material adverse effect on our business, financial condition, results of operations and cash flows. Not only could we suffer damage to our reputation in the event of a system outage or data loss, but we may also be liable to third parties. Many of our contractual agreements with FIs and certain other customers require the payment of penalties if we do not meet certain operating standards. Our systems and operations or those of our third- party providers could be exposed to damage or interruption from, among other things, fire, natural disaster, power loss or telecommunications failure. The payment processing industry is highly competitive and such competition is likely to increase, which may adversely influence the prices we can charge to merchants for our services and the compensation we must pay to our distribution partners, and as a result, our profit margins. The payment processing industry is highly competitive. We primarily compete in the SMB merchant **, B2B customer, and Enterprise** industry. We compete with FIs and their affiliates, independent payment processing companies and ISOs. We also compete with many of these same entities for production through distribution partners. Many of our distribution partners are not exclusive to us but also have relationships with our competitors, such that we have to continually expend resources to maintain those relationships. Our growth will depend on the continued growth of **banking services,** Electronic Payments, particularly Electronic Payments to SMB merchants, **B2B payments** and our ability to increase our market share through successful competitive efforts to gain new ~~merchants~~ **customers** and distribution partners. Additionally, many FIs and their subsidiaries or well- established payment- enabled technology providers with which we compete, have substantially greater capital, technological, management and marketing resources than we have. These factors may allow our competitors to offer better pricing terms to ~~merchants~~ **customers** and more attractive compensation to distribution partners, which could result in a loss of our potential or current ~~merchants~~ **customers** and distribution partners. Our current and future competitors may also develop or offer services that have price or other advantages over the services we provide. We also face new, well capitalized, competition from emerging technology and non-traditional payment processing companies as well as traditional companies offering alternative **banking services,** Electronic Payments services and payment- enabled software solutions. If these new entrants gain a greater share of total Electronic Payments transactions, they could impact our ability to retain and grow our relationships with ~~merchants~~ **customers** and distribution partners. ~~Acquirers may be susceptible to the adoption by the broader merchant community of payment- enabled software versus terminal based payments.~~ Increased ~~merchant,~~ **customer or** referral partner ~~or ISO~~ attrition could cause our financial results to decline. We experience attrition in ~~merchant~~ **customer** credit and debit card processing volume resulting from several factors, including business closures, transfers of ~~merchant~~ **customers** accounts to our competitors, unsuccessful contract renewal negotiations and account closures that we initiate for various reasons such as heightened credit risks or contract breaches by merchants. Our referral partners are a significant source of new business. If a referral partner ~~or an ISO~~ switches to another processor, terminates our services, internalizes payment processing that we perform, merges with or is acquired by one of our competitors, or shuts down or becomes insolvent, we may no longer receive new ~~merchant~~ **customers** referrals from such referral partner, and we risk losing existing merchants that were originally enrolled by the referral partner ~~or ISO~~. We cannot predict the level of attrition in the future and it could increase. Higher than expected attrition could negatively affect our results, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. Changes in card association and debit network fees or products could increase costs or otherwise limit our operations. From time to time, card associations and debit networks increase the organization and / or processing fees (known as interchange fees) that they charge. It is possible that competitive pressures will result in us absorbing a portion of such increases in the future, which would increase our operating costs, reduce our profit margin, and adversely affect our business, operating results, and financial condition. In addition, the various card associations and networks prescribe certain capital requirements. Any increase in the capital level required would further limit our use of capital for other purposes. Changes in payment network rules or standards could adversely affect our business, financial condition and results of operations. Payment network rules are established and changed from time to time by each payment network as they may determine in their sole discretion and with or without advance notice to their participants. The timelines imposed by the payment networks or ~~17sponsor~~ **18sponsor** banks for expected compliance with new rules have historically been, and may continue to be, highly compressed, requiring us to quickly implement changes to our systems which increases the risk of non- compliance with new standards or the reduction of certain types of merchant activity. In addition, the payment networks could make changes to interchange or other elements of the pricing structure of the merchant acquiring industry that would have a negative impact on our results of operations. To remain competitive and to continue to increase our revenues and earnings, we must continually update our products and services, a process which could result in increased costs and the loss of revenues, earnings, ~~merchants~~ **customers** and distribution partners if the new products and services do not perform as intended or are not accepted in the marketplace. The Electronic Payments industry in which we compete is subject to rapid technological changes and is characterized by new technology, product and service introductions, evolving industry standards, changing ~~merchant~~ **customer** needs and the entrance of non- traditional competitors. We are subject to the risk that our existing products and services become obsolete, and that we are unable to develop new products and services in response to industry demands. Our future success will depend in part on our ability to develop or adapt to technological changes and the evolving needs of our resellers, ~~merchants~~ **customers** and the industry at large. In addition, new products and offerings may not perform as intended or generate the business or revenue growth expected. Defects in our software and errors or delays in our processing of electronic transactions could result in additional development costs, diversion of technical and other resources from our other development efforts, loss of credibility with current or potential distribution partners and merchants, harm to our reputation, fines imposed by **regulatory agencies,** card networks, or exposure to liability claims. Any delay in the delivery of new products or services or the failure to differentiate our products and services could render them less desirable, or possibly even obsolete, to our merchants. Additionally, the market for alternative payment processing products and services is evolving, and we may develop too rapidly or not rapidly enough for us to recover the costs we have incurred in developing new products and services. Acquisitions create certain risks and may adversely affect our business, financial condition, or results of operations. We have actively acquired businesses and expect to continue to make acquisitions of businesses and assets in the future. The acquisition and integration of businesses and assets involve a number of risks. These risks include valuation (negotiating a fair price for the business and assets), integration (managing the process of integrating the acquired business' people, products, technology, and other assets to realize the projected value and synergies), regulatory (obtaining any applicable regulatory or other government approvals), and due diligence (identifying risks to the prospects of the business, including undisclosed or unknown liabilities or restrictions). There can be no assurances that we will be able to complete suitable acquisitions for a variety of reasons, including the identification of and competition for acquisition targets, the need for regulatory approvals, the inability of the parties to agree to the structure or purchase price of the transaction and our inability to finance the transaction on commercially acceptable terms. In addition, any potential acquisition can subject us to a variety of other risks: • If we are unable to successfully integrate the benefits plans, duties and responsibilities and other factors of interest to management of employees of the acquired business, we could lose employees to our competitors in the region, which could significantly affect our ability to operate the business and complete the integration; • If the integration process causes any delays with the delivery of our services, or the quality of those services, we could lose customers to our competitors; • Any acquisition may otherwise cause disruption to the acquired company' s business and operations and relationships with financial institution sponsors, customers, merchants, employees and other partners; • Any acquisition and the related integration could divert the attention of our management from other strategic matters including possible acquisitions and alliances and planning for new product development or expansion into new markets for payments technology and software solutions; and • The costs related to the integration of an acquired company' s business and operations into ours may be greater than anticipated. ~~18~~ **19** We are subject to economic and political risk, the business cycles of our ~~merchants~~ **customers** and distribution partners and the overall level of consumer and commercial spending, which could negatively impact our business, financial condition and results of operations. The Electronic Payments industry depends heavily on the overall level of consumer, commercial and government spending. We are exposed to general economic conditions that affect consumer confidence, consumer spending, consumer discretionary income and changes in consumer purchasing habits. A sustained deterioration in general economic conditions or increases in interest rates could adversely affect our financial performance by reducing the number or aggregate dollar volume of transactions made using Electronic Payments. If our ~~merchants~~ **customers** make fewer sales of their products and services using Electronic Payments, or consumers spend less money through Electronic Payments, we will have fewer transactions to process at lower dollar amounts, resulting in lower revenue. In addition, a weakening in the economy could force ~~merchants~~ **customers** to close at higher than historical rates, resulting in exposure to potential losses and a decline in the number of transactions that we process. We also have material fixed and semi- fixed costs, including rent, debt service, contractual minimums and salaries, which could limit our ability to quickly adjust costs and respond to changes in our business and the economy. Global economic, political and market conditions affecting the U. S. markets may adversely affect our business, results of operations and financial condition, including our revenue growth and profitability. Worldwide financial market conditions, as well as various social and political tensions in the U. S. and around the world, may contribute to increased market volatility, may have long- term effects and may cause economic uncertainties or deterioration in the U. S. In addition, the fiscal and monetary policies of foreign nations, such as Russia and China, may have a severe impact on U. S. financial markets. We are monitoring the conflicts between Russia and Ukraine and Israel and Hamas. While we do not expect that such conflicts will themselves be material to our business, geopolitical instability and adversity arising from such conflict (including additional conflicts that could arise from such conflicts), the imposition of sanctions, taxes and / or tariffs against one of the countries or their response to such sanctions (including retaliatory acts, such as cyber attacks and sanctions against other countries) could adversely affect the global economy or specific international, regional and domestic markets, which could have a material adverse effect on our business, results of operations or financial condition. Any new legislation that may be adopted in the U. S. could significantly affect the regulation of U. S. financial markets. Areas subject to potential change, amendment or repeal include the Dodd- Frank Act and the authority of the Federal Reserve Board and the FSOC. The U. S. may also potentially withdraw from or renegotiate various trade agreements and take other actions that would change current trade policies of the U. S. We cannot predict which, if any, of these actions will be taken or, if taken, their effect on the financial stability of the U. S. Such actions could have a significant adverse effect on our business, financial condition and results of operations, particularly in view of the regulatory oversight we presently face. We cannot predict the effects of these or similar events in the future on the U. S. economy in general, or

specifically on our business model or growth strategy, which typically involves the use of debt financing. To the extent a downturn in the U. S. economy impacts our merchant accounts, regulatory changes increase the burden we face in operating our business, or disruptions in the credit markets prevent us from using debt to finance future acquisitions, our financial condition and results of operations may be materially and adversely impacted. We rely on FIs and other service and technology providers. If they fail or discontinue providing their services or technology generally or to us specifically, our ability to provide services to ~~merchants~~ **customers** may be interrupted, and, as a result, our business, financial condition and results of operations could be adversely impacted. We rely on various FIs to provide clearing services in connection with our settlement activities. If such FIs should stop providing clearing services, we must find other FIs to provide those services. Additionally, we rely on FIs to facilitate our B2B and money transmission services offerings. If we are unable to find a replacement financial institution, we may no longer be able to provide these services to certain customers, which could negatively affect our revenues, earnings and cash flows. We also rely on third parties to provide or supplement bankcard processing services and for infrastructure hosting services. We also rely on third parties for specific software and hardware used in providing our products and services. The termination by our service or technology providers of their arrangements with us or their failure to perform their services efficiently and effectively may adversely affect our relationships with our merchants and, if we cannot find alternate providers quickly, may cause those merchants to terminate their relationship with us. ~~19~~ **20** We also rely in part on third parties for the development and access to new technologies, or updates to existing products and services for which third parties provide ongoing support, which increases the cost associated with new and existing product and service offerings. Failure by these third- party providers to devote an appropriate level of attention to our products and services could result in delays in introducing new products or services, or delays in resolving any issues with existing products or services for which third- party providers provide ongoing support. Fraud by ~~merchants~~ **customers** or others could cause us to incur losses. We have potential liability for fraudulent ~~electronic~~ **Electronic** ~~payment~~ **Payment** transactions or credits initiated by ~~merchants~~ **customers** or others. Examples of ~~merchant~~ **customer** fraud include when a merchant or other party knowingly uses a stolen or counterfeit credit or debit card, card number, or other credentials to record a false sales or credit transaction, processes an invalid card, or intentionally fails to deliver the merchandise or services sold in an otherwise valid transaction. Criminals are using increasingly sophisticated methods to engage in illegal activities such as counterfeiting and fraud. Failure to effectively manage risk and prevent fraud could increase in the future. Increases in chargebacks **, ACH returns** or other liabilities could have a material adverse effect on our financial condition, results of operations and cash flows. We incur liability when our ~~merchants~~ **customers** refuse or cannot reimburse us for chargebacks resolved in favor of their customers **or ACH returns** . We have potential liability for chargebacks associated with the transactions we process. If a billing dispute between a merchant and a cardholder is not ultimately resolved in favor of the merchant, the disputed transaction is" charged back" to the merchant' s bank and credited or otherwise refunded to the cardholder. The risk of chargebacks is typically greater with those merchants that promise future delivery of goods and services rather than delivering goods or rendering services at the time of payment. If we or our bank sponsors are unable to collect the chargeback from the merchant' s account or reserve account (if applicable), or if the merchant refuses or is financially unable (due to bankruptcy or other reasons) to reimburse the merchant' s bank for the chargeback, we may bear the loss for the amount of the refund paid to the cardholder. Any increase in chargebacks not paid by our merchants could increase our costs and decrease our revenues. **Similarly, if a return is made against a customer for whom we have collected an ACH payment and that customer does not have adequate funds to offset such a return, we may incur a loss.** We have policies to manage merchant- related credit risk and often mitigate such risk by requiring collateral and monitoring transaction activity. Notwithstanding our programs and policies for managing credit risk, it is possible that a default on such obligations by one or more of our ~~merchants~~ **customers** could have a material adverse effect on our business. If we fail to comply with the applicable requirements of the card networks, they could seek to fine us, suspend us or terminate our registrations for membership. If we incur fines or penalties for which our ~~merchants~~ **customers** or ISOs are responsible that we cannot collect, we may have to bear the cost of such fines or penalties. We are subject to card association and network rules that could subject us to a variety of fines or penalties that may be levied by the card networks for certain acts or omissions. The rules of the card networks are set by the card networks themselves and may be influenced by card issuers, some of which are our competitors with respect to processing services. Many banks directly or indirectly sell processing services to merchants in direct competition with us. These banks could attempt, by virtue of their influence on the networks, to alter the networks' rules or policies to the detriment of non- members, including us. The termination of our registrations or our membership status as a service provider or merchant processor, or any changes in a card association or other network rules or standards, including interpretation and implementation of the rules or standards, that increase the cost of doing business or limit our ability to provide transaction processing services to our customers, could have a material adverse effect on our business, financial condition, results of operations and cash flows. If a ~~merchant~~ **customer** or an ISO fails to comply with the applicable requirements of the card associations and networks, we or the ~~merchant~~ **customer** or ISO could be subject to a variety of fines or penalties that may be levied by the card associations or networks. If we cannot collect or pursue collection of such amounts from the applicable ~~merchant~~ **customer** or ISO, we may have to bear the cost of such fines or penalties, resulting in lower earnings for us. The termination of our registration, or any changes in the Visa or Mastercard rules that would impair our registration, could require us to stop providing Visa and Mastercard payment processing services, which would make it impossible for us to conduct our business on its current scale. ~~20~~ **21** The loss of, for example, key personnel or of our ability to attract, recruit, retain and develop qualified employees could adversely affect our business, financial condition and results of operations. Our success depends upon the continued services of our senior management and other key personnel who have substantial experience in the Electronic Payments industry and the markets in which we offer our services. In addition, our success depends in large part upon the reputation within the industry of our senior managers who have developed relationships with our distribution partners, payment networks and other payment processing and service providers. Further, in order for us to continue to successfully compete and grow, we must attract, recruit, develop and retain personnel who will provide us with expertise across the entire spectrum of our intellectual capital needs. Our success is also dependent on the skill and experience of our sales force, which we must continuously work to maintain. While we have many key personnel who have substantial experience with our operations, we must also develop our personnel to provide succession plans capable of maintaining the continuity of our operations. The market for qualified personnel is competitive, and we may not succeed in recruiting additional personnel or may fail to effectively replace current personnel who depart with qualified or effective successors. We may be responsible for the actions of our vendors in some circumstances. We use third parties to provide services to us including IT related services and sales related functions. Should a cybersecurity related event or other act of negligence occur as a result of a third- party service provider, we may be liable for those actions. **Operational failures and resulting interruptions in the availability of our products or services could harm our business and reputation. Our business depends heavily on the reliability of our systems. An operational failure that results in an interruption in the availability of our products and services could harm our business or cause us to lose clients. An operational failure could involve the hardware, software, data, networks or systems upon which we rely to deliver our services and could be caused by our actions, the actions of third parties or events over which we may have limited or no control. Events that could cause operational failures include, but are not limited to, hardware and software defects or malfunctions, ransomware, denial- of- service and other cyberattacks, human error, earthquakes, hurricanes, floods, fires, natural disasters, pandemics, power losses, disruptions in telecommunications services, fraud, military or political conflicts, terrorist attacks, computer viruses or other malware, or other events. In the event of operational failures or damage or disruption to our business due to these occurrences, we may not be able to successfully or quickly recover all of our critical business functions, assets and data through our business continuity program. Implementation delays, interruptions of service or hardware device defects could damage our relationship with clients and could cause us to incur substantial expenses, including those related to the payment of service credits, product recalls or other liabilities. A prolonged interruption of our services or network could cause us to experience data loss or a reduction in revenue, and significantly impact our clients' businesses and the customers they serve. In addition, a significant interruption of service or product recall could have a negative impact on our reputation and could cause our current and potential clients to choose another service provider. As a provider of payments solutions and other financial services, clients, regulators and others may require enhanced business continuity and disaster recovery plans including frequent testing of such plans. Meeting these various requirements may require a significant investment of time and money. Any of these developments could have a material adverse impact on our business, results of operations and financial condition.** Legal, Regulatory Compliance and Tax Risks Legal proceedings could have a material adverse effect on our business, financial condition or results of operations. In the ordinary course of business, we may become involved in various litigation matters, including but not limited to commercial disputes and employee claims, and from time to time may be involved in governmental or regulatory investigations or similar matters arising out of our current or future business. Any claims asserted against us, regardless of merit or eventual outcome, could harm our reputation and have an adverse impact on our relationship with our merchants, distribution partners and other third parties and could lead to additional related claims. Certain claims may seek injunctive relief, which could disrupt the ordinary conduct of our business and operations or increase our cost of doing business. Our insurance or indemnities may not cover all claims that may be asserted against us, and any claims asserted against it, regardless of merit or eventual outcome, may harm our reputation and cause us to expend resources in our defense. Furthermore, there is no guarantee that we will be successful in defending ourselves in future litigation. Should the ultimate judgments or settlements in any pending litigation or **22** future litigation or investigation significantly exceed our insurance coverage, they could have a material adverse effect on our business, financial condition and results of operations. We are subject to extensive government regulation, and any new laws and regulations, industry standards or revisions made to existing laws, regulations or industry standards affecting the Electronic Payments industry may have an unfavorable impact on our business, financial condition and results of operations. Our business is affected by laws and regulations and examinations that affect us and our industries. Regulation and proposed regulation of the payments industry has increased significantly in recent years. Failure to comply with regulations or guidelines may result in the suspension or revocation of a license or registration, the limitation, suspension or termination of service, including money transmission services, and the imposition of civil and criminal penalties, including fines, or may cause customers or potential customers to be reluctant to do business with us, any of which could have an adverse effect on our financial condition. Interchange fees are subject to intense legal, regulatory and legislative scrutiny. In particular, the Dodd- Frank Act limits the amount of debit card fees charged by certain issuers, allowing merchants to set minimum dollar amounts for the acceptance of credit cards and allowing merchants to offer discounts or other incentives for different payment methods. These types of restrictions could negatively affect the number of debit transactions, which would adversely affect our business. The Dodd- Frank Act also created the CFPB, which has assumed responsibility for enforcing federal consumer protection laws, and the FSOC, which has the authority to determine whether any non- bank financial company, which may include us within the definitional scope, should be supervised by the

Federal Reserve because it is systemically important to the U. S. financial ~~21~~ system. Any such designation would result in increased regulatory burdens on our business, which increases our risk profile and may have an adverse impact on our business, financial condition and results of operations. We and many of our merchants may be subject to Section 5 of the Federal Trade Commission Act prohibiting unfair or deceptive acts or practices. That statement and other laws, rules and or regulations, including the Telemarketing Sales Act, may directly impact the activities of certain of our merchants and, in some cases, may subject us, as the merchant' s electronic processor or provider of certain services, to investigations, fees, fines and disgorgement of funds if we were deemed to have improperly aided and abetted or otherwise provided the means and instrumentalities to facilitate the illegal or improper activities of the merchant through our services. Various federal and state regulatory enforcement agencies, including the Federal Trade Commission and state attorneys general, have authority to take action against non- banks that engage in unfair or deceptive practices or violate other laws, rules and regulations and to the extent we are processing payments or providing services for a merchant that may be in violation of laws, rules and regulations, we may be subject to enforcement actions and as a result may incur losses and liabilities that may impact our business. Our business may also be subject to the FCRA, which regulates the use and reporting of consumer credit information and also imposes disclosure requirements on entities that take adverse action based on information obtained from credit reporting agencies. We could be liable if our practices under the FCRA are not in compliance with the FCRA or regulations under it. Separately, the Housing Assistance Tax Act of 2008 included an amendment to the Internal Revenue Code that requires the filing of yearly information returns by payment processing entities and third- party settlement organizations with respect to payments made in settlement of ~~electronic~~ **Electronic** ~~payment~~ **Payment** transactions and third- party payment network transactions occurring in that calendar year. Transactions that are reportable pursuant to these rules are subject to backup withholding requirements. We could be liable for penalties if our information returns do not comply with these regulations. These and other laws and regulations, even if not directed at us, may require us to make significant efforts to change our products and services and may require that we incur additional compliance costs and change how we price our services to merchants. Implementing new compliance efforts may be difficult because of the complexity of new regulatory requirements and may cause us to devote significant resources to ensure compliance. Furthermore, regulatory actions may cause changes in business practices by us and other industry participants which could affect how we market, price and distribute our products and services, which could limit our ability to grow, reduce our revenues or increase our costs. In addition, even an inadvertent failure to comply with laws and regulations, as well as rapidly evolving social expectations of corporate fairness, could damage our business or our reputation. **23** We may not be able to successfully manage our intellectual property and may be subject to infringement claims. We rely on a combination of contractual rights and copyright, trademark, patent and trade secret laws to establish and protect our proprietary technology. Third parties may challenge, circumvent, infringe or misappropriate our intellectual property, or such intellectual property may not be sufficient to permit us to take advantage of current market trends or otherwise to provide competitive advantages, which could result in costly redesign efforts, discontinuance of service offerings or other competitive harm. Others, including our competitors, may independently develop similar technology, duplicate our services or design around our intellectual property and, in such cases, we could not assert our intellectual property rights against such parties. Further, our contractual arrangements may not effectively prevent disclosure of our confidential information or provide an adequate remedy in the event of unauthorized disclosure of our confidential information. We may have to litigate to enforce or determine the scope and enforceability of our intellectual property rights and know- how, which is expensive, could cause a diversion of resources and may not prove successful. Also, because of the rapid pace of technological change in our industry, aspects of our business and our services rely on technologies developed or licensed by third parties, and we may not be able to obtain or continue to obtain licenses and technologies from these third parties on reasonable terms or at all. The loss of intellectual property protection or the inability to license or otherwise use third- party intellectual property could harm our business and ability to compete. We may also be subject to costly litigation if our services and technology are alleged to infringe upon or otherwise violate a third party' s proprietary rights. Third parties may have, or may eventually be issued, patents that could be infringed by our products, services or technology. Any of these third parties could make a claim of infringement against us with respect to our products, services or technology. We may also be subject to claims by third parties for patent, copyright or trademark ~~22~~ infringement, breach of license or violation of other third- party intellectual property rights. Any claim from third parties may result in a limitation on our ability to use the intellectual property subject to these claims. Additionally, in recent years, individuals and groups have been purchasing intellectual property assets for the sole purpose of making claims of infringement or other violations and attempting to extract settlements from companies like ours. Even if we believe that intellectual property related claims are without merit, defending against such claims is time consuming and expensive and could result in the diversion of the time and attention of our management and employees. Claims of intellectual property infringement or violation also might require us to redesign affected products or services, enter into costly settlement or license agreements, pay costly damage awards or face a temporary or permanent injunction prohibiting us from marketing or selling certain of our products or services. Even if we have an agreement for indemnification against such costs, the indemnifying party, if any in such circumstances, may be unable to uphold our contractual obligations. If we cannot or do not license the infringed technology on reasonable terms or substitute similar technology from another source, our revenue and earnings could be adversely impacted. Changes in tax laws and regulations could adversely affect our results of operations and cash flows from operations. Changes in tax laws in our significant tax jurisdictions could materially increase the amount of taxes we owe, thereby negatively impacting our results of operations as well as our cash flows from operations. For example, restrictions on the deductibility of interest expense in a U. S. jurisdiction without a corresponding reduction in statutory tax rates could negatively impact our effective tax rate, financial position, results of operations and cash flows in the period that such a change occurs and future periods. Our risk management policies and procedures may not be fully effective in mitigating our risk exposure in all market environments or against all types of risks. We operate in a rapidly changing industry. Accordingly, our risk management policies and procedures may not be fully effective to identify, monitor, manage and remediate our risks. Some of our risk evaluation methods depend upon information provided by others and public information regarding markets, merchants or other matters that are otherwise inaccessible by us. In some cases, that information may not be accurate, complete or up- to- date. Additionally, our risk detection system is subject to a high degree of" false positive" risks being detected, which makes it difficult for us to identify real risks in a timely manner. If our policies and procedures are not fully effective or we are not always successful in capturing all risks to which we are or may be exposed, we may suffer harm to our reputation or be subject to litigation or regulatory actions that materially increase **24** our costs and subject us to reputational damage that could limit our ability to grow and cause us to lose existing merchant clients. The financial services industry continues to be highly regulated and subject to new laws or regulations in many jurisdictions, including the U. S. states in which we operate, which could restrict the products and services we offer, impose additional compliance costs on us, render our current operations unprofitable or even prohibit our current or future operations. We are required to comply with frequently changing federal, state, and local laws and regulations that regulate, among other things, the terms of the financial products and services we offer. New laws or regulations may require us to incur significant expenses to ensure compliance. Federal and state regulators of consumer financial products and services are also enforcing existing laws, regulations, and rules more aggressively, and enhancing their supervisory expectations regarding the management of legal and regulatory compliance risks. For example, State attorneys general have indicated that they will take a more active role in enforcing consumer protection laws, including through the establishment of state consumer protection agencies as well as the use of Dodd- Frank Act provisions that authorize state attorneys general to enforce certain provisions of federal consumer financial laws and obtain civil money penalties and other relief available to the CFPB. The application of traditional federal and state consumer protection statutes and related regulations to innovative products offered by financial technology companies such as us is often uncertain, evolving and unsettled. To the extent that our products are deemed to be subject to any such laws, we could be subject to additional compliance obligations, including state licensing requirements, disclosure requirements and usury or fee limitations, among other things. Application of such requirements and restrictions to our products and services could require us to make significant changes to our business practices (which may increase our operating expenses and / or decrease revenue) and, in the event of retroactive application of such laws, subject us to litigation or enforcement actions that could result in the payment of damages, restitution, monetary penalties, injunctive ~~23~~ restrictions, or other sanctions, any of which could have a material adverse effect on our business, financial position, and results of operations. Recently, federal bank regulators have increasingly focused on the risks related to bank and non- bank financial service company partnerships, raising concerns regarding risk management, oversight, internal controls, information security, change management, and information technology operational resilience. This focus is demonstrated by recent regulatory enforcement actions against banks that have allegedly not adequately addressed these concerns while growing their non- bank financial service offerings. Additionally, there are ongoing investigations by federal and state governmental entities concerning a prepaid debit card product program that was offered by the Company through an independent program manager. We could be subject to additional regulatory scrutiny with respect to that portion of our business that could have a material adverse effect on the business, financial condition, results of operations and growth prospects of the Company. Further, we may not be able to respond quickly or effectively to regulatory, legislative, and other developments, and these changes may in turn impair our ability to offer our existing or planned features, products, and services and / or increase our cost of doing business. In addition, we expect to continue to launch new products and services in the coming years, which may subject us to additional legal and regulatory requirements under federal, state and local laws and regulations. To the extent the application of these laws or regulations to our new offerings is unclear or evolving, including changing interpretations and the implementation of new or varying regulatory requirements by federal or state governments and regulators, this may significantly affect or change our proposed business model, increase our operating expenses and hinder or delay our anticipated launch timelines for new products and services. Disruptions or security failures in our information technology systems, including as a result of cybersecurity incidents, could create liability for us and / or limit our ability to effectively monitor, operate and control our operations and adversely affect our reputation, business, financial condition, results of operation and cash flows. We may face risks related to cybersecurity, such as unauthorized access, cybersecurity attacks and other security incidents, which could adversely affect our business and operations. The Company relies upon operational and information systems, some of which are managed by third parties, to process, transmit and store electronic information and to manage or support a variety of our business processes, activities and products. Additionally, we collect and store sensitive data, including the personally identifiable information of our customers and employees, in data centers and on information systems (including systems that **25** may be controlled or maintained by third parties). The Company' s business, and in particular, the debit card and cash management solutions business and global payments business, is dependent on its ability to process and monitor, on a daily basis, a large number of transactions, many of which are highly complex, across numerous and diverse markets. These transactions, as well as the information technology services provided to clients, often must adhere to client- specific guidelines, as well as legal and regulatory standards. Due to the breadth and geographical reach of the Company' s client base,

