. If necessary, the CIRT may engage third- party cybersecurity experts to evaluate and / or remediate the incident **. If and when the CIRT is activated, the CISO will inform the Company' s Chief Information Officer (CIO)** . In the event that the CIRT confirms that the incident relates to a cybersecurity incident or compromise of MGIC' s computer systems, the CISO will notify the General Counsel, who will advise the Chief Executive Officer (" CEO"), who is a member of the Board of Directors. In addition to advising the CEO, the General Counsel will also convene an established committee whose members include the General Counsel, Chief Financial **and Risk** Officer, Senior Vice President of Investor Relations, and Chief Accounting Officer in order to determine if the event is a material cybersecurity incident so as to trigger an Item 1. 05 filing on Form 8- K. If a determination is made that the event is material, or if the CEO or General Counsel otherwise determines it advisable, the CEO or General Counsel, or a delegate thereof, shall notify the Chairman of the Board, Lead Independent Director, and Chairpersons of the Board' s Business Technology and Transformation Committee (the " BTTC ") and Audit Committee. To our knowledge, **during the reporting period** there **were** ~~have been~~ no cybersecurity incidents that ~~have~~ materially affected or are reasonably likely to materially affect ~~the Company. If a cybersecurity incident were to occur, it could affect~~ our ~~operations~~ **business strategies** , results of operations, or financial condition ~~as described in~~ **. For additional information about risks related to cybersecurity, see** our ~~Risk~~ **risk** ~~Factors~~ **factors** titled " Information technology system failures or interruptions may materially impact our operations and / or adversely affect our financial results " and " We could be materially adversely affected by a cybersecurity breach or failure of information security controls." **GOVERNANCE** The CISO **reports to the CIO and** partners with the Company' s Risk **, Audit, Legal and Compliance** ~~Department~~ **Departments** to promote alignment of cybersecurity risk management strategy with the broader risk management strategy for the organization. The integration of information security into the overall enterprise risk management framework enables collaboration on the identification, assessment, mitigation and monitoring of cybersecurity risks that have the potential to materially impact the operation of the Company. The Risk Management Committee of the Board coordinates with the Board and other Board committees regarding the assignment to the Board and Committees of oversight responsibilities for all identified key risks to the Company. Risks related to cybersecurity are overseen by the BTTC. The BTTC monitors cybersecurity risks associated with both internal and external actors, including third- party vendors and service providers. Additional information about the BTTC' s role in overseeing risks related to cybersecurity and information technology generally can be found in the Committee' s Charter at mtg. mgic. com / corporate- governance / highlights. The CISO provides quarterly updates about the Company' s cybersecurity program to the BTTC. Updates may include topics such as management' s efforts to identify and monitor risks, investments to improve the Company' s detection and response systems, the results of risk assessments, compliance with controls, vendor oversight, strategic technology planning, and if necessary, the status of any new, ongoing, or prior cybersecurity incident. The CISO also periodically attends the BTTC meetings **; the CIO regularly attends the meetings** . MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~40~~ **41** The Company' s current CISO, Jennifer Westphal, is responsible for assessing and managing the material risks posed by cybersecurity threats. Ms. Westphal has over 25 years of experience in information technology, with 18 of those years focused on cybersecurity. Ms. Westphal has been with the Company for more than ten years and was promoted to the position of CISO in January 2021. Prior to 2021, Ms. Westphal served as the Deputy CISO and before that, as the Director of Information Risk Management. **The Company' s current CIO, Robert Candelmo, has over 38 years of experience in information technology, with 20 of those years in senior leadership positions. Prior to becoming CIO in 2019, he served as the Company' s Chief Technology Officer for approximately five years. Before joining the Company, Mr. Candelmo served as Senior Vice President of Enterprise Information Services for a large banking company. Mr. Candelmo has a Bachelor of Science in Computer Science.** Item 2. Properties At December 31, ~~2023~~ **2024** , we had no office space leases in the United States that require monthly rental payments. We own our headquarters facility located in Milwaukee, Wisconsin, which contains approximately 220, 000 square feet of space. Item 3. Legal Proceedings Certain legal proceedings arising in the ordinary course of business may be filed or pending against us from time to time. For information about such legal proceedings, see Note 17 –" Litigation and Contingencies" to our consolidated financial statements in Item 8. Item 4. Mine Safety Disclosures Not Applicable. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~44~~ **45** Item 7. Management' s Discussion and Analysis of Financial Condition and Results of

Operations INTRODUCTION As used below, " we " and " our " refer to MGIC Investment Corporation' s consolidated operations or to MGIC Investment Corporation, as a separate entity, as the context requires. References to" we" and" our" in the context of debt obligations refer to MGIC Investment Corporation. See the" Glossary of terms and acronyms" for definitions and descriptions of terms used throughout this annual report. The Risk risk Factors factors contained in Item 1A discuss trends and uncertainties affecting us and are an integral part of the MD & A. The following is a discussion and analysis of the financial conditions and results of operations for the years ended December 31, 2024 and 2023 and 2022 , including comparisons between 2024 and 2023. Comparisons between 2023 and 2022 . Comparisons between 2022 and 2021 have been omitted from this Form 10- K, but can be found in" Item 7- Management' s Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10- K for the year ended December 31, 2022 2023 filed with the SEC. Forward Looking and Other Statements As discussed under " Forward Looking Statements and Risk Factors " in Item 1A of Part 1 of this Report, actual results may differ materially from the results contemplated by forward looking statements. We are not undertaking any obligation to update any forward looking statements or other statements we may make in the following discussion or elsewhere in this document even though these statements may be affected by events or circumstances occurring after the forward looking statements or other statements were made. Therefore, no reader of this document should rely on these statements being current as of any time other than the time at which this document was filed with the Securities and Exchange Commission. MGIC Investment Corporation 2023 2024 Form 10- K | 45 46 OVERVIEW This Overview of the MD & A highlights selected information and may not contain all of the information that is important to readers of this Annual Report. Hence, this Overview is qualified by the information that appears elsewhere in this Annual Report, including the other portions of the MD & A. Through MGIC, the principal subsidiary of MGIC Investment Corporation, we serve lenders throughout the United States helping families achieve homeownership sooner by making affordable low- down- payment mortgages a reality through the use of private mortgage insurance. At December 31, 2023 2024 MGIC had $ 293 295 . 5 4 billion of primary IIF. Summary of financial results of MGIC Investment CorporationYear Ended December 31, (in millions thousands , except per share data) 20232022ChangeSelected ---- 20242023ChangeSelected statement of operations dataNet premiums earned $ 970, 807 $ 952 . 6 $ 1 , 551 2 007. 1 (5) % Investment income, net of expenses214 - expenses244 . 7 167. 5 28 , 640 214, 740 14 % Losses incurred, net (20. 9 14, 861) (254. 6 20, 856) 29 (92) % Other underwriting and operating expenses, net226. 0 236. net209, 324 226, 004 (7 (5) % Loss on debt extinguishment — 40. 2 N / MIncome - Income before tax968 tax902. 2 1 . 709 902, 229 7 090. 0 (17) % Provision for income taxes189. 3 224. taxes205, 715 189, 280 9 % Net income762, 994 712, 949 7 (16) % Net income712. 9 865. 3 (18) % Diluted income per share $ 2. 49 89 $ 2. 49 16 79 (11) % Non- GAAP Financial Measures (1) Adjusted pre- tax operating income $ 917. 8 975, 623 $ 1 916 , 778 6 140. 0 (19) % Adjusted net operating income724 income768 , 456 724, 443 6 , 4 904. 8 (20) % Adjusted net operating income per diluted share $ 2. 53 91 $ 2. 53 15 91 (13) % (1) See" Explanation and Reconciliation of our use of Non- GAAP Financial Measures." SUMMARY OF 2023 2024 FINANCIAL RESULTS Net income for 2023 2024 was $ 712 763 . 9 0 million (2022 2023 : $ 865 712 . 3 9 million) and diluted income per share was $ 2. 49 89 (2022 2023 : $ 2. 79 49). The decrease increase in net income is primarily due to an increase in losses incurred investment income, net of expenses, an increase in net premiums earned, and a decrease in other underwriting and operating expenses, net premiums earned . This was partially offset by an increase in investment income losses incurred , net of expenses, a decrease in loss on debt extinguishment, and a an decrease increase in our provision for income taxes. Diluted income per share decreased increased primarily due to a an decrease increase in net income and , partially offset by a decrease in the number of diluted weighted average shares outstanding. Adjusted net operating income for 2023 2024 was $ 724 768 . 4 5 million (2022 2023 : $ 904 724 . 8 4 million) and adjusted net operating income per diluted share was $ 2. 53 91 (2022 2023 : $ 2. 91 53). The decrease increase in adjusted net operating income in 2023 2024 compared to 2022 2023 is primarily due to a an decrease increase in net income. The decrease increase in 2023 2024 adjusted net operating income per diluted share compared to 2022 2023 is primarily due to a an decrease increase in adjusted net operating income and , partially offset by a decrease in the number of diluted weighted average shares outstanding. Premiums earned for 2023 2024 were $ 952 970 . 6 8 million, compared with $ 952 1, 007. 1 6 million for in the prior same period last year. The decrease increase in premiums earned compared with the prior year is primarily due to an a increase decrease in ceded premiums that was the result of a decrease in the profit commission earned on our QSR Transactions . Net investment income in 2023 2024 was $ 214 244 . 7 6 million, compared with $ 167 214 . 5 7 million in the prior year. The increase in net investment income was due to an increase of 80 42 basis points in the average investment yield. Losses incurred, net were $ (20 14 . 9) million, compared with $ (254 20 . 6 9) million for in the prior year. While new delinquency notices added $ 187 197 , 7 6 million to losses incurred in 2024, our re- estimation of loss reserves on previously received delinquency notices resulted in favorable development of $ 212. 5 million. For the year ended December 31, 2023 , new delinquency notices added approximately $ 187. 7 million , our re- estimation of loss reserves on previously received delinquency notices resulted in favorable development of $ 208. 5 million. In 2022, new delinquency notices added approximately $ 149. 6 million to losses incurred, offset by re- estimation of loss reserves on previously received delinquency notices resulted in favorable development of $ 404. 1 million. The favorable development for both periods primarily resulted from a decrease in the expected claim rate on previously received delinquencies. Home price appreciation experienced in recent years has allowed some borrowers to cure their delinquencies through the sale of their property. Underwriting and other expenses MGIC Investment Corporation 2023 Form 10- K | 46 We did not record a loss on debt extinguishment in 2023. In 2022 , net were we recorded a loss on debt extinguishment of $ 209 40. 2 million, related to the repurchase of a portion of our 9 % Debentures, the redemption of our 5. 75 % Senior Notes, and the repayment of the outstanding principal balance of our FHLB advance. See Note 7- " Debt " to our consolidated financial statements for a discussion of the 9 % Debenture conversion in 2023. Our provision for income taxes decreased to $ 189 . 3 million , in 2023 compared to $ 224 226 . 7 0 million in 2022 the prior year. The decrease in underwriting and other expenses, net was primarily due to a decrease in pension expenses and a decrease in expenses related to professional and consulting services. Pension expenses were higher in 2023 due to settlement accounting charges. MGIC Investment Corporation 2024 Form 10- K | 47 Our provision for income taxes increased to $ 205. 7 million in 2024 compared to $ 189. 3 million in 2023 primarily due to an increase in income before tax. Our effective tax rate for 2023 2024 was 21. 0 2 % compared to 20 21 . 6 0 % for 2022 2023 . BUSINESS ENVIRONMENT Economic conditions Home purchases Mortgage originations decreased increased in 2023 2024 , compared to 2022 2023 , due reflecting an increase in refinance volumes, attributed to higher a brief decline in interest rates during 2024, while purchase origination and higher home prices. Higher interest rates also resulted in decreased refinance activity remained relatively flat during 2023. This led to a decrease in our NIW, to $ 46. 1 billion in 2023 compared to $ 76. 4 billion in 2022 . The level of interest rates and home prices may change in the future. For information about the possible effects of such changes, see our risk factors titled" If the volume of low down payment home mortgage originations declines, the amount of insurance that we write could decline, " and " Downturns in the domestic economy or declines in home prices may result in more homeowners defaulting and our losses increasing, with a corresponding decrease in our returns , . " and " Changes in interest rates, house prices or mortgage insurance cancellation requirements may change the length of time that our policies remain in force." Mortgage insurance market The strong credit quality of our insurance portfolio reflects several years of favorable housing fundamentals , and in our view, generally favorable risk characteristics on our recently insured loans. Our insurance in force increased was relatively flat during the year as a result of a lower an increase in NIW , offset partially by cancellations increased annual persistency . The percentage of our NIW with DTI ratios over 45 % and LTVs over 95 % will fluctuate based on the mortgage conditions such as that could include the percentage of NIW from purchase transactions, changes in home prices, changes in mortgage interest rates, and GSE activities. Refer to" Mortgage Insurance Portfolio" for information on our NIW mix during 2023 2024 . The private mortgage insurance industry is highly competitive and is expected to remain so . Our competitors primarily include other private mortgage insurers and governmental agencies, principally the FHA and VA . We believe that we currently compete with other private mortgage insurers based on premium rates, underwriting requirements, financial strength (including based on credit or financial strength ratings), customer relationships, name recognition, reputation, strength of management teams and field organizations , the ancillary products and services provided to lenders , and the effective use of technology and innovation in the delivery and servicing of our mortgage insurance products. Pricing practices In recent years, pricing has become a key competitive factor in the private mortgage insurance market, with an increasing number of customers prioritizing the lowest premium rate available for any particular loan. The industry has materially reduced its use of standard rate cards, which were fairly consistent among competitors, and correspondingly increased its use of (i)" risk- based pricing systems" that use a spectrum of filed rates to allow for formulaic, risk- based pricing based on multiple attributes that may be quickly adjusted within certain parameters, and (ii) customized rate plans pursuant to which rates may be available to customers for a defined period of time . We monitor various competitive and economic factors while seeking to balance both profitability and market share considerations in developing our pricing strategies. For information about competition in the private mortgage insurance industry, see our risk factor titled " Competition or changes in our relationships with our customers could reduce our revenues, reduce our premium yields and / or increase our losses" in Item 1A. GSE Risk Share Transactions In 2018, the GSEs initiated secondary mortgage market programs with loan level mortgage default coverage provided by various (re) insurers that are not mortgage insurers governed by PMIERs, and that are not selected by the lenders. These programs, which currently account for a small percentage of the low down payment market, compete with traditional private mortgage insurance and, due to differences in policy terms, they may offer premium rates that are below prevalent single premium lender- paid mortgage insurance (" LPMI") rates. We participate in these programs from time to time. The GSEs (and other investors) have also used other forms of credit enhancement that did not involve traditional private mortgage insurance, such as engaging in credit- linked note transactions executed in the capital markets, or using other forms of debt issuances or securitizations that transfer credit risk directly to other investors, including competitors and an affiliate of MGIC; using other risk mitigation techniques in conjunction with reduced levels of private mortgage insurance coverage; or accepting credit risk without credit enhancement. For information about the various business practices of the GSEs that may be changed, including through expansion or modification of these programs, see our risk factor titled " Changes in the business practices of Fannie Mae and Freddie Mac (" the GSEs"), federal legislation that changes their charters or a restructuring of the GSEs could reduce our revenues or increase our losses " in Item 1A. MGIC Investment Corporation 2023 2024 Form 10- K | 47 48 Government programs PMI also competes against government mortgage insurance programs such as the FHA, VA, and USDA, primarily for lower FICO score business. The combined market share of primary mortgage insurance written by government programs continues to exceed that written by PMI in both 2024 and 2023 and 2022 . Refer to" Mortgage Insurance Portfolio" for additional discussion on market share and our operating measures including NIW, IIF and RIF. We operate under the requirements of the PMIERs of the GSEs in order to insure loans delivered to or purchased by them. The PMIERs include financial requirements as well as business, quality control and certain transactional approval requirements. The financial requirements of the PMIERs require a mortgage insurer' s" Available Assets" (generally only the most liquid assets of an insurer) to equal or exceed its" Minimum Required Assets" (which are based on an insurer' s book of risk in force, calculated from tables of factors with several risk dimensions, reduced for credit given for risk ceded under reinsurance transactions, and subject to a floor amount). Based on our application of PMIERs, MGIC' s Available Assets under PMIERs totaled $ 5. 8 billion, an excess of $ 2. 4 2 billion over its Minimum Required Assets at December 31, 2023 2024 . BUSINESS OUTLOOK FOR 2024 2025 Our outlook for 2024 2025 should be viewed against the backdrop of the business environment discussed above. Our NIW is affected by total mortgage originations, the percentage of total mortgage originations using private mortgage insurance (the" PMI penetration rate"), and our market share within the PMI industry. As of January 2024 2025 , the total average mortgage origination forecasts from Fannie Mae and the MBA indicate mortgage originations of $ 2. 0 trillion in 2024 2025 , compared to an estimated $ 1. 6 7 trillion in 2023 2024 . Both purchase originations and refinance transactions are forecasted to increase in 2024 2025 when compared to 2023 2024 . We are expecting NIW to increase slightly in 2024 2025 compared to 2023 2024 . The widespread use of risk based pricing systems by the PMI industry makes it more difficult to compare our rates to those offered by our competitors. We may not be aware of industry rate changes until we observe that our volume of NIW has changed. In addition, business under customized rate plans is awarded by certain customers for only limited periods of time. As a result, our NIW may fluctuate more than it had in the past. Our IIF decreased increased 0. 6 % in 2023 2024 and is expected to remain relatively flat in 2024 2025 . Our book of IIF is an important driver of our future revenues, and its growth is driven by our ability to generate NIW and the retention of our IIF, as measured by our annual Annual persistency. Interest rates influence both our NIW and persistency. Generally speaking, in a rising rate environment, total mortgage originations may decline; however, we would also expect policy cancellation rates to decline, and in turn increase annual Annual persistency, although the impact generally lags the change in interest rates. In As of January 2024 2025 , we expect forecasts from Fannie Mae and the MBA indicate a modest decrease in interest rates in 2025 to remain elevated compared to 2024 recent years and the slowdown in the rate of growth in home prices price appreciation to continue to moderate . Results of operations Our direct premiums written and earned are impacted by our IIF during the period and our in force premium yield , We , both of which are expected -- expect our in force portfolio premium yield to be remain relatively flat in 2024 2025 when compared and we expect our net premiums written and earned to decrease in 2023 2025 , driven by an increase in ceded premiums . Premiums earned are also impacted by the amount of accelerated premiums from single premium policy cancellations, which generally decrease as refinance activity decreases. Our unearned premium decreased to $ 120. 4 million at December 31, 2024 from $ 157. 8 million at December 31, 2023 from $ 195. 3 million at December 31, 2022 . Our net premiums written and earned are primarily impacted by the changes in the direct premiums written and earned noted above and by the amount of premiums we cede under our quota share and excess of loss reinsurance transactions. The amount of premiums we cede in 2024 2025 will be affected by any changes in our reinsurance coverage. Premiums we cede under our quota share transactions are also impacted by the profit commission we receive. The amount of profit commission is variable year- to- year and is dependent on the amount of losses incurred ceded. In 2023, compared to 2022, the increase in ceded losses incurred decreased the profit commission we received, resulting in higher ceded premiums. Increases in ceded losses incurred will benefit our losses incurred line, but will result in lower profit commission and higher ceded premiums. Factors that affect the amount of premiums we earn from our IIF are further discussed in our" Consolidated Results of Operations- Premium yield." Net investment income is a material contributor to our results of operations. We expect net investment income in 2024 2025 to increase be relatively flat in comparison to 2023 2024 , primarily due to higher average investment yields . The amount of investment income will be impacted by the MGIC Investment Corporation 2023 Form 10- K | 48 change in the yield we can earn on investments MGIC Investment Corporation 2024 Form 10- K | 49 and the level of invested assets. The level of invested assets will primarily be impacted by the amount of cash we expect to use in financing activities relative to our cash from operations. The magnitude of any change in our invested asset level will be subject to the timing of our financing activities. Losses Losses incurred, net is impacted by the level of new delinquency notices. Generally, on our primary business, the highest claim frequency years have been the third and fourth year after loan origination. As of December 31, 2023 2024 , 67 50 % of our primary RIF was written subsequent to December 31, 2020 2021 , 84 74 % of our primary RIF was written subsequent to December 31, 2019 2020 , and 89 87 % of our primary RIF was written subsequent to December 31, 2018 2019 . The pattern of claim frequency can be affected by many factors, including annual persistency and deteriorating economic conditions. Our claims paid activity slowed at the start of the COVID- 19 pandemic primarily due to forbearance and foreclosure moratoriums put in place, and it has not yet

~~appreciably increased from those suppressed levels.~~ Home price appreciation ~~experienced~~ in recent years has allowed some borrowers to cure their delinquencies through the sale of their property. In addition, an increase in third party property sales prior to claim settlement ~~,~~ has resulted in a decrease in the average claim paid on the claims we do receive. We expect net losses and LAE paid to increase; however, the magnitude and timing of the increases are uncertain. Underwriting and operating expenses, net We expect underwriting and operating expenses, net to be modestly lower in ~~2024~~ **2025** compared to ~~2023~~ **2024** . Income taxes We expect **a modest decrease in** our ~~2024~~ effective tax rate **in 2025 compared** to ~~be approximately 21 %~~ **2024 due to purchases of transferable federal tax credits** . CAPITAL MGIC dividend payments to our holding company The ability of MGIC to pay dividends is restricted by insurance regulation. Amounts in excess of prescribed limits are deemed " extraordinary " and may not be paid if disapproved by the OCI. A dividend is extraordinary when the proposed dividend amount, plus dividends paid in the twelve months preceding the dividend payment date exceed the ordinary dividend level. In ~~2024~~ **2025** , MGIC can pay $ ~~64~~ **97** million of ordinary dividends without OCI approval, before taking into consideration dividends paid in the preceding twelve months. In **2024 and** 2023 ~~and 2022~~ , MGIC paid a cash and / or investment security dividend of $ ~~600~~ **750** million and $ ~~800~~ **600** million, respectively, to our holding company. Future dividend payments from MGIC to the holding company will continue to be determined in consultation with the ~~board~~ **Board of Directors** . Dividends to shareholders In the first and second quarters of ~~2023~~ **2024** , we paid quarterly cash dividends of $ 0. ~~10~~ **115** per share to shareholders which totaled $ ~~58~~ **63** . ~~8~~ **3** million. In the third and fourth quarters of ~~2023~~ **2024** , we paid quarterly cash dividends of $ 0. ~~115~~ **13** per share which totaled $ ~~65~~ **67** . ~~3~~ **8** million. On January ~~23~~ **28** , ~~2024~~ **2025** , the Board of Directors declared a quarterly cash dividend to holders of the company' s common stock of $ 0. ~~115~~ **13** per share payable on March 5, ~~2024~~ **2025** , to shareholders of record at the close of business on February ~~15~~ **18** , ~~2024~~ **2025** . We expect to continue to make dividend payments to shareholders in ~~2024~~ **2025** . Share repurchase programs Repurchases may be made from time to time on the open market (including through 10b5- 1 plans) or through privately negotiated transactions. The repurchase programs may be suspended for periods or discontinued at any time. We repurchased approximately **25. 3 million shares in 2024 for $ 566. 6 million. In 2023, we repurchased approximately** 21. 7 million shares ~~in 2023 using approximately~~ **of our common stock for** $ 340. 6 million of holding company resources. In ~~2022~~ **2025** ~~, we repurchased approximately 27. 8 million shares of our common stock using approximately $ 385. 7 million of holding company resources. In 2024~~ , we expect share repurchase programs will remain our primary means of returning capital to shareholders. The following table shows details of our share repurchase ~~programs~~ **program** . Repurchase ProgramRepurchased during ~~2023~~ **2024** (in millions) Authorization Remaining (in millions) at 12 / 31 / ~~23Expiration~~ **24Expiration** ~~Date2021~~ **Date2023** Authorization $ ~~114~~ **274** $ — N / ~~A2023~~ **A2024** Authorization $ ~~226~~ **293** $ ~~274 July 1~~ **457 December 31** , ~~2025~~ **2026** As of December 31, ~~2023~~ **2024** , we had approximately ~~272~~ **248** . ~~5~~ **4** million shares of common stock outstanding which was a decrease of ~~7~~ **8** . ~~2~~ **8** % from December 31, ~~2022~~ **2023** . We must comply with a GSE' s PMIERs to be eligible to insure loans delivered to or purchased by that GSE. The PMIERs include financial requirements, as well as business, quality control and certain transaction approval requirements. The PMIERs provide that the GSEs may amend any provision of the PMIERs or impose additional requirements with an effective date specified by the GSEs. ~~If~~ MGIC ~~ceases to be~~ **is in compliance with the PMIERs and** eligible to insure loans purchased by ~~one or both of~~ the GSEs **. In August 2024** , ~~it would significantly reduce the volume of our NIW, the substantial majority of which is for loans delivered to or purchased by~~ the GSEs **issued updates to the calculation of Available Assets** . ~~MGIC Investment Corporation 2023 Form 10- K | 49~~ The financial requirements of the PMIERs require a mortgage insurer' s " Available Assets " (generally only the most liquid assets of an insurer) to equal or exceed its " Minimum Required Assets " (which are **generally** based on an insurer' s book of risk in force and ~~are~~ **MGIC Investment Corporation 2024 Form 10- K | 50** calculated from tables of factors with several risk dimensions, reduced for credit given for risk ceded under reinsurance ~~transactions~~ **agreements** , and subject to a floor amount). Based on our interpretation of the PMIERs as of December 31, ~~2023~~ **2024** , MGIC' s Available Assets totaled $ 5. 8 billion, or $ 2. ~~4~~ **2** billion in excess of its Minimum Required Assets **. The update will be implemented through a 24- month phased-in approach, with a fully effective date of September 30, 2026. If these changes were effective as of December 31, 2024, without a graduated implementation period, MGIC' s Available Assets of $ 5. 8 billion would decrease by approximately 1 % or $ 50 million, and MGIC' s PMIERs excess would be $ 2. 1 billion** . The PMIERs generally require us to hold significantly more Minimum Required Assets for delinquent loans than for performing loans and the Minimum Required Assets required to be held increases as the number of payments missed on a delinquent loan increases. Our reinsurance transactions enable us to earn higher returns on our Minimum Required Assets than we would without them because they generally reduce the Minimum Required Assets we must hold under PMIERs. However, reinsurance may not always be available to us, or available only on terms, or costs, that we find unacceptable. The calculated credit for XOL Transactions under PMIERs is generally based on the PMIERs requirement of the covered loans and the attachment and detachment point of the coverage. PMIERs credit is generally not given for the reinsured risk above the PMIERs requirement. Our existing reinsurance transactions are subject to periodic review by the GSEs and there is a risk we will not receive our current level of credit in future periods for the risk ceded under them. In addition, we may not receive the same level of credit under future transactions that we receive under existing transactions. If MGIC is not allowed certain levels of credit under the PMIERs, under certain circumstances, MGIC may terminate the reinsurance transactions without penalties. For additional information about our reinsurance transactions, see our ~~Risk~~ **risk** ~~Factor~~ **factor** titled " Reinsurance may be unavailable at current levels and prices, and / or the GSEs may reduce the amount of capital credit we receive for our reinsurance transactions. " in Item 1A. GSE Reform The FHFA has been the conservator of the GSEs since 2008 and has the authority to control and direct their operations. Given that the Director of the FHFA is removable by the President at will, the agency' s agenda, policies and actions are influenced by the ~~then-~~ current administration. The increased role that the federal government has assumed in the residential housing finance system through the GSE conservatorships may increase the likelihood that the business practices of the GSEs change, including through administration changes and actions. Such changes could have a material adverse effect on us. It is uncertain what role the GSEs, FHA and private capital, including private mortgage insurance, will play in the residential housing finance system in the future. The timing and impact on our business of any resulting changes is uncertain. Many of the proposed changes would require Congressional action to implement and it is difficult to estimate when Congressional action would be final and how long any associated phase- in period may last. For additional information about the business practices of the GSEs, see our ~~Risk~~ **risk** ~~Factor~~ **factor** titled " Changes in the business practices of Fannie Mae and Freddie Mac (" the GSEs"), federal legislation that changes their charters or a restructuring of the GSEs could reduce our revenues or increase our losses. " in Item 1A. State Regulations The insurance laws of 16 jurisdictions, including Wisconsin, our domiciliary state, require a mortgage insurer to maintain a minimum amount of statutory capital relative to its RIF (or a similar measure) in order for the mortgage insurer to continue to write new business. We refer to these requirements as the " State Capital Requirements. " While they vary among jurisdictions, the most common State Capital Requirements allow for a maximum risk- to- capital ratio of 25 to 1. A risk- to- capital ratio will increase if (i) the percentage decrease in capital exceeds the percentage decrease in insured risk, or (ii) the percentage increase in capital is less than the percentage increase in insured risk. Wisconsin does not regulate capital by using a risk- to- capital measure but instead requires a MPP. MGIC' s" policyholder position" includes its net worth or surplus and its contingency reserve. At December 31, ~~2023~~ **2024** , MGIC' s risk- to- capital ratio was 10. ~~2~~ **0** to 1, below the maximum allowed by the jurisdictions with State Capital Requirements, and its policyholder position was $ 3. 6 billion above the required MPP of $ 2. 2 billion. The calculation of our risk- to- capital ratio and MPP reflect full credit for the risk ceded under our reinsurance transactions. It is possible that under the revised State Capital Requirements discussed below, MGIC will not be allowed full credit for the risk ceded under such transactions. If MGIC is not allowed an agreed level of credit under either the State Capital Requirements or the PMIERs, MGIC may terminate the reinsurance transactions, without penalty . MGIC Investment Corporation 2023 Form 10..... market generally, or on our business . At this time, we expect MGIC to continue to comply with the current State Capital Requirements; however, refer to our risk factor titled " State capital requirements may prevent us from continuing to write new insurance on an uninterrupted basis " in Item 1A for more information about matters that could negatively impact our compliance with State Capital Requirements. ~~to~~ **In 2023,** the NAIC **adopted** ~~' s Financial Condition Committee as to what,if any,changes to make to the solvency and other regulations relating to mortgage guaranty insurers.A draft of~~ a revised Mortgage Guaranty Insurance Model Act ~~was adopted by the Financial Condition Committee in July 2023 and by the Executive Committee and Plenary NAIC in August 2023.~~ The ~~revised~~ **updated** Model Act includes requirements relating to,among other things:(i) capital and minimum capital requirements,and contingency reserves;(ii) restrictions on mortgage insurers' investments in notes secured by mortgages;(iii) prudent underwriting standards and formal underwriting guidelines;(iv) the establishment of formal,internal " Mortgage Guaranty Quality Control Programs " with respect to in- force business;and (v) reinsurance **MGIC Investment Corporation 2024 Form 10- K | 51** and prohibitions on captive reinsurance arrangements.It is uncertain when the revised Model Act will be adopted in any jurisdiction.The provisions of the Model Act,if adopted in their final form,are not expected to have a material adverse effect on our business.It is unknown whether any changes will be made by state legislatures prior to adoption,and the effect changes,if any,will have on the mortgage guaranty insurance market generally,or on our **business.Wisconsin,where MGIC is domiciled,has begun the process to replace current Mortgage Insurance regulations with the Model Act,though it is expected that some changes will be made before formal adoption.** FACTORS AFFECTING OUR RESULTS Our current and future business, results of operations and financial condition are impacted by macroeconomic conditions, such as ~~rising~~ interest rates, home prices, housing demand, level of employment, inflation, pandemics, restrictions **on** and costs ~~on~~ **of** mortgage credit, and other factors. For additional information on how our business may be impacted see our ~~Risk~~ **risk** ~~Factor~~ **factor** titled " Downturns in the domestic economy or declines in home prices may result in more homeowners defaulting and our losses increasing, with a corresponding decrease in our returns. " The future effects of climate change on our business are uncertain. For information about possible effects, please refer to our ~~Risk~~ **risk** ~~Factor~~ **factor** titled " Pandemics, hurricanes and other disasters may **adversely** impact our **results of operations** ~~incurred losses, the amount~~ and **financial condition** ~~timing of paid claims, our inventory of notices of default and our Minimum Required Assets under PMIERs~~ . " Our results of operations are affected by: Premiums written and earned Premiums written and earned in a year are influenced by: • NIW, which increases IIF. Many factors affect NIW, including the volume of low down payment home mortgage originations and competition to provide credit enhancement on those mortgages from the FHA, the VA, **and** other mortgage insurers **,** ~~, and other~~ **Other** alternatives to mortgage insurance **also impact NIW** , including GSE programs that may reduce or eliminate the demand for mortgage insurance. NIW does not include loans previously insured by us that are modified, such as loans modified under HARP. • Cancellations, which reduce IIF. Cancellations **from** ~~due to~~ refinancings **may occur when borrowers achieve the required amount of home equity through loan amortization, loan payoffs, or home price appreciation. Refinance- related cancellations** are ~~affected~~ **influenced** by the level of current mortgage interest rates compared to the mortgage coupon rates throughout the in force book, current home values ~~compared~~ **relative** to values when the loans in the in force book were insured and the terms on which mortgage credit is available. **Policy rescissions** ~~Home price appreciation can give homeowners the right to cancel mortgage insurance on their loans if sufficient home equity is achieved. Cancellations~~ also **cause cancellations** ~~result from policy rescissions, which require~~ **requiring** us to return any premiums received ~~on the rescinded policies~~ , ~~and claim payments, which require us to return any premium received on the related policies~~ from the date of default **,** on the ~~insured loans~~ **rescinded policies and claim payments** . Cancellations of single premium policies, which are generally non- refundable, result in immediate recognition of any remaining unearned premium. • Premium rates, which **vary** ~~are affected~~ by product type ~~, competitive pressures~~ , the risk characteristics of the insured loans **, competitive pressures** , the percentage of coverage on the insured loans, and PMIERs capital requirements. The substantial majority of our monthly and annual mortgage insurance premiums are under premium plans for which, for the first ten years of the policy, the amount of premium is determined by multiplying the initial premium rate by the original loan balance; thereafter, the premium rate resets to a lower rate used for the remaining life of the policy. The remainder of our monthly and annual premiums are under premium plans for which premiums are determined by a fixed percentage of the loan' s amortizing balance over the life of the policy. • Premiums ceded, net of profit commission **,** under our QSR Transactions, and premiums ceded under our XOL Transactions, are primarily affected by the percentage of our IIF subject to our reinsurance transactions. The profit commission under our QSR Transactions also varies inversely with the level of ceded losses incurred on a " dollar for dollar " basis and can be eliminated at ceded loss levels higher than what we have experienced on our QSR Transactions. As a result, lower levels of losses incurred result in a higher profit commission and less benefit from ceded losses incurred; higher levels of losses incurred result in more benefit from ceded losses incurred and a lower profit commission (or for certain levels of accident year loss ratios, its elimination). See Note 9 – " Reinsurance " to our consolidated financial statements for a discussion of our reinsurance transactions. • Premiums earned are generated by the insurance that is in force during all or a portion of the period. A change in the average IIF in the current period compared to an earlier period is a factor that will increase (when the average in force is higher) or reduce (when it is lower) premiums written and earned in the current period, although this effect may be enhanced (or mitigated) by the factors discussed above. ~~MGIC Investment Corporation 2023 Form 10- K | 51~~ Our investment portfolio is composed principally of investment grade fixed income securities. The principal factors that influence investment income are the size of the portfolio and its yield. As measured by amortized cost (which excludes changes in fair value, such as from changes in interest rates), the size of the investment portfolio is mainly a function of cash generated from (or used in) operations, such as net premiums written, investment income, net claim payments and expenses, and cash provided by (or used for) non-operating activities, such as debt or stock issuances or repurchases, and dividends. **MGIC Investment Corporation 2024 Form 10- K | 52** Losses incurred are the current expense that reflects claim payments, costs of settling claims, and changes in our estimates of payments that will ultimately be made as a result of delinquencies on insured loans. As explained under " Critical Accounting Estimates " below, except in the case of a premium deficiency reserve, we recognize an estimate of this expense only for delinquent loans. The level of new delinquencies has historically followed a seasonal pattern, with new delinquencies in the first ~~part~~ **half** of the year lower than new delinquencies in the latter ~~part~~ **half** of the year. The state of the economy, local housing markets, **pandemics, natural disasters,** and various other factors ~~, including pandemics,~~ may result in delinquencies not following the typical pattern. Losses incurred are generally affected by: • The state of the economy, including unemployment and housing values, each of which affects the likelihood that loans will become delinquent and whether loans that are delinquent cure their delinquency. • The product mix of the in force book, with loans having higher risk characteristics generally resulting in higher delinquencies and claims. • The size of loans insured, with higher average loan amounts on delinquent loans tending to increase incurred losses. • The percentage of coverage on insured loans, with deeper average coverage on delinquent loans tending to increase incurred losses. • The ~~rate at which we rescind policies or curtail claims. Our estimated loss reserves incorporate our estimates of future rescissions of policies and curtailments of claims, and reversals of rescissions and curtailments. We collectively refer to such rescissions and denials as " rescissions " and variations of this term. We call reductions to claims" curtailments." • The~~ distribution of claims over the life of a book. Historically, the first few years after loans are originated are a period of relatively low claims, with claims increasing substantially for several years subsequent and then declining **.** ~~, although annual~~ **Annual** persistency, the condition of the economy, including unemployment and housing prices, and other factors can affect this pattern. For example, a weak economy or housing value declines can lead to claims from older books increasing, continuing at stable levels or experiencing a lower rate of decline. See further information under " Mortgage insurance earnings and cash flow cycle " below. • Losses ceded under reinsurance transactions. See Note 9 – " Reinsurance " to

