Risk Factors Comparison 2025-02-20 to 2024-03-13 Form: 10-K

Legend: **New Text** ~~Removed Text~~ Unchanged Text Moved Text Section

Our business is subject to varying degrees of risk and uncertainty. Investors should consider the risks and uncertainties summarized below, as well as the risks and uncertainties discussed in Part I, ~~"~~ **“** Item 1A. Risk Factors ~~"~~ **”** of this Annual Report. Additional risks not presently known to us or that we currently deem immaterial may also affect us. If any of these risks occur, our business, financial condition or results of operations could be materially and adversely affected. Our business is subject to the following principal risks and uncertainties: Risks Inherent in Our Business and Industry • Our business and financial performance depends on the historically cyclical oil and natural gas industry and particularly on the level of capital spending ~~and~~ **of** exploration and production (“ E & P ”) ~~activity~~ **companies** within the United States and in the Permian Basin, and a decline in prices for oil and natural gas may cause fluctuation in operating results or otherwise have an adverse effect on our revenue, cash flows, profitability and growth. • The cyclical nature of the oil and natural gas industry may cause our operating results to fluctuate. • The majority of our operations are located in the Permian Basin, making us vulnerable to risks associated with operating in one major geographic area. • The Inflation Reduction Act of 2022 (~~"~~ **“** IRA 2022 ~~"~~ **”**) ~~and actions taken by the United States and other countries on climate change or to transition away from fossil fuels~~ could accelerate the transition to a low carbon economy and could impose new costs on our customers’ operations ~~. • The COVID- 19 pandemic has negatively impacted crude oil prices and demand for our products and services in recent years, and may negatively impact crude oil prices and demand for our products and services in the future~~ . • Our business may be adversely affected by a deterioration in general economic conditions or a weakening of the broader energy industry. • Our operations require substantial capital and we may be unable to obtain needed capital or financing on satisfactory terms, or at all, which could limit our ability to grow. • **Concerns over general economic, business or industry conditions may have a material adverse effect on our results of operations, liquidity and financial condition. •** Our indebtedness and liquidity needs could restrict our operations and ~~make us more vulnerable to adverse~~ **adversely** ~~economic~~ **affect our financial** ~~conditions~~ **condition** . • Restrictions in our ABL Credit Facility (as defined herein) and any future financing agreements may limit our ability to finance future operations or capital needs or capitalize on potential acquisitions and other business opportunities. • **We may record losses or impairment charges related to goodwill and long- lived assets, including intangible assets. •** Our operations are subject to unforeseen interruptions and hazards inherent in the oil and natural gas industry, for which we may not be adequately insured and which could cause us to lose customers and substantial revenue. • **A terrorist attack, armed conflict or political or civil unrest could harm our business. • We may be subject to claims for personal injury and property damage, which could materially affect our financial condition and results of operations. •** We are subject to cyber security risks. A cyber incident could occur and result in information theft, data corruption, operational disruption and / or financial loss. • We may grow through acquisitions and **/ or internal expansion, and** our failure to properly plan and manage ~~those acquisitions~~ **such growth** may adversely affect our performance **. • We may be adversely affected by the effects of inflation** . Risks Related to Customers, Suppliers and Competition • Reliance upon a few large customers may adversely affect our revenue and operating results. **iii** • We face significant competition that may cause us to lose market share, and competition in our industry has intensified ~~during the recent~~ **as a result of customer consolidation and** industry ~~downturn~~ **downturns** . • We are exposed to the credit risk of our customers, and any material nonpayment or nonperformance by our customers could adversely affect our business, results of operations and financial conditions. • Our business depends upon the ability to obtain specialized equipment, parts and key raw materials, including sand and chemicals, from third - party suppliers, and we may be vulnerable to delayed deliveries and future price increases. ~~iii~~ • We may be required to pay fees to certain of our sand suppliers (the “ Sand Suppliers ”) based on minimum volumes under long- term contracts regardless of actual volumes received. Risks Related to Employees • We rely on a few key employees whose absence or loss could adversely affect our business. • If we are unable to employ a sufficient number of skilled and qualified workers, our capacity and profitability could be diminished and our growth potential could be impaired. Risks Related to Regulatory Matters • We are subject to environmental laws and regulations, and future compliance, claims, and liabilities relating to such matters may have a material adverse effect on our results of operations, financial position or cash flows. • Our and our customers’ operations are subject to a series of risks arising out of the threat of climate change that could result in increased operating costs, limit the areas in which oil and natural gas production may occur, and reduce demand for the products and services we provide. • Federal and state legislative and regulatory initiatives relating to hydraulic fracturing could result in increased costs and additional operating restrictions or delays. • Increased attention to environmental, social and governance (“ ESG ”) matters, conservation measures, commercial development and technological advances could reduce demand for oil and natural gas and our services. • Certain of our completion services, particularly our hydraulic fracturing services, are substantially dependent on the availability of water. Restrictions on our or our customers’ ability to obtain water may have an adverse effect on our financial condition, results of operations and cash flows. Risks Related to our Tax Matters • Our ability to use our net operating loss carryforwards (“ NOLs ”) may be limited. • Changes to applicable tax laws and regulations or exposure to additional ~~income~~ tax liabilities could adversely affect our operating results and cash flows. Risks Inherent to an Investment in our Common Stock • We ~~have~~ **are subject to certain requirements of Section 404 of the Sarbanes- Oxley Act (“ Section 404 ”). If we or our auditors** ~~identified~~ **identify** ~~a~~ **and report** material ~~weakness~~ **weaknesses** in ~~our~~ internal ~~control~~ **controls** over financial reporting **,** ~~with regard to segregation of certain accounting duties and management review controls. We may identify additional material weaknesses in the future or~~ **our** ~~otherwise fail to maintain an effective system of internal controls, which may result in material misstatements of our financial statements, cause us to fail to meet our reporting obligations,~~ investors may lose confidence in our ~~financial reporting~~ **reported information** , and our stock price may **be negatively affected** ~~decline as a result~~ . • Certain provisions of our certificate of incorporation, and bylaws, as well as Delaware law, may discourage acquisition bids or merger proposals, which may adversely affect the market price of our common stock ~~. • Our business could be negatively affected as a result of the actions of activist shareholders~~ . • Our certificate of incorporation designates the Court of Chancery of the State of Delaware