The process involves the injection of water, sand and chemicals under high pressure into shale formations. Our hydraulic fracturing contracts with our customers have one performance obligation, which is the contracted total stages, satisfied over time. We recognize revenue over time using a progress output, unit- of- work performed method, which is based on the agreed fixed transaction price and actual stages completed. We believe that recognizing revenue based on actual stages completed faithfully depicts how our hydraulic fracturing services are transferred to our customers over time. In addition, certain of our hydraulic fracturing equipment may be entitled to reservation fee charges if a customer were to reserve committed hydraulic fracturing equipment. The Company recognizes revenue related to reservation fee charges on a daily basis as the performance obligations are met. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; padding- left: 36pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Acidizing, which is part of our hydraulic fracturing operating segment, involves a well- stimulation technique where acid or similar chemicals are injected under pressure into formations to form or expand fissures. Our allowance for credit losses is based on the evaluation of both our historic collection & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; experience and economic outlook for the oil and gas industry. We evaluated the historic loss experience on our accounts receivable and also considered separately customers with receivable balances that may be negatively impacted by current or future economic developments and market conditions. While the Company has not experienced significant credit losses in the past and has not yet seen material changes to the payment patterns of its customers, the Company cannot predict with any certainty the degree to which the impacts of depressed economic activities, including the potential impact of periodically adjusted borrowing base limits, level of hedged production, or unforeseen well shut- downs may affect the ability of its customers to timely pay receivables when due. Accordingly, in future periods, the Company may revise its estimates of expected credit losses. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; The table below shows a summary of allowance for credit losses: & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- indent: 18pt" & gt; & lt; table style =" border- collapse: collapse; display: inline- table; margin- bottom: 5pt; vertical- align: text- bottom; width: 90. 204 %" & gt; & lt; tr & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 64. 540 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 9. 921 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 448 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 9. 921 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 448 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" & gt; (in thousands) & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 15" style =" padding: 2px 1pt; text- align: center; vertical- align: middle" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" & gt; Year Ended December 31, & lt; / span & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 2px 1pt; text- align: center; vertical- align: middle" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" & gt; 2023 & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 2px 1pt; text- align: center; vertical- align: middle" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" & gt; 2022 & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 2px 1pt; text- align: center; vertical- align: middle" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" & gt; 2021 & lt; / span & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" background- color: # ceceff; padding: 2px 1pt; text- align: left; vertical- align: middle" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 100 %" & gt; Balance- January 1, & lt; / span & gt; & lt; / td & gt; & lt; td style =" background- color: # ceceff; border- top: 1pt

Goodwill of $ 23. 6 million was recorded as of the Silvertip Acquisition Date (as defined below), which represents the excess of the purchase price over the fair value of the assets and liabilities assumed. The acquisition complemented our existing business. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; As of December & # 160; 31, 2023 and 2022, our goodwill carrying value was $ 23. 6 & # 160; million and $ 23. 6 & # 160; million, respectively. There were no additions to goodwill during the year ended December & # 160; 31, 2023. The wireline operating segment is the only segment with goodwill at December & # 160; 31, 2023 and 2022. Under this method, deferred tax assets and liabilities are determined on the basis of differences between the consolidated financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We recognize deferred tax assets to the extent that we believe these assets are more likely than not to be realized. These recent trends necessitated a review of useful lives of our critical components like fluid ends, power ends, hydraulic fracturing units and other components in the first quarter of 2023. We determined that the estimated useful life of fluid ends is now less than one year, resulting in our determination that costs associated with the replacement of these components will no longer be capitalized, but instead recorded in inventories and amortized to cost of services over their estimated useful life. We have also shortened the estimated useful lives of power ends to two years from five years and hydraulic fracturing units to ten years from fifteen years. This change in accounting estimates was made effective January 1, 2023 and accounted for prospectively. The net effect of this change for the year ended December & # 160; 31, 2023, was a $ 19. 1 million decrease in net income, or $ 0. 17 per basic and diluted share, respectively. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 9pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Additionally, in connection with the review of our fluid ends and power ends estimated useful life, effective January 1, 2023, we are writing off the remaining book value of power ends that prematurely fail as accelerated depreciation. These write- off amounts were $ 12. 