developing and maintaining its operational and information systems and infrastructure is challenging, particularly as a result of rapidly evolving legal and regulatory requirements and technological shifts. Although the Company continues to take protective measures to maintain the confidentiality, integrity and security of our operational and information systems and infrastructure, the techniques used in cyberattacks are becoming increasingly diverse and sophisticated. For example, the Company' s operational and information systems or infrastructure, or those of our third- party providers, may be vulnerable to unauthorized access, loss or destruction of data (including confidential client information), account takeovers, disruptions of service, computer viruses or other malicious code, cyberattacks and other incidents that could create a cybersecurity event, any of which could remain undetected for an extended period of time. Furthermore, the Company may not be able to ensure that all of its clients, suppliers, counterparties and other third parties have appropriate controls in place to protect themselves from cyberattacks or to protect the confidentiality of the information that they exchange with us, particularly where such information is transmitted by electronic means. Given the increasingly high volume of transactions, certain errors may be repeated or compounded before they can be discovered and rectified. In addition, the increasing reliance on information systems, and the occurrence and potential adverse impact of attacks on such systems, both generally and in the financial services industry, have encouraged increased government and regulatory scrutiny of the measures taken by companies to protect against cybersecurity threats and incidents. As these threats, incidents and government and regulatory oversight of associated risks continue to evolve, the Company may be required to expend additional resources to enhance or expand upon the security measures it currently maintains. Although the Company has developed, and continues to invest in, systems and processes that are designed to detect and prevent security breaches and cyberattacks, a breach of its ~~24~~ systems and global payments infrastructure or those of our non- bank financial service partners and processors could result in: losses to the Company and its customers; loss of business and / or customers; damage to its reputation; the incurrence of additional expenses (including the cost of notification to consumers, credit monitoring and forensics, and fees and fines imposed by the card networks); disruption to its business; an inability to grow its online services or other businesses; additional regulatory scrutiny or penalties; and / or exposure to civil litigation and possible financial liability — any of which could have a material adverse effect on the Company' s business, financial condition and results of operations. We have not encountered cybersecurity threats or incidents that have materially and adversely affected, or are reasonably likely to materially and adversely affect, the Company' s business, results of operations or financial condition; however, the impacts of such threats or incidents in the future may be material. While the Company maintains cybersecurity insurance, the costs related to cybersecurity threats or disruptions may not be fully insured. For information on our cybersecurity risk management, strategy and governance, see Part I, Item 1C., Cybersecurity Risk Related to Our Capital Structure We face risks related to our substantial indebtedness. We have a substantial amount of indebtedness and may incur other debt in the future. Our level of debt and the covenants to which we agreed could have negative consequences on us, including, among other things, (i) requiring us to dedicate a large portion of our cash flow from operations to servicing and repayment of the debt; (ii) limiting funds available for strategic initiatives and opportunities, working capital and other general corporate needs and (iii) limiting our ability to incur certain kinds or amounts of additional indebtedness, which could restrict our ability to react to changes in our business, our industry and economic conditions. Substantially all of our indebtedness is variable rate debt, primarily based on SOFR, which replaced LIBOR effective June 30, 2023. As a result of this variable rate debt, an increase in interest rates generally, such as those we have recently experienced, would adversely affect our profitability. We may enter into pay- fixed interest rate swaps or other derivative transactions to limit our exposure to changes in floating interest rates. Such instruments may result in economic losses should interest rates decline to a point lower than our fixed rate commitments. We would be exposed to credit- related losses, which could impact the results **26** of operations in the event of fluctuations in the fair value of the interest rate swaps due to a change in the credit worthiness or non-performance by the counterparties to the interest rate swaps. The credit agreements governing our existing credit facilities and any other debt instruments we may issue in the future will contain restrictive covenants that may impair our ability to conduct business. The credit agreements governing our existing credit facilities contain operating covenants and financial covenants that may limit management' s discretion with respect to certain business matters. In addition, any debt instruments we may issue in the future will likely contain similar operating and financial covenants restricting our business. Among other things, these covenants will ~~restrict~~ **limit** our ability to: • pay dividends, or redeem or purchase equity interests; • incur additional debt; • incur liens; • change the nature of our business; • engage in transactions with affiliates; • sell or otherwise dispose of assets; • make acquisitions or other investments; and ~~25~~ • merge or consolidate with other entities. In addition, the credit agreement governing our revolving credit facility contains a total net leverage ratio financial covenant that is applicable when 35 % or more of the revolving credit facility is drawn at quarter end. A breach of any of these covenants (or any other covenant in the documents governing our Credit and Guaranty Agreement) could result in a default or event of default under our Credit and Guaranty Agreement. If an event of default occurred, the applicable lenders or agents could elect to terminate borrowing commitments and declare all borrowings and loans outstanding thereunder, together with accrued and unpaid interest and any fees and other obligations, to be immediately due and payable. In addition, or in the alternative, the applicable lenders or agents could exercise their rights under the security documents entered into in connection with our Credit and Guaranty Agreement. Any acceleration of amounts due under the Credit and Guaranty Agreement would likely have a material adverse effect on us. **Risks Related to Ownership of Our Stock** Because we have no current plans to pay cash dividends on our Common Stock for the foreseeable future, you may not receive any return on investment unless you sell your Common Stock for a price greater than that which you paid for it. We intend to retain future earnings, if any, for future operations, expansion, and debt repayment and have no current plans to pay any cash dividends for the foreseeable future. The declaration, amount, and payment of any future dividends on shares of Common Stock will be at the sole discretion of our Board of Directors. Our Board of Directors may take into account general and economic conditions, our financial condition, and results of operations, our available cash and current and anticipated cash needs, capital requirements, contractual, legal, tax, and regulatory restrictions, implications on the payment of dividends by us to our ~~stockholders~~ **shareholders** or by our subsidiaries to us, and such other factors as our Board of Directors may deem relevant. In addition, our ability to pay dividends is limited by covenants of our existing and outstanding indebtedness and may be limited by covenants of any future indebtedness we or our subsidiaries incur. As a result, you may not receive any return on an investment in our Common Stock unless you sell our Common Stock for a price greater than that which you paid for it. **27** Mr. Thomas Priore, our ~~President,~~ Chief Executive Officer and Chairman, controls the Company, and his interests may conflict with ours or yours in the future. Thomas Priore and his affiliates have the ability to elect all of the members of our Board of Directors and thereby control our policies and operations, including the appointment of management, future issuances of our Common Stock or other securities, the payment of dividends, if any, on our Common Stock, the incurrence or modification of debt by us, amendments to our Amended and Restated Certificate of Incorporation and our Amended and Restated Bylaws, and the entering into of extraordinary transactions, and their interests may not in all cases be aligned with your interests. In addition, Thomas Priore may have an interest in pursuing acquisitions, divestitures, and other transactions that, in his judgment, could enhance his investment, even though such transactions might involve risks to you. For example, he could cause us to make acquisitions that increase our indebtedness or cause us to sell revenue- generating assets. Additionally, in certain circumstances, acquisitions of debt at a discount by purchasers that are related to a debtor can give rise to cancellation of indebtedness income to such debtor for U. S. federal income tax purposes. Our Amended and Restated Certificate of Incorporation provides that neither he nor any of his affiliates, or any director who is not employed by us (including any non- employee director who serves as one of our officers in both his director and officer capacities) will have any duty to refrain from engaging, directly or indirectly, in the same business activities or similar business activities or lines of business in which we operate. So long as Thomas Priore continues to own a significant amount of our combined voting power, even if such amount is less than 50 %, he will continue to be able to strongly influence or effectively control our decisions. Furthermore, so long as Thomas Priore and his respective affiliates collectively own at least 50 % of all outstanding shares of our Common Stock entitled to vote generally in the election of directors, they will be able to appoint individuals to our Board of Directors. In addition, given his level of control, Thomas Priore will be able to determine the outcome of all matters requiring ~~stockholder~~ **shareholders'** approval and will be able to cause or prevent a change of control of the Company or a change in the composition of our Board of Directors and could preclude any unsolicited acquisition of the Company. The concentration of ownership could deprive you of an opportunity to receive a premium for your shares of Common Stock as part of a sale of the Company and ultimately might affect the market price of our Common Stock. ~~26~~ **Future sales of common stock by our directors and officers, or their pledgees, as a result of foreclosure could adversely affect the price of common stock and could, in the future, result in a loss of control of our company. Upon the approval of our Board, our directors and officers may pledge shares of common stock as collateral for personal loans or investments in favor of third parties. Depending on the status of the various loan obligations for which the stock would ultimately serve as collateral and the trading price of our common stock, our directors and / or officers, and their affiliates, may experience foreclosure that could result in the sale of the pledged stock, in the open market or otherwise. Sales by these pledgees may not be subject to the volume limitations of Rule 144 of the Securities Act. Even in the absence of shares being sold, the act of pledging shares and the risk of sales of shares may create a misalignment of interests between insider pledgors and the Company' s shareholders, as the insider may be incentivized to take actions that limit his or her exposure to such sales. Either scenario could potentially subject the Company and its insiders to shareholder lawsuits, particularly in an environment of declining share prices. As of the date of this Form 10- K, no officer or director that has pledged shares of common stock. We have identified a material weakness in our internal control over financial reporting, and if our remediation of such material weakness is not effective, or if we fail to develop and maintain an effective system of disclosure controls and internal control over financial reporting, our ability to produce timely and accurate financial statements or comply with applicable laws and regulations could be impaired. In the course of preparing our financial statements for the year ended December 31, 2024, we identified a material weakness in our internal control over financial reporting. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. The material weakness identified pertains to certain tools or applications involved in the transformation and ingestion of third- party processors' data in the Company' s control environment. If we are unable to further implement and maintain effective internal control over financial reporting or disclosure controls and procedures, our ability to record, process and report financial information accurately, and to prepare financial statements within required time periods could be adversely affected, which could subject us to litigation or investigations requiring management 28 resources and payment of legal and other expenses, negatively affect investor confidence in our financial statements and adversely impact our stock price. If we are unable to assert that our internal control over financial reporting is effective, or if our independent registered public accounting firm is unable to express an unqualified opinion as to the effectiveness of our internal control over financial reporting, investors may lose confidence in**

the accuracy and completeness of our financial reports, the market price of our common stock could be adversely affected and we could become subject to litigation or investigations by Nasdaq, the SEC or other regulatory authorities, which could require additional financial and management resources. Furthermore, we cannot assure you that the measures we have taken to date, and actions we may take in the future, will be sufficient to remediate the control deficiencies that led to our material weakness in our internal control over financial reporting or that they will prevent or avoid potential future material weaknesses. Our current controls and any new controls that we develop may become inadequate because of changes in conditions in our business. Further, weaknesses in our disclosure controls and internal control over financial reporting may be discovered in the future. Any failure to develop or maintain effective controls or any difficulties encountered in their implementation or improvement could harm our operating results or cause us to fail to meet our reporting obligations and may result in a restatement of our financial statements for prior periods. Any failure to implement and maintain effective internal control over financial reporting could adversely affect the results of periodic management evaluations and annual independent registered public accounting firm attestation reports regarding the effectiveness of our internal control over financial reporting that we are required to include in our periodic reports that are filed with the SEC. Ineffective disclosure controls and procedures and internal control over financial reporting could also cause investors to lose confidence in our reported financial and other information, which would likely have a negative effect on the trading price of our common stock. In addition, if we are unable to continue to meet these requirements, we may not be able to remain listed on the Nasdaq. Item 1B. Unresolved Staff Comments N / A Item 1C. Cybersecurity Risk ~~management~~ **Management** and ~~strategy~~ **Strategy** We recognize the importance of maintaining the trust and confidence of the customers we serve, our business partners, employees and our ~~stockholders~~ **shareholders** and are committed to protecting the confidentiality, integrity and reliance of our business operations and systems. Effective data protection and cyber security practices, including responsible stewardship of our intellectual property and the secure processing, storage, maintenance and transmission of critical information by us and other third parties with whom we do business is vital to our operations. We have adopted policies and procedures with an intended design to identify, assess and manage risks associated with cybersecurity threats. • We perform risk assessments periodically at both an enterprise level and system level in addition to assessments performed by third parties; • Our information security team performs threat monitoring services; • Our Internal Audit function performs annual reviews of selected systems and applications to test certain controls; • Independent consultants ~~and auditors~~ evaluate selected systems and applications on an annual basis; • We perform risk assessments of third- party vendors and perform ongoing risk- based monitoring of those third parties; and • We maintain a business continuity plan for execution in the event of a cybersecurity incident. **29** We have not experienced any material cybersecurity incidents in the past calendar years and the expenses we have incurred from cybersecurity incidents during that time were immaterial. We have not identified risks from known cybersecurity threats that have materially affected us, including our operations, business strategy, results of operations or financial condition. Governance Our Board considers cybersecurity risk as part of its risk oversight function. The Board oversees the Company' s overall risk framework including management' s implementation of our cybersecurity risk management program. The Board receives reports from the Chief Risk Officer on a regular basis on cybersecurity and information technology risk management. Our Company' s cybersecurity team, overseen by our Chief Information Security Officer (" CISO ") is responsible for assessing and managing our risks from cybersecurity threats, including defining our security policy and furnishing related information for Board reporting. The CISO approves all security policies and oversees the identification, assessment, and management of security risks. The CISO regularly reports to management' s SOX Committee which may elevate cybersecurity issues to the Board at any time. Item 2. Properties We operate from several offices throughout the U. S. and one office in India, all of which we lease. Our key office locations include: ~~27 •~~ corporate headquarters in Alpharetta, GA; • administrative office in Hicksville, NY; • administrative office in New York, NY; • administrative office in Dallas, TX; • administrative office in Houston, TX **; • administrative office in Nashville, TN** ; • administrative office in Chattanooga, TN; • administrative office in San Francisco, CA; • administrative office in Raleigh, NC; and • administrative office in Chandigarh, India. We lease several small facilities for sales and operations. Our current facilities meet the needs of our employee base and can accommodate our currently contemplated growth. Item 3. Legal Proceedings The Company is involved in certain legal proceedings and claims, which arise in the ordinary course of business. In the opinion of the Company, based on consultations with inside and outside counsel, the results of any of these ordinary course matters, individually and in the aggregate, are not expected to have a material effect on our results of operations, financial condition, or **30** cash flows. As more information becomes available and we determine that an unfavorable outcome is probable on a claim and that the amount of probable loss that we will incur on that claim is reasonably estimable, we will record an accrued expense for the claim in question. If and when we record such an accrual, it could be material and could adversely impact our results of operations, financial condition and cash flows. The Company is ~~involved~~ **a party** in a case ~~that was~~ filed on October 11, 2023 ~~and is currently pending~~ in the United States District Court **of** ~~for the~~ Northern District of California (the " Complaint "). On October 2, 2023~~ **2029** ~~, the Company modified its existing Term Facility Credit agreement with Truist. The agreement increased the principal balance by $ 50. 0 million and increased the quarterly principal amortization payment from $ 1. 6 million to $ 1. 7 million. There were no other significant modifications to the Credit Agreement~~ . The Credit Agreement contains representations and warranties, financial and collateral requirements, mandatory payment events, events of default and affirmative and negative covenants, including without limitation, covenants that restrict among other things, the ability to create liens, pay dividends or distribute assets from the loan parties to the Company, merge or consolidate, dispose of assets, incur additional indebtedness, make certain investments or acquisitions, enter into certain transactions (including with affiliates) and to enter into certain leases. If the aggregate principal amount of outstanding revolving loans and letters of credit under the Credit Agreement exceeds 35 % of the total revolving facility thereunder, the loan

parties are required to comply with certain restrictions on its Total Net Leverage Ratio, which is defined in the Credit Agreement as the ratio of consolidated total debt less unrestricted cash to consolidated adjusted EBITDA (as defined in the Credit Agreement). If **the aggregate principal amount of outstanding revolving loans and letters of credit under the 2024 Credit Agreement exceeds 35 % of the total revolving credit facility thereunder, the Company is required to comply with certain restrictions on its Total Net Leverage Ratio. As of December 31, ~~2023~~ **2024** , the Company was in compliance with the covenants in the **2024** Credit Agreement. Critical Accounting Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ significantly from those estimates. We believe that the following discussion addresses our most critical accounting estimates, which are those that are most important to the portrayal of our financial condition and results of operations and require management' s most difficult, subjective, and complex judgments. Income Taxes We account for income taxes under the asset and liability method. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using enacted tax rates and laws that are expected to be in effect when the differences are expected to be recovered or settled. Realization of deferred tax assets is dependent upon future taxable income. A valuation allowance is recognized if it is more **40** likely than not that some portion or all of a deferred tax asset will not be realized based on the weight of available evidence, including expected future earnings. We recognize an uncertain tax position in our financial statements when we conclude that a tax position is more likely than not to be sustained upon examination based solely on its technical merits. Only after a tax position passes the first step of recognition will measurement be required. Under the measurement step, the tax benefit is measured as the largest amount of ~~37~~ benefit that is more likely than not to be realized upon effective settlement. This is determined on a cumulative probability basis. The full impact of any change in recognition or measurement is reflected in the period in which such change occurs. Interest and penalties related to income taxes are recognized in the provision for income taxes. Goodwill and Long- lived Assets We test goodwill for impairment for each of our reporting units on an annual basis on October 1 or when events occur, or circumstances indicate the fair value of a reporting unit may be below its carrying value. We perform the annual assessment using the qualitative method. Where deemed appropriate, we may perform a quantitative assessment that uses market data and discounted cash flow analysis, which involve estimates of future revenues and operating cash flows. Changes in these estimates and assumptions or a significant decrease in earnings could materially affect the fair value of goodwill and could result in a goodwill impairment charge. The annual impairment assessment for goodwill does not change our requirements to assess goodwill on an interim date between scheduled annual testing dates if triggering events are present. We review our long- lived assets for impairment whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. For long- lived assets, except goodwill, an impairment loss is indicated when the undiscounted future cash flows estimated to be generated by the asset group are not sufficient to recover the unamortized balance of the asset group. We amortize the cost of our acquired intangible assets over their estimated useful lives using either a straight- line or an accelerated method that most accurately reflects the estimated pattern in which the economic benefit of the respective asset is consumed. Business Combinations We allocate the purchase price of an acquired business to the assets acquired and liabilities assumed based on their estimated fair values. The excess of the purchase price over the fair value of the net assets acquired is recorded as goodwill. For acquisitions that include contingent consideration, we estimate the fair value of contingent consideration at the acquisition date. The estimated fair value of contingent consideration is updated in future periods based on information available at that time. Management uses all available information when estimating the fair values of the assets acquired, liabilities assumed and contingent consideration, and must apply judgement and make certain assumptions when making these estimates. The assumptions management uses when determining fair values include estimated future cash flows or income, market rate assumptions, actuarial assumptions and discount rate assumptions. We typically engage third- party valuation advisors to assist in estimating the fair values of acquired assets and assumed liabilities. Our estimates of fair value are based upon assumptions the Company believes to be reasonable, but that are inherently uncertain, and therefore, may not be realized. Accordingly, there can be no assurance that the estimates, assumptions and values reflected in the valuations will be realized, and actual results could differ materially. Item 7A. Quantitative and Qualitative Disclosures About Market Risk Interest rate risk Our debt facilities under our Credit Agreement bear interest at either a base rate or a SOFR rate plus an applicable margin per year, subject to a SOFR rate floor of ~~1~~ **0** . ~~00~~ **50** % per year. As of December 31, ~~2023~~ **2024** , we had $ ~~654~~ **945** . ~~4~~ **5** million in outstanding borrowings under our Credit Agreement. Ignoring the ~~1~~ **0** . ~~00~~ **50** % SOFR floor, a hypothetical 1. 00 % increase or decrease in the **41** applicable SOFR rate on our outstanding indebtedness under the Credit Agreement would increase or decrease cash interest expense ~~on our indebtedness~~ by approximately $ ~~6~~ **9** . ~~7~~ **5** million per year. We do not currently hedge against interest rate risk. ~~38~~ **42** Item 8. Opinion on the Financial Statements We have audited the accompanying consolidated balance sheets of Priority Technology Holdings, Inc. In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, **2024 and** 2023 ~~and 2022~~ , and the results of its operations and its cash flows for each of the three years in the period ended December 31, ~~2023~~ **2024** , in conformity with U. We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company' s internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission 2013 framework and our report dated March 6, 2025 expressed an adverse opinion thereon** . Basis for Opinion These financial statements are the responsibility of the Company' s management. Our responsibility is to express an opinion on the Company' s financial statements based on our audits. We are a public accounting firm registered with the ~~Public Company Accounting Oversight Board (United States) (~~ PCAOB ~~)~~ and are required to be independent with respect to the Company in accordance with the U. S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud ~~. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company' s internal control over financial reporting. Accordingly, we express no such opinion~~ . Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion. The purchase was completed on July 31, 2023 for total consideration of $ 37. 0 million including $ 28. 5 million in cash and the remaining consideration is in the nature of deferred or contingent consideration and certain equity interest in Plastiq, Powered by Priority, LLC. The acquisition was accounted for as a business combination. The Company' s accounting for the acquisition included determining the fair value of contingent consideration payments in addition to intangible assets acquired of $ 30. 5 million, which primarily included customer relationships, referral partner relationships, tradename, and developed technology. Auditing the Company' s accounting for the acquisition was complex due to the significant estimation uncertainty in determining the fair values of the contingent consideration payments as well as the fair value of the acquired intangible assets. The significant estimation was primarily due to the sensitivity of the respective fair values to the future performance of the acquired business. The significant underlying assumptions used to estimate the fair value of contingent consideration payments and intangible assets, included revenue and operating margin growth rates and prospective free cash flow from the operations of the acquired business, weighted average cost of capital, and royalty rate assumptions, as applicable. These assumptions relate to the future performance of the acquired business are forward- looking and could be affected by future economic and market conditions. Description of the MatterAs more fully described in Note 2 of the consolidated financial statements, the Company completed its acquisition~~

~~of Plastiq, Inc. during the year ended December 31, 2023 for total consideration of $ 37. 0 million including $ 28. 5 million in cash and the remaining consideration of $ 8. 5 million was in the form of deferred or contingent consideration and certain equity interest in the acquiring entity. The acquisition was accounted for as a business combination. The Company' s accounting for the acquisition included determining the fair value of contingent consideration payments in addition to intangible assets acquired of $ 30 million, which primarily included customer relationships, referral partner relationships, tradename, and developed technology. Auditing the Company' s accounting for the acquisition was complex due to the significant estimation uncertainty in determining the fair values of the contingent consideration payments as well as the fair value of the acquired intangible assets. The significant estimation was primarily due to the sensitivity of the respective fair values to the future performance of the acquired business. The significant underlying assumptions used to estimate the fair value of contingent consideration payments and intangible assets, included revenue and operating margin growth rates and prospective free cash flow from the operations of the acquired entity, weighted average cost of capital, and royalty rate assumptions, as applicable. These assumptions relate to the future performance of the acquired business are forward- looking and could be affected by future economic and market conditions. How We Addressed the Matter in Our AuditTo test the fair value of the contingent consideration payments and intangible assets identified, our audit procedures included, among others, evaluating the Company' s use of income approach and Monte Carlo simulation, as applicable, evaluating the significant assumptions, and evaluating the completeness and accuracy of underlying data supporting the significant assumptions. We involved our specialist to assist with our evaluation of the methodologies used by management' s expert and significant assumptions used in the valuation of the contingent consideration payments and intangible assets identified. For example, we compared the significant assumptions to current industry, market and economic trends, as well as historical results of the acquired businesses. We performed sensitivity analyses of the significant assumptions to evaluate the change in the fair value resulting from changes in the assumptions. We also evaluated the appropriateness of the Company' s disclosures included in Note 2 in relation to the acquisition.~~ Accrued Residual Commissions and Residual Commission **ExpensesDescription** ~~Expenses Description~~ of the MatterAccrued residual commissions recorded by the Company and included on the Consolidated Balance Sheet were $ ~~33~~ **37** . ~~0~~ **6** million at December 31, ~~2023~~ **2024** , and residual commission expenses included within costs of services on the Consolidated Statement of Operations were $ ~~415~~ **426** . ~~1~~ **6** million for the year ended December 31, ~~2023~~ **2024** . As discussed in Note 1 of the consolidated financial statements, the Company accrues and pays commission expense for certain customer services and other services provided by its independent sales organizations (ISOs). Commissions are based on a percentage of the net revenues generated from the Company' s merchant customers, and these percentages vary based on the program type and transaction volume of each merchant. Auditing residual commissions was complex due to the non- standard nature of the pricing terms within the ISO contracts, the volume of contracts, the volume of transactions processed each month, and the degree of auditor judgment needed to design the nature and extent of audit procedures to obtain sufficient audit evidence. ~~41~~ How We Addressed the Matter in Our AuditTo test accrued residual commissions and residual commission expenses, our audit procedures included, among others, testing the completeness and accuracy of the underlying data supporting the commission calculations and the accuracy of the calculations. We selected a sample of monthly ISO payments and, for each sample item, we compared the pricing terms included in the calculation to the respective ISO contract or other source documents, recalculated the related expense and accrual, and agreed the commission payment to evidence of cash disbursement. Additionally, for these monthly ISO payments, we selected a sample of merchant customers **, then selected a transaction type** , obtained their monthly processing statements, which were generated by the Company' s third- party processors, and agreed the monthly payment volumes to the commission calculations. / s / Ernst & Young LLP We have served as the Company' s auditor since 2020. Atlanta, Georgia **45 Opinion on Internal Control Over Financial Reporting We have audited Priority Technology Holdings, Inc.' s internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework (the COSO criteria)). In our opinion, because of the effect of the material weakness described below on the achievement of the objectives of the control criteria, Priority Technology Holdings, Inc. (the Company) has not maintained effective internal control over financial reporting as of December 31, 2024, based on the COSO criteria. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company' s annual or interim financial statements will not be prevented or detected on a timely basis. The following material weakness has been identified and included in management' s assessment. Management has identified a material weakness related to the design and operation of certain automated controls (including related information technology general controls) for certain tools or applications involved in the transformation and ingestion of third- party processors' data in the Company' s control environment. The ingested data is a key input for determination of merchant revenue (and related accounts receivable) and residual expense (and related accounts payable). Consequently, automated controls and IT dependent manual business process controls that rely upon information from the affected financial applications and processes were also deemed ineffective. We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of December 31, 2024 and 2023, the related consolidated statements of operations and comprehensive loss, changes in shareholders' deficit and non- controlling interests and cash flows for each of the three years in the period ended December 31, 2024, and the related notes. This material weakness was considered in determining the nature, timing and extent of audit tests applied in our audit of the 2024 consolidated financial statements, and this report does not affect our report dated March 6, 2025 which expressed an unqualified opinion thereon. The Company' s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Report of Management on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company' s internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U. S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Definition and Limitations of Internal Control Over Financial Reporting A company' s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company' s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit 46 preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company' s assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.** ~~42Priority~~ **47Priority** Technology Holdings, Inc. Our BaaS features transaction monitoring, draft authorization audits, fee collection practice monitoring, and other services. The Company provides its services through three reportable segments: 1) SMB Payments; 2) B2B Payments; and 3) Enterprise Payments~~ . For additional information about our reportable segments, see Note ~~18~~ **19** . Segment Information. To provide many of its services, the Company enters into agreements with payment processors which in turn, have agreements with multiple card associations. These card associations comprise an alliance aligned with insured FIs (" member banks") that work in conjunction with various local, state, territory and federal government agencies to make the rules and guidelines regarding the use and acceptance of credit and the card associations. The Company has multiple sponsorship bank agreements and is itself a registered ISO with Visa. The Company is also a registered member service provider with Mastercard. The Company' s sponsorship agreements allow the capture and processing of electronic data in a format to allow such data to flow through networks for clearing and fund settlement of merchant transactions. The Company also offers money transmission services in ~~46~~ **forty six** U. S. states, the District of Columbia and two U. S. territories. Basis of Presentation and Consolidation The accompanying Consolidated Financial Statements include the accounts of the Company and its majority- owned subsidiaries. The Company generally utilizes the equity method of accounting when it has an ownership interest of between 20 % and 50 % in an entity, provided the Company is able to exercise significant influence over the investee' s operations. All material intercompany balances and transactions have been eliminated in consolidation. NCI represents the equity interest not owned by the Company and are recorded for consolidated entities in which the Company owns less than 100 % of the interests. Changes in the Company' s ownership interest while the Company retains its controlling ~~49~~ interest are accounted for as equity transactions, and upon loss of control, retained ownership interests are remeasured at fair value, with any gain or loss recognized in earnings. ~~For 2023, there~~ **There** was no income or loss attributable to NCI in accordance with the applicable operating agreements ~~. The results~~ for ~~the~~ **any** ~~year~~ **years presented** ~~ended December 31, 2023, include the post- acquisition results of the Plastiq business which was acquired through Chapter 11 bankruptcy process on July 31, 2023~~ . Use of Estimates The preparation of Consolidated Financial Statements in conformity with U. S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at **54** the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the reported period. Actual results could materially differ from those estimates. Revenue Recognition The Company applies the five- step model to assess its contracts with customers. At contract inception, the Company assesses the services and goods promised in its contracts with customers and identifies the performance obligation for each promise to transfer a distinct good or service to the customer. The Company recognizes revenue when it satisfies a performance obligation by transferring a service or good to the customer in an amount to which the Company expects to be entitled (i. e., transaction price) allocated to the distinct services or goods. The Company has elected the permitted practical expedient that allows it to use the portfolio approach for many of its contracts since this approach' s impact on the financial statements, when applied to a group of contracts (or performance obligations) with similar characteristics, is not materially different from the impact of applying the revenue standard on an individual contract basis. Under the portfolio practical expedient, collectability is still assessed at the individual contract level when determining if a contract exists. The Company has elected to exclude any contracts with an original duration of one year or less and any variable consideration that meets specified criteria from its disclosure of the aggregate amount of the transaction price allocated to unsatisfied performance. In delivering payment services to the customer, the Company ~~may~~ also ~~provide~~ **provides** a limited license agreement to the customer for the use of one or more of the Company' s proprietary cloud- based software applications. The Company grants a right to use its software applications only when the customer has contracted with the Company to receive related payment services. When combined with the underlying payment services, the license and the payment services provided to the customer are a single stand- ready obligation and the Company' s performance obligation is defined by each time increment, rather than by the underlying activities, (quantity and timing of which is not determinable), satisfied over time based on days elapsed. In order to provide our payment services, we obtain authorization for the transaction and request funds settlement from the card issuing financial institution through the payment network. When third parties are involved in the transfer of services or goods to the customer, the Company considers the nature of each specific promised service or good and applies judgment to determine whether the Company controls the service or good before it is transferred to the customer or whether the Company is acting as an agent of the third party **or principal to the customer** . To determine whether the Company controls the service or good, it assesses indicators including: 1) which party is primarily responsible for fulfillment; 2) which party has discretion in determining pricing for the service or good; and 3) other considerations deemed to be applicable to the specific situation. Based on our assessment of these indicators, we have concluded that the promise to our customers to provide payment services is distinct from the services provided by the card issuing FIs and payment networks in connection with payment transactions. We do not have the ability to direct the use of and obtain substantially all of the benefits of the services provided by the card issuing FIs and payment networks before those services are transferred to our customer, and on that basis, we do not control those services prior to being transferred to our customer. As a result, we present our revenues net of the interchange fees retained by the card issuing FIs and the fees charged by the payment networks **except for our Plastiq (B2B Payments) business where the Company is considered a merchant of record and therefore, revenue is presented on gross basis** . SMB Payments – The Company' s SMB Payments segment enables the Company' s customers to accept card, electronic and digital- based payments at the point of sale by providing a suite of services including authorization, settlement and funding, customer support and help- desk functions, chargeback resolution, payment security, consolidated billing and statements, and ~~50~~ online reporting. Additionally, the Company enables customers to accept card, electronic and digital- based payments at the point of sale by providing a suite of services. The Company also earns revenue and commissions from resale of electronic POS equipment and certain subscription coupons. Typically, revenues generated from these transactions are based on a variable percentage of the dollar amount of each transaction, and in some instances, additional fees (e. g., statement fees, annual fees and monthly minimum fees, fees for handling chargebacks, gateway fees and fees for other miscellaneous services) are charged for each transaction. The Company' s sponsoring banks collect the gross merchant discount from the card holder' s issuing bank, pay the interchange fees and **55** assessments to the payment networks and credit card associations, retain their fees, and pay to the Company the net amount which represents the Company' s revenue. B2B Payments – The Company' s B2B Payments segment enables the Company' s customers to automate their accounts payable and other commercial payments functions with the Company' s payment services that utilize physical and virtual payment cards as well as ACH transactions. The Company also provides cost- plus- fee turn- key business process outsourcing and assists commercial customers with programs that are designed to increase acceptance of Electronic Payments. Revenues are generally earned on a per- transaction basis and are recognized by the Company **over time,** net of certain third- party costs for interchange fees, assessments to the payment networks, credit card associations fees, sponsor bank fees and rebates to customers. The Company' s payables management software helps businesses improve cash flow with instant access to working capital, while automating and enabling control over all aspects of accounts receivable and payable. For these transactions, the Company acts as a merchant of record, therefore, considered as the principal and accordingly presents its revenue on a gross basis. The Company also offers volume rebates as an incentive to increase business and customer engagement. These rebates are presented as net of revenue. ~~Transaction processing costs, including interchange fees, are presented as costs of revenue.~~ Enterprise Payments – The Company' s Enterprise Payments segment uses payment- adjacent technologies to facilitate the acceptance of Electronic Payments from customers. Revenue from the Enterprise Payments segment consists of the following: • Enrollment fees: The revenue associated with enrollment fees is recognized **at a point in time** upon the receipt of a fully executed enrollment application, completion of the customer account setup, data verification and the constructive receipt of the applicable non- refundable fee. • Subscription fees: The Company recognizes monthly subscription fees as recurring maintenance fees each month during the term of the client' s enrollment. Revenue from transaction- based fees is recognized **over time** upon constructive receipt of transaction fees for payments to creditors issued via ACH payments, paper checks or wire transfers. These fees are transferred to the Company from the customer account balances, which may be maintained by the Company in money transmission license trust accounts or by partner banks. • Interest revenue: Interest revenue is derived from certain customer balances maintained in interest bearing accounts with select partner banks. • CRM and consulting fees: CRM license fees are recognized on a monthly basis and consulting fees are recognized **over time** when services are performed. A substantial portion of this segment' s revenues are earned as an agent of a third party, and therefore this earned revenue is reported as a net amount within revenue. **Interest income Interest income generated by the Company' s ordinary activities (i. e. from reserves and customer deposits) are presented within outsourced services and other services revenue.** See Note 3. Revenues **. Interest income from the Company' s surplus cash balances, notes receivable and other investments are included within other income. Interest on notes receivable is recognized on a monthly basis and is included in other income, net** . Transaction Price Allocated to Future Performance Obligations ASC 606 requires disclosure of the aggregate amount of the transaction price allocated to unsatisfied performance obligations. However, as allowed by ASC 606, the Company has elected to exclude from this disclosure any contracts with an original ~~51~~ duration of one year or less and any variable consideration that meets specified criteria. As described above, the Company' s most significant performance obligations consist of variable consideration under a stand- ready series of distinct days of service. **56** Such variable consideration meets the specified criteria for the disclosure exclusion. Therefore, the majority of the aggregate amount of transaction price that is allocated to performance obligations that have not yet been satisfied is variable consideration that is not required for this disclosure. The aggregate fixed consideration portion of customer contracts with an initial contract duration greater than one year is not material. Cost of Services Costs of merchant card fees primarily consist of residual payments to agents and ISOs and other third- party costs directly attributable to payment processing. The residual payments represent commissions paid to agents and ISOs based upon a percentage of the net revenues generated from merchant transactions. Costs of outsourced services and other revenue consist of salaries directly