our consolidated financial statements for a discussion of our reinsurance transactions. ~~Underwriting~~ **• The rate at which we rescind policies or curtail claims. Our estimated loss reserves incorporate our estimates of future rescissions of policies** and ~~other expenses~~ **curtailments of claims, and reversals of rescissions and curtailments. We collectively refer to such rescissions and denials as " rescissions " and variations of this term. We call reductions to claims" curtailments."** Underwriting and other expenses includes items such as employee compensation, fees for professional and consulting services, depreciation and maintenance expense, and premium taxes, and are reported net of ceding commissions associated with our QSR Transactions. Employee compensation expenses are variable due to share- based compensation, changes in benefits, and changes in headcount (which can fluctuate due to volume of NIW). See Note 9 – " Reinsurance **" and Note 18 – " Segment Reporting** " to our consolidated financial statements for a discussion of ceding commission on our QSR Transactions **and discussion on significant segment expenses** . Interest expense Interest expense reflects the interest associated with our ~~consolidated~~ outstanding debt obligations discussed in Note 7 – " Debt " to our consolidated financial statements and under " Liquidity and Capital Resources " below. Certain activities that we do not consider being part of our fundamental operating activities may also impact our results of operations and are described below. **•** Gains (losses) on investments and other financial instruments • Fixed income securities. Investment gains and losses reflect the difference between the amount received on the sale of a fixed income security and the fixed income security ' s cost basis, as well as any credit allowances and any impairments on securities we intend to sell prior to recovery of its amortized cost basis. The amount received on the sale of fixed income securities is affected by the coupon rate of the security compared to the yield of comparable securities at the time of sale. • Equity securities. Investment gains and losses **reflect** ~~are accounted for as a function of~~ the periodic change in fair value. ~~MGIC Investment Corporation 2023 Form 10- K | 52 •~~ Financial instruments. Investment gains and losses on the embedded derivative on our Home Re Transactions reflect the present value impact of the variation in investment income on assets on the insurance- linked notes held by the reinsurance trusts and the contractual reference rate used to calculate the reinsurance premiums we estimate we will pay over the estimated remaining life. **• Gains and losses on debt extinguishment** Gains and losses on debt extinguishment result from discretionary activities that are undertaken to enhance our capital position and / or improve our debt profile. Extinguishing our outstanding debt obligations early through these discretionary **MGIC Investment Corporation 2024 Form 10- K | 53** activities may result in **gains or** losses primarily driven by **differences in** the payment of consideration **from the** ~~in excess of our~~ carrying value, and the write off of unamortized debt issuance costs on the extinguished portion of the debt. Refer to " Explanation and reconciliation of our use of Non- GAAP financial measures " below to understand how these items impact our evaluation of our core financial performance. MORTGAGE INSURANCE EARNINGS AND CASH FLOW CYCLE In general, the majority of any underwriting profit that a book generates occurs in the early years of the book, with the largest portion of any underwriting profit realized in the first year following the year the book was written. Subsequent years of a book may result in either underwriting profit or underwriting losses. This pattern of results typically occurs because relatively few of the incurred losses on delinquencies that a book will ultimately experience typically occur in the first few years of the book, when premium revenue is highest, while subsequent years are affected by declining premium revenues, as the number of insured loans decreases (primarily due to loan prepayments) and increasing losses. The ~~typical pattern is also a function of premium rates generally resetting to lower levels after ten years. The~~ state of the economy, local housing markets **, pandemics, natural disasters,** and various other factors may result in delinquencies not following the typical pattern. CYBERSECURITY **All information technology systems are potentially vulnerable to damage or interruption from a variety of sources, including by cyber attacks, such as those involving ransomware. The Company discovers vulnerabilities and regularly blocks attempts at unauthorized access to its systems, through threats such as malware and computer virus attacks, unauthorized access, system failures and disruptions. Threats have the potential to jeopardize the information processed and stored in, and transmitted through, our computer systems and networks and otherwise cause interruptions or malfunctions in our operations, which could result in damage to our reputation, financial losses, litigation, increased costs, regulatory penalties or customer dissatisfaction. We could be similarly affected by threats against our vendors and / or third- parties with whom we share information. Globally, attacks are expected to continue accelerating in both frequency and sophistication with increasing use by actors of tools, techniques, and technological advances that may hinder the Company' s ability to identify, investigate and recover from incidents. Such attacks may also increase as a result of retaliation by threat actors against actions taken by the U. S. and other countries in connection with wars and other global events. The Company operates under a hybrid workforce model and such model may be more vulnerable to security breaches. While we have information security policies and systems in place to secure our information technology systems and to prevent unauthorized access to or disclosure of sensitive information, there can be no assurance with respect to our systems and those of our third- party vendors that unauthorized access to the systems or disclosure of the sensitive information, either through the actions of third parties or employees, will not occur. Due to our reliance on information technology systems, including ours and those of our customers and third- party service providers, and to the sensitivity of the information that we maintain, unauthorized access to the systems or disclosure of the information could adversely affect our reputation, severely disrupt our operations, result in a loss of business and expose us to material claims for damages and may require that we provide free credit monitoring services to individuals affected by a security breach.** For additional information about our IT systems and cybersecurity, see our risk factor titled " Information technology system failures or interruptions may materially impact our operations and adversely affect our financial results" and" We could be materially adversely affected by a cyber security breach or failure of information security controls." in Item 1A and Item 1C. Cybersecurity. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~53~~ **54** EXPLANATION AND RECONCILIATION OF OUR USE OF NON- GAAP FINANCIAL MEASURES We believe that use of the Non- GAAP **financial** measures of adjusted pre- tax operating income (loss), adjusted net operating income (loss) and adjusted net operating income (loss) per diluted share facilitate the evaluation of the company' s core financial performance thereby providing relevant information to investors. These measures are not recognized in accordance with GAAP and should not be viewed as alternatives to GAAP measures of performance. Adjusted pre- tax operating income (loss) is defined as GAAP income (loss) before tax, excluding the effects of net realized investment gains (losses), gain and losses on debt extinguishment, and infrequent or unusual non- operating items where applicable. Adjusted net operating income (loss) is defined as GAAP net income (loss) excluding the after- tax effects of net realized investment gains (losses), gain and losses on debt extinguishment, and infrequent or unusual non- operating items where applicable. The amounts of adjustments to components of pre- tax operating income (loss) are tax effected using a federal statutory tax rate of 21 %. Adjusted net operating income (loss) per diluted share is calculated in a manner consistent with the accounting standard regarding earnings per share by dividing (i) adjusted net operating income (loss) after making adjustments for interest expense on convertible debt, whenever the impact is dilutive by (ii) diluted weighted average common shares outstanding, which reflects share dilution from unvested restricted stock units and from convertible debt when dilutive under the " if- converted " method. Although adjusted pre- tax operating income (loss) and adjusted net operating income (loss) exclude certain items that have occurred in the past and are expected to occur in the future, the excluded items represent items that are: (1) not viewed as part of the operating performance of our primary activities; or (2) impacted by both discretionary and other economic or regulatory factors and are not necessarily indicative of operating trends, or both. These adjustments, along with the reasons for their treatment, are described below. Trends in the profitability of our fundamental operating activities can be more clearly identified without the fluctuations of these adjustments. Other companies may calculate these measures differently. Therefore, their measures may not be comparable to those used by us. (1) Net realized investment gains (losses). The recognition of net realized investment gains or losses can vary significantly across periods as the timing of individual securities sales is highly discretionary and is influenced by such factors as market opportunities, our tax and capital profile, and overall market cycles. (2) Gains and losses on debt extinguishment. Gains and losses on debt extinguishment result from discretionary activities that are undertaken to enhance our capital position, improve our debt profile, and / or reduce potential dilution from our outstanding convertible debt. (3) Infrequent or unusual non- operating items. Items that are non- recurring in nature and are not part of our primary operating activities. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~54~~ **55** Non- GAAP reconciliationsReconciliation of Income before tax / Net income to Adjusted pre- tax operating income / Adjusted net operating income: Years Ended December 31, ~~20232022~~ **20242023** (in thousands) Pre- taxTax EffectNet (after- tax) Pre- taxTax EffectNet (after- tax) Income before tax / Net income $ **968, 709 $ 205, 715 $ 762, 994** 902, 229 ~~$~~ 189, 280 ~~$~~ 712, 949 ~~1, 090, 034 224, 685 865, 349~~ Adjustments: Net realized investment (gains) ~~losses14~~ **losses6 , 914 1, 452 5, 462 14** , 549 3, 055 11, 494 ~~9, 745 2, 046 7, 699 Loss on debt extinguishment — — — — 40, 199 8, 442 31, 757~~ Adjusted pre- tax operating income / Adjusted net operating income $ **975, 623 $ 207, 167 $ 768, 456 $** 916, 778 $ 192, 335 $ 724, 443 ~~$ 1, 139, 978 $ 235, 173 $ 904, 805~~ Reconciliation of Net income per diluted share to Adjusted net operating income per diluted share: Weighted average diluted shares ~~outstanding287~~ **outstanding263 , 995 287** . 155 ~~311, 229~~ Net income per diluted share $ 2. ~~49~~ **89** $ 2. ~~79~~ **49** Net realized investment (gains) losses0. **02 0.** 04 ~~0. 02 Loss on debt extinguishment — 0. 10~~ Adjusted net operating income per diluted share $ 2. ~~53~~ **91** $ 2. ~~91~~ **53** MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~55~~ **56** MORTGAGE INSURANCE PORTFOLIO MORTGAGE ORIGINATIONS Our NIW is affected by the total mortgage originations, the percentage of total mortgage originations using PMI, and our market share within the PMI industry. The total amount of mortgage originations is generally influenced by the level of new and existing home sales, interest rates, the percentage of homes purchased for cash, and the level of refinance activity. PMI market share of total mortgage originations is influenced by the mix of purchase and refinance originations. PMI market share is also impacted by the market share of total originations of the FHA, VA, USDA, and other alternatives to mortgage insurance, including GSE programs that may reduce or eliminate the demand for mortgage insurance. **The increase in** ~~Total~~ **total** mortgage originations in ~~2023~~ **2024** , as compared to ~~2022~~ **2023** , reflects ~~higher~~ **an increase in refinance volumes, attributed to a brief decline in** interest rates **during 2024** ~~and home prices~~ **, while** ~~contributing to a decrease in home~~ purchase **origination** activity ~~in 2023~~ **remained relatively flat** . Total mortgage originations are forecasted to be higher in ~~2024~~ **2025** , ~~in comparison to 2023. The following ~~tables~~ **table** provides information about loans with one or more of the following characteristics associated with our NIW: LTV ratios greater than 95 %, mortgages with borrowers having FICO scores below 680, ~~including those with borrowers having FICO scores of 620- 679,~~ and mortgages with borrowers having DTI ratios greater than 45 %, each attribute as determined at the time of loan origination. Primary NIW by number of attributes discussed aboveYears Ended December 31, (% of primary NIW) ~~20232022One34~~ **20242023One36** . 3 % ~~31~~ **34** . ~~5~~ **3** % Two or ~~More4~~ **More5 . 0 % 4** . 2 ~~% 3. 6~~ % IIF AND RIF Our IIF **increased** ~~was flat~~ in ~~2023~~ **2024** , compared to ~~2022~~ **2023** . ~~Our~~ **The amount of our** IIF ~~increased 7. 6 % in 2022 as~~ **and RIF is impacted by the amount of** NIW **,** ~~was partially offset by~~ cancellations **, and principal payments received on our primary IIF during the period** . Cancellation activity is impacted by refinancing activity, policies cancelled when borrowers achieve the required amount of home equity, and cancellations due to claim payment. Refinancing activity has historically been affected by the level of mortgage interest rates and the level of home price appreciation. Cancellations generally move inversely to the change in the direction of interest rates, although they generally lag a change in direction. Annual Persistency. Our annual persistency at December 31, ~~2023~~ **2024** was ~~86~~ **84** . ~~1~~ **8** % compared to ~~82~~ **86** . ~~2~~ **1** % at December 31, ~~2022~~ **2023** . Since 2018, our annual persistency ranged from a high of 86. 3 % at September 30, 2023 to a low of 60. 7 % at March 31, 2021. Our persistency rate is primarily affected by the level of current mortgage interest rates compared to the mortgage coupon rates on our IIF, which affects the vulnerability of the IIF to refinancing; and the current amount of equity that borrowers have in the homes underlying our IIF. Insurance in force and risk in forceYears Ended December 31, ($ in billions) ~~20232022NIW 20242023NIW $ 55. 7~~ $ 46. 1 ~~$ 76. 4~~ Cancellations **, principal payments, and other reductions (1) (53. 8)** (47. 9 ~~) (55. 5~~) Increase (decrease) in primary IIF $ **1. 9 $** (1. 8) ~~$ 20. 9~~ Direct primary IIF as of December 31, $ **295. 4 $** 293. 5 ~~$ 295. 3~~ Direct primary RIF as of December 31, $ **78. 8 $** 77. 2 **(1) Includes a** ~~$ 76 2~~ . 5 **billion reduction in our insurance in force in the third quarter of 2024, as a result of our updated method for calculating the unpaid principal balance on our in force loans.** CREDIT PROFILE OF OUR PRIMARY RIF Our 2009 and later books possess significantly improved risk characteristics when compared to our 2005- 2008 books. Modification and refinance programs, such as HAMP and HARP, which expired at the end of 2016 and 2018, respectively, but have been

replaced by other GSE modification programs, make outstanding loans more affordable to borrowers with the goal of reducing the number of foreclosures. As of December 31, 2023 2024 , **loans with** modifications accounted for approximately 3. 6 **0** % of our total primary RIF, compared to 4 **3** . 2 **6** % at December 31, 2022 **2023** . Loans associated with 87. 3 **6** % of all our modifications were current as of December 31, 2023 **2024** . For additional information on the composition of our primary RIF see" Business- Our Products and Services" MGIC Investment Corporation 2023 **2024** Form 10- K | 58 **59** The composition of our primary RIF by policy year as of December 31, **2024 and** 2023 and 2022 is shown below: Primary risk in force ($ in millions) December 31, 2023**December 2024December** 31, 20222004 **20232004** and prior 3474112005 **3273472005** - 20082, 6343 **3122** , 0832009 **6342009** - 20199 **20197** , 372 12 **225 9** , 090202013 **372202010, 375 13** , 202 16 **202118** , 204 202122 **992 22** , 814 26, 004 202217 **202215 , 865 17** , 604 18, 680 202311 **202310 , 109 11** , 197 **202413, 608** — Total77 **Total78** , **81377,** 17076 — **170** , 472 **CRT AND** POOL AND OTHER INSURANCE **In connection with the GSEs CRT programs, MAC an insurance subsidiary of MGIC provides insurance and reinsurance covering portions of the credit risk related to certain reference pools of mortgages acquired by the GSEs. Our RIF, as reported to us, related to these programs was approximately $ 392 million and $ 310 million as of December 31, 2024 and December 31, 2023, respectively.** MGIC has written no new pool insurance since 2008, however, for a variety of reasons, including responding to capital market alternatives to private mortgage insurance and customer demands, MGIC may write pool risk in the future. Our direct pool RIF was **$ 226 million ($ 177 million on pool policies with aggregate loss limits and $ 49 million on pool policies without aggregate loss limits) at December 31, 2024 compared to** $ 256 million ($ 186 million on pool policies with aggregate loss limits and $ 70 million on pool policies without aggregate loss limits) at December 31, 2023 compared to $ 276 million ($ 196 million on pool policies with aggregate loss limits and $ 80 million on pool policies without aggregate loss limits) at December 31, 2022. If claim payments associated with a specific pool reach the aggregate loss limit, the remaining IIF within the pool would be cancelled and any remaining defaults under the pool would be removed from our default inventory. In connection with the GSEs' CRT programs, an insurance subsidiary of MGIC provides insurance and reinsurance covering portions of the credit risk related to certain reference pools of mortgages acquired by the GSEs. Our RIF, as reported to us, related to these programs was approximately $ 310 million and $ 226 million as of December 31, 2023 and December 31, 2022, respectively . MGIC Investment Corporation 2023 **2024** Form 10- K | 59 **60** CONSOLIDATED RESULTS OF OPERATIONS The following section of the MD & A provides a comparative discussion of our Consolidated Results of Operations for the two- year period ended December 31, 2023 **2024** . For a discussion of the Critical Accounting Estimates used by us that affect the Consolidated Results of Operations, see" Critical Accounting Estimates" below. REVENUES RevenuesYear Ended December 31, (In millions **thousands**) 20232022 **20242023** % ChangeNet premiums written $ **933, 388 $** 915 **, 041 2** . 0 $ 960. 7 (5) Net premiums earned $ **970, 807 $** 952 , 6 $ 1 . **551 2** 007. 1 (5) Investment income, net of expenses214 - **expenses244** . 7 167. 5 28 , **640 214, 740 14** Net gains (losses) on investments and other financial instruments (14. 1 **9, 846**) (7. 5 **14, 141**) 88 **30** Other revenue2 **, 130 1, 952 9** . 0 5. 6 (64) Total revenues (1) $ 1, 155. 1 **207, 731** $ 1, **155, 102 5** 172. 8 (2) (1) May not foot due to rounding NET PREMIUMS WRITTEN AND EARNED Net premiums written and earned decreased **increased** 5 **2** % in 2023 **2024** compared with the prior year. The decrease **increase** in premiums written and earned in 2023 **2024** compared to the prior year is primarily due to an **a** increase **decrease** in ceded premiums that was the result of a decrease in the profit commission earned on our QSR Transactions . Premium yields Premium yield is net premiums earned divided by average IIF during the year and is influenced by a number of key drivers, which have a varying impact from period to period. The following table provides information related to our premium yield for **2024, and** 2023 , and 2022 . Premium YieldYear Ended December 31, (in basis points) 20232022In **20242023In** force portfolio yield (1) 38. 4 **38.** 5 39. 4 Premium refunds **refunds0 . 0** (0. 1) 0. 1 Accelerated earnings on single premium policies0. **3 0.** 4 1. 0 Total direct premium yield38. 7 **38.** 8 40. 5 Ceded premiums earned, net of profit commission and assumed premiums (2) (6. 5 **. 7**) (**6.** 5 . 2) Net premium yield32 **yield33** . 3 35 **0 32** . 3 (1) Total direct premiums earned, excluding premium refunds and accelerated premiums from single premium policy cancellations divided by average primary insurance in force. (2) Ceded premiums for reinsurance cancellation activities **resulted in a** decreased **decrease of** the premium yield by 0. 5 bps in 2023 and 0. 1 bps in 2022 . Assumed premiums include those from our participation in GSE CRT programs, of which the impact on the net premium yield was 0. **5 bps in 2024 and 0.** 4 bps in 2023 and 0. 3 bps in 2022 . Changes in the net premium yields when compared to the respective prior year periods reflect the following: In force Portfolio YieldèA **YieldèThe** larger percentage of **yield on our current IIF is impacted by the premium rates on** our IIF **.** from book years with lower premium **Premium** rates **are generally affected by** due to a decline in premium rates in recent years resulting from pricing competition, an in force book with lower risk characteristics **on our NIW** , lower **the amount of capital we are** required capital **to hold** , **and competition in** the **industry** availability of reinsurance, and certain policies undergoing premium rate resets on their ten- year anniversaries . Premium RefundsèPremium refunds are primarily driven by claim activity and our estimate of refundable premiums on our delinquency inventory **and** . The low level of claims **claim activity** received have resulted in a lower level of premium refunds . Our estimate of refundable premium on our delinquency inventory fluctuates with changes in our delinquency inventory and our estimate of the number of loans in our delinquency inventory that will result in a claim. **Lower levels of claims received results in a lower level of premium refunds.** Accelerated earnings on single premium policiesèThe **policiesèA** lower — **low** level of refinance transactions have reduced **reduces** the benefit from accelerated earned premium from cancellation of single premium policies prior to their estimated policy life. MGIC Investment Corporation 2023 **2024** Form 10- K | 60 **61** Ceded premiums earned, net of profit commission and assumed premiumsèCeded premiums earned, net of profit commission adversely impact our net premium yield. Ceded premiums earned, net of profit commission, are associated with the QSR Transactions and the XOL Transactions. Assumed premiums consists primarily of premiums from GSE CRT programs. See " Reinsurance Transactions " below for further discussion on our reinsurance transactions. As discussed in our Risk **risk** Factor **factor** titled" Competition or changes in our relationships with our customers could reduce our revenues, reduce our premium yields and / or increase our losses," the private mortgage insurance industry is highly competitive and premium rates have declined over the past several years. **We** With the smaller origination market, higher persistency rate, and continued high credit quality for NIW expected in 2024, we expect our in force portfolio premium yield to **will** remain relatively flat during **in** 2024 **2025 driven by sustained high credit quality and an elevated annual persistency** . See" Overview – Factors Affecting Our Results" above for additional factors that also influence the amount of net premiums written and earned in a year. REINSURANCE TRANSACTIONS Quota Share Reinsurance Our quota share reinsurance affects various lines of our statements of operations and therefore we believe it should be analyzed by reviewing its total effect on our pre- tax income, **described** as **follows** described below . èWe cede a fixed percentage of premiums earned and received on insurance covered by the transactions. èWe receive the benefit of a profit commission through a reduction in the premiums we cede. The profit commission varies inversely with the level of losses incurred on a" dollar for dollar" basis and can be eliminated at loss levels higher than what we have experienced. As a result, lower levels of ceded losses incurred result in less benefit from ceded losses incurred, and a higher profit commission; higher levels of ceded losses incurred result in more benefit from ceded losses incurred and a lower profit commission (or for certain levels of accident year loss ratios, its elimination). èWe receive the benefit of a ceding commission through a reduction in underwriting expenses equal to 20 % of premiums ceded (before the effect of the profit commission). èWe cede a fixed percentage of losses incurred on insurance covered by the transactions. The following table provides information related to our QSR Transactions for **2024 and** 2023 and 2022 . Quota share reinsuranceAs of and For the Years Ended December 31, (Dollars **$** in thousands) 20232022Statements ---- **20242023Statements** of operations: Ceded premiums written and earned, net of profit commission $ **115, 306 $** 123, 955 $ 86, 435 % of direct premiums written11 **written10** % 8 **11** % % of direct premiums earned11 **earned10** % 7 **11** % Profit commission133 **commission108 , 368 133** , 145 176, 084 Ceding commissions50 **commissions44 , 532 50** , 397 52, 071 Ceded losses incurred15 **incurred20 , 607 15** , 623 (19, 837) Mortgage insurance portfolio: Ceded RIF (in millions) 2020 QSR — 3, 902 2021 QSR6 **QSR5 , 180 6** , 060 6, 809 2022 QSR4, **252 4,** 693 5, 027 2023 QSR2, **116 2,** 391 **2024 QSR3, 575** — Credit Union QSR2, **855 2,** 608 2, 261 Total ceded RIF $ **17, 978 $** 15, 752 $ 17, 999 Ceded premiums written , and earned **,** net of profit commission increased **decreased** in 2023 **2024** when compared with the prior year primarily due to a decrease in the profit commission, which increases ceded premiums written and earned. The decrease **average amount of our IIF subject to our QSR Transactions throughout the year** in **comparison to** profit commission was driven by the **prior year** increase in losses incurred . Ceded losses incurred are impacted by the delinquencies covered by our QSR Transactions, our estimates of payments that will be ultimately made on those delinquencies, and claim payments covered by our QSR Transactions. **In the fourth quarter of 2024 we exercised the early termination option on our 2021 quota share reinsurance transaction. After providing reinsurers the termination notice but prior to the termination date, we agreed to amended terms with certain participants from the existing reinsurance panel that effectively reduced the quota share cede rate from 30 % to 26 % on the remaining eligible insurance. We MGIC Investment Corporation 2024 Form 10- K | 62 paid a termination fee of approximately $ 1 million to the non- participating reinsurers. The amended agreement is effective December 31, 2024.** We terminated our 2020 QSR Transactions - **Transaction** effective December 31, 2023 and incurred an early termination fee of $ 5 million. We terminated **executed a 40 % QSR transaction with a group of unaffiliated reinsurers covering most of** our **new insurance written in** 2015 **2025** and 2019 QSR Transactions effective December 31, 2022 **2026** and incurred an early termination fee of $ 2 million on our 2019 QSR Transaction . MGIC Investment Corporation 2023 Form 10- K | 61 Covered Risk The percentages of our NIW, new risk written, IIF, and RIF subject to our QSR Transactions as shown in the following table will vary from period to period in part due to the mix of our risk written during the period and the number of active QSR Transactions. Quota share reinsuranceAs of and For the Years Ended December 31, 20232022NIW **20242023NIW** subject to QSR Transactions86. **9 % 86.** 8 % 87. 4 % New Risk Written subject to QSR Transactions92. **9 % 92.** 8 % 93. 0 % IIF subject to QSR Transactions60 **Transactions68 . 2 % 60** . 4 % 67. 9 % RIF subject to QSR Transactions64 **Transactions71 . 5 % 64** . 2 % 73. 0 % The decrease **increase** in IIF and RIF subject to QSR Transactions was primarily due to the **increase in IIF subject to our 2024 QSR Transaction throughout 2024 offset by the** termination of our 2020 QSR Transaction at December 31, 2023 . 2024 QSR Transaction We executed a 30 % QSR Transaction with a group of unaffiliated reinsurers covering most of our new insurance written in 2024 . Excess of Loss Reinsurance We have excess of loss reinsurance (" XOL Transactions ") with panels of unaffiliated reinsurers executed through the traditional reinsurance market (" Traditional XOL Transaction ") and with unaffiliated special purpose insurers (" Home Re Transactions "). For policies covered by our Traditional XOL Transactions, we retain the first layer of the aggregate losses paid, and the reinsurers will then provide second layer coverage up to the outstanding reinsurance coverage amount. We retain losses paid in excess of the outstanding reinsurance coverage amount. The reinsurance coverage is subject to adjustment based on the risk characteristics of the covered loans until the initial excess of loss reinsurance coverage layer has been finalized. The 2022 Traditional XOL Transaction provides $ 142. 6 million of reinsurance coverage on eligible NIW in 2022. The 2023 Traditional XOL Transaction provides $ 96. 9 million of reinsurance coverage on eligible NIW in 2023. The Home Re Transactions are executed through the issuance of insurance linked notes (" ILNs "). At December 31, 2023 **2024** our Home Re Transactions provided $ 1 **829** . 2 4 billion **million** of loss coverage on a portfolio of policies having an in force date from **August** July 1, 2016 through March 31, 2019, from January 1, 2020 through December 31, 2021, and from June 1, 2022 through August 31, 2023; all dates inclusive. For this reinsurance coverage, we retain the first layer of the respective aggregate losses paid, and a Home Re Entity will then provide second layer coverage up to the outstanding reinsurance amount. The current attachment, current detachment, and PMIERs required asset credit for each of our XOL Transactions as of December 31, 2023 **2024** , are as follows: ($ In thousands) Initial Attachment % (1) Initial Detachment % (2) Current Attachment % (1) Current Detachment % (2) PMIERs Required Asset **Credit2024 Traditional XOL2** CreditHome Re 2018- 12 . 25 67 % 6. 50 **67** % 15 **2** . 18 **67** % 21 **6** . 62 **67** % $ — **180, 284 2023 Traditional XOL2. 91 % 6. 91 % 3. 28 % 7. 53 % 88, 093 2022 Traditional XOL2. 60 % 7. 10 % 3. 03 % 7. 67 % 119, 861** Home Re 2019 **2023** . 12 **13** . 50 **00** % 6. 75 % 17 **3** . **39 % 7. 25 % 280,** 82 **820** % 38. 12 % — Home Re 2020 **2022** . 13 **12** . 00 **75 % 6. 75 % 3. 87** % 7. 50 **53** % **241, 338** 7. 71 % 8. 75 % — Home Re 2021- 12 **22** . 25 **10** % 6. 50 % 4 **3** . 08 **97** % 7. 58 **28** % 91 **110** . 947 **664** Home Re 2021- 22 **12** . 10 **25** % 6. 50 % 3 **5** . 12 **26** % 7. 30 **56** % 157, 706 Home Re 2022- 12. 75 % 6. 75 % 3. 29 % 7. 55 % 340, 870 Home Re 2023- 13. 00 % 6. 75 % 3. 08 % 6. 92 % 330 - **33** , **155** 277 2022 Traditional XOL2. 60 % 7. 10 % 2. 79 % 7. 61 % 137, 507 2023 Traditional XOL2. 91 % 6. 91 % 2. 91 % 6. 91 % 93, 278 (1) The percentage represents the cumulative losses as a percentage of adjusted risk in force that MGIC retains prior to the XOL taking losses. (2) The percentage represents the cumulative losses as a percentage of adjusted risk in force that must be reached before MGIC begins absorbing losses after the XOL layer In October, 2023 **2024 , we exercised our option to terminate the reinsurance agreement with Home Re 2020- 1, Ltd. and Home Re 2018- 1, Ltd. In connection with the terminations, the insurance linked notes issued by Home Re 2020- 1 Ltd. and Home Re 2018- 1, Ltd. were redeemed in full. We also terminated our reinsurance agreement with** Home Re 2019- 1 **,** Ltd. , Home Re 2021- 1 Ltd., and Home Re 2021- 2 Ltd completed tender offers for certain tranches of the mortgage insurance- linked notes that supported the reinsurance agreements with MGIC. The tender offer resulted in the reduction in the insurance- linked notes of $ 187. 1 million for the Home Re 2019- 1 Ltd, $ 91. 1 million for the Home Re 2021- 1 Ltd., and $ 106. 7 million for the Home Re 2021- 2 Ltd. The reinsurance coverage corresponding to the tendered notes was terminated. MGIC incurred approximately $ 8. 0 million of additional ceded premium in the fourth quarter associated with the tender premiums and associated expenses. MGIC Investment Corporation 2023 Form 10- K | 62 We ceded premiums on our XOL Transactions of $ 78 **66** . 9 **6** million and $ 69 **78** . 9 million for the years ended December 31, **2024 and** 2023 and 2022 , respectively. See Note 9-" Reinsurance," to our consolidated financial statements for additional discussion of our XOL Transactions. **MGIC Investment Corporation 2024 Form 10- K | 63** INVESTMENT INCOME, NET Net investment income increased 28 **14** % **to $ 244. 6 million in 2024 compared** to $ 214. 7 million in 2023 compared to $ 167. 5 million in 2022 . The increase in net investment income was primarily due to an increase of approximately 80 **42** basis points in average investment yields. See" Balance Sheet Review" in this MD & A for further discussion regarding our investment portfolio. LOSSES AND EXPENSES Year Ended December 31, (In millions **thousands**) 20232022 **20242023** % ChangeLosses incurred, net $ (20. 9 **14, 861**) $ (254. 6 **20, 856**) **29** (92) Amortization of deferred policy acquisition costs10 **costs8** . 8 12. 4 **, 957 10, 820** (13 **17**) Other underwriting and operating expenses, net226. 0 236. **net209, 324 226, 004 (** 7 (5) Loss on debt extinguishment — 40. 2 (100) Interest expense36 **expense35** . 9 48. 1 **, 602 36, 905** (23 **4**) Total losses and expenses (1) **$ 239, 022** $ 252 **, 873** . 9 $ 82. 8 206 (1 **5**) May not foot due to rounding LOSSES INCURRED, NET As discussed in " Critical Accounting Estimates " below and consistent with industry practices, we establish case loss reserves for future claims on delinquent loans that were reported to us as two payments past due and have not become current or resulted in a claim payment. Such loans are referred to as being in our delinquency inventory. Case loss reserves are established based on estimating the number of loans in our delinquency inventory that will result in a claim payment, which is referred to as the claim rate, and further estimating the amount of the claim payment, which is referred to as claim severity. IBNR reserves are established for estimated losses from delinquencies we estimate have occurred prior to the close of an accounting period, but have not yet been reported to us. IBNR reserves are also established using estimated claim rates and claim severities. Estimation of losses is inherently judgmental. Even in a stable environment, changes to our estimates could result in a material impact to our consolidated results of operations and financial position. The conditions that affect the claim rate and claim severity include the current and future state of the domestic economy, including unemployment, and the current and future strength of local housing markets; exposure on insured loans; the amount of time between delinquency and claim filing (all else being equal, the longer the period between delinquency and claim filing, the greater the severity); and

curtailments and rescissions. The actual amount of the claim payments may be substantially different than our loss reserve estimates. Our estimates could be adversely affected by several factors, including a deterioration of regional or national economic conditions, including unemployment, leading to a reduction in borrowers' income and thus their ability to make mortgage payments, the impact of past and future government initiatives and actions taken by the GSEs (including mortgage forbearance programs and foreclosure moratoriums), and a drop in housing values which may affect borrower willingness to continue to make mortgage payments when the value of the home is below the mortgage balance. Loss reserves in future periods will also be dependent on the number of loans reported to us as delinquent. **Generally** ~~Prior to the COVID- 19 pandemic~~, losses ~~followed~~ -- **follow** a seasonal trend in which the second half of the year has weaker credit performance than the first half, with higher new notice activity and a lower cure rate. The state of the economy, local housing markets **, pandemics, natural disasters,** and various other factors, may result in delinquencies not following the typical pattern. For information on how pandemics and ~~other~~ **natural** disasters could affect losses incurred, net see our ~~Risk~~ **risk** ~~Factors~~ **factors** titled " Pandemics, hurricanes and other disasters may **adversely** impact our **results of operations** ~~incurred losses, the amount~~ and **financial condition** ~~timing of paid claims, our inventory of notices of default and our Minimum Required Assets under PMIERs~~ ". As discussed in our ~~Risk~~ **risk** ~~Factor~~ **factor** titled " Because we establish loss reserves only upon a loan delinquency rather than based on estimates of our ultimate losses on risk in force, losses may have a disproportionate adverse effect on our earnings in certain periods " if we have not received a notice of delinquency with respect to a loan and if we have not estimated the loan to be delinquent as of December 31, ~~2023~~ **2024** , through our IBNR reserve, then we have not yet recorded an incurred loss with respect to that loan. Losses incurred, net increased to $ (~~20~~ **14** . 9) million compared to $ (~~254~~ **20** . ~~6~~ **9**) million in ~~2022~~ **2023** . While new delinquency notices added $ ~~187~~ **197** . ~~7~~ **6** million to losses incurred in ~~2023~~ **2024** , our re- estimation of loss reserves on previously received delinquency notices resulted in favorable development of approximately $ ~~208~~ **212** . 5 million. In ~~2022~~ **2023** , new delinquency notices added $ ~~149~~ **187** . ~~6~~ **7** million to losses incurred, ~~offset by~~ our re- estimation of loss reserves on previously received delinquency notices resulted in **favorable development on previously received delinquency notices of** $ ~~404~~ **208** . ~~1~~ **5** million ~~of favorable loss development~~ . The favorable development for both periods primarily resulted from a decrease in the expected claim rate on previously received ~~MGIC Investment Corporation 2023 Form 10- K | 63~~ delinquencies. Home price appreciation ~~experienced~~ in recent years has allowed some borrowers to cure their delinquencies through the sale of their property. See" New notice **activity** ~~claim rate~~ " and" Claims severity" below for additional factors and trends that impact these loss reserve assumptions. **MGIC Investment Corporation 2024 Form 10- K | 64** Composition of losses incurredYear Ended December 31, (In ~~millions~~ **thousands**) ~~20232022Current~~ **20242023Current** year / New notices $ **197, 615 $** 187 **, 658** ~~. 7 $ 149. 6~~ Prior year reserve development (~~208. 5~~ **212, 476**) (~~404. 1~~ **208, 514**) Losses incurred, net **$** (~~1~~ **14, 861**) $ (20 ~~. 9~~ **, 856**) ~~$ (254. 6) (1) May not foot due to rounding~~ Loss ratio The loss ratio is the ratio, expressed as a percentage, of the sum of losses incurred, net to net premiums earned. The increase in the loss ratio in ~~2023~~ **2024** when compared to ~~2022~~ **2023** was primarily due to ~~a~~ **an** increase in losses incurred as discussed above. Year Ended December 31, ~~20232022Loss~~ **20242023Loss** ratio (**1. 5) % (** 2. 2) % ~~INVENTORY~~ **Delinquency inventory** A roll- forward of our primary delinquency inventory for the years ended December 31, **2024 and** 2023 ~~,2022,and 2021~~ appears in **the** table ~~8.3~~ below.The information concerning new notices and cures is compiled from monthly reports received from loan servicers.The level of new notice and cure activity reported in a particular month can be influenced by,among other things,the date on which a servicer generates its report,the number of business days in a month and transfers of servicing between loan servicers.Primary delinquency inventory roll- **forward20242023Beginning** ~~forwardTable8.3202320222021Beginning~~ delinquent ~~inventory26~~ **inventory25 ,650 26** ,387 ~~33~~ **New Notices51** , ~~290 57~~ **427 46** , **825 Cures** (**48, 731) (46, 108) Paid claims (1, 318) (1, 328) Rescissions and denials (84) (45) Other items removed from inventory (153) (81) Ending delinquent inventory26, 791** 25 **, 650** ~~. 3) %~~ MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~64~~ **65** The table below presents our new delinquency notices received, delinquency inventory, and the average number of missed payments for the loans in our delinquency inventory by policy year: New notices and delinquency inventory during the periodDecember 31, **2024Policy YearNew Delinquency Notices Received in the Year EndedDelinquency InventoryAvg. The return we generate on our investment portfolio is an important component of our consolidated financial results. Our investment portfolio primarily consists of a diverse mix of highly rated fixed income securities. The investment portfolio is designed to achieve the following objectives: Operating Companies (1) Holding CompanyèPreserve PMIERs assetsèProvide liquidity with minimized realized lossèMaximize total return with emphasis on book yield, subject to our other objectivesèMaintain highly liquid, low volatility assetsèLimit portfolio volatilityèMaintain high credit qualityèDuration 3. 5 to 5. 5 yearsèDuration maximum of 2. 5 years (1) Primarily MGIC To achieve our portfolio objectives, our asset allocation considers the risk and return parameters of the various asset classes in which we invest. This asset allocation is informed by, and based on, the following factors: èeconomic and market outlooks; èdiversification effects; èsecurity duration; èliquidity; ècapital considerations; andèincome tax rates. The average duration and embedded investment yield of our investment portfolio as of December 31, **2024 and** 2023 ~~and 2022~~ is shown in the following table. Portfolio duration and embedded investment yieldDecember 31, ~~20232022~~**Effective** ---- **20242023Effective** Duration (in years) 3. ~~84~~ **93** . ~~0Pre~~ **8Pre - tax yield (1) 4. 0 % 3. 7 % After** - tax yield (1) 3. ~~7~~ **2** % 3. 0 ~~% After- tax yield (1) 3. 0 % 2. 5~~ -% (1) Embedded investment yield is calculated on a yield- to- worst basis. The credit risk of a security is evaluated through analysis of the security' s underlying fundamentals, including the issuer' s sector, scale, profitability, debt coverage, and ratings. ~~The~~ **Our** investment policy guidelines limit the amount of our credit exposure to any one issue, issuer and type of instrument. The following table shows the security ratings of our fixed income investments as of December 31, **2024 and** 2023 ~~and 2022~~ . MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~70~~ **71** Fixed income security **ratingsSecurity** ~~ratings % of fixed income securities at fair valueSecurity~~ Ratings (1) PeriodAAAAAABBBDecember 31, ~~202312~~ **202410** % 34 % ~~35~~ **36** % ~~19~~ **20** % December 31, **202312** ~~202218 % 28~~ % 34 % ~~20~~ **35 % 19** % (1) Ratings are provided by one or more of: Moody' s, Standard & Poor' s and Fitch Ratings. If three ratings are available, the middle rating is used, otherwise the lowest rating is used ~~. The decrease in fixed income securities with an AAA rating at December 31, 2023, was primarily from the downgrade of the United States government' s credit rating to AA by Fitch in the third quarter~~ . Our investment portfolio was invested in comparable security types for the years ended December 31, ~~2023~~ **2024** and December 31, ~~2022~~ **2023** . See Note 5 – " Investments " to our consolidated financial statements for additional disclosure on our investment portfolio. Investments outlook The Federal Open Market Committee (" FOMC ") ~~raised~~ **reduced** the federal funds rate ~~four~~ **three** times throughout ~~2023~~ **2024** from **5. 50 % to** 4 ~~. 50 % to 5~~ . 50 % as it balanced maintaining a sufficiently restrictive monetary policy to return inflation to its long- run target, while also achieving its employment goals. In January, ~~2024~~ **2025** , the FOMC held the federal funds rate at ~~5~~ **4** . 25 % to ~~5~~ **4** . 50 %. The FOMC acknowledged ~~recent~~ inflation data has demonstrated **moderation** ~~it is on a trajectory~~ to ~~return to their~~ -- **the** 2 % inflation target, ~~but~~ **and expressed support for further** rate cuts **in 2025 provided will not be warranted until the FOMC has greater confidence that inflation** **disinflationary** ~~will remain sustainably at target~~ **progress continues across a broad range of core goods** and **services prices** ~~inflation risks are balanced with other economic risks~~ . The forward curve, which currently includes ~~several~~ rate cuts this year indicates ~~a shift toward~~ a less restrictive FOMC policy through the end of ~~2024~~ **2025** . The lagged effects of the FOMC' s actions and other ongoing macroeconomic and geopolitical factors could create significant economic uncertainty and alter forward rate expectations, which may result in interest rate and credit spread volatility. Market volatility resulting from these factors, particularly the absolute level of rates and the rate of change, will continue to impact our investment valuations and returns. The changes in unrealized investment gains and losses generally do not ~~impact~~ **alter** the management of our investment portfolio. We seek to manage our exposure to interest rate risk and volatility by maintaining a diverse mix of securities with an intermediate duration profile and generally hold fixed income investments until maturity. The quality of our fixed income portfolio remains very high and changes in unrealized gains and losses have little impact on our cash flows, statutory surplus, or other capital requirements. While a higher interest rate environment may continue to adversely impact the fair values of existing fixed income investments, it presents an opportunity for continued investment into securities with yields in excess of the book yield on our portfolio. Increases in market-based portfolio yields are expected to result in higher net investment income in future periods **if the basis of invested assets is stable or increases in size** . In addition to fixed income securities, we also hold cash and cash equivalents which yield returns that generally reflect the federal funds rate. CASH AND CASH EQUIVALENTS Cash and cash equivalents ~~increased~~ **decreased** to $ ~~363~~ **229** , ~~7~~ **5** million, as of December 31, **2024 (** 2023 ~~(2022~~ : $ ~~327~~ **363** , ~~4~~ **7** million), as net cash generated from operating activities was substantially used in financing activities. ~~REINSURANCE RECOVERABLE ON PAID LOSSES Reinsurance recoverable on paid losses decreased to $ 9. 9 million at December 31, 2023 (2022: $ 18. 1 million). At December 31, 2023, the reinsurance recoverable on paid losses was primarily comprised of losses recoverable from reinsurers at the time of the termination of our 2020 QSR Transaction. At December 31, 2022 the reinsurance recoverable on paid losses was primarily composed of losses recoverable from reinsurers at the time of termination of the 2015 and 2019 QSR Transactions. Generally, in a reinsurance termination, amounts for any incurred but unpaid losses are due to us from the reinsurers.~~ DEFERRED INCOME TAXES Our net deferred tax asset was $ **69. 9 million as of December 31, 2024 (2023: $** 79. 8 million **)** ~~and $ 124. 8 million at December 31, 2023 and December 31, 2022, respectively~~ . The ~~decrease in~~ **change to** our deferred ~~income~~ tax asset **during 2024** was primarily due to the **change in** ~~tax effect on unrealized gains generated by the~~ **other** ~~investment portfolio during 2023~~ **comprehensive income attributable to our benefit plans** . We owned $ ~~848~~ **968** , ~~6~~ **2** million and $ ~~661~~ **848** , ~~7~~ **6** million of tax and loss bonds at December 31, ~~2023~~ **2024** and December 31, ~~2022~~ **2023** , respectively. See Note 12 – " Income Taxes " to our consolidated financial statements for additional disclosure on the components of our deferred tax assets and liabilities. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~71~~ **72** Consolidated balance sheets- Liabilities and equity As of December 31, (In thousands) ~~20232022~~ **20242023** % ChangeLiabilities Loss reserves $ **462, 662 $** 505, 379 ~~$ 557, 988~~ (~~9~~ **8**) Unearned ~~premiums157~~ **premiums120 , 360 157** , 779 ~~195, 289~~ (~~19~~ **24**) Long- term ~~debt643~~ **debt644 , 667 643** , 196 ~~662~~ **0 Other liabilities147** , ~~810~~ **171 160, 009** (~~3~~ **8**) ~~Other liabilities160, 009 154, 966 3~~ Total Liabilities $ 1, ~~466~~ **374** , ~~363~~ **860** $ 1, ~~571~~ **466** , ~~053~~ **363** (~~7~~ **6**) Shareholders' equityCommon stock $ ~~371~~ **248** , ~~353~~ **449** $ 371, 353 **— (33)** Paid- in capital1, 808, **236 1, 808,** 113 **0** ~~1, 798, 842 1~~ Treasury stock — (1, 384, 293) **N / (1, 050, 238) 32 AOCI MAOCI** , net of tax (**288, 162) (** 316, 281) **9 Retained earnings3, 403, 852 4, 593, 125** (**26** ~~481, 511~~) **(34) Retained** ~~earnings4, 593, 125 4, 004, 294 15~~ Total $ 5, **172, 375 $ 5,** 072, 017 ~~2 $ 4, 642, 740 9~~ LOSS RESERVES AND REINSURANCE RECOVERABLE ON LOSS RESERVES Our loss reserves include estimates of losses and settlement expenses on (1) loans in our delinquency inventory (known as case reserves), (2) IBNR delinquencies, and (3) LAE. Our gross reserves are reduced by reinsurance recoverable on loss reserves to calculate a net reserve balance. Loss reserves decreased to $ ~~505~~ **462** , ~~4~~ **7** million as of December 31, ~~2023~~ **2024** , from $ ~~558~~ **505** , ~~0~~ **4** million of December 31, ~~2022~~ **2023** . Reinsurance recoverables on loss reserves were $ ~~33~~ **47** . 3 million and $ ~~28~~ **33** . ~~2~~ **3** million as of December 31, ~~2023~~ **2024** and December 31, ~~2022~~ **2023** , respectively. The decrease in loss reserves is primarily due to favorable development of $ ~~208~~ **212** . 5 million on previously received delinquency notices, partially offset by loss reserves established on new delinquency notices. The reinsurance recoverable on loss reserves is impacted by the change in direct reserves and the percentage of our delinquency inventory covered by reinsurance transactions. ~~LONG- TERM DEBT Our long- term debt decreased to $ 643. 2 million as of December 31, 2023 from $ 662. 8 million as of December 31, 2022. Under the terms of our 9 % Debentures, we exercised our option to redeem the outstanding principal of $ 21. 1 million. Prior to the redemption date, substantially all holders elected to convert into shares of our common stock. We elected to pay cash in lieu of issuing shares. See Note 7-" Debt" to our consolidated financial statements for discussion of the 9 % Debenture conversion in 2023.~~ UNEARNED PREMIUM Our unearned premium decreased to $ **120. 4 million as of December 31, 2024 from $** 157. 8 million as of December 31, 2023 ~~from $ 195. 3 million as of December 31, 2022~~ primarily due to the run- off of unearned premium on our existing portfolio of single premium policies, partially offset by new premium written on single premium policies. SHAREHOLDER' S EQUITY The increase in shareholders' equity is primarily due to net income and **an** ~~a~~ ~~increase~~ **decrease** in **the accumulated other comprehensive losses reported in shareholders' equity related to** the fair value of our investment portfolio **and net changes in our benefit plan assets and obligations** , partially offset by repurchases of our common stock and dividends paid to shareholders in ~~2023~~ **2024 . Prior to November 15, 2024, shares we repurchased were held in treasury stock unless they were reissued under the discretion of our Board of Directors. As of November 15, 2024, we retired all shares of our treasury stock. There was no change to our shareholders' equity as a result of the retirement. Subsequent to the retirement of the treasury stock, all shares of our common stock that we repurchase are immediately retired. See Note 13-" Shareholders' Equity" to our consolidated financial statements for additional information on our retirement of treasury stock** . MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~72~~ **73** LIQUIDITY AND CAPITAL RESOURCES CONSOLIDATED CASH FLOW ANALYSIS We have three primary types of cash flows: (1) operating cash flows, which consist mainly of cash generated by our insurance operations and income earned on our investment portfolio, less amounts paid for claims, interest expense and operating expenses, (2) investing cash flows related to the purchase, sale and maturity of investments and purchases of property and equipment and (3) financing cash flows generally from activities that impact our capital structure, such as changes in debt and shares outstanding, and dividend payments. The following table summarizes these three cash flows on a consolidated basis for the last two years. Summary of consolidated cash flows Years ended December 31, (In thousands) ~~20232022~~Total **20242023Total** cash provided by (used in): Operating activities $ **725, 032 $** 712, 962 ~~$ 650, 012~~ Investing activities (**142, 005) (** 179, 190) ~~410, 485~~ Financing activities (~~496~~ **719** , ~~041~~ **044**) (~~1~~ **496** , **041** ~~032, 542~~) Increase (decrease) in cash and cash equivalents and restricted cash and cash equivalents $ **(136, 017) $** 37, 731 ~~$ 27, 955~~ The following list highlights the major sources and uses of cash flow from operating activities: Sources Premiums received Loss payments from reinsurers Investment incomeUses- Claim payments- Premium ceded to reinsurers- Interest expense- Operating expenses- Tax payments Our largest source of cash is from premiums received from our insurance policies, which we receive on a monthly installment basis for most policies. Premiums are received at the beginning of the coverage period for single premium and annual premium policies. Our largest cash outflow is generally for claims that arise when a delinquency results in an insured loss. Based on historical experience, we expect our future claim payments associated with established case loss reserves to pay out at or within 5 years, with the majority of future claim payments made within one to three years. ~~Our claims~~ **Net losses and LAE** paid ~~activity slowed at the start of the COVID- 19 pandemic primarily due to forbearance and foreclosure moratoriums put in place and it has not yet appreciably increased from these suppressed levels. Home price appreciation experienced~~ in recent years has **been positively impacted by home price appreciation that has** allowed ~~some borrowers~~ **more delinquent loans** to cure ~~their delinquencies~~ through the sale of ~~their~~ -- **the** property. In addition, an increase in third party property sales prior to claim settlement, has resulted in a decrease in the average claim paid on the claims we do receive. We expect net losses and LAE paid to increase, however, the magnitude and timing of the increases are uncertain. We invest our net cash flow in various investment securities that earn interest. We also use cash to pay for our ongoing expenses such as salaries, debt interest, professional services and occupancy costs. In connection with our reinsurance transactions, we cede, or pay out, part of the premiums we receive to our reinsurers and collect cash when claims subject to our reinsurance coverage are paid. Net cash provided by operating activities in ~~2023~~ **2024** increased compared to ~~2022~~ **2023** primarily due to ~~a~~ **an** ~~decrease~~ **increase** in **investment** income ~~tax payments~~ . ~~a~~ **an** ~~decrease~~ **increase in premiums written, partially offset by an increase** in underwriting and operating expenses paid, ~~a decrease in interest payments, and an increase in investment income collected. This was offset by a decrease in premiums received~~ and an increase in loss payments. We also have purchase obligations totaling approximately $ ~~14~~ **11** . ~~1~~ **6** million which consist primarily of contracts related to our continued investment in our information technology infrastructure in the normal course of business. The majority of these obligations are under contracts that give us cancellation rights with notice. In the next twelve months we anticipate we will pay approximately $ ~~6~~ **8** . 7 million for our purchase obligations. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~73~~ **74** We **do not** expect to make a contribution to **the** ~~our qualified~~ pension plan in ~~2024~~ **2025 of $ 25. 0 million and distributions from the supplemental executive retirement plan will be funded as incurred** . The net funded status (the market value of our plan assets compared to the projected benefit obligation) will impact future contributions to our qualified pension plan. The following list highlights the major sources and uses of cash flow from investing activities: Sources Proceeds from sales of investments Proceeds from maturity of fixed income securitiesUses- Purchases of investments We maintain an investment portfolio that is primarily invested in a diverse mix of fixed income securities. As of December 31, ~~2023~~ **2024** , our portfolio had a fair value of $ 5. ~~7~~ **9** billion compared to $ 5. ~~4~~ **7** billion at December 31, ~~2022~~ **2023** . Net cash flows ~~provided by~~ **used in** investing activities in **2024 and** 2023 **,** primarily reflects purchases of fixed income securities during the period that exceeded sales and maturities of fixed income securities during the period as cash from operations was available for additional investment. ~~Net cash used in investing activities in 2022 primarily reflects sales and maturities of fixed income and equity securities during the year that exceeded purchases as proceeds were used in financing activities.~~ The following list highlights the major sources and uses of cash flow from financing activities: Sources Proceeds from debt and / or common stock issuancesUses- Repayment / repurchase of debt- Repurchase of common stock- Payment of dividends to shareholders- Payment of withholding taxes related to share- based compensation net share settlement Net cash flows used in financing activities in ~~2023~~ **2024** primarily reflects the repurchases of our common stock, dividends to shareholders, and the ~~conversion~~ **payment** of ~~our 9 % Debentures~~ **withholding taxes related to share- based compensation net share settlement** . Net cash flows used in financing activities in ~~2022~~ **2023** primarily reflects the repurchase of our common stock, **dividends to shareholders,** ~~repayment of our 5. 75 % Notes~~ and ~~our FHLB Advance,~~ the **conversion** ~~repurchase of a most~~ of our 9 % Debentures ~~and payment of dividends to shareholders~~ . For a further discussion of matters affecting our cash flows, see" Balance Sheet Review" above and" Debt at our Holding Company and Holding Company Liquidity" below. CAPITALIZATION Capital Risk Capital risk is the risk of adverse impact on our ability to comply with capital requirements (regulatory and GSE) and to maintain the level, structure and composition of