as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our shareholders, which could limit our shareholders’ ability to pursue actions in another judicial forum for disputes with us or our directors, officers, employees or agents. • There may be future sales or other dilution of our equity, which may adversely affect the market price of our common stock. PART I Item 1. Business. Our Company We are a leading integrated ~~oilfield~~ **energy** service company, located in Midland, Texas, focused on providing innovative hydraulic fracturing, wireline, and other complementary ~~oilfield completion~~ **energy and power generation** services to leading upstream oil and gas companies engaged in the E & P of North American oil and natural gas resources. Our operations are primarily focused in the Permian Basin, where we have cultivated longstanding customer relationships with some of the region’ s most active and well - capitalized E & P companies. The Permian Basin is widely regarded as one of the most prolific oil ~~-~~ **and natural gas** producing areas in the United States, and we believe we are one of the leading providers of ~~completion~~ **energy** services in the region **. In the fourth quarter of 2024, we formed a new subsidiary, ProPetro Energy Solutions, LLC, doing business as PROPWRSM, to provide power generation services to oil and gas producers and for general industrial projects and data centers. PROPWR has ordered equipment, but has not yet begun revenue- generating activities** . On November 1, ~~2022~~ **2024 , we sold our cementing business located in Vernal, Utah, to a business owned by a former employee as part of a strategic repositioning. We received a promissory note for $ 13. 0 million as consideration. The note receivable is secured by substantially all assets of the divested operations and the former employee’ s ownership interests in and distributions from the business. The note receivable is to be paid to the Company in quarterly installments with interest of 10 % per annum from March 31, 2025, to December 31, 2029. We recorded a gain on disposal of $ 8. 2 million related to the sale of the business. The former employee was part of our cementing operations until November 1, 2024, and is no longer affiliated with the Company. On May 31, 2024** , we consummated the acquisition of all of the outstanding **equity** ~~limited liability company~~ interests **in Aqua Prop** ~~of Silvertip Completion Services Operating~~ , LLC (**“ AquaPropSM ”** ~~the" Silvertip Acquisition"~~), which provides **wet** ~~wireline perforation and~~ **sand solutions** ~~ancillary services solely in the Permian Basin in exchange~~ for **hydraulic fracturing** ~~10. 1 million shares of our common stock valued~~ at **well sites (the “ AquaProp Acquisition ”). The consideration for the AquaProp Acquisition included** $ ~~106~~ **13** . 7 million **of cash paid to the seller** , $ ~~30~~ **3** . ~~0~~ **7** million of **deferred** cash **consideration payable to the seller by May 31, 2025** , the payoff of $ 7. 2 million of ~~assumed~~ **the seller’ s outstanding** debt, ~~and~~ the payment of **$ 0. 3 million of** certain ~~other closing and~~ transaction costs **and estimated contingent consideration of $ 10** . ~~The Silvertip~~ **9 million. As a result of the AquaProp** Acquisition ~~positioned the Company as a more integrated~~ **, we expanded our business to include wet** ~~and~~ **sand** ~~diversified completions- focused oilfield service~~ **services** ~~provider headquartered in the Permian Basin~~ . On December 1, 2023, we consummated the purchase of the assets and operations of Par Five Energy Services LLC (“ Par Five ”), which provides cementing services in the Delaware Basin in exchange for $ 25. 4 million of cash **, including deferred cash consideration of $ 3** . **1 million which is payable to** Par Five ~~’ s business~~ **or its beneficiary on June 1, 2025, with interest at 4. 0 % per annum. (the “ Par Five Acquisition ”). The Par Five Acquisition** ~~complements~~ **complemented** our existing cementing business and ~~enables~~ **enabled** us to serve both the Midland and Delaware ~~sub- Basins~~ **basins** of the Permian Basin **. On November 1, 2022, we consummated the acquisition of all of the outstanding limited liability company interests of Silvertip Completion Services Operating, LLC (the “ Silvertip Acquisition ”), which provides wireline perforation and ancillary services in the Permian Basin in exchange for 10. 1 million shares of our common stock valued at $ 106. 7 million, $ 30. 0 million of cash, the payoff of $ 7. 2 million of assumed debt, and the payment of certain other closing and transaction costs. Collectively, the AquaProp Acquisition, the Par Five Acquisition and the Silvertip Acquisition have positioned the Company as a more integrated and diversified completions- focused energy service provider. See Note 4. Business Acquisitions in the financial statements for additional disclosures. Effective September 1, 2022, we disposed of our coiled tubing assets to STEP Energy Services Ltd. (“ STEP ”) and shut down our coiled tubing operations. We received approximately $ 2. 8 million in cash and 2. 6 million common shares of STEP, valued at $ 11. 8 million, as consideration. Upon the sale of our coiled tubing assets, we recorded a loss on sale of $ 13. 8 million** . Our competitors include many large and small ~~oilfield~~ **energy** service companies, including Halliburton Company, Liberty Energy Inc., Patterson- UTI Energy Inc., ProFrac Holding Corp **,, Solaris Energy Infrastructure, Inc** ., RPC, Inc., and a number of private and locally- oriented businesses. The markets in which we operate are highly competitive. To be successful, an ~~oilfield~~ **energy** service company must provide services that meet the specific needs of oil and natural gas E & P companies at competitive prices. Competitive factors impacting sales of our services are price, reputation, technical

expertise, **technology,** emissions profile, service and equipment design and quality, and health and safety standards. Although we believe our customers consider all of these factors, we believe price is a key factor in E & P companies' criteria in choosing a service provider. However, we have recently observed the energy industry and our customers **'** shift to **new technologies and** lower emissions equipment, which we believe will be an increasingly important factor in an E & P company' s selection of a service provider. The transition to lower emissions equipment has been challenging for companies in the service industry because of the capital requirements, lack of large **-** scale deployment of certain new technology such as electric- powered equipment, and the pricing for our services and expected return on invested capital. While we seek to price our services competitively, we believe many of our customers elect to work with us based on our operational efficiencies, productivity, equipment quality **and technology** , reliability, ability to manage multifaceted logistics challenges, commitment to safety and the ability of our people to handle the most complex Permian Basin well completions **and power generation challenges** . ~~Our~~ **We believe that our** substantial market presence in the Permian Basin positions us well to capitalize on drilling **,** and completion activity **and power demand** in the region. Our operational focus has primarily been in the Permian Basin' s Midland sub- basin, where our customers have operated. However, we have increased our operations in the Delaware sub- basin and are well- positioned to support further increases ~~to~~ **in** our activity in this area in response to demand from our customers. Over time, we expect the Permian Basin' s Midland and Delaware sub- basins to continue to command a disproportionate share of future North American E & P spending **. Additionally, we believe the significant natural gas production in the Permian Basin will become a natural market for power- intensive businesses including data centers and other industrial businesses seeking alternative solutions for reliable and available electricity requirements which are not dependent on grid or public utility limitations** . We primarily provide hydraulic fracturing, wireline, and cementing completion services to E & P companies in the Permian Basin. Our equipment has been designed to handle the operating conditions commonly encountered in the Permian Basin and the region' s increasingly high- intensity well completions (including simultaneous hydraulic fracturing (" Simul- Frac "), which involves fracturing multiple wellbores at the same time), which are characterized by longer horizontal wellbores, more stages per lateral and increasing amounts of proppant per well. ~~Effective September 1, 2022, we disposed of our coiled tubing assets to STEP Energy Services Ltd. (" STEP") and shut down our coiled tubing operations.