At contract inception, the Company assesses the services and goods promised in its contracts with customers and identifies the performance obligation for each promise to transfer a distinct good or service to the customer. The Company recognizes revenue when it satisfies a performance obligation by transferring a service or good to the customer in an amount to which the Company expects to be entitled (i. e., transaction price) allocated to the distinct services or goods. The Company has elected the permitted practical expedient that allows it to use the portfolio approach for many of its contracts since this approach' s impact on the financial statements, when applied to a group of contracts (or performance obligations) with similar characteristics, is not materially different from the impact of applying the revenue standard on an individual contract basis. Under the portfolio practical expedient, collectability is still assessed at the individual contract level when determining if a contract exists. The Company has elected to exclude any contracts with an original duration of one year or less and any variable consideration that meets specified criteria from its disclosure of the aggregate amount of the transaction price allocated to unsatisfied performance. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In delivering payment services to the customer, the Company may also provide a limited license agreement to the customer for the use of one or more of the Company' s proprietary cloud- based software applications. The Company grants a right to use its software applications only when the customer has contracted with the Company to receive related payment services. When combined with the underlying payment services, the license and the payment services provided to the customer are a single stand- ready obligation and the Company' s performance obligation is defined by each time increment, rather than by the underlying activities, (quantity and timing of which is not determinable), & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 12pt; font- weight: 400; line- height: 120 %" & gt; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; satisfied over time based on days elapsed. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In order to provide our payment services, we obtain authorization for the transaction and request funds settlement from the card issuing financial institution through the payment network. When third parties are involved in the transfer of services or goods to the customer, the Company considers the nature of each specific promised service or good and applies judgment to determine whether the Company controls the service or good before it is transferred to the customer or whether the Company is acting as an agent of the third party. To determine whether the Company controls the service or good, it assesses indicators including: 1) which party is primarily responsible for fulfillment; 2) which party has discretion in determining pricing for the service or good; and 3) other considerations deemed to be applicable to the specific situation. Based on our assessment of these indicators, we have concluded that the promise to our customers to provide payment services is distinct from the services provided by the card issuing FIs and payment networks in connection with payment transactions. We do not have the ability to direct the use of and obtain substantially all of the benefits of the services provided by the card issuing FIs and payment networks before those services are transferred to our customer, and on that basis, we do not control those services prior to being transferred to our customer. As a result, we present our revenues net of the interchange fees retained by the card issuing FIs and the fees charged by the payment networks. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; text- decoration: underline" & gt; SMB Payments & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; & # x2013; & lt; / span & gt; & lt; span

The Company uses an agile development methodology in which feature- by- feature updates are made to its software. The costs incurred in the preliminary stages of development are expensed as incurred. Once an application has reached the development stage, internal and external costs incurred to develop internal- use software are capitalized and amortized using the straight- line method over the estimated useful life of the software, which generally range from & lt; span style ="- sce- ix- hidden: f- 564" & gt; two & lt; / span & gt; to five years. Maintenance costs including those in the post- implementation stages, are typically expensed as incurred, unless such costs relate to substantial upgrades and enhancements to the software that result in added functionality, in which case such costs are capitalized and amortized using the straight- line method over the estimated useful life of the software. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Software development costs may become impaired in situations where development efforts are abandoned due to the viability of the planned project becoming doubtful or due to technological obsolescence of the planned software product. The carrying value of an intangible asset acquired in an asset acquisition may subsequently be increased for contingent consideration when due to the seller and such amounts can be estimated. The portion of any unpaid purchase price that is contingent on future activities is not initially recorded by the Company on the date of acquisition. Rather, the Company recognizes contingent consideration when it becomes probable and estimable. All of the Company' s intangible assets, except goodwill and money transmission licenses, have finite lives and are subject to amortization. The test for goodwill impairment may be a qualitative or a quantitative analysis depending on the facts and circumstances associated with the reporting unit. If the fair value of a reporting unit is less than its carrying value, an impairment loss is recorded to the extent that implied fair value of the goodwill within the reporting unit is less than its carrying value. Lease arrangements are evaluated at their commencement date to determine classification as operating or finance. Operating leases are reported as part of other noncurrent assets, accounts payable and accrued expenses and other noncurrent liabilities on the Company' s Consolidated Balance Sheets. Finance leases, if applicable, are reported as part of property, equipment and software, net, and debt on the Company' s Consolidated Balance Sheets. Leases with a term of twelve months or less are generally not included on the Company' s Balance Sheets. The Company does not separate lease and non- lease components. Certain estimates and assumptions are made when determining the value of ROU Assets and the related liabilities, including when establishing the lease term and discount rates and variable lease payments (e. g., rent escalations tied to changes in the Producer Price Index). The lease term for all of the Company' s leases includes the non- cancelable period of the lease adjusted for any renewal or termination options the Company is reasonably certain to exercise. The lease payment stream includes any rent escalation that is required under certain lease agreements. Goodwill represents the excess of the purchase price over the fair value of the net assets acquired. The fair values of the assets acquired and liabilities assumed are determined based upon the valuation of the acquired business and involves making significant estimates and assumptions based on facts and circumstances that existed as of the acquisition date. The Company uses a measurement period following the acquisition date to gather information that existed as of the acquisition date that is needed to determine the fair value of the assets acquired and liabilities assumed. The measurement period ends once all information is obtained, but no later than one year from the acquisition date. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The Company accounts for a transaction as an asset acquisition when substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets, or otherwise does not meet the definition of a business. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using enacted tax rates and laws that are expected to be in effect when the differences are expected to be recovered or settled. Realization of deferred tax assets is dependent upon future taxable income. Only after a tax position passes the first step of recognition will measurement be required. Under the measurement step, the tax benefit is measured as the largest amount of benefit that is more likely than not to be realized upon effective settlement. This is determined on a cumulative probability basis. The full impact of any change in recognition or measurement is reflected in the period in which such change occurs. This new guidance changes how entities account for credit impairment for trade and other receivables, as well as for certain financial assets and other instruments. ASU 2016- 13 replaces the current" incurred loss" model with an" expected loss" model. Under the" incurred loss" model, a loss (or allowance) is recognized only when an event has occurred (such as a payment delinquency) that causes the entity to believe that a loss is probable (i. e., that it has been" incurred"). Under the" expected loss" model, a loss (or allowance) is recognized upon initial recognition of the asset that reflects all future events that leads to a loss being realized, regardless of whether it is probable that the future event will occur. The Company adopted ASU 2016- 13 effective January 1, 2023 using the modified- retrospective approach. The implementation of ASU 2016- 13 did not have a material impact on the Company' s Audited Consolidated Financial Statements. Additionally, the Company modified its accounting policy to conform with the requirements of the adoption of this standard. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Reference Rate Reform & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In March 2020, the FASB issued ASU 2020- 04, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Facilitation of the Effects of Reference Rate Reform on Financial Reporting & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, which provides temporary optional expedients and exceptions to the GAAP guidance on contract modifications and hedge accounting to ease the financial reporting burdens of the expected market transition from the LIBOR and other interbank offered rates to alternative reference rates, such as the SOFR. At contract inception, the Company assesses the services and goods promised in its contracts with customers and identifies the performance obligation for each promise to transfer a distinct good or service to the customer. The Company recognizes revenue when it satisfies a performance obligation by transferring a service or good to the