capital required for meeting financial performance objectives. A strong capital position is essential to our business strategy and is important to maintain a competitive position in our industry. Our capital strategy focuses on long- term stability, which enables us to build and invest in our business, even in a stressed environment. Our capital management objectives are to: èinfluence and maintain compliance with capital requirements, èmaintain access to capital and reinsurance markets, ènanage our capital to support our business strategies and the competing priorities of relevant stakeholdersèassess appropriate uses for capital that cannot be deployed in support of our business strategies, including the size and form of capital return to shareholders, andèsupport business opportunities by enabling capital flexibility and efficiently using company resources. These objectives are achieved through ongoing monitoring and management of our capital position, mortgage insurance portfolio stress modeling, and a capital governance framework. Capital management is intended to be flexible in order to react to a range of potential events. The focus we place on any individual objective may change over time due to factors that include, but are not limited to, economic conditions, changes at the GSEs, competition, and alternative transactions to transfer mortgage risk. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~74~~ **75** Capital Structure The following table summarizes our capital structure as of December 31, **2024, and** 2023 ~~, and 2022~~ . (In thousands, except ratio) ~~20232022Common~~ **20242023Common** stock, paid- in capital, retained earnings, less treasury stock **(1)** $ 5, ~~388~~ **460** , ~~298~~ **537** $ 5, ~~124~~ **388** , ~~251~~ **298** Accumulated other comprehensive loss, net of tax (~~316~~ **288** , ~~281~~ **162**) (~~481~~ **316** , ~~511~~ **281**) Total shareholders' equity5, **172, 375 5,** 072, 017 ~~4, 642, 740~~ Long- term debt, par value650, 000 ~~671~~ **650** , ~~086~~ **000** Total capital resources $ 5, ~~722~~ **822** , ~~017~~ **375** $ 5, ~~313~~ **722** , ~~826~~ **017** Ratio of long- term debt to shareholders' equity12. **6 % 12.** 8 % ~~14~~ **(1) As of November 15, 2024, we retired all shares of our treasury stock** . ~~5 %~~ **Effective November 15, 2024, all shares of our common stock that we repurchase are immediately retired and not held as treasury stock.** The increase in shareholders' equity in ~~2023~~ **2024** primarily relates to net income and ~~an~~ **a** ~~increase~~ **decrease** in **the accumulated other comprehensive losses reported in shareholders' equity related to** the fair value of our investment portfolio ~~,~~ **and net changes in our benefit plan assets and obligations. These changes were** partially offset by repurchases of our common stock and dividends paid to shareholders in ~~2023~~ **2024** . See Note 13-" Shareholders' Equity" for further information. Debt obligations- holding company As of December 31, ~~2023~~ **2024** , our holding company' s debt obligations was $ 650 million in aggregate principal amount consisting of our 5. 25 % Notes due in 2028 ~~. In 2023, under the terms of our 9 % Debentures, we exercised our option to redeem the outstanding principal of $ 21. 1 million. Prior to the redemption date, substantially all holders elected to convert into shares of our common stock. We elected to pay cash in lieu of issuing shares~~ . See Note 7-" Debt" for further information on our outstanding debt obligations and transactions impacting our consolidated financial statements in **2024 and** 2023 ~~and 2022~~ . Liquidity analysis- holding company As of December 31, ~~2023~~ **2024** , and December 31, ~~2022~~ **2023** , we had approximately $ ~~918~~ **1. 1 million billion** and $ ~~647~~ **0. 9 million billion** , respectively, in cash and investments at our holding company. These resources are maintained primarily to service our debt interest expense, pay debt maturities, repurchase shares, pay dividends to shareholders, and to settle intercompany obligations. While these assets are held, we generate investment income that serves to offset a portion of our cash requirements. The payment of dividends from MGIC are the principal source of holding company cash inflow and their payment is restricted by insurance regulation. See Note 14- " Statutory Information " to our consolidated financial statement for additional information about MGIC' s dividend restrictions. The payment of dividends from MGIC is also influenced by our view of the appropriate level of excess PMIERs Available Assets to maintain, which can change over time. Raising capital in the public markets is another potential source of holding company liquidity. The ability to raise capital in the public markets is subject to prevailing market conditions, investor demand for the securities to be issued, and our deemed creditworthiness. Over the next twelve months the principal demand on holding company resources will be interest payments on our 5. 25 % Notes approximating $ 34. 0 million, based on the debt outstanding at December 31, ~~2023~~ **2024** . We believe our holding company has sufficient sources of liquidity to meet its payment obligations for the foreseeable future. During **2024 and** 2023 ~~and 2022~~ , we **repurchased 25** ~~used approximately $ 340~~ . ~~6~~ **3** million and **21** ~~$ 385~~ . 7 million ~~respectively, of available holding company cash to repurchase~~ shares of our common stock **for $ 566. 6 million and $ 340. 6 million respectively** . Through February ~~16~~ **21** , ~~2024~~ **2025** we **repurchased 5** ~~used approximately $ 55~~ . 8 million ~~of available holding company cash to repurchase~~ shares of our common stock **for $ 142. 3 million** . The repurchase programs may be suspended or discontinued at any time. In ~~2023~~ **2024** , we ~~used~~ **paid cash dividends of** $ ~~122~~ **130** . ~~9~~ **5** million to ~~pay cash dividends to~~ shareholders. On January ~~23~~ **28** , ~~2024~~ **2025** , our Board of Directors declared a quarterly cash dividend of $ 0. ~~115~~ **13** per common share to shareholders of record on February ~~15~~ **18** , ~~2024~~ **2025** , payable on March 5, ~~2024~~ **2025** . We expect to continue to make dividend payments to shareholders in ~~2024~~ **2025** . We may use additional holding company cash to repurchase additional shares or to repurchase our outstanding debt obligations. Such repurchases may be material, may be made for cash (funded by debt) and / or exchanges for other securities, and may be made in open market purchases (including through 10b5- 1 plans), privately negotiated acquisitions or other transactions. In ~~2024~~ **2025** , we expect share repurchase programs will remain our primary means of returning capital to shareholders. See" Overview- Capital" of this MD & A for a discussion of our share repurchase programs. Significant cash and investments inflows at our holding company during the year were: • $ ~~600~~ **750** . 0 million dividends received from MGIC, • $ ~~133~~ **44** . ~~9~~ **4** million intercompany tax receipts, ~~and MGIC Investment Corporation 2023 Form 10- K | 75~~ • $ ~~20~~ **40** . ~~6~~ **0 million of capital returned from our subsidiary, and • $ 29. 5** million of investment income. **MGIC Investment Corporation 2024 Form 10- K | 76** Significant cash outflows at our holding company during the year were: • $ ~~337~~ **569** . ~~2~~ **5** million of net share repurchase transactions, • $ ~~122~~ **130** . ~~9~~ **5** million of cash dividends paid to shareholders, **and** • $ ~~35~~ **34** . 1 million of interest payments on our outstanding debt obligations ~~, and • $ 28. 6 million cash paid in lieu of issuing shares on the conversion of our 9 % Debentures.~~ The net unrealized losses on our holding company investment portfolio were approximately $ ~~8~~ **3** . ~~7~~ **4** million at December 31, ~~2023~~ **2024** and the portfolio had a modified duration of approximately ~~1~~ **0** . ~~5~~ **8** years **. MGIC paid $ 750 million in dividends to our holding company in the year ended December 31, 2024. Future dividend payments from MGIC to the holding company will be determined in consultation with the Board of Directors, and after considering any updated estimates about our business. We ask the Wisconsin OCI not to object before MGIC pays dividends to the holding company** . Scheduled debt maturities beyond the next twelve months include $ 650 million of our 5. 25 % Notes in 2028. See Note 7 – " Debt " to our consolidated financial statements for additional information about our long term debt. The description in Note 7- " Debt" to our consolidated financial statements is qualified in its entirety by the terms of the notes and debentures. The terms of our 5. 25 % Notes are contained in a Supplemental Indenture, dated as of August 12, 2020, between us and U. S. Bank National Association, as trustee, which is included as an exhibit to our 8- K filed with the SEC on August 12, 2020, and in the Indenture dated as of October 15, 2000 between us and the trustee. Although not anticipated in the near term, we may also contribute funds to our insurance operations to comply with the PMIERs or the State Capital Requirements. See " Overview – Capital " above for a discussion of these requirements. DEBT AT SUBSIDIARIES MGIC did not have any outstanding debt obligations at December 31, ~~2023~~ **2024** . MGIC is a member of the FHLB, which provides MGIC access to an additional source of liquidity through a secured lending facility. We may borrow from the FHLB at any time. ~~Capital Adequacy~~ **CAPITAL ADEQUACY** As of December 31, ~~2023~~ **2024** , MGIC' s Available Assets under the PMIERs totaled approximately $ 5. 8 billion, an excess of approximately $ 2. ~~4~~ **2** billion over its Minimum Required Assets; and MGIC is in compliance with the requirements of the PMIERs and eligible to insure loans delivered to or purchased by the GSEs. The table below presents the PMIERS capital credit for our reinsurance transactions. PMIERs- Reinsurance Credit December 31, (In millions) ~~20232022QSR~~ **20242023QSR** Transactions $ 1, ~~081~~ **177** $ 1, ~~228~~ **081** Home Re ~~Transactions921~~ **Transactions666** ~~948~~ **921** Traditional XOL ~~Transactions230~~ **Transactions388** ~~138~~ **230** Total capital credit for Reinsurance Transactions $ 2, ~~232~~ **231** $ 2, ~~314~~ ~~Our~~ **232 We executed a** ~~2024~~ **2025 and 2026** QSR transaction ~~terms~~ **. Our 2025 and 2026 QSR Transaction is a 40 % quota** ~~are~~ **share** ~~generally comparable to~~ **on most of** our ~~existing QSR transactions~~ **new insurance written in 2025 and 2026, respectively,** and will also provide PMIERs capital credit. Refer to Note 9-" Reinsurance" to our consolidated financial statements for additional information on our reinsurance transactions. The PMIERs generally require us to hold significantly more Minimum Required Assets for delinquent loans than for performing loans and the Minimum Required Assets required to be held increases as the number of payments missed on a delinquent loan increases. Refer to" Overview- Capital- GSEs" of this MD & A and our risk factor titled " We may not continue to meet the GSEs' private mortgage insurer eligibility requirements and our returns may decrease if we are required to maintain more capital in order to maintain our eligibility " in Item 1A. for further discussion of PMIERs. We plan to continuously comply with the PMIERs through our operational activities or through the contribution of funds from our holding company, subject to demands on the holding company' s resources, as outlined above. **MGIC Investment Corporation 2024 Form 10- K | 77** RISK- TO- CAPITAL We compute our risk- to- capital ratio on a separate company statutory basis, as well as on a combined insurance operations basis. The risk- to- capital ratio is our net RIF divided by our policyholders' position. Our net RIF includes both primary and pool RIF and excludes risk on policies that are currently in default and for which case loss reserves have been established and the risk covered by reinsurance. The risk amount includes pools of loans with contractual aggregate loss limits and without these limits. MGIC' s policyholders' position ~~MGIC Investment Corporation 2023 Form 10- K | 76~~ consists primarily of statutory policyholders' surplus (which increases as a result of statutory net income and decreases as a result of statutory net loss and dividends paid), plus the statutory contingency reserve. The statutory contingency reserve is reported as a liability on the statutory balance sheet. A mortgage insurance company is required to make annual additions to a contingency reserve of approximately 50 % of earned premiums. These contributions must generally be maintained for a period of ten years. However, with regulatory approval a mortgage insurance company may make early withdrawals from the contingency reserve when incurred losses exceed 35 % of earned premiums in a calendar year. The table below presents MGIC' s risk- to- capital calculation. Risk- to- capital- MGIC December 31, (In millions, except ratio) ~~20232022RIF~~ **20242023RIF** - net (1) $ 58, **213 $ 58,** 832 ~~$ 56, 292~~ Statutory policyholders' surplus $ **973 $** 636 ~~$ 921~~ Statutory contingency ~~reserve5~~ **reserve4 , 833 5** , 131 ~~4, 597~~ Statutory policyholders' position $ 5, ~~767~~ **806** $ 5, ~~518~~ **767** Risk- to- capital10. ~~2~~ **0** : 110. 2: 1 (1) RIF – net, as shown in the table above, is net of reinsurance and exposure on policies currently delinquent ($ 1. **8 billion at December 31, 2024 and $ 1.** 6 billion at December 31, 2023 ~~and $ 1. 4 billion at December 31, 2022~~) and for which case loss reserves have been established. The increase in statutory policyholders' position was primarily due to an increase in **net income in 2024, offset by a decrease in** statutory contingency reserves and ~~net income during 2023, offset by~~ dividends paid to our holding company of $ ~~600~~ **750** million. Our risk- to- capital ratio will increase if the percentage increase in capital exceeds the percentage decrease in insured risk. For additional information regarding regulatory capital see Note 14 – " Statutory Information " to our consolidated financial statements as well as our risk factor titled " State capital requirements may prevent us from continuing to write new insurance on an uninterrupted basis " in Item 1A. ~~Financial Strength Ratings~~ **FINANCIAL STRENGTH RATINGS** MGIC financial strength ratingsMAC financial strength ratingsRating AgencyRatingOutlookRating AgencyRatingOutlookMoody' s Investors ~~ServiceA3StableA. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~77~~ **78** CRITICAL ACCOUNTING ESTIMATES The accounting estimate described below requires significant judgments and estimates in the preparation of our consolidated financial statements. The estimation of case loss reserves is subject to inherent uncertainty and requires significant judgement by management. Changes to our estimates could result in a material impact to our consolidated results and financial position, even in a stable economic environment. Case Reserves Case reserves are established for estimated insurance losses when notices of delinquency on insured mortgage loans are received. Such loans are referred to as being in our delinquency inventory. For reporting purposes, we consider a loan delinquent when it is two or more payments past due and has not become current or resulted in a claim payment. ~~Even though~~ **Although** the accounting standard, ASC 944, regarding accounting and reporting by insurance entities specifically excluded mortgage insurance from its guidance relating to loss reserves, we establish loss reserves using the general principles contained in the insurance standard. However, consistent with industry standards for mortgage insurers, we do not establish case loss reserves for future claims on insured loans which are not currently delinquent. We establish reserves using estimated claim rates and claim severities in estimating the ultimate loss. The estimated claim rates and claim severities are used to determine the amount we estimate will actually be paid on the delinquent loans as of the reserve date. If a policy is rescinded we do not expect that it will result in a claim payment and thus the rescission generally reduces the historical claim rate used in establishing reserves. In addition, if a loan cures its delinquency, including through a successful loan modification, the cure reduces the historical claim rate used in establishing reserves. To establish reserves, we utilize a reserving model that continually incorporates historical data into the estimated claim rate. The model also incorporates an estimate for severity. The severity is estimated using the historical percentage of our claims paid compared to our loan exposures, as well as the RIF of the loans currently in default. We do not utilize an explicit rescission rate in our reserving methodology, but rather our reserving methodology incorporates the effects rescission activity has had on our historical claim rate and claim severities. We review recent trends in the claim rate, claim severity, levels of defaults by geography and average loan exposure. As a result, the process to determine reserves does not include quantitative ranges of outcomes that are reasonably likely to occur. The claim rates and claim severities are affected by external events, including actual economic conditions such as changes in unemployment rates, interest rates or housing values, pandemics and natural disasters. Our estimation process does not include a correlation between claim rates and claim severities to projected economic conditions such as changes in unemployment rates, interest rates or housing values. Our experience is that analysis of that nature would not produce reliable results as the change in one economic condition cannot be isolated to determine its specific effect on our ultimate paid losses because each economic condition is also influenced by other economic conditions. Additionally, the changes and interactions of these economic conditions are not likely homogeneous throughout the regions in which we conduct business. Each economic condition influences our ultimate paid losses differently, even if apparently similar in nature. Furthermore, changes in economic conditions may not necessarily be reflected in our loss development in the quarter or year in which the changes occur. Actual claim results generally lag changes in economic conditions by at least nine to twelve months. Our estimate of loss reserves is sensitive to changes in claim rate and claim severity; it is possible that even a relatively small change in our estimated claim rate or claim severity could have a material impact on reserves and, correspondingly, on our consolidated results of operations even in a stable economic environment. For example, as of December 31, ~~2023~~ **2024** , assuming all other factors remain constant, a $ 1, 000 increase / decrease in the average claim severity reserve factor would change the reserve amount by approximately /- $ ~~8~~ **7** million. A one percentage point increase / decrease in the average claim rate reserve factor would change the reserve amount by approximately /- $ ~~16~~ **18** million. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~78~~ **79** Historically, it has not been uncommon for us to experience variability in the development of the loss reserves through the end of the following year at this level or higher, as shown by the historical development of our loss reserves in the table below: Historical development of loss reserves (In thousands) Losses incurred related to prior years (1) Reserve at end of prior ~~year2023~~ **year2024 (212, 476) 505, 379 2023** (208, 514) 557, 988 2022 (404, 130) 883, 522 2021 (60, 015) 880, 537 202019, 604 555, 334 ~~2019 (71, 006) 674, 019~~ (1) A negative number for a prior year indicates a redundancy of loss reserves. A positive number for a prior year indicates a deficiency of loss reserves. See Note 8 – " Loss Reserves " to our consolidated financial statements for a discussion of recent loss development. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~79~~ **80**

Item 7A. Quantitative and Qualitative Disclosures About Market Risk Our investment portfolio is essentially a fixed income portfolio and is exposed to market risk. Important drivers of the market risk are credit spread risk and interest rate risk. Credit spread risk is the risk that we will incur a loss due to adverse changes in credit spreads. Credit spread is the additional yield on fixed income securities above the risk- free rate (typically referenced as the yield on U. S. Treasury securities) that market participants require to compensate them for assuming credit, liquidity and / or prepayment risks. We manage credit risk via our investment policy guidelines which primarily require us to place our investments in investment grade securities and limit the amount of our credit exposure to any one issue, issuer and type of instrument. Guideline and investment portfolio detail is available in" Business – Section C, Investment Portfolio" in Item 1. Interest rate risk is the risk that we will incur a loss due to adverse changes in interest rates relative to the characteristics of our interest bearing assets. One of the measures used to quantify this exposure is ~~modified~~ **effective** duration. ~~Modified~~ **Effective** duration measures the price sensitivity of the assets to the changes in spreads. At December 31, ~~2023~~ **2024** , the effective duration of our fixed income investment portfolio was 3. ~~8~~ **9** years, which means that an instantaneous parallel shift in the yield curve of 100 basis points would result in a change of 3. ~~8~~ **9** % in the fair value of our fixed income portfolio. For an upward shift in the yield curve, the fair value of our portfolio would decrease and for a downward shift in the yield curve, the fair value would increase. A discussion of portfolio strategy appears in" Management' s Discussion and Analysis – Balance Sheet Review – Investment Portfolio" in Item 7. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~80~~ **81** Item 8. We provide mortgage insurance to lenders throughout the United States and to government sponsored entities to protect against loss from defaults on low down payment residential mortgage loans. Primary mortgage insurance provides mortgage default protection on individual loans and covers a percentage of the unpaid loan principal, delinquent interest and certain expenses associated with the default and subsequent foreclosure or sale approved by us, of the underlying property. MGIC Assurance Corporation (" MAC") and MGIC Indemnity Corporation (" MIC"), insurance subsidiaries of MGIC, provide insurance for certain mortgages under Fannie Mae and Freddie Mac (the" GSEs") credit risk transfer programs. **We operate as a single segment for the purposes of evaluating financial performance and allocating resources.** At December 31, ~~2023~~ **2024** , our direct primary insurance in force (" IIF") was $ ~~293~~ **295** , ~~5~~ **4** billion, which represents the unpaid principal balance ~~of loans that we insure~~ , ~~as~~ **either estimated by us or** reported to us **by mortgage servicers, for the loans we insure** , and our direct primary risk in force (" RIF") was $ ~~77~~ **78** , ~~2~~ **8** billion, which represents the IIF multiplied by the insurance coverage percentage. The substantial majority of our new insurance written (" NIW") is for loans purchased by the GSEs. The current private mortgage insurer eligibility requirements (" PMIERs") of the GSEs include financial requirements, as well as business, quality control and certain transactional approval requirements. The financial requirements of the PMIERs require a mortgage insurer' s" Available Assets" (generally only the most liquid assets of an insurer) to equal or exceed its" Minimum Required Assets" (which are based on an insurer' s book of risk in force, calculated from tables of factors with several risk dimensions). Based on our application of the PMIERs, as of December 31, ~~2023~~ **2024** , MGIC' s Available Assets are in excess of its Minimum Required Assets ~~.~~ **,** and MGIC is in compliance with the PMIERs and eligible to insure loans purchased by the GSEs ~~. Through certain non- insurance subsidiaries, we also provide certain services for the mortgage finance industry, such as contract underwriting~~ . BASIS OF PRESENTATION The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (" GAAP"), as codified in the Accounting Standards Codification (" ASC"). Our consolidated financial statements include the accounts of MGIC Investment Corporation and its subsidiaries. Intercompany transactions and balances have been eliminated. In accordance with GAAP, we are required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. SUBSEQUENT EVENTS We have considered subsequent events through the date of this filing. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~87~~ **88** We consider money market funds and investments with original maturities of three months or less to be cash equivalents. RESTRICTED CASH AND CASH EQUIVALENTS Restricted cash and cash equivalents consists of cash and money market funds held in trusts for the benefit of contractual counterparties under reinsurance agreements or for other contractual restrictions. FAIR VALUE MEASUREMENTS We carry certain financial instruments at fair value and disclose the fair value of all financial instruments. Our financial instruments carried at fair value are predominantly measured on a recurring basis. Financial instruments measured on a nonrecurring basis are subject to fair value adjustments only in certain circumstances (for example, when there is evidence of impairment). The fair value of an asset or liability is defined as the price that would be received upon a sale of an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Fair value is based on quoted market prices or inputs, where available. If prices or quotes are not available, fair value is based on valuation models or other valuation techniques that consider relevant transaction characteristics (such as maturity) and use as inputs observable or unobservable market parameters including yield curves, interest rates, volatilities, equity or debt prices, and credit curves. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value, as described below. As of December 31, **2024 and** 2023 ~~and 2022~~ , we did not elect to measure any financial instruments acquired, or issued, such as our outstanding debt obligations, at fair value for which the primary basis of accounting is not fair value. Valuation process We use independent pricing sources to determine the fair value of a substantial majority of our financial instruments, which primarily consist

of assets in our investment portfolio, but also includes cash and cash equivalents and restricted cash and cash equivalents. A variety of inputs are used; in approximate order of priority, they are ~~:~~benchmark yields, reported trades, broker / dealer quotes, issuer spreads, bids, offers, and reference data including market research publications. Market indicators, industry, and economic events are also considered. The inputs listed above are evaluated using a multidimensional pricing model. This model combines all inputs to arrive at a value assigned to each security. Quality controls are performed by the independent pricing sources throughout this process, which include reviewing tolerance reports, trading information, data changes, and directional moves compared to market moves. On a quarterly basis, we perform quality controls over values received from the pricing sources which also include reviewing tolerance reports, data changes, and directional moves compared to market moves. We have not made any adjustments to the prices obtained from the independent pricing sources. Valuation hierarchy A three- level valuation hierarchy has been established under GAAP for disclosure of fair value measurements. The valuation hierarchy is based on the transparency of inputs to the valuation of a financial instrument as of the measurement date. To determine the fair value of securities available- for- sale in Level 1 and Level 2 of the fair value hierarchy, independent pricing sources, as described below, have been utilized. One price is provided per security based on observable market data. To ensure securities are appropriately classified in the fair value hierarchy, we review the pricing techniques and methodologies of the independent pricing sources and believe that their policies adequately consider market activity, either based on specific transactions for the issue valued or based on modeling of securities with similar credit quality, duration, yield and structure that were recently traded. The three levels are defined as follows: èLevel 1Quoted prices for identical instruments in active markets that we can access. Financial assets using Level 1 inputs primarily include U. S. Treasury securities, money market funds, treasury bills, and certain equity securities. èLevel 2Quoted prices for similar instruments in active markets that we can access; quoted prices for identical or similar instruments in markets that are not active; and inputs, other than quoted prices, that are observable in the marketplace for the instrument. The observable inputs are used in valuation models to calculate the fair value of the instruments. Financial assets using Level 2 inputs primarily include obligations of U. S. government corporations and agencies, corporate bonds, mortgage- backed securities, asset- backed securities, most municipal bonds, and commercial paper. The independent pricing sources used for our Level 2 investments vary by type of investment. See Note 6-" Fair Value Measurements" for further information. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~88~~ **89** èLevel 3Valuations derived from valuation techniques in which one or more significant inputs or value drivers are unobservable. The inputs used to derive the fair value of Level 3 securities reflect our own assumptions about the assumptions a market participant would use in pricing an asset or liability. Our non- financial assets that are classified as Level 3 securities consist of real estate acquired through claim settlement and embedded derivatives related to our Home Re Transactions. The fair value of real estate acquired is the lower of our acquisition cost or a percentage of the appraised value. The percentage applied to the appraised value is based upon our historical sales experience adjusted for current trends. The fair value of our embedded derivatives reflects the present value impact of the variation in investment income on the assets held by the reinsurance trusts and the contractual reference rate on Home Re Transactions used to calculate the reinsurance premiums we estimate we will pay over the estimated remaining life. INVESTMENTS Fixed income securities. Our fixed income securities are classified as available- for- sale and are reported at fair value. Fixed income securities with original maturities less than one year and greater than three months are classified as short- term on our consolidated balance sheet. The related unrealized investment gains or losses are, after considering the related tax expense or benefit, recognized as a component of accumulated other comprehensive income (loss) in shareholders' equity. Realized investment gains and losses on fixed income securities are reported in income based upon specific identification of securities within" Net gains (losses) on investments and other financial instruments" on the consolidated statement of operations, along with any changes in the credit allowance. Equity securities. Equity securities are reported at fair value, except for certain securities that are carried at cost. Equity securities carried at cost are reported as Other invested assets. Realized investment gains and losses on equity securities are reported in income based upon specific identification of securities sold within" Net gains (losses) on investments and other financial instruments" on the consolidated statement of operations, along with any changes in the fair value. Other invested assets. Other invested assets are carried at cost. These assets represent our investment in Federal Home Loan Bank of Chicago (" FHLB") stock, which due to restrictions, is required to be redeemed or sold only to the security issuer at par value. Accrued Investment Income. We report accrued investment income separately from securities. Accrued investment income is written off through net realized investment gains (losses) if, and at the time, the issuer of the security defaults or is expected to default on payments. Unrealized losses and allowance for credit losses Each quarter we determine whether securities in an unrealized loss position are impaired by considering several factors including, but not limited to: èour intent to sell the security or whether it is more likely than not that we will be required to sell the security before recovery of its amortized cost basis; èthe present value of the discounted cash flows we expect to collect compared to the amortized cost basis of the security; èfailure of the issuer to make scheduled interest or principal payments; èa change in rating to below investment grade; andèadverse conditions specifically related to the security, an industry, or a geographic area. Based on our evaluation, we will record an impairment on a security if we intend to sell, if it is more likely than not that we will be required to sell it prior to recovery of its amortized cost basis, or if the present value of the discounted cash flows we expect to collect is less than the amortized cost basis of the security. When a security is considered to be impaired, but when a sale is not intended or is not likely, the loss is separated into the portion that represents the credit loss and the portion that is due to other factors. A credit loss is recorded, subject to reversal, in the consolidated statement of operations within" Net gains (losses) on investments and other financial instruments." The loss due to other factors is recognized in accumulated other comprehensive loss, net of taxes. A credit loss is determined to exist if the present value of the discounted cash flows, using the security' s original yield, expected to be collected from the security is less than the cost basis of the security. HOME OFFICE AND EQUIPMENT Home office and equipment is carried at cost **,** net of depreciation. For financial reporting purposes, depreciation is determined on a straight- line basis for the home office and equipment over estimated lives ranging from 3 to 45 years. For income tax purposes, we use accelerated depreciation methods. Home office and equipment is shown net of accumulated depreciation of $ ~~59~~ **61** . 2 million and $ ~~57~~ **59** . ~~1~~ **2** million as of December 31, **2024 and** 2023 ~~and 2022~~ , respectively. Depreciation expense for the years ended December 31, **2024,** 2023 ~~, and~~ 2022 ~~and 2021~~ was $ 4. ~~6~~ **2** million, $ 4. ~~9~~ **6** million and $ ~~5~~ **4** . ~~6~~ **9** million, respectively. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~89~~ **90** DEFERRED INSURANCE POLICY ACQUISITION COSTS Costs directly associated with the successful acquisition of mortgage insurance business, consisting of employee compensation and other policy issuance and underwriting expenses, are initially deferred and reported as deferred insurance policy acquisition costs (" DAC"). The deferred costs are reported net of any ceding commissions received associated with our reinsurance transactions. For each underwriting year of business, these costs are amortized to income in proportion to estimated gross profits over the estimated life of the policies ~~. We do not utilize anticipated investment income in our calculation. This includes accruing interest on the unamortized balance of DAC~~ . The estimates for each underwriting year are reviewed quarterly and updated when necessary to reflect actual experience and any changes to key variables such as persistency or loss development. Loss reserves include case reserves, incurred but not reported (" IBNR") reserves, and loss adjustment expense (" LAE") reserves. Case reserves and LAE reserves are established when notices of delinquency on insured mortgage loans are received. Such loans are referred to as being in our delinquency inventory. For reporting purposes, we consider a loan delinquent when it is two or more payments past due and has not become current or resulted in a claim payment. ~~Even though~~ **Although** the accounting standard, ASC 944, regarding accounting and reporting by insurance entities specifically excludes mortgage insurance from its guidance relating to loss reserves, we establish loss reserves using the general principles contained in the insurance standard. However, consistent with industry standards for mortgage insurers, we do not establish case reserves for future claims on insured loans that are not currently delinquent. Case reserves are established by estimating the number of loans in our delinquency inventory that will result in a claim payment, which is referred to as the claim rate, and further estimating the amount of the claim payment, which is referred to as claim severity. Our case reserve estimates are primarily established based upon historical experience, including rescissions of policies, curtailments of claims, and loan modification activity. Adjustments to reserve estimates are reflected in the financial statements in the years in which the adjustments are made. Loss reserves for reinsurance assumed are based on information provided by the ceding companies. IBNR reserves are established for delinquencies estimated to have occurred prior to the close of an accounting period, but have not yet been reported to us. Consistent with case reserves for reported delinquencies, IBNR reserves are also established using estimated claim rates and claim severities. LAE reserves are established for the estimated costs of settling claims, including legal and other expenses, and general expenses of administering the claims settlement process. Loss reserves are ceded to reinsurers under our reinsurance agreements. (See" Reinsurance" discussion below. Also see Note 8 – " Loss Reserves " and Note 9 – " Reinsurance. ") PREMIUM DEFICIENCY RESERVE After our loss reserves are established, we perform premium deficiency tests using our best estimate of future premium, losses and LAE paid. Premium deficiency reserves are established, if necessary, when the present value of expected future losses and LAE paid exceeds the present value of expected future premium **, anticipated investment income,** and already established loss reserves. REVENUE RECOGNITION We write policies which are guaranteed renewable at the insured' s option on a monthly, single, or annual premium basis. We have no ability to re- underwrite or reprice these policies. Premiums written on monthly premium policies are earned as coverage is provided. Premiums written on single premium policies and annual premium policies are initially deferred as unearned premium reserve. Premiums written on annual premium policies are earned on a monthly pro rata basis. Premiums written on policies covering more than one year are amortized over the estimated policy life based on historical experience, which includes the anticipated incurred loss pattern. When a policy is cancelled for a reason other than rescission or claim payment, all premium that is non- refundable is immediately earned. Any refundable premium is returned to the servicer or borrower. When a policy is cancelled due to rescission, all previously collected premium is returned. When a policy is cancelled because a claim is paid, premium collected since the date of delinquency is returned. The liability associated with our estimate of premium to be returned is accrued for separately and included in" Other liabilities" on our consolidated balance sheets. Changes in this liability, and the actual return of premiums for all periods, ~~affects~~ **affect** premiums written and earned. We assess whether a credit loss allowance is required for our premium receivable. We consider collectability trends and industry development, among other things. Any estimated credit loss would be immediately recognized. Fee income of our non- insurance subsidiaries is earned and recognized as the services are provided and the customer is obligated to pay. Fee income consists primarily of contract underwriting and related fee- based services provided to lenders and is included in " Other revenue " on the consolidated statements of operations. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~90~~ **91** Deferred income taxes are provided under the liability method, which recognizes the future tax effects of temporary differences between amounts reported in the consolidated financial statements and the tax bases of these items. The estimated tax effects are computed at the enacted federal statutory income tax rate. Changes in tax laws, rates, regulations, and policies or the final determination of tax audits or examinations, could materially affect our estimates and can be significant to our operating results. We evaluate the realizability of the deferred tax assets based on the weight of all available positive and negative evidence. Deferred tax assets are reduced by a valuation allowance if it is more likely than not that all or some portion of the deferred tax assets will not be realized. The recognition of a tax position is determined using a two- step approach. The first step applies a more- likely- than- not threshold for recognition and derecognition. The second step measures the tax position as the greatest amount of benefit that is cumulatively greater than 50 % likely to be realized. When evaluating a tax position for recognition and measurement, we presume that the tax position will be examined by the relevant taxing authority that has full knowledge of all relevant information. We recognize interest accrued and penalties related to unrecognized tax benefits in our provision for income taxes. Federal tax law permits mortgage guaranty insurance companies to deduct from taxable income, subject to certain limitations, the amounts added to contingency loss reserves that are recorded for regulatory purposes. The amounts we deduct must generally be included in taxable income in the tenth subsequent year. The deduction is allowed only to the extent that we purchase and hold U. S. government non- interest- bearing tax and loss bonds in an amount equal to the tax benefit attributable to the deduction. We account for these purchases as a payment of current federal income tax. (See" Note 12- Income Taxes.") BENEFIT PLANS We have a non-contributory defined benefit pension plan, as well as a supplemental executive retirement plan, that covered eligible employees as of December 31, 2022, utilizing a cash balance formula. Effective January 1, 2023, these plans were frozen (no future benefits will be accrued for participants due to employment and no new participants will be added). Participants will continue to earn interest credits on their retirement benefits. We recognize the ongoing retirement benefit costs of these plans as they are incurred. Our policy is to fund pension costs as required under the Employee Retirement Income Security Act of 1974. We **also** offer ~~both medical and dental~~ benefits for retired domestic employees, their eligible spouses and dependents **under a postretirement benefit plan. Participation in this plan is limited to eligible employees that participated in the defined benefit pension plan** . Eligibility for coverage is based on meeting certain years of service and retirement age qualifications. We accrue the estimated costs of **the** retiree ~~medical and dental~~ benefits over the period during which employees render the service that qualifies them for benefits. (See Note 11 – " Benefit Plans. ") We cede insurance risk through the use of quota share reinsurance transactions (" QSR") and excess of loss reinsurance transactions. We have excess of loss transactions executed through the traditional reinsurance market and with Home Re special purpose insurers. Premiums and losses incurred on our QSR Transactions are ceded pursuant to the terms of our reinsurance agreements. Reinsurance premiums ceded under our traditional reinsurance transactions are based off the remaining reinsured coverage levels. Reinsurance premiums ceded under our Home Re agreements are composed of coverage, initial expense and supplemental premiums. The coverage premiums are generally calculated as the difference between the amount of interest payable by the Home Re Entity on the remaining reinsurance coverage levels, and the investment income collected on the collateral assets held in the reinsurance trust account and used to collateralize the Home Re Entity' s reinsurance obligation to MGIC. Loss reserves are reported before taking credit for amounts ceded under reinsurance transactions. Ceded loss reserves are reflected as" Reinsurance recoverable on loss reserves." Amounts due from reinsurers on paid claims are reflected as " Reinsurance recoverable on paid losses. " Ceded premiums payable, net of ceding commission and profit commission are included in " Other liabilities. " Profit commissions are included with " Premiums written – Ceded " and ceding commissions are included with " Other underwriting and operating expenses, net. " We remain liable for all insurance ceded. (See Note 9 – " Reinsurance. ") We assess whether a credit loss allowance is required for our reinsurance recoverables. In assessing whether a credit allowance should be established, we consider several factors including, but not limited to, the credit ratings of individual reinsurers, investor reports for our Home Re Transactions, collateral held in trust accounts in which MGIC is the sole beneficiary, and aging of outstanding reinsurance recoverable balances. Assumed reinsurance is based on information received from the ceding company. See Note 9 – " Reinsurance" for discussion of our variable interest entity (" VIE") policy on the Home Re Transactions. SHARE- BASED COMPENSATION We have certain share- based compensation plans. Under the fair value method, compensation cost is measured at the grant date based on the fair value of the award and is recognized over the service period which generally corresponds to the vesting period. Awards under our plans generally vest over periods ranging from one to three years, although awards to our non-employee directors vest immediately. Any forfeitures of awards are recognized as they occur. (See Note 15 – " Share- based Compensation Plans. ") MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~91~~ **92** EARNINGS PER SHARE Basic earnings per share (" EPS") is calculated by dividing net income by the weighted average number of shares of common stock outstanding. Our" participating securities" are composed of vested restricted stock and restricted stock units (" RSUs") with non- forfeitable rights to dividends. Diluted EPS includes the components of basic EPS and also gives effect to