related to outsourced services revenue, the cost of equipment (point of sale terminals) sold, and third- party fees and commissions related to the Company' s ACH processing activities. **For the Plastiq (B2B Payments) business, the Company acts as merchant of record and therefore transaction processing costs, including interchange fees, are presented as costs of services.** Contracts with Customers and Contract Costs The Company accrues and pays commission expense based on variable merchant payment volumes and for certain customer service and other services provided by its ISOs. Since commission expenses are accrued and paid to ISOs on a monthly basis after the merchant enters into a new or renewed contract, these are not deemed to be a cost to acquire a new contract but they are reported within costs of services on our Consolidated Statements of Operations and Comprehensive Loss. The ISO is typically an independent contractor or agent of the Company. The Company may occasionally elect to buy out all or a portion of an ISO' s rights to receive future commission payments related to certain merchants. Amounts paid to the ISO for these residual buyouts are capitalized and amortized over the useful life on a straight- line basis under the accounting guidance for intangible assets and included in intangible assets, net on our Consolidated Balance Sheets. ~~The Company pays bonuses to certain ISOs for meeting established performance criteria which results in a continued benefit to the Company for future periods. The incremental costs are incurred to secure a future stream of revenue and are recorded as contract acquisitions costs and are amortized over the estimated time on which benefit is expected to be received.~~ A contract with a customer creates a legal right and obligation. As the Company performs under customer contracts, its right to consideration that is unconditional is considered to be accounts receivable. If the Company' s right to consideration for such performance is contingent upon a future event or satisfaction of additional performance obligations, the amount of revenues recognized in excess of the amount billed to the customer is recognized as a contract asset. Contract liabilities represent consideration received from customers in excess of revenues recognized. Material contract assets and liabilities are presented net at the individual contract level in the Consolidated Balance Sheets and are classified as current or noncurrent based on the nature of the underlying contractual rights and obligations. Contract Acquisition Costs The Company pays certain bonuses to ~~it~~ **its** ~~' s~~ ISOs for boarding incremental merchants which the Company expects to obtain benefit from in future periods. These bonuses are recorded as contract acquisition costs and are amortized over **three or** five years. Net contract acquisition costs were $ **8. 7 million and $** 6. 6 ~~million and $ 2. 1~~ million at December 31, **2024 and December 31,** 2023 ~~and 2022~~, respectively. Amortization expense for contract acquisition costs for the years ended December 31, **2024 and** 2023 ~~and 2022~~ was $ ~~1~~ **2**, 0 million and $ **1.** 0 ~~. 2~~ million, respectively. Amortization expense for the year ended December 31, ~~2021~~ **2022**, was immaterial. Cash and Cash Equivalents and Restricted Cash Cash and cash equivalents includes highly liquid instruments with an original maturity of three months or less, and cash owned by the Company that is held in financial institutions. Restricted cash is held by the Company in financial institutions for the purpose of in- process customer settlements or reserves held per contact terms. ~~52~~ **57** Accounts Receivable, net Accounts receivable is stated net of allowance for current period credit losses for any uncollectible amounts and are amounts primarily due from the Company' s sponsor banks for revenues earned, net of related interchange and processing fees, and do not bear interest. Other types of accounts receivable are from agents, merchants **, card networks** and other customers. Amounts due from sponsor banks are typically paid within 30 days following the end of each month. Inventory Inventory consists primarily of POS terminals and certain subscription coupons which is carried at the lower of cost or net realizable value. Cost is equal to the purchase price and other expenses incurred with acquiring the inventory and is substantially valued using the weighted average cost method. The carrying amount is reduced when items are determined to be obsolete / expired. **For the year ended December 31, 2024, the Company had a write- off for obsolete inventory for $ 3. 5 million. The Company had no obsolete or expired inventory for the years ended December 31, 2023 and 2022. For the year ended December 31, 2024, the Company had inventory in transit of $ 7. 1 million.** Notes receivable are primarily comprised of notes receivable from ISOs under the terms of the agreements the Company preserves the right to hold back residual payments due to the ISOs and to apply such residuals against future payments due to the Company. Notes receivable are recorded at the unpaid principal balance ~~. Interest on notes receivable is recognized on a monthly basis and is included in interest income. See Note 5. Notes Receivable~~. Allowance for Expected Losses The Company utilizes a combination of aging and loss- rate methodologies to develop an estimate of current expected credit losses based on the nature and risks associated with the underlying asset pool. A broad range of factors are considered during the estimation of the allowance including historical losses, adjustments for current conditions and future trends. The Company may also utilize a mix of qualitative and quantitative risk factors within its estimation. The allowance for expected loss from accounts receivable was $ **3. 0 million and $** 5. 3 ~~million and $ 1. 1~~ million at December 31, ~~2023~~ **2024** and ~~2022, respectively. As of~~ December 31, 2023 ~~and~~ **, respectively. As of December 31,** ~~2022~~ **2024 and December 31, 2023**, there was no allowance for expected loss on notes receivable. See Note 5. Notes Receivable. As of December 31, **2024 and December 31,** 2023 ~~and 2022~~, the allowance for expected losses on settlement assets was $ **7. 9 million and $** 6. 6 ~~million and $ 5. 0~~ million, respectively. See Note 4. Settlement Assets and Customer / Subscriber Account Balances and Related Obligations. A reconciliation of the beginning and ending amount of allowance for expected losses is as follows for the year ended December 31, ~~2023~~ **2024**: (in thousands) Trade ReceivablesSettlement assetsBalance at January 1, ~~2023~~ **2024** $ (~~1~~ **5**, ~~143~~ **289**) $ (~~4~~ **6**, ~~976~~ **558**) Charge- offs (recoveries), ~~net130~~ **net6, 152 11, 707 Provision (** 3, **908** ~~407 Provision (1~~) (~~4~~ **13**, **085** ~~276) (4, 989~~) Balance at December 31, ~~2023~~ **2024** $ (~~5~~ **3**, ~~289~~ **045**) $ (~~6~~ **7**, ~~558~~ **936**) ~~(1) Provision for trade receivables includes restructuring related costs of $ 3. 5 million~~ The Company has elected not to measure expected losses for accrued interest on notes receivable but instead recognize losses for accrued interest within the period losses are incurred. **58** Customer Deposits and Advance Payments The Company may receive cash payments from certain customers and vendors that require future performance obligations by the Company. Amounts associated with obligations expected to be satisfied within one year are reported in customer deposits and advance payments on the Company' s Consolidated Balance Sheets and amounts associated with obligations expected to be satisfied after one year are reported as a component of other noncurrent liabilities on the Company' s Consolidated Balance Sheets. These payments are subsequently recognized in the Company' s Consolidated Statements of Operations and Comprehensive Loss when the Company satisfies the performance obligations required to retain and earn these deposits and advance payments. ~~53~~ A vendor may make an upfront payment to the Company to offset costs that the Company incurs to integrate the vendor into the Company' s operations. These upfront payments are deferred by the Company and are subsequently amortized against expense in its Consolidated Statements of Operations and Comprehensive Loss as the related costs are incurred by the Company in accordance with the agreement with the vendor. **Investments During the year ended December 31, 2024, the Company made an investment in an equity security, carried at the cost of $ 4. 8 million within other noncurrent assets. The fair value of this security is not readily determinable.** Property and Equipment Property and equipment are stated at cost, except for property and equipment acquired in a business combination, which is recorded at fair value at the time of the transaction. Depreciation is **primarily** calculated using the straight- line method over the estimated useful lives of the assets. Expenditures for repairs and maintenance which do not extend the useful life of the respective assets are charged to expense as incurred. Expenditures that increase the value or productive capacity of assets are capitalized. At the time of retirements, sales or other dispositions of property and equipment, the original cost and related accumulated depreciation are removed from the respective accounts and the gains or losses are presented as a component of income or loss from operations. Property, equipment and softwareEstimated Useful LifeFurniture and fixtures5- 10 yearsEquipment3- 8 yearsComputer software2- 5 yearsLeasehold improvements3- 10 years See Note 6. Property, Equipment and Software. Costs Incurred to Develop Software for Internal Use Costs incurred to develop or obtain internal- use software and implementation costs are accounted for in accordance with ASC 350- 40, Internal- Use Software. The Company uses an agile development methodology in which feature- by- feature updates are made to its software. The costs incurred in the preliminary stages of development are expensed as incurred. Once an application has reached the development stage, internal and external costs incurred to develop internal- use software are capitalized and amortized using the straight- line method over the estimated useful life of the software, which generally range from two to five years. Maintenance costs including those in the post- implementation stages, are typically expensed as incurred, unless such costs relate to substantial upgrades and enhancements to the software that result in added functionality, in which case such costs are capitalized and amortized using the straight- line method over the estimated useful life of the software. Software development costs may become impaired in situations where development efforts are abandoned due to the viability of the planned project becoming doubtful or due to technological obsolescence of the planned software product. ~~For the year ended December 31, 2023, there was accelerated depreciation for internal- use software of $ 0. 3 million from certain restructuring costs.~~ There were no impairment charges associated with internal- use software for the years ended December 31, **2024, 2023 and** 2022 ~~and 2021~~. **59** For the years ended December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~, the Company capitalized software development costs of $ **26. 1 million, $** 21. 3 million ~~,~~ **and** $ 16. 8 million ~~and $ 7. 8 million~~, respectively. As of December 31, **2024 and** 2023 ~~and 2022~~, capitalized software development costs, net of accumulated amortization, totaled $ **48. 1 million and $** 40. 6 ~~million and $ 28. 1~~ million, respectively, and are included in property, equipment and software, net on the Consolidated Balance Sheets. Amortization expense for capitalized software development costs for the years ended December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~ was $ **11. 8 million, $** 9. 4 million ~~,~~ **and** $ 6. 9 million ~~and $ 5. 9 million~~, respectively, and are included in depreciation and amortization on the Consolidated Statements of Operations and Comprehensive Loss. ~~54 Other intangible~~ **Intangible** assets are initially recorded at cost or fair value when acquired in connection with a business combination. The carrying value of an intangible asset acquired in an asset acquisition may subsequently be increased for contingent consideration when due to the seller and such amounts can be estimated. The portion of any unpaid purchase price that is contingent on future activities is not initially recorded by the Company on the date of acquisition. Rather, the Company recognizes contingent consideration when it becomes probable and estimable. All of the Company' s intangible assets, except goodwill and money transmission licenses, have finite lives and are subject to amortization. Intangible assets consist of acquired merchant portfolios, customer relationships, ISO and referral partner relationships, residual buyouts, trade names, technology, non- compete agreements and money transmission licenses. S. states, the District of Columbia and two U. S. territories. indefinite Impairment of Long- lived Assets The Company reviews its long- lived assets for impairment whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. For long- lived assets, except goodwill **and indefinite- lived intangibles**, an impairment loss is indicated when the undiscounted future cash flows estimated to be generated by the asset group are not sufficient to recover the carrying value of the asset group. If indicated, the loss is measured as the excess of carrying value over the asset groups' fair value, as determined based on discounted future cash flows. The Company concluded there were no indications of impairment for the years ended December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~. See Note 7. Goodwill and Other Intangible Assets.

~~The~~ **Goodwill and Indefinite- lived IntangiblesThe** Company tests goodwill **and indefinite- lived intangibles** for impairment on an annual basis, or when events occur or circumstances indicate the fair value of a reporting unit is below its carrying value. The test for ~~goodwill~~ impairment may be a qualitative or a quantitative analysis depending on the facts and circumstances associated with the reporting unit. If the fair value of a reporting unit is less than its carrying value, an impairment loss is recorded to the extent that implied fair value of the **indefinite- 60 lived intangibles or** goodwill within the reporting unit is less than its carrying value. See Note 7. Goodwill and Other Intangible Assets for further information. The Company evaluates lease and service arrangements at lease inception to determine if the arrangement is a lease or contains a lease. Lease arrangements are evaluated at their commencement date to determine classification as operating or finance. Operating leases are reported as part of other noncurrent assets, accounts payable and accrued expenses and other noncurrent liabilities on the Company' s Consolidated Balance Sheets. Finance leases, if applicable, are reported as part of property, equipment and software, net, and debt on the Company' s Consolidated Balance Sheets. Leases with a term of twelve months or less **(" short- term leases")** are generally not included on the Company' s Balance Sheets. The Company does not separate lease and non- lease components. Certain estimates and assumptions are made when determining the value of ROU Assets and the related liabilities, including when establishing the lease term and discount rates and variable lease payments (e. g., rent escalations tied to changes in the Producer Price Index). The lease term for all of the Company' s leases includes the non- cancelable period of the lease adjusted for any renewal or termination options the Company is reasonably certain to exercise. The lease payment stream includes any rent escalation that is required under certain lease agreements. The Company' s leases generally do not provide an ~~55~~ implicit rate of interest, nor is it readily determinable by the Company, and as such the Company uses its incremental borrowing rate in determining the discounted value of the lease payments. Lease expense and depreciation expense, if applicable, are recognized on a straight- line basis over the term of the lease. Settlement assets and customer / subscriber account balances and the related obligations recognized on the Company' s Consolidated Balance Sheets represent intermediary balances arising in the Company' s settlement process for merchants and other customers. See Note 4. Settlement Assets and Customer / Subscriber Account Balances and Related Obligations. Debt Issuance and Modification Costs Eligible debt issuance costs associated with the Company' s credit facilities are deferred and amortized to interest expense over the term of the related debt using the effective interest method. Debt issuance costs associated with Company' s term debt are presented on the Company' s Consolidated Balance Sheets as a direct reduction in the carrying value of the associated debt liability. ~~Debt modification costs represent amounts paid to third parties to modify existing debt agreements when those amounts are not eligible for capitalization. See Note 10. Debt Obligations for amounts paid for the year ended December 31, 2023, which were not eligible for capitalization.~~ Restructuring Costs The Company' s Management approved a plan to restructure the business of its wholly owned subsidiary, PayRight. PayRight' s business activity included advancing funds to customers, which did not generate the desired financial results due to changes in the economic environment, particularly the cost of capital. The restructuring plan ~~includes~~ **included** termination of the advancing business effective June 30, 2024. The Company included costs related to this restructuring within selling, general and administrative operating expenses and depreciation and amortization within its Consolidated Statement of Operations and Comprehensive Loss for the year ended December 31, 2023. The costs include allowance for certain advances whose recoverability was impacted by the restructuring of $ 3. 5 million and $ 0. 3 million for accelerated depreciation and amortization of assets of the restructured business. Business Combinations and Asset Acquisitions The Company uses the acquisition method of accounting for business combinations which requires assets acquired and liabilities assumed to be recognized at their fair values on the acquisition date. Goodwill represents the excess of the purchase price over the fair value of the net assets acquired. The fair values of the assets acquired and liabilities assumed are determined based upon the valuation of the acquired business and involves making significant estimates and assumptions based on facts and circumstances that existed as of the acquisition date. The Company uses a measurement period following the acquisition date to gather information that existed as of the acquisition date that is needed to determine the fair value of the assets acquired **61** and liabilities assumed. The measurement period ends once all information is obtained, but no later than one year from the acquisition date. The Company accounts for a transaction as an asset acquisition when substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets, or otherwise does not meet the definition of a business. Asset acquisition- related costs are capitalized as part of the asset or assets acquired. Contingent Consideration Contingent consideration related to the Company' s business combinations are estimated based on the present value of a weighted payout probability at the measurement date using a Monte Carlo simulation model. This valuation falls within Level 3 on the fair value hierarchy. **A change in inputs in the valuation techniques used might result in a significantly higher or lower fair value measurement than what is reported.** The current portion of contingent consideration is included in accounts payable and accrued expenses on the Company' s Consolidated Balance Sheets and the noncurrent portion of contingent consideration is included in other noncurrent liabilities on the Company' s Consolidated Balance Sheets. ~~56~~ For asset acquisitions that do not meet the definition of a business, the portion of the unpaid purchase price that is contingent on future activities is not recorded by the Company on the date of acquisition, but when it becomes probable and can be estimated. Non- controlling Interests Occasionally, the Company issues common equity and non- voting incentive units within its subsidiaries. The Company is the majority owner of these subsidiaries and, therefore, the common equity and incentive units are deemed to be NCI. NCI is valued based on the events and methodologies including the acquisition- date fair value or the option pricing method ~~. See Note 2. Acquisitions for further information related to the fair value of the common equity issued during 2023~~ . To estimate the initial fair value of the incentive units, the Company utilizes future cash flow scenarios with focus on those cash flow scenarios which could result in future distributions to the NCIs. In subsequent periods, income or loss will be attributed to an NCI based on the hypothetical liquidation at book value method utilizing the terms of the operating agreement between the Company and the NCI. As the majority owner, the Company has call rights on the incentive units issued to the NCIs. These call rights can only be executed under certain circumstances and execution is always optional at the Company' s discretion. The call rights do not meet the definition of a free- standing financial instrument or derivative; thus no separate accounting is required for these call rights. Accrued residual commissions consist of amounts due to ISOs and independent sales agents based on a percentage of the net revenues generated from the Company' s merchant customers referred by the respective ISO and independent sales agent. Percentages vary based on the program type and transaction volume of each merchant. Residual commission expenses were $ **426. 6 million, $** 415. 1 million ~~,~~ **and** $ 396 ~~. 2 million and $ 330~~ . 2 million, respectively, for the years ended December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~ , and are included in costs of services in the accompanying Consolidated Statements of Operations and Comprehensive Loss. ISO Deposit and Loss Reserve ISOs may partner with the Company in an exclusive partner program in which ISOs are given negotiated pricing in exchange for bearing the risk of loss. Through the arrangement, the Company accepts deposits on behalf of the ISO and a reserve account is established by the Company. All amounts maintained by the Company are included in the accompanying Consolidated Balance Sheets as other **noncurrent** liabilities, which are directly offset by restricted cash accounts owned by the Company of $ **5. 2 million and $** 6. 4 million ~~and $ 5. 1 million~~ as of December 31, **2024 and** 2023 ~~and 2022~~ , respectively. The Company recognizes the cost resulting from all stock- based payment transactions in the financial statements at grant date fair value. Stock- based compensation expense is recognized over the requisite service period and is reflected in salary and employee benefits expense on the Company' s Consolidated Statements of Operations and Comprehensive Loss. Awards generally vest over three or four years and may not vest evenly over the vesting period. The effects of forfeitures are recognized as they occur. All shares issued from option exercises or vesting of **PSU and** RSU awards are original issuance shares and any shares withheld for taxes are repurchased by the Company. The Company measures a liability award under a stock- based compensation payment arrangement based on the award' s fair value remeasured at each reporting date until the date of settlement. Compensation cost for each period until settlement is based on the change (or a portion of the change, depending on the percentage of the requisite service that has been rendered at the reporting date) in the fair value of the instrument for each reporting period. **The Company had no liability classified awards for the year ended December 31, 2024, 2023, and 2022.** Stock Options Under the Company' s 2018 Plan, the Company determines the fair value of stock options using the Black- Scholes option pricing model, which requires the use of the following subjective assumptions: ~~57~~ Expected volatility – Measure of the amount by which a stock price has fluctuated or is expected to fluctuate. In 2018, when the Company' s outstanding stock options were granted, there was a relatively short amount of time that the Company' s Common Stock (Nasdaq: PRTH) were traded on a public market, the Company utilized volatility data for the Common Stock of a peer group of comparable public companies. An increase in the expected volatility would increase the fair value of the stock option and related compensation expense. Risk- free interest rate – U. S. Treasury rate for a stripped- principal treasury note as of the grant date having a term equal to the expected term of the stock option. An increase in the risk- free interest rate will increase the fair value of the stock option and related compensation expense. Expected term – Period of time over which the stock options granted are expected to remain outstanding. In 2018, when the Company' s outstanding stock options were granted, the Company lacked sufficient exercise information for its stock option plan since it was a newly public company. Accordingly, the Company used a method permitted by the SEC whereby the expected term was estimated to be the mid- point between the vesting dates and the expiration dates of the stock option grants. An increase in the expected term will increase the fair value of the stock option and the related compensation expense. Dividend yield – The Company uses an amount of zero as the Company has paid no cash or stock dividends and does not anticipate doing so in the foreseeable future. An increase in the dividend yield will decrease the fair value of the stock option and the related compensation expenses. If a participant terminates employment with the Company, vested options may be exercised for a short period of time while unvested options are forfeited. However, in any event, a stock option will expire ten years from the date of the grant. ~~Time~~ **Service** - based restricted stock awards The fair value of time- based restricted stock awards is determined based on the quoted closing price of the Company' s Common Stock on the business day prior to the grant date and is recognized as compensation expense over the vesting term of the awards. Performance- based restricted stock awards The Company accounts for its performance- based restricted stock awards based on the quoted closing price of the Company' s Common Stock on the business day prior to the grant date, adjusted for any market- based vesting criteria, and records stock- based compensation expense over the vesting term of the awards based on the probability that the performance criteria will be achieved. The performance goals may be work- related goals for the individual recipient and / or based on certain corporate performance goals. The Company reassesses the probability of vesting at each reporting period and prospectively adjusts stock- based compensation expense based on its probability assessment. Additionally, if performance goals are set or reset on an **63** annual basis, compensation cost is recognized in any reporting period only for performance- based restricted stock awards in which the performance goals have been established and communicated to the award recipient. Non- voting Incentive Units The Company issued non- voting incentive units to certain employees and partners in ~~six~~ **seven** subsidiaries. These non- voting incentive units were determined to be equity and are accounted for under ASC 718 Stock Compensation. The non- voting incentive units are either fully vested when granted, or vest according to the service period and / or performance measure noted in the grant agreement. As the non- voting incentive units are vested, they are recognized as NCI to the