customer in an amount to which the Company expects to be entitled (i. e., transaction price) allocated to the distinct services or goods. The Company has elected the permitted practical expedient that allows it to use the portfolio approach for many of its contracts since this approach' s impact on the financial statements, when applied to a group of contracts (or performance obligations) with similar characteristics, is not materially different from the impact of applying the revenue standard on an individual contract basis. Under the portfolio practical expedient, collectability is still assessed at the individual contract level when determining if a contract exists. The Company has elected to exclude any contracts with an original duration of one year or less and any variable consideration that meets specified criteria from its disclosure of the aggregate amount of the transaction price allocated to unsatisfied performance. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In delivering payment services to the customer, the Company may also provide a limited license agreement to the customer for the use of one or more of the Company' s proprietary cloud- based software applications. The Company grants a right to use its software applications only when the customer has contracted with the Company to receive related payment services. When combined with the underlying payment services, the license and the payment services provided to the customer are a single stand- ready obligation and the Company' s performance obligation is defined by each time increment, rather than by the underlying activities, (quantity and timing of which is not determinable), & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 12pt; font- weight: 400; line- height: 120 %" & gt; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; satisfied over time based on days elapsed. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In order to provide our payment services, we obtain authorization for the transaction and request funds settlement from the card issuing financial institution through the payment network. When third parties are involved in the transfer of services or goods to the customer, the Company considers the nature of each specific promised service or good and applies judgment to determine whether the Company controls the service or good before it is transferred to the customer or whether the Company is acting as an agent of the third party. To determine whether the Company controls the service or good, it assesses indicators including: 1) which party is primarily responsible for fulfillment; 2) which party has discretion in determining pricing for the service or good; and 3) other considerations deemed to be applicable to the specific situation. Based on our assessment of these indicators, we have concluded that the promise to our customers to provide payment services is distinct from the services provided by the card issuing FIs and payment networks in connection with payment transactions. We do not have the ability to direct the use of and obtain substantially all of the benefits of the services provided by the card issuing FIs and payment networks before those services are transferred to our customer, and on that basis, we do not control those services prior to being transferred to our customer. As a result, we present our revenues net of the interchange fees retained by the card issuing FIs and the fees charged by the payment networks. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; text- decoration: underline" & gt; SMB Payments & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:'

The Company uses an agile development methodology in which feature- by- feature updates are made to its software. The costs incurred in the preliminary stages of development are expensed as incurred. Once an application has reached the development stage, internal and external costs incurred to develop internal- use software are capitalized and amortized using the straight- line method over the estimated useful life of the software, which generally range from & lt; span style ="- sec- ix- hidden: f- 564" & gt; two & lt; / span & gt; to five years. Maintenance costs including those in the post- implementation stages, are typically expensed as incurred, unless such costs relate to substantial upgrades and enhancements to the software that result in added functionality, in which case such costs are capitalized and amortized using the straight- line method over the estimated useful life of the software. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Software development costs may become impaired in situations where development efforts are abandoned due to the viability of the planned project becoming doubtful or due to technological obsolescence of the planned software product. For the year ended December 31, 2023, there was accelerated depreciation for internal- use software of $ 0. 