~~ We **also launched** ~~received approximately $ 2. 8 million in cash and 2. 6 million common shares of STEP, valued at $ 11. 8 million, as consideration. Upon the sale of our coiled tubing assets, we recorded~~ a ~~loss on sale of $ 13. 8 million~~ **new power generation business, PROPWR, that will provide power generation services to oil and gas producers and other industrial companies and data centers** . Commodity Price and Other Economic Conditions The oil and gas industry has traditionally been volatile and is characterized by a combination of long- term, short- term and cyclical trends, including domestic and international supply and demand for oil and gas, current and expected future prices for oil and gas and the perceived stability and sustainability of those prices, and capital investments of E & P companies toward their development and production of oil and gas reserves. The oil and gas industry is also impacted by general domestic and international economic conditions such as supply chain disruptions and inflation, war and political instability in oil producing countries, government regulations (both in the United States and internationally), levels of consumer demand, adverse weather conditions, and other factors that are beyond our control. ~~Since October 2023, an ongoing conflict between Israel and Palestinian militants in the Israel- Gaza region has led to significant armed hostilities.~~ The geopolitical and macroeconomic consequences of **military action** ~~this conflict remain uncertain, and such events, or any further hostilities~~ in the **Middle East** ~~Israel- Gaza region or elsewhere~~, ~~could severely impact the world economy, the demand for and price of crude oil and the oil and gas industry generally and may adversely affect our financial condition. Similarly, the geopolitical and macroeconomic consequences of~~ the Russian invasion of Ukraine, including the associated sanctions, and the adverse impacts of the COVID- 19 pandemic ~~in recent years~~ have resulted in volatility in supply and demand dynamics for crude oil and associated volatility in crude oil pricing. As the global response to the COVID- 19 pandemic began to wane, the demand and prices for crude oil increased from the lows experienced in 2020, with the West Texas Intermediate (" WTI ") average crude oil price reaching approximately $ 94 per barrel in 2022, the highest average price in the prior ~~nine~~ **ten** years. However ~~, in 2023~~ , the WTI average crude oil price declined to approximately $ 78 per barrel **in 2023 and approximately $ 76 per barrel in 2024** . We believe that the volatility of crude oil prices in recent years has been partly driven by declines in crude oil supplies, concerns over sanctions resulting from Russia' s invasion of Ukraine, concerns over a potential disruption of Middle Eastern oil supplies resulting from the ~~ongoing~~ conflict ~~between Israel and Palestinian militants~~ in the **Middle East** ~~Israel- Gaza region~~ , slower crude oil production growth due to the lack of reinvestment in the oil and gas industry in the last ~~two~~ **three** years, ~~recent~~ **the extension of** OPEC production cuts of approximately ~~1.~~3 **. 9** million barrels per day **originally announced in 2023** and concerns of a potential global recession resulting from high inflation and interest rates. With the significant increase in global crude oil prices from 2021, including the WTI crude oil price, there was a significant increase in the Permian Basin rig count from approximately 179 at the beginning of 2021 to approximately 353 at the end of 2022, according to the Baker Hughes Company (" Baker Hughes "). Following the increase in rig count and the WTI crude oil price, the ~~oilfield~~ **energy** service industry has experienced increased demand for its completion services, and improved pricing. However, ~~we have recently~~ **the Permian Basin rig count** experienced a 13 % decrease ~~in the rig count in 2023~~ to 309 at the end of 2023 **and further decreased to 304 at the end of 2024** which resulted in a reduction in the demand for completion services and pressure on pricing of our services. Sustained levels of high inflation ~~have~~ likewise caused the U. S. Federal Reserve and other central banks to increase interest rates, and to the extent elevated inflation remains, we may experience further cost increases for our operations, including interest rates, labor costs and equipment. We cannot predict any future trends in the rate of inflation and crude oil prices. A significant increase in or continued high levels of inflation, to the extent we are unable to timely pass- through the cost increases to our customers, ~~or~~ further declines in crude oil prices **, or potential changes in U. S trade policy, including the imposition of tariffs and the resulting consequences,** would negatively impact our business, financial condition and results of operations. See Part II, Item 1A. **" "** Risk Factors — We may be adversely affected by the effects of inflation. **" "** Government regulations and investors are demanding the oil and gas industry transition to a lower emissions operating environment, including upstream and ~~oilfield~~ **energy** service companies. As a result, we are working with our customers and equipment manufacturers to transition our equipment ~~to~~ **into** a lower emissions profile. Currently, a number of lower emission solutions for pumping equipment, including Tier IV DGB dual- fuel, ~~FORCESM~~ -- **FORCE ®** electric, direct drive gas turbine and other technologies have been developed, and we expect additional lower emission solutions will be developed in the future. We are continually evaluating these technologies and other investment and acquisition opportunities that would support our existing and new customer relationships. The transition to lower emissions equipment is quickly evolving and will be capital intensive. Over time, we may be required to convert substantially all of our conventional Tier II equipment to lower emissions equipment. We have transitioned our hydraulic fracturing available equipment portfolio from approximately 10 % lower emissions equipment in 2021 to approximately 35 % in 2022 ~~and ,~~ 60 % in 2023 **and 70 % in 2024** , and expect to increase to approximately ~~65~~ **75** % by the end of the first ~~half~~ **quarter** of ~~2024~~ **2025** . To the extent any of our customers have certain expectations or requirements with respect to emissions reductions from their contractors, if we are unable to continue quickly transitioning to lower emissions equipment, the demand for our services could be adversely impacted. If the Permian Basin rig count and market conditions improve, including improved pricing for our services and labor availability, and we are able to meet our customers' lower emissions equipment demands, we believe our operational and financial results will also improve. If the rig count or market conditions do not improve or decline in the future, and we are unable to increase our pricing or pass- through future cost increases ~~to~~ **for** our customers, there could be a material adverse impact on