dilutive common stock equivalents. We calculate diluted EPS using the treasury stock method and if- converted method. Under the treasury stock method, diluted EPS reflects the potential dilution that could occur if our unvested restricted stock units result in the issuance of common stock. ~~Under~~ **Prior to our redemption of the outstanding principal on our 9 % debentures in 2023, we utilized** the if-converted method, **to calculate** ~~diluted EPS reflects~~ the potential dilution that could occur if our 9 % Debentures ~~are~~ **were** converted to common stock. The determination of potentially issuable shares ~~does~~ **did** not consider the satisfaction of the conversion requirements and the shares ~~are~~ **were** included in the determination of diluted EPS as of the beginning of the period, if dilutive. For purposes of calculating basic and diluted EPS, vested RSUs are considered outstanding. In ~~the third quarter of~~ 2023, under the terms of our 9 % Debentures, we exercised our option to redeem the outstanding principal. (See Note 7- " Debt ".) RELATED PARTY TRANSACTIONS In **2024,** 2023 **,** and 2022 ~~,~~ there were no material related party transactions ~~. In 2021 MGIC distributed to the holding company, as a dividend, its investment in MGIC Credit Assurance Corporation~~. RECENT ACCOUNTING AND REPORTING DEVELOPMENTS Accounting standards and laws and regulations effective in ~~2023~~ **2024** ~~,~~ or early adopted, and relevant to our financial statements are described below: ~~Reference Rate Reform~~ **Segment Reporting — Improvements to Reportable Segment Disclosures** : ASU ~~2022~~ **2023** - ~~06~~ **07** In ~~March~~ **November** ~~2020~~ **2023** , the FASB issued ASU ~~2020~~ **2023** - **07. The update expands annual and interim disclosure requirements** ~~04 to provide temporary optional guidance to ease the potential burden in accounting~~ for ~~(or recognizing the~~ **reportable segments, primarily through enhanced disclosures about significant segment expenses. The standard took** ~~effects~~ **effect** ~~of) reference rate reform. It provided optional expedients~~ **for all public business entities for fiscal periods beginning after December 15, 2023,** and **interim periods beginning after** ~~exceptions for applying generally accepted accounting principles to contracts, hedging relationships and other transactions affected by reference rate reform if certain criteria are met. In December 2022, the FASB issued ASU 2022- 06, extending the election and application from March 12, 2020 through~~ December 31, 2024 ~~(originally~~ **. The Company adopted ASU 2023- 07 during the year ended** December 31, ~~2022~~ **2024** ~~).~~ **See Note 18-" Segment Reporting"** ~~Future elections of this standard will ease, if warranted, the requirements~~ for ~~accounting for the future effects of reference rate reform. We have evaluated the impact the discontinuance of LIBOR will have on~~ our **disclosures around ASU** ~~consolidated financial statements and have determined it will not have a material impact. Inflation Reduction Act On August 16, 2022, the Inflation Reduction Act (the " IRA ") was enacted and signed into law in the United States. The IRA includes provisions for a 15 % corporate minimum tax and a 1 % excise tax on net stock repurchases. Both of these taxes are effective in~~ 2023 ~~- 07 . These provisions did not have a material impact on our consolidated financial results, including our annual estimated effective tax rate~~. PROSPECTIVE ACCOUNTING AND REPORTING DEVELOPMENTS Relevant new amendments to accounting standards, which are not yet effective or adopted. Improvements to Income Tax Disclosures: ASU 2023-09 In December 2023, the FASB issued ASU 2023- 09 to enhance the transparency and decision usefulness of income tax disclosures. Income tax disclosures will require consistent categories and greater disaggregations of information in the rate reconciliation and disclosure of income taxes paid disaggregated by jurisdiction. ASU 2023- 09 is effective for annual periods beginning after December 15, 2024 on a prospective basis. **We have evaluated the impacts the adoption of this guidance will have on our consolidated financial statements and determined that it will not have a material impact. Disaggregation of Income Statement Expenses: ASU 2024- 03 In November 2024, the FASB issued ASU 2024- 03 requiring additional disclosure of the nature of expenses included in the income statement. The new standard requires disclosures about specific expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. ASU 2024- 03 is effective for annual reporting periods beginning after December 15, 2026 and interim reporting periods beginning after December 15, 2027. The requirements will be applied prospectively with the option for retrospective application.** Early adoption is permitted. We are currently evaluating the impacts the adoption of this guidance will have on our disclosures, but do not expect it ~~will~~ **to** have a material impact. Change in net unrealized gains (losses) Table5. 6 (In thousands) ~~20232022021Fixed~~ ---- **20242023222Fixed** income securities **$ 11, 481** $ 179, 174 $ (707, 005) ~~$ (154, 555)~~ -There were 1, ~~021~~ **020** and 1, ~~226~~ **021** securities in an unrealized loss position as of December 31, **2024 and** 2023 ~~and 2022~~ , respectively. Based on current facts and circumstances, we believe the unrealized losses as of December 31, ~~2023~~ **2024** presented in table 5. 5a above are not indicative of the ultimate collectability of the par value of the securities. The unrealized losses in all categories of our investments were primarily caused by an increase in prevailing interest rates. We also rely upon estimates of several credit and non- credit factors in our review and evaluation of individual investments to determine whether a credit impairment exists. All of the securities in an unrealized loss position are current with respect to their interest obligations. The source of net investment income is shown in table 5. 7 below. Net investment incomeTable5. 7 (In thousands) ~~20232022021Fixed~~ ---- **20242023222Fixed** income securities $ **230, 524 $** 202, 655 $ 166, 306 ~~$ 160, 030~~ -Equity ~~securities529~~ **securities624 529** 437 ~~471~~ -Cash ~~equivalents16~~ **equivalents18 , 498 16** , 111 5, 049 ~~75 Other44~~ **Other31 44** 51 ~~22~~ -Investment ~~income219~~ **income249 , 677 219** , 339 171, 843 ~~160, 598~~ -Investment expenses **(5, 037)** (4, 599) (4, 367 ~~) (4, 160~~ -) Net investment income $ **244, 640 $** 214, 740 $ 167, 476 ~~$ 156, 438~~ -MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~97~~ **98** Recurring fair value measurements The following describes the valuation methodologies generally used by the independent pricing sources, or by us, to measure financial instruments at fair value, including the general classification of such financial instruments pursuant to the valuation hierarchy. • Fixed income securities: U. S. Treasury Securities and Obligations of U. S. Government Corporations and Agencies: Securities with valuations derived from quoted prices for identical instruments in active markets that we can access are categorized in Level 1 of the fair value hierarchy. Securities valued by surveying the dealer community, obtaining relevant trade data, benchmark quotes and spreads and incorporating this information in the valuation process are categorized as Level 2 of the fair value hierarchy. Corporate Debt Securities are valued by obtaining relevant trade data, benchmark quotes and spread, and broker / dealer quotes and incorporating this information into the valuation process. These securities are generally categorized in Level 2 of the fair value hierarchy. Obligations of U. S. States & Political Subdivisions are valued by tracking, capturing, and analyzing quotes for active curve provide further data

for evaluation. These securities are generally categorized in Level 2 of the fair value hierarchy. Residential Mortgage- Backed Securities (" RMBS") are valued by monitoring interest rate movements, and other pertinent data daily. Incoming market data is enriched to derive spread, yield and / or price data as appropriate, enabling known data points to be extrapolated for valuation application across a range of related securities. These securities are generally categorized in Level 2 of the fair value hierarchy. Commercial Mortgage- Backed Securities (" CMBS") are valued using techniques that reflect market participants' assumptions and maximize the use of relevant observable inputs including quoted prices for similar assets, benchmark yield curves and market corroborated inputs. Evaluation uses regular reviews of the inputs for securities covered, including executed trades, broker quotes, credit information, collateral attributes and / or cash flow waterfall as applicable. These securities are generally categorized in Level 2 of the fair value hierarchy. Asset- Backed Securities (" ABS") are valued using spreads and other information solicited from market buy- and- sell- side sources, including primary and secondary dealers, portfolio managers, and research analysts. Cash flows are generated for each tranche, benchmark yields are determined, and deal collateral performance and tranche level attributes including trade activity, bids, and offers are applied, resulting in tranche specific prices. These securities are generally categorized in Level 2 of the fair value hierarchy. Collateralized loan obligations (" CLOs") are valued by evaluating manager rating, seniority in the capital structure, assumptions about prepayment, default and recovery and their impact on cash flow generation. Loan level net asset values are determined and aggregated for tranches and as a final step prices are checked against available recent trade activity. These securities are generally categorized in Level 2 of the fair value hierarchy. Foreign government debt is valued by surveying the dealer community, obtaining relevant trade data, benchmark quotes and spreads and incorporating this information into the valuation process. These securities are generally categorized in Level 2 of the fair value hierarchy. Commercial Paper, with an original maturity greater than 90 days, is valued using market data for comparable instruments of similar maturity and average yields. These securities are categorized in Level 2 of the fair value hierarchy. • Equity securities: Consist of actively traded, exchange- listed equity securities, including exchange traded funds (" ETFs ") and Bond Mutual Funds, with valuations derived from quoted prices for identical assets in active markets that we can access. These securities are valued in Level 1 of the fair value hierarchy. • Cash Equivalents: Consists of money market funds and treasury bills with valuations derived from quoted prices for identical assets in active markets that we can access. These securities are valued in level 1 of the fair value hierarchy. Instruments in this category valued using market data for comparable instruments are classified as level 2 in the fair value hierarchy. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~98~~ **99** Assets measured at fair value, by hierarchy level, as of December 31, **2024 and** 2023 ~~and 2022~~ are shown in tables 6. 1a and 6. 1b below. The fair value of the assets is estimated using the process described above, and more fully in Note 3-" Significant Accounting Policies" to the consolidated financial statements in this Form 10- K. Additional fair value disclosures related to our investment portfolio are included in Note 5-" Investments." In addition to the assets carried at fair value discussed above, we have embedded derivatives carried at fair value related to our Home Re Transactions that are classified as Other liabilities or Other assets in our consolidated balance sheets. The estimated fair value related to our embedded derivatives reflects the present value impact of the variation in investment income on the assets held by the reinsurance trusts and the contractual reference rate on the Home Re Transactions used to calculate the reinsurance premiums we estimate we will pay over the estimated remaining life. These liabilities or assets are categorized in Level 3 of the fair value hierarchy. At December 31, **2024 and** 2023 ~~and 2022~~ , the fair value of the embedded derivatives was **a liability of $ 0. 4 million and** an asset of $ 2. 4 million ~~and $ 2. 5 million~~ , respectively. (See Note ~~4~~ **9** -" Reinsurance" for more information about our Home Re Transactions.) Real estate acquired through claim settlement is carried at fair values and is reported in " Other assets " on the consolidated balance sheet. These assets are categorized as Level 3 of the fair value hierarchy. Purchases of real estate acquired was $ ~~0~~ **5** , ~~6~~ **2** million and MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~99~~ **100** $ ~~3~~ **0** , ~~5~~ **6** million for the years ended December 31, **2024, and** 2023 ~~, and 2022~~ , respectively. Sales of real estate acquired were $ ~~3~~ **2** , ~~8~~ **7** million and $ ~~4~~ **3** , ~~0~~ **8** million for the years ended December 31, **2024, and** 2023, ~~and 2022,~~ respectively. FINANCIAL **ASSETS AND** LIABILITIES NOT MEASURED AT FAIR VALUE Other invested assets include an investment in FHLB stock that is carried at cost, which due to restrictions that require it to be redeemed or sold only to the security issuer at par value, approximates fair value. The fair value of other invested assets is categorized as Level 2. Financial liabilities include our outstanding debt ~~obligations~~ **obligation** . The fair ~~values~~ **value** of our 5. 25 % Notes **is** ~~and 9 % Debentures were~~ based on observable market prices. In all cases the fair values of the financial liabilities below are categorized as level 2. Table 6. ~~3~~ **2** presents the carrying value and fair value of our financial assets and liabilities disclosed, but not carried, at fair value as of December 31, **2024 and** 2023 **, Financial assets** and ~~2022. Long- term debt ~~obligationsTable7~~ **obligation, carrying valueTable7** . 1December 31, (In thousands) ~~202320225~~ **202420235** , 25 % Notes, due August 2028 (par value: $ 650 million) $ ~~643~~ **644** , **667** ~~196 $ 641, 724 9 % Debentures, due April 2063 — 21, 086 Long- term debt obligations, carrying value~~ $ 643, 196 **$ 662, 810** The 5. 25 % Senior Notes **are (" 5. 25 % Notes") is** an obligation of our holding company, MGIC Investment Corporation. 2023 Transactions In the third quarter of 2023, under the terms of our 9 % Debentures, we exercised our option to redeem the outstanding principal of $ 21. 1 million. The 9 % Debentures were convertible into shares of MGIC common stock at a rate of 77. 9620 shares per $ 1, 000 principal amount. Prior to the redemption date, substantially all holders elected to convert into shares of common stock. Under the terms of the 9 % Debentures, we paid cash of $ 28. 6 million in lieu of issuing shares of common stock. The conversion of our 9 % Debentures resulted in a $ 5. 3 million reduction in our shareholders' equity, net of tax, and a reduction of 1. 6 million potentially dilutive shares. 2022 Transactions During 2022, we repurchased $ 89. 1 million in aggregate principal of our 9 % Debentures at a purchase price of $ 121. 2 million plus accrued interest. The repurchase of our 9 % Debentures resulted in a $ 32. 1 million loss on debt extinguishment on our consolidated statement of operations and a reduction of 6. 8 million potentially dilutive shares. The Federal Home Loan Bank Advance (the " FHLB Advance ") was an obligation of MGIC. In 2022, we repaid the outstanding principal balance of the FHLB Advance at a prepayment price of $ 156. 3 million, incurring a prepayment fee of $ 1. 3 million. In July 2022, we redeemed the outstanding principal balance of the 5. 75 % Senior Notes (" 5. 75 % Notes ") through a make- whole price of $ 248. 4 million plus accrued interest. The excess of the make- whole price over the carrying value, plus the write- off of unamortized issuance costs on the par value, resulted in a $ 6. 8 million loss on debt extinguishment. The make- whole amount was calculated as the sum of the present values of the remaining scheduled payments of principal and interest discounted at the treasury rate defined in the notes plus 50 basis points and accrued interest. The 5. 75 % Notes were an obligation of our holding company. ~~2021 Transactions In December 2021, we repurchased $ 98. 6 million in aggregate principal amount of our 9 % Debentures at a purchase price of $ 135. 5 million, plus accrued interest. The repurchase of our 9 % Debentures resulted in a $ 36. 9 million loss on debt extinguishment on our consolidated statement of operations and a reduction in our potentially dilutive shares by approximately 7. 5 million shares.~~ Interest on the 5. 25 % Notes is payable semi- annually on February 15 and August 15. Until August 15, ~~2024~~ **2025** , ~~we may redeem the notes at 102. 625 % of principal; on or after August 15, 2024~~ , we may redeem the notes at 101. 313 % of principal; ~~and~~ on or after August 15, 2025, we may redeem the notes at 100 % of principal; in each case, plus accrued and unpaid interest. The 5. 25 % Notes have covenants and events of default, which are customary for securities of this nature, and further provide that the trustee or holders of at least 25 % in aggregate principal amount of the outstanding 5. 25 % Notes may declare them immediately due and payable upon the occurrence of certain events of default after the expiration of the applicable grace period. In addition, in the case of an event of default arising from certain events of bankruptcy, insolvency or reorganization relating to the Company or any of its significant subsidiaries, the 5. 25 % Notes will become due and payable immediately. This description is not intended to be complete in all respects and is qualified in its entirety by the terms of the 5. 25 % Notes, including their covenants and events of default. We were in compliance with all covenants as of December 31, ~~2023~~ **2024** . ~~Interest on the 9 % Debentures was payable semi- annually on April 1 and October 1 of each year. The 9 % Debentures were convertible, at the holders' option, into common shares. The 9 % Debentures included a feature that allowed us, at our option, to make a cash payment to converting holders in lieu of issuing shares of common stock upon conversion of the 9 % Debentures. MGIC Investment Corporation 2023 Form 10- K | 101-~~ INTEREST PAYMENTS Interest payments were $ **34. 1 million during 2024, $** 35. 1 million during 2023 ~~,~~ **and** $ 53. 7 million during 2022 ~~and $ 71. 7 million during~~ **MGIC Investment Corporation** ~~2021~~ **2024** ~~. Form 10- K | 102~~ As described in Note 3 – " Summary of Significant Accounting Policies – Loss Reserves, " we establish case reserves and loss adjustment expenses (" LAE") reserves on delinquent loans that were reported to us as two or more payments past due and have not become current or resulted in a claim payment. Such loans are referred to as being in our delinquency inventory. Case reserves are established by estimating the number of loans in our delinquency inventory that will result in a claim payment, which is referred to as the claim rate, and further estimating the amount of the claim payment, which is referred to as claim severity. Estimation of losses is inherently judgmental. The conditions that affect the claim rate and claim severity include the current and future state of the domestic economy, including unemployment and the current and future strength of local housing markets; exposure on insured loans; the amount of time between delinquency and claim filing (all else being equal, the longer the period between delinquency and claim filing, the greater the severity); and curtailments and rescissions. The actual amount of the claim payments may be substantially different than our loss reserve estimates. Our estimates could be adversely affected by several factors, including a deterioration of regional or national economic conditions, including unemployment, leading to a reduction in borrowers' income and thus their ability to make mortgage payments, the impact of past and future government initiatives and actions taken by the GSEs (including mortgage forbearance programs and foreclosure moratoriums), and a drop in housing values which may affect borrower willingness to continue to make mortgage payments when the value of the home is below the mortgage balance. Loss reserves in future periods will also be dependent on the number of loans reported to us as delinquent. Changes to our estimates could result in a material impact to our consolidated statements of operations and financial position, even in a stable economic environment. Given the uncertainty of the macroeconomic environment, including the effectiveness of loss mitigation efforts, changes in home prices, and level of employment, our loss reserve estimates may continue to be impacted. In considering the potential sensitivity of the factors underlying our estimate of loss reserves, it is possible that even a relatively small change in our estimated claim rate or claim severity could have a material impact on loss reserves and, correspondingly, on our consolidated statements of operations even in a stable economic environment. For example, as of December 31, ~~2023~~ **2024** , assuming all other factors remain constant, a $ 1, 000 increase / decrease in the average severity reserve factor would change the loss reserve amount by approximately /- $ ~~8~~ **7** million. A one percentage point increase / decrease in the average claim rate reserve factor would change the loss reserve amount by approximately /- $ ~~16~~ **18** million. The " Losses incurred " section of table 8. 1 below shows losses incurred on delinquencies that occurred in the current year and in prior years. The amount of losses incurred relating to delinquencies that occurred in the current year represents the estimated amount to be ultimately paid on such delinquencies. The amount of losses incurred relating to delinquencies that occurred in prior years represents the difference between the actual claim rate and claim severity associated with those delinquencies resolved in the current year compared to the estimated claim rate and claim severity at the prior year- end, as well as a re- estimation of amounts to be ultimately paid on delinquencies continuing from the end of the prior year. This re- estimation of the claim rate and claim severity is the result of our review of current trends in the delinquency inventory, such as percentages of delinquencies that have resulted in a claim, the amount of the claims relative to the average loan exposure, changes in the relative level of delinquencies by geography and changes in average loan exposure. Losses incurred on delinquencies received in the..... through the sale of their property. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~102~~ **103** The " Losses paid " section of table 8. 1 below shows the amount of losses paid on delinquencies received in the current year and losses paid on delinquencies that occurred in prior years. PREMIUM REFUNDS Our estimate of premiums to be refunded on expected claim payments is accrued for separately in" Other liabilities" on our consolidated balance sheets and was $ ~~21~~ **12** . ~~1~~ **5** million and $ ~~25~~ **21** . ~~5~~ **1** million at December 31, **2024 and** 2023 ~~and 2022~~ , respectively. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | 104 Our consolidated financial statements reflect the effects of assumed and ceded reinsurance transactions. Assumed reinsurance refers to the acceptance of certain insurance risks that other insurance companies have underwritten. Ceded reinsurance involves transferring certain insurance risks we have underwritten to other insurance companies who agree to share these risks. The purpose of ceded reinsurance is to protect us, at a cost, against losses arising from our mortgage guaranty policies covered by the agreement and to manage our capital requirements under PMIERs. Reinsurance is currently placed on a quota share and excess of loss basis. Table 9. 1 below shows the effect of all reinsurance agreements on premiums earned and losses incurred as reflected in the consolidated statements of operations. ReinsuranceTable9. 1Years ended December 31, (In thousands) ~~20232022021Premiums~~ ---- **202420232022Premiums** earned: Direct $ 1, **138, 245 $ 1,** 142, 412 $ 1, 154, 728 ~~$ 1, 167, 592 Assumed12~~ **Assumed14 , 458 12** , 960 8, 778 **Ceded: 9, 858** Ceded- quota share reinsurance (1) (**115, 306) (** 123, 955) (86, 435) ~~(118, 537)~~ Ceded- excess- of- loss reinsurance **(66, 590)** (78, 866) (69, 938) ~~(44, 494)~~ Total ceded **(181, 896)** (202, 821) (156, 373 ~~) (163, 031~~) Net premiums earned $ **970, 807 $** 952, 551 $ 1, 007, 133 ~~$ 1, 014, 419~~ Losses incurred: Direct **$ 5, 714** $ (5, 200) $ (274, 072) ~~$ 74, 496 Assumed~~ **Assumed32** (33) (330) ~~(57)~~ Ceded- quota share reinsurance (**20, 607) (** 15, 623) 19, 837 ~~(9, 862)~~ Losses incurred, net **$ (14, 861)** $ (20, 856) $ (254, 565) ~~$ 64, 577~~ Other Reinsurance Impacts: Profit commission on quota share reinsurance (1) $ **108, 368 $** 133, 145 $ 176, 084 ~~$ 153, 759~~ Ceding commission on quota share ~~reinsurance50~~ **reinsurance44 , 532 50** , 397 52, 071 ~~53, 460~~ (1) Ceded premiums earned are shown net of profit commission. QUOTA SHARE REINSURANCE We have entered into QSR transactions with panels of third- party reinsurers to cede a fixed percentage of premiums earned and received and losses incurred on insurance covered by the transactions. We receive the benefit of a ceding commission equal to 20 % of premiums ceded before profit commission. We also receive the benefit of a profit commission through a reduction of premiums we cede. The profit commission varies inversely with the level of losses on a " dollar for dollar " basis and can be eliminated at annual loss ratios higher than we have experienced on our QSR transactions. Ceded losses incurred are impacted by the delinquencies covered by our QSR Transactions, our estimates of payments that will be ultimately made on those delinquencies, and claim payments covered by our QSR Transactions. Each of our QSR transactions typically have annual loss ratio caps of 300 % and lifetime loss ratios of 200 %. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | 105 Table 9. 2 below provides additional detail regarding our QSR transactions in effect during ~~2023~~ **2024** . (2) We can elect to reduce the quota share percentage beginning on this date, and bi- annually thereafter. **(3) Terms of the agreement were amended effective December 31, 2024. We incurred an early termination fee of $ 1. 0 million for our 2021 QSR Transaction effective December 31, 2024 for reinsurers who did not participate in the amended agreement.** We incurred an early termination fee of $ 5. 1 million for our 2020 QSR Transaction effective December 31, 2023, **and** $ 2. 2 million for the termination of our 2019 QSR Transaction effective December 31, 2022 ~~and $ 5. 0 million for the termination of our 2017 and 2018 QSR Transactions effective December 31, 2021~~ . We also terminated our 2015 QSR Transaction effective December 31, 2022. The reinsurance recoverable on paid losses due from reinsurers for loss and LAE reserves incurred at the time of termination includes $ **2. 7 million as of December 31, 2024 for reinsurers who chose not to participate in the 2021 QSR Transaction amendment, $** 9. 4 million as December 31, 2023 from ~~reinsurer~~ **reinsurers** participating in the 2020 QSR Transaction and $ 17. 7 million as of December 31, 2022 from reinsurers participating in the 2015 and 2019 QSR Transactions. **MGIC Investment Corporation 2024 Form 10- K | 106** Under the terms of our QSR Transactions, ceded premiums, ceding commissions, profit commission, and ceded loss paid and LAE paid are settled net on a quarterly basis. The ceded premiums due after deducting the related ceding commission and profit commission is reported within" Other liabilities" on the consolidated balance sheets. The reinsurance recoverable on loss reserves related to our QSR Transactions was $ ~~33~~ **47** . 3 million as of December 31, ~~2023~~ **2024** and $ ~~28~~ **33** . ~~2~~ **3** million as of December 31, ~~2022~~ **2023** . The reinsurance recoverable balance is secured by funds on deposit from the reinsurers (which does not include letters of credit), the minimum amount of which is based on the greater of 1) a reinsurer' s funding requirements under PMIERs or 2) ceded reserves and unpaid losses. Each of the reinsurers under our quota share reinsurance agreements described above ~~MGIC Investment Corporation 2023 Form 10- K | 106~~ has an insurer financial strength rating of A- or better (or a comparable rating) by Standard and Poor' s Rating Services, A. M. Best, Moody' s, or a combination of the three. An allowance for credit losses was not required as of December 31, ~~2023~~ **2024** or December 31, ~~2022~~ **2023 .** EXCESS OF LOSS REINSURANCE We have XOL Transactions with a panel of unaffiliated reinsurers executed through the traditional reinsurance market (" Traditional XOL Transactions ") and with unaffiliated special purpose insurers (" Home Re Transactions "). For the policies covered under our Traditional XOL Transactions, we retain the first layer of the aggregate losses paid, and the reinsurers will then provide second layer coverage up to the outstanding reinsurance coverage amount. We retain losses paid in excess of the outstanding reinsurance coverage amount. The reinsurance coverage is subject to adjustment based on the risk characteristics of the covered loans until the initial excess of loss reinsurance coverage layer has been finalized. We can elect to terminate our Traditional XOL Transactions under specified scenarios without penalty upon prior written notice, including if we will receive less than the full credit amount under the PMIERs, full financial statement credit or full credit under applicable regulatory capital requirements for the risk ceded in any required calculation period. The reinsurance premiums ceded under the Traditional XOL Transactions are based off the remaining reinsurance coverage levels. The reinsured coverage levels are secured by funds on deposit from reinsurers (which does not include letters of credit), the minimum amount of which is based on the greater of 1) a reinsurer' s funding requirements under PMIERs or 2) ceded reserves and unpaid losses. Each of the reinsurers under our Traditional XOL Transactions has an insurer financial strength rating of A- or better (or a comparable rating) by Standard and Poor' s Rating Services, A. M. Best, Moody' s, or a combination of the three. The Home Re Transactions are executed with unaffiliated special purpose insurers (" Home Re Entities "). For the reinsurance coverage periods, we retain the first layer of the respective aggregate losses paid, and a Home Re Entity will then provide second layer coverage up to the outstanding reinsurance coverage amount. We retain losses paid in excess of the outstanding reinsurance coverage amount. Subject to certain conditions, the reinsurance coverage decreases as the underlying covered mortgages amortize or are repaid, or mortgage insurance losses are paid. The Home Re Entities financed the coverages by issuing mortgage insurance- linked notes (" ILNs ") to unaffiliated investors in an aggregate amount equal to the initial reinsurance coverage amounts. Each ILN is non- recourse to any assets of MGIC or affiliates. The proceeds of the ILNs, which were deposited into reinsurance trusts for the benefit of MGIC, will be the source of reinsurance claim payments to MGIC and principal repayments on the ILNs . ~~In October 2023, Home Re 2019- 1 Ltd., Home Re 2021- 1 Ltd., and Home Re 2021- 2 Ltd conducted tender offers for certain tranches of the mortgage insurance- linked notes that supported the reinsurance agreements with MGIC. The tender offer resulted in the reduction in the insurance- linked notes of $ 187. 1 million for the Home Re 2019- 1 Ltd, $ 91. 1 million for the Home Re 2021- 1 Ltd., and $ 106. 7 million for the Home Re 2021- 2 Ltd. The reinsurance coverage corresponding to the tendered notes was terminated. MGIC incurred $ 8. 0 million of additional ceded premium in the fourth quarter associated with the cost of the tender offer premiums and associated expenses~~ . Payment of principal on the related insurance- linked notes will be suspended and the reinsurance coverage available to MGIC under the transactions will not be reduced by such principal payments until a target level of credit enhancement is obtained or if certain thresholds or " Trigger Events " are reached, as defined in the related insurance- linked notes transaction agreement. As of December 31, ~~2023~~ **2024** , a **there were no** " Trigger ~~Event~~ **Events** " ~~has occurred on our Home Re 2019- 1 transaction because the reinsured principal balance of loans that were reported 60 or more days delinquent exceeded a percentage of the total reinsured principal balance of loans specified under the transaction. A" Trigger Event" has also occurred on the Home Re 2023- 1 transaction because the target level of credit enhancement on the most senior tranche has not been met~~ . In ~~January~~ 2024, we exercised our ~~optional~~ -- **option** call feature to terminate the reinsurance agreement with Home Re 2020- 1, Ltd. **and Home Re 2018- 1, Ltd. We also terminated our reinsurance agreement with Home Re 2019- 1, Ltd.** In connection with the ~~termination~~ **terminations** , the insurance linked notes issued by Home Re 2020- 1 Ltd. ~~will be~~ **, Home Re 2019- 1 Ltd, and Home Re 2018- 1, Ltd. were** redeemed in full. note balances divided by the aggregate ending coverage amounts. (3) The funding percentage on the 2021- ~~1, 2021-~~ 2 **was** ~~, and 2019- 1 were~~ reduced from 100 % after ~~the~~ **a** lender ~~offers~~ - **offer** ~~were~~ **was** conducted in the fourth quarter of 2023. ~~MGIC Investment Corporation 2023 Form 10- K | 108~~ The reinsurance premiums ceded to each Home Re Entity are composed of coverage, initial expense and supplemental premiums. The coverage premiums are generally calculated as the difference between the amount of interest payable by the Home Re Entity on the remaining reinsurance coverage levels, and the investment income collected on the collateral assets held in reinsurance trust account and used to collateralize the Home Re Entity' s reinsurance obligation to MGIC. The amount of monthly reinsurance coverage premium ceded will fluctuate due to changes in the reference rate and changes in money market rates that affect investment income collected on the assets in the reinsurance trust. As a result, we concluded that each Home Re Transaction contains an embedded derivative that is accounted for separately as a freestanding derivative. The fair values of the derivatives at December 31, ~~2023~~ **2024** and December 31, ~~2022~~ **2023** , were not material to our consolidated balance sheet, and the change in fair values during the years ended December 31, ~~2023~~ **2024** , December 31, ~~2022~~ **2023** and December 31, ~~2021~~ **2022** were not material to our consolidated statements of operations. (see Note 5-" Investments" and Note 6-" Fair Value Measurements"). **MGIC Investment Corporation 2024 Form 10- K | 108** At the time the Home Re Transactions were entered into, we concluded that each Home Re Entity is a variable interest entity (" VIE "). A VIE is a legal entity that does not have sufficient equity at risk to finance its activities without additional subordinated financial support or is structured such that equity investors lack the ability to make sufficient decisions relating to the entity' s operations through voting rights or do not substantively participate in gains and losses of the entity. Given that MGIC (1) does not have the unilateral power to direct the activities that most significantly affect each Home Re Entity' s economic performance and (2) does not have the obligation, outside the terms of the reinsurance agreement, to absorb losses or the right to receive benefits of each Home Re Entity that could be significant to the Home Re Entity, consolidation of the Home Re Entities is not required. We are required to disclose our maximum exposure to loss, which we consider to be an amount that we could be required to record in our statements of operations, as a result of our involvement with the VIEs under our Home Re Transactions. As of December 31, ~~2023~~ **2024** , December 31, ~~2022~~ **2023** and December 31, ~~2021~~ **2022** , we did not have material exposure to the VIEs as we have no investment in the VIEs and had no reinsurance claim payments due from the VIEs under our reinsurance transactions. We are unable to determine the timing or extent of claims from losses that are ceded under the reinsurance transactions. The VIE assets are deposited in reinsurance trusts for the benefit of MGIC that will be the source of reinsurance claim payments to MGIC. The purpose of the reinsurance trusts is to provide security to MGIC for the obligations of the VIEs under the reinsurance transactions. The trustee of the reinsurance trusts, a recognized provider of corporate trust services, has established segregated accounts within the reinsurance trusts for the benefit of MGIC, pursuant to the trust agreements. The trust agreements are governed by, and construed in accordance with, the laws of the State of New York. If the trustee of the reinsurance trusts failed to distribute claim payments to us as provided in the reinsurance trusts, we would incur a loss related to our losses ceded under the reinsurance transactions and deemed unrecoverable. We are also unable to determine the impact such possible failure by the trustee to perform pursuant to the reinsurance trust agreements may have on our consolidated financial statements. As a result, we are unable to quantify our maximum exposure to loss related to our involvement with the VIEs. MGIC has certain termination rights under the reinsurance transactions should its claims not be paid. We consider our exposure to loss from our reinsurance transactions with the VIEs to be remote. Table 9. 5 presents the total assets of the Home Re Entities as of December 31, ~~2023~~ **2024** , December 31, ~~2022~~ **2023** and December 31, ~~2021~~ **2022** . Year That the Rate Reaches the Ultimate Trend RateN / AN / ~~A20312031~~ **AN / A2031** In selecting a discount rate, we performed a hypothetical cash flow bond matching exercise, matching our expected pension plan and postretirement medical plan cash flows,