3 million from certain restructuring costs. The carrying value of an intangible asset acquired in an asset acquisition may subsequently be increased for contingent consideration when due to the seller and such amounts can be estimated. The portion of any unpaid purchase price that is contingent on future activities is not initially recorded by the Company on the date of acquisition. Rather, the Company recognizes contingent consideration when it becomes probable and estimable. All of the Company' s intangible assets, except goodwill and money transmission licenses, have finite lives and are subject to amortization. Intangible assets consist of acquired merchant portfolios, customer relationships, ISO and referral partner relationships, residual buyouts, trade names, technology, non- compete agreements and money transmission licenses. & lt; For long- lived assets, except goodwill, an impairment loss is indicated when the undiscounted future cash flows estimated to be generated by the asset group are not sufficient to recover the carrying value of the asset group. If indicated, the loss is measured as the excess of carrying value over the asset groups' fair value, as determined based on discounted future cash flows. Lease arrangements are evaluated at their commencement date to determine classification as operating or finance. Operating leases are reported as part of other noncurrent assets, accounts payable and accrued expenses and other noncurrent liabilities on the Company' s Consolidated Balance Sheets. Finance leases, if applicable, are reported as part of property, equipment and software, net, and debt on the Company' s Consolidated Balance Sheets. Leases with a term of twelve months or less are generally not included on the Company' s Balance Sheets. The Company does not separate lease and non- lease components. Certain estimates and assumptions are made when determining the value of ROU Assets and the related liabilities, including when establishing the lease term and discount rates and variable lease payments (e. g., rent escalations tied to changes in the Producer Price Index). The lease term for all of the Company' s leases includes the non- cancelable period of the lease adjusted for any renewal or termination options the Company is reasonably certain to exercise. The lease payment stream includes any rent escalation that is required under certain lease agreements. Under the measurement step, the tax benefit is measured as the largest amount of benefit that is more likely than not to be realized upon effective settlement. This is determined on a cumulative probability basis. The full impact of any change in recognition or measurement is reflected in the period in which such change occurs. The Company recognized interest and penalties associated with uncertain tax positions as a component of income tax expense. < / us- gaap: IncomeTaxPolicyTextBlock > < us- gaap: FairValueMeasurementPolicyPolicyTextBlock contextRef =" c- 1" id =" f- 617" > & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The Company measures certain assets and liabilities at fair value. This new guidance changes how entities account for credit impairment for trade and other receivables, as well as for certain financial assets and other instruments. ASU 2016- 13 replaces the current" incurred loss" model with an" expected loss" model. Under the" incurred loss" model, a loss (or allowance) is recognized only when an event has occurred (such as a payment delinquency) that causes the entity to believe that a loss is probable (i. e., that it has been" incurred"). Under the" expected loss" model, a loss (or allowance) is recognized upon initial recognition of the asset that reflects all future events that leads to a loss being realized, regardless of whether it is probable that the future event will occur. The Company adopted ASU 2016- 13 effective January 1, 2023 using the modified- retrospective approach. The implementation of ASU 2016- 13 did not have a material impact on the Company' s Audited Consolidated Financial Statements. The acquisition was accounted for as a business combination using the acquisition method of accounting. Prior to this acquisition, the business operated as a SaaS proprietary platform for the restaurant, hospitality and retail industries by providing complete all- in- one point of sale software and hardware systems, comprehensive ancillary services including fraud detection and mitigation, and processing services for various types of cards including credit cards, debit cards, private label cards and prepaid cards. This business is reported within the Company' s SMB Payments reportable segment. Transaction costs were not material and were expensed. The non- voting incentive shares issued to the seller will be evaluated at each reporting period to determine whether or not profit or loss should be allocated based on the subsidiary' s operating agreement. The preliminary purchase price allocation is set forth in the table below and is expected to be finalized as soon as practicable, but no later than one year from the acquisition date. & lt; / span & gt; Finxera is a provider of deposit account management and licensed money transmission services in the U. S. The acquisition allows the Company to offer clients turn- key merchant services, payment facilitation, card issuing, automated payables, virtual banking, e- wallet tools, risk management, underwriting and compliance on a single platform. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The transaction was funded with the Company' s cash on hand, proceeds from the issuance of the redeemable senior preferred stock and debt, and the issuance of common equity shares to the sellers. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The acquisition was accounted for as a business combination using the acquisition method of accounting, under which the assets acquired and liabilities assumed were recognized at their fair values as of the September & # 160; 17, 2021, with the excess of the fair value of consideration transferred over the fair value of the net assets acquired recognized as goodwill. The fair values of the assets acquired and liabilities assumed as of the September & # 160; 17, 2021 were estimated by management based on the valuation of the Finxera business using the discounted cash flow method and other factors specific to certain assets and liabilities. The transaction did not meet the definition of a business, therefore it was accounted for as an asset acquisition under which the cost of the acquisition was allocated to the acquired assets based on relative fair values. As an asset acquisition, additional purchase price is accounted for when payment to the seller becomes probable and is added to the carrying value of the asset. The seller' s note payable to the Company of $ 3. 0 & # 160; million and an advance of $ 2. 0 & # 160; million outstanding at the time of the purchase were netted against the initial purchase price, resulting in cash of $ 41. 2 & # 160; million being paid by the Company to the seller, which was funded from cash proceeds from the issuance of the redeemable senior preferred stock and cash on hand. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; C & amp; amp; H Financial Services, Inc. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; On June 25, 2021, a subsidiary of the Company acquired certain assets and assumed certain related liabilities under an asset purchase agreement. The acquisition was accounted for as a business combination using the acquisition method of accounting. Prior to this acquisition, the business was an ISO partner of the Company where it developed expertise in software- integrated payment services, as well as marketing programs for specific verticals such as automotive and youth sports. This business is reported within the Company' s SMB Payments reportable segment. The initial purchase price for the net assets was $ 35. 0 & # 160; million in cash and a total purchase price of not more than $ 60. 0 & # 160; million including post- closing payments and earn- out payments based on certain gross profit and revenue achievements over a three- year period from the date of acquisition. font- weight: 400; line- height: 120 %" & gt; In the Company' s SMB Payments reportable segment, funds settlement refers to the process of transferring funds for sales and credits between card issuers and merchants. The standards of the card networks require possession of funds during the settlement process by a member bank which controls the clearing transactions. Since settlement funds are required to be in the possession of a member bank until the merchant is funded, these funds are not assets of the Company and the associated obligations related to these funds are not liabilities of the Company. Therefore, neither is recognized in the Company' s Consolidated Balance Sheets. Member banks held merchant funds of & # 160; $ 98. 0 & # 160; million and $ 110. 3 & # 160; million at December & # 160; 31, 2023 and 2022, respectively. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Exception items include items such as customer chargeback amounts received from merchants and other losses. Under agreements between the Company and its merchant customers, the merchants assume liability for such chargebacks and losses. If the Company is ultimately unable to collect amounts from the merchants for any charges or losses due to merchant fraud, insolvency, bankruptcy or any other reason, it may be liable for these charges. In order to mitigate the risk of such liability, the Company may: 1) require certain merchants to establish and maintain reserves designed to protect the Company from such charges or losses under its risk- based underwriting policy; and 2) engage with certain ISOs in partner programs in which the ISOs assume liability for these charges or losses. A merchant reserve account is funded by the merchant and held by the member bank during the term of the merchant agreement. Unused merchant reserves are returned to the merchant after termination of the merchant agreement or in certain instances upon a & # 160; reassessment & # 160; of risks during the term of the merchant agreement. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Exception items that become the liability of the Company are recorded as merchant losses, a component of costs of services in the Consolidated Statements of Operations and Comprehensive Loss. Exception items that the Company is still attempting to collect from the merchants through the funds settlement process or merchant reserves are recognized as settlement assets and customer / subscriber account balances in the Company' s Consolidated Balance Sheets, with an offsetting reserve for those amounts the Company estimates it will not be able to recover. Expenses for merchant losses for the years ended December 31, 2023, 2022 and 2021 were $ 6. 2 & # 160; million, $ 4. 4 & # 160; million and $ 2. 8 & # 160; million, respectively. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; B2B Payments Segment & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In the Company' s B2B Payments segment, the Company earns revenues from certain of its services by processing transactions for FIs and other business customers. Customers transfer funds to the Company, which are held in either Company- owned bank accounts controlled by the Company or bank- owned FBO accounts controlled by the banks, until such time as the transactions are settled with the customer payees. Amounts due to customer payees that are held by the Company in Company- owned bank accounts are included in restricted cash. Amounts due to customer payees that are held in bank- owned FBO accounts are not assets of the Company. As such, the associated obligations related to these funds are not liabilities of the Company; therefore, neither is recognized in the Company' s Consolidated Balance Sheets. Bank- owned FBO accounts held funds of $ 69. 