Company, who is the majority owner of the subsidiaries. Employee Stock Purchase Program The 2021 Employee Stock Purchase plan authorizes the issuance of shares of the Company' s Common Stock pursuant to purchase rights granted to employees. The fair value of purchase rights issued under the Employee Stock purchase Plan is estimated using the Black- Scholes option pricing model. The model requires management to make a number of assumptions, including the fair value of the Company' s Common Stock, expected volatility, expected term, risk- free interest rate, and ~~58~~ expected dividends. The Company records the resulting compensation expense in the Consolidated Statements of Operations and Comprehensive Loss over each three- month offering period. See Note 14. Stock- based Compensation. Repurchased Stock Pursuant to the provisions of ASC 505- 30, Treasury Stock, the Company has elected to apply the cost method when accounting for treasury stock resulting from the repurchase of its Common Stock. Under the cost method, the gross cost of the shares reacquired is charged to a contra equity account, treasury stock. The equity accounts that were originally credited for the original share issuance, Common Stock and additional paid- in capital, remain intact. See Note 13. ~~Stockholders~~ **Shareholders** ' Deficit. If the treasury shares are ever reissued in the future, proceeds in excess of repurchased cost will be credited to additional paid- in capital. Any deficiency will be charged to retained earnings (accumulated deficit), unless additional paid- in capital from previous treasury stock transactions exists, in which case the deficiency will be charged to that account, with any excess charged to retained earnings (accumulated deficit). If treasury stock is reissued in the future, a cost flow assumption (e. g., FIFO, LIFO or specific identification) will be adopted to compute excesses and deficiencies upon subsequent share reissuance. Earnings (Loss) per Share Basic EPS is computed by dividing net income (loss) available to Common ~~Stockholders~~ **Shareholders** by the weighted- average number of shares of Common Stock outstanding during the period, excluding the effects of any potentially dilutive securities. Diluted EPS gives effect to the potential dilution, if any, that could occur if securities or other contracts to issue Common Stock were exercised or converted into Common Stock, using the more dilutive of the two- class method or if- converted method. Diluted EPS excludes potential shares of Common Stock if their effect is anti- dilutive. If there is a net loss in any period, basic and diluted EPS are computed in the same manner. See Note 13. ~~Stockholders~~ **Shareholders** ' Deficit. Income Taxes The Company accounts for income taxes under the asset and liability method. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using enacted tax rates and laws that are expected to be in effect when the differences are expected to be recovered or settled. Realization of deferred tax assets is dependent upon future taxable income. A valuation allowance is recognized if it is more likely than not that some portion or all of a deferred tax asset will not be realized based on the weight of available evidence, including expected future earnings. The Financial Accounting Standards Board, or FASB, Staff has provided additional guidance to address the accounting for the effects of the provisions related to the taxation of Global Intangible Low- Tax Income noting that companies should make an accounting policy election to recognize deferred taxes for temporary basis differences expected to reverse in future years or to **64** include the tax expense in the year it is incurred. The Company has made a policy election to recognize such taxes as current period expenses when incurred. The Company recognizes an uncertain tax position in its financial statements when it concludes that a tax position is more likely than not to be sustained upon examination based solely on its technical merits. Only after a tax position passes the first step of recognition will measurement be required. Under the measurement step, the tax benefit is measured as the largest amount of benefit that is more likely than not to be realized upon effective settlement. This is determined on a cumulative probability basis. The full impact of any change in recognition or measurement is reflected in the period in which such change occurs. The Company recognized interest and penalties associated with uncertain tax positions as a component of income tax expense. See Note 12. Income Taxes. Fair Value Measurements The Company measures certain assets and liabilities at fair value. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Company uses a three- level fair ~~59~~ value hierarchy to prioritize the inputs used to measure fair value and maximizes the use of observable inputs and minimizes the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows: Level 1 – Quoted market prices in active markets for identical assets or liabilities as of the reporting date. Level 2 – Observable market- based inputs or unobservable inputs that are corroborated by market data. Level 3 – Unobservable inputs that are not corroborated by market data. The fair values of the Company' s merchant portfolios, assets and liabilities acquired in mergers and business combinations, and contingent consideration are primarily based on Level 3 inputs and are generally estimated based upon valuation techniques that include discounted cash flow analysis based on cash flow projections or Monte Carlo simulations and, for years beyond the projection period, estimates based on assumed growth rates. Assumptions are also made regarding appropriate discount rates, perpetual growth rates, and capital expenditures, among others. In certain circumstances, the discounted cash flow analysis or Monte Carlo simulation is corroborated by a market- based approach that utilizes comparable company public trading values and, where available, values observed in public market transactions. The carrying values of accounts and notes receivable, accounts payable and accrued expenses, long- term debt, restricted cash and cash equivalents, including settlement assets and the associated deposit liabilities, approximate their fair values due to either the short- term nature of such instruments or the fact that the interest rate of the debt is based upon current market rates. See Note ~~17~~ **18** . Fair Value. Foreign Currency The Company' s reporting currency is the U. S. dollar. The functional currency of the Indian subsidiary of the Company is Indian Rupee (i. e. local currency of Republic of India). The functional currency of the Canadian subsidiary of the Company is the Canadian Dollar. Accordingly, assets and liabilities denominated in a foreign currency are translated into U. S. dollars at the current exchange rate on the last day of the reporting period. Revenues and expenses are translated using the average exchange rate in effect during the reporting period. Translation adjustments are reported as a component of accumulated other comprehensive income (loss). Concentration of Risk A substantial portion of the Company' s revenues and receivables are attributable to merchants. For the years ended December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~ , no individual merchant customer accounted for 10 % or more of the Company' s consolidated revenues. Most of the Company' s merchant customers were referred to the Company by an ISO or other reseller partners. If the Company' s agreement with an ISO allows the ISO to have merchant portability rights, the ISO can move the underlying merchant relationships to another merchant acquirer upon notice to the Company and completion of a" wind down" **65** period. For the years ended December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~ , merchants referred by one ISO organization with merchant portability rights generated revenue within the Company' s SMB Payments reportable segment that represented approximately **6 %,** 15 % ~~,~~ **and** 21 ~~% and 22~~ %, respectively, of the Company' s consolidated revenues. As of December 31, ~~2023~~ **2024** , the Company' s settlement assets and customer / subscriber account balances of $ ~~745~~ **940** . ~~6~~ **8** million includes cash and cash equivalents of $ ~~710~~ **924** . ~~8~~ **2** million related to customer account balances which are maintained in FDIC insured accounts with certain FIs. See Note 4. Settlement Assets and Customer / Subscriber Account Balances and Related Obligations. A majority of the Company' s cash and restricted cash (including subscriber account balances) is held in certain FIs, substantially all of which is in excess of FDIC limits. On at least an annual basis, the Company reviews qualitative and quantitative factors including earnings (with emphasis on return on equity and net interest margin), capitalization (with emphasis on Tier 1 and Capital ratios), asset quality (emphasis on Net charge- offs ratios), and liquidity, evaluating the performance of these FIs with their peers. The Company may shift funds as a response to risks noted and to optimize returns and costs. The Company does not believe it is exposed to any significant credit risk from these transactions. ~~60~~ Recently Adopted Accounting Standards ~~Credit Losses In June 2016, the FASB issued ASU 2016- 13, Measurement of Credit Losses on Financial Instruments (" ASU 2016- 13"). This new guidance changes how entities account for credit impairment for trade and other receivables, as well as for certain financial assets and other instruments. ASU 2016- 13 replaces the current" incurred loss" model with an" expected loss" model. Under the" incurred loss" model, a loss (or allowance) is recognized only when an event has occurred (such as a payment delinquency) that causes the entity to believe that a loss is probable (i. e., that it has been" incurred"). Under the" expected loss" model, a loss (or allowance) is recognized upon initial recognition of the asset that reflects all future events that leads to a loss being realized, regardless of whether it is probable that the future event will occur. The Company adopted ASU 2016- 13 effective January 1, 2023 using the modified- retrospective approach. The implementation of ASU 2016- 13 did not have a material impact on the Company' s Audited Consolidated Financial Statements. Additionally, the Company modified its accounting policy to conform with the requirements of the adoption of this standard. Reference Rate Reform In March 2020, the FASB issued ASU 2020- 04, Facilitation of the Effects of Reference Rate Reform on Financial Reporting, which provides temporary optional expedients and exceptions to the GAAP guidance on contract modifications and hedge accounting to ease the financial reporting burdens of the expected market transition from the LIBOR and other interbank offered rates to alternative reference rates, such as the SOFR. An entity that makes this election would not have to remeasure the contract at the modification date or reassess a previous accounting determination. In January 2021, the FASB issued ASU 2021- 01, Reference Rate Reform (Topic 848), Scope ASU 2021- 01, which clarifies that certain optional expedients and exceptions in Topic 848 for contract modifications and hedge accounting apply to derivatives that are affected by the discounting transition. The Company adopted the optional expedients of Topic 848 on June 30, 2023 upon the amendments of its Credit Agreement (see Note 10. Debt Obligations) and the Certificate of Designation (see Note 11. Redeemable Senior Preferred Stock and Warrants), which transitioned the Company' s reference rates from LIBOR to SOFR. The adoption of this standard did not have a material impact on the Company' s Consolidated Financial Statements. Recently Issued Accounting Standards Pending Adoption~~ Segment Reporting ~~ASU 2023- 07~~ In November 2023, the FASB issued ASU 2023- 07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which requires incremental reportable segment disclosures, primarily about significant segment expenses. The amendments also require entities with a single reportable segment to provide all disclosures required by these amendments, and all existing segment disclosures. This guidance is effective for fiscal years beginning after December 15, 2023, and interim periods after December 15, 2024. The Company ~~will~~ **has** ~~adopt~~ **adopted** this guidance for the year ended December 31, 2024. This guidance ~~is expected to~~ only ~~impact~~ **impacts** the disclosures with no impact on the results of operations, financial position or cash flows. **Recently Issued Accounting Standards Pending Adoption** Income Taxes ASU 2023- 09 In December 2023, the FASB issued ASU 2023- 09, Income Taxes (Topic 740): Improvement to Income Tax Disclosures, to enhance the transparency and decision usefulness of income tax disclosures. The guidance includes improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid. This guidance is effective for annual periods beginning after December 15, 2024, with early adoption permitted. **Profit Interest ASU 2024- 01 In March 2024, the FASB issued ASU 2024- 01, Profit Interest and Similar Awards (" ASU 2024- 01"), to improve GAAP by adding an illustrative example to demonstrate how an entity should apply the scope in paragraph 718- 10- 15- 3 to determine whether profit interest and similar awards should be accounted for in accordance with Topic 718, Compensation- Stock Compensation. This guidance is effective for annual periods beginning after December 15, 2024, with early adoption permitted.** The Company is in the process of evaluating ~~when it will adopt this guidance and~~ the potential effects this guidance will have **. Disaggregation of Income Statement Expenses ASU 2024- 03 In November 2024, the FASB issued ASU 2024- 03, Income Statement- Reporting Comprehensive Income- Expense Disaggregation Disclosures (Subtopic 220- 40) (" ASU 2024-**

03") requiring additional disaggregated disclosures in the notes to financial statements for certain categories of expenses that are included on **the face of the income statement. The ASU** ~~its~~ **is effective for fiscal years beginning after December 15, 2026 and interim periods beginning after December 15, 2027. Early adoption is permitted. The Company will adopt this guidance for the year ended December 31, 2026. Acquisitions **Acquisitions occurred in prior years** Plastiq Acquisition On May 23, 2023, Plastiq, Powered by Priority, LLC (the" Acquiring Entity"), a subsidiary of ~~PRTH~~ **Priority** , entered into a stalking horse equity and asset purchase agreement with Plastiq, Inc. and certain of its affiliates (" Plastiq") to acquire substantially all of the assets of Plastiq, including the equity interest in Plastiq Canada, Inc. Plastiq is a buyer funded B2B payments platform offering bill pay and instant access to working capital to its customers and will complement the Company' s existing supplier- funded B2B Payments business. On May 24, 2023, Plastiq filed voluntary petitions for relief under Chapter 11 of Title 11 of the United States Code in the United States Bankruptcy Court for the District of Delaware. The purchase was completed on July 31, 2023 for a total purchase consideration of approximately $ 37. 0 million. The total purchase consideration included $ 28. 5 million in cash and the remaining consideration is in the nature of deferred or contingent consideration and certain equity interest in the Acquiring Entity. The cash consideration for the purchase was funded by borrowings from the Company' s revolving credit facility. The acquisition was accounted for as a business combination using the acquisition method of accounting, under which the acquired assets and assumed liabilities were recognized at their fair values as of July 31, 2023, with the excess of the fair value of consideration transferred over the fair value of the net assets acquired recognized as goodwill. The fair values of the acquired assets and assumed liabilities as of July 31, 2023 were estimated by management using the discounted cash flow method and other factors specific to certain assets and liabilities. The ~~preliminary~~ **final** purchase price allocation is set forth in the table below **:** ~~and expected to be finalized as soon as practicable but no later than one year from the closing date.~~ (in thousands) Consideration: Cash $ 28, 500 Contingent consideration payments (1) 8, 419 Common equity of the Acquiring Entity330 Less: cash and restricted cash acquired (~~3) (~~278) Total purchase consideration, net of cash and restricted cash acquired $ 36, 971 Recognized amounts of assets acquired and liabilities assumed: Accounts receivable ~~(3)~~ $ 831 Prepaid ~~expenses~~ **expenses490** ~~(3) 469~~ Settlement assets8, 277 Equipment, net47 Goodwill (3) 7, ~~252~~ **240** Intangible assets (2) 30, 460 Accounts payable and accrued expenses (~~3) (~~1, ~~872~~ **881**) Customer deposits (214) Settlement obligations (8, 279) Total purchase consideration $ 36, 971 (1) The fair value of the contingent consideration payments issued was determined utilizing a Monte Carlo simulation. The contingent consideration payments were calculated based on the path for the simulated metrics and the contractual terms of the contingent consideration payments and were discounted to present value at a rate reflecting the risk associated with the payoffs. The fair value was estimated to be the average present value of the contingent consideration payments over all iterations of the simulation. (2) The intangible assets acquired consist of $ 13. 0 million for customer relationships, $ 7. 0 million for referral partner relationships, $ 6. 5 million for technology and $ 3. 9 million for trade name. **67** (3) During the ~~fourth~~ **first and second** ~~quarter~~ **quarters of** ~~2023~~ **2024** , the Company recorded **immaterial** measurement period adjustments due to ~~additional information received related to cash acquired, accounts receivable, prepaid expenses, goodwill and accounts payable. This 62 measurement period adjustment resulted in decreases in cash and restricted cash acquired of $ 40. 0 thousand, and accounts receivable of $ 50. 0 thousand offset by increases in prepaid expenses of $ 46. 0 thousand, and goodwill of $ 0. 3 million, and accounts payable of $ 0. 2 million. The contingent consideration will not exceed the contractual undiscounted future value of $ 23. 1 million and will be remeasured quarterly based on actual operating results. As of December 31, 2023, total consideration was $ 9. 7 million, $ 2. 2 million included in accounts payable and accrued expenses and $ 7. 5 million included in noncurrent liabilities on the Consolidated Balance Sheets. Total interest accreted for the year was $ 1. 3 million. The Company will make quarterly payments equal to 75 % of the cash available for the contingent consideration as required by the contract. The payment made for the year ended December 31, 2023, was immaterial. This business is reported within the Company' s B2B Payments reportable segment. The Company' s Consolidated Financial Statements for year ended December 31, 2023 include the operating results of Plastiq from August 1, 2023 through December 31, 2023 as noted in the table below: Year Ended December 31, 2023 (in thousands) Revenues $ 27, 436 Operating loss (1) $ (1, 997) (1) Excluding acquisition related costs of $ 1. 3 million The bankruptcy of Plastiq, Inc. before acquisition by the Company resulted in significant changes to the cost structure of the acquired business. As~~ a **result,** ~~pre- acquisition~~ **tax accrual** ~~financial information is not relevant~~ and **security deposit** ~~therefore impractical to include. For the twelve months ended December 31, 2023, the Company incurred $ 1. 7 million in acquisition related costs,~~ which ~~primarily consisted of consulting, legal and accounting and valuation expenses. These expenses were recorded in selling, general and administrative expenses in the Company' s Consolidated Statements of Operations and Comprehensive Loss. Based on the purchase consideration and pre- acquisition operating results~~ **resulted** ~~, this business combination did not meet the materiality requirements for pro forma disclosures. Acquisitions occurring~~ in ~~prior years Ovvi Acquisition On November 18, 2022, the Company completed its acquisition of certain assets and assumption of a certain liability of Ovvi, LLC, under~~ an ~~asset purchase agreement through its wholly- owned subsidiary, Priority Ovvi, LLC (" Ovvi"). The acquisition was accounted for as a business combination using the acquisition method of accounting. Prior to this acquisition, the business operated as a SaaS proprietary platform for the restaurant, hospitality and retail industries by providing complete all- in- one point of sale software and hardware systems, comprehensive ancillary services including fraud detection and mitigation, and processing services for various types of cards including credit cards, debit cards, private label cards and prepaid cards. This business is reported within the Company' s SMB Payments reportable segment. Transaction costs were not material and were expensed. The non- voting incentive shares issued to the seller will be evaluated at each reporting period to determine whether or not profit or loss should be allocated based on the subsidiary' s operating agreement. The preliminary purchase price allocation is set forth in the table below and is expected to be finalized as soon as practicable, but no later than one year from the acquisition date. 63 (in thousands) Consideration: Cash (1) $ 5, 026 Fair value of class B shares issued in Ovvi (NCI) (3) 5, 026 Total enterprise value of business acquired (3) 659 $ 5, 685 Recognized amounts of assets acquired and liabilities assumed: Accounts receivable (4) $ 43 Inventory (4) 98 Property, equipment and software, net20 Goodwill (3) (4) 3, 504 Intangible assets (2) 2, 021 Other non- current asset152 Other non- current liability (153) Total enterprise value of business acquired (3) $ 5, 685 (1) Includes $ 50. 0 thousand withheld for inventory acquired which was subsequently released in March 2023. (4) During the third quarter of 2023~~ , ~~the Company recorded measurement period adjustments due to additional information received related to~~ accounts ~~receivable and inventory. This measurement period adjustment resulted in a decrease of $ 0. 1 million in accounts receivable and inventory, offset by an increase in goodwill of $ 0. 1 million. Finxera Acquisition On September 17, 2021, the Company completed its acquisition of 100 % of the equity interests of Finxera. Finxera is a provider of deposit account management and licensed money transmission services in the U. S. The acquisition allows the Company to offer clients turn- key merchant services, payment facilitation, card issuing, automated payables, virtual banking, e- wallet tools, risk management, underwriting and compliance on a single platform. The transaction was funded with the Company' s cash on hand, proceeds from the issuance of the redeemable senior preferred stock and debt, and the issuance of common equity shares to the sellers. The acquisition was accounted for as a business combination using the acquisition method of accounting, under which the assets acquired and liabilities assumed were recognized at their fair values as of the September 17, 2021, with the excess of the fair value of consideration transferred over the fair value of the net assets acquired recognized as goodwill. The fair values of the assets acquired and liabilities assumed as of the September 17, 2021 were estimated by management based on the valuation of the Finxera business using the discounted cash flow method and other factors specific to certain assets and liabilities. (2) The intangible assets acquired consist of $ 154. 9 million for referral partner relationships, $ 34. 3 million for technology, $ 20. 1 million for customer relationships and $ 2. 1 million for money transmission licenses. Goodwill of $ 244. 7 million arising from the acquisition primarily consists of the expected synergies and other benefits from combining operations. Goodwill attributable to the acquisition of $ 8. 7 million was deductible for income tax purposes. The goodwill was allocated 100 % to the Company' s Enterprise Payments reportable segment. Wholesale Payments, Inc. On April 28, 2021, a subsidiary of the Company completed its acquisition of certain residual portfolio rights for a purchase price of $ 42. 4 million and $ 24. 8 million of post- closing payments and earn- out payments based on meeting certain attrition thresholds over a three- year period from the date of acquisition. The transaction did not meet the definition of a business, therefore it was accounted for as an asset acquisition under which the cost of the acquisition was allocated to the acquired assets based on relative fair values. As an asset acquisition, additional purchase price is accounted for when payment to the seller becomes probable and is added to the carrying value of the asset. The seller' s note payable to the Company of $ 3. 0 million and an advance of $ 2. 0 million outstanding at the time of the purchase were netted against the initial purchase price, resulting in cash of $ 41. 2 million being paid by the Company to the seller, which was funded from cash proceeds from the issuance of the redeemable senior preferred stock and cash on hand~~ **and** ~~. C & H Financial Services, Inc. On June 25, 2021, a subsidiary of the Company acquired certain assets and assumed certain related liabilities under an asset purchase agreement. The acquisition was accounted for as a business combination using the acquisition method of accounting. Prior to this acquisition, the business was an ISO partner of the Company where it developed expertise in software- integrated payment services, as well as marketing programs for specific verticals such as automotive and youth sports. This business is reported within the Company' s SMB Payments reportable segment. The initial purchase price for the net assets was $ 35. 0 million in cash and a total purchase price of not more than $ 60. 0 million including post- closing payments and earn- out payments based on certain gross profit and revenue achievements over a three- year period from the date of acquisition. The 65 acquisition date fair value of the contingent consideration was $ 4. 7 million, which increased the total purchase price to $ 39. 7 million. The seller' s note payable to the Company of $ 0. 5 million at the time of purchase was netted against the initial purchase price, resulting in cash of $ 34. 5 million being paid by the Company to the seller, which was funded from a $ 30. 0 million draw down from a revolving credit facility and $ 4. 5 million cash on hand. Transaction costs were not material and were expensed.~~

Settlement Assets and Customer / Subscriber Account Balances and Related Obligations SMB Payments Segment In the Company' s SMB Payments reportable segment, funds settlement refers to the process of transferring funds for sales and credits between card issuers and merchants. The standards of the card networks require possession of funds during the settlement process by a member bank which controls the clearing transactions. Since settlement funds are required to be in the possession of a member bank until the merchant is funded, these funds are not assets of the Company and the associated obligations related to these funds are not liabilities of the Company. Therefore, neither is recognized in the Company' s Consolidated Balance Sheets. Member banks held merchant funds of $ **106. 2 million and $** 98. 0 ~~million and $ 110. 3~~ million at December 31, **2024 and** 2023 ~~and 2022~~, respectively. **69** ~~Exception items include items such as customer chargeback amounts received from merchants and other losses. Under agreements between the Company and its merchant customers, the merchants assume liability for such chargebacks and losses. If the Company is ultimately unable to collect amounts from the merchants for any charges or losses due to merchant fraud, insolvency, bankruptcy or any other reason, it may be liable for these charges. In order to mitigate the risk of such liability, the Company may: 1) require certain merchants to establish and maintain reserves designed to protect the Company from such charges or losses under its risk- based underwriting policy; and 2) engage with certain ISOs in partner programs in which the ISOs assume liability for these charges or losses. A merchant reserve account is funded by the merchant and held by the member bank during the term of the merchant agreement. Unused merchant reserves are returned to the merchant after termination of the merchant agreement or in certain instances upon a reassessment of risks during the term of the merchant agreement.~~ Exception items that become the liability of the Company are recorded as merchant losses, a component of costs of services in the Consolidated Statements of Operations and Comprehensive Loss. Exception items that the Company is still attempting to collect from the merchants through the funds settlement process or merchant reserves are recognized as settlement assets and customer / subscriber account balances in the Company' s Consolidated Balance Sheets, with an offsetting reserve for those amounts the Company estimates it will not be able to recover. Expenses for merchant losses for the years ended December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~ were $ ~~6~~ **11. 0 million, $ 5** . 2 million ~~,~~ **and** $ 4. **1** ~~4 million and $ 2. 8~~ million, respectively. B2B Payments Segment In the Company' s B2B Payments segment, the Company earns revenues from certain of its services by processing transactions for FIs and other business customers. Customers transfer funds to the Company, which are held in either Company- owned bank accounts controlled by the Company or bank- owned FBO accounts controlled by the banks, until such time as the transactions are settled with the customer payees. Amounts due to customer payees that are held by the Company in Company- owned bank accounts are included in restricted cash. Amounts due to customer payees that are held in bank- owned FBO accounts are not assets of the Company. As such, the associated obligations related to these funds are not liabilities of the Company; therefore, neither is recognized in the Company' s Consolidated Balance Sheets. Bank- owned FBO accounts held funds of $ **64. 8 million and $** 69. 0 ~~million and $ 52. 9~~ million at December 31, **2024 and** 2023 ~~and 2022~~, respectively. Company- owned bank accounts held $ 1. **6 million and $ 1.** 2 ~~million and $ 4. 1~~ million at December 31, **2024 and** 2023 ~~and 2022~~, respectively, which are included in restricted cash and settlement obligations in the Company' s Consolidated Balance Sheets. **Exception items that** ~~For the Plastiq business,~~ the Company **is still attempting to collect from the customers through the funds settlement process are recognized as settlement assets and customer / subscriber account balances in the Company' s Consolidated Balance Sheets, with an offsetting reserve for those amounts the Company estimates it will not be able to recover. Expenses for these merchant losses for the years ended December 31, 2024, 2023 and 2022 were $ 0. 6 million, $ 1. 0 million, and $ 0. 3 million, respectively. The Company also** accepts card payments from its **B2B Payments segment** customers and processes disbursements to their vendors **within the Plastiq business** . The time lag between authorization and settlement of card transactions creates certain receivables (from card networks) and payables (to the vendors of customers). These receivables and payables arise from the settlement activities that the Company performs on the behalf of its customers and therefore, are presented as ~~Settlement~~ **settlement** assets and related obligations. Enterprise Payments Segment In the Company' s Enterprise Payments segment ~~,~~ revenue is derived primarily from enrollment fees, monthly subscription fees ~~,~~ **and** transaction- based fees ~~and~~ **from licensed** money transmission services ~~fees~~. As part of its licensed money transmission services, the Company accepts deposits from ~~customers~~ **consumers** and subscribers which are held in bank accounts maintained by the Company on behalf of ~~customers~~ **consumers** and subscribers. After accepting deposits, the Company is allowed to invest available balances in these accounts in ~~68~~ certain permitted investments, and the return on such investments contributes to the Company' s net cash inflows. These balances are payable on demand. As such, the Company recorded these balances and related obligations as current assets and current liabilities. The nature of these balances ~~is~~ **are** cash and cash equivalents **,** but they are not available for day- to- day operations of the Company. Therefore, the Company has classified these balances as settlement assets and customer / subscriber account balances and the related obligations as settlement and customer / subscriber account obligations in the Company' s Consolidated Balance Sheets **. Exception items that become the liability of the Company are recorded as merchant losses, a component of cost of revenue in the Company' s Consolidated Statements of Operations and Comprehensive Income (Loss). Exception items that the Company is still attempting to collect from the merchants through the funds settlement process or merchant reserves are recognized as settlement assets and customer / subscriber account balances in the Company' s Unaudited Consolidated Balance Sheets, with an offsetting reserve for those amounts the Company estimates it will not be able to recover. Expenses for merchant losses for the year ended December 31, 2024 was $ 0. 4 million. Expenses for merchant losses for the years ended December 31, 2023 and 2022 were not material** . Goodwill and Other Intangible Assets The Company records goodwill upon acquisition of a business when the purchase price is greater than the fair value assigned to the underlying separately identifiable tangible and intangible assets acquired and the liabilities assumed. The Company may test for goodwill impairment using an optional qualitative analysis or proceed directly with a quantitative analysis. If the optional qualitative analysis is** performed **, the Company assesses whether it is more likely than not the fair value is less than** its ~~most recent annual~~ **carrying amount. For the purpose of the** goodwill impairment analysis ~~as of October 1, 2023, as noted below: • For the purpose of the goodwill impairment analysis~~ , the Company determined ~~the~~ **its** reporting units were Enterprise Payments, SMB Payments, and Plastiq, a component of the B2B Payments operating segment, as allowed by ASC 350. **Electing** ~~• The Company' s SMB Payments operating segment experienced a decrease in bankcard volume and revenue during 2023 due~~ to ~~the diversification of an ISV. Additionally, this operating segment also experienced compressed margins due to expenses associated with costs of sales increasing at a larger rate than revenue. Considering the most recent fair value valuation was performed~~ -- **perform** ~~in 2019,~~ the ~~Company elected the option~~ **optional** ~~to unconditionally bypass the~~ qualitative **analysis as of October 1, 2024, no indicators of** impairment ~~analysis and proceed with performing the quantitative analysis for the SMB Payments reporting unit as allowed by ASC 350. For the purpose of the quantitative analysis, the guideline public company method and the discounted cash flow method (equally weighted)~~ were ~~determined to be the appropriate methodology. The impairment analysis concluded the fair value of the reporting unit was greater than its carrying amount and therefore, no impairment was recognized. • The Company' s Enterprise Payments operating segment had an increase in volumes, revenue and margins for 2023. The remaining goodwill related to the acquisition of Plastiq (see Note 2. Acquisitions). Given the performance of the Enterprise Payments operating segment and the relatively short time passed since the Plastiq acquisition, the Company elected to perform the qualitative impairment analysis for these reporting units. Under the qualitative impairment analysis, the Company~~ identified ~~drivers which may affect the reporting units' fair value, determined which events and circumstances impacted those drivers and concluded it was not more likely than not that the fair value of the reporting units was less than the carrying amount~~ . **As of** ~~71 There were no impairment losses for the years ended~~ December 31, ~~2023~~ **2024** ~~, 2022 or 2021. Of the total net proceeds of $ 139. 5 million, $ 131. 4 million was allocated to the redeemable senior preferred stock, $ 11. 4 million was allocated to additional paid- in capital for the warrants and $ 3. 3 million was allocated to noncurrent assets for the committed financing put right. On September 17, 2021, the Company issued an additional 75, 000 shares of redeemable senior preferred stock for $ 75. 0 million, less a $ 0. 9 million discount, $ 0. 7 million of ticking fees and $ 1. 9 million of issuance costs. Upon issuance of these additional shares, the $ 3. 3 million that was previously allocated to noncurrent assets for the committed financing put right was reclassified to the redeemable senior preferred stock. **On May 16, 2024, the Company used proceeds totaling $ 170. 0 million from the refinancing (see Note 10. Debt Obligations) to redeem a portion of the redeemable senior preferred stock. The redemption consisted of $ 136. 9 million of redeemable senior preferred stock, $ 29. 4 million for accumulated unpaid dividend, and $ 2. 2 million of cash dividend and $ 1. 5 million of accumulated unpaid dividend as of the date of redemption. 78 On November 21, 2024, the Company used $ 113. 3 million of the $ 115. 0 million from Amendment 1 to the 2024 Credit agreement (see Note 10. Debt Obligations) to redeem the remaining balance of the outstanding redeemable preferred stock. The redemption consisted of $ 88. 1 million of redeemable senior preferred stock, $ 22. 6 million for accumulated unpaid dividend, and $ 1. 5 million of cash dividend and $ 1. 1 million of accumulated unpaid divided for the period of October 1, 2024 through November 21, 2024.** The redeemable senior preferred stock ~~ranks~~ **ranked** senior to the Company' s Common Stock, equal with any other class of the Company' s stock designated as being ranked on a parity basis with the redeemable senior preferred stock and junior to any other class of the Company' s stock, including preferred stock, that is designated as being ranked senior to the redeemable senior preferred stock, with respect to the payment and distribution of dividends, the purchase or redemption of the Company' s stock and the liquidation, winding up of and distribution of assets of the Company. The redeemable senior preferred stock ~~does~~ **did** not meet the definition of a liability pursuant to ASC 480, Distinguishing Liabilities from Equity, as it is redeemable upon the occurrence of events that are not solely within the Company' s control. The Company used the proceeds from the April 2021 sale of the redeemable senior preferred stock to partially fund the refinancing to partially fund the Wholesale Payments, Inc. and C & H Financial Services, Inc. acquisitions in the second quarter of 2021 (see Note 2. Acquisitions) and to pay certain fees and expenses relating to the Refinancing and the offering of the redeemable senior preferred stock and warrants. The Company used the proceeds from the September 2021 sale of additional shares of redeemable senior preferred stock to fund the Finxera acquisition (see Note 2. The exercise price and the number of shares issuable upon exercise of the warrants are subject to certain adjustments from time to time on the terms outlined in the warrants. These warrants were exercisable upon issuance. In connection with the issuance of the warrants, the Company entered into an agreement pursuant to which it agreed to provide certain registration rights with respect to the common shares issuable upon exercise of the warrants. Under this agreement **,** the holders of the related shares of Common Stock were granted piggyback rights to be included in certain underwritten offerings of Common Stock and the right to demand a shelf registration of the shares of Common Stock issued upon exercise of the warrants. As of December 31, ~~2023~~ **2024** , none of the warrants have been exercised. The warrants are considered to be equity contracts indexed in the Company' s own shares and therefore were recorded at their inception date relative fair value and are included in additional paid- in capital on the Company' s Consolidated Balance Sheet. ~~79~~ **80** 12. The purchase option expired on August 24, 2023. 14. Stock- based Compensation 2018 Equity Incentive Plan The 2018 Plan was approved by the Company' s Board of Directors and shareholders in July 2018. The 2018 Plan provided for the issuance of up to 6, 685, 696 of the Company' s Common Stock, and these shares were registered on a Form S- 8 during 2018. Under the 2018 Plan, the Company' s compensation committee may grant awards of non- qualified stock options, incentive stock options, SARs, restricted stock awards, RSUs, other stock- based awards (including cash bonus awards) or any combination of the foregoing. Any current or prospective employees, officers, consultants or advisors that the Company' s compensation committee (or, in the case of non- employee directors, the Company' s Board of Directors) selects, from time to time, are eligible to receive awards under the 2018 Plan. If any award granted under the 2018 Plan expires, terminates, or is canceled or forfeited without being settled or exercised, or if a SAR is settled in cash or otherwise without the issuance of shares, shares of the Company' s Common Stock subject to such award will again be made available for future grants. In addition, if any shares are surrendered or tendered to pay the exercise price of an award or to satisfy withholding taxes owed, such shares will again be available for grants under the 2018 Plan. On March 17, 2022, the Company' s Board of Directors unanimously approved an amendment to the 2018 Plan which was subsequently approved by our shareholders, to increase the number of shares authorized for issuance under the plan by 2, 500, 000 shares, resulting in 9, 185, 696 shares of the Company' s Common Stock authorized for issuance under the plan. The maximum number of shares available for purchase under the 2021 Stock Purchase Plan is 200, 000 shares. The shares issued under the 2021 Stock Purchase Plan may be authorized but unissued or reacquired shares of Common Stock. All employees of the Company who work more than 20 hours per week and have been employed by the Company for at least 30 days may participate in the 2021 Stock Purchase Plan. Under the 2021 Stock Purchase Plan, participants are offered, on the first day of the offering period, the option to purchase shares of Common Stock at a discount on the last day of the offering period. The offering period shall be for a period of three months, and the first offering period began during the first quarter of 2022. The 2021 Stock Purchase Plan provides eligible employees the opportunity to purchase shares of the Company' s Common Stock on a quarterly basis through payroll deductions at a price equal to 95 % of the lesser of the fair value on the first and last trading day of each quarter. **As of December 31, 2024, the Company had 45, 018 shares available under the 2021 Stock Purchase Plan.** 15. Employee Benefit Plans The Company sponsors a 401 (k) defined contribution savings plan that covers substantially all of its eligible employees. Under the plan, the Company contributes safe- harbor matching contributions to eligible plan participants on an annual basis. The Company may also contribute additional discretionary amounts to plan participants. The Company' s contributions to the plan were $ 2. **4 million, $ 2.** 0 million **, and** $ 1. 7 **million and $ 1. 2** million for the years ended December 31, **2024,** 2023 **, and** 2022 **and 2021** , respectively. The Company offers a comprehensive medical benefit plan to eligible employees. All obligations under the plan are fully insured through third- party insurance companies. Employees participating in the medical plan pay a portion of the costs for the insurance benefits. 16 **. Related Party Transactions In February 2019, PHOT, a subsidiary of the Company, received a contribution of substantially all of the operating assets of eTab and Cumulus under asset contribution agreements. PHOT is a part of the Company' s SMB reportable segment. These contributed assets were primarily composed of technology- related assets. Prior to these transactions, eTab was 80. 0 % owned by the Company' s Chairman and Chief Executive Officer (" CEO"). No cash consideration was paid to the contributors of the eTab or Cumulus assets on the date of the transactions. As consideration for these contributed assets, the contributors were issued redeemable non- controlling preferred equity interests (" redeemable NCIs") in PHOT. Under these redeemable NCIs, the contributors were eligible to receive up to $ 4. 5 million of profits earned by PHOT, plus a preferred yield (6. 0 % per year) on any undistributed preferred equity interest (" Total Preferred Equity Interest"). Once the total preferred equity interest is distributed to the holders, the redeemable NCIs cease to exist. The Company' s CEO initially owned 83. 3 % of the redeemable NCIs, which ownership interest was subsequently reduced to 35. 3 % through the CEO' s disposition of interests to others. In November 2020, the Company agreed with the contributors to an exchange of shares of common stock of the Company, or cash, for the remaining undistributed Total Preferred Equity Interests of $ 4. 8 million. An exchange valuation for the Company' s common stock was established as of November 12, 2020 at the prior 20- day volume weighted average price of $ 2. 78 per share. The exchange was contingent upon receiving approval of the Company' s lenders; therefore, the binding exchange agreements were not entered into until after lender approval was received in April 2021 in connection with the debt refinancing. In May 2021, the Company entered into exchange agreements and completed the exchange of 1, 428, 358 shares of common stock and $ 0. 8 million of cash for the Total Preferred Equity Interests. The CEO received 605, 623 shares of common stock of the Company in exchange for his 35. 3 % interest, and the Company' s Chief Operating Officer (“ COO ”) received 413, 081 shares of common stock of the Company in exchange for her 24. 1 % interest. 87 On October 31, 2023, a lawsuit was filed alleging that the Board breached its fiduciary duties by approving the above mentioned exchange transaction. The Company denied any wrongdoing. The lawsuit was settled on January 30, 2024, wherein the Company agreed to unwind the exchange transaction and received previously issued shares of common stock of the**