respectively, against a selected portfolio of high quality corporate bonds. The modeling was ~~MGIC Investment Corporation 2023 Form 10- K | 113~~ performed using a bond portfolio of noncallable bonds with at least $ 50 million outstanding. The average yield of these hypothetical bond portfolios was used as the benchmark for determining the discount rate. In selecting the expected long- term rate of return on assets, we considered the average rate of earnings expected on the classes of funds invested or to be invested to provide for the benefits of these plans. This included considering the trusts' targeted asset allocation for the year and the expected returns likely to be earned over the next 20 years. The year- end asset allocations of the plans are shown in table 11. 8 below. Plan assetsTable11. 8 Pension PlanOther Postretirement Benefits 12 / 31 / **202412 / 31 /** 202312 / 31 / ~~202212~~ **202412** / 31 / ~~202312 / 31 / 2022Equity~~ **2023Equity** Securities21 % ~~20~~ **21** % 100 % 100 % Debt Securities79 % ~~80~~ **79** % — % — % Total100 % 100 % 100 % 100 % Fair value is disclosed using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as described in Note 6-" Fair Value Measurements" and Note 3-" Significant Accounting Policies". The following describes the valuation methodologies used for pension plan and other postretirement benefits plan assets at fair value. • Domestic and International Mutual Funds: Securities are priced at the net asset value (" NAV"), which is the closing price published by the mutual fund on the reporting date. These financial assets are categorized as Level 1 in the fair value hierarchy. • U. S. Government Securities: See Note 6-" Fair Value Measurements" for a discussion of the valuation methodologies for U. S. Treasury Securities and Obligations of U. S. Government Corporations and Agencies. • Corporate Debt Securities: See Note 6-" Fair Value Measurements" for a discussion of the valuation methodologies for Corporate Debt. • Non- Government Foreign Debt Securities: These financial assets are represented by corporate debt securities issued by entities domiciled outside of the United States. See Note 6-" Fair Value Measurements" for a discussion of the valuation methodologies for Corporate Debt. • Municipal Bonds: See Note 6-" Fair Value Measurements" for a discussion of the valuation methodologies for Obligations of U. S. States & Political Subdivisions. **MGIC Investment Corporation 2024 Form 10- K | 113** • Pooled Equity Accounts: Pooled Equity Account assets are represented by the units held by the plan. The redemption value is determined based on the NAV of the underlying units. The NAV is derived from the aggregate fair value of the underlying investments less any liabilities as of the reporting date. These financial assets are categorized as Level 2 in the fair value hierarchy. The pension plan assets and related accrued investment income at fair value, by hierarchy level, as of December 31, **2024 and** 2023 ~~and 2022~~, are shown in tables 11. 9a and 11. 9b below. There were no securities valued using Level 3 inputs. The liability driven component is key to the asset allocation. The liability driven component seeks to align the duration of the fixed income asset allocation with the expected duration of the plan liabilities or benefit payments. Overall asset allocation is dynamic and specifies target allocation weights and ranges based on the funded status. An improvement in funded status results in the de- risking of the portfolio, allocating more funds to fixed income and less to equity. A decline in funded status would result in a higher allocation to equity. The maximum equity allocation is 40 %. The equity investments use combinations of mutual funds, ETFs, and pooled equity account structures focused on the following strategies: StrategyObjectiveInvestment typesReturn seeking growthFunded ratio improvement over the long term ● Global quality growth ● Global low volatilityReturn seeking bridgeDownside protection in the event of a declining equity market ● Enduring asset ● Durable company The fixed income objective is to preserve capital and to provide monthly cash flows for the payment of plan liabilities. Fixed income investments can include government, government agency, corporate, mortgage- backed, asset- backed, and municipal securities, and other classes of bonds. The duration of the fixed income portfolio has an objective of being within one year of the duration of the accumulated benefit obligation. The fixed income investments have an objective of a weighted average credit of A3 / A- / A- by Moody' s, S & P, and Fitch, respectively. **MGIC Investment Corporation 2024 Form 10- K | 114** Tables 11. 10a and 11. 10b set forth the other postretirement benefits plan assets at fair value as of December 31, **2024 and** 2023 ~~and 2022~~. All are Level 1 assets. Other postretirement benefits plan assets at fair value as of December 31, ~~2023Table11~~ **2024Table11** . 10a (In thousands) Level 1Domestic mutual funds $ ~~109~~ **130** , ~~575~~ **586** International mutual ~~funds24~~ **funds26** , ~~796~~ **018** Total Assets at fair value $ ~~134~~ **156** , ~~371~~ **604** Other postretirement benefits plan assets at fair value as of December 31, ~~2022Table11~~ **2023Table11** . 10b (In thousands) Level 1Domestic mutual funds $ ~~89~~ **109** , ~~584~~ **575** International mutual ~~funds21~~ **funds24** , ~~570~~ **796** Total Assets at fair value $ ~~111~~ **134** , ~~154~~ **371** Our postretirement plan portfolio is designed to achieve the following objectives over each market cycle and for at least 5 years: è Total return should exceed growth in the Consumer Price Index by 5. 75 % annually è Achieve competitive investment results ~~MGIC Investment Corporation 2023 Form 10- K | 115~~ The primary focus in developing asset allocation ranges for the portfolio is the assessment of the portfolio' s investment objectives and the level of risk that is acceptable to obtain those objectives. To achieve these objectives the minimum and maximum allocation ranges for fixed income securities and equity securities are: MinimumMaximumEquities (long only) 70 % 100 % Real estate0 % 15 % Commodities0 % 10 % Fixed income / Cash0 % 10 % Given the long term nature of this portfolio and the lack of any immediate need for significant cash flow, it is anticipated that the equity investments will consist of growth stocks and will typically be at the higher end of the allocation ranges above. Investment in international mutual funds is limited to a maximum of 30 % of the equity range. The allocation as of December 31, ~~2023~~ **2024** included 2 % that was primarily invested in equity securities of emerging market countries and another ~~16~~ **15** % was invested in securities of companies primarily based in Europe and the Pacific Basin. For the year ended December 31, ~~2023~~ **2024** , we contributed $ ~~0~~ **23** . ~~4~~ **3** million to the pension and supplemental executive retirement plans ~~to fund distributions from the supplemental executive retirement plan~~. We **do not** expect to make a contribution to the pension plan in ~~2024~~ **2025** ~~of $ 25. 0 million~~ and distributions from the supplemental executive retirement plan will be funded as incurred. We did not make a contribution to the other postretirement benefits plan in ~~2023~~ **2024** and we do not expect to make a contribution in ~~2024~~ **2025** . Expected future benefit payments from the plans are shown in Table 11. 11 below. We recognize interest accrued and penalties related to unrecognized tax benefits in income taxes. The statute of limitations related to the consolidated federal income tax return is closed for all years prior to ~~2020~~ **2021** . MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~117~~ ~~CHANGE IN ACCOUNTING POLICY~~ **116 TREASURY STOCK Prior to November 15, 2024, shares we repurchased were held in treasury stock unless they were reissued under the discretion of our Board of Directors.** As of ~~January 1~~ **November 15** , ~~2021~~ **2024** , we **retired all shares of our treasury stock, which resulted** ~~adopted the updated guidance for" Accounting for Convertible Instruments and Contracts~~ in an ~~Entity' s Own Equity ". The application of this guidance resulted in a $ 68. 3 million cumulative effect~~ adjustment to ~~our 2021 beginning~~ retained earnings ~~and~~ **equal to the cumulative amount of repurchase price** paid ~~-~~ in ~~capital~~ **excess of par value for treasury stock held as of that date. Subsequent** to ~~reflect~~ the ~~9 % Debenture~~ **retirement of the treasury stock, all shares of our common stock that we repurchase are immediately retired. Going forward, the amount of repurchase price paid in excess of par value for repurchased shares will be recorded** as **an adjustment to retained earnings** ~~if we had always accounted for the debt as a liability in its entirety~~. SHARE REPURCHASE PROGRAMS Repurchases may be made from time to time on the open market (including through 10b5- 1 plans) or through privately negotiated transactions. In ~~2023~~ **2024** , we repurchased approximately ~~21~~ **25** , ~~7~~ **3** million shares of our common stock **for** ~~at a weighted average cost per share of~~ $ ~~15~~ **566** , ~~71~~ **6 million** , which included commissions. We may repurchase up to an additional $ ~~273~~ **457** , ~~7~~ **2** million of our common stock through ~~July 1~~ **December 31** , ~~2025~~ **2026** under a share repurchase program approved by our Board of Directors in ~~2023~~ **2024** . In ~~2024, through~~ **the year to date period ended** February ~~16~~ **21** , **2025** we repurchased approximately ~~2~~ **5** , ~~9~~ **8** million shares **for** ~~of our common stock at a weighted average cost per share of~~ $ ~~19~~ **142** , ~~43~~ **3 million** , which included commissions. In ~~2022~~ **2023** , we repurchased approximately ~~27~~ **21** , ~~8~~ **7** million shares **for** ~~of our common stock at a weighted average cost per share of~~ $ ~~13~~ **340** , ~~6~~ 89, which included commissions. In 2021, we repurchased approximately 19. 0 million ~~shares of our common stock at a weighted average cost per share of $ 15. 30~~ , which included commissions. CASH DIVIDENDS In the first and second quarters of ~~2023~~ **2024** , we paid quarterly cash dividends of $ 0. ~~10~~ **115** per share to shareholders which totaled $ ~~58~~ **63** , ~~8~~ **3** million. In the third and fourth quarters of ~~2023~~ **2024** , we paid quarterly cash dividends of $ 0. ~~115~~ **13** per share which totaled $ ~~65~~ **67** . ~~3~~ **8** million. On January ~~23~~ **28** , ~~2024~~ **2025** , the Board of Directors declared a quarterly cash dividend to holders of the company' s common stock of $ 0. ~~115~~ **13** per share payable on March 5, ~~2023~~ **2025** , to shareholders of record at the close of business on February ~~15~~ **18** , ~~2024~~ **2025** . STATUTORY ACCOUNTING PRINCIPLES The statutory financial statements of our insurance companies are presented on the basis of accounting principles prescribed, or practices permitted, by the Office of the Commissioner of Insurance of the State of Wisconsin (the" OCI"), which has adopted the National Association of Insurance Commissioners (" NAIC") Statements of Statutory Accounting Principles (" SSAP") as the basis of its statutory accounting principles, except as described below. In converting from statutory to GAAP, typical adjustments include deferral of policy acquisition costs, the inclusion of net unrealized holding gains or losses in shareholders' equity relating to fixed income securities, and the inclusion of statutory non- admitted assets. In addition to the typical adjustments from statutory to GAAP, mortgage insurance companies are required to maintain contingency loss reserves equal to 50 % of premiums earned under SSAP and principles prescribed by the OCI. Such amounts cannot be withdrawn for a period of ten years except as permitted by insurance regulations. With regulatory approval, a mortgage guaranty insurance company may make early withdrawals from the contingency reserve when incurred losses exceed 35 % of premiums earned in a calendar year ~~. For the year ended 2023, MGIC did not withdraw amounts from its contingency reserve~~. Changes in contingency loss reserves impact the statutory statement of operations. Contingency loss reserves are not reflected as liabilities under GAAP and changes in contingency loss reserves do not impact the GAAP consolidated statements of operations. As a mortgage guaranty insurer, we are eligible for a tax deduction, subject to certain limitations, under Section 832 (e) of the IRC for amounts required by state law or regulation to be set aside in statutory contingency reserves. The deduction is allowed only to the extent that we purchase tax and loss bonds (" T & L Bonds ") in an amount equal to the tax benefit derived from deducting any portion of our statutory contingency reserves. Under statutory accounting practices, purchases of T & L Bonds are accounted for as investments. Under GAAP, purchases of T & L Bonds are accounted for as a payment of current taxes . The OCI recognizes only statutory accounting..... amount of $ 8. 9 million . STATUTORY CAPITAL REQUIREMENTS The insurance laws of 16 jurisdictions, including Wisconsin, our domiciliary state, require a mortgage insurer to maintain a minimum amount of statutory capital relative to the RIF (or a similar measure) in order for the mortgage insurer to continue to write new business. We refer to these requirements as the " State Capital Requirements " and, together with the GSE Financial Requirements, the " Financial Requirements. " While they vary among jurisdictions, the most common State Capital Requirements allow for a maximum risk- to- capital ratio of 25 to 1. A risk- to- capital ratio will increase if (i) the percentage decrease in capital exceeds the percentage decrease in insured risk, or (ii) the percentage increase in capital is less than the percentage increase in insured risk. Wisconsin does not regulate capital by using a risk- to- capital measure but instead requires a minimum policyholder position (" MPP"). MGIC' s " policyholder position " includes its net worth or surplus, and its contingency loss reserve. ~~At December 31, 2023, MGIC' s~~ **Our policyholders position was above the required MPP and our** risk- to- capital ratio was ~~10. 2 to 1,~~ below the maximum allowed by ~~the~~ jurisdictions with State Capital Requirements **at December 31, 2024** ~~and its policyholder position was $ 3~~. **In 2023,** ~~6 billion above the required MPP of $ 2. 2 billion. The calculation of our risk- to- capital ratio and MPP reflect credit for the risk ceded under our reinsurance transactions. The NAIC established a Mortgage Guaranty Insurance Working Group to determine and make recommendations to~~ the NAIC **adopted** ~~' s Financial Condition Committee as to what, if any, changes to make to the solvency and other regulations relating to mortgage guaranty insurers. A draft of~~ a revised Mortgage Guaranty Insurance Model Act ~~was adopted by the Financial Condition Committee in July 2023 and by the Executive Committee and Plenary NAIC in August 2023~~. The ~~revised~~ **updated** Model Act includes requirements relating to, among other things: (i) capital and minimum capital requirements, and contingency reserves; (ii) restrictions on mortgage insurers' investments in notes secured by mortgages; (iii) prudent underwriting standards

and formal underwriting guidelines; (iv) the **MGIC Investment Corporation 2024 Form 10- K | 117** establishment of formal, internal " Mortgage Guaranty Quality Control Programs " with respect to in-force business; and (v) reinsurance and prohibitions on captive reinsurance arrangements. It is uncertain when the revised Model Act will be adopted in any jurisdiction ~~. The provisions of the Model Act, if adopted in their final form, are not expected to have a material adverse effect on our business~~. It is unknown whether any changes will be made by state legislatures prior to adoption, and the effect changes, if any, will have on the mortgage guaranty insurance market generally, or on our business **, Wisconsin has begun the process to replace current mortgage insurance regulations with the Model Act, though it is expected that some changes will be made before formal adoption**. DIVIDEND RESTRICTIONS MGIC is subject to statutory regulations as to payment of dividends. The maximum amount of dividends that MGIC may pay in any twelve- month period without regulatory approval by the OCI is the lesser of adjusted statutory net income or 10 % of statutory policyholders' surplus as of the preceding calendar year end. Adjusted statutory net income is defined for this purpose to be the greater of statutory net income, net of realized investment gains, for the calendar year preceding the date of the dividend or statutory net income, net of realized investment gains, for the three calendar years preceding the date of the dividend less dividends paid within the first two of the preceding three calendar years. The maximum dividend that could be paid **, without regulatory approval,** is reduced by dividends paid in the twelve months preceding the dividend payment date. Before making any dividend payments ~~in 2024~~, we ~~will~~ notify the OCI to ensure it does not object. **In 2024,MGIC paid $ 750 million in dividends to the holding company**. **STATUTORY FINANCIAL INFORMATION** The OCI recognizes only statutory accounting principles prescribed,or practices permitted,by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company.The OCI has adopted certain prescribed accounting practices that differ from those found in other states.Specifically,Wisconsin domiciled companies record changes in the contingency loss reserves through the income statement as a change in underwriting deduction.As a result,in periods in which MGIC is increasing contingency loss reserves,statutory net income is reduced. ~~MGIC Investment Corporation 2023 Form 10- K | 118~~ The statutory net income,policyholders' surplus,and contingency reserve liability of our insurance subsidiaries,including MGIC,are shown in table 14.1.Statutory financial information of insurance subsidiariesTable14.1As of and for the Years Ended December 31,(In thousands) ~~2023~~~~2022~~~~2021~~Statutory ~~--~~ **2024**~~2023~~**2022Statutory** net income **$ 1,112,477** $ 279,145 $ 440,944 **$ 295,811** Statutory policyholders' ~~surplus639~~ ~~--~~ **surplus976 ,756 639** ,878 924,977 ~~1,220,714~~ Contingency ~~reserve5~~ **reserve4 ,897,284 5** ,199,405 4,669,724 ~~4,126,604~~ The **increase in statutory net income for the year ended December 31,2024 was primarily driven by the** decrease **in the contingency reserve in 2024 as compared to an increase in the contingency reserve for the year ended December 31,2023.The increase** in statutory policyholders' surplus for the ~~years~~ ~~--~~ **year** ended December 31, ~~2023~~ **2024** ~~and December 31,2022~~ is primarily due to **statutory net income,offset by** dividend payments to ~~MGIC Investment Corporation (" the holding company") (discussed below),offset by statutory net income.For the years ended December 31,2023,2022,and 2021 there were no contributions made to MGIC or distributions from other insurance subsidiaries to us.Dividends paid~~ MGIC Investment Corporation **(" the holding company") (discussed below). MGIC Investment Corporation 2024** Form 10- K | ~~119~~ **118** Note 15. Share- based Compensation Plans We have an omnibus incentive plan that was adopted on April 23, 2020. When the 2020 plan was adopted, no further awards could be made under our previous 2015 plan. The purpose of the 2020 plan is to motivate and incentivize performance by, and to retain the services of, key employees and non- employee directors through receipt of equity- based and other incentive awards under the plan. Awards issued under the plan that are subsequently forfeited will not count against the limit on the maximum number of shares that may be issued under the plan. The 2020 plan provides for the award of stock options, stock appreciation rights, restricted stock and restricted stock units, as well as cash incentive awards. No awards may be granted after April 23, 2030 under the 2020 plan. The vesting provisions of options, restricted stock and restricted stock units are determined at the time of grant. At December 31, ~~2023~~ **2024**, ~~5~~ **3** ~~1~~ **6** million shares were available for future grant under the 2020 plan. The compensation cost that has been charged against income for share- based plans was $ 31. **2 million, $ 31.** 5 million, **and** $ 24. 7 million **for the years ended December 31, 2024, 2023 and 2022, respectively. The related income tax benefit recognized for share- based plans was $ 2. 4 million, $ 2. 9 million** , and $ ~~17~~ **2** . 1 million for the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021, respectively. The related income tax benefit recognized for share- based plans was $ 2. 9 million, $ 2. 1 million, and $ 1. 8 million for the years ended December 31, 2023, 2022, and 2021~~ , respectively. Table 15. 1 summarizes restricted stock or restricted stock unit (collectively called " restricted stock ") activity during ~~2023~~ **2024** . Restricted stockTable15. 1 Weighted Average Grant Date Fair Market ValueSharesRestricted stock outstanding at December 31, ~~2022~~ **2023** $ ~~14~~ **13** , ~~02~~ **89** 3, ~~576~~ **182** , ~~679~~ **791** Granted (1) ~~14~~ **19** , ~~17~~ ~~1~~ **81 962** , ~~415~~ **246 Performance adjustment (2) — 935** , ~~329~~ **093** Vested13. ~~18~~ **20** (~~1~~ **2** , ~~263~~ **193** , ~~746~~ **536**) ~~Forfeited14~~ **Forfeited16** , ~~01~~ **97** (~~545~~ **58** , ~~471~~ **793**) Restricted stock outstanding at December 31, ~~2023~~ **2024** $ ~~13~~ **16** , ~~89~~ **3** ~~04~~ **2** , ~~182~~ **827** , ~~791~~ **801** (1) Approximately ~~67~~ **66** % of the shares granted in ~~2023~~ **2024** are subject to performance conditions under which the target number of shares granted may vest from 0 % to 200 %. **(2) Amount represents the difference between the number of shares vested at settlement with performance conditions and the number of target shares at the grant date in 2021.** At December 31, ~~2023~~ **2024** , the ~~3.~~ 2 **. 8** million shares of restricted stock outstanding consisted of 2. ~~4~~ **1** million shares that are subject to performance conditions (" performance shares "), 0. ~~6~~ **5** million shares that are subject only to service conditions (" time vested shares "), and 0. 2 million shares related to non- employee director shares. The weighted- average grant date fair value of restricted stock granted during **2023 and** 2022 ~~and 2021~~ was $ ~~15~~ **14** , ~~45~~ **17** and $ ~~12~~ **15** , ~~83~~ **45** , respectively. The fair value of restricted stock granted is the closing price of the common stock on the New York Stock Exchange on the date of grant or previous trading day if the New York Stock Exchange is closed on the date of grant. The total fair value of restricted stock vested during **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~ was $ **43. 2 million, $** 17. 3 million, **and** $ 23. 3 ~~million, and $ 15. 1~~ million, respectively. As of December 31, ~~2023~~ **2024** , the total unrecognized compensation cost for all of our outstanding share- based awards was $ ~~21~~ **23** , ~~9~~ **1** million. A portion of the unrecognized costs associated with the outstanding shares may or may not be recognized in future periods, depending upon whether or not the performance and / or service conditions are met. The cost associated with the outstanding share- based awards is expected to be recognized over a weighted- average period of 1. 6 years. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~120~~ **119** We lease data processing equipment and vehicles under operating leases that expire during the next four years. Generally, rental payments are fixed. Table 16. 1 shows minimum the future operating lease payments as of December 31, ~~2023~~ **2024** . Minimum future operating lease paymentsTable16. 1 (In thousands) ~~Amount2024~~ **Amount2025** $ 1, **076** ~~141 20251, 018 2026360~~ ~~--~~ **2026536** ~~202719~~ **2027188** ~~2028~~ **202813 2029** and thereafter — Total $ ~~2~~ **1** , ~~538~~ **813** Total lease expense under operating leases was $ 1. **7 million in 2024, $ 1.** 6 million in 2023, **and** $ 1. 2 million in 2022 ~~, and $ 1. 3 million in 2021~~ . We operate in a highly regulated industry that is subject to the risk of litigation and regulatory proceedings, including related to our claims paying practices. From time to time, we are involved in disputes and legal proceedings in the ordinary course of business. In our opinion, based on the facts known at this time, the ultimate resolution of these ordinary course disputes and legal proceedings will not have a material adverse effect on our financial position or results of operations. Under ASC 450- 20, until a loss associated with settlement discussions or legal proceedings becomes probable and can be reasonably estimated we do not accrue an estimated loss. When we determine that a loss is probable and can be reasonably estimated, we record our best estimate of our probable loss. ~~In~~ **We operate as a single reportable segment, which is defined as Mortgage Insurance. This segment generates revenue through mortgage insurance and reinsurance provided under** ~~those~~ ~~--~~ **the** ~~cases, until settlement negotiations~~ **GSEs credit risk transfer programs. The results of** ~~or our~~ ~~legal proceedings~~ **Mortgage Insurance segment** are ~~concluded (including~~ **reported within our financial statements as** the **consolidated financial results for** ~~receipt of any necessary GSE approvals), it is possible that we will record an additional loss.~~ MGIC Investment Corporation **and Subsidiaries. The accounting policies of the Mortgage Insurance segment are the same as those described in Note 3. Significant Accounting Policies. The Senior Management Oversight Committee (" SMOC "), acts as the Company' s chief operating decision maker (" CODM "). The CODM uses consolidated net income (loss) as the primary GAAP measure to evaluate actual financial performance versus planned financial performance and to allocate resources. The measure of segment assets is reported on the balance sheet as total consolidated assets. The table below presents a disaggregation of significant segment expenses as monitored by our CODM: Significant segment expensesTable18. 1Years Ended December 31, (In thousands) 202402320222Other underwriting and operating expenses net: Employee costs $ 157, 937 $ 176, 682 $ 170, 914 Outside services (1) 32, 667 36, 099 55, 612 Premium taxes (2) 21, 547 21, 523 21, 469 Depreciation expense4, 179 4, 626 4, 938 All other underwriting and operating (3) (7, 006) (12, 926) (16, 236) Total other underwriting and operating expenses net $ 209, 324 $ 226, 004 $ 236, 697 (1) Outside services expense generally includes expenses related to outsourced IT services and consulting services. (2) Premium taxes are taxes paid to states and municipalities based upon the amount of premiums written. (3) All other underwriting and operating expenses include ceding commissions (a reduction to our underwriting expenses, see Note 9-" Reinsurance"), computer hardware and software expenses, legal, audit, insurance, and general and administrative expenses. MGIC Investment Corporation** ~~2023~~ **2024** Form 10- K | ~~121~~ **120** To the Board of Directors and Shareholders of MGIC Investment Corporation Opinions on the Financial Statements and Internal Control over Financial Reporting We have audited the accompanying consolidated balance sheets of MGIC Investment Corporation and its subsidiaries (the " **"** Company " **"**) as of December 31, **2024 and** 2023 ~~and 2022~~ , and the related consolidated statements of operations, of comprehensive income, of shareholders' equity and of cash flows for each of the three years in the period ended December 31, ~~2023~~ **2024** , including the related notes and financial statement schedules listed in the index appearing under Item 15 (a) (2) (collectively referred to as the " **"** consolidated financial statements " **"**). We also have audited the Company' s internal control over financial reporting as of December 31, ~~2023~~ **2024** , based on criteria established in Internal Control- Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, **2024 and** 2023 ~~and 2022~~ , and the results of its operations and its cash flows for each of the three years in the period ended December 31, ~~2023~~ **2024** in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, ~~2023~~ **2024** , based on criteria established in Internal Control- Integrated Framework (2013) issued by the COSO. Basis for Opinions The Company' s management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management' s Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company' s consolidated financial statements and on the Company' s internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U. S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions. Definition and Limitations of Internal Control over Financial Reporting A company' s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company' s internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company' s assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Critical Audit Matters The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The ~~MGIC Investment Corporation 2023 Form 10- K | 122~~ communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a **MGIC Investment Corporation 2024 Form 10- K | 121** whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates. Valuation of Loss Reserves – Primary Case Reserves As described in Notes 3 and 8 to the consolidated financial statements, the Company establishes case reserves for estimated insurance losses when notices of delinquency on insured mortgage loans are received. As of December 31, ~~2023~~ **2024** , the Company' s recorded loss reserves were $ ~~505~~ **463** million. A significant portion of total loss reserves relate to primary case reserves established for the Company' s primary insurance business. Case reserves are established by estimating the number of loans in the delinquency inventory that will result in a claim payment, which is referred to as the claim rate, and further estimating the amount of the claim payment, which is referred to as claim severity. The Company' s case reserve estimates are primarily established based upon historical experience, including rescissions of policies, curtailments of claims, and loan modification activity. The conditions that affect the claim rate and claim severity include the current and future state of the domestic economy, including unemployment and the current and future strength of local housing markets; exposure on insured loans; the amount of time between delinquency and claim filing; and curtailments and rescissions. The principal considerations for our determination that performing procedures relating to the valuation of loss reserves – primary case reserves is a critical audit matter are (i) the significant judgment by management when developing the estimate of the primary case reserves; (ii) a high degree of auditor judgment, subjectivity, and effort in performing procedures and evaluating the audit

evidence relating to the claim rate and claim severity significant assumptions; and (iii) the audit effort involved the use of professionals with specialized skill and knowledge. Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the valuation of loss reserves, including controls over the development of significant assumptions related to the claim rate and claim severity. These procedures also included, among others, the involvement of professionals with specialized skill and knowledge to assist in developing an independent estimate of the primary case reserves and comparing this independent estimate to management' s recorded primary case reserves to evaluate the reasonableness of the recorded primary case reserves. Developing the independent estimate involved testing the completeness and accuracy of data provided by management and independently developing assumptions related to the claim rate and claim severity. / s / PricewaterhouseCoopers LLP We have served as the Company' s auditor since 1985, which includes periods before the Company became subject to SEC reporting requirements. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | **122** ~~123 MGIC Investment Corporation and Subsidiaries | Glossary of terms and acronyms~~ Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure Item 9A. Controls and Procedures MANAGEMENT' S CONCLUSION REGARDING THE EFFECTIVENESS OF DISCLOSURE CONTROLS Our management, with the participation of our principal executive officer and principal financial officer, has evaluated our disclosure controls and procedures (as defined in Rule 13a- 15 (e) and 15d- 15 (e) under the Securities Exchange Act of 1934, as amended), as of the end of the period covered by this annual report. Based on such evaluation, our principal executive officer and principal financial officer concluded that such controls and procedures were effective as of the end of such period. MANAGEMENT' S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Exchange Act Rule 13a- 15 (f) and 15d- 15 (f)). Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Because of its inherent limitations, however, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our internal control over financial reporting using the framework in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on such evaluation, our management concluded that our internal control over financial reporting was effective as of December 31, ~~2023~~ **2024** . PricewaterhouseCoopers LLP, an independent registered public accounting firm, has audited the consolidated financial statements and effectiveness of internal control over financial reporting as of December 31, ~~2023~~ **2024** , as stated in their report which appears herein. CHANGES IN INTERNAL CONTROL DURING THE FOURTH QUARTER There are no changes in our internal control over financial reporting (as defined in Rule 13a- 15 (f) and Rule 15d- 15 (f) under the Exchange Act) that occurred during the quarter ended December 31, ~~2023~~ **2024** that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Item 9B. Other Information During the three months ended December 31, ~~2023~~ **2024** , none of our officers or directors adopted, modified or terminated any contract, instruction or written plan for the purchase or sale of our securities that was intended to satisfy the affirmative defense conditions of Rule 10b5- 1 (c) or any " non- Rule 10b5- 1 trading arrangement. " Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~124~~ **123** PART III Item 10. Directors, Executive Officers and Corporate Governance This information (other than on the executive officers) will be included in our Proxy Statement for the ~~2024~~ **2025** Annual Meeting of Shareholders, and is hereby incorporated by reference, provided such Proxy Statement is filed within 120 days after December 31, ~~2023~~ **2024** . If not so filed, such information will be included in an amended Form 10- K filed within such 120 day period. The information on the executive officers appears at the end of Part I of this Form 10- K. Our Insider Trading Policy limits the timing and types of transactions in our securities, as well as transactions in the securities of companies with which the Company does business and competitors of the Company (collectively referred to as" Company Securities"). The Policy applies to all directors and employees of the Company and its subsidiaries, and may be extended to apply to third- party contractors or consultants who have access to non- public information about the Company. Among other restrictions, the policy prohibits directors, executive officers, other officers and certain employees from engaging in short sales of Company securities, entering into hedging transactions referencing the Company' s equity securities, holding Company securities in a margin account, or pledging Company securities as collateral for a loan. All directors and officers (including executive officers), as well as certain other employees with access to material non- public information must also comply with pre- clearance procedures prior to any transaction in Company Securities. A copy of the Policy is attached as Exhibit 19 to this Form 10- K. Our Code of Conduct and Ethics is available on our website (http: / / mtg. mgic. com) under the " Leadership & Governance; Documents " links. Written copies of our Code of Conduct and Ethics are available to any shareholder who submits a written request to our Secretary, addressed to: MGIC Investment Corporation, Secretary, P. O. Box 488, Milwaukee, WI 53201. We intend to disclose on our website any waivers and amendments to our Code of Conduct and Ethics that are required to be disclosed under Item 5. 05 of Form 8- K. Item 11. Executive Compensation This information will be included in our Proxy Statement for the ~~2024~~ **2025** Annual Meeting of Shareholders and is hereby incorporated by reference, provided such Proxy Statement is filed within 120 days after December 31, ~~2023~~ **2024** . If not so filed, such information will be included in an amended Form 10- K filed within such 120 day period. Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters This information, other than information regarding equity compensation plans required by Item 201 (d) of Regulation S- K of the Securities and Exchange Commission which appears below, will be included in our Proxy Statement for the ~~2024~~ **2025** Annual Meeting of Shareholders, and is hereby incorporated by reference, provided such Proxy Statement is filed within 120 days after December 31, ~~2023~~ **2024** . If not so filed, such information will be included in an amended Form 10- K filed within such 120 day period. The table below sets forth certain information, as of December 31, ~~2023~~ **2024** , the number of securities remaining available for future issuance under our equity compensation plans. No options, warrants or rights were outstanding at that date under any compensation plan or individual compensation arrangement with us. We have no compensation plan under which our equity securities may be issued that has not been approved by shareholders. Share units or phantom shares, which have no voting power and can be settled only in cash, are not considered to be equity securities for this purpose. Equity compensation plans approved by security holders (a) Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights (1) ~~3~~ **2** , ~~179~~ **824** , ~~741~~ **751** (b) Weighted Average Exercise Price of Outstanding Options, Warrants and Rights — (c) Number of Securities Remaining Available For Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Row (a)) (2) ~~5~~ **3** , ~~118~~ **578** , ~~300~~ **733** (1) Includes RSUs granted under our 2020 Omnibus Incentive Plan for which shares will be issued in the future, provided the service conditions are met. Of the RSUs granted under the 2020 Plan, 2, ~~421~~ **131** , ~~300~~ **287** are subject to performance conditions, ~~589~~ **491** , ~~059~~ **268** subject to service conditions, and the remainder are related to non- employee director restricted stock units. (2) Reflects shares available for granting. All of these shares are available under our 2020 Plan. MGIC Investment Corporation ~~2023~~ **2024** Form 10- K | ~~125~~ **124** Item 13. Note B Our insurance subsidiaries are subject to statutory regulations as to maintenance of policyholders' surplus and payment of dividends. The maximum amount of dividends that the insurance subsidiaries may pay in any twelve- month period without regulatory approval by the OCI is the lesser of adjusted statutory net income or 10 % of statutory policyholders' surplus as of the preceding calendar year end. Adjusted statutory net income is defined for this purpose to be the greater of statutory net income, net of realized investment gains, for the calendar year preceding the date of the dividend or statutory net income, net of realized investment gains, for the three calendar years preceding the date of the dividend less dividends paid within the first two of the preceding three calendar years. The maximum dividend that could be paid is reduced by dividends paid in the twelve months preceding the dividend payment date. Before making any dividend payments in 2024 2025 , we will notify the OCI to ensure it does not object. The payment of dividends from MGIC is the principal source of cash inflow for MGIC Investment Corporation, our holding company, other than investment income and raising capital in the public markets. The payment of dividends by our insurance subsidiaries is restricted by insurance regulation as discussed above. MGIC paid a total of $ **750 million, $** 600 million, $ 800 million and $ 400 **800** million in dividends in cash and fixed income securities to our holding company during **2024,** 2023, **and** 2022 , and 2021 , respectively. No contributions were made to our insurance subsidiaries in **2024,** 2023, **or** 2022 **. In 2024** , **capital of $ 40 million was returned to** or **our** 2021 **holding company from a non- insurance subsidiary** . Note C The 5. 25 % Senior Notes discussed in Note 7 – " Debt " to our consolidated financial statements, are obligations of MGIC Investment Corporation, our holding company, and not of its subsidiaries. MGIC Investment Corporation 2023 2024 Form 10- K | 136 135 SCHEDULE IV — ReinsuranceMortgage Insurance Premiums EarnedYears Ended December 31, **2024,** 2023 , **and** 2022 and 2021 (Dollars in thousands) Gross AmountCeded to Other CompaniesAssumed From Other CompaniesNet AmountPercentage of Amount Assumed to NetYears ended December 31, 2023 **2024** $ 1, **138, 245 $ 181, 896 $ 14, 458 $ 970, 807 1. 5 % 20231,** 142, 412 $ 202, 821 $ 12, 960 $ 952, 551 1. 4 % 20221, 154, 728 156, 373 8, 778 1, 007, 133 0. 9 % 20211, 167, 592 163, 031 9, 858 1, 014, 419 1. 0 % MGIC Investment Corporation 2023 2024 Form 10- K | 137 136 Exhibit 4. 3 The following summary describes the securities of MGIC Investment Corporation (the" Company") registered pursuant to Section 12 of the Securities Exchange Act of 1934, as amended. Description of Common Stock The following description of the Company' s common stock summarizes general terms and provisions that apply to the common stock. The summary does not purport to be complete and is subject to and qualified in its entirety by reference to the Company' s articles of incorporation and bylaws, which are filed as exhibits to the Annual Report on Form 10- K, of which this Exhibit 4. 3 is a part. Authorized Common Stock The Company is authorized to issue up to 1, 000, 000, 000 shares of common stock, $ 1. 00 par value per share. All of the Company' s issued and outstanding shares are fully paid and nonassessable. Dividend Rights The holders of the Company' s common stock will be entitled to receive and share equally in any dividends as may be declared by the Company' s board of directors out of funds legally available for dividends. If the Company issues preferred stock, the holders thereof may have a priority over the holders of the common stock with respect to dividends. Also, because the Company is a holding company, the Company' s rights and the rights of its creditors, including the holders of debt securities, and shareholders to participate in any distribution of assets of any subsidiary upon the subsidiary' s liquidation or reorganization or otherwise is subject to the prior claims of the subsidiary' s creditors, except to the extent that the Company may be a creditor with recognized claims against the subsidiary. Voting Rights Except as provided under Wisconsin law and except as may be determined by the Company' s board of directors with respect to any series of preferred stock, only the holders of the Company' s common stock will be entitled to vote for the election of members of the Company' s board of directors and on all other matters. Holders of the Company' s common stock are entitled to one vote per share of common stock held by them on all matters properly submitted to a vote of shareholders, subject to Section 180. 1150 of the Wisconsin Business Corporation Law. Please see " Certain Statutory Provisions- Control Share Voting Restrictions. " Shareholders have no cumulative voting rights, which means that the holders of shares entitled to exercise more than 50 % of the voting power are able to elect all of the directors to be elected. Liquidation and Other Rights All shares of the Company' s common stock are entitled to participate equally in distributions in liquidation, subject to the prior rights of any preferred stock that may be outstanding. Holders of the Company' s common stock have no preemptive rights to subscribe for or purchase the Company' s shares. There are no conversion rights, sinking fund or redemption provisions applicable to the Company' s common stock. Listing The Company' s common stock is traded on the New York Stock Exchange under the symbol" MTG." Wisconsin law, under which the Company is incorporated, contains certain provisions that may be important when considering the rights of holders of shares of the Company' s common stock. The description set forth below is intended as a summary only. For complete information, please review the applicable provisions of the Wisconsin Business Corporation Law and the Wisconsin insurance statutes. Business Combination Statute. Sections 180. 1140 to 180. 1144 of the Wisconsin Business Corporation Law regulate a broad range of business combinations between a Wisconsin corporation and an interested stockholder. Under this law, the Company generally cannot engage in a business combination with an interested stockholder for a period of three years following the date such person becomes an interested stockholder, unless the Company' s board of directors approved the business combination or the acquisition of the stock that resulted in the person becoming an interested stockholder, in each case before such acquisition of stock. Fair Price Statute. Sections 180. 1130 to 180. 1133 of the Wisconsin Business Corporation Law also regulate certain mergers, share exchanges or sales, leases, exchanges or other dispositions of assets in a transaction involving a significant shareholder and a Wisconsin corporation, unless specified minimum price and procedural requirements are met. Control Share Voting Restrictions. Under Section 180. 1150 of the Wisconsin Business Corporation Law, unless otherwise provided in the articles of incorporation or otherwise specified by the board of directors, the voting power of shares of a Wisconsin corporation held by any person or group of persons acting together in excess of 20 % of the voting power in the election of directors is generally limited to 10 % of the full voting power of those shares, unless full voting power of those shares has been restored pursuant to a vote of shareholders. Defensive Action Restrictions. Following commencement of a takeover offer, Section 180. 1134 of the Wisconsin Business Corporation Law imposes special voting requirements on share repurchases effected at a premium to the market and on asset sales by the corporation, unless, as it relates to the potential sale of assets, the corporation has at least three independent directors and a majority of the independent directors vote not to have this provision apply to the corporation. Insurance Regulations. Wisconsin' s insurance statutes and regulations generally provide that no person may acquire control of the Company unless the transaction in which control is acquired has been approved by the Office of the Commissioner of Insurance for the State of Wisconsin (the" OCI"). The regulations provide for a rebuttable presumption of control when a person directly or indirectly owns or has the right to vote more than 10 % of the voting securities. In addition, the insurance regulations of other states in which the Company' s subsidiary, Mortgage Guaranty Insurance Corporation (" MGIC") is a licensed insurer require notification to the state' s insurance department a specified time before a person acquires control of the Company. If such states disapprove the change of control, the Company' s or MGIC' s licenses to conduct business in the disapproving states could be terminated. In addition, the OCI may seize securities owned by a person who has or is proposing to acquire securities in violation of the Wisconsin statute. Exhibit 10. 2. 24 **25** RESTRICTED STOCK UNIT AGREEMENT THIS RESTRICTED STOCK UNIT AGREEMENT (the " Agreement ") is made and entered into as of February 2 **5** , 2024 **2025** (the " Effective Date ") by and between MGIC Investment Corporation, a Wisconsin corporation (the " Company "), and the employee of the Company or one of its subsidiaries (individually or collectively referred to as " MGIC "), whose signature is set forth on the signature page hereto (the " Employee "). Capitalized terms not specifically defined in this Agreement shall have the meanings specified in Exhibit A to this Agreement or the MGIC Investment Corporation 2020 Omnibus Incentive Plan (the " Plan "). 1. Award of RSUs. **(a)** Subject to the terms and conditions of this Agreement and the Plan, as of the date hereof, the Company awards to the Employee restricted stock units **the value of Time- Vested RSUs and the target value of Performance- Vested RSUs** (**collectively the** " RSUs ") **that were** in a target value set forth in a document delivered to the Employee by MGIC in February 2024 **2025** to notify the Employee of the award of RSUs. If there is any difference between the target value of RSUs determined by (i) such document and (ii) the target value of RSUs awarded by