0 & # 160; million and $ 52. 9 million at December & # 160; 31, 2023 and 2022, respectively. Company- owned bank accounts held $ 1. 2 & # 160; million and $ 4. 1 & # 160; million at December & # 160; 31, 2023 and 2022, respectively, which are included in restricted cash and settlement obligations in the Company' s Consolidated Balance Sheets. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; For the Plastiq business, the Company accepts card payments from its customers and processes disbursements to their vendors. The time lag between authorization and settlement of card transactions creates certain receivables (from card networks) and payables (to the vendors of customers). These receivables and payables arise from the settlement activities that the Company performs on the behalf of its customers and therefore, are presented as Settlement assets and related obligations. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Enterprise Payments Segment & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In the Company' s Enterprise Payments segment, revenue is derived primarily from enrollment fees, monthly subscription fees, transaction- based fees and money transmission services fees. As part of its licensed money transmission services, the Company accepts deposits from customers and subscribers which are held in bank accounts maintained by the Company on behalf of customers and subscribers. After accepting deposits, the Company is allowed to invest available balances in these accounts in & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; certain permitted investments, and the return on such investments contributes to the Company' s net cash inflows. These balances are payable on demand. As such, the Company recorded these balances and related obligations as current assets and current liabilities. The nature of these balances is cash and cash equivalents but they are not available for day- to- day operations of the Company. Therefore, the Company has classified these balances as settlement assets and customer / subscriber account balances and the related obligations as settlement and customer / subscriber account obligations in the Company' s Consolidated Balance Sheets. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In certain states, the Company accepts deposits under agency arrangement with member banks wherein accepted deposits remain under the control of the member banks. Therefore, the Company does not record assets for the deposits accepted and liabilities for the associated obligation. Agency- owned accounts held $ 19. 6 & # 160; million and $ 6. 1 & # 160; million and at December & # 160; 31, 2023 and 2022, respectively. & lt; / span & gt; & lt; / div & gt; & lt; div & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The Company' s consolidated settlement assets and customer / subscriber account balances and settlement and customer / subscriber account obligations were as follows: & lt; / span & gt; & lt;

/ span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt; padding- left: 36pt; text- indent: -18pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; line- height: 120 %; padding- left: 14. 5pt" & gt; The Company' s SMB Payments operating segment experienced a decrease in bankcard volume and revenue during 2023 due to the diversification of an ISV. Additionally, this operating segment also experienced compressed margins due to expenses associated with costs of sales increasing at a larger rate than revenue. Considering the most recent fair value valuation was performed in 2019, the Company elected the option to unconditionally bypass the qualitative impairment analysis and proceed with performing the quantitative analysis for the SMB Payments reporting unit as allowed by ASC 350. For the purpose of the quantitative analysis, the guideline public company method and the discounted cash flow method (equally weighted) were determined to be the appropriate methodology. The impairment analysis concluded the fair value of the reporting unit was greater than its carrying amount and therefore, no impairment was recognized. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt; padding- left: 36pt; text- indent: -18pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; & # x2022; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %; padding- left: 14. 5pt" & gt; The Company' s Enterprise Payments operating segment had an increase in volumes, revenue and margins for 2023. The remaining goodwill related to the acquisition of Plastiq (see & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; & lt; / span & gt; & lt; span style =" color: # 0000ff; font- family:' Times New