Company and promissory notes for the amount of cash paid from the CEO, COO and others in exchange of the reissuance of PHOT redeemable preferred units. The returned shares of common stock of the Company are recorded as treasury stock at their closing market price as of the settlement date of January 30, 2024. The reissued PHOT redeemable preferred units are recorded as redeemable NCI at their estimated fair value as of the settlement date on the Company' s Consolidated Balance Sheets. As of May 30, 2024, the Company approved redemption of PHOT redeemable preferred units for cash, common stock of the Company or a combination of both, at the sole discretion of the Company. The redeemable preferred units were accreted to their redemption value of $ 5. 9 million as of May 30, 2024, through net loss available to common shareholders in the Company' s Statements of Operations and Comprehensive Income (Loss). The exchange value of the Company' s common stock was established based on the 30- day volume weighted average close price adjusted for market illiquidity. During the quarter ended June 30, 2024, the PHOT redeemable preferred units held by the CEO were redeemed in cash for $ 2. 1 million and the promissory notes were satisfied. During the quarter ended September 30, 2024, the PHOT redeemable preferred units held by the COO were redeemed for 408, 013 shares of the Company' s common stock and PHOT redeemable preferred units held by other holders were redeemed for 404, 628 shares of the Company' s common stock. 17 . Commitments and Contingencies Minimum Annual Commitments with Third- party Processors The Company has multi- year agreements with third parties to provide certain payment processing services to the Company. In the opinion of the Company and based on consultations with inside and outside counsel, the results of any of these matters, individually and in the aggregate, are not expected to have a material effect on the Company' s results of operations, financial condition or cash flows. As more information becomes available, and the Company determines that an unfavorable outcome is probable on a claim and that the amount of probable loss that the Company will incur on that claim is reasonably estimable, the Company will record an accrued expense for the claim in question. Concentration of Risks The Company' s revenue is substantially derived from processing Visa and Mastercard bankcard transactions. Because the Company is not a member bank, to process these bankcard transactions, the Company maintains sponsorship agreements with member banks which require, among other things, that the Company abide by the by- laws and regulations of the card association. ~~87~~ **89** A majority of the Company' s cash and restricted cash is held in certain FIs, substantially all of which is in excess of federal deposit insurance corporation limits. The Company does not believe it is exposed to any significant credit risk from these transactions. ~~17~~ **18** . Fair Value The Company' s contingent consideration derived from business combinations are classified within Level 3 of the fair value hierarchy due to the uncertainty of the fair value measurement created by the absence of quoted market prices, the inherent lack of liquidity and unobservable inputs used to measure fair value which require judgement. ~~The Company uses valuation techniques including discounted cash flow analysis based on cash flow projections and Monte Carlo simulations to estimate fair value based on projection period and assumed growth rates. A change in inputs in the valuation techniques used might result in a significantly higher or lower fair value measurement than what is reported. The current portion of contingent consideration is included in accounts payable and accrued expenses on the Company' s Consolidated Balance Sheets and the noncurrent portion of contingent consideration is included in other noncurrent liabilities on the Company' s Consolidated Balance Sheets.~~ Contingent consideration liabilities related to certain of the Company' s acquisitions are uncertain due to the utilization of unobservable inputs and management' s judgement in determining the likelihood of achieving the earn- out criteria or the years ended December 31, **2024 and** 2023 ~~and 2022~~ . These liabilities measured at fair value on a recurring basis consisted of the following: Years Ended December 31, (in thousands) Fair Value ~~Hierarchy20232022Contingent~~ **Hierarchy20242023Contingent** consideration, current portionLevel 3 $ **3, 891 $** 5, 951 ~~$ 6, 079~~ Contingent consideration, noncurrent portionLevel ~~37~~ **36, 794 7** , 487 ~~2, 000~~ Total contingent consideration $ **10, 685 $** 13, 438 ~~$ 8, 079~~ During the year ended December 31, ~~2023~~ **2024** , there were no transfers into, out of, or between levels of the fair value hierarchy. Fair Value Disclosures Notes receivable are carried at amortized cost. Substantially all of the Company' s notes receivable are secured, and the Company provides for allowances when it believes that certain notes receivable may not be collectible. The carrying value of the Company' s notes receivable, net approximates fair value was approximately $ **8. 6 million and $** 5. 2 ~~million and $ 4. 7~~ million at December 31, **2024 and** 2023 ~~and December 31, 2022~~ , respectively. On the fair value hierarchy, Level 3 inputs are used to estimate the fair value of these notes receivable. Outstanding debt obligations (see Note 10. Debt Obligations) are reflected in the Company' s Consolidated Balance Sheets at carrying value since the Company did not elect to remeasure debt obligations to fair value at the end of each reporting period. The fair value of the term loan facility was estimated to be approximately $ **944. 4 million and $** 651. 9 ~~million and $ 606. 1~~ million at December 31, **2024 and** 2023 ~~and 2022~~ , respectively, and was estimated using binding and non- binding quoted market prices in an active secondary market, which considers the credit risk and market related conditions, and is within Level 2 of the fair value hierarchy. The carrying values of the other long- term debt obligations approximate fair value due to mechanisms in the credit agreements that adjust the applicable interest rates and the lack of a market for these debt obligations. **19** ~~88 18~~ . Segment Information The Company' s three reportable segments included SMB Payments, B2B Payments and Enterprise Payments. ~~The Company does not have dedicated assets assigned to any particular reportable segment and such information is not available and continues to be aggregated.~~ More information about our three reportable segments: ~~• SMB Payments: Provides full- service acquiring and payment- enabled solutions for B2C transactions, leveraging Priority' s proprietary software platform, distributed through ISO, direct sales and vertically focused ISV channels in addition. • B2B Payments: Provides market- leading AP automation solutions to corporations, software partners and industry leading FIs (including Citibank and Mastercard) in addition to working improving cash flow by providing instant access to working capital. • Enterprise Payments: Provides embedded finance and treasury solutions to enterprise customers to modernize legacy platforms and accelerate software partners' strategies to monetize payments.~~ Corporate includes costs of corporate functions and shared services not allocated to our reportable segments. **The Company' s chief operating decision makers (" CODM") are our CEO and CFO. Historically, the CODM used operating income (loss) as the measure of segment profit or loss to allocate resources. However, during the year, the segment performance measure was updated to adjusted earnings before interest expense, income tax and depreciation and amortization expenses (" Adjusted EBITDA") to have consistent measure of results across the organization. Adjusted EBITDA represents EBITDA (i. e. earnings before interest, income tax, and depreciation and amortization expenses) adjusted for certain non- cash costs, such as stock- based compensation and the write- off of the carrying value of investments or other assets, as well as debt extinguishment and modification expenses and other expenses and income items considered non- recurring, such as acquisition integration expenses, certain professional fees, and litigation settlements. Adjusted EBITDA is a non- GAAP measure and therefore, a reconciliation to earnings (loss) before income taxes (a GAAP measure) is included within this footnote. Segment level assets information is not provided or subject to review by the CODM and therefore not provided. Due to the recent acquisitions, growth, implementation of a shared services model and management of a single unified commerce engine across our payments infrastructure, the costs of operating overhead and shared services becomes less identifiable at the segment level. Therefore, the process of review of the CODM was updated during the quarter ended June 30, 2024. Operating overhead and shared costs are managed centrally and included in the corporate segment. All comparative periods have been recasted to reflect this update.** Information on reportable segments and reconciliations to ~~consolidated revenues, consolidated depreciation and amortization, and consolidated operating~~ income **(loss) before income taxes** are as follows: **91** ~~(in thousands) Years~~ **Year** Ended December 31, ~~20232022021Revenues:~~ **2024 (in thousands)** SMB ~~Payments~~ **PaymentsB2BPaymentsEnterprise PaymentsTotalRevenues** $ ~~582~~ **613** , ~~870~~ **547** $ ~~562~~ **89** , ~~237~~ **103** $ ~~475,~~

Part **The letus business is engaged in processing** of **rent payments for property management companies in** these **the United States and Canada** preferred units were later assigned to other related parties . **The acquisition is aimed to provide** In May 2021, the Company entered into an **opportunity** exchange agreement wherein these preferred units were exchanged for 1, 428, 358 equity shares and $ 814, 219 in cash. On October 31, 2023, a lawsuit was filed alleging that the Board breached its fiduciary duties by approving the transaction. The Company denied any wrongdoing. The lawsuit was settled on January 30, 2024, wherein the Company agreed to **expand Priority' s services in Canada** unwind the exchange transaction and pay $ 0 . **95** 4 million to settle all claims. The unwinding of this transaction does not meet the recognition criteria as of December 31, 2023, and therefore considered as non- recognized subsequent event. 91 Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure Item 9A. Controls and Procedures (a) Evaluation of Disclosure Controls and Procedures We maintain disclosure controls and procedures, as defined in Rules 13a- 15 (e) and 15d- 15 (e) of the Exchange Act, designed to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized or reported within the time periods specified in SEC rules and regulations and that such information is accumulated and communicated to our management, including our principal executive officer (**“** CEO **”**), our principal financial officer (**“** CFO **”**) and, as appropriate, to allow timely decisions regarding required disclosures. Management, with the participation of the CEO and CFO, has evaluated the effectiveness of the Company' s disclosure controls and procedures as of December 31, 2023 **2024** . Based on that evaluation, the Company' s CEO and CFO concluded that the Company' s disclosure controls and procedures were **not** effective as of December 31, 2023 **2024 , due to a material weakness in the internal control over financial reporting** . **After giving full consideration to the material weakness, and the additional analyses and other procedures we performed to ensure that our Consolidated Financial Statements included in this Annual Report on Form 10- K were prepared in accordance with U. S. generally accepted accounting principles** (b **“ GAAP ”**) **, our management has concluded that our Consolidated Financial Statements present fairly, in all material respects, our financial position, results of operations and cash flows for the periods disclosed in conformity with GAAP.** Report of Management on Internal Control over Financial Reporting Our management **Management** is responsible for establishing and maintaining adequate internal control over financial reporting **,** as **such term is** defined in Rules 13a- 15 (f) and 15d- 15 (f) under **of** the Securities Exchange Act of 1934 . **Under** Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the **supervision** reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. The Company' s internal control over financial reporting includes those -- **the participation** policies and procedures that: (i) pertain to maintenance of **our** records that, in reasonable detail, accurately and fairly reflect the transactions and disposition of the Company' s assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are made only in accordance with authorizations of the Company' s management **, including** and directors; and (iii) provide reasonable assurance regarding prevention or **our CEO and CFO** timely detection of unauthorized acquisition , **we evaluated** use or disposition of the Company' s assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or **our** that the degree of compliance with the policies or procedures may deteriorate. Management assessed the effectiveness of the Company' s internal control over financial reporting as of **the end of the most recent fiscal year,** December 31, 2023 **2024** . In making this assessment , **utilizing** management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission **in** (COSO) the Internal Control- Integrated Framework (2013). Based on this **assessment evaluation** , management determined **concluded** that the Company **we did not** maintained -- **maintain** effective internal control over financial reporting as of December 31, 2023 **2024 , .** (c) Attestation Report of Independent Registered Public Accounting Firm Not applicable due to the Company' s status as a **material weakness** non- accelerated filer. 92 (d) Changes in Internal Control over Financial Reporting During 2022, the Company implemented new general ledger, accounts payable, consolidation and financial reporting systems. The implementation involved changes to certain processes and related internal controls -- **control** over financial reporting **, as described below. A material weakness is a deficiency, or a**

combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of a company' s annual or interim financial statements will not be prevented or detected on a timely basis . The ~~Company has reviewed the system and controls - control affected and has made deficiencies did not result in any material misstatements to~~ the **consolidated financial statements and** ~~appropriate changes as necessary. There there~~ were no changes **to previously released financial results as a result of this material weakness. However, the control deficiencies described above created a reasonable possibility that a material misstatement to the consolidated financial statements would not be prevented or detected on a timely basis. Therefore, we concluded that the deficiencies represent a material weakness** in the Company **'** **' s internal control over financial reporting . Ernst & Young LLP, an independent registered public accounting firm, has issued an attestation report on our internal control over financial reporting as of December 31, 2024 (see Report of Independent Registered Public Accounting Firm). 96 Remediation Efforts Management is committed to remediating the material weakness in a timely manner. Our remediation process includes but is not limited to: (i) rationalizing access privileges across our affected systems; (ii) formalization of controls in our data transformation and ingestion process; and (iii) training of relevant personnel on the design and operation of any new or modified controls. These steps are subject to ongoing management review, as well as oversight by the Audit Committee of our Board of Directors. Additional or modified measures may also be required to remediate the material weakness. We will not be able to conclude that we have completely remediated the material weakness until the applicable controls are fully implemented and have operated for a sufficient period and management has concluded, through formal testing, that the remediated controls are operating effectively. We expect to complete these remediation measures as early as practicable in fiscal 2025. We will continue to monitor the design and effectiveness of these and other processes, procedures, and controls and make any further changes management deems appropriate. No system of controls, no matter how well designed and operated, can provide absolute assurance that the objectives of the system of controls will be met, and no evaluation of controls can provide absolute assurance that all control deficiencies or material weaknesses have been or will be detected. There is no assurance that our remediation efforts will be fully effective. If these remediation efforts do not prove effective and control deficiencies and material weaknesses persist or occur in the future, the accuracy and timing of our financial reporting may be adversely affected. Changes in Internal Control over Financial Reporting Except for the identified material weakness, there were no changes in our internal control over financial reporting that occurred** during the ~~year~~ **quarter** ended December 31, ~~2023~~ **2024** , that ~~have~~ materially affected, or ~~are~~ **were** reasonably likely to materially affect, **our** ~~the Company' s~~ internal control over financial reporting. Priore (" TCP "), The Thomas C. Priore 2019 GRAT (" TCP 2019 GRAT "), the Thomas C. Priore Irrevocable Insurance Trust U / A / D 1 / 8 / 2010 (" TCP Insurance Trust ", and, together with TCP and TCP 2019 GRAT, the " TCP Investor Group "), Trident Finxera Holdings LP, a Delaware limited partnership (" Trident "), and the individuals or entities listed on Schedule A hereto (each, an " Individual " and, collectively, the " Individuals "). BACKGROUND WHEREAS, the Company, TCP and certain Individuals are parties to that certain Registration Rights Agreement, dated as of July 25, 2018 (the " Prior Agreement "); WHEREAS, Finxera Holdings, Inc., a Delaware corporation (" Finxera "), the Company, Prime Warrior Acquisition Corp., a Delaware corporation and indirect wholly- owned subsidiary of the Company, and, solely in its capacity as the representative of the Equityholders (as defined therein), Stone Point Capital LLC, a Delaware limited liability company, are parties to that certain Agreement and Plan of Merger, dated as of March 5, 2021 (the " Merger Agreement "), pursuant to which the Company has agreed, among other things, to issue shares of common stock, par value $ 0. 001 per share, of the Company (" Common Stock ") to Trident and other stockholders of Finxera (the " Rollover Holders ") in connection with the consummation of the transactions contemplated by the Merger Agreement (the " Closing "); and WHEREAS, as a condition to the willingness of Finxera to enter into the Merger Agreement, the Company has agreed to enter into this Agreement to amend and restate the Prior Agreement in order to provide rights relating to the registration of shares of Common Stock issued to Trident and certain of the Rollover Holders. NOW, THEREFORE, in consideration of the respective representations, warranties, covenants and agreements set forth herein and for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties, intending to be legally bound hereby, agree as follows: ARTICLE I DEFINITIONS Section 1. 1 Certain Definitions. As used in this Agreement: " Affiliate " has the meaning ascribed thereto in Rule 12b- 2 promulgated under the Exchange Act, as in effect on the date hereof, including with respect to the Trident Investor Group, any investment fund or holding company that is directly or indirectly managed or advised by a manager or advisor of the Trident Investor Group or any of its direct or indirect equityholders. " Agreement " has the meaning set forth in the preamble. 2 DOC ID- 33093261. 11 " Block Sale " means the sale of Common Stock by the Trident Investor Group to one or more purchasers in a registered transaction by means of (i) a bought deal, (ii) a block trade, (iii) a direct sale or (iv) an overnight deal. " Board " means the board of directors of the Company. " Business Day " means a day other than a Saturday, Sunday, federal or New York State holiday or other day on which commercial banks in New York City are authorized or required by law to close. " Closing " has the meaning set forth in the recitals. " Common Stock " has the meaning set forth in the recitals. " Company " has the meaning set forth in the preamble. " Exchange Act " means the U. S. Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder, as the same may be amended from time to time. " FINRA " means Financial Industry Regulatory Authority, Inc. " Finxera " has the meaning set forth in the recitals. " Governmental Authority " means any nation or government, any state or other political subdivision thereof, and any entity exercising executive, legislative, judicial, regulatory or administrative functions of or pertaining to government. " Holder " means each member of the TCP Investor Group, the members of the Trident Investor Group, and each Individual that is a holder of Registrable Securities or securities exercisable, exchangeable or convertible into Registrable Securities or any Transferee of such Person to whom registration rights are assigned pursuant to Section 4. 2. " Indemnified Party " and " Indemnified Parties " have the meanings set forth in Section 3. 1. " Individual " has the meaning set forth in the preamble. " Law " means any statute, law, regulation, ordinance, rule, injunction, order, decree, governmental approval, directive, requirement, or other governmental restriction or any similar form of decision of, or determination by, or any interpretation or administration of any of the foregoing by, any Governmental Authority. " Lock- Up Period " has the meaning set forth in Section 2. 12. " Merger Agreement " has the meaning set forth in the recitals. " Person " means an individual, a partnership, a corporation, a limited liability company, an association, a joint stock company, a trust, a joint venture, a cooperative, an unincorporated organization, or other form of business organization, whether or not regarded as a 3 DOC ID- 33093261. 11 legal entity under applicable Law, or any Governmental Authority or any department, agency or political subdivision thereof. " Prior Agreement " has the meaning set forth in the recitals. " Registrable Securities " means all (i) shares of Common Stock, (ii) Warrants and (iii) any securities into which the Common Stock or Warrants may be converted or exchanged pursuant to any merger, consolidation, sale of all or any part of its assets, corporate conversion or other extraordinary transaction of the Company held by a Holder. As to any Registrable Securities, such securities will cease to be Registrable Securities when: (a) a registration statement covering such Registrable Securities has been declared effective and such Registrable Securities have been disposed of pursuant to such effective registration statement; (b) such Registrable Securities shall have been sold pursuant to Rule 144 or 145 (or any similar provision then in effect) under the Securities Act; or (c) such Registrable Securities cease to be outstanding. " Registration Expenses " means any and all expenses incurred in connection with the performance of or compliance with this Agreement (whether or not any registration statement becomes effective or any sale or Registrable Securities is made), including: (a) all SEC, stock exchange, or FINRA registration and filing fees (including, if applicable, the fees and expenses of any " qualified independent underwriter, " as such term is defined in Rule 5121 of FINRA, and of its counsel); (b)**

all fees and expenses of complying with securities or blue sky Laws (including fees and disbursements of counsel for the underwriters in connection with blue sky qualifications of the Registrable Securities); (c) all printing, messenger and delivery expenses; (d) all fees and expenses incurred in connection with the listing of the Registrable Securities on any securities exchange or FINRA and all rating agency fees; (e) the fees and disbursements of counsel for the Company and of its independent public accountants, including the expenses of any special audits and / or " cold comfort " letters required by or incident to such performance and compliance; (f) any fees and disbursements of underwriters customarily paid by the issuers or sellers of securities, including liability insurance if the Company so desires or if the underwriters so require, and the reasonable fees and expenses of any special experts retained in connection with the requested registration, but excluding underwriting discounts and commissions and transfer taxes, if any; 4 DOC ID- 33093261. 11 (g) any fees and disbursements of counsel (including the fees and disbursements of outside counsel (i) for the Trident Investor Group and (ii) for the other Holders) incurred in connection with any registration statement or registered offering covering Registrable Securities held by the Holders; (h) the costs and expenses of the Company relating to analyst and investor presentations or any " road show " undertaken in connection with the registration and / or marketing of the Registrable Securities (including the reasonable out- of- pocket expenses of the Holders); and (i) any other fees and disbursements customarily paid by the issuers of securities. " SEC " means the U. S. Securities and Exchange Commission or any successor agency. " Securities Act " means the U. S. Securities Act of 1933, as amended, and the rules and regulations promulgated thereunder, as the same may be amended from time to time. " TCP " has the meaning set forth in the preamble. " TCP Investor Group " has the meaning set forth in the preamble. " Transfer " (including its correlative meanings, " Transferor ", " Transferee " and " Transferred ") shall mean, with respect to any security, directly or indirectly, to sell, contract to sell, give, assign, hypothecate, pledge, encumber, grant a security interest in, offer, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of any economic, voting or other rights in or to such security. When used as a noun, " Transfer " shall have such correlative meaning as the context may require. " Trident " has the meaning set forth in the preamble. " Trident Demand Offering " has the meaning set forth in Section 2. 1 (a). " Trident Investor Group " shall mean Trident Finxera Holdings LP and its Affiliates and any Transferee of any such Person to whom registration rights are assigned pursuant to Section 4. 2. " Warrants " means the warrants to purchase shares of Common Stock. " WKSI " means a well- known seasoned issuer, as defined in Rule 405 under the Securities Act. Section 1. 2 Other Definitional Provisions; Interpretation. (a) The words " hereof, " " herein, " and " hereunder " and words of similar import when used in this Agreement refer to this Agreement as a whole and not to any particular provision 5 DOC ID- 33093261. 11 of this Agreement, and references in this Agreement to a designated " Article " or " Section " refer to an Article or Section of this Agreement unless otherwise specified. (b) The headings in this Agreement are included for convenience of reference only and do not limit or otherwise affect the meaning or interpretation of this Agreement. (c) The meanings given to terms defined herein are equally applicable to both the singular and plural forms of such terms. ARTICLE II REGISTRATION RIGHTS Section 2. 1 Right to Demand a Non- Shelf Registered Offering. (a) Upon the demand of the TCP Investor Group or the Trident Investor Group made at any time and from time to time, the Company will facilitate in the manner described in this Agreement a non- shelf registered offering of the Registrable Securities requested by such Holder to be included in such offering. Notwithstanding the foregoing, with respect to any demand by the Trident Investor Group pursuant to this Section 2. 1 (a " Trident Demand Offering "), (i) in no event shall the Company be obligated under this Section 2. 1 (a) to effect more than two (2) Trident Demand Offerings (which may be underwritten or non- underwritten) and (ii) no such demand shall be effective hereunder unless the Registrable Securities proposed to be offered by the Trident Investor Group in such offering have an aggregate market value (based on the most recent closing price of the Common Stock at the time of the demand) of at least $ 25 million or such request includes all Registrable Securities owned by the Trident Investor Group at such time. Any demanded non- shelf registered offering may, at the Company' s option, include shares of Common Stock to be sold by the Company for its own account and will also, subject to Section 2. 6, include Registrable Securities to be sold by Holders that exercise their related piggyback rights on a timely basis. (b) No Trident Demand Offering shall be deemed to have occurred for the purposes of this Section 2. 1 if the registration statement relating thereto (i) does not become effective, (ii) is not maintained effective for 90 days (or such shorter period as shall terminate when all Registrable Securities covered by such registration statement have been sold) or (iii) the offering of the Registrable Securities pursuant to such registration statement is subject to a stop order, injunction or similar order or requirement of the SEC during such period, in which case, the Trident Investor Group shall be entitled to an additional Trident Demand Offering in lieu thereof. Section 2. 2 Right to Piggyback on a Non- Shelf Registered Offering. In connection with any registered offering of Common Stock covered by a non- shelf registration statement other than a Block Sale (whether pursuant to the exercise of demand rights or at the initiative of the Company), any non- demanding Holders may exercise piggyback rights to have included in such offering Registrable Securities held by them. The Company will facilitate in the manner described in this Agreement any such non- shelf registered offering. For the avoidance of doubt, if a Holder exercises the demand set forth in Section 2. 1, each Holder (including the demanding Holder) shall have the right to sell Registrable Securities in the offering on a " pro rata " 6 DOC ID- 33093261. 11 basis with " pro rata " being determined by dividing the number of Registrable Securities held by a Holder by the number of Registrable Securities held by all Holders. Section 2. 3 Right to Demand and be Included in a Shelf Registration. Upon the demand of any Holder, made at any time and from time to time when the Company is eligible to utilize Form S- 3 or a successor form to sell Registrable Securities in a secondary offering on a delayed or continuous basis in accordance with Rule 415 of the Securities Act, the Company will facilitate in the manner described in this Agreement a shelf registration of Registrable Securities held by the Holders. Any shelf registration filed by the Company covering shares (whether pursuant to a Holder' s demand or the initiative of the Company) will cover Registrable Securities held by each of the Holders up to the highest common percentage of their original respective holdings, which, in the case of a demand by a Holder, such highest common percentage will be agreed upon by the demanding Holder. If at the time of such request the Company is a WKSI, such shelf registration would, at the request of the Trident Investor Group or a majority of the other Holders, cover an unspecified number of shares and Registrable Securities to be sold by the Company and the Holders. Section 2. 4 Demand and Piggyback Rights for Shelf Takedowns. Upon the demand of one or more of the TCP Investor Group or the Trident Investor Group made at any time and from time to time, the Company will facilitate in the manner described in this Agreement a " takedown " of Registrable Securities off of an effective shelf registration statement. In connection with any underwritten shelf takedown (whether pursuant to the exercise of such demand rights or at the initiative of the Company), the Holders may, subject to Section 2. 6, exercise piggyback rights to have included in such takedown Registrable Securities held by them that are registered on such shelf. Notwithstanding the foregoing, (a) Holders (other than the Trident Investor Group) may not demand a shelf takedown for an offering that will result in the imposition of a lock- up on the Company and the Holders unless the Registrable Securities requested to be sold by the demanding Holders in such takedown have an aggregate market value (based on the most recent closing price of the Common Stock at the time of the demand) of at least $ 50. 0 million and (b) the Trident Investor Group may not demand a shelf takedown for an underwritten offering or Block Sale unless the Registrable Securities requested to be sold by the Trident Investor Group in such takedown have an aggregate market value (based on the most recent closing price of the Common Stock at the time of the demand) of at least $ 25. 0 million or such request includes all Registrable Securities owned by the Trident Investor Group at such time. Section 2. 5 Right to Reload a Shelf. Upon the written request of a Holder, the Company will file and seek the effectiveness of a post- effective amendment to an existing shelf in order to register up to the number of Registrable Securities previously taken down off of such shelf by such Holder and not yet " reloaded " onto such shelf. The Holders and the Company will consult and coordinate with each other in order to accomplish such replenishments from time to time in a sensible manner. Section 2. 6 Limitations on Demand and Piggyback Rights. (a) Any demand for the filing of a registration statement or for a registered offering or takedown will be subject to the constraints of any applicable lock- up arrangements, and such demand must be deferred until such lock- up arrangements no longer apply. If a demand 7 DOC ID- 33093261. 11 has been made for a non- shelf registered offering (other than a Block Sale) or for an underwritten takedown, no further demands may be made so long as the related offering is still being pursued. After an underwritten offering demanded by a Holder, such Holder may not make another demand for an underwritten offering prior to 60 days after the expiration of the lock- up applicable to its prior demanded offering unless another Holder joins in the demand. Notwithstanding anything in this Agreement to the contrary, (i) the Holders will not have piggyback or other registration rights with respect to registered primary offerings by the Company (A) covered by a Form S- 8 registration statement or a successor form applicable to employee benefit- related offers and sales, (B) where the shares are not being sold for cash or (C) where the offering is a bona fide offering of securities other than shares or other Registrable Securities, even if such securities are convertible into or exchangeable or exercisable for shares, and (ii) the Holders (other than the Trident Investor Group) will not have piggyback or other registration rights (or be entitled to any notices relating thereto) with respect to any Block Sale (including a Block Sale off of a shelf registration statement). (b) The Company may postpone the filing of a demanded registration statement or suspend the effectiveness of any shelf registration statement for a reasonable " blackout period " not in excess of 90 consecutive days (but not more than twice in any 12- month period and not sooner than 90 days from any prior postponement) if the Board determines that such registration or offering could materially interfere with a bona fide business or financing transaction of the Company or is reasonably likely to require premature disclosure of information, the premature disclosure of which could materially and adversely affect the Company. The blackout period will end upon the earlier to occur of, (i) in the case of a bona fide business or financing transaction, a date not later than 90 days from the date such deferral commenced, and (ii) in the case of disclosure of non- public information, the earlier to occur of (x) the filing by the Company of its next succeeding Form 10- K or Form 10- Q, or (y) the date upon which such information is otherwise disclosed. Section 2. 7 Notifications Regarding Registration Statements. Prior to exercising demand rights for a registration statement, the Holders (other than the Trident Investor Group) will consult with each other in this regard. In order for one or more Holders to exercise their right to demand that a registration statement be filed, they must so notify the Company in writing indicating the number of Registrable Securities sought to be registered and the proposed plan of distribution. The Company will keep the Holders contemporaneously apprised of any registration of Common Stock, whether pursuant to a Holder demand or otherwise, with respect to which a piggyback opportunity is available. Pending any required public disclosure and subject to applicable legal requirements, the parties will maintain the confidentiality of these discussions. Section 2. 8 Notifications