the Committee, as reflected in the records of the Committee, the **value of Time- Vested RSUs reflected in the records of the Committee (the " Value of Time- Vested RSUs Granted ") and the** target value of **Performance- Vested** RSUs reflected in the records of the Committee (the " Target Value of **Performance- Vested** RSUs Granted ") shall control. **(b) The number of Time- Vested RSUs awarded shall be the number obtained by dividing the Value of Time- Vested RSUs Granted by the closing price per share of the Stock on the Effective Date (the " Number of Time- Vested RSUs Granted "). (c)** The target number of **Performance- Vested** RSUs awarded shall be the number obtained by dividing the Target Value of **Performance- Vested** RSUs Granted by the closing price **per share** of the ~~Company' s~~ Stock on the Effective Date (the " Target Number of **Performance- Vested** RSUs Granted "). 2. ~~Release~~ **Vest** Date; Number of RSUs ~~Released~~ **Vested** . (a) If the ~~Release~~ **Vest** Date has not been accelerated pursuant to Section 4 or Section 10, the " ~~Release~~ **Vest** Date " shall be determined as follows. (i) The ~~Release~~ **Vest Dates for Time- Vested RSUs shall be each of February 28, 2026, 2027 and 2028. (ii) The Vest** Date **for Performance- Vested RSUs** shall be February 28, ~~2027~~ **2028** , provided that the Committee has approved the Vesting Percentage within a reasonable time prior thereto. (~~ii~~ **iii**) If the Committee has not approved the Vesting Percentage within a reasonable time prior to February 28, ~~2027~~ **2028** , then the Committee shall approve the Vesting **- 1-** Percentage and ~~Release~~ **Vest** Date no later than March 31, ~~2027~~ **2028** and the ~~Release~~ **Vest** Date shall occur reasonably promptly (but in no event more than 15 days) after the Vesting Percentage and ~~Release~~ **Vest** Date are approved. (~~ii~~ **iv**) In any case, if the ~~Release~~ **Vest** Date would fall on a day other than a Business Day, then the ~~Release~~ **Vest** Date shall occur on the next following Business Day. (b) Except to the extent forfeited as provided in this Agreement, and subject to withholding of shares of Stock to meet withholding obligations, on ~~or reasonably promptly after~~ the ~~Release~~ **one- year anniversary of the applicable Vest** Date, RSUs shall be settled by the issuance (or transfer from treasury) of shares of Stock equal to the number determined in this Agreement **(the date on which the RSUs are settled or paid, the " Release Date ")** . Such issuance or transfer may be accomplished by a credit into a direct registration account with the Company' s transfer agent or by an electronic transfer of shares to an account maintained with a broker / dealer. Such issuance or transfer shall be made to the Employee, or in the case of the Employee' s death, to the Employee' s Beneficiary or estate, as provided in Section 6. **If the Release Date falls on a day other than a Business Day, then the Release Date shall occur on or reasonably promptly after the next following Business Day.** (c **) The number of Time- Vested RSUs for which a Vest Date will occur on the dates specified in Section 2 (a) (i) will be the Number of Time- Vested RSUs Granted divided by three and rounded down to the nearest whole RSU. (d) If all Time- Vested RSUs would have been released but for the provisions of this Agreement that round down RSUs to the nearest whole number, the number of Time- Vested RSUs released on the last applicable Vest Date shall be the Number of Time- Vested RSUs Granted, as applicable, minus the number of applicable Time- Vested RSUs that were previously released such that on such last applicable Vest Date the fractional Time- Vested RSUs that were not released due to rounding shall be released. (e**) Unless provided otherwise in this Agreement, the number of **Performance- Vested** RSUs for which a ~~Release~~ **Vest** Date will occur shall be the product of (i) the Target Number of **Performance- Vested** RSUs Granted and (ii) the Vesting Percentage. Such number of **Performance Vested** RSUs shall be rounded down to the nearest whole RSU. 3. ~~Transfer After Release Date; Securities Law Restrictions ; Holding Period . (a)~~ The Employee agrees and acknowledges with respect to any Stock delivered in settlement of RSUs that has not been registered under the Securities Act of 1933, as amended (the " 1933 Act ") and that, in the opinion of counsel to the Company, absent such registration cannot be publicly sold or otherwise disposed of, (i) the Employee will not sell or otherwise dispose of such Stock except pursuant to an effective registration statement under the 1933 Act and any applicable state securities laws, or in a transaction which, in the opinion of counsel for the Company, is exempt from such registration, and (ii) a legend may be placed on the certificates or other evidence for the Stock delivered in settlement of the RSUs, or an appropriate stop- transfer order may be entered with respect to book entries relating to Stock delivered in settlement of the RSUs, to such effect. ~~(b) The Employee agrees that, during the Holding Period, the Employee will not make a Sale of the Holding Period Shares. At the option of the Company, an appropriate legend may be placed on certificates or other evidence for Stock delivered in settlement of RSUs, or an appropriate stop- transfer order may be entered with respect to book entries relating to Stock delivered in settlement of RSUs, noting or otherwise reflecting the requirements to hold such Stock imposed by this subsection. When such requirements terminate, the Employee shall be entitled to have the foregoing legend or stop- transfer order removed.~~ 4. Termination of Employment Due to Death or Disability. (a) If the Employee' s employment with MGIC is terminated because of death prior to the ~~Release~~ **final Vest** Date, the ~~Release~~ **Vest Date for the unvested Time- Vested RSUs and the Vest** Date for the Target Number of **Performance- Vested** RSUs Granted shall accelerate ~~and~~ **. If the Employee' s- 2- employment with MGIC is terminated because of death prior to the Release Date, the Release Date** shall occur as soon as reasonably practicable after such death. (b) If the Employee' s employment with MGIC is terminated because of Disability prior to the ~~Release~~ **final Vest** Date, **the Vest Date and** the Release Date for the ~~Target Number of~~ RSUs ~~Granted~~ shall be determined as provided in Section 2 as if the Employee' s employment had not terminated ~~, ;~~ however, upon the Employee' s death prior to **the Vest Date or** the Release Date, the provisions of subsection (a) shall apply as if the Employee' s employment with MGIC terminated because of such death. 5. Forfeiture of RSUs; Termination of Employment Due to Retirement. (a) If the Employee' s employment with MGIC is terminated prior to the ~~Release~~ **final Vest** Date for any reason (including without limitation, termination by MGIC, with or without cause) other than death or Disability, all RSUs **for which a Vest Date has not previously occurred** shall be forfeited to the Company on the date of such termination except to the extent (i) otherwise provided in subsection (b) below; (ii) the Committee determines, on such terms and conditions as the Committee may impose, that the ~~Release Vest Date~~ **Dates** shall be determined as provided in Section 2 as if the Employee' s employment had not terminated; or (iii) an agreement between the Employee and the Company, or a severance plan or similar arrangement maintained by the Company **(including, without limitation, the Executive Severance Plan)** , provides, on such terms and conditions as the Company may impose, different treatment of the RSUs, which may, without limitation, include pro rata or full accelerated vesting. (b) If the Employee' s employment with MGIC terminates by reason of retirement after reaching age 60 and after having been employed by MGIC for an aggregate period of at least seven years, such retirement shall not result in forfeiture of the RSUs if (i) the Employee' s employment with MGIC continues for no less than one year after the date of this Agreement, and (ii) no later than the date on which employment terminates, the Employee enters into an agreement with MGIC in the form provided by the Company to the Employee under which the Employee agrees not to compete with MGIC during a period ending one year after the ~~Release Date~~ **latest of the dates set forth in Section 2** (**a) (i)** or **(ii) or,** for residents of certain states, a confidentiality and fair competition agreement ~~)~~ , and the Employee complies with such agreement. If the Employee enters into such agreement and thereafter breaches the terms thereof, the RSUs **for which a Vest Date has not occurred** shall be forfeited; the Employee shall return to the Company any Stock that was delivered to the Employee after the date on which such agreement was entered into; and MGIC may seek other remedies as contemplated in such agreement. If the Employee enters into and complies with the terms of such agreement, the **Vest Date and** Release Date shall be determined as provided in Section 2 **as if the Employee' s employment had not terminated** , however, upon the Employee' s death ~~or Disability~~ prior to the ~~Release~~ **final Vest** Date, the provisions of Section 4 shall apply as if the Employee' s employment with MGIC terminated because of such death ~~or Disability, as applicable~~ . (c) Any **Performance- Vested** RSUs for which a ~~Release~~ **Vest** Date has not occurred by April 15, ~~2027~~ **2028** shall be forfeited to the Company. 6. Beneficiary. (a) The Beneficiary shall be entitled to receive the Stock to be delivered in settlement of RSUs under Section 4 as a result of the death of the Employee. The Employee may from time to time revoke or change his or her Beneficiary without the consent of any prior Beneficiary by making a new designation in the Beneficiary System. The last such designation made shall be **- 3-** controlling; provided, however, that no designation, or change or revocation thereof, shall be effective unless received by the Beneficiary System prior to the Employee' s death, and in no event shall any designation be effective as of a date prior to such receipt. (b) If no such Beneficiary designation is in effect at the time of an Employee' s death, or if no designated Beneficiary survives the Employee or if such designation conflicts with law, upon the death of the Employee, the Employee' s estate shall be entitled to receive the Stock to be delivered in settlement of RSUs. If the Company is in doubt as to the right of any person to receive such property, the Company may retain the same and any distributions thereon, without liability for any interest thereon, until the Company determines the person entitled thereto, or the Company may deliver such property and any distributions thereon to any court of appropriate jurisdiction and such delivery shall be a complete discharge of the liability of the Company therefor. 7. Voting, Dividend and Other Rights of RSUs. (a) Voting and Other Rights of RSUs. RSUs represent only the right to receive Stock, on the terms provided in this Agreement. The Employee shall have no rights as a holder of Stock, including the right to vote or to receive dividends, until evidence for such Stock is delivered in settlement of RSUs. (b) Dividend Rights. Notwithstanding the preceding subsection, on the Release Date on which RSUs are settled (or on the earliest regular payroll date thereafter on which practicable), the Company shall make a payment in cash equal to the aggregate amount that would have been paid as dividends on the shares of Stock issued or transferred in settlement (before any reduction for tax withholding) as if such shares had been outstanding on each dividend record date on and after the Effective Date and prior to the **Release** ~~date~~ **Date** ~~on which settlement occurs~~ . 8. Tax Withholding. (a) It shall be a condition of the obligation of the Company to deliver Stock in settlement of RSUs that the Employee shall pay MGIC upon its demand, such amount as may be requested by MGIC for the purpose of satisfying its liability to withhold federal, state, or local income or other taxes incurred by reason of the award of the RSUs or the delivery of Stock in settlement of the RSUs. The withholding tax obligation arising from the settlement of RSUs shall be satisfied through a withholding by the Company of a sufficient number of shares of Stock that would otherwise be delivered to the Employee. (b) To the extent provided in the resolutions of the Committee awarding RSUs subject to this Agreement, and subject to applicable law and accounting rules, the Employee shall be entitled to have a number of shares of Stock withheld in excess of the minimum amount required to be withheld by MGIC. 9. Adjustments in Event of Change in Stock or Fiscal Year. In the event of any stock split, reverse stock split, stock dividend, combination or reclassification of the Stock that occurs after the date of this Agreement but before the Release Date, the ~~Target Number~~ **number** of RSUs ~~Granted~~ **that have not been settled** shall be proportionally adjusted for any increase or decrease in the number of outstanding shares resulting from such event, any such adjustment rounded down to the next lower whole ~~share~~ **RSU** . In the event of any change in the outstanding shares of Stock for any other reason, including but not limited to, any recapitalization, merger, consolidation, reorganization, combination or exchange of shares or other similar event which, in the judgment of the **- 4-** Committee, could distort the implementation of the award of RSUs or the realization of the objectives of such award, the Committee shall make such adjustments in the RSUs, or in the terms, conditions or restrictions of this Agreement as the Committee deems equitable. In addition, if the Company changes its fiscal year from a year ending December 31, the Committee may make such adjustments in the ~~Release Vest Date~~ **Dates** as the Committee deems equitable. The determination of the Committee as to any such adjustment shall be conclusive and binding for all purposes of this Agreement. 10. Change in Control. The provisions of Section 6 of the Plan that are applicable to restricted stock units shall apply to the RSUs. Neither the immediately preceding sentence nor the provisions of such Section 6 shall affect any vesting that occurs under Sections 3 (d) and 5 (i) of the Key Executive Employment and Severance Agreement (filed by the Company with the Securities and Exchange Commission with, or incorporated by the Company into, the Company' s Annual Report on Form 10- K for the year ended December 31, ~~2022~~ **2023) or Sections 5. 03 or 5. 04 (g) of the Executive Severance Plan (filed by the Company with the Securities and Exchange Commission with, or incorporated by the Company into, the Company' s Quarterly Report on Form 10- Q for the quarter ended June 30, 2024**). Notwithstanding anything to the contrary in this Section 10, however, no acceleration of the Release Date may occur as a result of a Change in Control unless the events constituting such Change in Control also meet the requirements to be considered a " change in control event " for purposes of Code Section 409A, and, to the extent required to avoid the imposition of a penalty tax under Code Section 409A, no acceleration of the Release Date under any arrangement may occur solely as a result of a separation from service. 11. Powers of Company Not Affected; No Right to Continued Employment. (a) The existence of the RSUs shall not affect in any way the right or power of the Company or its stockholders to make or authorize any combination, subdivision or reclassification of the Stock or any reorganization, merger, consolidation, business combination, exchange of shares, or other change in the Company' s capital structure or its business, or any issue of bonds, debentures or stock having rights or preferences equal, superior or affecting any property to be issued in settlement of RSUs or the rights thereof, or dissolution or liquidation of the Company, or any sale or transfer of all or any part of its assets or business, or any other corporate act or proceeding, whether of a similar character or otherwise. (b) Nothing in this Agreement shall confer upon the Employee any right to continue in the employment of MGIC or interfere with or limit in any way the right of MGIC to terminate the Employee' s employment at any time, subject, however, to the provisions of any agreement of employment between MGIC and the Employee. The Employee acknowledges that a termination of his or her employment could occur at a time before which the ~~Release Vest Date~~ **Dates** ~~occurs~~ **occur** , resulting in the forfeiture of the RSUs by the Employee, unless otherwise provided in this Agreement. In such event, the Employee will not be able to realize the value of the property that underlies the RSUs nor will the Employee be entitled to any compensation on account of such value. 12. Interpretation by Committee. The Employee agrees that any dispute or disagreement which may arise in connection with this Agreement shall be resolved by the Committee, in its sole discretion, and that any interpretation by the Committee of the terms of this Agreement or the Plan and any determination made by the Committee under this Agreement or the Plan may be made in the sole discretion of the Committee and shall be final, binding, and conclusive. Any such determination need not be uniform and may be made differently among Employees awarded RSUs. **- 5-** 13. Clawback. (a) As a condition of the grant of the RSUs, the Employee agrees that any shares of Stock or other amounts received under this Agreement, without respect to any taxes paid, shall be subject to recovery or repayment pursuant to the terms of the Company' s Clawback Policy as in effect from time to time, or otherwise to the extent the Committee deems appropriate to recover excess compensation determined to have been received on the basis of financial results that are subsequently restated. (b) The interpretation of this Section 13 and all computations under it shall be made by the Committee and shall not be reviewable or subject to challenge by any other person. 14. Miscellaneous. (a) This Agreement shall be governed and construed in accordance with the laws of the State of Wisconsin applicable to contracts made and to be performed therein between residents thereof. (b) The waiver by the Company of any provision of this Agreement shall not operate or be construed to be a subsequent waiver of the same provision or waiver of any other provision hereof. (c) The RSUs shall be deemed to have been awarded pursuant to the Plan and the action of the Committee authorizing such awards; as a result, such awards are subject to the terms and conditions thereof. In the event of any conflict between the terms hereof and the provisions of the Plan or such authorization, the provisions of the Plan (to such extent) and / or such authorization shall prevail. A copy of the Plan is available on request of the Employee made in writing (including by e- mail) to the Company' s Secretary. (d) Any notice, filing or delivery hereunder or with respect to RSUs shall be given to the Employee at either his or her usual work location or his or her home address as indicated in the records of the Company, and shall be given to the Committee or the Company at 250 East Kilbourn Avenue, Milwaukee 53202, Attention: Secretary. All such notices shall be given by first class mail, postage pre ~~- -~~ paid, or by personal delivery. (e) This Agreement shall be binding upon and inure to the benefit of the Company and its successors and assigns and shall be binding upon and inure to the benefit of the Employee, the Beneficiary and the personal representative (s) and heirs of the Employee, except that the Employee may not transfer any RSUs or any interest in any RSUs. (f) As a condition to the grant of the RSUs, the Employee must execute an agreement not to compete (or for residents of certain states, a confidentiality and fair competition agreement) in the form provided to the Employee by the Company. If the Employee thereafter breaches the terms thereof, the RSUs shall be forfeited; the Employee shall return to the Company any Stock that was delivered to the Employee after the date on

which such agreement was entered into; and MGIC may seek other remedies as contemplated in such agreement. **- 6-** IN WITNESS WHEREOF, the Company has caused this Agreement to be executed by its duly authorized signer, and the Employee has executed this Agreement, all as of the day and year set forth above. MGIC INVESTMENT ~~CORPORATIONBy~~ - **CORPORATION By** : Title: Authorized SignerSign Here: Name: **- 7-** EXHIBIT A Certain Defined Terms " Adjusted Book Value Per Share " as of a particular year- end means **the Preliminary Adjusted Book Value Per Share, adjusted to eliminate: (i) the net of tax effect on book value per share resulting from repurchases of convertible and non- convertible debt; (ii) the effect on book value per share resulting from any repurchase of Stock; and (iii) the effect of the issuance of shares from share- based compensation programs.** " Beginning Adjusted Book Value Per Share " means $ **,** " Beneficiary " means the person (s) who at the time of the Employee' s death is designated as such in the Beneficiary System in accordance with Section 6. " Beneficiary System " means the Company' s Fidelity portal, or any system used by the Company for purposes of allowing the Employee to designate a Beneficiary in connection with RSUs. " Business Day " means a day that the Company and its transfer agent are open for business. " Committee " means the Management Development, Nominating and Governance Committee of the Company' s Board of Directors, or one or more members of such committee to whom such committee delegates specified functions, or another committee of such Board administering the Plan. " Cumulative Growth " means with respect to the ~~RSU~~ Release Date **for the Performance- Vested RSUs** , the Adjusted Book Value Per Share at the end of the immediately prior fiscal year of the Company minus the Beginning Adjusted Book Value Per Share. If such difference is less than zero, then the Cumulative Growth shall be equal to zero. " ~~Cumulative Growth Achievement Percentage " means the quotient of (A) the Cumulative Growth divided by (B) the Cumulative Adjusted Book Value Per Share Growth Target. "~~ Disability " means the Employee is eligible for disability benefits under MGIC' s long- term disability plan or eligible for Social Security disability benefits. " GAAP " means generally accepted accounting principles in the United States. " ~~Holding Period~~ **Number of Time- Vested RSUs Granted** " **shall have** ~~means a period beginning on~~ the ~~Release Date and ending~~ - **meaning** ~~on the earlier of~~ **given to that term in Section 1** (~~i~~ **b**) ~~the first anniversary of the Release Date and (ii) the first date on which the Employee is no longer a Section 16 Filer. " Holding Period Shares " means a number of shares of Stock equal to the lesser of (i) 25 % of the aggregate number of RSUs that are released on the Release Date and (ii) 50 % of the difference between (A) the aggregate number of RSUs that are released on the Release Date and (B) the aggregate number of shares of Stock that are withheld to satisfy withholding tax requirements under Section 8~~ of this Agreement **. " Performance- Vested RSUs " means restricted stock units awarded to the Employee under this Agreement that vest with respect to time and Cumulative Growth performance** . " Preliminary Adjusted Book Value " as of a particular year- end means **the shareholders' equity calculated in accordance with GAAP and reported in the Company' s balance sheet in the Annual Report on Form 10- K, adjusted as follows: (i) to eliminate the net- of- tax accumulated other comprehensive income (loss) reflected on the GAAP balance sheet; (ii) to eliminate dividends paid to the common stockholders of the Company and dividends deemed to be paid on restricted stock, RSUs and director phantom share units; (iii) with respect to litigation accruals and payments, to eliminate the net of tax impact to shareholders' equity related to the establishment of an accrual, an increase in an accrual or payment for unaccrued litigation items that have been disclosed in the Company' s Annual Report on Form 10- K, unless the Committee determines to include such amounts in whole or in part because the exercise of such discretion will result in a- 8- lower Adjusted Book Value; and if a decrease in an accrual results in an increase to shareholders' equity, the Committee may determine to eliminate in whole or in part the net of tax impact of such decrease in the accrual; (iv) to eliminate the net- of- tax financial impacts of GSE- mandated mortgage insurance cancellations inconsistent with prior business practices; and (v) to take into account adjustments set forth in the Omnibus Incentive Plan, including without limitation, for the effect of changes in accounting rules and tax law.** " Preliminary Adjusted Book Value Per Share " as of a particular year- end means the quotient of (i) the Preliminary Adjusted Book Value at such year- end divided by (ii) the number of shares of Stock outstanding at such year- end as disclosed in the Company' s Annual Report on Form 10- K. " ~~Sale " means a transfer for value, except that for these purposes, the following are not " Sales ": (i) an involuntary transfer, including Holding Period Shares converted in a merger; and (ii) a gift, (provided that, in the case of a gift to a family member who resides with the Employee or to an entity in which the Employee has an interest, such family member or entity does not make a Sale for the remainder of the Holding Period). " Section 16 Filer " is a person who is required to file reports with the Securities and Exchange Commission under Section 16 (a) of the Securities Exchange Act of 1934, as amended, as such requirement to so file is in effect at each Affected Date for purposes of Section 13 of this Agreement, or at each Release Date for purposes of Section 3 (b) of this Agreement. "~~ Stock " means the Company' s common stock. " Target Number of **Performance- Vested** RSUs Granted " shall have the meaning given to that term in Section 1 **(c)** of this Agreement. " Target Value of **Performance- Vested** RSUs Granted " shall have the meaning given to that term in Section 1 **(a) of this Agreement. " Time- Vested RSUs " means restricted stock units awarded to the Employee under this Agreement that vest with respect to time. " Value of Time- Vested RSUs Granted " shall have the meaning given to that term in Section 1 (a)** of this Agreement. " Vesting Percentage " means the Percentage as determined based on the Cumulative Growth in the table below: Performance LevelCumulative GrowthVesting Percentage (1) Below ThresholdLess than $ 0 % Threshold $ 25 % Target $ 100 % MaximumGreater than or equal to $ 200 % (1) If the Cumulative Growth falls between the threshold and target performance levels, or the target and maximum performance levels, then the Vesting Percentage will be the percentage derived by straight line interpolation between the applicable Vesting Percentages shown in the table. **- 9-** Exhibit 10. 2. 27 THIS RESTRICTED STOCK UNIT AGREEMENT (the " Agreement ") is made and entered into as of February ~~2~~ **5** , ~~2024~~ **2025** (the " Grant Date ") by and between MGIC Investment Corporation, a Wisconsin corporation (the " Company "), and the director of the Company whose signature is set forth on the signature page hereto (the " Director "). Capitalized terms not specifically defined in this Agreement shall have the meanings specified in Exhibit A to this Agreement or the MGIC Investment Corporation 2020 Omnibus Incentive Plan (the " Plan "). 1. Award of RSUs. Subject to the terms and conditions of this Agreement and the Plan, the Company awards to the Director ~~6~~ **4** , ~~309~~ **898** , ~~944~~ **119** restricted stock units (" RSUs ") which shall be fully vested as of the Grant Date. 2. Release Date; Termination of Service as a Result of Death or Disability. The RSUs shall be settled by the issuance of one share of Stock per RSU on the " Release Date, " which, subject to any deferral election made with respect to the RSUs under the Company' s Deferred Compensation Plan for Non- Employee Directors, shall be the date that is ten business days following February 1 of the year immediately following the year in which the RSUs are granted. To the extent any fractional RSU is subject to settlement, such fractional RSU shall be rounded up to the nearest whole RSU immediately prior to settlement and settled with a whole share of Stock. Notwithstanding the foregoing, if the Director' s service is terminated because of death or permanent and total disability (as determined by the Company in its discretion on the basis of the definition set forth in Code Section 22 (e) (3)), then the Release Date for the RSUs shall accelerate and shall occur as soon as reasonably practicable after such death or disability. 3. Transfer After Release Date; Securities Law Restrictions. The Director agrees and acknowledges with respect to any Stock delivered in settlement of RSUs that has not been registered under the Securities Act of 1933, as amended (the " 1933 Act ") and that, in the opinion of counsel to the Company, absent such registration cannot be publicly sold or otherwise disposed of, (i) the Director will not sell or otherwise dispose of such Stock except pursuant to an effective registration statement under the 1933 Act and any applicable state securities laws, or in a transaction which, in the opinion of counsel for the Company, is exempt from such registration, and (ii) a legend may be placed on the certificates or other evidence for the Stock delivered in settlement of the RSUs, or an appropriate stop- transfer order may be entered with respect to book entries relating to Stock delivered in settlement of the RSUs, to such effect. 4. Beneficiary. (a) The Beneficiary shall be entitled to receive the Stock to be delivered in settlement of RSUs following the death of the Director. The Director may from time to time revoke or change his or her Beneficiary without the consent of any prior Beneficiary by making a new designation in the Beneficiary System. The last such designation made shall be controlling; provided, however, that no designation, or change or revocation thereof, shall be effective unless received by the Beneficiary System prior to the Director' s death, and in no event shall any designation be effective as of a date prior to such receipt. (b) If no such Beneficiary designation is in effect at the time of a Director' s death, or if no designated Beneficiary survives the Director or if such designation conflicts with law, upon the death of the Director, the Director' s estate shall be entitled to receive the Stock to be delivered in settlement of RSUs. If the Company is in doubt as to the right of any person to receive such property, the Company may retain the same and any distributions thereon, without ~~liability for any interest thereon, until the Company determines the person entitled thereto, or the Company may deliver such property and any distributions thereon to any court of appropriate jurisdiction and such delivery shall be a complete discharge of the liability of the Company therefor.~~ 5. Voting, Dividend and Other Rights of RSUs. (a) Voting and Other Rights of RSUs. RSUs represent only the right to receive Stock on the terms provided in this Agreement. The Director shall have no rights as a holder of Stock, including the right to vote or to receive dividends, until evidence for such Stock is actually delivered in settlement of RSUs. (b) Dividend Rights. Notwithstanding the preceding subsection, whenever cash dividends or other distributions are paid by the Company on its outstanding shares of Stock, there shall be credited under this Agreement additional RSUs equal to (i) the aggregate dividend or distribution that would be payable on a number of outstanding shares of Stock equal to the number of RSUs subject to this Agreement on the record date for the dividend divided by (ii) the closing price per share of Stock as reported on the New York Stock Exchange on the last trading day immediately preceding the date of payment of the dividend (the" Dividend Share Units "). The Dividend Share Units shall be settled as provided for in paragraph 2 of this Agreement. If, after the record date and before the payment date for a cash dividend or other distribution that would otherwise result in crediting of additional RSUs under the foregoing, the RSUs to which such distribution relates are settled in shares of Stock, then the Company shall pay an amount in cash equal to the amount of the distribution for each such RSU with respect to which such distribution was made. 6. Tax Withholding. (a) Provided the Company has no obligation to withhold federal, state, or local income or other taxes incurred by reason of the award of the RSUs, the delivery of Stock in settlement of the RSUs or other event relating to the RSUs (individually and collectively " Taxes "), then all payments made and Stock delivered by, or on behalf of, the Company or any successor to the Company under or with respect to this Agreement shall be made without withholding or deduction for Taxes. For the avoidance of doubt, the Director shall be responsible for payment of the Taxes. (b) If the Company determines that it has an obligation to withhold Taxes, then it shall be a condition of the obligation of the Company to deliver Stock in settlement of RSUs that the Director shall pay the Company upon its demand, such amount as may be requested by the Company for the purpose of satisfying its obligation to withhold Taxes. The withholding tax obligation arising from the settlement of RSUs shall be satisfied through a withholding by the Company of a sufficient number of shares of Stock that would otherwise be delivered to the Director. 7. Adjustments in Event of Change in Stock or Fiscal Year. In the event of any stock split, reverse stock split, stock dividend, combination or reclassification of the Stock that occurs after the date of this Agreement but before the Release Date, the number of RSUs shall be proportionally adjusted for any increase or decrease in the number of outstanding shares resulting from such event, any such adjustment rounded down to the next lower whole share. In the event of any change in the outstanding shares of Stock for any other reason, including but not limited to, any recapitalization, merger, consolidation, reorganization, combination or exchange of shares or other similar event which, in the judgment of the Committee, could distort the implementation of the award of RSUs or the realization of the objectives of such award, the Committee shall make such adjustments in the RSUs, or in the terms, conditions or restrictions of this Agreement as the Committee deems equitable. In addition, if the Company changes its fiscal year from a year ending December 31, the Committee may make such adjustments in the Release Date as the Committee deems equitable. The determination of the Committee as to any such adjustment shall be conclusive and binding for all purposes of this Agreement. 8. Powers of Company Not Affected; No Right to Continued Service. (~~a) The existence of the RSUs shall not affect in any way the right or power of the Company or its stockholders to make or authorize any combination, subdivision or reclassification of the Stock or any reorganization, merger, consolidation, business combination, exchange of shares, or other change in the Company' s capital structure or its business, or any issue of bonds, debentures or stock having rights or preferences equal, superior or affecting any property to be issued in settlement of RSUs or the rights thereof, or dissolution or liquidation of the Company, or any sale or transfer of all or any part of its assets or business, or any other corporate act or proceeding, whether of a similar character or otherwise. (~~b) Nothing in this Agreement shall confer upon the Director any right to continue in the service of the Company. 9. Interpretation by Committee. The Director agrees that any dispute or disagreement which may arise in connection with this Agreement shall be resolved by the Committee, in its sole discretion, and that any interpretation by the Committee of the terms of this Agreement or the Plan and any determination made by the Committee under this Agreement or the Plan may be made in the sole discretion of the Committee and shall be final, binding, and conclusive. Any such determination need not be uniform and may be made differently among participants awarded RSUs. 10. Miscellaneous. (b) The waiver by the Company of any provision of this Agreement shall not operate or be construed to be a subsequent waiver of the same provision or waiver of any other provision hereof. (c) The RSUs shall be deemed to have been awarded pursuant to the Plan and the action of the Committee authorizing such awards; as a result, such awards are subject to the terms and conditions thereof. In the event of any conflict between the terms hereof and the provisions of the Plan or such authorization, the provisions of the Plan (to such extent) and / or such authorization shall prevail. A copy of the Plan is available on request of the Director made in writing (including by e- mail) to the Company' s Secretary. (d) Any notice, filing or delivery hereunder or with respect to RSUs shall be given to the Director at his or her home address as indicated in the records of the Company, and shall be given to the Committee or the Company at 250 East Kilbourn Avenue, Milwaukee 53202, Attention: Secretary. All such notices shall be given by first class mail, postage pre **-** paid, or by personal delivery. (e) This Agreement shall be binding upon and inure to the benefit of the Company and its successors and assigns and shall be binding upon and inure to the benefit of the Director, the Beneficiary and the personal representative (s) and heirs of the Director, except that the Director may not transfer any RSUs or any interest in any RSUs. IN WITNESS WHEREOF, the Company has caused this Agreement to be executed by its duly authorized signer as of the day and year set forth above. " Beneficiary " means the person (s) who at the time of the Director' s death is designated as such in the Beneficiary System. " Beneficiary System " means the Company' s equity plan portal, or any system used by the Company for purposes of allowing the Director to designate a Beneficiary in connection with RSUs ~~. Exhibit 10. 2. 28 THIS RESTRICTED STOCK UNIT AGREEMENT (the " Agreement ") is made and entered into as of February 3, 2023 (the " Effective Date ") by and between MGIC Investment Corporation, a Wisconsin corporation (the " Company "), and the employee of the Company or one of its subsidiaries (individually or collectively referred to as " MGIC "), whose signature is set forth on the signature page hereto (the " Employee "). Capitalized terms not specifically defined in this Agreement shall have the meanings specified in Exhibit A to this Agreement or the MGIC Investment Corporation 2020 Omnibus Incentive Plan (the " Plan "). 1. Award of RSUs. Subject to the terms and conditions of this Agreement and the Plan, as of the date hereof, the Company awards to the Employee restricted stock units (" RSUs ") in an amount set forth in a document delivered to the Employee by MGIC in February 2023 to notify the Employee of the award of RSUs. If there is any difference between the number of RSUs determined by (i) such document and (ii) the number of RSUs awarded by the Committee, as reflected in the records of the Committee, the number of RSUs reflected in the records of the Committee (the " Number of RSUs Granted ") shall control. (i) The Release Date shall be February 28, 2026, provided that the Committee has approved the Vesting Percentage within a reasonable time prior thereto. (ii) If the Committee has not approved the Vesting Percentage within a reasonable time prior to February 28, 2026, then the Committee shall approve the Vesting Percentage and Release Date no later than March 31, 2026 and the Release Date shall occur reasonably promptly (but in no event more than 15 days) after the Vesting Percentage and Release Date are approved. (ii) In any case, if the Release Date would fall~~

on a day other than a Business Day, then the Release Date shall occur on the next following Business Day. (c) Unless provided otherwise in this Agreement, the number of RSUs for which a Release Date will occur shall be the product of (i) the Number of RSUs Granted and (ii) the Vesting Percentage. Such number of RSUs shall be rounded down to the nearest whole RSU. (a) The Employee agrees and acknowledges with respect to any Stock delivered in settlement of RSUs that has not been registered under the Securities Act of 1933, as amended (the " 1933 Act ") and that, in the opinion of counsel to the Company, absent such registration cannot be publicly sold or otherwise disposed of, (i) the Employee will not sell or otherwise dispose of such Stock except pursuant to an effective registration statement under the 1933 Act and any applicable state securities laws, or in a transaction which, in the opinion of counsel for the Company, is exempt from such registration, and (ii) a legend may be placed on the certificates or other evidence for the Stock delivered in settlement of the RSUs to such effect. (b) The Employee agrees that, during the Holding Period, the Employee will not make a Sale of the Holding Period Shares. At the option of the Company, an appropriate legend may be placed on certificates or other evidence for Stock delivered in settlement of RSUs noting the requirements to hold such Stock imposed by this subsection. When such requirements terminate, the Employee shall be entitled to have the foregoing legend removed. (a) If the Employee' s employment with MGIC is terminated because of death prior to the Release Date, the Release Date for the Number of RSUs Granted shall accelerate and shall occur as soon as reasonably practicable after such death. (b) If the Employee' s employment with MGIC is terminated because of Disability prior to the Release Date, the Release Date for the Number of RSUs Granted shall be determined as provided in Section 2 as if the Employee' s employment had not terminated, however, upon the Employee' s death prior to the Release Date, the provisions of subsection (a) shall apply as if the Employee' s employment with MGIC terminated because of such death. (a) If the Employee' s employment with MGIC is terminated prior to the Release Date for any reason (including without limitation, termination by MGIC, with or without cause) other than death or Disability, all RSUs shall be forfeited to the Company on the date of such termination unless otherwise provided in subsection (b) below, or unless the Committee determines, on such terms and conditions as the Committee may impose, that the Release Date shall be determined as provided in Section 2 as if the Employee' s employment had not terminated. (c) Any RSUs for which a Release Date has not occurred by April 15, 2026 shall be forfeited to the Company. (b) If no such Beneficiary designation is in effect at the time of an Employee' s death, or if no designated Beneficiary survives the Employee or if such designation conflicts with law, upon the death of the Employee, the Employee' s estate shall be entitled to receive the Stock to be delivered in settlement of RSUs. If the Company is in doubt as to the right of any person to receive such property, the Company may retain the same and any distributions thereon, without liability for any interest thereon, until the Company determines the person entitled thereto, or the Company may deliver such property and any distributions thereon to any court of appropriate jurisdiction and such delivery shall be a complete discharge of the liability of the Company therefor. 9. Adjustments in Event of Change in Stock or Fiscal Year. In the event of any stock split, reverse stock split, stock dividend, combination or reclassification of the Stock that occurs after the date of this Agreement but before the Release Date, the number of RSUs shall be proportionally adjusted for any increase or decrease in the number of outstanding shares resulting from such event, any such adjustment rounded down to the next lower whole share. In the event of any change in the outstanding shares of Stock for any other reason, including but not limited to, any recapitalization, merger, consolidation, reorganization, combination or exchange of shares or other similar event which, in the judgment of the Committee, could distort the implementation of the award of RSUs or the realization of the objectives of such award, the Committee shall make such adjustments in the RSUs, or in the terms, conditions or restrictions of this Agreement as the Committee deems equitable. In addition, if the Company changes its fiscal year from a year ending December 31, the Committee may make such adjustments in the Release Date as the Committee deems equitable. The determination of the Committee as to any such adjustment shall be conclusive and binding for all purposes of this Agreement. 10. Change in Control. The provisions of Section 6 of the Plan that are applicable to restricted stock units shall apply to the RSUs. Neither the immediately preceding sentence nor the provisions of such Section 6 shall affect any vesting that occurs under Sections 3 (d) and 5 (i) of the Key Executive Employment and Severance Agreement (filed by the Company with the Securities and Exchange Commission with the Company' s Annual Report on Form 10- K for the year ended December 31, 2021). 13. Clawback. (a) If and to the extent the Committee deems it appropriate for such payment to be made, each Covered Employee shall pay MGIC an amount equal to the Excess Compensation. If the Excess Compensation is related to Income from a Release Date and if the Covered Employee continues to hold the shares of Stock received in connection with such Income, then to the extent allowed by the Committee, such Excess Compensation may be paid to MGIC by surrendering to the Company a number of shares of Stock equal to the amount of Excess Compensation divided by the Fair Market Value on the day prior to the payment date. MGIC INVESTMENT CORPORATIONBy: Title: Authorized SignerSign Here: Name: Beneficiary Name: Address of Beneficiary: Address of Beneficiary: " Affected Date " means (i) each Release Date on which, had a Financial Restatement that was made after such Release Date been in effect at such Release Date, the number of shares of Stock delivered in settlement of RSUs would have been lower, and (ii) each Payment Date on which, had a Financial Restatement that was made after such Payment Date been in effect at such Payment Date, the amount of cash paid on account of incentive compensation would have been lower. " Beginning Adjusted Book Value Per Share " means $. " Beneficiary System " means the Company' s Shareworks portal, or any system used by the Company for purposes of allowing the Employee to designate a Beneficiary in connection with RSUs. " Covered Employee " means a current or former employee of MGIC who was a Section 16 Filer at an Affected Date regardless of whether such employee ceased to be a Section 16 Filer thereafter. " Excess Compensation " means (i) the difference between the Income that was recognized by the Covered Employee on an Affected Date and the Income that would have been recognized had the Financial Restatement referred to in the definition of Affected Date then been in effect, plus (ii) the value of any income tax deduction or credit to which the Covered Employee is entitled on account of the payment to MGIC required by Section 13. The foregoing notwithstanding, Excess Compensation will be deemed to be zero for each Affected Date prior to the date on which Covered Employee was a Section 16 Filer. " Financial Restatement " means any accounting restatement due to material noncompliance with any financial reporting requirement under the federal securities laws. " Income " means income determined for federal income tax purposes minus the amount of federal, state and local income taxes and, to the extent applicable, the employee portion of Social Security and Medicaid payroll taxes, payable on account of such income. The amount of federal, state and local income taxes and the value of any deduction or credit contemplated by clause (ii) in the definition of Excess Compensation shall be computed by assuming that Income is taxed at the highest marginal rate, with such rate for any state and local income taxes appropriately adjusted to reflect the benefit of an itemized federal deduction for such taxes (if in the case of local taxes, such taxes are eligible for such a deduction), which adjustment shall be made by assuming that no reduction in such deduction on account of the Covered Employee' s adjusted gross income applies. " Number of RSUs Granted " shall have the meaning given to that term in Section 1 of this Agreement. " Payment Date " means the date on which cash incentive compensation is paid. " Vesting Percentage " means the Percentage as determined based on the Cumulative Growth in the table below: Performance LevelCumulative GrowthVesting Percentage (1) Below ThresholdLess than $ 0 % Threshold $ 25 % Target $ 100 % MaximumGreater than or equal to $ 200 % (1) If the Cumulative Growth falls between the threshold and target performance levels, or the target and maximum performance levels, then the Vesting Percentage will be the percentage derived by straight line interpolation between the applicable Vesting Percentages shown in the table. Exhibit 10. 6 The 2023 bonus plan for our executive officers determines bonuses by the extent to which three financial performance goals and various business performance objectives are met. Threshold, target and maximum performance achievement levels have been established for each financial performance goal and each financial performance goal is assigned a percentage weight. A percentage for each financial performance goal is calculated based on the company' s achievement against the goal. That percentage is multiplied by the weight for that goal. The individual financial performance goals, as generally described, and their weightings are: ROE (calculated as adjusted net operating income, divided by beginning of the year shareholders' equity excluding Accumulated Other Comprehensive Income (Loss), and adjusted for financial impacts of GSE- mandated mortgage insurance cancellations inconsistent with prior business practices) (45 %); new insurance written (15 %), except that new insurance written during any month is included only to the extent such volume is projected to generate, as of such month in which it is written, a lifetime return, including the effects of quota share reinsurance, that exceeds a hurdle rate; and insurance in force, as adjusted for financial impacts of GSE- mandated mortgage insurance cancellations inconsistent with prior business practices (15 %). Performance against the business objectives is assigned a percentage in the aggregate, which is multiplied by 25 %. The subjects addressed by the business performance objectives are: transforming our business to sustain our success; certain Corporate Sustainability considerations; and ensuring we have the appropriate amount and form of capital to support our strategies and meet the needs of our stakeholders. The resulting percentages for achievement against the financial performance goals and the business objectives are added. The resulting pay- out, if any, can range from threshold, which is 50 % of target, to maximum, which is 200 % of target. The Committee has discretion to decrease by as much as 10 percentage points or increase by as much as 10 percentage points the resulting percentage (the " Bonus Pool Percentage "), but the Bonus Pool Percentage will not exceed maximum. Exhibit 10. 8 DEFERRED COMPENSATION PLAN FOR NON- EMPLOYEE DIRECTORS As Amended and Restated Effective January 25, 2022 Section 1. Purpose (a) The purpose of the MGIC Investment Corporation Deferred Compensation Plan for Non- Employee Directors (the " Plan ") is to promote the best interests of MGIC Investment Corporation, a Wisconsin corporation (together with any successor thereto, the " Company "), and its shareholders by providing a means to attract and retain directors of the highest capabilities who are not employees of the Company or of any Affiliate (as defined below) through establishing a mechanism for annual grants of share units to the Company' s Non- Employee Directors and to provide such directors with an opportunity to defer all or any portion of their compensation for services as a member of the Board of Directors of the Company (the " Board ") that would otherwise be paid currently for payment upon death, disability, termination of services or a designated distribution date. (b) Effective as of January 1, 2005, the Plan is divided into two components. The Plan, as in effect on October 3, 2004 (the " Predecessor Plan "), shall govern Share Accounts and Interest- Bearing Accounts as of December 31, 2004, including subsequent net changes in value and net earnings of such Accounts. The Predecessor Plan governs all amounts considered by law to be deferred under the Plan prior to January 1, 2005, and not subject to Section 409A of the Internal Revenue Code of 1986, as amended (the " Code "). If the Predecessor Plan is materially modified, within the meaning of Code Section 409A and the guidance thereunder, after October 3, 2004, the exemption from regulation by Code Section 409A may be lost. (c) The Plan, originally effective as of January 1, 2005 and governing all amounts considered by law to be deferred on or after January 1, 2005, was amended and restated effective January 1, 2012, December 17, 2014 and January 27, 2015, and is further amended and restated effective January 25, 2022, as set forth herein. Section 2. Definitions As used in the Plan, the following terms shall have the respective meanings set forth below: (a) " Administrator " shall mean the Compensation Committee. (b) " Affiliate " shall mean any entity that, directly or through one or more intermediaries, is controlled by, controls, or is under common control with, the Company. (c) " Annual Grant " is defined in Section 4 (a) hereof. (d) " Annual Grant Election " is defined in Section 4 (c) hereof. (e) " Annual Grant Share Units " is defined in Section 4 (a) hereof. (f) " Change in Control " is defined in the Annex attached hereto. (g) " Commission " shall mean the United States Securities and Exchange Commission or any successor agency. (h) " Committee Action " is defined in Section 4 (a) hereof. (i) " Common Stock " shall mean the common stock, $ 1. 00 par value, of the Company. (j) " Company " is defined in Section 1 hereof. (k) " Compensation " shall mean those fees to which Non- Employee Directors are entitled for services rendered on the Board of Directors of the Company or any subsidiary or any committee of such Board or subsidiary, including attendance fees, fees for acting as committee chair or member, as well as annual retainer fees, but excluding the Annual Grant. (l) " Compensation Committee " shall mean the Management Development, Nominating and Governance Committee of the Board of Directors of the Company or, if such committee shall cease to have oversight responsibility for the compensation of the Company' s Chief Executive Officer and other members of senior management, the committee of the of Board of Directors of the Company that succeeds the Management Development, Nominating and Governance Committee with respect to such oversight. (m) " Disability " shall mean disability as set forth in Code Section 409A (a) (2) (C) (i). (n) " Distribution Date " shall mean the first of the month following the earliest to occur of the following: (i) The Non- Employee Director' s death. (ii) The Non- Employee Director' s Disability. (iii) The termination of the Non- Employee Director' s service as a member of the Board of Directors of the Company, whether by retirement or otherwise, provided the termination of service is a good- faith and complete termination of the relationship with the Company in accordance with Treasury Regulation 1. 409A- 1 (h), which is incorporated herein by this reference. (iv) The date (if any) specified by the Non- Employee Director in accordance with Section 10 hereof. (o) " Exchange Act " shall mean the Securities Exchange Act of 1934, as amended from time to time. (p) " Interest- Bearing Account " is defined in Section 8 hereof. (q) " Non- Employee Director " is defined in Section 5 hereof. (r) " Notice " is defined in Section 6 (a) hereof. (s) " Plan " is defined in Section 1 hereof. (t) " Plan Year " shall mean the calendar fiscal year of the Company. (u) " Share Account " is defined in Section 7 (a) hereof. Section 3. Administration (a) The Plan shall be administered by the Administrator. Subject to the terms of the Plan and applicable law, the Administrator shall have full power and authority to interpret the Plan, to prescribe, amend or rescind rules and regulations relating to it and to make all other determinations necessary or advisable for the administration of the Plan. The Plan shall be construed so that transactions under the Plan will be exempt from Section 16 (b) of the Exchange Act. Unless otherwise expressly provided in the Plan, all determinations, interpretations and other decisions by the Administrator shall be final, conclusive and binding on all persons. (b) The Plan is intended to comply with the provisions of Code Section 409A. The Company does not guarantee the tax treatment or tax consequences associated with any payment or benefit, including but not limited to consequences related to Code Section 409A. To the fullest possible extent permissible, the terms of this Plan shall be interpreted in a manner which avoids violation of Code Section 409A. Section 4. Annual Grant of Share Units (a) Annual Grants. Each year, beginning in 2009, each Non- Employee Director shall receive a grant (an " Annual Grant ") of share units, but subject to the approval of the Annual Grant by the Compensation Committee. Each Annual Grant shall be made on a date and valued in an amount designated by the Compensation Committee, and may be made in the form of share units to be settled in cash or shares of Common Stock, as specified by the Compensation Committee at or prior to the time of grant. For each Annual Grant, the number of share units credited to each Non- Employee Director' s Share Account shall equal (i) the value of the Annual Grant divided by (ii) the closing price per share of the Common Stock as reported on the New York Stock Exchange on (A) the effective date, for Annual Grants for which the action of the Compensation Committee approving the Annual Grant (the " Committee Action ") specifies an effective date, or (B) the date of the Annual Grant, for all other Annual Grants. The share units awarded pursuant to this Section 4 shall be referred to " Annual Grant Share Units. " This Section 4 details the terms of the Plan as applied to Annual Grants made on or after December 17, 2014. The vesting and distribution rules applicable to Annual Grants made prior to December 17, 2014 shall be governed by the terms of the Plan, the Committee Action and the applicable elections made by Non- Employee Directors under the terms of the Plan as in effect at the time the Annual Grant was made. (b) Vesting of Annual Grant Share Units. Annual Grant Share Units granted to a Non- Employee Director shall vest as provided in the Committee Action, including immediate vesting. If a Non- Employee Director ceases to be a director of the Company, and such termination occurs prior to the vesting date established in the Committee Action and if the- Non- Employee Director is not otherwise vested in accordance with the vesting rules set forth in this Section 4 (b), the unvested Annual Grant Share Units shall be forfeited by the Non- Employee Director unless the forfeiture is waived by the Compensation Committee after considering the implications of such waiver under Section 409A of the Code. (i) Default Vesting Provisions. Unless otherwise provided in the Committee Action, the Non- Employee Director will obtain a vested right to the Annual Grant Share Units if (i) the Non- Employee Director