Given the performance of the Enterprise Payments operating segment and the relatively short time passed since the Plastiq acquisition, the Company elected to perform the qualitative impairment analysis for these reporting units. Under the qualitative impairment analysis, the Company identified drivers which may affect the reporting units' fair value, determined which events and circumstances impacted those drivers and concluded it was not more likely than not that the fair value of the reporting units was less than the carrying amount. & lt; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; On June & # 160; 30, 2023, the Company amended the Certificate of Designation of its redeemable senior preferred stock to transition the reference rate used for the calculation of dividends from LIBOR to SOFR. Under the Amended Certificate of Designation, the dividend rate (capped at 22. 50 %) will be equal to the three- month term SOFR (minimum of 1. 00 %), plus the three- month term SOFR spread adjustment of 0. 26 % plus the applicable margin of 12. 00 %. All other terms in the agreement were unchanged. For the three months ended December & # 160; 31, 2023, SOFR is the reference rate for calculation of the dividend. The dividend rate is subject to future increases if the Company doesn' t comply with the minimum cash payment requirements outlined in the agreement, which includes required payments of dividends, required payments related to redemption or required prepayments. The dividend rate may also increase if the Company fails to obtain the required stockholder approval for a forced sale transaction triggered by investors or if an event of default as outlined in the agreement occurs. The dividend rate as of December & # 160; 31, 2023, and 2022 was 17. 7 % and 15. 7 % respectively. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; The exercise price and the number of shares issuable upon exercise of the warrants are subject to certain adjustments from time to time on the terms outlined in the warrants. These warrants were exercisable upon issuance. In connection with the issuance of the warrants, the Company entered into an agreement pursuant to which it agreed to provide certain registration rights with respect to the common shares issuable upon exercise of the warrants. Under this agreement the holders of the related shares of Common Stock were granted piggyback rights to be included in certain underwritten offerings of Common Stock and the right to demand a shelf registration of the shares of Common Stock issued upon exercise of the warrants. As of December & # 160; 31, 2023, none of the warrants have been exercised. The warrants are considered to be equity contracts indexed in the Company' s own shares and therefore were recorded at their inception date relative fair value and are included in additional paid- in capital on the Company' s Consolidated Balance Sheet. < / prth: TemporaryEquityAndWarrantDisclosureTextBlock > < us- gaap: TemporaryEquitySharesIssued contextRef =" c- 250" decimals =" INF" id =" f- 1111" unitRef =" shares" > 150000 < / us- gaap: TemporaryEquitySharesIssued > < us- gaap: TemporaryEquityParOrStatedValuePerShare contextRef =" c- 250" decimals =" INF" id =" f- 1112" unitRef =" usdPerShare" > 0. 001 < / us- gaap: TemporaryEquityParOrStatedValuePerShare > < us- gaap: ClassOfWarrantOrRightNumberOfSecuritiesCalledByWarrantsOrRights contextRef =" c- 250" decimals =" INF" id =" f- 1113" unitRef =" shares" > 1803841 < / us- gaap: ClassOfWarrantOrRightNumberOfSecuritiesCalledByWarrantsOrRights > < prth: TemporaryEquityPurchasePrice contextRef =" c- 251" decimals =" INF" id =" f- 1114" unitRef =" usd" > 150000000 < / prth: TemporaryEquityPurchasePrice > < prth: TemporaryEquityDiscount contextRef =" c- 251" decimals =" - 5" id =" f- 1115" unitRef =" usd" > 5000000 < / prth: TemporaryEquityDiscount > < prth: TemporaryEquityIssuanceCosts contextRef =" c- 251" decimals =" - 5" id =" f- 1116" unitRef =" usd" > 5500000 < / prth: TemporaryEquityIssuanceCosts > < prth: TemporaryEquityMaximumAdditionalSharesAuthorized contextRef =" c- 252" decimals =" INF" id =" f- 1117" unitRef =" shares" > 50000 < / prth: TemporaryEquityMaximumAdditionalSharesAuthorized > < prth: TemporaryEquityMaximumPurchasePrice contextRef =" c- 252" decimals =" INF" id =" f- 1118" unitRef =" usd" > 50000000 < / prth: TemporaryEquityMaximumPurchasePrice > < prth: TemporaryEquityMaximumPurchasePriceDiscount contextRef =" c-

The 2018 Plan was approved by the Company' s Board of Directors and shareholders in July 2018. The 2018 Plan provided for the issuance of up to 6, 685, 696 of the Company' s Common Stock, and these shares were registered on a Form S- 8 during 2018. Under the 2018 Plan, the Company' s compensation committee may grant awards of non- qualified stock options, incentive stock options, SARs, restricted stock awards, RSUs, other stock- based awards (including cash bonus awards) or any combination of the foregoing. Any current or prospective employees, officers, consultants or advisors that the Company' s compensation committee (or, in the case of non- employee directors, the Company' s Board of Directors) selects, from time to time, are eligible to receive awards under the 2018 Plan. If any award granted under the 2018 Plan expires, terminates, or is canceled or forfeited without being settled or exercised, or if a SAR is settled in cash or otherwise without the issuance of shares, shares of the Company' s Common Stock subject to such award will again be made available for future grants. In addition, if any shares are surrendered or tendered to pay the exercise price of an award or to satisfy withholding taxes owed, such shares will again be available for grants under the 2018 Plan. On March 17, 2022, the Company' s Board of Directors unanimously approved an amendment to the 2018 Plan which was subsequently approved by our shareholders, to increase the number of shares authorized for issuance under the plan by 2, 500, 000 shares, resulting in 9, 185, 696 shares of the Company' s Common Stock authorized for issuance under the plan. These additional shares were registered on Form S- 8 in December 2022. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Stock- based compensation was as follows: & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; table style =" border- collapse: collapse; display: inline- table; margin- bottom: 5pt; vertical- align: text- bottom; width: 100. 000 %" & gt; & lt; tr & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 57. 525 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 11. 619 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 530 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 12. 496 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 530 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 12. 500 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" display: none" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" display: none" & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 15" style =" padding: 2px 1pt; text- align: center; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" & gt; Years Ended December 31, & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" display: none" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" display: none" & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 100 %" & gt; (in thousands) & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 2px 1pt; text- align: center; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" & gt; 2023 & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 2px 1pt; text- align: center; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" & gt; 2022 & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 2px 1pt; text- align: center; vertical- align: bottom" &

In the opinion of the Company and based on consultations with inside and outside counsel, the results of any of these matters, individually and in the aggregate, are not expected to have a material effect on the Company' s results of operations, financial condition or cash flows. As more information becomes available, and the Company determines that an unfavorable outcome is probable on a claim and that the amount of probable loss that the Company will incur on that claim is reasonably estimable, the Company will record an accrued expense for the claim in question. If and when the Company records such an accrual, it could be material and could adversely impact the Company' s results of operations, financial condition and cash flows. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The Company is involved in a case that was filed on October 11, 2023 and is currently pending in the United States District Court for the Northern District of California (the & # x201c; Complaint & # x201d;). & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 12pt; font- weight: 400; line- height: 120 %" & gt; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The Complaint is a putative class action against The Credit Wholesale Company, Inc. The Company uses valuation techniques including discounted cash flow analysis based on cash flow projections and Monte Carlo simulations to estimate fair value based on projection period and assumed growth rates. A change in inputs in the valuation techniques used might result in a significantly higher or lower fair value measurement than what is reported. The current portion of contingent consideration is included in accounts payable and accrued expenses on the Company' s Consolidated Balance Sheets and the noncurrent portion of contingent consideration is included in other noncurrent liabilities on the Company' s Consolidated Balance Sheets. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Contingent consideration liabilities related to certain of the Company' s acquisitions are uncertain due to the utilization of unobservable inputs and management' s judgement in determining the likelihood of achieving the earn- out criteria or the years ended December & # 160; 31, 2023 and 2022. Part of these preferred units were later assigned to other related parties. In May 2021, the Company entered into an exchange agreement wherein these preferred units were exchanged for 1, 428, 358 equity shares and $ 814, 219 in cash. On October 31, 2023, a lawsuit was filed alleging that the Board breached its fiduciary duties by approving the transaction. The Company denied any wrongdoing. The lawsuit was settled on January 30, 2024, wherein the Company agreed to unwind the exchange transaction and pay $ 0. 4 million to settle all claims. The unwinding of this transaction does not meet the recognition criteria as of December 31, 2023, and therefore considered as non- recognized subsequent event. & lt; / span & gt; & lt; / div & gt; < / us- gaap: SubsequentEventsTextBlock > < us- gaap: ConvertiblePreferredStockSharesIssuedUponConversion contextRef =" c- 352" decimals =" INF" id =" f- 1627" unitRef =" shares" > 1428358 < / us- gaap: ConvertiblePreferredStockSharesIssuedUponConversion > < us- gaap: ConvertiblePreferredStockConvertedToOtherSecurities contextRef =" c- 353" decimals =" INF" id =" f- 1628" unitRef =" usd" > 814219 < / us- gaap: ConvertiblePreferredStockConvertedToOtherSecurities > < us- gaap: LitigationSettlementAmountAwardedToOtherParty contextRef =" c- 354" decimals =" - 5" id =" f- 1629" unitRef =" usd" > 400000 < / us- gaap: LitigationSettlementAmountAwardedToOtherParty > < eed:
