District Court for the Western District of Texas. As amended by later complaints, the Logan Lawsuit asserted claims on behalf of a putative class of shareholders who purchased the Company & # 8217; s common stock between March 17, 2017 and March 13, 2020 or purchased the Company' s common stock pursuant to the Company' s IPO in March 2017. Plaintiffs

alleged violations of Sections 10 (b) and 20 (a) of the Exchange Act and Rule 10b- 5 promulgated thereunder, and Sections 11 and 15 of the Securities Act against the Company, certain former officers and current and former directors, alleging that the defendants made allegedly inaccurate or misleading statements or omissions about the Company' s business, operations and prospects. On August 11, 2022, the Company entered into a settlement of the Logan Lawsuit, pursuant to which the Company' s insurers have paid a cash sum into a settlement fund to be distributed to members of the putative class. On May 11, 2023, the settlement was granted final court approval. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Environmental and Equipment Insurance < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > The Company is subject to various federal, state and local environmental laws and regulations that establish standards and requirements for protection of the environment. The Company cannot predict the future impact of such standards and requirements, which are subject to change and can have retroactive effectiveness. The Company continues to monitor the status of these laws and regulations. Currently, the Company has not been fined, cited or notified of any environmental violations that would have a material adverse effect upon its financial position, liquidity or capital resources. However, management does recognize that by the very nature of the Company' s business, material costs could be incurred in the near term to maintain compliance. The amount of such future expenditures is not determinable due to several factors, including the unknown magnitude of possible regulation or liabilities, the unknown timing and extent of the corrective actions which may be required, the determination of the Company' s liability in proportion to other responsible parties and the extent to which such expenditures are recoverable from insurance or indemnification. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > The Company is self- insured up to $ 10 & # 160; million per occurrence for certain losses arising from or attributable to fire and / or explosion at the wellsites that do not have qualified fire suppression measures. These recent trends necessitated a review of useful lives of our critical components like fluid ends, power ends, hydraulic fracturing units and other components in the first quarter of 2023. We determined that the estimated useful life of fluid ends is now less than one year, resulting in our determination that costs associated with the replacement of these components will no longer be capitalized, but instead recorded in inventories and amortized to cost of services over their estimated useful life. We have also shortened the estimated useful lives of power ends to two years from five years and hydraulic fracturing units to ten years from fifteen years. This change in accounting estimates was made effective January 1, 2023 and accounted for prospectively. The net effect of this change for the year ended December & # 160; 31, 2023, was a $ 19. 1 million decrease in net income, or $ 0. 17 per basic and diluted share, respectively. < / span > < / div > Additionally, in connection with the review of our fluid ends and power ends estimated useful life, effective January 1, 2023, we are writing off the remaining book value of power ends that prematurely fail as accelerated depreciation. These write- off amounts were $ 12. 5 million, $ 11. 8 million, $ 8. 4 million and $ 6. 0 million for the three months ended March, 31, 2023, June 30, 2023, September 30, 2023 and December 31, 2023, respectively. However, to conform to prior year presentation, we have presented these write- off amounts within loss on disposal of assets for the year ended December & # 160; 31, 2023. In 2022 and 2021, we wrote off the remaining book value of prematurely failed and disposed of power ends to loss on disposal of assets. < span > < / span > < / td > < / tr > < tr class =" re" > < td class =" pl" style =" border- bottom: 0px;" valign =" top" > < a class =" a" href =" javascript: void (0);" onclick =" Show. showAR (this,' defref_us- gaap_RevenueFromContractWithCustomerPolicyTextBlock', window);" > Revenue Recognition < / a > < / td > < td class =" text" > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Revenue Recognition < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 160; & # 8212; & # 160; The Company & # 8217; s services are sold based upon contracts with customers. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company & # 8217; s assumptions about the assumptions other market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the observability of inputs as follows: </ span > </ div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Level & # 160; 1 & # 160; & # 8212; Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not applied to Level & # 160; 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these instruments does not entail a significant degree of judgment. </ span > </ div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Level & # 160; 2 & # 160; & # 8212; Valuations based on one or more quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. </ span > </ div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Level & # 160; 3 & # 160; & # 8212; Valuations based on inputs that are unobservable and significant to the overall fair value measurement. </ span > </ div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > A financial instrument & # 8217; s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The Company & # 8217; s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. </ span > </ div > < span > </ span > </ td > </ tr > </ table > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" class =" authRefData" style =" display: none;" id =" defref_pump_InsuranceFinancingPolicyPolicyTextBlock" > < tr > < td class =" hide" > < a style =" color: white;" href =" javascript: void (0);" onclick =" Show. hideAR ();" > X </ a > </ td > </ tr > < tr > < td > < div class =" body" style =" padding: 2px;" > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Definition </ a > < div > < p > Insurance Financing, Policy [Policy Text Block] </ p > </ div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > References </ a > < div style =" display: none;" > < p > No definition available. </ p > </ div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details </ a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: </ strong > </ td > < td style =" white- space: nowrap;" > pump_InsuranceFinancingPolicyPolicyTextBlock </ td > </ tr > < tr > < td style =" padding- right: 4px; white- space: nowrap;" > < strong > Namespace Prefix: </ strong > </ td > < td > pump_ </ td > </ tr > < tr > < td > < strong > Data Type: </ strong > </ td > < td > dtr- types1: textBlockItemType </ td > </ tr > < tr > < td > < strong > Balance Type: </ strong > </ td > < td > na </ td > </ tr > < tr > < td > < strong > Period Type: </ strong > </ td > < td > duration </ td > </ tr > </ table > </ div > </ div > </ td > </ tr > </ table > < table border =" 0" cellpadding =" 0" cellspacing =" 0" class =" authRefData" style =" display: none;" id =" defref_us- gaap_AccountingPoliciesAbstract" > < tr > < td class =" hide" > < a style =" color: white;" href =" javascript: void (0);" onclick =" Show. hideAR ();" > X </ a > </ td > </ tr > < tr > < td > < div class =" body" style =" padding: 2px;" > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > References </ a > < div > < p > No definition available. </ p > </ div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details </ a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: </ strong > </ td > < td style =" white- space: nowrap;" > us- gaap_AccountingPoliciesAbstract </ td > </ tr > < tr > < td style =" padding- right: 4px; white- space: nowrap;" > < strong > Namespace Prefix: </ strong > </ td > < td > us- gaap_ </ td > </ tr > < tr > < td > < strong > Data Type: </ strong > </ td > < td > xbrli: stringItemType </ td > </ tr > < tr > < td > < strong > Balance Type: </ strong > </ td > < td > na </ td > </ tr > < tr > < td > < strong > Period Type: </ strong > </ td > < td > duration </ td > </ tr > </ table > </ div > </ div > </ td > </ tr > </ table > < table border =" 0" cellpadding =" 0" cellspacing =" 0" class =" authRefData" style =" display: none;" id =" defref_us- gaap_BasisOfAccountingPolicyPolicyTextBlock" > < tr > < td class =" hide" > < a style =" color: white;" href =" javascript: void (0);" onclick =" Show. hideAR ();" > X </ a > </ td > </ tr > < tr > < td > < div class =" body" style =" padding: 2px;" > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Definition </ a > < div > < p > Disclosure of accounting policy for basis of accounting, or basis of presentation, used to prepare the financial statements (for example, US Generally Accepted Accounting Principles, Other Comprehensive Basis of Accounting, IFRS). </ p > </ div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > References </ a > < div style =" display: none;" > < p > No definition available. </ p > </ div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details </ a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: </ strong > </ td > < td style =" white- space: nowrap;" > us- gaap_BasisOfAccountingPolicyPolicyTextBlock </ td > </ tr > < tr > < td style ="