ceases to be a director of the Company on or after the vesting date specified in the Committee Action, or (ii) the Non- Employee Director ceases to be a director of the Company prior to the vesting date specified in the Committee Action on account of death, Disability or retirement. (ii) Retirement. " Retirement " means a Non- Employee Director' s termination of service as a director of the Company, if (A) the Non- Employee Director at the time of termination was ineligible for continued service as a director under the Company' s retirement policy; or (B) the Non- Employee Director had served as a director of the Company for at least two years (except that such two- year period shall not apply to a retirement that occurs after a Change in Control) and such termination is (I) due to the Non- Employee Director' s taking a position with or providing services to a governmental, charitable or educational institution whose policies prohibit continued service on the Board of Directors of the Company; (II) due to the fact that continued service as a director would be a violation of law; or (III) not due to the voluntary resignation or refusal to stand for reelection by the Non- Employee Director. It is understood that a termination of service as a director as a result of (x) failure to get a Majority Vote, as defined in the Company' s Articles of Incorporation, or (y) any requirement under the Company' s Corporate Governance Guidelines to offer to resign, shall be described within clause (III) of the immediately preceding sentence. (c) Annual Grant Elections. Each Non- Employee Director shall elect, within the date or dates set forth in this Section 4 (c) or within such other date or dates as may be set forth in the Committee Action and that are consistent with the requirements of Code Section 409A, the date or dates upon which vested Annual Grant Share Units shall be distributed. Such election shall be made by written notice to the Company in substantially the form attached hereto as Exhibit A (" Annual Grant Election ") and as otherwise provided for in the applicable Committee Action. (i) Initial Annual Grant Election. In the case of a Non- Employee Director who becomes a participant in the Plan for the first time (and who has not previously been eligible for participation in another deferred compensation plan that is required to be aggregated with this Plan for purposes of Code Section 409A) and who completes and delivers his or her initial Annual Grant Election within 30 days of becoming eligible to participate in the Plan, the Non- Employee Director' s Annual Grant Election shall become effective with respect to Annual Grant Share Units that are attributable to services to be performed after the date the election is filed with the Administrator. (ii) Carryover of Annual Grant Election from Year to Year. A Non- Employee Director' s initial Annual Grant Election shall continue in effect, and shall be the Non- Employee Director' s Annual Grant Election with respect to Annual Grants made in Plan Years after the year for which the initial election was first effective, unless the Non- Employee Director has timely replaced such election with a revised Annual Grant Election that has become effective. Similarly, a Non- Employee' s Director' s revised Annual Grant Election, once effective with respect to a Plan Year, shall continue in effect, and shall be the Non- Employee Director' s Annual Grant Election with respect to Annual Grants made in Plan Years after the year for which the revised election was first effective, unless the Non- Employee Director has timely replaced such election with a further revised Annual Grant Election that has become effective. (iii) Revised Annual Grant Elections. Except as provided in subparagraph (i) above with respect to a Non- Employee' s Director' s election following initial eligibility, a Non- Employee Director' s Annual Grant Election (including a carryover of a prior Annual Grant Election pursuant to subparagraph (ii) above) becomes effective, and is irrevocable, with respect to any Plan Year at the close of the preceding Plan Year. Once effective with respect to a Plan Year, the Annual Grant Election may not be revoked or modified with respect to Annual Grants made during the Plan Year for which the Annual Grant Election is effective. A Non- Employee Director may modify his or her then current Annual Grant Election by filing a new Annual Grant Election, properly completed and signed, with the Administrator. However, the revised election will not become effective until the Plan Year following the Plan Year during which the revised election is received and accepted by the Administrator, and the revised Annual Grant Election, once effective, shall remain in effect until again modified by a further revised Annual Grant Election that has become effective. Section 5. Eligibility Any member of the Company' s Board of Directors who is not an employee of the Company or of any Affiliate (a " Non- Employee Director ") is eligible to participate in the Plan. Section 6. Election to Defer Compensation (a) Each Non- Employee Director may elect to defer all or any portion of his or her Compensation for services rendered during a Plan Year commencing on the first day of the Plan Year following the date such Non- Employee Director' s deferral election is delivered to the Administrator. Any such deferral election shall be made by written notice to the Company in substantially the form attached hereto as Exhibit B (" Notice "). In the Notice, the Non- Employee Director shall indicate whether the amount to be deferred shall be (i) converted into share units and credited to a Share Account as provided in Section 7 hereof, (ii) credited to an Interest- Bearing Account as provided in Section 8 hereof, or (iii) credited to a combination of both accounts. (b) A deferral election (including, without limitation, the amount deferred as specified in each Non- Employee Director' s Notice) is irrevocable and will remain in effect as to all future Plan Years and deferred amounts until a Non- Employee Director delivers an amended Notice to the Administrator and such new irrevocable election or revocation becomes effective. Any amended Notice shall be effective with respect to Compensation earned on and after the first day of the Plan Year beginning after the date the amended Notice is delivered to the Administrator. (c) The most recent Notice provided under this Plan, or the Predecessor Plan prior to January 1, 2005, shall be a Non- Employee Director' s initial Notice under this Plan. (d) If a newly- elected Non- Employee Director or a member of the Board who becomes a Non- Employee Director completes his or her initial Notice not later than thirty (30) days after the date of his or her election as Director or his or her becoming a Non- Employee Director, respectively, such Notice shall be effective as to Compensation earned for services performed on and after the first day of the first Plan Year quarter beginning after such Notice is delivered to the Administrator. Section 7. Bookkeeping Share Unit Accounts (a) The Company shall establish and maintain a bookkeeping share unit account (" Share Account ") for each Non- Employee Director participating in the Plan. The Share Account shall reflect all entries required to be made pursuant to (i) Annual Grants pursuant to Section 4, (ii) except as set forth in Section 8 (a), the Non- Employee Director' s Notice and amended Notices, if any, and (iii) this Plan. Non- Employee Directors shall have no rights as stockholders of the Company with respect to share units credited to their Share Accounts. (b) At the end of each Plan Year quarter, other than any quarter during the period January 1, 2009 – December 31, 2014, a Non- Employee Director' s Share Account shall be credited with a number of share units equal to (i) the portion of the Non- Employee Director' s Compensation for such quarter designated in his or her then effective Notice to be deferred and converted into share units divided by (ii) the closing price per share of the Common Stock on the New York Stock Exchange on the last trading day of such quarter. (c) Whenever cash dividends or other distributions are paid by the Company on its outstanding Common Stock, there shall be credited to each Non- Employee Director' s Share Account additional share units equal to (i) the aggregate dividend or distribution that would be payable on a number of outstanding shares of Common Stock equal to the number of share units in such Non- Employee Director' s Share Account on the record date for the dividend divided by (ii) the closing price per share of the Common Stock as reported on the New York Stock Exchange on the last trading day immediately preceding the date of payment of the dividend. If, after the record date and before the payment date for a cash dividend or other distribution that would otherwise result in crediting of additional share units under the foregoing, shares of Common Stock are distributed, or a payment is made, with respect to the share units to which such distribution relates, then the Company shall pay an amount in cash equal to the amount of the distribution for each such share unit with respect to which such distribution or payment was made. (d) The number of share units credited to each Non- Employee Director' s Share Account shall be adjusted as appropriate in the event of any changes in the outstanding Common Stock by reason of any stock dividend, stock split, recapitalization, merger, consolidation, combination, exchange of stock or other similar corporate change. Section 8. Interest- Bearing Accounts (a) The Company shall establish and maintain a bookkeeping interest- bearing account (" Interest- Bearing Account ") for each Non- Employee Director participating in the Plan. The Interest- Bearing Account shall reflect all entries required to be made pursuant to the Non- Employee Director' s Notice and amended Notices, if any, and pursuant to this Plan. Notwithstanding any Notice and amended Notices, if any, effective after December 31, 2008 and before December 17, 2014 that include an election to have amounts credited to a Share Account, all such amounts shall be made credited to such Non- Employee Director' s Interest- Bearing Account. (b) At the end of each Plan Year quarter, a Non- Employee Director' s Interest- Bearing Account shall be credited with the portion of the Non- Employee Director' s Compensation for such quarter designated in his or her then effective Notice to be deferred and credited to his or her Interest- Bearing Account. A Non- Employee Director' s Interest- Bearing Account balance at the beginning of each Plan Year quarter shall also be credited at the end of such quarter with interest for the quarter at a rate equal to the Six Month U. S. Treasury Bill Rate determined at the closest preceding January 1 or July 1 of each year; provided that, with respect to the portion of such Interest- Bearing Account attributable to deferrals from 2023 and subsequent years, in no event will the interest credited exceed 120 % of the applicable federal long- term rate, with quarterly compounding. Section 9. Account Transfer A Non- Employee Director may not transfer or convert a Share Account to an Interest- Bearing Account or vice versa. Section 10. Distributions (a) A Non- Employee Director may designate on his or her initial Notice a Distribution Date for the commencement of payment of amounts credited to his or her Share Account and Interest- Bearing Account; provided, however, that amounts associated with Annual Grant Share Units shall be distributed in accordance with the applicable Annual Grant Election (s). All Distribution Date elections made by Non- Employee Directors are irrevocable; provided, however, that each Non- Employee Director who has an initial Notice on file with the Plan before January 1, 2009, may, not later than December 31, 2008, designate a Distribution Date that shall supersede any previous designation of a Distribution Date. Such designation shall be irrevocable effective January 1, 2009. (b) A Non- Employee Director shall direct in his or her initial Notice whether distributions of the amount (s) accumulated in his or her Share Account (other than amounts associated with Annual Grant Share Units, which shall be distributed in accordance with the applicable Annual Grant Election (s)) and / or Interest- Bearing Account are to be made in (i) a lump sum, payable on the first business day of the calendar month following the applicable Distribution Date, or (ii) up to ten (10) annual installments commencing on the first business day of the calendar month following the applicable Distribution Date and continuing on the appropriate number of consecutive anniversaries of such date. If a Non- Employee Director receives distributions on an installment basis, whether pursuant to a Notice or an Annual Grant Election, amounts remaining in his or her Share Account and / or Interest- Bearing Account before payment in full is completed shall continue to be credited, as appropriate, with (i) additional share units in the event cash dividends are paid by the Company and shall be appropriately adjusted in the event of any changes in the outstanding Common Stock in accordance with Sections 7 (c) and 7 (d), respectively, hereof and / or (ii) interest in accordance with Section 8 (b) hereof. All designations of a form of payment shall be irrevocable; provided, however, that each Non- Employee Director who has an initial Notice on file with the Plan before January 1, 2009, may, not later than December 31, 2008, designate a form of payment that shall supersede any previous designation of a form of payment. Such designation shall be irrevocable effective January 1, 2009. (c) All distributions made pursuant to the Plan shall be made in cash and, if appropriate, will be deemed to be made from the Share Accounts and the Interest- Bearing Accounts pro rata, excluding, for purposes of such pro rata calculations, the portion of the Share Accounts attributable to Annual Grants; provided that the Company shall distribute the portion of the Share Accounts attributable to Annual Grants that were designated in the applicable Committee Action as being settled in shares of Common Stock in the form of such shares, which shares of Common Stock shall be issued under the Company' s 2020 Omnibus Incentive Plan or any successor equity incentive plan maintained by the Company at the time of issuance. To the extent distributions are made in the form of cash from a Share Account, the Company shall pay on the applicable date an amount in cash equal to the average of the closing price per share of the Common Stock on the New York Stock Exchange for the five (5) consecutive trading days immediately preceding the date of distribution multiplied by the number of share units (i. e., shares of Common Stock since each unit represents one share) that would be otherwise distributable. (d) If the Distribution Date is the first day of the month following the Non- Employee Director' s death or a fixed date which in fact occurs after the Non- Employee Director' s death or if at the time of death the Non- Employee Director was receiving distributions in installments, the balance remaining in the Non- Employee Director' s Share Account and / or Interest- Bearing Account shall be distributed to such beneficiary or beneficiaries as such Non- Employee Director shall have designated by an instrument in writing filed with the Company prior to the Non- Employee Director' s death. All distributions to the Non- Employee Director' s beneficiary or beneficiaries shall be in a lump sum and will be made as soon as practicable after the Non- Employee Director' s death. In the absence of an effective beneficiary designation, the Non- Employee Director' s Share Account and / or Interest- Bearing Account balance (s) shall be distributed to his or her estate. Section 11. Amendments and Termination. The Board of Directors of the Company hereby reserves the right to amend this Plan from time to time and to terminate this Plan at any time without the consent of the Non- Employee Directors or their beneficiaries; provided, however, that no amendment or termination may reduce any Share Account and / or Interest- Bearing Account balance accrued on behalf of a Non- Employee Director based on deferrals already made, or divest any Non- Employee Director of rights to which he or she would have been entitled if the Plan had been terminated immediately prior to the effective date of such amendment. Section 12. General. (a) Assignment. Neither the Non- Employee Director, nor his or her beneficiary, nor his or her estate shall have any right or power to transfer, assign, pledge, encumber or otherwise dispose of any rights hereunder and any such attempt to assign, transfer, pledge or other conveyance shall not be recognized by the Company. The rights of a Non- Employee Director hereunder are exercisable during the Non- Employee Director' s lifetime only by him or her or his or her guardian or legal representative. (b) Non- Employee Directors' Rights Unsecured. The right of any Non- Employee Director or his or her beneficiary to receive a distribution hereunder shall be an unsecured claim against the general assets of the Company, and neither the Non- Employee Director nor any beneficiary shall have any right, title or interest in or against any amount credited to his or her Share Account, his or her Interest- Bearing Account or any other specific assets of the Company prior to the payment thereof to such person. (c) Funding. This Plan is unfunded and is maintained by the Company for the purpose of providing deferred compensation to Non- Employee Directors. Nothing contained in this Plan and no action taken pursuant to its terms shall create or be construed to create a trust of any kind, or a fiduciary relationship between the Company and any Non- Employee Director or his or her beneficiary, or any other person. The Company may authorize the creation of a trust or other arrangement to assist the Company in meeting the obligations created under the Plan. Any liability to any person with respect to the Plan shall be based solely upon any contractual obligations that may be created pursuant to the Plan. No obligation of the Company hereunder shall be deemed to be secured by any pledge of, or other encumbrance on, any property of the Company. (d) Withholding for Taxes. No later than the date as of which an amount first becomes includable in the gross income of the Non- Employee Director for Federal income tax purposes with respect to any participation under the Plan, the Non- Employee Director shall pay to the Company, or make arrangements satisfactory to the Company regarding the payment of, any Federal, state, local or foreign taxes of any kind required by law to be withheld with respect to such amount. (e) Costs of Administration. Costs of administration of the Plan will be paid by the Company. (f) Benefit Statements. The Company shall provide statements with respect to Share Accounts and / or Interest- Bearing Accounts to participating Non- Employee Directors on a periodic basis, but not less than annually, in such form and at such time as it deems appropriate. (g) Governing Law. The validity, construction, and effect of the Plan and any rules and regulations relating to the Plan shall be determined in accordance with the laws of the State of Wisconsin and applicable federal law. (h) Severability. If any provision of the Plan is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction, or as to any person, or would disqualify the Plan under any law deemed applicable by the Administrator, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the determination of the Administrator, materially altering the intent of the Plan, such provision shall be stricken as to such jurisdiction or person and the remainder of the Plan shall remain in full force and effect. (i) Headings. Headings are given to the Sections and subsections of the Plan solely as a convenience to facilitate reference. Such headings shall not be deemed in any way material or relevant to the construction or interpretation of the Plan or any provision thereof. NOTICE OF ELECTION REGARDING ANNUAL GRANTS The

undersigned, being a Non- Employee Director of MGIC Investment Corporation (the " Company "), hereby makes this election pursuant to the Company' s Deferred Compensation Plan for Non- Employee Directors (the " Deferred Compensation Plan "). 1. The undersigned elects to receive distributions related to his or her Annual Grants as follows (please check one): (a) For _____% of the units granted: In one lump- sum, payable on the tenth business day following the vesting date provided for in the applicable Committee Action, or if there is immediate vesting, on the settlement date specified in the Committee Action, except that, if for any Annual Grant the Committee Action specifies an effective date for such Grant, such payment date shall be no earlier than the first anniversary of such effective date. (b) For _____% of the units granted: In 1 2 3 4 5 6 7 8 9 10 (please circle one number) annual installments commencing on the first business day of the calendar month following the termination of the Non- Employee Director' s service as a member of the Board of Directors of the Company, as contemplated by Section 2 (n) (iii) of the Plan, and continuing on the appropriate number of consecutive anniversaries of such date. (c) For _____% of the units granted: One lump- sum on _____, which may be no earlier than the date provided in (a), above. Distributions shall be settled in shares of the Company' s common stock or in cash, as specified in the Committee Action. 2. Designation of Beneficiary with respect to Annual Grants. Name and Address of Beneficiary: All capitalized terms used but not defined herein shall have the meanings assigned to them in the Deferred Compensation Plan, as in effect on the date the Annual Grant is awarded. For purposes of this election form, " Annual Grant " shall also include grants of restricted stock units awarded under the 2020 Omnibus Incentive Plan (" RSU Grants ") and " Committee Action " shall also include resolutions authorizing the RSU Grants. DirectorDate EXHIBIT B NOTICE OF ELECTION TO DEFER COMPENSATION UNDER MGIC INVESTMENT CORPORATION DEFERRED COMPENSATION PLAN FOR NON- EMPLOYEE DIRECTORS The undersigned, being a Non- Employee Director of MGIC Investment Corporation (the " Company "), hereby elects to participate in the Company' s Deferred Compensation Plan for Non- Employee Directors (the " Deferred Compensation Plan ") on the terms and conditions set forth in such Plan and pursuant to the specific instructions below: 1. Percentage of Directors' Compensation to be deferred for services rendered during all Plan Years beginning after the date of this Notice. A newly eligible Director may make a mid- year election within 30 days of initial eligibility with respect to Fees earned after the date the election is provided to the Corporation. Please list percentage of fees you wish to defer: ___% Annual Board Retainer Fees, in excess of amount applied to MGIC- PAC of $ _____% Annual Committee Retainer Fees___% Board and Committee Meeting Fees, if any are paid for _____ NOTE: Complete the following items 2- 4 only if all or a portion of Compensation was deferred in (1) above: 2. Percentage of Compensation deferred to be credited to Interest- Bearing Account and / or converted into share units (and credited to Share Account). Please specify percentage: ___% Interest- Bearing Account ___% Share Units (Share Account) 3. Method by which Interest- Bearing Account and / or Share Account balance (s) shall be paid. Please check one: One lump- sum, payable in cash on first business day of the calendar month following the applicable Distribution Date (as defined below) In 1 2 3 4 5 6 7 8 9 10 (please circle one number) annual installment (s) payable in cash commencing on the first business day of the calendar month following the applicable Distribution Date and continuing on the appropriate number of consecutive anniversaries of such date. " Distribution Date " means the first of the month following the earliest to occur of the following: (i) The Non- Employee Director' s death. (ii) The Non- Employee Director' s Disability. (iii) The termination of the Non- Employee Director' s service as a member of the Board of Directors of the Company, whether by retirement or otherwise, provided the termination of service is a good- faith and complete termination of the relationship with the Company in accordance with Treasury Regulation 1. 409A- 1 (h), which is incorporated herein by this reference. (iv) The date (if any) specified by the Non- Employee Director below and in accordance with Section 10 of the Deferred Compensation Plan. 4. Optional designation of a Distribution Date other than the first to occur of death, Disability or termination of service as a member of the Board of Directors of the Company, whether by retirement or otherwise. Please specify such other Distribution Date if you desire: Other fixed Distribution Date: 5. Designation of Beneficiary under the Deferred Compensation Plan, if any. Name and Address of Beneficiary: All capitalized terms used but not defined herein shall have the meanings assigned to them in the Deferred Compensation Plan. DirectorDate ANNEX DEFINITION OF " CHANGE IN CONTROL OF THE COMPANY " AND RELATED TERMS 1. Change in Control of the Company. A " Change in Control of the Company " shall be deemed to have occurred if an event set forth in any one of the following paragraphs shall have occurred: (i) any Person (other than (A) the Company or any of its subsidiaries, (B) a trustee or other fiduciary holding securities under any employee benefit plan of the Company or any of its subsidiaries, (C) an underwriter temporarily holding securities pursuant to an offering of such securities or (D) a corporation owned, directly or indirectly, by the shareholders of the Company in substantially the same proportions as their ownership of stock in the Company (" Excluded Persons ")) is or becomes the Beneficial Owner, directly or indirectly, of securities of the Company (not including in the securities beneficially owned by such Person any securities acquired directly from the Company or its Affiliates after July 22, 1999, pursuant to express authorization by the Board of Directors of the Company (the " Board ") that refers to this exception) representing more than 50 % of the total fair market value of the stock of the Company or representing 50 % or more of the total voting power of the stock of the Company; or (ii) during any 12 consecutive month period, the following individuals cease for any reason to constitute a majority of the number of directors of the Company then serving: (A) individuals who, on July 22, 1999, constituted the Board and (B) any new director (other than a director whose initial assumption of office is in connection with an actual or threatened election contest, including but not limited to a consent solicitation, relating to the election of directors of the Company, as such terms are used in Rule 14a- 11 of Regulation 14A under the Act) whose appointment or election by the Board or nomination for election by the Company' s shareholders was approved by a vote of at least a majority of the directors then still in office who either were directors on July 22, 1999, or whose initial appointment, election or nomination for election as a director which occurred after July 22, 1999 was approved by such vote of the directors then still in office at the time of such initial appointment, election or nomination who were themselves either directors on July 22, 1999 or initially appointed, elected or nominated by such majority vote as described above ad infinitum (collectively the " Continuing Directors "); provided, however, that individuals who are appointed to the Board pursuant to or in accordance with the terms of an agreement relating to a merger, consolidation, or share exchange involving the Company (or any direct or indirect subsidiary of the Company) shall not be Continuing Directors for purposes of this Plan until after such individuals are first nominated for election by a vote of at least a majority of the then Continuing Directors and are thereafter elected as directors by the shareholders of the Company at a meeting of shareholders held following consummation of such merger, consolidation, or share exchange; and, provided further, that in the event the failure of any such persons appointed to the Board to be Continuing Directors results in a Change in Control of the Company, the subsequent qualification of such persons as Continuing Directors shall not alter the fact that a Change in Control of the Company occurred; or (iii) a merger, consolidation or share exchange of the Company with any other corporation is consummated or voting securities of the Company are issued in connection with a merger, consolidation or share exchange of the Company (or any direct or indirect subsidiary of the Company) pursuant to applicable stock exchange requirements, other than (A) a merger, consolidation or share exchange which would result in the voting securities of the Company entitled to vote generally in the election of directors outstanding immediately prior to such merger, consolidation or share exchange continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or any parent thereof) at least 50 % of the combined voting power of the voting securities of the Company or such surviving entity or any parent thereof entitled to vote generally in the election of directors of such entity or parent outstanding immediately after such merger, consolidation or share exchange, or (B) a merger, consolidation or share exchange effected to implement a recapitalization of the Company (or similar transaction) in which no Person (other than an Excluded Person) is or becomes the Beneficial Owner, directly or indirectly, of securities of the Company (not including in the securities beneficially owned by such Person any securities acquired directly from the Company or its Affiliates after July 22, 1999, pursuant to express authorization by the Board that refers to this exception) representing at least 50 % of the combined voting power of the Company' s then outstanding voting securities entitled to vote generally in the election of directors; or (iv) the sale or disposition by the Company of all or substantially all of the Company' s assets to a Person (in one transaction or a series of related transactions within any period of 12 consecutive months), other than a sale or disposition by the Company of all or substantially all of the Company' s assets to (a) a shareholder of the Company (immediately before the asset transfer) in exchange for or with respect to its stock; (b) an entity, 50 % or more of the total value or voting power of which is owned, directly or indirectly, by the Company; (c) a Person that owns, directly or indirectly, 50 % or more of the total value or voting power of all of the outstanding stock of the Company; or (d) an entity, at least 50 % of the total value or voting power of which is owned, directly or indirectly, by a Person that owns, directly or indirectly, 50 % or more of the total value or voting power of all the outstanding voting stock of the Company. It is understood that in no event shall a sale or disposition of assets be considered to be a sale of substantially all of the assets unless the assets sold or disposed of have a total gross fair market value of at least 40 % of the total gross fair market value of all of the Company' s assets immediately prior to such sale or disposition. 2. Related Definitions. For purposes of this Annex, the following terms, when capitalized, shall have the following meanings: (i) Act. The term " Act " means the Securities Exchange Act of 1934, as amended. (ii) Affiliate and Associate. The terms " Affiliate " and " Associate " shall have the respective meanings ascribed to such terms in Rule l2b- 2 of the General Rules and Regulations under the Act. (iii) Beneficial Owner. A Person shall be deemed to be the " Beneficial Owner " of any securities: a. which such Person or any of such Person' s Affiliates or Associates has the right to acquire (whether such right is exercisable immediately or only after the passage of time) pursuant to any agreement, arrangement or understanding, or upon the exercise of conversion rights, exchange rights, rights, warrants or options, or otherwise; provided, however, that a Person shall not be deemed the Beneficial Owner of, or to beneficially own, (A) securities tendered pursuant to a tender or exchange offer made by or on behalf of such Person or any of such Person' s Affiliates or Associates until such tendered securities are accepted for purchase, or (B) securities issuable upon exercise of Rights issued pursuant to the terms of the Company' s Rights Agreement, dated as of July 22, 1999, between the Company and Wells Fargo Bank Minnesota, National Association (as successor Rights Agent), as amended from time to time (or any successor to such Rights Agreement), at any time before the issuance of such securities; b. which such Person or any of such Person' s Affiliates or Associates, directly or indirectly, has the right to vote or dispose of or has " beneficial ownership " of (as determined pursuant to Rule l3d- 3 of the General Rules and Regulations under the Act), including pursuant to any agreement, arrangement or understanding; provided, however, that a Person shall not be deemed the Beneficial Owner of, or to beneficially own, any security under this Subsection 2 (b) as a result of an agreement, arrangement or understanding to vote such security if the agreement, arrangement or understanding: (A) arises solely from a revocable proxy or consent given to such Person in response to a public proxy or consent solicitation made pursuant to, and in accordance with, the applicable rules and regulations under the Act and (B) is not also then reportable on a Schedule l3D under the Act (or any comparable or successor report); or c. which are beneficially owned, directly or indirectly, by any other Person with which such Person or any of such Person' s Affiliates or Associates has any agreement, arrangement or understanding for the purpose of acquiring, holding, voting (except pursuant to a revocable proxy as described in Subsection 2 (b) above) or disposing of any voting securities of the Company. (iv) Person. The term " Person " shall mean any individual, firm, partnership, corporation or other entity, including any successor (by merger or otherwise) of such entity, or a group of any of the foregoing acting in concert. (v) Stock. The term " stock " shall have the meaning contemplated by Treasury Regulation 1. 409A- 1 et seq . Exhibit 10. 12 AGREEMENT NOT TO COMPETE As a condition to and in consideration of the award by MGIC Investment Corporation (the " Company ") of Restricted Stock Units (" RSUs ") pursuant to the 2020 Omnibus Incentive Plan, to the individual signing or otherwise agreeing to this Agreement Not to Compete (" Employee "), Employee agrees as follows: 1. Employee shall not render services or assistance to any Competitor (as defined below) of the Company or of any present or future parent, subsidiary or other affiliate of the Company (collectively, " Affiliate ") (a) during the term of Employee' s employment with the Company or with any Affiliate, and (b) for a period of one year after the termination of such employment if such post- employment services or assistance to a Competitor involve any of the following: (i) for an Employee whose principal business function for the Company or any Affiliate during the one year prior to the termination of Employee' s employment with the Company or such Affiliate (" the Relevant Period ") involved the pricing of the Company or an Affiliate' s products or services, or the sales or marketing directly to customers of the Company or such Affiliate, pricing, selling, or marketing products or services competitive with those Employee priced, sold or marketed on behalf of the Company or Affiliate for whom Employee worked, to any of the Company' s or such Affiliate' s customers for which Employee had responsibility or with which Employee had regular contact, whether in person or through any communications technology, at any time during the Relevant Period; (ii) for an Employee who during the Relevant Period supervises other employees who price the Company' s or an Affiliate' s products or services, or sell or market directly to customers, pricing, selling, marketing, or supervising the sale or marketing of, products or services competitive with those within Employee' s supervision, to any of the Company' s or such Affiliate' s customers who, at any time during the Relevant Period, were served by employees Employee supervised and were either customers about which Employee received confidential information of Company or such Affiliate or customers with which Employee had regular contact whether in person or through any communications technology; or (iii) for an Employee who during the Relevant Period serves the Company or any Affiliate in a capacity not described in subsections (i) or (ii), providing services to a Competitor of the Company or such Affiliate in any capacity in which confidential information of the Company or such Affiliate which Employee learned during the Relevant Period, would reasonably be considered useful to the Competitor. 2. Employee shall not directly or indirectly, during the term of Employee' s employment with the Company or with any Affiliate and for a period of one year after termination of such employment, solicit or induce, or assist in any manner in the solicitation or inducement of any employee of the Company who was subject to Employee' s direct supervision or about whom Employee received any Confidential Information, in either event during any part of the last year of Employee' s employment with the Company or Affiliate, to accept any employment, consulting, contracting or other confidential relationship with a Competitor. 3. For the purposes of this Agreement, the term " Competitor " means any company (regardless of the form of its organization), including a proprietorship (a) engaged in or preparing to engage in the business of guaranteeing or insuring mortgages on property in the United States, Puerto Rico or Guam, or (b) engaged in or preparing to engage in competition with any other business in which the Company or any Affiliate is engaged, in any state or territory of the United States in which the Company or any Affiliate is so engaged, but only if such business accounted for at least 10 % of the revenues of the Company and its subsidiaries, on a consolidated basis, during the Relevant Period. 4. The provisions of this Agreement shall bind the Employee and inure to the benefit of the Company and its Affiliates, notwithstanding: (a) any termination of the Restricted Stock Unit Agreement associated with this Agreement, or any forfeiture of the related RSUs, or (b) any issuance of cash or shares to the Employee in settlement of any RSU. 5. The Employee acknowledges that: (a) the Company and each Affiliate are third party beneficiaries of this Agreement and each one is entitled to enforce the provisions of this Agreement which may include an action for injunction, damages or both, and such other relief as may be proper; (b) the Company may, at its sole discretion, waive any rights this Agreement provides to it; (c) Employee is entitled to consult an attorney before entering into this Agreement; and (d) Employee was given 14 days to review the terms and conditions contained herein. 6. Any dispute arising out of or related to Employee' s employment with Company or any Affiliate, or arising out of or related to this Agreement, or any breach or alleged breach hereof (" a Covered Dispute "), shall be decided exclusively by a state court sitting without a jury in the Wisconsin Circuit Court for Milwaukee County. Employee irrevocably waives Employee' s right, if any, to have any Covered Dispute decided in any jurisdiction or venue other than the Wisconsin Circuit Court for Milwaukee County, and Employee irrevocably waives the right to remove or transfer any action commenced in the Wisconsin Circuit Court for Milwaukee County, to any other court or venue. Employee

irrevocably waives Employee' s right, if any, to have any Covered Dispute decided by a jury. 7. All terms capitalized in this Agreement shall have the respective meanings set forth in the associated Restricted Stock Unit Agreement, unless otherwise defined herein. This Agreement does not supersede or modify any other agreement regarding non- competition of which the Company has the benefit. Dated: As of the ~~2nd~~ **5th** day of February **, 2024**~~Signature~~ **2025Signature** : _____ Name: _____ INSIDER TRADING POLICY (Including Window, Hedging and Pledging Policies, and Pre- Clearance Policy and Procedure) PURPOSE OF POLICY The Management Development, Nominating and Governance Committee of the Company' s Board of Directors has adopted this Insider Trading Policy (the " Policy ") to promote compliance with federal and state securities laws that prohibit certain persons who are aware of material nonpublic information about a company from: (i) ~~trading~~ **engaging in transactions** in securities of that company; or (ii) providing material nonpublic information to other persons who may ~~trade~~ **engage in transactions in securities of that company** on the basis of that information, and for other purposes. POLICY STATEMENT This Policy provides guidelines with respect to transactions in the securities of MGIC Investment Corporation (the " Company "), companies with which the Company does business and competitors of the Company, and the handling of confidential information about the Company, companies with which the Company does business and competitors of the Company. SCOPE AND APPLICABILITY Transactions Subject to this Policy. This Policy applies to transactions in the Company' s securities, including the Company' s common stock, options to purchase common stock, and any other type of securities the Company may issue, including preferred stock, convertible debentures and warrants, as well as derivative and other synthetic securities that are not issued by the Company, such as exchange- traded put or call options or swaps relating to the Company' s securities (collectively referred to in this Policy as " Company Securities "). **Transactions subject to this Policy include purchases, sales and bona fide gifts of Company Securities.** Persons Subject to this Policy. Portions of this Policy apply to all directors and employees of the Company and its subsidiaries. The Company may also determine that other persons should be subject to this policy, such as contractors or consultants who have access to material nonpublic information. Other portions of this Policy apply to a subset of persons, as described below. This Policy also applies to family members, other **1** members of a person' s household and entities controlled by a person covered by this Policy, as described below. Individual Responsibility. Persons subject to this Policy have ethical and legal obligations to maintain the confidentiality of information about the Company and to not engage in transactions in Company Securities while in possession of " material nonpublic information. " Each individual is responsible for making sure that he or she complies with this Policy, and that any family member, household member or entity whose transactions are subject to this Policy, as discussed below, also comply with this Policy. In all cases, the responsibility for determining whether an individual is in possession of material nonpublic information rests with that individual, and any action on the part of the Company or an employee of the Legal Department pursuant to this Policy does not in any way constitute legal advice or insulate an individual from liability under applicable securities laws. Policy Regarding Trading and Other Actions While in Possession of Material Nonpublic Information No director or employee of the Company (or any other person subject to this Policy) who is aware of material nonpublic information relating to the Company may, directly, or indirectly through family members or other persons or entities: 1. Engage in transactions in Company Securities, except as otherwise specified in this Policy under the headings " Transactions Under Company Plans, " ~~and~~ " Transactions Not Involving a Purchase or Sale **, " and " Rule 10b5- 1 Plans** "; 2. Recommend the purchase **, sale** or ~~sale~~ **bona fide gifting** of any Company Securities; 3. Disclose material nonpublic information to persons within the Company whose jobs do not require them to have that information, or outside of the Company to other persons, including, but not limited to, family, friends, business associates, investors and expert consulting firms, unless any such disclosure is made in accordance with the Company' s policies regarding the protection or authorized external disclosure of information regarding the Company; or 4. Assist anyone engaged in the above activities. In addition, no director or employee of the Company (or any other person subject to this Policy) who, in the course of working for the Company, learns of material nonpublic information that affects a company with which the Company does business, including customers or suppliers of the Company, or affects a competitor of the Company, may trade in that company' s securities until the information becomes public or is no longer material. **2** There are no exceptions to this Policy, except as specifically noted herein. Transactions that may be necessary or justifiable for independent reasons (such as the need to raise money for an emergency expenditure), or small transactions, are not excepted from this Policy. The securities laws do not recognize any mitigating circumstances, and, in any event, even the appearance of an improper transaction must be avoided to preserve the Company' s reputation for adhering to the highest standards of conduct. Material Information Information is considered " material " if a reasonable investor would consider that information important in making a decision to buy, hold or sell securities. Any information that could be expected to affect a company' s stock price, whether it is positive or negative, should be considered material. There is no bright- line standard for assessing materiality; rather, materiality is based on an assessment of all of the facts and circumstances, and is often evaluated by enforcement authorities with the benefit of hindsight. While it is not possible to define all categories of material information, some examples of information that ordinarily would be regarded as material are: ~~•~~ · Financial results ~~•~~ · A pending or proposed merger, acquisition or tender offer ~~•~~ · A change in dividend policy, the declaration of a stock split, or an offering of additional securities ~~•~~ · Significant bank borrowings or other financing transactions out of the ordinary course ~~•~~ · The establishment of a repurchase program for Company Securities ~~•~~ · A change in executive management ~~•~~ · Pending or threatened significant litigation, or the resolution of such litigation ~~•~~ · Regulatory or GSE developments that significantly affect the Company ~~•~~ · Cybersecurity incidents that significantly affect the Company ~~•~~ · The imposition of a ban on trading in Company Securities Examples of information that may be regarded as material, depending on its significance to the Company and information already publicly known are: ~~•~~ · Projections of future earnings or losses ~~•~~ · Significant changes in the Company' s pricing or cost structure ~~•~~ · An imminent change in the Company' s credit rating by a rating agency ~~•~~ **3** · The gain or loss of a significant customer When Information is Considered Public Information that has not been disclosed to the public is generally considered to be nonpublic information. In order to establish that the information has been disclosed to the public, it may be necessary to demonstrate that the information has been widely disseminated. Information generally would be considered widely disseminated if it has been disclosed through newswire services, publication in a widely- available newspaper, magazine or news website, or public disclosure documents filed with the SEC that are available on the SEC' s website. Once information is widely disseminated, it is still necessary to afford the investing public with sufficient time to absorb the information. As a general rule, information should not be considered fully absorbed by the marketplace until one full business day after the day on which the information is released. If, for example, the Company were to make an announcement on Monday, you should not trade in Company Securities until Wednesday. Depending on the particular circumstances, the Company may determine that a longer or shorter period should apply to the release of specific material nonpublic information. Transactions by Family Members and Others The Policy Regarding Trading **and Other Actions** While in Possession of Material Nonpublic Information applies to your family members who reside with you (including a spouse, a child, a child away at college, stepchildren, grandchildren, parents, stepparents, grandparents, siblings and in- laws), anyone else who lives in your household, and any family members who do not live in your household but whose transactions in Company Securities are directed by you or are subject to your influence or control, such as parents or children who consult with you before they trade in Company Securities (collectively referred to as " Family Members "). You are responsible for the transactions of these other persons and therefore should make them aware of the need to confer with you before they trade in Company Securities, and you should treat all such transactions for the purposes of this Policy and applicable securities laws as if the transactions were for your own account. Transactions by Entities that You Influence or Control The Policy Regarding Trading **and Other Actions** While in Possession of Material Nonpublic Information applies to any entities that you influence or control, including any donor advised funds, corporations, partnerships or trusts (collectively referred to as " Controlled Entities "), and transactions by these Controlled Entities should be treated for the purposes of this Policy and applicable securities laws as if they were for your own account. **4** The Policy Regarding Trading **and Other Actions** While in Possession of Material Nonpublic Information does not apply in the case of the following transactions, except as specifically noted: Restricted Stock Unit Awards. The Policy does not apply to the vesting **or settlement** of restricted stock units, or the exercise of a tax withholding right pursuant to which you elect to have the Company withhold shares of stock to satisfy tax withholding requirements upon the vesting **or settlement** of any restricted stock unit. Stock Option Exercises. The Policy does not apply to the exercise of an employee stock option acquired pursuant to the Company' s plans, or to the exercise of a tax withholding right pursuant to which a person has elected to have the Company withhold shares subject to an option to satisfy tax withholding requirements. The Policy does apply, however, to any sale of stock as part of a broker- assisted cashless exercise of an option, or any other market sale for the purpose of generating the cash needed to pay the exercise price of an option. ~~•~~ Dividend Reinvestment. The Policy does not apply to the automatic reinvestment of dividends in: (1) restricted share unit accounts under the Restricted Stock Unit Agreements for non- employee directors; or (2) phantom share accounts under the Deferred Compensation Plan for Non- Employee Directors. ~~•~~ Transactions in mutual funds that are invested in Company Securities are not transactions subject to the Policy. ~~•~~ Bona fide gifts of securities are subject to the Policy Regarding Trading **and Other Actions** While in Possession of Material Nonpublic Information. Moreover, if the recipient is described under the heading " Transactions by Family Members and Others " or " Transactions by Entities that You Influence or Control, " the recipient is subject to this Policy for a subsequent transaction involving the Company Securities received in the gift. ~~Gifts of Company Securities to certain charities, such as donor- advised funds, that the director or employee (or any other person subject to this Policy) knows is likely to sell such securities promptly upon receipt will be subject to this Policy.~~ Window Period Policy and Pre- Clearance Quarterly Window Period Policy Directors, officers and other persons designated by the Legal Department as subject to this restriction, as well as their Family Members or Controlled Entities (collectively, " Persons Subject to the Window Period Policy "), may not conduct any transactions involving the Company' s Securities (other than as specified by this Policy), during a **5** · Blackout Period " beginning on the eleventh business day of the last month of the quarter and continuing through the first business day following the date of the public release of the Company' s earnings results for that quarter. In other words, these persons may only conduct transactions in Company Securities during the " Window Period " beginning on the second business day following the public release of the Company' s quarterly earnings and ending on the tenth business day of the last month of the quarter. Any transactions during the Window Period still must comply with the Policy Regarding Trading **and Other Actions** While in Possession of Material Nonpublic Information. Event- Specific Trading Restriction Periods From time to time, an event may occur that is material to the Company and is known by only a few directors and / or employees. So long as the event remains material and nonpublic, the persons designated by the Legal Department may not trade Company Securities. In addition, the Company' s financial results may be sufficiently material in a particular fiscal quarter that, in the judgment of the General Counsel, designated persons should refrain from trading in Company Securities even sooner than the typical Blackout Period described above. In these situations, the Legal Department may notify these persons that they should not trade in the Company' s Securities, without disclosing the reason for the restriction. The existence of an event- specific trading restriction period or extension of a Blackout Period will not be announced to the Company as a whole, and should not be communicated to any other person. Even if the Legal Department has not designated you as a person who should not trade due to an event- specific restriction, you should not trade while aware of material nonpublic information. Exceptions will not be granted during an event- specific trading restriction period. The quarterly trading restrictions and event- specific trading restrictions do not apply to those transactions to which this Policy does not apply, as described above under the headings " Transactions Under Company Plans " and " Transactions Not Involving a Purchase or Sale. " Pre- Clearance Procedures Persons Subject to the Window Period Policy may not engage in any transaction in Company Securities without first obtaining pre- clearance of the transaction from MGIC' s General Counsel or Securities Law Counsel. A request for pre- clearance should be submitted at least two business days in advance of the proposed transaction. Such officers are under no obligation to approve a transaction submitted for pre- clearance, and may determine not to permit the transaction. If a person seeks pre- clearance and permission to engage in the transaction is denied, then he or she should refrain from **6** initiating any transaction in Company Securities, and should not inform any other person of the denial. When a request for pre- clearance is made, the requestor should carefully consider whether he or she may be aware of any material nonpublic information about the Company, and should describe fully those circumstances to MGIC' s General Counsel or Securities Law Counsel as applicable. Pre- cleared trades must be settled within five business days of receipt of pre- clearance. Transactions not settled within the time limit are subject to pre- clearance again. Post- Termination Transactions The Policies discussed above continue to apply to transactions in Company Securities even after termination of service to the Company. If an individual is in possession of material nonpublic information when his or her service terminates, that individual may not trade in Company Securities until that information has become public or is no longer material. The pre- clearance procedures specified above, however, will cease to apply to transactions in Company Securities upon the expiration of any Blackout Period or other Company- imposed trading restrictions applicable at the time of the termination of service. Policy Regarding Rule 10b5- 1 Plans ~~Persons Subject to the Window Period Policy may not enter into Rule 10b5- 1 Plans. Other employees may enter into Rule 10b5- 1 Plans subject to this Policy.~~ Rule 10b5- 1 of the Securities Exchange Act of 1934 provides an affirmative defense from insider trading liability under Rule 10b- 5. In order to be eligible to rely on this defense, a person must enter into a Rule 10b5 ~~•~~ · 1 plan for transactions in Company Securities that meets certain conditions specified in the Rule (a " Rule 10b5- 1 Plan "). If the plan meets the requirements of Rule 10b5- 1, Company Securities may be purchased or sold without regard to certain insider trading restrictions. To comply with the Policy, **the adoption of** a Rule 10b5- 1 Plan must be approved by the General ~~Counsel~~ **Counsel1** and meet the requirements of Rule 10b5- 1. ~~In~~ **A subsequent modification or termination of an existing Rule 10b5- 1 Plan must also be approved by the** ~~general~~ **General Counsel. Requests for approval must be submitted ten business days prior to the entry into, or modification or termination of** a **Rule 10b5- 1 Plan. If the General Counsel approves the adoption of a Rule 10b5- 1 Plan no further pre- approval of transactions conducted pursuant to the Rule 10b5- 1 Plan will be required. 1 Adoption of a Rule 10b5- 1 Plan by the Chief Executive Officer must be approved by the General Counsel and outside legal counsel must confirm in writing (which may be by e- mail) that the Rule 10b5- 1 Plan complies with this Policy. Adoption of a Rule 10b5- 1 Plan by the General Counsel must be approved by the Chief Executive Officer and outside legal counsel must confirm in writing (which may be by e- mail) that the Rule 10b5- 1 Plan complies with this Policy. 7 No Rule 10b5- 1 Plan will be approved by the General Counsel unless it complies with the following conditions: The** Rule 10b5- 1 Plan must be ~~entered into~~ **adopted during a Window Period and** at a time when the person **or entity** entering into the ~~plan~~ **Plan** is not aware of **any** material nonpublic information **;** ~~. Once the Rule 10b5- 1 Plan is adopted, the person must not exercise any influence over the amount of securities to be traded, the price at which they are to be traded or the date of the trade.~~ The Rule 10b5- 1 Plan must either **: (i)** specify the amount, pricing **,** and timing of transactions in advance **; (ii) include a written formula** or **algorithm, or computer program, for determining the amount to be purchased or sold and the price at which and the date on which sale or purchase is to take place; or (iii)** delegate discretion on these matters to an independent third party ~~. Any~~ **; Following adoption of a Rule 10b5- 1 Plan, the person or entity adopting such plan may not exercise any influence over the amount of Company Securities to be traded, the price at which they are to be traded, or the trading date (s); The** Rule 10b5- 1 Plan must **include a cooling- off period between the date of adoption and the date of the initial transaction under the Plan o For directors and officers who are required to file reports under Section 16 (a) of the Securities Exchange Act of 1934, as amended (collectively, " Section 16 Filers "), the cooling off period shall** be ~~submitted~~ **the greater of (i) 90 days;** ~~for~~ **or** ~~approval five~~ **(ii) two** business days ~~prior to~~ **following disclosure of** the ~~entry~~ **Company' s financial results in a**

