amended the Certificate of Designation of its redeemable senior preferred stock to transition the reference rate used for the calculation of dividends from LIBOR to SOFR. Under the Amended Certificate of Designation, the dividend rate (capped at 22.50%) will be equal to the three-month term SOFR (minimum of 1.00%), plus the three-month term SOFR spread adjustment of 0.26% plus the applicable margin of 12.00%. All other terms in the agreement were unchanged. For the three months ended December 31, 2023, SOFR is the reference rate for calculation of the dividend. The dividend rate is subject to future increases if the Company doesn't comply with the minimum cash payment requirements outlined in the agreement, which includes required payments of dividends, required payments related to redemption or required prepayments. The dividend rate may also increase if the Company fails to obtain the required stockholder approval for a forced sale transaction triggered by investors or if an event of default as outlined in the agreement occurs. The dividend rate as of December 31, 2023, and 2022 was 17.7% and 15.7% respectively. The 2018 Plan provided for the issuance of up to 6, 685, 696 of the Company' s Common Stock, and these shares were registered on a Form S- 8 during 2018. Under the 2018 Plan, the Company' s compensation committee may grant awards of non- qualified stock options, incentive

stock options, SARs, restricted stock awards, RSUs, other stock- based awards (including cash bonus awards) or any combination of the foregoing. Any current or prospective employees, officers, consultants or advisors that the Company' s compensation committee (or, in the case of non- employee directors, the Company' s Board of Directors) selects, from time to time, are eligible to receive awards under the 2018 Plan. If any award granted under the 2018 Plan expires, terminates, or is canceled or forfeited without being settled or exercised, or if a SAR is settled in cash or otherwise without the issuance of shares, shares of the Company' s Common Stock subject to such award will again be made available for future grants. In addition, if any shares are surrendered or tendered to pay the exercise price of an award or to satisfy withholding taxes owed, such shares will again be available for grants under the 2018 Plan. On March 17, 2022, the Company' s Board of Directors unanimously approved an amendment to the 2018 Plan which was subsequently approved by our shareholders, to increase the number of shares authorized for issuance under the plan by 2, 500, 000 shares, resulting in 9, 185, 696 shares of the Company' s Common Stock authorized for issuance under the plan. These additional shares were registered on Form S- 8 in December 2022. < / span > < / div > < div style =" margin- bottom: 12pt" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; The Company uses valuation techniques including discounted cash flow analysis based on cash flow projections and Monte Carlo simulations to estimate fair value based on projection period and assumed growth rates. A change in inputs in the valuation techniques used might result in a significantly higher or lower fair value measurement than what is reported. The current portion of contingent consideration is included in

accounts payable and accrued expenses on the Company' s Consolidated Balance Sheets and the noncurrent portion of contingent consideration is included in other noncurrent liabilities on the Company' s Consolidated Balance Sheets. < / span > < / div > < div style =" margin- bottom: 12pt" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Contingent consideration liabilities related to certain of the Company' s acquisitions are uncertain due to the utilization of unobservable inputs and management' s judgement in determining the likelihood of achieving the earn- out criteria or the years ended December & # 160; 31, 2023 and 2022. Part of these preferred units were later assigned to other related parties. In May 2021, the Company entered into an exchange agreement wherein these preferred units were exchanged for 1, 428, 358 equity shares and $ 814, 219 in cash. On October 31, 2023, a lawsuit was filed alleging that the Board breached its fiduciary duties by approving the transaction. The Company denied any wrongdoing. The lawsuit was settled on January 30, 2024, wherein the Company agreed to unwind the exchange transaction and pay $ 0. 4 million to settle all claims. The unwinding of this transaction does not meet the recognition criteria as of December 31, 2023, and therefore considered as non- recognized subsequent event. < / span > < / div > < span > < / span > < / td > < / tr > < / table > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" class =" authRefData" style =" display: none;" id =" defref_us- gaap_SubsequentEventsAbstract" > < tr > < td class =" hide" > < a style =" color: white;" href =" javascript: void (0);" onclick =" Show. hideAR ();" > X < / a > < / td > < / tr > < tr > < td > < div class =" body" style =" padding: 2px;" > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > - References < / a > < div > < p > No definition available. < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details < / a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: < / strong > < / td > < td style =" white- space: nowrap;" > us- gaap_SubsequentEventsAbstract < / td > < / tr > < tr > < td style =" padding- right: 4px; white- space: nowrap;" > < strong > Namespace Prefix: < / strong > < / td > < td > us- gaap_ < / td > < / tr > < tr > < td > < strong > Data Type: < / strong > < / td > < td > xbrli: stringItemType < / td > < / tr > < tr > < td > < strong > Balance Type: < / strong > < / td > < td > na < / td > < / tr > < tr > < td > < strong > Period Type: < / strong > < / td > < td > duration < / td > < / tr > < / table > < / div > < / div > < / td > < / tr > < table > < table border =" 0" cellpadding =" 0" cellspacing =" 0" class =" authRefData" style =" display: none;" id =" defref_us- gaap_SubsequentEventsTextBlock" > < tr > < td class =" hide" > < a style =" color: white;" href =" javascript: void (0);" onclick =" Show. hideAR ();" > X < / a > < / td > < / tr > < tr > < td > < div class =" body" style =" padding: 2px;" > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > - Definition < / a > < div > < p > The entire disclosure for significant events or transactions that occurred after the balance sheet date through the date the financial statements were issued or the date the financial statements were available to be issued. At contract inception, the Company assesses the services and goods promised in its contracts with customers and identifies the performance obligation for each promise to transfer a distinct good or service to the customer. Under the portfolio practical expedient, collectability is still assessed at the individual contract level when determining if a contract exists. When third parties are involved in the transfer of services or goods to the customer, the Company considers the nature of each specific promised service or good and applies judgment to determine whether the Company controls the service or good before it is transferred to the customer or whether the Company is acting as an agent of the third party. To determine whether the Company controls the service or good, it assesses indicators including: 1) which party is primarily responsible for fulfillment; 2) which party has discretion in determining pricing for the service or good; and 3) other considerations deemed to be applicable to the specific situation. Based on our assessment of these indicators, we have concluded that the promise to our customers to provide payment services is distinct from the services provided by the card issuing FIs and payment networks in connection with payment transactions. We do not have the ability to direct the use of and obtain substantially all of the benefits of the services provided by the card issuing FIs and payment networks before those services are transferred to our customer, and on that basis, we do not control those services prior to being transferred to our customer. Temporary equity is a security with redemption features that are outside the control of the issuer, is not classified as an asset or liability in conformity with GAAP, and is not mandatorily redeemable. Includes any type of security that is redeemable at a fixed or determinable price or on a fixed or determinable date or dates, is redeemable at the option of the holder, or has conditions for redemption which are not solely within the control of the issuer. If convertible, the issuer does not control the actions or events necessary to issue the maximum number of shares that could be required to be delivered under the conversion option if the holder exercises the option to convert the stock to another class of equity. If the security is a warrant or a rights issue, the warrant or rights issue is considered to be temporary equity if the issuer cannot demonstrate that it would be able to deliver upon the exercise of the option by the holder in all cases. Includes stock with put option held by ESOP and stock redeemable by holder only in the event of a change in control of the issuer. References Reference 1: http://fasb.org/us-gaap/role/ref/legacyRef