5 million, $ 11. 8 million, $ 8. 4 million and $ 6. 0 million for the three months ended March, 31, 2023, June 30, 2023, September 30, 2023 and December 31, 2023, respectively. However, to conform to prior year presentation, we have presented these write- off amounts within loss on disposal of assets for the year ended December & # 160; 31, 2023. The amendments in the ASU represent changes to clarify or improve disclosure and presentation requirements of a variety of Codification topics, allow users to more easily compare entities subject to the SEC & # x2019; s existing disclosures with those entities that were not previously subject to the requirements, and align the requirements in the Codification with the SEC & # x2019; s regulations. ASU 2023- 06 will become effective for each amendment on the effective date of the SEC' s corresponding disclosure rule changes. We do not expect ASU 2023- 06 to have a material impact on our consolidated financial statements & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In November 2023, the FASB issued ASU No. 2023- 07, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, which requires public entities to disclose on an annual and interim basis, 1) significant segment expenses that are regularly provided to the Chief Operating Decision Maker (the & # x201c; CODM & # x201d;) and included within each reported measure of segment profit or loss (collectively referred to as the & # x201c; significant expense principle & # x201d;) and 2) an amount for other segment items & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; representing the difference between segment revenue less the segment expenses disclosed under the significant expense principle and each reported measure of segment profit or loss. This ASU also requires public entities to provide all annual disclosures about a reportable segment & # x2019; s profit or loss and assets currently required by Topic 280 in interim periods, clarifies that if the CODM uses more than one measure of a segment & # x2019; s profit or loss in assessing segment performance and deciding how to allocate resources, a public entity may report one or more of those additional measures of segment profit or loss but at least one of the reported segment profit or loss measures (or the single reported measure, if only one is disclosed) should be the measure that is most consistent with the measurement principles under GAAP. This ASU also requires disclosure of the title and position of the CODM and an explanation of how the CODM uses the reported measure (s) of segment profit or loss in assessing segment performance and deciding how to allocate resources, and requires a public entity that has a single reportable segment to provide all the disclosures required by the amendments in this ASU and all existing segment disclosures in Topic 280. This ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. We do not expect ASU 2023- 07 to have a material effect on our consolidated financial statements. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In December 2023, the FASB issued ASU No. 2023- 09, & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Income Taxes (Topic 740): Improvements to Income Tax Disclosures & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, which requires disaggregation of certain components included in the Company & # x2019; s effective tax rate and income taxes paid disclosures. However, to conform to prior year presentation, we have presented these write- off amounts within loss on disposal of assets for the year ended December & # 160; 31, 2023. In 2022 and 2021, we wrote off the remaining book value of prematurely failed and disposed of power ends to loss on disposal of assets. < / us- gaap: UseOfEstimates > < us- gaap: RevenueFromContractWithCustomerPolicyTextBlock contextRef =" c- 1" id =" f- 357" > & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Revenue Recognition & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # 160; & # x2014; & # 160; The Company & # x2019; s services are sold based upon contracts with customers. The process involves the injection of water, sand and chemicals under high pressure into shale formations. Our hydraulic fracturing contracts with our customers have one performance obligation, which is the contracted total stages, satisfied over time. We recognize revenue over time using a progress output, unit- of- work performed method, which is based on the agreed fixed transaction price and actual stages completed. We believe that recognizing revenue based on actual stages completed faithfully depicts how our hydraulic fracturing services are transferred to our customers over time. In addition, certain of our hydraulic fracturing equipment may be entitled to reservation fee charges if a customer were to reserve committed hydraulic fracturing equipment. The Company recognizes revenue related to reservation fee charges on a daily basis as the performance obligations are met. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; padding- left: 36pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Acidizing, which is part of our hydraulic fracturing operating segment, involves a well- stimulation technique where acid or similar chemicals are injected under pressure into formations to form or expand fissures. Goodwill is not amortized. We perform an annual impairment test of goodwill as of December & # 160; 31, or more frequently if circumstances indicate that impairment may exist. The determination of impairment is made by comparing the carrying amount of a reporting unit with its fair value, which is generally calculated using a combination of market and income approaches. If the fair value of the reporting unit exceeds the carrying value, no further testing is performed. If the fair value of the reporting unit is less than the carrying value, we consider goodwill to be impaired, and the amount of impairment loss is calculated and recorded in the statement of operations. & lt; / span & gt; & lt; / div & gt; < / us- gaap: GoodwillAndIntangibleAssetsGoodwillPolicy > < us- gaap: BusinessCombinationConsiderationTransferred1 contextRef =" c- 35" decimals ="- 5" id =" f- 409" unitRef =" usd" > 148100000 < / us- gaap: BusinessCombinationConsiderationTransferred1 > < us- gaap: Goodwill contextRef =" c- 49" decimals ="- 5" id =" f- 410" unitRef =" usd" > 23600000 < / us- gaap: Goodwill > < us- gaap: Goodwill contextRef =" c- 4" decimals ="- 5" id =" f- 411" unitRef =" usd" > 23600000 < / us- gaap: Goodwill > < us- gaap: Goodwill contextRef =" c- 5" decimals ="- 5" id =" f- 412" unitRef =" usd" > 23600000 < / us- gaap: Goodwill > < us- gaap: GoodwillAcquiredDuringPeriod contextRef =" c- 1" decimals =" INF" id =" f- 413" unitRef =" usd" > 0 < / us- gaap: GoodwillAcquiredDuringPeriod > < us- gaap: GoodwillWrittenOffRelatedToSaleOfBusinessUnit contextRef =" c- 1" decimals =" INF" id =" f- 414" unitRef =" usd" > 0 < / us- gaap: GoodwillWrittenOffRelatedToSaleOfBusinessUnit > < us- gaap: GoodwillImpairmentLoss contextRef =" c- 1" decimals ="- 5" id =" f- 415" unitRef =" usd" > 0 < / us- gaap: GoodwillImpairmentLoss > < us- gaap: GoodwillImpairmentLoss contextRef =" c- 6" decimals ="- 5" id =" f- 416" unitRef =" usd" > 0 < / us- gaap: GoodwillImpairmentLoss > < us- gaap: GoodwillAndIntangibleAssetsIntangibleAssetsPolicy contextRef =" c- 1" id =" f- 417" > & lt; div style =" margin- bottom: 12pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Intangible Assets & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # 160; & # x2014; & # 160; & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Intangible assets consist of customer relationships and trademark / trade name purchased in connection with the Silvertip Acquisition. method, deferred tax assets and liabilities are determined on the basis of differences between the consolidated financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 12pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; We recognize deferred tax assets to the extent that we believe these assets are more likely than not to be realized. In making such a determination, we consider all positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, and the results of recent operations. If we determine that we would not be able to fully realize our deferred tax assets in the future, we would record a valuation allowance. & lt; / span & gt; & lt; / div & gt; < / us- gaap: IncomeTaxPolicyTextBlock > < us- gaap: DeferredChargesPolicyTextBlock contextRef =" c- 1" id =" f- 422" > & lt; div style =" margin- bottom: 12pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Deferred Loan Costs & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; & # 160; & # x2014; & # 160; The Company capitalized certain costs in connection with the amendment and restatement of its revolving credit facility, including lender, legal, and accounting fees. These costs are being amortized over the term of the related loan using the straight & # x2011; line method. Unamortized deferred loan costs associated with loans paid off or refinanced with different lenders are expensed in the period in which such an event occurs. This ASU also requires public entities to provide all annual disclosures about a reportable segment & # x2019; s profit or loss and assets currently required by Topic 280 in interim periods, clarifies that if the CODM uses more than one measure of a segment & # x2019; s profit or loss in assessing segment performance and deciding how to allocate resources, a public entity may report one or more of those additional measures of segment profit or loss but at least one of the reported segment profit or loss measures (or the single reported measure, if only one is disclosed) should be the measure that is most consistent with the measurement principles under GAAP. This ASU also requires disclosure of the title and position of the CODM and an explanation of how the CODM uses the reported measure (s) of segment profit or loss in assessing segment performance and deciding how to allocate resources, and requires a public entity that has a single reportable segment to provide all the disclosures required by the amendments in this ASU and all existing segment disclosures in Topic 280. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company & # x2019; s assumptions about the assumptions other market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the observability of inputs as follows: & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level & # 160; 1 & # 160; & # x2014; Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not applied to Level & # 160; 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these instruments does not entail a significant degree of judgment. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level & # 160; 2 & # 160; & # x2014; Valuations based on one or more quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level & # 160; 3 & # 160; & # x2014; Valuations based on inputs that are unobservable and significant to the overall fair value measurement. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; A financial instrument & # x2019; s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Our estimate of the reporting unit fair value is based on a combination of income and market approaches, Level 1 and 3, respectively, in the fair value hierarchy. The income approach involves the use of a discounted cash flow method, with the cash flow projections discounted at an appropriate discount rate. The market approach involves the use of comparable public companies & # x2019; market multiples in estimating the fair value. Significant assumptions include projected revenue growth, capital expenditures, utilization, gross margins, discount rates, terminal growth rates, and weight allocation between income and market approaches. If the reporting unit & # x2019; s carrying amount exceeds its fair value, we consider goodwill impaired, and the impairment loss is calculated and recorded in the period. & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; linc- height: 120 %" & gt; There were no additions to goodwill during the year ended December & # 160; 31, 2023. We added $ 23. 6 million of goodwill during the year ended December & # 160; 31, 2022 (see Note 4. Business Acquisitions). There were no additions to goodwill during the year ended December 31, 2021. We conducted our annual impairment test of goodwill as of December & # 160; 31, 2023 and determined that no impairment to the carrying value of goodwill for our reporting unit (wireline operating segment) was required. Fair value is defined as the price that would be received to