our business, results of operations and cash flows. Our results of operations have historically reflected seasonal tendencies, typically in the fourth quarter, relating to the holiday season, inclement winter weather and **the** exhaustion of our customers' annual budgets. As a result, we typically experience declines in our operating and financial results in November and December, even in a stable commodity price and operations environment. Our Services We have historically conducted our business through four operating segments: hydraulic fracturing, wireline, cementing and coiled tubing. Prior to the fourth quarter of fiscal year 2023, our operating segments met the aggregation criteria and were aggregated into the " Completion Services " reportable segment and our coiled tubing operations (which were divested in September 2022) were shown in the " All Other " category. Effective **in** ~~as of~~ the fourth quarter of fiscal year 2023, we revised our segment reporting as we determined that our ~~three~~ operating segments no longer met the criteria to be aggregated. **In the fourth quarter of fiscal year 2024, we formed PROPWR to provide power generation services to oil and gas producers and non- oil and gas applications such as general industrial projects and data centers. This new subsidiary has ordered equipment, but it has not yet begun any revenue- generating activities.** Our ~~Hydraulic~~ **hydraulic** ~~Fracturing~~ **fracturing** ~~and ,~~ ~~Wireline~~ **wireline and cementing** operating segments meet the criteria of a reportable segment. Our ~~cementing and our~~ divested coiled tubing **and our newly formed power generation services** segments do not meet the reportable segment criteria and are included within the " All Other " category. ~~Prior period segment information has~~ **Additionally, our corporate administrative activities do not involve business activities from which it may earn revenues and its results are not regularly reviewed by the Company' s Chief Operating Decision Maker (the " CODM ") when making key operating and resource decisions. As a result, corporate administrative expenses have** been **included under " Reconciling Items** ~~revised to conform to our current presentation~~ . **"** For additional financial information on our reportable ~~segments~~ **segment** presentation, please see reportable segment information in Part II- Item 8, **" "** Financial Statements and Supplementary Data. **" " Hydraulic Fracturing** We provide hydraulic fracturing services to E & P companies in the Permian Basin. These services are intended to optimize hydrocarbon flow paths during the completion phase of horizontal shale wellbores. We have significant expertise in multi - stage fracturing of horizontal oil - producing wells in unconventional geological formations. Our total available hydraulic horsepower (**" "** HHP **" "**) at December 31, ~~2023~~ **2024 ,** was 1, ~~461~~ **556** , 500 HHP, which was comprised of ~~452~~ **450** , ~~500~~ **000** HHP of our Tier IV DGB dual- fuel equipment, ~~144~~ **294** , 000 HHP of ~~FORCESM~~ -- **FORCE ®** electric- powered equipment and ~~865~~ **812** , ~~000~~ **500** HHP of conventional Tier II equipment. ~~An individual~~ **Our hydraulic fracturing** ~~fleet~~ **fleets** ~~could~~ range from approximately 50, 000 to 80, 000 HHP depending on the job design and customer demand at the wellsite. Our equipment has been designed to handle the operating conditions commonly encountered in the Permian Basin and the region' s increasingly high- intensity well completions **, including** (~~including " Simul- Frac " , which involves fracturing multiple wellbores at the same time~~), which are characterized by longer horizontal wellbores, more stages per lateral and increasing amounts of proppant per well. With the industry transition to lower emissions equipment and Simul- Frac, in addition to several other changes to our customers' job designs, we believe that our available fleet capacity could decline if we decide to reconfigure our fleets to increase active HHP and backup HHP at wellsites. In addition, in 2021 and 2022, we committed to additional conversions of **some of** our Tier II equipment to Tier IV DGB ~~dual- fuel equipment~~ , and to purchase new Tier IV DGB dual- fuel equipment. As such, we entered into conversion and purchase agreements with our equipment manufacturers ~~for a total of 452, 500 HHP of Tier IV DGB dual- fuel equipment~~ and ~~as of December 31, 2023, we have~~ received all of the converted and new Tier IV DGB dual- fuel equipment **by the end of 2023, representing 450, 000 HHP of our Tier**

IV DGB dual- fuel equipment as of December 31, 2024 . In 2022, we entered into three- year electric fleet leases for ~~a total of~~ four ~~FORCESM~~ -- **FORCE ®** electric- powered hydraulic fracturing fleets with 60, 000 HHP per fleet ~~. As of December 31, (the " Electric Fleet Leases ") and in June 2023~~ **2024** , we ~~have received 144, 000 HHP of FORCESM electric- powered equipment. We currently expect to receive the remaining equipment associated with the second and third fleets and all equipment associated with the fourth fleet in the first half of 2024. We have~~ entered into ~~contracts with customers~~ **an additional three- year lease** for **a fifth** ~~the use of two of our FORCESM~~ -- **FORCE ®** electric- powered hydraulic fracturing **fleet with 72, 000 HHP. As of December 31, 2024, we have received 294, 000 HHP of FORCE ® electric- powered equipment representing four** fleets **and** ~~to provide committed services for~~ a ~~period~~ **portion** of ~~up to three~~ -- **the** ~~years~~ **fifth fleet. We currently expect to receive the remaining equipment associated with the fifth fleet in the first half of 2025** . The hydraulic fracturing process consists of pumping fracturing fluid into a well at sufficient pressure to fracture the formation. Materials known as proppants, which in our business are comprised primarily of sand, are suspended in the fracturing fluid and are pumped into the fracture to prop it open. The fracturing fluid is designed to break, or loosen viscosity, and be forced out of the formation by its pressure, leaving the proppants suspended in the fractures created, thereby increasing the mobility of the hydrocarbons. As a result of the fracturing process, production rates are usually enhanced substantially, thus increasing the rate of return of hydrocarbons for the operator. We own and operate a fleet of mobile hydraulic fracturing units and other auxiliary equipment to perform fracturing services. We also refer to all of our fracturing units, other equipment and vehicles necessary to perform a fracturing job as a ~~"~~ **“** fleet ~~"~~ **”** and the personnel assigned to each fleet as a ~~"~~ **“** crew. ~~"~~ **”** Our hydraulic fracturing units consist primarily of ~~a~~ high pressure hydraulic pumps, diesel or dual gas engines, **gas turbine generators,** transmissions and various hoses, valves, tanks and other supporting equipment like blenders, irons, hoses and ~~datavans~~ **data vans. We also own and operate a fleet of trucks, trailers and other equipment that provide onsite storage and handling of wet sand used in the completion phase of shale wellbores** . We provide dedicated equipment, personnel and services that are tailored to meet each of our customer' s needs. Each fleet has a designated team of personnel, which allows us to provide responsive and customized services, such as project design, proppant and other consumables procurement, real- time data provision and post - completion analysis for each of our jobs. Many of our hydraulic fracturing fleets and associated personnel have worked continuously with the same customer for the past several years promoting deep relationships and a high degree of coordination and visibility into future customer activity levels. Furthermore, in light of our substantial market presence and historically high fleet utilization levels, we have established a variety of trusted relationships