Regarding Registration Piggyback Rights. Any Holder wishing to exercise its piggyback rights with respect to a non- shelf registration statement must notify the Company and the other Holders of the number of Registrable Securities it seeks to have included in such registration statement. Such notice must be given as soon as practicable, but in no event later than 5: 00 pm, New York City time, on the second trading day prior to (i) if applicable, the date on which the preliminary prospectus intended to be used in connection with pre- effective marketing efforts for the relevant offering is expected to be finalized, and (ii) in any case, the date on which the pricing of the relevant offering is expected to occur. No such notice is 8 DOC ID- 33093261. 11 required in connection with a shelf registration statement, as Registrable Securities held by all Holders will be included subject to the limitations described in Section 2. 3. Section 2. 9 Notifications Regarding Demanded Underwritten Takedowns. (a) Prior to exercising their demand rights for an underwritten takedown of Registrable Securities off of a shelf registration statement, the Holders (other than the Trident Investor Group) will consult with each other in this regard. The Company will keep the Holders contemporaneously apprised of all pertinent aspects of any underwritten shelf takedown in order that they may have a reasonable opportunity to exercise their related piggyback rights. Without limiting the Company' s obligation as described in the preceding sentence, having a reasonable opportunity requires that the Holders be notified by the Company of an anticipated underwritten takedown (whether pursuant to a demand made by other Holders or made at the Company' s own initiative) no later than 5: 00 pm, New York City time, on (i) if applicable, the second trading day prior to the date on which the preliminary prospectus or prospectus supplement intended to be used in connection with pre- pricing marketing efforts for such takedown is finalized, and (ii) in all cases, the second trading day prior to the date on which the pricing of the relevant takedown occurs. (b) Any Holder wishing to exercise piggyback rights (if any) with respect to an underwritten shelf takedown must notify the Company and the other Holders of the number of Registrable Securities it seeks to have included in such takedown. Such notice must be given as soon as practicable, but in no event later than 5: 00 pm, New York City time, on (i) if applicable, the trading day prior to the date on which the preliminary prospectus or prospectus supplement intended to be used in connection with marketing efforts for the relevant offering is expected to be finalized, and (ii) in all cases, the trading day prior to the date on which the pricing of the relevant takedown occurs. (c) Pending any required public disclosure and subject to applicable legal requirements, the parties will maintain appropriate confidentiality of their discussions regarding a prospective underwritten takedown. Section 2. 10 Plan of Distribution, Underwriters and Counsel. If a majority of the shares or other Registrable Securities proposed to be sold in an underwritten offering through a non- shelf registration statement or through a shelf takedown is being sold by the Company for its own account, the Company will be entitled to determine the plan of distribution and select the managing underwriters for such offering. Otherwise, the Holders holding a majority of the Registrable Securities requested to be included in such offering, in consultation with the Trident Investor Group, will be entitled to determine the plan of distribution and select the managing underwriters, and such Persons will also be entitled to select one or more counsel for the selling Holders (which may be the same as counsel for the Company). In the case of a shelf registration statement, the plan of distribution will provide as much flexibility as is reasonably possible, including with respect to resales by transferee Holders. Section 2. 11 Cutbacks. If the managing underwriters advise the Company and the selling Holders that, in their opinion, the number of shares or other Registrable Securities requested to be included in an underwritten offering exceeds the amount that can be sold in such offering without adversely affecting the distribution of the shares or other Registrable Securities 9 DOC ID- 33093261. 11 being offered, such offering will include only the number of shares or other Registrable Securities that the underwriters advise can be sold in such offering. If, absent a demand, the Company has initiated the registration statement and / or offering and is selling shares for its own account in such offering, the Company will have first priority. To the extent of any remaining capacity, and in all other cases where the Company is not selling shares in the relevant offering, the selling Holders will be subject to cutback pro rata based on the number of Registrable Securities initially requested by them to be included in such offering, without distinguishing between Holders based on who made the demand for such offering or who is exercising piggyback rights. If the Company and all of the selling Holders are able to include all of the shares and Registrable Securities initially requested by them to be included in such offering, to the extent of any remaining capacity, securities for the account of other Persons that the Company is obligated to register pursuant to written contractual piggyback registration rights with such Persons may also be included in such offering. With respect to any Trident Demand Offering, in the event that the Trident Investor Group is subject to cutback in accordance with the terms of this Section 2. 11 of more than ten percent (10 %) of its Registrable Securities to be included in such offering, the Trident Investor Group shall be entitled to an additional Trident Demand Offering in lieu thereof. Section 2. 12 Lock- ups. (a) Other than as described in clause (b) below, in connection with any underwritten offering of shares or other Registrable Securities, the Company and each Holder will agree (in the case of Holders, with respect to Registrable Securities respectively held by them) to be bound by the underwriting agreement' s lock- up restrictions (which must apply in like manner to all of them) that are agreed to (x) by the Company, if a majority of the shares or other Registrable Securities being sold in such offering are being sold for its account, and (y) by Holders holding a majority of Registrable Securities being sold by all Holders, if a majority of the shares or other Registrable Securities being sold in such offering are being sold by Holders (the " Lock- Up Period "). Other than as described in clause (b) below, pending the signing of the applicable underwriting agreement, from the point at which a Holder receives written notice that the Company intends to pursue an underwritten registered public offering of shares with respect to which a piggyback opportunity will apply pursuant to this Agreement and until the applicable underwriting agreement is entered into or such offering is abandoned, each Holder agrees to be bound by the same restrictions on transfer as were applicable under the underwriting agreement applicable to the Company' s initial public offering; provided, however, that with respect to the Trident Investor Group any such restrictions on transfer shall not extend for a period longer than 60 days without the prior written consent of the Trident Investor Group; provided, further, however, that in the event of a Block Sale for which piggyback rights are not available hereunder, Holders (other than the TCP Investor Group and AESV Creditcard Consulting LLC and any Transferee of any such Person to whom registration rights are assigned pursuant to Section 4. 2) shall not be subject to the restrictions on transfer under this Section 2. 12 with respect to such Block Sale. (b) At any time, each Holder shall have the right to elect to relinquish all rights under this Article II. If any Holder makes such election, it will no longer be subject to this Section 2. 12. Section 2. 13 Expenses. All Registration Expenses incurred in connection with any registration statement or registered offering covering Registrable Securities held by Holders 10 DOC ID- 33093261. 11 will be borne by the Company. However, underwriters', brokers' and dealers' discounts and commissions applicable to Registrable Securities sold for the account of a Holder will be borne by such Holder. Section 2. 14 Facilitating Registrations and Offerings. (a) If the Company becomes obligated under this Agreement to facilitate a registration and offering of Registrable Securities on behalf of Holders, the Company will do so with the same degree of care and dispatch as would reasonably be expected in the case of a registration and offering by the Company of shares for its own account. Without limiting this general obligation, the Company will fulfill its specific obligations as described in this Section 2. 14. (b) In connection with each registration statement that is demanded by Holders or as to which piggyback rights otherwise apply, the Company will: (i) prepare and file with the SEC a registration statement covering the applicable Registrable Securities at the earliest practicable date, but in any event not later than 60 days after the demand is made with respect to a long- form registration statement, and 30 days with respect to a short- form registration statement, file amendments thereto as warranted, seek the effectiveness thereof, and file with the SEC prospectuses and prospectus supplements as may be required, all in consultation with the Holders and as reasonably necessary in order to permit the offer and sale of such Registrable Securities in accordance with the applicable plan of distribution; (ii) within a reasonable time prior to the filing of any registration statement, any prospectus, any amendment to a registration statement, amendment or supplement to a prospectus or any free writing prospectus, provide copies of such documents to the selling Holders and to the underwriter or underwriters of an underwritten offering, if applicable, and to their respective counsel; fairly consider such reasonable changes in any such documents prior to or after the filing thereof as the counsel to the Holders or the underwriter or the underwriters may request; and make such of the representatives of the Company as shall be reasonably requested by the selling Holders or any underwriter available for discussion of such documents; (iii) within a reasonable time prior to the filing of any document which is to be incorporated by reference into a registration statement or a prospectus, provide copies of such document to counsel for the Holders and underwriters; fairly consider such reasonable changes in such document prior to or after the filing thereof as counsel for such Holders or such underwriter shall request; and make such of the representatives of the Company as shall be reasonably requested by such counsel available for discussion of such document; (iv) use all reasonable efforts to cause each registration statement and the related prospectus and any amendment or supplement thereto, as of the effective date of such registration statement, amendment or supplement and during the distribution of the Registrable Securities (x) to comply in all material respects with the requirements of the Securities Act and the rules and regulations of the SEC and (y) not to contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading; 11 DOC ID- 33093261. 11 (v) notify each Holder promptly, and, if requested by such Holder, confirm such advice in writing, (A) when a registration statement has become effective and when any post- effective amendments and supplements thereto become effective if such registration statement or post- effective amendment is not automatically effective upon filing pursuant to Rule 462 of the Securities Act, (B) of the issuance by the SEC or any state securities authority of any stop order, injunction or other order or requirement suspending the effectiveness of a registration statement or the initiation of any proceedings for that purpose, (C) if, between the effective date of a registration statement and the closing of any sale of securities covered thereby pursuant to any agreement to which the Company is a party, the representations and warranties of the Company contained in such agreement cease to be true and correct in all material respects or if the Company receives any notification with respect to the suspension of the qualification of the Registrable Securities for sale in any jurisdiction or the initiation of any proceeding for such purpose, and (D) of the happening of any event during the period a registration statement is effective as a result of which such registration statement or the related prospectus contains any untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statements therein not misleading; (vi) furnish counsel for each underwriter, if any, and for the Holders copies of any correspondence with the SEC or any state securities authority relating to the registration statement or prospectus; (vii) otherwise use all reasonable efforts to comply with all applicable rules and regulations of the SEC, including making available to its security holders an earnings statement covering at least 12 months which shall satisfy the provisions of Section 11 (a) of the Securities Act and Rule 158 thereunder (or any similar provision then in force); and (viii) use all reasonable

efforts to obtain the withdrawal of any order suspending the effectiveness of a registration statement at the earliest possible time. (c) In connection with any non-shelf registered offering or shelf takedown (including a Block Sale) that is demanded by Holders or as to which piggyback rights otherwise apply, the Company will: (i) cooperate with the selling Holders and the sole underwriter or managing underwriter of an underwritten offering, if any, to facilitate the timely preparation and delivery of certificates representing the Registrable Securities to be sold and not bearing any restrictive legends; and enable such Registrable Securities to be in such denominations (consistent with the provisions of the governing documents thereof) and registered in such names as the selling Holders or the sole underwriter or managing underwriter of an underwritten offering of Registrable Securities, if any, may reasonably request at least five days prior to any sale of such Registrable Securities; (ii) furnish to each Holder and to each underwriter, if any, participating in the relevant offering, without charge, as many copies of the applicable prospectus, including each preliminary prospectus, and any amendment or supplement thereto and such other documents as such Holder or underwriter may reasonably request in order to facilitate the public sale or other disposition of the Registrable Securities; the Company hereby consents to the use of the 12 DOC ID-33093261. 11 prospectus, including each preliminary prospectus, by each such Holder and underwriter in connection with the offering and sale of the Registrable Securities covered by the prospectus or the preliminary prospectus; (iii) use all reasonable efforts to register or qualify the Registrable Securities being offered and sold, no later than the time the applicable registration statement becomes effective, under all applicable state securities or " blue sky " laws of such jurisdictions as each underwriter, if any, or any Holder holding Registrable Securities covered by a registration statement, shall reasonably request; use all reasonable efforts to keep each such registration or qualification effective during the period such registration statement is required to be kept effective; and do any and all other acts and things which may be reasonably necessary or advisable to enable each such underwriter, if any, and each such Holder to consummate the disposition in each such jurisdiction of such Registrable Securities owned by such Holder; provided, however, that the Company shall not be obligated to qualify as a foreign corporation or as a dealer in securities in any jurisdiction in which it is not so qualified or to consent to be subject to general service of process (other than service of process in connection with such registration or qualification or any sale of Registrable Securities in connection therewith) in any such jurisdiction; (iv) cause all Registrable Securities being sold to be qualified for inclusion in or listed on the Nasdaq Capital Market or any securities exchange on which Registrable Securities issued by the Company are then so qualified or listed if so requested by the Holders, or if so requested by the underwriter or underwriters of an underwritten offering of Registrable Securities, if any; (v) cooperate and assist in any filings required to be made with FINRA and in the performance of any due diligence investigation by any underwriter in an underwritten offering; (vi) use all reasonable efforts to facilitate the distribution and sale of any Registrable Securities to be offered pursuant to this Agreement, including without limitation by making road show presentations, holding meetings with and making calls to potential investors and taking such other actions as shall be requested by the Holders or the lead managing underwriter of an underwritten offering; and (vii) enter into customary agreements (including, in the case of an underwritten offering, underwriting agreements in customary form, and including provisions with respect to indemnification and contribution in customary form and consistent with the provisions relating to indemnification and contribution contained herein) and take all other customary and appropriate actions in order to expedite or facilitate the disposition of such Registrable Securities and in connection therewith: (A) make such representations and warranties to the selling Holders and the underwriters, if any, in form, substance and scope as are customarily made by issuers to underwriters in similar underwritten offerings; (B) obtain opinions of counsel to the Company and updates thereof (which counsel and opinions (in form, scope and substance) shall be reasonably 13 DOC ID- 33093261. 11 satisfactory to the lead managing underwriter, if any) addressed to each selling Holder and the underwriters, if any, covering the matters customarily covered in opinions requested in sales of securities or underwritten offerings and such other matters as may be reasonably requested by such Holders and underwriters; (C) obtain " cold comfort " letters and updates thereto from the Company' s independent certified public accountants addressed to the selling Holders, if permissible, and the underwriters, if any, which letters shall be customary in form and shall cover matters of the type customarily covered in " cold comfort " letters to underwriters in connection with primary underwritten offerings; and (D) to the extent requested and customary for the relevant transaction, enter into a securities sales agreement with the Holders providing for, among other things, the appointment of an agent for the selling Holders for the purpose of soliciting purchases of Registrable Securities, which agreement shall be customary in form, substance and scope and shall contain customary representations, warranties and covenants. (E) The above shall be done at such times as customarily occur in similar registered offerings or shelf takedowns. (d) In connection with each registration and offering of Registrable Securities to be sold by Holders, the Company will, in accordance with customary practice, make available for inspection by representatives of the Holders and underwriters and any counsel or accountant retained by such Holder or underwriters all relevant financial and other records, pertinent corporate documents and properties of the Company and cause appropriate officers, managers and employees of the Company to supply all information reasonably requested by any such representative, underwriter, counsel or accountant in connection with their due diligence exercise. (e) Each Holder that holds Registrable Securities covered by any registration statement will furnish to the Company such information regarding itself as is required to be included in the registration statement, the ownership of Registrable Securities by such Holder and the proposed distribution by such Holder of such Registrable Securities as the Company may from time to time reasonably request in writing. ARTICLE III INDEMNIFICATION Section 3. 1 Indemnification by the Company. In the event of any registration of any Registrable Securities of the Company under the Securities Act pursuant to Article II, the Company hereby indemnifies and agrees to hold harmless, to the fullest extent permitted by Law, each Holder who sells Registrable Securities covered by such registration statement, each other Person, if any, who controls such Holder and each Affiliate of such Holder and their respective directors, officers, members, general and limited partners, equityholders, employees, representatives and agents, each other Person who participates as an underwriter in the offering or sale of such Registrable Securities and each other Person, if any, who controls such underwriter within the meaning of the Securities Act (each, an " Indemnified Party " and collectively, the " Indemnified Parties "), against any and all losses, claims, damages or liabilities, joint or several, 14 DOC ID- 33093261. 11 and reasonable and documented expenses to which such Indemnified Party may become subject under the Securities Act, common law or otherwise, insofar as such losses, claims, damages or liabilities (or actions or proceedings in respect thereof, whether or not such Indemnified Party is a party thereto) arise out of or are based upon: (a) any untrue statement or alleged untrue statement of any material fact contained in any registration statement under which such Registrable Securities were registered under the Securities Act, any preliminary, final or summary prospectus contained therein, or any amendment or supplement thereto, or any document incorporated by reference therein, or any other such disclosure document (including reports and other documents filed under the Exchange Act and any document incorporated by reference therein) or related document or report; (b) any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, in the case of a prospectus, in the light of the circumstances when they were made; or (c) any violation or alleged violation by the Company or any of its subsidiaries of any federal, state, foreign or common law rule or regulation applicable to the Company or any of its subsidiaries and relating to action or inaction in connection with any such registration, disclosure document or related document or report, and the Company will reimburse such Indemnified Party for any legal or other expenses reasonably incurred by it in connection with investigating or defending any such loss, claim, liability, action or proceeding; provided, however, that the Company will not be liable to any Indemnified Party in any such case to the extent that any such loss, claim, damage, liability (or action or proceeding in respect thereof) or expense arises out of or is based upon any untrue statement or alleged untrue statement or omission or alleged omission made in such registration statement, in any such preliminary, final or summary prospectus, or any amendment or supplement thereto in reliance upon and in conformity with written information with respect to such Indemnified Party furnished to the Company by such Indemnified Party expressly for use in the preparation thereof. Such indemnity will remain in full force and effect regardless of any investigation made by or on behalf of such Holder or any Indemnified Party and will survive the Transfer of such Registrable Securities by such Holder or any termination of this Agreement. Section 3. 2 Indemnification by the Holders and Underwriters. The Company may require, as a condition to including any Registrable Securities in any registration statement filed in accordance with Article II, that the Company shall have received an undertaking reasonably satisfactory to it from the Holder of such Registrable Securities or any prospective underwriter to indemnify and hold harmless (in the same manner and to the same extent as set forth in Section 3. 1) the Company, all other Holders or any prospective underwriter, as the case may be, and any of their respective Affiliates, directors, officers and controlling Persons, with respect to any untrue statement in or omission from such registration statement, any preliminary, final or summary prospectus contained therein, or any amendment or supplement, if such untrue statement or omission was made in reliance upon and in conformity with written information with respect to such Holder or underwriter furnished to the Company by such Holder or underwriter expressly for use in the preparation of such registration statement, preliminary, final or summary prospectus or amendment or supplement, or a document incorporated by reference into any of the foregoing. Such indemnity will remain in full force and effect regardless of any investigation made by or on behalf of the Company or any of the Holders, or any of their respective Affiliates, directors, officers or controlling Persons and will survive the Transfer of such Registrable Securities by such Holder. In no event shall the liability of any selling Holder of Registrable Securities hereunder be greater in amount than the dollar amount of the net proceeds actually 15 DOC ID- 33093261. 11 received by such Holder upon the sale of the Registrable Securities giving rise to such indemnification obligation. Section 3. 3 Notices of Claims, Etc. Promptly after receipt by an Indemnified Party hereunder of written notice of the commencement of any action or proceeding with respect to which a claim for indemnification may be made pursuant to this Article III, such Indemnified Party will, if a claim in respect thereof is to be made against an indemnifying party, give written notice to the latter of the commencement of such action; provided that the failure of the Indemnified Party to give notice as provided herein will not relieve the indemnifying party of its obligations under Section 3. 1 or 3. 2, except to the extent that the indemnifying party is actually prejudiced by such failure to give notice. In case any such action is brought against an Indemnified Party, unless in such Indemnified Party' s reasonable judgment a conflict of interest between such indemnified and indemnifying parties may exist in respect of such claim, the indemnifying party will be entitled to participate in and to assume the defense thereof, jointly with any other indemnifying party similarly notified to the extent that it may wish, with counsel selected by the Trident Investor Group and Holders of at least a majority of the Registrable Securities included in the relevant registration, and after notice from the indemnifying party to

such Indemnified Party of its election so to assume the defense thereof, the indemnifying party will not be liable to such Indemnified Party for any legal or other expenses subsequently incurred by the latter in connection with the defense thereof other than reasonable costs of investigation. If, in such Indemnified Party' s reasonable judgment, having common counsel would result in a conflict of interest between the interests of such indemnified and indemnifying parties, then such Indemnified Party may employ separate counsel reasonably acceptable to the indemnifying party to represent or defend such Indemnified Party in such action, it being understood, however, that the indemnifying party will not be liable for the reasonable fees and expenses of more than one separate firm of attorneys at any time for all such Indemnified Parties (and not more than one separate firm of local counsel at any time for all such Indemnified Parties) in such action. In the event the indemnifying party fails to assume the defense of any claim within twenty (20) days after notice thereof is given by the Indemnified Party or fails to pursue with reasonable diligence the defense of the claim, the Indemnified Party shall have the right to undertake the defense of such claim, with counsel selected by the Indemnified Party, at the reasonable cost and expense and for the account of the indemnifying party. No indemnifying party will consent to entry of any judgment or enter into any settlement which does not include as an unconditional term thereof the giving by the claimant or plaintiff to such Indemnified Party of a release from all liability in respect of such claim or litigation. Section 3. 4 Contribution. If the indemnification provided for hereunder from the indemnifying party is unavailable to an Indemnified Party hereunder in respect of any losses, claims, damages, liabilities or expenses referred to herein for reasons other than those described in the proviso in the first sentence of Section 3. 1, then the indemnifying party, in lieu of indemnifying such Indemnified Party, shall contribute to the amount paid or payable by such Indemnified Party as a result of such losses, claims, damages, liabilities or expenses in such proportion as is appropriate to reflect the relative fault of the indemnifying party and Indemnified Parties in connection with the actions which resulted in such losses, claims, damages, liabilities or expenses, as well as any other relevant equitable considerations. The relative fault of such indemnifying party and Indemnified Parties shall be determined by reference to, among other things, whether any action in question, including any untrue or alleged untrue statement of a 16 DOC ID- 33093261. 11 material fact or omission or alleged omission to state a material fact, has been made by, or relates to information supplied by, such indemnifying party or Indemnified Parties, and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such action. The amount paid or payable by a party under this Section 3. 4 as a result of the losses, claims, damages, liabilities and expenses referred to above shall be deemed to include any legal or other fees or expenses reasonably incurred by such party in connection with any investigation or proceeding. In no event shall the liability of any selling Holder of Registrable Securities hereunder be greater in amount than the dollar amount of the net proceeds actually received by such Holder upon the sale of the Registrable Securities giving rise to such contribution obligation. The parties hereto agree that it would not be just and equitable if contribution pursuant to this Section 3. 4 were determined by pro rata allocation or by any other method of allocation which does not take account of the equitable considerations referred to in the immediately preceding paragraph. No Person guilty of fraudulent misrepresentation (within the meaning of Section 11 (f) of the Securities Act) shall be entitled to contribution from any Person who was not guilty of such fraudulent misrepresentation. Section 3. 5 Non- Exclusivity. The obligations of the parties under this Article III will be in addition to any liability which any party may otherwise have to any other party. Notwithstanding the foregoing, to the extent that the provisions on indemnification and contribution contained in any underwriting agreement or similar agreement entered into in connection with any offering hereunder are in conflict with the foregoing provisions, the provisions in the underwriting agreement shall control. ARTICLE IV OTHER Section 4. 1 Notices. Any notice, request, instruction or other document to be given hereunder by any party hereto to another party hereto shall be in writing and shall be deemed given (a) when delivered personally, (b) five (5) Business Days after being sent by certified or registered mail, postage prepaid, return receipt requested, (c) one (1) Business Day after being sent by Federal Express or other nationally recognized overnight courier, or (d) if transmitted by e- mail, on the date transmitted (provided no " bounce back " or similar message of non- delivery is received with respect thereto) to parties at the following addresses (or at such other address for a party as shall be specified by prior written notice from such party): if to the Company: Priority Technology Holdings, Inc. 19 West 44th Street, Suite 1416 New York, New York 10036 Email: tpriore @ pps. io Attn: Thomas C. Neither the Company nor any Holder shall assign all or any part of this Agreement without the prior written consent of the Company; provided, however, that any Holder may assign its respective rights and obligations under this Agreement in whole or in part to any of its respective Affiliates without the consent of any other party. Notwithstanding the foregoing, the Trident Investor Group may also assign its rights under this Agreement to (i) any member of the Trident Investor Group or (ii) any other transferee of Registrable Securities in a Transfer of at least fifty percent (50 %) of the Registrable Securities 18 DOC ID- 33093261. 11 held by the Trident Investor Group as of the date hereof. Except as otherwise provided herein, this Agreement will inure to the benefit of and be binding on the parties hereto and their respective successors and permitted assigns. Section 4. 3 Amendments; Waiver. This Agreement may be amended, supplemented or otherwise modified, or any provision waived, only by a written instrument executed by the Company, Trident and the Holders holding a majority of the Registrable Securities subject to this Agreement; provided that no such amendment, supplement or other modification or waiver shall adversely affect the economic interests of any Holder hereunder, or increase the obligations of any Holder, disproportionately to other Holders without the written consent of such Holder. For the avoidance of doubt, no consent pursuant to this Section 4. 3 shall be required in connection with any amendment or revision to Schedule A unless such amendment or revision is to remove a Holder from such schedule at a time when such Holder would otherwise be entitled to registration rights herein. No waiver by any party of any of the provisions hereof will be effective unless explicitly set forth in writing and executed by the party so waiving. Except as provided in the preceding sentence, no action taken pursuant to this Agreement, including without limitation, any investigation by or on behalf of any party, will be deemed to constitute a waiver by the party taking such action of compliance with any covenants or agreements contained herein. The waiver by any party hereto of a breach of any provision of this Agreement will not operate or be construed as a waiver of any subsequent breach. Section 4. 4 Third Parties. This Agreement does not create any rights, claims or benefits inuring to any person that is not a party hereto nor create or establish any third party beneficiary hereto, except for the Indemnified Parties under Article III. Section 4. 5 Rule 144. For so long as the Company is subject to the requirements of Section 13, 14 or 15 (d) of the Exchange Act, the Company covenants that it will file, in a timely manner, all reports required to be filed by it under the Securities Act and the Exchange Act (or, if the Company is subject to the requirements of Section 13, 14 or 15 (d) of the Exchange Act but is not required to file such reports, it will, upon the request of any Holder, make publicly available such information), make and keep public information available, as those terms are understood and defined in Rule 144 and take such further action as any Holder may reasonably request so as to enable such Holder to sell Registrable Securities without registration under the Securities Act within the limitation of the exemptions provided by (a) Rule 144 under the Securities Act, as such Rule may be amended from time to time, or (b) any similar rule or regulation hereafter adopted by the SEC, in each case, only to the extent such sales would be permitted under all applicable lock- ups. Upon the request of any Holder, the Company will deliver to such Holder a written statement that it has complied with the reporting requirements of Rule 144, the Securities Act and the Securities Exchange Act. Section 4. 6 In- Kind Distributions. If any Holder seeks to effectuate an in- kind distribution of all or part of its Registrable Securities to its direct or indirect equityholders, the Company will, only to the extent such in- kind distribution would be permitted under all applicable lock- ups, cooperate with such Holder and the Company' s transfer agent to facilitate such in- kind distribution in the manner reasonably requested by such Holder, as well as any resales by such transferees under a shelf registration statement covering such distributed Registrable Securities. 19 DOC ID- 33093261. 11 Section 4. 7 No Inconsistent Agreements. The Company has not entered, and will not hereafter enter, into any agreement with respect to its securities which is inconsistent with the rights granted to the Trident Investor Group in this Agreement. Section 4. 8 Mergers. The Company shall not, directly or indirectly, enter into any merger, consolidation or reorganization in which the Company shall not be the surviving corporation unless the proposed surviving corporation shall, prior to such merger, consolidation or reorganization, agree in writing to assume the obligations of the Company under this Agreement, and for that purpose references hereunder to " Registrable Securities " shall be deemed to be references to the securities which the Holders would be entitled to receive in exchange for Registrable Securities under any such merger, consolidation or reorganization, provided, however, that the provisions of this Agreement shall not apply in the event of any merger, consolidation or reorganization in which the Company is not the surviving corporation if the Holders are entitled to receive in exchange therefor (i) cash or (ii) securities of the acquiring corporation which may be immediately sold to the public pursuant to an effective registration statement under the Securities Act or pursuant to an exemption therefrom which permits sales without limitation as to volume or the manner of sale on a nationally recognized securities exchange. Section 4. 9 Governing Law. This Agreement shall be governed by, and construed and enforced in accordance with, the laws of the State of New York, applicable to contracts formed and to be performed entirely within the State of New York, without regard to the conflicts of law principles thereof, to the extent such principles would require or permit the applicability of the laws of another jurisdiction. Section 4. 10 CONSENT TO JURISDICTION. EACH OF THE PARTIES HERETO CONSENTS TO THE EXCLUSIVE JURISDICTION OF ANY STATE OR FEDERAL COURT LOCATED WITHIN THE STATE AND COUNTY OF NEW YORK AND IRREVOCABLY AGREES THAT ALL ACTIONS OR PROCEEDINGS RELATING TO THIS AGREEMENT SHALL BE LITIGATED IN SUCH COURTS. EACH OF THE PARTIES HERETO ACCEPTS FOR ITSELF AND IN CONNECTION WITH ITS RESPECTIVE PROPERTIES, GENERALLY AND UNCONDITIONALLY, THE EXCLUSIVE JURISDICTION OF THE AFORESAID COURTS AND WAIVES ANY DEFENSE OF FORUM NON CONVENIENS, AND IRREVOCABLY AGREES TO BE BOUND BY ANY FINAL AND NONAPPEALABLE JUDGMENT