sell an asset or paid to transfer a liability (i. e., & # 160; the" exit price") in an orderly transaction between market participants at the measurement date. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In determining fair value, the Company uses various valuation approaches and establishes a hierarchy for inputs used in measuring fair value that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used, when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company & # x2019; s assumptions about the assumptions other market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the observability of inputs as follows: & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level & # 160; 1 & # 160; & # x2014; Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not applied to Level & # 160; 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these instruments does not entail a significant degree of judgment. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level & # 160; 2 & # 160; & # x2014; Valuations based on one or more quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Level & # 160; 3 & # 160; & # x2014; Valuations based on inputs that are unobservable and significant to the overall fair value measurement. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; A financial instrument & # x2019; s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The Company & # x2019; s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. & lt; Prior to the fourth quarter of fiscal year 2023, our operating segments met the aggregation criteria and were aggregated into the & # x201c; Completion Services & # x201d; reportable segment and our coiled tubing operations (which were divested in September 2022) were shown in the & # x201c; All Other & # x201d; category. & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 12pt; font- weight: 400; line- height: 112 %" & gt; & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 112 %" & gt; Effective as of the fourth quarter of fiscal year 2023, we revised our segment reporting as we determined that our three operating segments no longer met the criteria to be aggregated. Our Hydraulic Fracturing and Wireline operating segments meet the criteria of a reportable segment. Our cementing and our divested coiled tubing segments do not meet the reportable segment criteria and are included within the & # x201c; All Other & # x201d; category. Additionally, our corporate administrative activities do not involve business activities from which it may earn revenues and its results are not regularly reviewed by the Company & # x2019; s CODM when making key operating and resource decisions. As a result, corporate administrative expenses have been included under & # x201c; Reconciling Items. & # x201d; Prior period segment information has been revised to conform to our current presentation. & lt; / span & gt; & lt; / div & gt; & lt; div style =" text- align: justify" & gt; & lt; span & gt; & lt; br / & gt; & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; padding- right: 2. 25pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; Our hydraulic fracturing operating segment revenue approximated 78. 5 %, 89. 3 % and 91. 6 % of our revenue for the years ended December & # 160; 31, 2023, 2022 and 2021, respectively. Basic net income (loss) per common share is computed by dividing the net income (loss) relevant to the common stockholders by the weighted- average number of shares outstanding during the year. Diluted net income (loss) per common share uses the same net income (loss) divided by the sum of the weighted- average number of shares of common stock outstanding during the period, plus dilutive effects of options, performance stock units (& # x201e; PSUs & # x201d;) and restricted stock units (& # x201e; RSUs & # x201d;) outstanding during the period calculated using the treasury method and the potential dilutive effects of preferred stocks (if any) calculated using the if- converted method. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; margin- top: 5pt; text- align: center" & gt; & lt; table style =" border- collapse: collapse; display: inline- table; margin- bottom: 5pt; vertical- align: text- bottom; width: 90. 935 %" & gt; & lt; tr & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 52. 436 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 13. 851 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 603 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 13. 851 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 603 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; td style =" width: 1. 0 %" & gt; & lt; / td & gt; & lt; td style =" width: 13. 856 %" & gt; & lt; / td & gt; & lt; td style =" width: 0. 1 %" & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" padding: 2px 1pt; text- align: left; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" & gt; (In thousands, except for per share data) & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 15" style =" padding: 2px 1pt; text- align: center; vertical- align: bottom" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" & gt; Year Ended December 31, & lt; / span & gt; & lt; / td & gt; & lt; / tr & gt; & lt; tr & gt; & lt; td colspan =" 3" style =" padding: 0 1pt" & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000000; padding: 2px 1pt; text- align: center; vertical- align: middle" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" & gt; 2023 & lt; / span & gt; & lt; / td & gt; & lt; td colspan =" 3" style =" border- top: 1pt solid # 000000;