with key equipment, sand and other downhole consumable suppliers. We believe these strategic relationships position us to acquire equipment, parts and materials on a timely and economic basis and allow our dedicated procurement and logistics team to support consistently safe and reliable operations. **Wireline** We provide wireline and ancillary services on new oil well completions in the Permian Basin. Wireline utilizes equipment with a drum of wireline to deploy perforating guns in the well to perforate the casing, cement, and formation. Once the well is perforated, it is ready to be fractured. Pumpdown utilizes pressure pumping equipment to pump water into the well to deploy or push the perforating guns attached to the wireline through the lateral section of a well. We own and operate a fleet of mobile wireline units and other auxiliary equipment to perform well completion services. We also refer to our wireline units, pressure control equipment, other equipment and vehicles necessary to perform a job as a" spread" and the personnel assigned to the spread as a" crew." On average, one wireline spread consists of a wireline tractor truck with a large cab functioning as a mobile office where the engineer controls the wireline spooled drum along with associated pressure control iron and equipment, trailers and vehicles. We currently have ~~23~~ **26** wireline units. Cementing We provide cementing services for completion of new wells and remedial work on existing wells. Cementing services use pressure pumping equipment to deliver a slurry of liquid cement that is pumped down a well between the casing and the borehole. Cementing provides isolation between fluid zones behind the casing to minimize potential damage to hydrocarbon bearing formations or the integrity of freshwater aquifers, and provides structural integrity for the casing by securing it to the earth. Cementing is also done when re- completing wells, where one zone is plugged and another is opened. We believe that our cementing segment provides an organic growth opportunity for us to expand our service offerings within our existing customer base. We currently have ~~40~~ **29** cementing units **. Power Generation Services In December 2024, we formed PROPWR to provide power generation services to oil and gas producers and non- oil and gas applications such as general industrial projects and data centers. This subsidiary has ordered equipment, but has not yet begun revenue- generating activities** . Our Customers Our customers consist primarily of oil and natural gas producers in North America. Our top five customers accounted for approximately **58. 8 %,** 63. 2 % ~~,~~ **and** 84. 0 ~~% and 85. 7~~ % of our revenue, for the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~ , respectively. For the year ended December 31, ~~2023~~ **2024** , ~~Endeavor Energy Resources and~~ XTO Energy **Inc. (“ XTO ”), a wholly owned subsidiary of Exxon Mobil Corporation (“ ExxonMobil ”), Permian Resources and EOG Resources** accounted for 19. 7 % ~~and 18~~ **, 14** , ~~2~~ **9 %, and 10. 6** %, respectively, of total revenue. No other customer accounted for more than 10 % of our total revenue for the year ended December 31, ~~2023~~ **2024** . There have been many recent mergers and acquisitions in the oil and gas industry. In ~~October~~ **May** ~~2023~~ **2024** , Pioneer Natural Resources USA, Inc. (“ Pioneer ”) ~~entered~~ **merged with and** into a ~~merger agreement with~~ **wholly owned subsidiary of** Exxon Mobil ~~Corporation~~ **. We currently provide pressure pumping, wireline and other services to ExxonMobil and previously provided such services to Pioneer** . Mergers and acquisitions involving our customers could negatively impact our future business with them or positively impact our business by providing us access to potential new customers. On ~~March 31~~ **April 22** , ~~2022~~ **2024** , we entered into **a sub-** ~~an amended and restated pressure pumping services~~ agreement **for** ~~(the" A & R Pressure Pumping Services Agreement") with Pioneer, which was initially entered into in connection with our purchase of certain pressure pumping assets and real property from Pioneer and Pioneer Pumping Services, LLC (the" Pioneer Pressure Pumping Acquisition"). The A & R Pressure Pumping Services Agreement expired at the conclusion of its term and was replaced by the Fleet One Agreement and the Fleet Two Agreement described below. On October 31, 2022, we entered into two pressure pumping services agreements (the “ Fleet One Agreement ” and “ Fleet Two Agreement ”) with Pioneer, pursuant to which we provided~~ hydraulic fracturing services with **XTO, pursuant to which we agreed to provide hydraulic fracturing, wireline and pumpdown services with** two committed **FORCE ® electric- powered hydraulic fracturing** fleets **with the option to add a third FORCE ® fleet (also with wireline and pumpdown services) for a period of three years or for contracted hours, whichever occurs last, with respect to each fleet** , subject to certain termination and release rights ~~. The Fleet One Agreement was effective as of January 1, 2023 and was terminated on August 31, 2023. The Fleet Two Agreement was effective as of January 1, 2023 and was terminated on May 12, 2023~~ . The markets in which we operate are highly competitive. To be successful, an ~~oilfield~~ **energy** service company must provide services and equipment that meet the specific needs of oil and natural gas E & P companies at competitive prices. Competitive factors impacting sales of our services are price, reputation, technical expertise, emissions profile, service and equipment design and quality, and health and safety standards. Although we believe our customers consider all of these factors, we believe price is a key factor in E & P companies' criteria in choosing a service provider. However, we have recently observed the energy industry and our customers shift to lower emissions equipment, which we believe will be an increasingly important factor in an E & P company' s selection of a service provider. The transition to lower emissions equipment has been challenging for companies in the ~~oilfield~~ **energy** service industry because of the capital requirements. While we seek to price our services competitively, we believe many of our customers elect to work with us based on our operational efficiencies, productivity, equipment portfolio and quality, reliability, ability to manage multifaceted logistics challenges, commitment to safety and the ability of our people to handle the most complex Permian Basin well completions. We provide our services primarily in the Permian Basin, and we compete against different companies in each service and product line we offer. Our competition includes many large and small ~~oilfield~~ **energy** service companies, including the largest integrated ~~oilfield~~ **energy** service companies. Our major competitors include Halliburton Company, Liberty Energy Inc., Patterson - UTI Energy Inc., ProFrac Holding Corp **., Solaris Energy Infrastructure, Inc** ., RPC, Inc., and a number of private and locally- oriented businesses. Seasonality Our results of operations have historically reflected seasonal tendencies, generally in the fourth quarter, relating to the conclusion of our customers' annual capital expenditure budgets, the holidays and inclement winter weather during which we may experience declines in our operating and financial results. Operating Risks and Insurance Our operations are subject to hazards inherent in the ~~oilfield~~ **energy** service industry, such as accidents, blowouts, explosions, fires and spills and releases that can cause personal injury or loss of life, damage or destruction of property, equipment, natural resources and the environment and suspension of operations. In addition, claims for loss of oil and natural gas production and damage to formations can occur in the ~~oilfield~~ **energy** service industry. If a serious accident were to occur at a location where