RENDERED THEREBY IN CONNECTION WITH THIS AGREEMENT. EACH OF THE PARTIES HERETO FURTHER IRREVOCABLY CONSENTS TO THE SERVICE OF PROCESS OUT OF ANY OF THE AFOREMENTIONED COURTS IN ANY SUCH ACTION OR PROCEEDING BY THE MAILING OF COPIES THEREOF VIA OVERNIGHT COURIER, TO SUCH PARTY AT THE ADDRESS SPECIFIED IN THIS AGREEMENT, SUCH SERVICE TO BECOME EFFECTIVE FOURTEEN CALENDAR DAYS AFTER SUCH MAILING. NOTHING HEREIN SHALL IN ANY WAY BE DEEMED TO LIMIT THE ABILITY OF ANY PARTY HERETO TO SERVE ANY SUCH LEGAL PROCESS, SUMMONS, NOTICES AND DOCUMENTS IN ANY OTHER MANNER PERMITTED BY APPLICABLE LAW OR TO OBTAIN JURISDICTION OVER OR TO BRING ACTIONS, SUITS OR PROCEEDINGS AGAINST THE OTHER PARTIES HERETO IN SUCH OTHER JURISDICTIONS, AND IN SUCH MANNER, AS MAY BE PERMITTED BY ANY APPLICABLE LAW. 20 DOC ID- 33093261. 11 Section 4. 11 MUTUAL WAIVER OF JURY TRIAL. THE PARTIES HERETO WAIVE ALL RIGHT TO TRIAL BY JURY IN ANY ACTION, SUIT OR PROCEEDING BROUGHT TO ENFORCE OR DEFEND ANY RIGHTS OR REMEDIES UNDER THIS AGREEMENT. Section 4. 12 Specific Performance. Each of the parties hereto acknowledges and agrees that in the event of any breach of this Agreement by any of them, the non- breaching party would be irreparably harmed and could not be made whole by monetary damages. Each party accordingly agrees to waive the defense in any action for specific performance that a remedy at law would be adequate and that the parties, in addition to any other remedy to which they may be entitled at law or in equity, shall be entitled to compel specific performance of this Agreement. Section 4. 13 Entire Agreement. This Agreement sets forth the entire understanding of the parties hereto with respect to the subject matter hereof. There are no agreements, representations, warranties, covenants or undertakings with respect to the subject matter hereof other than those expressly set forth herein. This Agreement supersedes all other prior agreements and understandings between the parties with respect to such subject matter. Section 4. 14 Severability. If one or more of the provisions, paragraphs, words, clauses, phrases or sentences contained herein, or the application thereof in any circumstances, is held invalid, illegal or unenforceable in any respect for any reason, the validity, legality and enforceability of any such provision, paragraph, word, clause, phrase or sentence in every other respect and of the remaining provisions, paragraphs, words, clauses, phrases or sentences hereof shall not be in any way impaired, it being intended that all rights, powers and privileges of the parties hereto shall be enforceable to the fullest extent permitted by Law. Section 4. 15 Counterparts. This Agreement may be executed in any number of counterparts, each of which will be deemed to be an original and all of which together will be deemed to be one and the same instrument. Section 4. 16 No Recourse. This Agreement may only be enforced against, and any claims or cause of action that may be based upon, arise out of or relate to this Agreement, or the negotiation, execution or performance of this Agreement may only be made against the entities that are expressly identified as parties hereto, and no past, present or future Affiliate, director, officer, employee, incorporator, member, manager, partner, stockholder, agent, attorney or representative of any party hereto shall have any liability for any obligations or liabilities of the parties to this Agreement or for any claim based on, in respect of, or by reason of, the transactions contemplated hereby. Section 4. 17 Independent Nature of Holders' Obligations and Rights. The obligations of each Holder hereunder are several and not joint with the obligations of any other Holder hereunder, and no Holder shall be responsible in any way for the performance of the obligations of any other Holder hereunder. Nothing contained herein or in any other agreement or document delivered at any closing, and no action taken by any Holder pursuant hereto or thereto, shall be deemed to constitute the Holders as a partnership, an association, a joint venture or any other kind of entity, or create a presumption that the Holders are in any way acting in concert with respect to such obligations or the transactions contemplated by this Agreement. Each Holder shall 21 DOC ID- 33093261. 11 be entitled to protect and enforce its rights, including without limitation the rights arising out of this Agreement, and it shall not be necessary for any other Holder to be joined as an additional party in any proceeding for such purpose. Capitalized terms used herein but not otherwise defined shall have the meanings ascribed to them in the Merger Agreement (as defined below); provided, however, that it is understood and agreed that the Escrow Agent has no knowledge of any capitalized term not defined within this Agreement. Parent and the Equityholder Representative are referred to collectively herein as the " Parties " and each individually as a " Party. " RECITALS WHEREAS, Parent, the Equityholder Representative (solely in its capacity as the Equityholder Representative), Finxera Holdings, Inc., a Delaware corporation (the " Company "), and Prime Warrior Acquisition Corp., a Delaware corporation and indirect wholly- owned subsidiary of Parent (" Merger Sub "), are parties to that certain Agreement and Plan of Merger, dated as March 5, 2021 (as it may be amended, modified or restated from time to time, the " Merger Agreement "), pursuant to which, among other things, Merger Sub will merge with and into the Company with the Company as the surviving entity; WHEREAS, pursuant to the terms of the Merger Agreement, concurrent with the execution and delivery of this Agreement, Parent shall deposit, or cause to be deposited with the Escrow Agent, [●] shares of common stock, par value $ 0. 001 per share, of Parent (the " Escrow Shares "), in book- entry form and registered in the names of the Stockholders and in the amounts set forth on Exhibit A attached hereto, for purposes of securing the payment of any potential amounts owing to Parent or the Stockholders pursuant to Section 2. 8 (f) of the Merger Agreement, to be held by the Escrow Agent in accordance with the terms of this Agreement; and WHEREAS, pursuant to the terms of the Merger Agreement, each of Parent and the Equityholder Representative are to execute and deliver to the other and cause the Escrow Agent to duly execute and deliver to Parent and the Equityholder Representative, this Agreement at the Closing. NOW, THEREFORE, in consideration of the premises and the mutual obligations and covenants set forth herein, the Parties and the Escrow Agent agree as follows: 1. Appointment. The Parties hereby appoint the Escrow Agent as their escrow agent for the purposes set forth herein, and the Escrow Agent hereby accepts such appointment under the terms and conditions set forth herein. 2. Receipt of the Escrow Shares. The Escrow Agent will acknowledge via email its receipt of the Escrow Shares for deposit into the Escrow Account (as defined below). 3. Investment of the Escrow Shares. The Escrow Agent shall hold the Escrow Shares in a separate, non- interest bearing demand deposit account for the purpose of holding documents or other assets that may deposited (the " Escrow Account "), and no other 2 KL2 3248502. 1 investment shall be permitted hereunder. The Escrow Shares shall be held and disbursed solely for the purposes and in accordance with the terms of this Agreement and shall not be subject to any voluntary encumbrances. In addition, Escrow Agent has not, does not and shall not verify or assess, nor does it make any representation or warranty as to the value, validity or transferability of the purported content of any Escrow Shares. The Parties hereby represent and warrant, severally as to each such Party and not jointly, that (i) the contents of the Escrow Shares complies with all applicable laws and regulations, including, without limitation, laws and regulations relating to the prevention of money laundering, and (ii) such contents do not, directly or indirectly, relate to any country, entity or person that is the subject of any sanctions administered by the U. S. Office of Foreign Assets Control, and no transaction contemplated by the documents contained in the Escrow Shares would violate any such sanctions if conducted by a person to which such sanctions apply. 4. Voting, Dividends, etc. (a) The Stockholders shall remain the beneficial owners of the Escrow Shares unless any such Escrow Shares are transferred to Parent pursuant to this Agreement and, until such time, the Stockholders shall retain all rights and benefits of a holder of such Escrow Shares (or any shares of capital stock issued in respect thereof), including the right to vote the Escrow Shares (and any shares of capital stock issued in respect thereof), subject to the terms and limitations of this Agreement. The Parties hereby agree that any proxy solicitation materials with respect to the Escrow Shares shall be delivered directly to each Stockholder with respect to any Escrow Shares beneficially owned by such Stockholder, and such Stockholder shall be entitled to vote such Escrow Shares as if such Escrow Shares were held directly. (b) The Parties agree that any dividends payable in cash in respect of the Escrow Shares and all dividends payable in securities or other non- cash property, including without limitation, shares or other securities issued upon a stock split, stock dividend, subdivision, recapitalization, merger or other similar events (collectively, " Dividends "), in each case, shall not be distributed or issued to the Stockholders as the beneficial owners of such Escrow Shares, but rather shall be retained by Parent and held in trust with respect to the Escrow Shares. Upon the final disbursement of the Escrow Shares pursuant to Section 5 below, any Dividends held by Parent in trust with respect to Escrow Shares that are ultimately distributed to any Stockholder shall be distributed or issued to such Stockholder. 5. Disbursement. As between the Parties, except as expressly provided herein, the rights of, in and to the Escrow Shares shall be governed by and determined exclusively pursuant to the Merger Agreement. The Escrow Shares shall be held in escrow under the terms of this Agreement and released by the Escrow Agent only as follows: (a) Purchase Price Adjustment. As promptly as practicable, but in no event later than the third (3rd) Business Day following the final determination of the Actual Adjustment pursuant to Section 2. 8 (e) of the Merger Agreement, Parent and the Equityholder Representative shall provide the Escrow Agent with joint written instructions executed by an Authorized Representative of each such Party (a " Joint Instruction ") specifying the specific Escrow Shares (if any) to be released from the Purchase Price Adjustment Account to (i) Parent or (ii) the Paying Agent (for further distribution to the Stockholders in accordance with their pro 3 KL2 3248502. 1 rata share as set forth on Exhibit A attached hereto), in

each case, less any tax deductions or withholdings required under applicable law, as provided in the Merger Agreement and set forth in the Joint Instruction. (b) No Duty to Calculate or Confirm. In any case hereunder in which the Escrow Agent is provided with a Joint Instruction or an Equityholder Representative Instruction, as applicable, the Escrow Agent shall be entitled to entirely rely on such instruction and the information contained therein with no responsibility to calculate or confirm amounts or percentages to release. (c) Timing of Distributions. Upon receipt by the Escrow Agent of any proper release instructions pursuant to clause (a) above, the Escrow Agent shall promptly, and in any event within three (3) Business Days after receipt of such instructions, distribute to the applicable Party or Parties (or their respective designees), in the case of a Joint Instruction, the specific Escrow Shares, set forth in such Joint Instruction. 6. Duties of the Escrow Agent. (a) Duties in General. The Escrow Agent shall have only those duties as are specifically and expressly provided herein, which shall be deemed purely ministerial in nature, and no other duties, including but not limited to any fiduciary duty, shall be implied. The Escrow Agent shall neither be responsible for, nor chargeable with, knowledge of, nor have any requirements to comply with, the terms and conditions of any other agreement, instrument or document between the Parties in connection herewith, if any, including without limitation the Merger Agreement (the " Underlying Agreements "), nor shall the Escrow Agent be required to determine if any person or entity has complied with any Underlying Agreement, nor shall any additional obligations of the Escrow Agent be inferred from the terms of the Underlying Agreements, even though reference thereto may be made in this Agreement. As between the Escrow Agent and the Parties, in the event of any conflict between the terms and provisions of this Agreement, those of any Underlying Agreement, any schedule or exhibit attached to this Agreement or any other agreement among the Parties, the terms and conditions of this Agreement shall control. The Escrow Agent may rely upon and shall not be liable for acting or refraining from acting upon any written notice, document, instruction or request furnished to it hereunder and believed in good faith by it to be genuine and to have been signed by an Authorized Representative (s) as applicable, without inquiry and without requiring substantiating evidence of any kind. The Escrow Agent shall not be liable to any Party, any beneficiary or other person for refraining from acting upon any instruction setting forth, claiming, containing, objecting to, or related to the transfer or distribution of the Escrow Shares, or any portion thereof, unless such instruction shall have been delivered to the Escrow Agent in accordance with this Agreement, including Section 11 and Section 12 below, and the Escrow Agent has been able to satisfy any applicable security procedures as may be required pursuant to Section 12. The Escrow Agent shall be under no duty to inquire into or investigate the validity, accuracy or content of any such document, notice, instruction or request. The Escrow Agent shall have no duty to solicit any payments which may be due to it or the Escrow Shares nor shall the Escrow Agent have any duty or obligation to confirm or verify the accuracy or correctness of any amounts deposited with it hereunder. 4 KL2 3248502. 1 (b) Exculpation. The Escrow Agent shall not be liable for any action taken, suffered or omitted to be taken by it in good faith except to the extent that a final adjudication of a court of competent jurisdiction determines that the Escrow Agent' s (or its affiliates' or agents') fraud, bad faith, gross negligence or willful misconduct was the cause of any direct loss to any Party. The Escrow Agent may execute any of its powers and perform any of its duties hereunder directly or through affiliates or agents; provided, however, that the Escrow Agent shall not thereby be relieved of any of its obligations under this Agreement. The Escrow Agent may consult with counsel, accountants and other skilled persons to be selected and retained by it. The Escrow Agent shall not be liable for any action taken, suffered or omitted to be taken by it in accordance with, or in good faith reliance upon, the advice or opinion of any such counsel, accountants or other skilled persons. In the event that the Escrow Agent shall be uncertain or believe there is some ambiguity as to its duties or rights hereunder or shall receive instructions, claims or demands from any Party which, in its good faith opinion, conflict with any of the provisions of this Agreement, it shall be entitled either to (i) refrain from taking any action and its sole obligation shall be to keep safely all property held in escrow until it shall be given (A) a Joint Instruction or an Equityholder Representative Instruction, as applicable, in writing by the applicable Party or Parties which eliminates such ambiguity or uncertainty to the satisfaction of the Escrow Agent or (B) a final court order or judgment of a court of competent jurisdiction (it being understood that the Escrow Agent shall be entitled conclusively to rely and act upon any such court order and shall have no obligation to determine whether any such court order is final); or (ii) file an action in interpleader provided that, in each case, the Escrow Agent provides prompt notice thereof to Parent and the Equityholder Representative after taking any such action or declining to take any such action. The Parties agree to pursue any redress or recourse in connection with any dispute without making the Escrow Agent a party to the same. Anything in this Agreement to the contrary notwithstanding, in no event shall the Escrow Agent be liable for special, incidental, punitive, indirect or consequential loss or damage of any kind whatsoever (including but not limited to lost profits), even if the Escrow Agent has been advised of the likelihood of such loss or damage and regardless of the form of action. 7. Termination of Escrow Account; Succession. (a) This Agreement shall terminate, and the related Escrow Account shall be closed, if and when, and not before, all Escrow Shares in the Escrow Account shall have been distributed by the Escrow Agent in accordance with this Agreement. (b) The Escrow Agent may resign and be discharged from its duties or obligations hereunder by giving no less than thirty (30) days advance notice in writing of such resignation to the Parties, and the Parties shall have the right to terminate the services of the Escrow Agent hereunder at any time by giving written notice (with such written notice being signed by Parent and the Equityholder Representative) of such termination to the Escrow Agent which shall be no less than thirty (30) days from the date of the issued termination notice, in each case specifying the effective date of such resignation or termination. If the Parties have failed to appoint a successor escrow agent prior to the expiration of thirty (30) days following receipt of the notice of resignation or termination or if such appointment is contrary to applicable law, the Escrow Agent may either (i) petition any court of competent jurisdiction located in the State of Delaware for the appointment of a successor escrow agent or other appropriate relief or (ii) appoint a 5 KL2 3248502. 1 successor escrow agent of its own choice. Any such resulting appointment shall be binding upon all of the parties hereto, and no appointed successor escrow agent shall be deemed to be an agent of the Escrow Agent, so long as any such successor escrow agent is capable of performing the duties of escrow agent under this Agreement and is qualified and licensed in all applicable jurisdictions. The Escrow Agent' s sole responsibility after such thirty (30) day notice period expires shall be to hold the Escrow Shares (without any obligation to reinvest the same) and to deliver the same to a designated substitute escrow agent, if any, or in accordance with the directions of a final order or judgment of a court of competent jurisdiction, at which time of delivery the Escrow Agent' s obligations hereunder shall cease and terminate. Any entity into which the Escrow Agent may be merged or converted or with which it may be consolidated, or any entity to which all or substantially all of its escrow business may be transferred, shall be the Escrow Agent under this Agreement without further act. 8. Compensation and Reimbursement. The Parties agree to pay the Escrow Agent upon execution of this Agreement and from time to time thereafter reasonable compensation for the services to be rendered hereunder, along with any fees or charges for accounts, including those levied by any governmental authority which the Escrow Agent may impose, charge or pass- through, all of which unless otherwise agreed in writing shall be as described in Schedule 3, which such compensation shall be borne 50 % by the Parent and 50 % by the Equityholder Representative at the Closing. The obligations set forth in this Section 8 shall survive the resignation, replacement or removal of the Escrow Agent or the termination of this Agreement. Each of the Parties further agrees to the disclosures and agreements set forth in Schedule 3. 9. Indemnity. (a) The Parties shall jointly and severally indemnify, defend and save harmless, pay or reimburse the Escrow Agent and its affiliates and their respective successors, assigns, agents and employees (the " Indemnitees ") from and against any and all losses, damages, claims, liabilities, penalties, judgments, settlements, litigation, investigations, reasonable and documented out- of- pocket costs or expenses (including, without limitation, the reasonable fees and expenses of outside counsel and experts and their staffs and all reasonable and documented expense of document location, duplication and shipment) (collectively " Losses "), arising out of or in connection with (i) the Escrow Agent' s execution and proper performance of this Agreement, except to the extent that such Losses are finally adjudicated by a court of competent jurisdiction to have been primarily caused by the fraud, gross negligence, willful misconduct or bad faith of any Indemnitee, or (ii) the Escrow Agent following any instructions or other directions, whether joint or singular, from the Parties, in accordance with this Agreement. It is understood that the Escrow Agent does not have a contractual right of set- off or contractual security interest under this Agreement; provided, however, that nothing herein shall be construed as a waiver of any statutory or common law rights to which the Escrow Agent may otherwise be entitled with respect thereto. The indemnity obligations set forth in this Section 9 (a) shall survive the resignation, replacement or removal of the Escrow Agent or the termination of this Agreement. (b) Without limiting the foregoing, the Parties hereby agree as among themselves that Parent shall be responsible for one hundred percent (100 %) of any fees, expenses or indemnification payments required to be paid to the Escrow Agent pursuant to Section 8 and Section 9 of this Agreement. 6 KL2 3248502. 1 10. Taxpayer Identification Numbers; Tax Reporting. Parent shall deliver with respect to itself, and the Equityholder Representative shall deliver with respect to each Stockholder, to the Escrow Agent an IRS Form W- 9 or W- 8, as applicable, and / or other required documentation that the Escrow Agent may reasonably request. The Escrow Agent shall withhold any taxes it deems appropriate in the absence of proper tax documentation or as required by law, and shall remit such taxes to the appropriate authorities. The Parties hereby represent to the Escrow Agent that no tax reporting of any kind is required under this Agreement so long as the Escrow Shares are held in non- interest bearing demand deposit accounts. 11. Notices. Any notices, demands or communications to the Escrow Agent (except as otherwise set forth in and required by Section 12 below) or a Party hereunder shall be in writing and shall be deemed to have been duly given and received (a) if delivered personally, as of the date received, (b) if delivered by certified mail, return receipt requested, three (3) Business Days after being mailed, (c) if delivered by a nationally recognized overnight delivery service, one (1) Business Day after being entrusted to such delivery service, or (d) if sent via electronic mail or similar electronic transmission, as of the date received; and in each case will be addressed to such party at its address set forth below (or such other address as it may from time to time designate in writing to the Escrow Agent and / or the other Parties). Security Procedures. (a) Notwithstanding anything to the contrary in Section 11, any instructions setting forth, claiming, containing, objecting to, or in any way related to the transfer or distribution of the Escrow Shares, including but not limited to any such funds transfer or Escrow Shares instructions that may otherwise be set forth in a written instruction permitted pursuant to this Agreement, may be given to the Escrow Agent only by confirmed facsimile or as a PDF attached to an email executed by the appropriate Party or Parties as evidenced by the signatures of the person or persons signing this Agreement or one of their designated persons as set forth on the Designation of Authorized Representatives attached hereto as Schedules 1- A and 1- B (each, an " Authorized Representative "), and no instruction for or related to the transfer or distribution of the Escrow Shares, or any portion thereof, shall be deemed delivered and effective unless the Escrow Agent actually shall have received such instruction by facsimile or email at the number or email address provided to the Parties by the Escrow Agent in accordance with Section 11 and in the case of a facsimile as further evidenced by a confirmed transmittal to that number. Each Designation of Authorized Representatives for Parent or the Equityholder Representative shall be signed by a Secretary, any Assistant Secretary or other duly authorized officer or representative of Parent or the Equityholder Representative, as applicable. The Escrow Agent shall not be liable to any Party or other person for refraining from acting upon any instruction for or related to the transfer or distribution of the Escrow Shares in the Escrow Account if delivered to any other facsimile number or email address, including but not limited to a valid email address of any employee of the Escrow Agent. (b) In the event that any funds transfer instructions or Escrow Shares disbursement instructions are received by the Escrow Agent in accordance with this Agreement, 8 KL2 3248502. 1 the Escrow Agent is authorized to seek confirmation of such Joint Instruction by a single telephone callback or email confirmation to one of the Authorized Representatives designated on Schedule 1- A or Schedule 1- B, and the Escrow Agent may rely upon the confirmation of anyone purporting to be that Authorized Representative. No funds will be disbursed until an Authorized Representative is able to confirm such instructions by telephone callback or email confirmation. The persons and telephone numbers or email addresses for callbacks or email confirmations may be changed only in a writing executed by an Authorized Representative of the applicable Party and actually received and acknowledged by the Escrow Agent via facsimile or as a PDF attached to an email. The Escrow Agent will confirm any such change in Authorized Representatives by a telephone callback or email confirmation to an Authorized Representative of such Party and the Escrow Agent may rely and act upon the confirmation of anyone purporting to be that Authorized Representative. The Escrow Agent, any intermediary bank and the beneficiary' s bank in any transfer of Escrow Shares may rely solely upon the identifying number of the beneficiary' s bank or any intermediary bank included in a Joint Instruction provided by Parent and the Equityholder Representative and confirmed by an Authorized Representative. Further, the beneficiary' s bank in the funds transfer instruction may make payment on the basis of the account number provided in such Party' s or the Parties' instruction and confirmed by an Authorized Representative even though it identifies a person different from the named beneficiary. Notwithstanding anything to the contrary, the Parties acknowledge and agree that Escrow Agent (i) shall have no obligation to take any action in connection with this Agreement on a non- Business Day and any action Escrow Agent may otherwise be required to perform on a non- Business Day may be performed by Escrow Agent on the following Business Day and (ii) may not transfer or distribute the Escrow Shares or Escrow Shares until Escrow Agent has completed its security procedures. (c) Notwithstanding anything to the contrary contained in this Agreement, in the event that an electronic signature is affixed to an instruction issued hereunder to disburse or transfer Escrow Shares, such instruction shall be confirmed by a verifying callback (or email confirmation) to an Authorized Representative. The Parties acknowledge that the security procedures set forth in this Section 12 are commercially reasonable. 13. Compliance with Directives. In the event that a legal garnishment, attachment, levy, restraining notice, court order or other governmental order (a " Directive ") is served with respect to any of the Escrow Shares, or the delivery thereof shall be stayed or enjoined by a Directive, the Escrow Agent is hereby expressly authorized, in its sole discretion, to obey and comply with all such Directives so entered or issued, and in the event that the Escrow Agent obeys or complies with any such Directive it shall not be liable to any of the Parties or to any other person, entity, firm or corporation, by reason of such compliance notwithstanding that such Directive may be subsequently reversed modified, annulled, set aside or vacated. 14. Assignment. Parent and the Equityholder Representative may assign their respective rights under this Agreement to the same extent they are permitted to assign their rights and obligations under the Merger Agreement; provided, however, that no such assignment shall relieve Parent or the Equityholder Representative of their respective obligations hereunder, and the assignment shall not take effect until the Escrow Agent receives, reviews and approves requested " know your customer " documents for the Party to be assigned. If upon the completion of such screening, the Escrow Agent agrees to the proposed assignment, the Escrow Agent shall deliver an assignment agreement or other agreement, as appropriate, to the Parties for execution. 9 KL2 3248502. 1 The Escrow Agent shall not be permitted to assign its obligations hereunder except as provided in Section 7 (b) above. 15. Miscellaneous. (a) This Agreement, including the schedules attached hereto (as between the parties hereto), and the Merger Agreement (as between the Parties) embody the entire agreement and understanding of the parties hereto concerning the Escrow Shares and, in the event of any inconsistency between this Agreement and the Merger Agreement, the Merger Agreement shall control; provided, however, that this Agreement shall control in respect of the rights and obligations of the Escrow Agent. The Escrow Agent shall have no liability under and no duty to inquire as to the provisions of any agreement other than this Agreement, including without limitation the Merger Agreement. This Agreement may be amended only by a writing signed by the parties hereto. THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF DELAWARE, WITHOUT REGARD FOR THE CONFLICTS OF LAWS PRINCIPLES THEREOF. The Parties each represent, warrant and covenant that each document, notice, instruction or request provided by such Party to the Escrow Agent shall comply with applicable laws and regulations. This Agreement shall bind and inure to the benefit of the parties hereto and their respective heirs, personal representatives, successors and permitted assigns. (b) EACH PARTY AND THE ESCROW AGENT HEREBY IRREVOCABLY SUBMITS TO THE EXCLUSIVE JURISDICTION OF THE DELAWARE COURT OF CHANCERY (OR, ONLY IF THE DELAWARE COURT OF CHANCERY DECLINES TO ACCEPT JURISDICTION OVER A PARTICULAR MATTER, ANY U. S. FEDERAL COURT SITTING IN THE STATE OF DELAWARE) AND ANY APPELLATE COURT THEREOF IN RESPECT OF ANY ACTION, SUIT OR PROCEEDING ARISING IN CONNECTION WITH THIS AGREEMENT AND THE TRANSACTIONS CONTEMPLATED HEREBY, AND AGREES THAT ANY SUCH ACTION, SUIT OR PROCEEDING SHALL BE BROUGHT ONLY IN SUCH COURT (AND WAIVES ANY OBJECTION BASED ON FORUM NON CONVENIENS OR ANY OTHER OBJECTION TO VENUE THEREIN). Any and all process may be served in any action, suit or proceeding arising in connection with this Agreement by complying with the provisions of Section 11. Such service of process shall have the same effect as if the party being served were a resident in the State of Delaware and had been lawfully served with such process in such jurisdiction. The parties hereto hereby waive all claims of error by reason of such service. Nothing herein shall affect the right of any party hereto to service of process in any other manner permitted by law or to commence legal proceedings or otherwise proceed against the other in any other jurisdiction to enforce judgments or rulings of the aforementioned courts. To the extent that in any jurisdiction any party hereto may now or hereafter be entitled to claim for itself or its assets, immunity from suit, execution, attachment (before or after judgment) or other legal process, such party hereto shall not claim, and hereby irrevocably waives, such immunity. No party to this Agreement is liable to any other party for losses due to, or if it is unable to perform its obligations under the terms of this Agreement because of, acts of God, fire, war, terrorism, floods, strikes, electrical outages, equipment or transmission failure, or other causes beyond its control. Except as expressly provided in Section 9 above, nothing in this Agreement, whether express or implied, shall be construed to give to any person or entity other than Escrow Agent and the Parties any legal or equitable right, remedy, interest or claim under or 10 KL2 3248502. 1 in respect of the Escrow Account or this Agreement. EACH PARTY AND THE ESCROW AGENT IRREVOCABLY WAIVES ALL RIGHT TO TRIAL BY JURY IN ANY ACTION (WHETHER BASED ON CONTRACT, TORT OR OTHERWISE) ARISING OUT OF OR RELATING TO THIS AGREEMENT, THE TRANSACTIONS CONTEMPLATED BY THIS AGREEMENT OR THE ACTIONS OF EACH PARTY AND THE ESCROW AGENT IN THE NEGOTIATION, ADMINISTRATION, PERFORMANCE OR ENFORCEMENT HEREOF. (c) This Agreement and any Joint Instruction and any Equityholder Representative Instruction may be executed in one or more counterparts, each of which will be deemed to be an original copy and all of which, when taken together, will be deemed to constitute one and the same agreement. The exchange of copies of this Agreement and of signature pages by facsimile transmission or as a PDF attached to an email shall constitute effective execution and delivery of this Agreement and signatures transmitted by facsimile or as a PDF attached to an email shall be deemed to be original signatures for all purposes. (d) The Escrow Agent shall keep the information with respect to this Agreement and the Escrow Account, the Parties, or any transaction hereunder confidential. Notwithstanding the immediately preceding sentence, the Parties authorize the Escrow Agent to disclose information with respect to this Agreement and the Escrow Account, the Parties, or any transaction hereunder if such disclosure is: (i) necessary for the purpose of allowing the Escrow Agent to perform its duties and to exercise its powers and rights hereunder; (ii) to a proposed assignee permitted under this Agreement of the rights of the Escrow Agent to the extent that such assignee is subject to confidentiality obligations with respect to any such disclosure; (iii) to a branch, affiliate, subsidiary, employee or agent of the Escrow Agent or to their auditors or legal advisers, who shall be subject to confidentiality obligations with respect to any such disclosure; (iv) to the regulators of a branch, affiliate, subsidiary, employee or agent of the Escrow Agent or to any competent court; (v) to the auditors of any of the Parties; or (vi) required by applicable law, regardless of whether the disclosure is made in the country in which each Party resides, in which the Escrow Account are maintained, or in which the transaction is conducted; provided, however, that in the case of each of clauses (i), (ii) and (iii) above, the Escrow Agent shall be responsible for the failure of any party to which the Escrow Agent discloses such information as permitted by such clauses to keep such information confidential in accordance with this Section 15 (d). This Section 15 (d) shall not apply to information that (A) is or becomes publicly available other than as a result of the Escrow Agent' s breach of this Agreement, (B) was obtained by the Escrow Agent from a third party that is not, to the Escrow Agent' s knowledge, subject to an obligation of confidentiality with respect to such information or (C) was independently developed by the Escrow Agent without reference to such information. The Parties agree that such disclosures by the Escrow Agent and its affiliates may be transmitted across national boundaries and

through networks, including those owned by third parties. (e) If any provision contained in this Agreement shall for any reason be held invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provision of this Agreement, and this Agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein, unless the invalidity of any such provision substantially deprives any party hereof of the practical benefits intended to be conferred by this Agreement. Notwithstanding the foregoing, any provision of this Agreement held invalid, illegal or unenforceable only in part or degree shall remain in full force 11 KL2 3248502. 1 and effect to the extent not held invalid or unenforceable, and the determination that any provision of this Agreement is invalid, illegal or unenforceable as applied to particular circumstances shall not affect the application of such provision to circumstances other than those as to which it is held invalid, illegal or unenforceable, and any court of competent jurisdiction is authorized to adjust such provision to make it valid, legal and enforceable and such provision as so adjusted shall bind the parties hereto. (f) The headings contained in this Agreement are solely for the purpose of reference and convenience, are not part of the agreement of the parties hereto, and shall not in any way limit, modify or otherwise affect the meaning or interpretation of this Agreement. References to " Sections " refer to corresponding sections of this Agreement unless otherwise specified. Unless the context requires otherwise, the words " include, " " including " and variations thereof mean including without limitation; and the words " hereof, " " hereby, " " herein, " " hereunder " and similar terms refer to this Agreement as a whole and not any particular section or article in which such words appear. Unless the context requires otherwise, words in the singular include the plural, words in the plural include the singular, and words indicating gender shall be applicable to all genders. Currency amounts referred to herein are in U. S. Dollars. References to a number of days refer to calendar days unless Business Day (s) are specified. " Business Day " shall mean any day other than a Saturday, Sunday or any other day on which the Escrow Agent located at the notice address set forth below is authorized or required by law or executive order to remain closed. Except as otherwise specified, whenever any action must be taken on or by a day that is not a Business Day, then such action may be validly taken on or by the next day that is a Business Day. SECURITIES TRADING POLICY Compliance with United States Securities Laws and Security Trading Adopted as of July 25, 2018 This Securities Trading Policy (" Policy ") contains the following sections: 1. 0 General 2. 0 Definitions 3. 0 Statement of Policy 4. 0 Certain Exceptions 5. 0 Pre- clearance of Trades and Other Procedures 6. 0 10b5- 1 Plans Margin Accounts and Pledges Short Sales 7. 0 Potential Criminal And Civil Liability And Or Disciplinary Action 8. 0 Broker Requirements for Section 16 Persons 9. 0 Confidentiality 10. 0 Legal Effect of this Policy 1. General Priority Technology Holdings, Inc. and its subsidiaries (collectively, the " Company "), their directors, officers and employees (collectively, " Priority Personnel "), family members of Priority Personnel and trusts, corporations and other entities controlled by any of such persons (collectively, " Insiders ") must, at all times, comply with the securities laws of the United States and all applicable jurisdictions. Federal securities laws prohibit trading in the securities of a company on the basis of " inside " information. These transactions are commonly known as " insider trading ". It is also illegal to recommend to others (commonly called " tipping ") that they buy, sell or retain the securities to which such inside information relates. Anyone violating these laws is subject to personal liability and could face criminal penalties, including a jail term. Federal securities law also creates a strong incentive for the Company to deter insider trading by its employees. In the normal course of business, Priority Personnel may come into possession of inside information concerning the Company, transactions in which the Company proposes to engage or other entities with which the