On May 17, 2023, the Company' s board of directors (the" Board") authorized and the Company announced a share repurchase program that allows the Company to repurchase up to $ 100 million of the Company' s common stock beginning immediately and continuing through and including May 31, 2024. The shares may be repurchased from time to time in open market transactions, block trades, accelerated share repurchases, privately negotiated transactions, derivative transactions or otherwise, certain of which may be made pursuant to a trading plan meeting the requirements of Rule 10b5- 1 under the Exchange Act, in compliance with applicable state and federal securities laws. The timing, as well as the number and value of shares repurchased under the program, will be determined by the Company at its discretion and will depend on a variety of factors, including management' s assessment of the intrinsic value of the Company' s common stock, the market price of the Company' s common stock, general market and economic conditions, available liquidity, compliance with the Company' s debt and other agreements, applicable legal requirements, and other considerations. The Company is not obligated to purchase any shares under the repurchase program, and the program may be suspended, modified, or discontinued at any time without prior notice. The Company expects to fund the repurchases using cash on hand and expected free cash flow to be generated through May 2024. The Inflation Reduction Act of 2022 (" IRA 2022") provides for, among other things, the imposition of a new 1 % U. S. federal excise tax on certain repurchases of stock by publicly traded U. S. corporations such as us after December 31, 2022. Accordingly, the excise tax will apply to our share repurchase program in 2023 and in subsequent taxable years. The current government has proposed increasing the amount of the excise tax from 1 % to 4 %; however, it is unclear whether such a change in the amount of the excise tax will be enacted and, if enacted, how soon any such change could take effect. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; All shares of common stock repurchased under the share repurchase program are canceled and retired upon repurchase. The Company accounts for the purchase price of repurchased shares of common stock in excess of par value ($ 0. 001 per share of common stock) as a reduction of additional- paid- in capital, and will continue to do so until additional paid- in- capital is reduced to zero. Thereafter, any excess purchase price will be recorded as a reduction of retained earnings. During the year ended December & # 160; 31, 2023, the Company paid an aggregate of & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; $ 51. 7 & # 160; million & lt; / span & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt;, an average price per share of $ 8. 93 including commissions, for share repurchases under the share repurchase program, thereby retiring 5. 8 million shares. Each PSU earned represents the right to receive either one share of common stock or, as determined by the administrator in its sole discretion, a cash amount equal to the fair market value of one share of common stock or amount of cash on the day immediately preceding the settlement date. The actual number of shares of common stock that may be issued under the PSUs ranges from & # 160; 0 % & # 160; up to a maximum of 200 % of the target number of PSUs granted to the participant, based on our total shareholder return (" TSR") relative to a designated peer group of comparable companies (& # x201c; Peer Group & # x201d;), generally at the end of a three- year period. In addition to the TSR conditions, vesting of the PSUs is generally subject to the recipient & # x2019; s continued employment through the end of the applicable performance period. Compensation expense is recorded ratably over the corresponding requisite service period. The grant date fair value of PSUs is determined using a Monte Carlo probability model. Grant recipients do not have any shareholder rights until performance relative to the Peer Group has been determined following the completion of the performance period and shares have been issued. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; In connection with a former officer & # x2019; s separation agreement, on March 31, 2022, the Company modified the PSUs previously granted to such former officer in 2020 and 2021 to provide for deemed satisfaction of the service requirement applicable to such PSUs as of March 31, 2022, such that such PSUs shall remain outstanding and eligible to vest based on our TSR relative to the P & lt; / span & gt; & lt; span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" & gt; cer Group over the applicable performance period. Accordingly, the effects of adopting ASC 842 were adjusted in the beginning of 2019 while prior periods are accounted for under the legacy GAAP, ASC 840. There was no cumulative effect adjustment on beginning retained earnings. We also elected other practical expedients provided by the new lease standard, the short- term lease recognition practical expedient in which leases with a term of twelve months or less will not be recognized on the balance sheet, and the practical expedient to not separate lease and non- lease components for real estate class of assets. Our discount rate was based on our estimated incremental borrowing rate on a collateralized basis with similar terms and economic considerations as our lease payments at the lease commencement. District Court for the Western District of Texas. As amended by later complaints, the Logan Lawsuit asserted claims on behalf of a putative class of shareholders who purchased the Company & # x2019; s common stock between March 17, 2017 and March 13, 2020 or purchased the Company' s common stock pursuant to the Company' s IPO in March 2017. Plaintiffs alleged violations of Sections 10 (b) and 20 (a) of the Exchange Act and Rule 10b- 5 promulgated thereunder, and Sections 11 and 15 of the Securities Act against the Company, certain former officers and current and former directors, alleging that the defendants made allegedly inaccurate or misleading statements or omissions about the Company' s business, operations and prospects. On August 11, 2022, the Company entered into a settlement of the Logan Lawsuit, pursuant to which the Company' s insurers have paid a cash sum into a settlement fund to be distributed to members of the putative class. On May 11, 2023, the settlement was granted final court approval. & lt; / span & gt; & lt; / div & gt; & lt; div style =" margin- bottom: 10pt; text- align: justify" & gt; & lt; span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" & gt; Environmental and Equipment