our equipment and services are being used, it could result in us being named as a defendant in lawsuits asserting large claims. Our business involves the transportation of heavy equipment and materials, and as a result, we may also experience traffic accidents which may result in spills, property damage and personal injury. Despite our efforts to maintain safety standards, we have suffered accidents from time to time in the past and anticipate that we could experience accidents in the future. In addition to the property damage, personal injury and other losses from these accidents, the frequency and severity of these incidents affect our operating costs and insurability and our relationships with customers, employees, regulatory agencies and other parties. Any significant increase in the frequency or severity of these incidents, or the general level of compensation awards, could adversely affect the cost of, or our ability to obtain workers' compensation and other forms of insurance, and could have other material adverse effects on our financial condition and results of operations. We maintain commercial general liability, workers' compensation, business automobile, commercial property, umbrella liability, excess liability, and directors and officers insurance policies providing coverages of risks and amounts that we believe to be customary in our industry. Further, we have pollution legal liability coverage for our business entities, which would cover, among other things, third party liability and costs of clean up relating to environmental contamination on our premises while our equipment is in transit and on our customers' job site. With respect to our operations, coverage would be available under our pollution legal liability policy for any surface or subsurface environmental cleanup and liability to third parties arising from any surface or subsurface contamination. We also have certain specific coverages for some of our businesses, including our hydraulic fracturing and wireline services. We maintain directors and officers insurance; however, our insurance coverage is subject to certain exclusions (including, for example, any required United States Securities and Exchange Commission (“ SEC ”) disgorgement or penalties) and we are ~~5~~ responsible for meeting certain deductibles under the policies. Moreover, we cannot assure you that our insurance coverage will adequately protect us from all future claims. Although we maintain insurance coverage of types and amounts that we believe to be customary in the industry, we are not fully insured against all risks, either because insurance is not available or because of the high premium costs relative to perceived risk. Further, insurance rates have in the past been subject to wide fluctuation and changes in coverage could result in less coverage, increases in cost or higher deductibles and retentions. Liabilities for which we are not insured, or which exceed the policy limits of our applicable insurance, could have a material adverse effect on us. See ~~"~~ **“** Risk Factors ~~"~~ **”** for a description of certain risks associated with our insurance policies. Environmental and Occupational Health and Safety Regulations Our operations are subject

to stringent laws and regulations governing the discharge of materials into the environment or otherwise relating to environmental protection, and occupational health and safety. Numerous federal, state and local governmental agencies issue regulations that often require difficult and costly compliance measures that could carry substantial administrative, civil and criminal penalties and may result in injunctive obligations for non- compliance. These laws and regulations may, for example, restrict the types, quantities and concentrations of various substances that can be released into the environment, limit or prohibit construction or drilling activities on certain lands lying within wilderness, wetlands, ecologically or seismically sensitive areas and other protected areas, or require action to prevent or remediate pollution from current or former operations. Moreover, it is not uncommon for neighboring landowners and other third parties to file claims for personal injury and property damage allegedly caused by the release of hazardous substances, hydrocarbons or other waste products into the environment. Changes in environmental, health and safety laws and regulations occur frequently, and any changes that result in more stringent and costly requirements could materially adversely affect our operations and financial position ~~. For example, following the passage of laws such as the IRA 2022, it is possible that our operations may be subject to greater environmental, health and safety restrictions, particularly with regards to hydraulic fracturing and wireline, permitting and greenhouse gases (" GHG") emissions~~. We have not experienced any material adverse effect from compliance with current requirements; however, this trend may not continue in the future. Below is an overview of some of the more significant environmental, health and safety requirements with which we must comply. Our customers' operations are subject to similar laws and regulations. Any material adverse effect of these laws and regulations on our customers' operations and financial position may also have an indirect material adverse effect on our operations and financial position. Waste Handling. We handle, transport, store and dispose of wastes that are subject to the Resource Conservation and Recovery Act (" RCRA") and comparable state laws and regulations, which affect our activities by imposing requirements regarding the generation, transportation, treatment, storage, disposal and cleanup of hazardous and non- hazardous wastes. With federal approval, the individual states administer some or all of the provisions of RCRA, sometimes in conjunction with their own, more stringent requirements. Although certain petroleum production wastes are exempt from regulation as hazardous wastes under RCRA, such wastes may constitute " solid wastes " that are subject to the less stringent requirements of non- hazardous waste provisions. Administrative, civil and criminal penalties can be imposed for failure to comply with waste handling requirements. Moreover, the U. S. Environmental Protection Agency (~~" "~~ EPA ~~" "~~) or state or local governments may adopt more stringent requirements for the handling of non- hazardous wastes or recategorize some non- hazardous wastes as hazardous for future regulation. Indeed, legislation has been proposed from time to time in Congress to recategorize certain oil and natural gas exploration, development and production wastes as hazardous wastes. Several environmental organizations have also petitioned the EPA to modify existing regulations to recategorize certain oil and natural gas exploration, development and production wastes as hazardous. Any such changes in these laws and regulations could have a material adverse effect on our capital expenditures and operating expenses. Although we do not believe the current costs of managing our wastes, as presently classified, to be significant, any legislative or regulatory reclassification of oil and natural gas E & P wastes could increase our costs to manage and dispose of such wastes. Remediation of Hazardous Substances. The Comprehensive Environmental Response, Compensation and Liability Act (~~" "~~ CERCLA ~~" " or" Superfund"~~) and analogous state laws generally impose liability without regard to fault or legality of the original conduct, on classes of persons who are considered to be responsible for the release of a hazardous substance into the environment. These persons include the current owner or operator of a contaminated facility, a former owner or operator of the facility at the time of contamination and those persons that disposed or arranged for the disposal of the hazardous substance at the facility. Liability for the costs of removing or remediating previously disposed wastes or contamination, damages