Company does business. Therefore, the Company has established this Policy with respect to trading in its securities or securities of another company. Any violation of this Policy could subject you to disciplinary action, up to and including termination. See Section 7. This Policy concerns compliance as it pertains to the disclosure of inside information regarding the Company or another company and to trading in securities while in possession of such inside information. In addition to requiring that Insiders comply with DOC ID- 27807333. 7 2 the letter of the law, it is the Company' s policy that Insiders exercise judgment so as to also comply with the spirit of the law and avoid even the appearance of impropriety. This Policy is intended to protect Insiders and the Company from insider trading violations. However, the matters set forth in this Policy are guidelines only and are not intended to replace your responsibility to understand and comply with the legal prohibition on insider trading. Appropriate judgment should be exercised in connection with all securities trading. If you have specific questions regarding this Policy or applicable law, please contact the General Counsel or another member of the Company' s legal and compliance staff (collectively, " Company Compliance ").. Definitions Family Members. For purposes of this Policy, the term " family members " includes family members who reside with you, anyone else who lives in your household and any family members who do not live in your household but whose transactions in the Company' s securities are directed by you or are subject to your influence or control. Material. Information is generally considered " material " if a reasonable investor would consider it important in deciding whether to buy, sell or hold a security. Information that is likely to affect the price of the Company' s securities is almost always material. The information may concern the Company or another company and may be positive or negative. In addition, it should be emphasized that material information does not have to relate to a company' s business; information about the contents of a forthcoming publication in the financial press that is expected to affect the market price of a security could well be material. Employees should assume that information that would affect their consideration of whether to trade, or which might tend to influence the price of the security, is material. Examples of material information include, but are not limited to: x dividend information; x earnings results, estimates and guidance on earnings and changes in previously released earnings results, estimates or guidance; x a significant merger, acquisition or divestiture proposal or agreement; x investments, joint ventures or changes in assets; x new service offerings or significant news relating to service offerings; x changes in relationships with significant customers (e. g., the gain or loss of a significant customer); x extraordinary management developments; x major financing developments DOC ID- 27807333. 7 3 x major litigation developments x restructuring or layoffs; and x changes in auditors. Information that something is likely to happen or even just that it may happen can be material. Courts often resolve close cases in favor of finding the information material. Therefore, Insiders should err on the side of caution. Insiders should keep in mind that the Securities and Exchange Commission' s (" SEC ") rules and regulations provide that the mere fact that a person is aware of the information is a bar to trading. It is no excuse that such person' s reasons for trading were not based on the information. Non- Public Information. For the purpose of this Policy, information is " Non- Public " until three criteria have been satisfied: First, the information must have been widely disseminated. Generally, Insiders should assume that information has NOT been widely disseminated unless one or more of the following has occurred: x it has been carried in a " financial " news service such as the Dow Jones Broad Tape; x it has been carried in a " general " news service such as the Associated Press; x it has been carried by a national television news service and or; x it has appeared in a filing with the SEC. Second, the information disseminated must be some form of " official " announcement. In other words, the fact that rumors, speculation, or statements attributed to unidentified sources are public is insufficient to be considered widely disseminated even when the information is accurate. Third, after the information has been disseminated, a period of time must pass sufficient for the information to be absorbed by the general public. As a general rule, information should not be considered fully absorbed until the third trading day on the NASDA Stock Market (" NASDA ") after the day on which the information is disseminated in a national news medium or disclosed in a filing with the SEC. Section 16 Persons: The " Section 16 Persons " means the Company' s directors and officers (as defined in Rule 16a- 1 under the Securities Exchange Act of 1934, as amended, (the " Exchange Act ")). Security or Securities. The term " security " or " securities " is defined very broadly by the securities laws and includes stock (common and preferred), stock options, warrants, bonds, notes, debentures, convertible instruments, put or call options (i. e., exchange- traded options), or other similar instruments. DOC ID- 27807333. 7 4 Trade or Trading. The term " trade " or " trading " means broadly any purchase, sale or other transaction to acquire, transfer or dispose of securities, including market option exercises, gifts or other contributions, exercises of stock options granted under the Company' s stock plans, sales of stock acquired upon the exercise of options and trades made under an employee benefit plan such as a 401 (k) plan.. Statement of Policy No Insider may buy or sell the Company' s securities at any time when the Insider has Material Non- Public Information concerning the Company. No Insider may buy or sell securities of another company at any time when the Insider has Material Non- Public Information about that company, including, without limitation, any of the Company' s customers, when that information was obtained as a result of the Insider' s employment or relationship to the Company. No Insider may disclose (" tip ") Material Non- Public Information to any other person (including family members), and no Insider may make buy or sell recommendations on the basis of Material Non- Public Information. In addition, Insiders should take care before trading on the recommendation of others to ensure that the recommendation is not the result of an illegal " tip ". No Insider who receives or has access to the Company' s Material Non- Public Information may comment on stock price movements or rumors of other corporate developments (including discussions in Internet " chat rooms ") that are of possible significance to the investing public unless it is part of the Insider' s job (such as Investor Relations) or the Insider has been specifically authorized in accordance with the Company' s Policy and Procedures for Compliance with Regulation FD. If you comment on stock price movements or rumors or disclose Material Non- Public Information to a third party you must contact Company Compliance immediately. In addition, it is generally the practice of the Company not to respond to inquiries and or rumors concerning the Company' s affairs. If you receive inquiries concerning the Company from the media or inquiries from securities analysts or other members of the financial community, you should refer such inquiries, without comment, to the Company' s Investor Relations Officer, if any, or Company Compliance. Certain Insiders may only trade in the Company' s securities during the four " Window Periods " that occur each fiscal year. These persons must also receive pre- approval prior to any transaction. See Section 5. 0. No Short Sales or Speculative Transactions. No Insider, whether or not he or she possesses Material Non- Public Information, may trade in options, warrants, puts and calls or similar instruments in the Company' s securities, or sell such securities " short " (i. e., selling stock that is not owned and borrowing the shares to make delivery). Such activities may unduly focus the Insider' s attention on short- term performance at the expense of the Company' s long- term objectives, allow the Insider to continue to own the covered securities, but without the full risks and rewards of ownership, put the personal DOC ID- 27807333. 7 5 gain of the Insider in conflict with the best interests of the Company and its securityholders or otherwise give the appearance of impropriety. No Priority Personnel may engage in any transactions (including variable forward contracts, equity swaps, collars and exchange funds) that are designed to hedge or offset any decrease in the market value of the Company' s equity securities. An Insider who is aware of Material Non- Public Information when he or she ceases to be an Insider may not trade in the Company' s securities until that information has become public or is no longer material. In addition, this Policy continues in effect for all Permanent Restricted Persons and Other Restricted Persons until the opening of the first Window Period after termination of employment or other relationship with the Company, except that, unless notified otherwise by the Company, the pre- clearance requirements set forth in Section 5. 0 continue to apply to Permanent Restricted Persons for six months after the termination of their status as a Permanent Restricted Person. See Section 5. 3. Transactions that may be necessary or justifiable for independent reasons (such as the need to raise money for an emergency expenditure) are not excepted from the Policy. The securities laws do not recognize such mitigating circumstances, and, in any event, even the appearance of an improper transaction must be avoided to preserve the Company' s reputation for adhering to the highest standards of conduct.. Certain Exceptions The prohibition on trading in the Company' s securities set forth in Section 3. 0 above does not apply to: x Transferring shares to an entity that does not involve a change in the beneficial ownership of the shares (for example, to an inter vivos trust of which you are the sole beneficiary during your lifetime). x The exercise of stock options pursuant to the Company' s stock plans; however, the sale of any such stock acquired upon such exercise, including as part of a cashless exercise of an option, is subject to this Policy. x The exercise of a tax withholding right pursuant to which you elect to have the Company withhold shares of restricted stock, shares underlying restricted stock units or shares subject to an option to satisfy tax withholding requirements. x The execution of transactions pursuant to a trading plan that complies with SEC Rule 10b5- 1 and which has been approved by the Company. See Section 6. 1. x To the extent the Company offers its securities as an investment option in the Company' s 401 (k) plan, the purchase of stock through the Company' s 401 (k) plan through regular payroll deductions; however, the sale of any such stock and the election to transfer funds into or out of, or a loan with respect to amounts invested in, the stock fund is subject to this Policy. DOC ID- 27807333. 7 6 x To the extent the Company offers its securities as an investment option in an employee stock purchase plan, the purchase of stock through the Company' s employee stock purchase plan; however, the sale of any such stock and changing instructions regarding the level of withholding contributions which are used to purchase stock is subject to this Policy.. Pre clearance of Trades and Other Procedures Applicability. Section 16 Persons, family members of Section 16 Persons and trusts, corporations and other entities controlled by Section 16 Persons (collectively, " Permanent Restricted Persons ") as well as certain other persons described in Section 5. 2 must obtain the advance approval of Company Compliance in accordance with Section 5. 3 before effecting transactions in the Company' s securities, including any exercise of an option (whether cashless or otherwise), gifts, loans, pledges, rights or warrant to purchase or sell such securities, contribution to a trust or other transfers, whether the transaction is for the individual' s own account, one over which he or she exercises control or one in which he or she has a beneficial interest. Other Restricted Persons. From time to time, the Company will notify persons other than Permanent Restricted Persons that they are subject to the pre- clearance requirements set forth in Section 5. 3 if the Company believes that, in the normal course of their duties, they are likely to have regular access to Material Non- Public Information (" Other Restricted Persons "). Examples of such persons include other corporate officers like those working in sales and marketing, global operations, legal, finance and corporate development departments (if any), family members of any of such persons and trusts, corporations and other entities controlled by any of such persons. Occasionally, certain individuals may have access to Material Non- Public Information for a limited period of time. During such a period, such persons may be notified that they are also Other Restricted Persons who will be subject to the pre- clearance requirements set forth in Section 5. 3. Procedures. Subject to Section 6. 1, Permanent Restricted Persons and Other Restricted Persons should submit a request for

pre- clearance to Company Compliance at least two business days in advance of the proposed transaction (two weeks in the case of using shares as collateral for a loan (see Section 6. 2)) and by completing the attached " Request for Approval " form. Approval must be in writing, dated and signed, specifying the securities involved. Approval for transactions and pledges of the Company s securities will generally be granted only during a Window Period described in Section. below and the transaction may only be performed during the Window Period in which the approval was granted and in any event within two business days from the date of approval. Unless notified otherwise by the Company, Permanent Restricted Persons must comply with these pre- clearance requirements for six months after the termination of their status as a Permanent Restricted Person. Window Periods. The Company has established four " windows " of time during the fiscal year during which Request for Approval forms may be approved and transactions and pledges may be performed (" Window Periods "). Each Window Period begins with the DOC ID- 27807333. 7 7 third trading day on NASDA after the day on which the Company makes a public news release of its quarterly or annual earnings for the prior fiscal quarter or year. That same Window Period closes at the close of trading on the last trading day that is two weeks prior to the end of the then current fiscal quarter. After the close of the Window Period, except as set forth in Section 4. 0 above, Permanent Restricted Persons and Other Restricted Persons may not trade in any of the Company' s securities. The prohibition against trading while aware of, or tipping of, Material Non- Public Information applies even during a Window Period. For example, if during a Window Period, a material acquisition or divestiture is pending or a forthcoming publication in the financial press may affect the relevant securities market, you may not trade in the Company' s securities. You must consult Company Compliance whenever you are in doubt. Suspension of Trading. From time to time, the Company may require that directors, officers, selected employees and or others suspend trading in the Company' s securities because of developments that have not yet been disclosed to the public. All those affected shall not trade in the Company' s securities while the suspension is in effect, and shall not disclose to others that we have suspended trading for certain individuals. Though these blackouts generally will arise because the Company is involved in a highly- sensitive transaction, they may be declared for any reason. If the Company declares a blackout to which you are subject, a member of the legal department will notify you when the blackout begins and when it ends. Notification of Window Periods. In order to assist you in complying with this Policy, the Company will deliver an e- mail (or other communication) notifying all Section 16 Persons and all other Priority Personnel designated as Other Restricted Persons when the Window Period has opened and when the Window Period is about to close. The Company' s delivery or nondelivery of these e- mails (or other communication) does not relieve you of your obligation to only trade in the Company' s securities in full compliance with this Policy. Hardship Exemptions. Those subject to the Window Periods or a blackout pursuant to Section 5. 5 may request a hardship exemption for periods outside the Window Periods or during a blackout, as applicable, if they are not in possession of Material Non- Public Information and are not otherwise prohibited from trading pursuant to this Policy. Hardship exemptions are granted infrequently and only in exceptional circumstances. Any request for a hardship exemption should be made to Company Compliance. 6. 1 b 1 Plans Margin Accounts and Pledges Short Sales 10b5- 1 Trading Plans. A 10b5- 1 trading plan is a binding, written contract between you and your broker that specifies the price, amount, and date of trades to be executed in your account in the future, or provides a formula or mechanism that your broker will follow. A 10b5- 1 trading plan can only be established when you do not possess Material Non- Public Information. Therefore, Insiders cannot enter into these plans at any time when in possession of Material Non- Public Information and, in addition, persons subject to the pre- clearance requirements of this Policy described in Section 5. 0 cannot enter into these plans outside Window Periods. In addition, a 10b5- 1 trading plan must not permit you to DOC ID- 27807333. 7 8 exercise any subsequent influence over how, when, or whether the purchases or sales are made. You have an affirmative defense against any claim by the SEC against you for insider trading if your trade was made under a 10b5- 1 trading plan that you entered into when you were not aware of Material Non- Public Information. The rules regarding 10b5- 1 trading plans are complex and you must fully comply with them. You should consult with your legal advisor before proceeding. Each Insider must pre- clear with Company Compliance its proposed 10b5- 1 trading plan prior to the establishment of such plan. The Company reserves the right to withhold pre- clearance of any 10b5- 1 trading plan that the Company determines is not consistent with the rules regarding such plans. Notwithstanding any pre- clearance of a 10b5- 1 trading plan, the Company assumes no liability for the consequences of any transaction made pursuant to such plan. If you enter into a 10b5- 1 trading plan, your 10b5- 1 trading plan should be structured to avoid purchases or sales shortly before known announcements, such as quarterly or annual earnings announcements. Even though transactions executed in accordance with a properly formulated 10b5- 1 trading plan are exempt from the insider trading rules, the trades may nonetheless occur at times shortly before we announce material news, and the investing public and media may not understand the nuances of trading pursuant to a 10b5- 1 trading plan. This could result in negative publicity for you and the Company if the SEC or NASDA were to investigate your trades. For Insiders, any modification or termination of a pre- approved 10b5- 1 trading plan requires pre- clearance by Company Compliance. In addition, any modification of a pre- approved 10b5- 1 trading plan must occur before you become aware of any Material Non- Public Information and must comply with the requirements of the rules regarding 10b5- 1 trading plans and, if you are subject to Window Period restrictions, must take place during a Window Period. Transactions effected pursuant to a pre- cleared 10b5- 1 trading plan will not require further pre- clearance at the time of the transaction if the plan specifies the dates, prices and amounts of the contemplated trades, or establishes a formula for determining the dates, prices and amounts. Finally, if you are a Section 16 Person, 10b5- 1 trading plans require special care. Because in a 10b5- 1 trading plan you can specify conditions that trigger a purchase or sale, you may not even be aware that a transaction has taken place and you may not be able to comply with the SEC' s requirement that you report your transaction to the SEC within two business days after its execution. Therefore, for Section 16 Persons, a transaction executed according to a 10b5- 1 trading plan is not permitted unless the 10b5- 1 trading plan requires your broker to notify the Company before the close of business on the day of the execution of the transaction. See Section 8. 0. DOC ID- 27807333. 7 9 Margin Accounts and Pledges. Securities purchased on margin may be sold by the broker without the customer' s consent if the customer fails to meet a margin call. Similarly, securities held in an account which may be borrowed against or are otherwise pledged (or hypothecated) as collateral for a loan may be sold in foreclosure if the borrower defaults on the loan. Accordingly, if you purchase securities on margin or pledge them as collateral for a loan, a margin sale or foreclosure sale may occur at a time when you are aware of Material Non- Public Information or otherwise are not permitted to trade in the Company' s securities. The sale, even though not initiated at your request, is still a sale for your benefit and may subject you to liability under the insider trading rules if made at a time when you are aware of Material Non- Public Information. Similar cautions apply to a bank or other loans for which you have pledged stock as collateral. Therefore, no Priority Personnel, whether or not in possession of Material Non- Public Information, may purchase the Company' s securities on margin, or borrow against any account in which the Company' s securities are held, or pledge the Company' s securities as collateral for a loan, without first obtaining pre- clearance. Request for approval must be submitted to Company Compliance at least two weeks prior to the execution of the documents evidencing the proposed pledge. Company Compliance is under no obligation to approve any request for pre- clearance and may determine not to permit the arrangement for any reason. Approvals will be based on the particular facts and circumstances of the request, including, but not limited to, the percentage amount that the securities being pledged represent of the total number of the Company' s securities held by the person making the request and the financial capacity of the person making the request. Notwithstanding the pre- clearance of any request, the Company assumes no liability for the consequences of any transaction made pursuant to such request.. Potential Criminal And Civil Liability And Or Disciplinary Action Individual Responsibility. Each Insider is individually responsible for complying with the securities laws and this Policy, regardless of whether the Company has prohibited trading by that Insider or any other Insiders. Trading in securities during the Window Periods and outside of any suspension periods should not be considered a " safe harbor ". We remind you that, whether or not during a Window Period, you may not trade securities on the basis of Material Non- Public Information. You should also bear in mind that any proceeding alleging improper trading will necessarily occur after the trade has been completed and is particularly susceptible to second- guessing with the benefit of hindsight. Therefore, as a practical matter, before engaging in any transaction you should carefully consider how enforcement authorities and others might view the transaction in hindsight. Further, whether or not you possess Material Non- Public Information, it is advisable that you invest in the Company' s securities or the securities of any company that has a substantial relationship with the Company from the perspective of a long term investor who would like to participate over time in the Company' s or such company' s earnings growth. Controlling Persons. The securities laws provide that, in addition to sanctions against an individual who trades illegally, penalties may be assessed against what are known as DOC ID- 27807333. 7 10 " controlling persons " with respect to the violator. The term " controlling person " is not defined, but includes employers (i. e., the Company), its directors, officers and managerial and supervisory personnel. The concept is broader than what would normally be encompassed by a reporting chain. Individuals may be considered " controlling persons " with respect to any other individual whose behavior they have the power to influence. Liability can be imposed only if two conditions are met. First, it must be shown that the " controlling person " knew or recklessly disregarded the fact that a violation was likely. Second, it must be shown that the " controlling person " failed to take appropriate steps to prevent the violation from occurring. For this reason, the Company' s supervisory personnel are directed to take appropriate steps to ensure that those they supervise, understand and comply with the requirements set forth in this Policy. Potential Sanctions. (i) Liability for Insider Trading and Tipping. Insiders, controlling persons and the Company may be subject to civil penalties, criminal penalties and or jail for trading in securities when they have Material Non- Public Information or for improper transactions by any person (commonly referred to as a " tippee ") to whom they have disclosed Material Non- Public Information, or to whom they have made recommendations or expressed opinions on the basis of such information about trading securities. The SEC has imposed large penalties even when the disclosing person did not profit from the trading. The SEC, the stock exchanges and the Financial Industry Regulatory Authority use sophisticated electronic surveillance techniques to uncover insider trading. (ii) Possible Disciplinary Actions. Priority Personnel who violate this Policy will be subject to disciplinary action, up to and including termination of employment for cause, whether or not the Priority Personnel' s failure to comply results in a violation of law. Needless to say, a violation of law, or even an SEC investigation that does not result in prosecution, can tarnish one' s reputation and irreparably damage a career. uestions and iolations. Anyone with questions concerning this Policy or its application should contact Company Compliance. Any violation or perceived violation should be reported immediately to Company Compliance.. Broker Re uirements for Section 16 Persons The timely reporting of

transactions requires tight interface with brokers handling transactions for the Company' s directors and executive officers. A knowledgeable, alert broker can also serve as a gatekeeper, helping to ensure compliance with the Company' s pre- clearance procedures and helping prevent inadvertent violations. Therefore, in order to facilitate timely compliance by the directors and executive officers of the Company with the requirements of Section 16 of the Exchange Act, brokers of Section 16 Persons need to comply with the following requirements: x Not to enter any order (except for orders under pre- approved Rule 10b5- 1 plans) without first verifying with the Company that your transaction was pre- cleared DOC ID- 27807333. 7 11 and complying with the brokerage firm' s compliance procedures (e. g., Rule 144), and x To report before the close of business on the day of the execution of the transaction to the Company by telephone and in writing via e- mail to Company Compliance and the Corporate Secretary, the complete (i. e., date, type of transaction, number of shares and price) details of every transaction involving the Company' s stock, including gifts, transfers, pledges and all 10b5- 1 transactions. Because it is the legal obligation of the trading person to cause this filing to be made, you are strongly encouraged to confirm following any transaction that your broker has immediately telephoned and e- mailed the required information to the Company.. Confidentiality No Priority Personnel should disclose any Non- Public Information to non- Priority Personnel (including to family members), except when such disclosure is needed to carry out the Company' s business and then only when the Priority Personnel disclosing the information has no reason to believe that the recipient will misuse the information. When such information is disclosed, the recipient must be told that such information may be used only for the business purpose related to its disclosure and that the information must be held in confidence. Priority Personnel should disclose Non- Public Information to other Priority Personnel only in the ordinary course of business, for legitimate business purposes and in the absence of reasons to believe that the information will be misused or improperly disclosed by the recipient. Written information should be appropriately safeguarded and should not be left where it may be seen by persons not entitled to the information and Non- Public Information should not be discussed with any person within the Company under circumstances where it could be overheard. See also, Controlling Persons, Section 7. 2. In addition to other circumstances where it may be applicable, this confidentiality policy must be strictly adhered to in responding to inquiries about the Company that may be made by the press, securities analysts or other members of the financial community. It is important that responses to any such inquiries be made on behalf of the Company by a duly designated officer. Accordingly, Priority Personnel should not respond to any such inquiries and should refer all such inquiries to the Company' s Investor Relations Officer, if any, or Company Compliance. See also, Statement of Policy, Sections 3. 4 and 3. 5. 1. Legal Effect of this Policy The Company' s Policy with respect to insider trading and the disclosure of confidential information, and the procedures that implement this Policy, are not intended to serve as precise recitations of the legal prohibitions against insider trading and tipping which are highly complex, fact specific and evolving. Certain of the procedures are designed to prevent even the appearance of impropriety and in some respects may be more restrictive than the securities laws. Therefore, these procedures are not intended to serve as a basis for establishing civil or criminal liability that would not otherwise exist. DOC ID- 27807333. 7 ACKNOWLEDGMENT CONCERNING SECURITIES TRADING POLICY If you are a Permanent Restricted Person as described in Section 5. 1 or have been notified by us that you are subject to the pre- clearance requirements as an Other Restricted Person as described in Section 5. 2, we ask that you acknowledge that you have received and read this Securities Trading Policy. Priority Technology Holdings, Inc. may ask you to re- submit this acknowledgement on an annual basis, at such time as a person has been designated as an Other Restricted Person or whenever the Securities Trading Policy is significantly updated. If you are not a Permanent Restricted Person and have not been notified by us that you have been designated as an Other Restricted Person, you do not have to sign the acknowledgement below. By my signature below, I acknowledge that I have read and received Priority Technology Holdings, Inc.' s Securities Trading Policy. At contract inception, the Company assesses the services and goods promised in its contracts with customers and identifies the performance obligation for each promise to transfer a distinct good or service to the customer. The Company recognizes revenue when it satisfies a performance obligation by transferring a service or good to the customer in an amount to which the Company expects to be entitled (i. e., transaction price) allocated to the distinct services or goods. The Company has elected the permitted practical expedient that allows it to use the portfolio approach for many of its contracts since this approach' s impact on the financial statements, when applied to a group of contracts (or performance obligations) with similar characteristics, is not materially different from the impact of applying the revenue standard on an individual contract basis. Under the portfolio practical expedient, collectability is still assessed at the individual contract level when determining if a contract exists. The Company has elected to exclude any contracts with an original duration of one year or less and any variable consideration that meets specified criteria from its disclosure of the aggregate amount of the transaction price allocated to unsatisfied performance. < / span > < / div > < div style =" margin- bottom: 12pt" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > In delivering payment services to the customer, the Company may also provide a limited license agreement to the customer for the use of one or more of the Company' s proprietary cloud- based software applications. The Company grants a right to use its software applications only when the customer has contracted with the Company to receive related payment services. When combined with the underlying payment services, the license and the payment services provided to the customer are a single stand- ready obligation and the Company' s performance obligation is defined by each time increment, rather than by the underlying activities, (quantity and timing of which is not determinable), < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 12pt; font- weight: 400; line- height: 120 %" > < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > satisfied over time based on days elapsed. < / span > < / div > < div style =" margin- bottom: 12pt" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > In order to provide our payment services, we obtain authorization for the transaction and request funds settlement from the card issuing financial institution through the payment network. When third parties are involved in the transfer of services or goods to the customer, the Company considers the nature of each specific promised service or good and applies judgment to determine whether the Company controls the service or good before it is transferred to the customer or whether the Company is acting as an agent of the third party. To determine whether the Company controls the service or good, it assesses indicators including: 1) which party is primarily responsible for fulfillment; 2) which party has discretion in determining pricing for the service or good; and 3) other considerations deemed to be applicable to the specific situation. Based on our assessment of these indicators, we have concluded that the promise to our customers to provide payment services is distinct from the services provided by the card issuing FIs and payment networks in connection with payment transactions. We do not have the ability to direct the use of and obtain substantially all of the benefits of the services provided by the card issuing FIs and payment networks

before those services are transferred to our customer, and on that basis, we do not control those services prior to being transferred to our customer. The standards of the card networks require possession of funds during the settlement process by a member bank which controls the clearing transactions. Since settlement funds are required to be in the possession of a member bank until the merchant is funded, these funds are not assets of the Company and the associated obligations related to these funds are not liabilities of the Company. Under agreements between the Company and its merchant customers, the merchants assume liability for such chargebacks and losses. If the Company is ultimately unable to collect amounts from the merchants for any charges or losses due to merchant fraud, insolvency, bankruptcy or any other reason, it may be liable for these charges. In order to mitigate the risk of such liability, the Company may: 1) require certain merchants to establish and maintain reserves designed to protect the Company from such charges or losses under its risk- based underwriting policy; and 2) engage with certain ISOs in partner programs in which the ISOs assume liability for these charges or losses. A merchant reserve account is funded by the merchant and held by the member bank during the term of the merchant agreement. Additionally, this operating segment also experienced compressed margins due to expenses associated with costs of sales increasing at a larger rate than revenue. Considering the most recent fair value valuation was performed in 2019, the Company elected the option to unconditionally bypass the qualitative impairment analysis and proceed with performing the quantitative analysis for the SMB Payments reporting unit as allowed by ASC 350. For the purpose of the quantitative analysis, the guideline public company method and the discounted cash flow method (equally weighted) were determined to be the appropriate methodology. Given the performance of the Enterprise Payments operating segment and the relatively short time passed since the Plastiq acquisition, the Company elected to perform the qualitative impairment analysis for these reporting units.