Form 10- Q or 10- K for the fiscal quarter in which the Rule 10b5- 1 trading plan was adopted o For all others, the cooling off period shall be no less than 30 days o Regardless of the applicable minimum cooling off period, no Rule 10b5- 1 Plan shall have a cooling off period of longer than 120 days o If a Rule 10b5- 1 Plan is modified, a new cooling off period must be observed before trades are reinstated Overlapping Rule 10b5- 1 Plans are prohibited except in limited circumstances and only as pre- approved by MGIC' s General Counsel; An individual or entity may adopt only one single- trade Rule 10b5- 1 Plan during any 12- month period except in limited circumstances and only as pre- approved by MGIC' s General Counsel; The person or entity entering into the Rule 10b5- 1 Plan ~~. No further pre- approval~~ **must provide a written representation certifying to the Company that at the time** of **entering into the plan the person or entity entering into the Plan is not aware of any material nonpublic information about the Company or Company Securities, and is adopting the plan 8 in good faith and not as part of a plan or scheme to evade the prohibitions of Rule 10b5- 1; Section 16 Filers must report to the General Counsel or Securities Law Counsel any** ~~transactions~~ **transaction** ~~conducted~~ **in Company Securities** pursuant to ~~the a~~ Rule 10b5- 1 Plan ~~will~~ **immediately after carrying out the transaction; Following the adoption of a Rule 10b5- 1 Plan, individuals or entities subject to this Policy may not make open- market purchases or sales of Company Securities until the termination or expiration of such Plan; Transactions of types that are otherwise prohibited by this Policy, including, among others, short sales and hedging transactions, may not** be **carried out through a Rule 10b5- 1 Trading Plan; and A Rule 10b5- 1 Plan must comply with any other applicable legal requirements and Rule 10b5- 1. The Company is** required **to disclose the adoption, modification, and termination of Rule 10b5- 1 Plans and certain other pre- set trading arrangements by Section 16 Filers in its periodic SEC reports on Form 10- K and Form 10- Q** . Pledging Policy Persons Subject to the Window Policy may not hold Company securities in a margin account or pledge Company securities as collateral for a loan. A " margin account " is a brokerage account in which the broker lends the customer cash to purchase securities. The loan in the account is collateralized by the securities and cash. Securities held in a margin account may be sold by the broker without the customer' s consent if the customer fails to meet a margin call. Similarly, securities pledged as collateral for a loan may be sold if the borrower defaults on the loan. It would be problematic if such sales occurred at a time when the pledgor is aware of material nonpublic information or otherwise is not permitted to trade in Company securities. In addition, a sudden forced sale of a significant amount of company stock may negatively impact the company' s stock price. Hedging Policy Persons Subject to the Window Policy may not engage in transactions that hedge or offset, or are designed to hedge or offset, any decrease in market value of the Company Securities. For purposes of this paragraph, Company Securities includes those as described above, as well as vested and unvested restricted stock units (whether cash- or stock- settled). Such hedging transactions would allow an individual to continue to own the underlying security without all of the risks and rewards of ownership. When that occurs, the individual may no longer have the same objectives as the Company' s other **9** shareholders. Examples of prohibited hedging transactions include forward sale contracts, equity swaps and credit default swaps relating to Company securities. A financial instrument that hedges general industry risk or whose underlying security is that of an unrelated company are not prohibited, provided the transaction is not entered into on the basis of material nonpublic information. Short Sales Persons Subject to the Policy may not engage in short sales of Company Securities (i. e., the sale of a security that the seller does not own). Such short sales may evidence an expectation on the part of the seller that the securities will decline in value, and therefore have the potential to signal to the market that the seller lacks confidence in the Company. Additionally, short sales may reduce a seller' s incentive to improve the Company' s performance. Policy Regarding Transactions in Publicly- Traded Options Given the relatively short term of publicly- traded options, transactions in options related to Company Securities may create the appearance that a director or employee is trading based on material nonpublic information and focus a director' s or other employee' s attention on short- term performance at the expense of the Company' s long- term objectives. Accordingly, transactions in put options, call options or other derivative securities related to Company Securities, on an exchange or in any other organized market, are prohibited. Company Stock Repurchase Plans Persons Subject to the Window Period Policy may not **adopt, terminate or modify any Rule 10b5- 1 Plan or** conduct any transactions involving the Company' s Securities (other than as **part of a previously adopted Rule 10b5- 1 Plan or as otherwise** specified by this Policy) within four (4) business days before or after the announcement of a Company stock repurchase plan. CONTACT INFORMATION FOR QUESTIONS Please contact MGIC' s General Counsel or Securities Law Counsel if you have any questions regarding this Policy. MONITORING AND ENFORCEMENT The purchase or sale of securities while aware of material nonpublic information, or the disclosure of material nonpublic information to others who then trade in the Company' s **10** Securities, is prohibited by federal and state securities laws. Insider trading violations are pursued vigorously by the SEC, U. S. Attorneys and state enforcement authorities. Punishment for insider trading violations is severe, and could include significant fines and imprisonment. While the regulatory authorities concentrate their efforts on the individuals who trade, or who tip material nonpublic information to others who trade, the federal securities laws also impose potential liability on companies and other " controlling persons " if they fail to take reasonable steps to prevent insider trading by company personnel. In addition, an individual' s failure to comply with this Policy may subject the individual to Company- imposed disciplinary action, including dismissal for cause, whether or not the employee' s failure to comply results in a violation of law. Based on my knowledge, this annual report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this annual report; 3. Based on my knowledge, the financial statements, and other financial information included in this annual report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this annual report; 4. The registrant' s other certifying officer (s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a- 15 (e) and 15d- 15 (e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a- 15 (f) and 15d- 15 (f)) for the registrant and have: ~~(~~ a ~~)~~ **.** Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this annual report is being prepared; ~~(~~ b ~~)~~ **.** Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles; ~~(~~ c ~~)~~ **.** Evaluated the effectiveness of the registrant' s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and ~~(~~ d ~~)~~ **.** Disclosed in this report any change in the registrant' s internal control over financial reporting that occurred during the registrant' s most recent fiscal quarter (the registrant' s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant' s internal control over financial reporting; and 5. The registrant' s other certifying officer (s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant' s auditors and the audit committee of the registrant' s board of directors (or persons performing the equivalent functions): ~~(~~ a ~~)~~ **.** all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant' s ability to record, process, summarize and report financial information; and ~~(~~ b ~~)~~ **.** any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant' s internal control over financial reporting. Date: February ~~21~~ **26** , ~~2024~~ **2025** / s / Timothy J. MattkeTimothy J. MattkeChief Executive Officer (Principal Executive Officer) Exhibit 31. 2 I, Nathaniel H. Colson, certify that: / s / Nathaniel H. ColsonNathaniel H. ColsonChief Financial **Officer and Chief Risk** Officer (Principal Financial Officer) SECTION 1350 CERTIFICATIONS The undersigned, Timothy J. Mattke, Chief Executive Officer of MGIC Investment Corporation (the " Company "), and Nathaniel H. Colson, Chief Financial Officer of the Company, certify, pursuant to Section 906 of the Sarbanes- Oxley Act of 2002, 18 U. S. C. Section 1350, that to our knowledge: (1) the Annual Report on Form 10- K of the Company for the year ended December 31, ~~2023~~ **2024** (the " Report ") fully complies with the requirements of Section 13 (a) or 15 (d) of the Securities Exchange Act of 1934; and (2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company. Date: February ~~21~~ **26** , ~~2024~~ **2025** / s / Nathaniel H. ColsonNathaniel H. ColsonChief Financial Officer **and Chief Risk Officer** Exhibit 97 ~~Purpose of Policy~~ MGIC Investment Corporation and its subsidiaries (collectively referred to as the " Company ") have adopted this compensation clawback policy (the " Policy ") to comply with Section 954 of the Dodd- Frank Wall Street Reform and Consumer Protection Act of 2010, as codified by Section 10D of the Securities Exchange Act of 1934 (the " Act ") and the related listing rules of the New York Stock Exchange (the " NYSE "). The Act and the NYSE rules are incorporated herein and made a part of this Policy. To the extent that this Policy is in any manner deemed inconsistent with the Act or NYSE rules, this Policy shall be treated as retroactively amended to be compliant. The purpose of the Policy is to establish the terms under which the Company may recover certain forms of Incentive- Based Compensation **and Service- Based Compensation** from Executive Officers in the event of an accounting restatement resulting from material noncompliance with any financial reporting requirement under federal securities laws. ~~Policy Statement~~ In the event the Company is required to prepare a Financial Restatement, the Company shall, as promptly as it reasonably can, recover any Incentive- Based Compensation received by an Executive Officer during the three completed fiscal years immediately preceding the Restatement Date, so long as the Incentive- Based Compensation received by such Executive Officer is in excess of what would have been awarded or vested after giving effect to the Restatement, and any such Incentive- Based Compensation that has not yet been paid to an Executive Officer will be automatically and immediately forfeited. For purposes of this Policy, Incentive- Based Compensation shall be deemed to have been " received " during the fiscal period in which the Financial Reporting Measure specified in the award is attained, even if such Incentive- Based Compensation vests, is paid or granted after the end of such fiscal period. Notwithstanding the foregoing, the Policy shall only apply if the Incentive- Based Compensation **or Service- Based Compensation** is received on or after October 2, 2023. The amount to be recovered shall be the Excess Compensation. In the event the amount of Excess Compensation is not subject to mathematical recalculation directly from the information in ~~an accounting~~ **a Financial** ~~restatement~~ **Restatement** , the amount will be based on a reasonable estimate of the effect of the ~~accounting~~ **Financial** ~~restatement~~ **Restatement** . ~~The~~ **In the event that the requirement to recover Incentive- Based Compensation is triggered under this Policy, the** Management Development, Nominating and Governance Committee (the " Committee ") shall **have discretion to seek to recover Service- Based Compensation from an Executive Officer if such compensation was received during the fiscal period to which the Financial Reporting Measure applies. For purposes of this Policy, Service- Based Compensation shall be deemed to have been " received " during the fiscal period in which the time- based or service- based requirements to earn the Service- Based Compensation are satisfied, even if it is paid after such fiscal period. In exercising its discretion to seek to recover Service- Based Compensation, the Committee may take into account such considerations as it deems appropriate, including, without limitation, whether the Financial Restatement was caused or contributed to by the fraud, willful misconduct or gross negligence of the Executive Officer and whether recovery would prejudice the interests of the Company in any related proceeding or investigation. The Committee shall** determine, in its sole discretion, the amount and method of recovering any Incentive ~~-~~ **- Based Compensation and / or Service** - Based Compensation pursuant to this Policy. Notwithstanding anything to the contrary in any other policy of the Company or any agreement between the Company and an Executive Officer, no Executive Officer shall be indemnified by the Company **: (a)** against the repayment of any ~~Excess Compensation~~ **compensation** ~~as required~~ hereunder ~~,~~ **;** ~~nor~~ **or** ~~shall~~ **(b)** any **claims relating to the Company' s enforcement of its rights under this Policy. No** Executive Officer **shall** receive any advancement of expenses for disputes related to any loss of compensation by such Executive Officer in accordance with this Policy, or be paid or reimbursed by the Company for any premiums paid for any third- party insurance policy covering potential recovery obligations under this Policy. For this purpose, the term " indemnification " includes any modification to current compensation arrangements or other means that would amount to de facto indemnification. ~~Scope and Applicability~~ This policy applies to all of the Company' s current and former Executive Officers. The Committee shall inform Executive Officers of this Policy and obtain their agreement to this Policy, which steps may constitute the inclusion of this Policy as an attachment to each Executive Officer' s equity award agreement. Decisions of the Committee with respect to this Policy shall be final, conclusive ~~,~~ and binding on all Executive Officers subject to this Policy. No recovery shall be required if and to the extent the Committee determines that the conditions of ~~Rule~~ **NYSE Listed Company Manual Section** 303A. 14 (c) (1) (iv) have been met and that recovery would be impracticable. This Policy shall be effective as of the date it is adopted by the Committee and shall apply to Incentive- Based Compensation **and Service- Based Compensation** that is " received " by or otherwise approved, awarded, or granted to Executive Officers on or after October 2, 2023 **. DEFINITIONS** A current or former employee of the Company who was a Section 16 Filer during the performance period applicable to the Incentive- ~~based~~ **Based Compensation in question or during the period of time or service applicable to the Service- Based** Compensation in question, regardless of whether such employee ceased to be a Section 16 Filer thereafter. Subsequent changes in an Executive Officer' s employment status, including retirement or termination of employment, do not affect the Company' s rights to recover Incentive- Based Compensation **or Service- Based Compensation** pursuant to this Policy ~~. A person who is required to file reports under Section 16 (a) of the Securities Exchange Act of 1934, as amended, as such requirement to so file is in effect at each Restatement Date~~ . The excess of the Incentive- Based Compensation ~~paid to~~ **received by** the Executive Officer based on the erroneous data in financial statements over the Incentive- Based Compensation that would have been ~~paid to~~ **received by** the Executive Officer had it been based on the restated results, without respect to any taxes paid. Any measure that is determined and presented in accordance with the accounting principles used in preparing the Company' s financial

statements, and any measures that are derived wholly or in part from such measures. Stock price and total shareholder return are also Financial Reporting Measures. A Financial Reporting Measure need not be presented within the financial statements or included in the Company' s filings with the Securities and Exchange Commission. For the avoidance of doubt, Incentive- Based Compensation does not include annual salary, compensation awarded solely based on completion of a specified period of service, or compensation awarded based on subjective standards, strategic measures, or operational measures. Any ~~compensation that is granted, earned, or vested based wholly or in part upon the attainment of a Financial Reporting Measure. Any~~ required accounting restatement of the Company' s financial statements due to material noncompliance with any financial reporting requirement under the federal securities laws, including any required accounting restatement to correct an error in previously issued financial statements that is material to the previously issued financial statements, or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period. Changes to the Company' s financial statements that do not represent error corrections under the then- current relevant accounting standards will not constitute a Financial Restatement **. Incentive- based Compensation Any compensation that is granted, earned, or vested based wholly or in part upon the attainment of a Financial Reporting Measure** . The earlier of (i) the date the board of directors, a board committee, or officer (s) (to the extent such officers are authorized to take such action if board action is not required), conclude, or reasonably should have concluded, that the Company is required to prepare an accounting restatement due to the material noncompliance of the issuer with any financial reporting requirement under federal securities laws or (ii) the date a court, regulator, or other legally authorized body directs the Company to prepare an accounting restatement. ~~Contact Information for Questions~~ **A person who is required to file reports as an officer under Section 16 (a) of the Securities Exchange Act of 1934. Service- Based Compensation Service- based Compensation Any equity awards that are granted, earned,** ~~or Help~~ **vested based wholly upon the satisfaction of time- based or service- based requirements. For the avoidance of doubt, Service- Based Compensation does not include Incentive- Based Compensation, base salary, benefits payable under Company retirement plans or any other compensation to the extent application of this Policy to such other compensation is prohibited by applicable law. CONTACT INFORMATION FOR QUESTIONS OR HELP** Questions can be directed to either: ~~•~~General Counsel ~~•~~ **;** Securities Law Counsel ~~•~~ **;** MGIC' s Chief Compliance Officer; or ~~•~~The Legal Department ~~Monitoring and Enforcement~~ The interpretation of the Policy and all computations under it shall be made by the Committee and shall not be reviewable or subject to review by any other person. Compliance with this policy will be monitored through various means, including periodic audits which may be performed by the Legal / Compliance Department or the Internal Audit Department. All co- workers are required to cooperate fully with such audits and to provide truthful and accurate information. Methods for Reporting Complaints Complaints can be reported in any of the following methods: ~~•~~ Compliance Hotline ~~•~~Immediate supervisor, who shall advise the Chief Compliance Officer ~~•~~Chief Compliance Officer ~~•~~Senior Vice President of Human Resources ~~•~~Vice President of Internal Audit MGIC Compliance Hotline The Compliance Hotline is a toll- free phone line and website operated by an outside, independent service provider that is available 24 hours a day, 365 days a year. Information on how to access the Compliance Hotline, via phone or URL, can be found on The Max or in the Code of Conduct and Ethics. The purpose of the hotline is to provide co- workers, investors, customers, suppliers, and others a mechanism to report concerns or allegations regarding accounting matters, internal controls, auditing matters, fraud, or violations of laws, regulations, or the Code of Conduct and Ethics. Complaints can be made anonymously, and the confidentiality of complaints will be maintained to the extent possible. The Compliance Hotline provides complaints to the Audit Committee Chairperson, General Counsel, Chief Compliance Officer, Vice President of Internal Audit and Vice President, Assistant General Counsel. ~~Approval~~ **APPROVAL** Last approved **1 / 28 / 2025 =. Cash includes, but is not limited to, currency on hand, demand deposits with banks or financial institutions, and other accounts with general characteristics of demand deposits. Cash equivalents include, but are not limited to,

short- term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > References < / a > < div style =" display: none;" > < p > Reference 1: http: / / www. xbrl. org / 2003 / role / disclosureRef < br >- Topic 210 < br >- SubTopic 10 < br >- Name Accounting Standards Codification < br >- Section S99 < br >- Paragraph 1 < br >- Subparagraph (SX 210. 5- 02 (1)) < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / 1943274 / 2147480566 / 210- 10- S99- 1 < br > < br > Reference 2: http: / / www. xbrl. org / 2003 / role / disclosureRef < br >- Topic 944 < br >- SubTopic 210 < br >- Name Accounting Standards Codification < br >- Section S99 < br >- Paragraph 1 < br >- Subparagraph (SX 210. 7- 03 (a) (2)) < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / 1943274 / 2147478777 / 944- 210- S99- 1 < br > < br > Reference 3: http: / / www. xbrl. org / 2003 / role / disclosureRef < br >- Topic 230 < br >- SubTopic 10 < br >- Name Accounting Standards Codification < br >- Section 50 < br >- Paragraph 8 < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / 1943274 / 2147482913 / 230- 10- 50- 8 < br > < br > Reference 4: http: / / fasb. org / us- gaap / role / ref / legacyRef < br >- Topic 942 < br >- SubTopic 210 < br >- Name Accounting Standards Codification < br >- Section S99 < br >- Paragraph 1 < br >- Subparagraph (SX 210. 9- 03 (1) (a)) < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / 1943274 / 2147478546 / 942- 210- S99- 1 < br > < br > Reference 5: http: / / fasb. org / us- gaap / role / ref / legacyRef < br >- Name Accounting Standards Codification < br >- Topic 230 < br >- SubTopic 10 < br >- Section 45 < br >- Paragraph 4 < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / 1943274 / 2147482740 / 230- 10- 45- 4 < br > < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details < / a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: < / strong > < / td > < td style =" white- space: nowrap;" > us- gaap_RestrictedCashAndCashEquivalents < / td > < / tr > < tr > < td style =" padding- right: 4px; Excludes amount for disposal group and discontinued operations. Cash includes, but is not limited to, currency on hand, demand deposits with banks or financial institutions, and other accounts with general characteristics of demand deposits. Cash equivalents include, but are not limited to, short- term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > References < / a > < div style =" display: none;" > < p > Reference 1: http: / / www. xbrl. org / 2003 / role / disclosureRef < br >- Topic 230 < br >- SubTopic 10 < br >- Name Accounting Standards Codification < br >- Section 50 < br >- Paragraph 8 < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / 1943274 / 2147482913 / 230- 10- 50- 8 < br > < br > Reference 2: http: / / fasb. org / us- gaap / role / ref / legacyRef < br >- Topic 230 < br >- SubTopic 10 < br >- Name Accounting Standards Codification < br >- Section 45 < br >- Paragraph 24 < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / 1943274 / 2147482740 / 230- 10- 45- 24 < br > < br > Reference 3: http: / / fasb. org / us- gaap / role / ref / legacyRef < br >- Name Accounting Standards Codification < br >- Topic 230 < br >- SubTopic 10 < br >- Section 45 < br >- Paragraph 4 < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / 1943274 / 2147482740 / 230- 10- 45- 4 < br > < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details < / a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: < / strong > < / td > < td style =" white- space: nowrap;" > us- gaap_CashCashEquivalentsRestrictedCashAndRestrictedCashEquivalents < / td > < / tr > < tr > < td style =" padding- right: 4px; white- space: nowrap;" > < strong > Namespace Prefix: < / strong > < / td > < td > us- gaap_ < / td > < / tr > < tr > < td > < strong > Data Type: < / strong > < / td > < td > xbrli: monetaryItemType < / td > < / tr > < tr > < td >

font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > MGIC Investment Corporation is a holding company which, through Mortgage Guaranty Insurance Corporation (" MGIC"), is principally engaged in the mortgage insurance business. We provide mortgage insurance to lenders throughout the United States and to government sponsored entities to protect against loss from defaults on low down payment residential mortgage loans. Primary mortgage insurance provides mortgage default protection on individual loans and covers a percentage of the unpaid loan principal, delinquent interest and certain expenses associated with the default and subsequent foreclosure or sale approved by us, of the underlying property. MGIC Assurance Corporation (" MAC") and MGIC Indemnity Corporation (" MIC"), insurance subsidiaries of MGIC, provide insurance for certain mortgages under Fannie Mae

and Freddie Mac (the" GSEs") credit risk transfer programs. We operate as a single segment for the purposes of evaluating financial performance and allocating resources. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > At December & # 160; 31, 2024, our direct primary insurance in force (" IIF") was $ 295. 4 billion, which represents the unpaid principal balance, either estimated by us or reported to us by mortgage servicers, for the loans we insure, and our direct primary risk in force (" RIF") was $ 78. 8 billion, which represents the IIF multiplied by the insurance coverage percentage. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > The substantial majority of our new insurance written (" NIW") is for loans purchased by the GSEs. The current private mortgage insurer eligibility requirements (" PMIERs") of the GSEs include financial requirements, as well as business, quality control and certain transactional approval requirements. The financial requirements of the PMIERs require a mortgage insurer & # 8217; s" Available Assets" (generally only the most liquid assets of an insurer) to equal or exceed its" Minimum Required Assets" (which are based on an insurer' s book of risk in force, calculated from tables of factors with several risk dimensions). Based on our application of the PMIERs, as of December & # 160; 31, 2024, MGIC & # 8217; s Available Assets are in excess of its Minimum Required Assets, and MGIC is in compliance with the PMIERs and eligible to insure loans purchased by the GSEs. < / span > < / div > < span > < / span > < / td > < / tr > < / table > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" class =" authRefData" style =" display: none;" id =" defref_mtg_NatureOfBusinessAbstract" > < tr > < td class =" hide" > < a style =" color: white;" href =" javascript: void (0);" onclick =" Show. hideAR ();" > X < / a > < / td > < / tr > < tr > < td > < div class =" body" style =" padding: 2px;" > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" >- References < / a > < div > < p > No definition available. < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details < / a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: < / strong > < / td > < td style =" white- space: nowrap;" > mtg_NatureOfBusinessAbstract < / td > < / tr > < tr > < td style =" padding- right: 4px; white- space: nowrap;" > < strong > Namespace Prefix: < / strong > < / td > < td > mtg_ < / td > < / tr > < tr > < td > < strong > Data Type: < / strong > < / td > < td > xbrli: stringItemType < / td > < / tr > < tr > < td > < strong > Balance Type: < / strong > < / td > < td > na < / td > < / tr > < tr > < td > < strong > Period Type: < / strong > < / td > < td > duration < / td > < / tr > < / table > < / div > < / div > < / td > < / tr > < / table > < table border =" 0" cellpadding =" 0" cellspacing =" 0" class =" authRefData" style =" display: none;" id =" defref_us-gaap_NatureOfOperations" > < tr > < td class =" hide" > < a style =" color: white;" href =" javascript: void (0);" onclick =" Show. hideAR ();" > X < / a > < / td > < / tr > < tr > < td > < div class =" body" style =" padding: 2px;" > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" >- Definition < / a > < div > < p > The entire disclosure for the nature of an entity' s business, major products or services, principal markets including location, and the relative importance of its operations in each business and the basis for the determination, including but not limited to, assets, revenues, or earnings. Our financial instruments carried at fair value are predominantly measured on a recurring basis. Financial instruments measured on a nonrecurring basis are subject to fair value adjustments only in certain circumstances (for example, when there is evidence of impairment). < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > The fair value of an asset or liability is defined as the price that would be received upon a sale of an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Fair value is based on quoted market prices or inputs, where available. If prices or quotes are not available, fair value is based on valuation models or other valuation techniques that consider relevant transaction characteristics (such as maturity) and use as inputs observable or unobservable market parameters including yield curves, interest rates, volatilities, equity or debt prices, and credit curves. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value, as described below. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > As of December & # 160; 31, 2024 and 2023, we did not elect to measure any financial instruments acquired, or issued, such as our outstanding debt obligations, at fair value for which the primary basis of accounting is not fair value. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 003a5d; font- family:' Roboto', sans- serif; font- size: 9pt; font- style: italic; font- weight: 400; line- height: 120 %" > Valuation

process < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > We use independent pricing sources to determine the fair value of a substantial majority of our financial instruments, which primarily consist of assets in our investment portfolio, but also includes cash and cash equivalents and restricted cash and cash equivalents. A variety of inputs are used; in approximate order of priority, they are benchmark yields, reported trades, broker / dealer quotes, issuer spreads, bids, offers, and reference data including market research publications. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > Market indicators, industry, and economic events are also considered. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > The inputs listed above are evaluated using a multidimensional pricing model. This model combines all inputs to arrive at a value assigned to each security. Quality controls are performed by the independent pricing sources throughout this process, which include reviewing tolerance reports, trading information, data changes, and directional moves compared to market moves. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > On a quarterly basis, we perform quality controls over values received from the pricing sources which also include reviewing tolerance reports, data changes, and directional moves compared to market moves. We have not made any adjustments to the prices obtained from the independent pricing sources. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 003a5d; font- family:' Roboto', sans- serif; font- size: 9pt; font- style: italic; font- weight: 400; line- height: 120 %" > Valuation hierarchy < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > A three- level valuation hierarchy has been established under GAAP for disclosure of fair value measurements. The valuation hierarchy is based on the transparency of inputs to the valuation of a financial instrument as of the measurement date. To determine the fair value of securities available- for- sale in Level 1 and Level 2 of the fair value hierarchy, independent pricing sources, as described below, have been utilized. One price is provided per security based on observable market data. To ensure securities are appropriately classified in the fair value hierarchy, we review the pricing techniques and methodologies of the independent pricing sources and believe that their policies adequately consider market activity, either based on specific transactions for the issue valued or based on modeling of securities with similar credit quality, duration, yield and structure that were recently traded. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > The three levels are defined as follows: < / span > < / div > < div style =" text- align: justify" > < table style =" border- collapse: collapse; display: inline- table; margin- bottom: 5pt; vertical- align: text- bottom; width: 100. 000 %" > < tr > < td style =" width: 0. 1 %" > < / td > < td style =" width: 2. 438 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 1. 0 %" > < / td > < td style =" width: 4. 872 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 1. 0 %" > < / td > < td style =" width: 90. 290 %" > < / td > < td style =" width: 0. 1 %" > < / td > < / tr > < tr > < td colspan =" 3" style =" border- bottom: 0. 25pt solid # d0d0ce; border- top: 0. 25pt solid # d0d0ce; padding: 2px 1pt; text- align: left; vertical- align: top" > < span style =" color: # 0084ce; font- family:' Wingdings', sans- serif; font- size: 8pt; font- weight: 400; line- height: 100 %" > & # 232; < / span > < / td > < td colspan =" 3" style =" border- bottom: 0. 25pt solid # d0d0ce; border- top: 0. 25pt solid # d0d0ce; padding: 2px 1pt; text- align: left; vertical- align: top" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 8. 5pt; font- weight: 400; line- height: 100 %" > Level 1 < / span > < / td > < td colspan =" 3" style =" border- bottom: 0. 25pt solid # d0d0ce; border- top: 0. 25pt solid # d0d0ce; padding: 2px 1pt; text- align: justify; vertical- align: top" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 8. 5pt; font- weight: 400; line- height: 100 %" > Quoted prices for identical instruments in active markets that we can access. Premium deficiency reserves are established, if necessary, when the present value of expected future losses and LAE paid exceeds the present value of expected future premium, anticipated investment income, and already established loss reserves. & # 160; < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 003b5c; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 700; line- height: 120 %" > REVENUE RECOGNITION < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > We write policies which are guaranteed renewable at the insured' s option on a monthly, single, or annual premium basis. We have no ability to re- underwrite or reprice these policies. & # 160; Premiums written on monthly premium policies are earned as coverage is provided. Premiums written on single premium policies and annual premium policies are initially deferred as unearned premium reserve. & # 160; Premiums written on annual premium policies are earned on a monthly pro rata basis. & # 160; Premiums written on policies covering more than one year are amortized over the estimated policy life based on historical experience, which includes the anticipated incurred loss pattern. When a policy is cancelled for a reason other than rescission or claim payment, all premium that is non- refundable is immediately earned. Any refundable premium is returned to the servicer or borrower. When a policy is cancelled due to rescission, all previously collected premium is returned. When a policy is cancelled because a claim is paid, premium collected since the date of delinquency is returned. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > The liability associated with our estimate of premium to be returned is accrued for separately and included in" Other liabilities" on our consolidated balance sheets. Changes in this liability, and the actual return of premiums for all periods, affect premiums written and earned. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > We assess whether a credit loss allowance is required for our premium receivable. We consider collectability trends and industry development, among other things. Any estimated credit loss would be immediately recognized. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > Fee income of our non- insurance subsidiaries is earned and recognized as the services are provided and the customer is obligated to pay. Fee income consists primarily of contract underwriting and related fee- based services provided to lenders and is included in & # 8220; Other revenue & # 8221; on the consolidated statements of operations. < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 003b5c; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 700; line- height: 120 %" > INCOME TAXES < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > Deferred income taxes are provided under the liability method, which recognizes the future tax effects of temporary differences between amounts reported in the consolidated financial statements and the tax bases of these items. The estimated tax effects are computed at the enacted federal statutory income tax rate. & # 160; Changes in tax laws, rates, regulations, and policies or the final determination of tax audits or examinations, could materially affect our estimates and can be significant to our operating results. We evaluate the realizability of the deferred tax assets based on the weight of all available positive and negative evidence. Deferred tax assets are reduced by a valuation allowance if it is more likely than not that all or some portion of the deferred tax assets will not be realized. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > The recognition of a tax position is determined using a two- step approach. The first step applies a more- likely- than- not threshold for recognition and derecognition. The second step measures the tax position as the greatest amount of benefit that is cumulatively greater than 50 % likely to be realized. When evaluating a tax position for recognition and measurement, we presume that the tax position will be examined by the relevant taxing authority that has full knowledge of all relevant information. We recognize interest accrued and penalties related to unrecognized tax benefits in our provision for income taxes. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > Federal tax law permits mortgage guaranty insurance companies to deduct from taxable income, subject to certain limitations, the amounts added to contingency loss reserves that are recorded for regulatory purposes. The amounts we deduct must generally be included in taxable income in the tenth subsequent year. The deduction is allowed only to the extent that we purchase and hold U. S. government non- interest- bearing tax and loss bonds in an amount equal to the tax benefit attributable to the deduction. We account for these purchases as a payment of current federal income tax. (See < / span > < span style =" color: # 0000ff; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > < a href =" # i14b0fb854df64be4a32311dd76f19276_175" style =" color: # 0000ff; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %; text- decoration: none" >" Note 12- Income Taxes." < / a > < / span > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" >) < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 003b5c; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 700; line- height: 120 %" > BENEFIT PLANS < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > We have a non- contributory defined benefit pension plan, as well as a supplemental executive retirement plan, that covered eligible employees as of December 31, 2022, utilizing a cash balance formula. Effective January 1, 2023, these plans were frozen (no future benefits will be accrued for participants due to employment and no new participants will be added). Participants will continue to earn interest credits on their retirement benefits. We recognize the ongoing retirement benefit costs of these plans as they are incurred. Our policy is to fund pension costs as required under the Employee Retirement Income Security Act of 1974. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > We also offer benefits for retired domestic employees, their eligible spouses and dependents under a postretirement benefit plan. Participation in this plan is limited to eligible employees that participated in the defined benefit pension plan. Eligibility for coverage is based on meeting certain years of service and retirement age qualifications. We accrue the estimated costs of the retiree benefits over the period during which employees render the service that qualifies them for benefits. (See < / span > < span style =" color: # 0000ff; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > < a href =" # i14b0fb854df64be4a32311dd76f19276_172" style =" color: # 0000ff; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %; text- decoration: none" > Note 11 & # 8211; & # 8220; Benefit Plans. & # 8221; < / a > < / span > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" >) < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 003b5c; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 700; line- height: 120 %" > REINSURANCE < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:'

Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > We cede insurance risk through the use of quota share reinsurance transactions (" QSR") and excess of loss reinsurance transactions. We have excess of loss transactions executed through the traditional reinsurance market and with Home Re special purpose insurers. Premiums and losses incurred on our QSR Transactions are ceded pursuant to the terms of our reinsurance agreements. Reinsurance premiums ceded under our traditional reinsurance transactions are based off the remaining reinsured coverage levels. Reinsurance premiums ceded under our Home Re agreements are composed of coverage, initial expense and supplemental premiums. The coverage premiums are generally calculated as the difference between the amount of interest payable by the Home Re Entity on the remaining reinsurance coverage levels, and the investment income collected on the collateral assets held in the reinsurance trust account and used to collateralize the Home Re Entity' s reinsurance obligation to MGIC. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > Loss reserves are reported before taking credit for amounts ceded under reinsurance transactions. & # 160; Ceded loss reserves are reflected as" Reinsurance recoverable on loss reserves." & # 160; Amounts due from reinsurers on paid claims are reflected as & # 8220; Reinsurance recoverable on paid losses. & # 8221; Ceded premiums payable, net of ceding commission and profit commission are included in & # 8220; Other liabilities. & # 8221; Profit commissions are included with & # 8220; Premiums written & # 8211; Ceded & # 8221; and ceding commissions are included with & # 8220; Other underwriting and operating expenses, net. & # 8221; We remain liable for all insurance ceded. In assessing whether a credit allowance should be established, we consider several factors including, but not limited to, the credit ratings of individual reinsurers, investor reports for our Home Re Transactions, collateral held in trust accounts in which MGIC is the sole beneficiary, and aging of outstanding reinsurance recoverable balances. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > Assumed reinsurance is based on information received from the ceding company. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > See < / span > < span style =" color: # 0000ff; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %; text- decoration: none" > Note 9 & # 8211; & # 8220; Reinsurance < / a > < / span > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" >" for discussion of our variable interest entity (" VIE") policy on the Home Re Transactions. < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span > < br / > < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 003b5c; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 700; line- height: 120 %" > SHARE- BASED COMPENSATION < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > We have certain share- based compensation plans. Under the fair value method, compensation cost is measured at the grant date based on the fair value of the award and is recognized over the service period which generally corresponds to the vesting period. Awards under our plans generally vest over periods ranging from < span style ="- sec- ix- hidden: f- 401" > one < / span > to three years, although awards to our non- employee directors vest immediately. Any forfeitures of awards are recognized as they occur. (See < / span > < span style =" color: # 0000ff; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > < a href =" # i14b0fb854df64be4a32311dd76f19276_190" style =" color: # 0000ff; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %; text- decoration: none" > Note 15 & # 8211; & # 8220; Share- based Compensation Plans. & # 8221; < / a > < / span > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" >) < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 003b5c; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 700; line- height: 120 %" > EARNINGS PER SHARE < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > Basic earnings per share (" EPS") is calculated by dividing net income by the weighted average number of shares of common stock outstanding. Our" participating securities" are composed of vested restricted stock and restricted stock units (" RSUs") with non- forfeitable rights to dividends. Diluted EPS includes the components of basic EPS and also gives effect to dilutive common stock equivalents. We calculate diluted EPS using the treasury stock method and if- converted method. Under the treasury stock method, diluted EPS reflects the potential dilution that could occur if our unvested restricted stock units result in the issuance of common stock. Prior to our redemption of the outstanding principal on our 9 % debentures in 2023, we utilized the if- converted method, to calculate the potential dilution that could occur if our 9 % Debentures were converted to common stock. The determination of potentially issuable shares did not consider the satisfaction of the conversion requirements and the shares were included in the determination of diluted EPS as of the beginning of the period, if dilutive. For purposes of calculating basic and diluted EPS, vested RSUs are considered outstanding. In 2023, under the terms of our 9 % Debentures, we exercised our option to redeem the outstanding principal. (See < / span > < span style =" color: # 0000ff; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > < a href =" # i14b0fb854df64be4a32311dd76f19276_154" style =" color: # 0000ff; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %; text- decoration: none" > Note 7- & # 8220; Debt & # 8221; < / a > < / span > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" >.) < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 003b5c; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 700; line- height: 120 %" > RELATED PARTY TRANSACTIONS < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > In 2024, 2023, and 2022 there were no material related party transactions. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 003b5c; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 700; line- height: 120 %" > RECENT ACCOUNTING AND REPORTING DEVELOPMENTS < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > Accounting standards and laws and regulations effective in 2024 or early adopted, and relevant to our financial statements are described below: < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 0084ce; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > Segment Reporting & # 8212; Improvements to Reportable Segment Disclosures: ASU 2023- 07 < / span > < / div > < div style =" margin- bottom: 3pt; text- align: justify" > < span style =" color: # 000000; font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > In November 2023, the FASB issued ASU 2023- 07. The update expands annual and interim disclosure requirements for reportable segments, primarily through enhanced disclosures about significant segment expenses. The standard took effect for all public business entities for fiscal periods beginning after December 15, 2023, and interim periods beginning after December 31, 2024. The Company adopted ASU 2023- 07 during the year ended December 31, 2024. font- family:' Roboto', sans- serif; font- size: 9pt; font- weight: 400; line- height: 120 %" > Prior to our redemption of the outstanding principal on our 9 % debentures in 2023, we utilized the if- converted method to calculate the potential dilution that could occur if our 9 % Debentures were converted to common stock. Under this method, if dilutive, the common stock related to the outstanding 9 % Debentures was assumed to be issued as of the beginning of the reporting period and the related interest expense, net of tax, was added back to earnings in calculating diluted EPS. In 2023, under the terms of our 9 % Debentures, we exercised our option to redeem the outstanding principal.