to natural resources, the costs of conducting certain health studies, amongst other things, is strict and joint and several. In the course of our operations, we use materials that, if released, would be subject to CERCLA and comparable state laws. Therefore, governmental agencies or third parties may seek to hold us responsible under CERCLA and comparable state statutes for all or part of the costs to clean up sites at which such hazardous substances have been released. NORM. In the course of our operations, some of our equipment may be exposed to naturally occurring radioactive materials (~~" "~~ NORM ~~" "~~) associated with oil and gas deposits and, accordingly, may result in the generation of wastes and other materials containing NORM. NORM exhibiting levels of radiation in excess of established state standards are subject to special handling and disposal requirements, and any storage vessels, piping and work area affected by NORM may be subject to remediation or restoration requirements. Water Discharges. The Clean Water Act, Safe Drinking Water Act, Oil Pollution Act and analogous state laws and regulations impose restrictions and strict controls regarding the unauthorized discharge of pollutants, including produced waters and other gas and oil wastes, into regulated waters. The discharge of pollutants into regulated waters is prohibited, except in accordance with the terms of a permit issued by the EPA or the state. Also, spill prevention, control and countermeasure plan requirements require appropriate containment berms and similar structures to help prevent the contamination of regulated waters. Air Emissions. The Clean Air Act (~~" "~~ CAA ~~" "~~) and comparable state laws and regulations, regulate emissions of various air pollutants through the issuance of permits and the imposition of other emissions control requirements. The EPA has developed, and continues to develop, stringent regulations governing emissions of air pollutants from specified sources. New facilities may be required to obtain permits before work can begin, and existing facilities may be required to obtain additional permits and incur capital costs in order to remain in compliance. These and other laws and regulations may increase the costs of compliance for some facilities where we operate. Obtaining or renewing permits also has the potential to delay the development of oil and natural gas projects. Climate Change. In the United States, no comprehensive climate change legislation has been implemented at the federal level, though recently passed laws such as the IRA 2022 advance numerous climate- related objectives. Additionally, following the U. S. Supreme Court finding that **greenhouse gas (" "** GHG **")** emissions constitute a pollutant under the CAA, the EPA has adopted regulations that, among other things, establish construction and operating permit reviews for GHG emissions from certain large stationary sources, require the monitoring and annual reporting of GHG emissions from certain petroleum and natural gas system sources in the United States, implement New Source Performance Standards directing the reduction of certain pollutants from certain new, modified, or reconstructed facilities in the oil and natural gas sector, and together with the Department of Transportation (~~" "~~ DOT ~~" "~~), implementing GHG emissions limits on vehicles manufactured for operation in the United States. Additionally, the EPA has recently finalized rules covering the standards of performance for methane and volatile organic compounds emissions for oil and gas facilities, including leak detection, monitoring and repair, and a ~~" "~~ super- emitter ~~" "~~ response program to timely mitigate emissions events as detected by governmental agencies or qualified third parties, triggering certain investigation and repair requirements. These requirements were finalized in 2023, but ~~may be~~ **are currently** subject to legal challenge **. At this time, it remains uncertain as to whether the current administration will repeal or modify this rule and the timing with respect to the same** . Additionally, various states and groups of states have adopted or are considering adopting legislation, regulations or other regulatory initiatives that are focused on such areas such as GHG cap and trade programs, carbon taxes, reporting and tracking programs, and restriction of emissions. At the international level, the United Nations- sponsored ~~" "~~ Paris Agreement, ~~" "~~ requires member states to submit non- binding, individually- determined reduction goals known as Nationally Determined Contributions (~~" "~~ NDCs ~~" "~~) every five years after 2020. **The** ~~Following the president' s executive order in January 2021, the~~ United States rejoined the Paris Agreement and, in April 2021, established a goal of reducing economy- wide net GHG emissions 50- 52 % below 2005 levels by 2030. **However** ~~Some countries~~ ~~, including~~ **in January 2025, the current president signed an Executive Order once again withdrawing** the United States ~~, have additionally~~ **from the Paris Agreement and from any other commitments** made **under** ~~commitments to reduce global methane emissions through initiatives such as~~ the **United Nations Framework Convention on Climate Change. The** ~~Global Methane Pledge, and have been called upon to phase out inefficient fossil fuel~~ **full** subsidies. ~~However, the impacts~~ **impact** of these ~~actions are unclear~~ **recent developments is uncertain** at this time. For more information, see our risk factors titled ~~" "~~ Our and our customers' operations are subject to a series of risks arising out of the threat of climate change that could result in increased operating costs, limit the areas in which oil and natural gas production may occur, and reduce demand for the products and services we provide ~~" "~~ and ~~" "~~ The IRA 2022 could accelerate the transition to a low carbon economy and could impose new costs on our customers' operations. ~~" "~~ Governmental, scientific, and public concern over the threat of climate change arising from GHG emissions has resulted in increasing political risks in the United States, ~~including climate- change- related pledges made by certain candidates~~ for ~~public office. On January 27, 2021, the president issued an executive order that commits to substantial action on climate change, calling for, among other things, the increased use of zero- emissions vehicles by the federal government, the elimination of subsidies provided to the fossil fuel industry and an increased emphasis on climate- related risk across government agencies and economic sectors. The executive order also suspended the issuance of new leases for oil and gas development on federal land for a time; for more information, see our regulatory disclosure titled" Regulation of Hydraulic Fracturing and Related Activities." Other actions that the current government may take include the imposition of more restrictive requirements for the development of pipeline infrastructure or liquefied natural gas export facilities or more restrictive GHG emissions limitations for oil and gas facilities. For~~ example, in January 2024 the government announced a temporary pause on pending decisions on liquefied natural gas exports to certain countries. **However, upon taking office, the current president signed an Executive Order resuming the processing of permit applications for such projects.** Litigation risks are also increasing as a number of parties have sought to bring suit against certain oil and natural gas companies operating in the United States in state or federal court, alleging among other things, that such companies created public nuisances by producing fuels that contributed to climate change or that such companies have been aware of the adverse effects of climate change but failed to adequately disclose those impacts to their investors or customers. ~~The adoption and implementation of new or more stringent international, federal or state legislation, regulations or other regulatory initiatives that impose more stringent standards for GHG emissions from the oil and natural gas sector or otherwise restrict the areas in which this sector may produce oil and natural gas or generate GHG emissions could result in increased costs of compliance or costs of consuming, and thereby reduce demand for, oil and natural gas, which could reduce demand for our services and products.~~ Moreover, climate change may result in various physical risks, such as the increased frequency or intensity of extreme weather events or changes in the meteorological and hydrological patterns, that could adversely impact us, our customers' and our suppliers' operations. Such physical risks may result in damage to our customers' facilities or otherwise adversely impact our operations, such as if facilities are subject to water use curtailments in response to drought, or demand for our customers' products, such as to the extent warmer winters reduce the demand for energy for heating purposes, which may ultimately reduce demand for the products and services we provide. Such physical risks may also impact our suppliers, which may adversely affect our ability to provide our products and services. Extreme weather conditions can interfere with our operations and increase our costs, and damage resulting from extreme weather may not be fully insured. Endangered and Threatened Species. Environmental laws such as the Endangered Species Act (~~" "~~ ESA ~~" "~~) and analogous state laws may impact exploration, development and production activities in areas where we operate. The ESA provides broad protection for species of fish, wildlife and plants that are listed as threatened or

endangered. Similar protections are offered to migratory birds under the Migratory Bird Treaty Act and various state analogs. The U. S. Fish and Wildlife Service (~~"~~ **“** FWS ~~"~~ **”**) may identify previously unidentified endangered or threatened species or may designate critical habitat and suitable habitat areas that it believes are necessary for survival of a threatened or endangered species. For example, the dunes sagebrush lizard, which is found only in the active and semi- stable shinnery oak dunes of southeastern New Mexico and adjacent portions of Texas (including areas where our customers operate), ~~was a candidate species for listing under the ESA by the FWS for many years. Most recently, the dunes sagebrush lizard~~ has **, since May 2024,** been **listed** ~~proposed for listing~~ as endangered **under** ~~in July 2023, FWS has also entered into voluntary conservation agreements that implement certain protective practices for~~ the **ESA** ~~species and authorize incidental take of the species resulting from certain covered activities, including exploration and development of oil and gas fields~~ . **To** ~~However, to~~ the extent any protections are implemented for this or any other species, it could cause us or our customers to incur additional costs or become subject to operating restrictions or operating bans in the affected areas. Regulation of Hydraulic Fracturing and Related Activities. Our hydraulic fracturing operations are a significant component of our business. Hydraulic fracturing is an important and common practice that is used to stimulate production of hydrocarbons, particularly natural gas, from tight formations, including shales. The process, which involves the injection of water, sand and chemicals under pressure into formations to fracture the surrounding rock and stimulate production, is typically regulated by state oil and natural gas commissions. However, federal agencies have asserted regulatory authority over certain aspects of the process. Although several of these rulemakings have been rescinded, modified or subjected to legal challenges, new or more stringent regulations may be promulgated by the current government. For example, **in March 2024,** the Bureau of Land Management (“ BLM ”) **finalized** ~~recently proposed~~ a rule that ~~would~~ **requires operators to** limit flaring from well sites on federal lands, **and** ~~as well as allow~~ **allows** the delay or denial of permits if BLM finds that an operator’ s methane waste minimization plan is insufficient. The **rule was challenged by various states in the District Court for the District of North Dakota, and, in September 2024, that court ordered that the rule cannot be enforced within the plaintiff states pending the outcome of the litigation. Although the rule is** ~~current~~ **currently** ~~government has~~ **being implemented in areas not covered by the order, the future of the rule is uncertain. The previous administration** also called for revisions and restrictions to the leasing and permitting programs for oil and gas development on federal lands and, for a time, suspended federal oil and gas leasing activities. The Department of the Interior (~~"~~ **“** DOI ~~"~~ **”**) ~~has also~~ issued a report recommending various changes to the federal leasing program, though many such changes would require congressional action. In July 2023, the BLM ~~proposed~~ **finalized** a rule to update the fiscal terms of federal oil and gas leases, which ~~would increase~~ **increases** fees, rents, royalties, and bonding requirements. The rule ~~would~~ also ~~add~~ **adds** new criteria for BLM to consider when determining whether to lease nominated land, including the presence of important habitats or wetlands, the presence of historical properties or sacred sites, and recreational use of the land. **Any** ~~BLM anticipates a final action on the proposal in Spring 2024. As a result, we cannot predict the final scope of regulations or restrictions that may apply to oil and gas operations on federal lands. However, any~~ regulations that restrict, ban or effectively ban such operations may adversely impact demand for our products and services. Further, legislation to amend the Safe Drinking Water Act to repeal the exemption for hydraulic fracturing (except when diesel fuels are used) from the definition of “ underground injection ” and require federal permitting and regulatory control of hydraulic fracturing, as well as legislative proposals to require disclosure of the chemical constituents of the fluids used in the fracturing process, have previously been proposed in Congress. Several states and local jurisdictions in which we or our customers operate also have adopted or are considering adopting regulations that could restrict or prohibit hydraulic fracturing in certain circumstances, impose more stringent operating standards and / or require the disclosure of the composition of hydraulic fracturing fluids. Federal and state governments have also investigated whether the disposal of produced water into underground injection wells has caused increased seismic activity in certain areas. In response to concerns regarding induced seismicity, regulators in some states have imposed, or are considering imposing, additional requirements in the permitting of produced water disposal wells or otherwise to assess any relationship between seismicity and the use of such wells. For example, Oklahoma has issued rules for wastewater disposal wells that impose permitting and operating restrictions and reporting requirements on disposal wells in proximity to faults and also, from time to time, has implemented plans directing certain wells where seismic incidents have occurred to restrict or suspend disposal well operations. In particular, the Oklahoma Corporation Commission’ s well completion seismicity guidelines for operators in the SCOOP and STACK require hydraulic fracturing operations to be suspended following earthquakes of certain magnitudes in the vicinity. In addition, the Oklahoma Corporation Commission’ s Oil and Gas Conservation Division has previously issued an order limiting future increases in the volume of oil and natural gas wastewater injected into the ground in an effort to reduce the number of earthquakes in the state. The Texas Railroad Commission (~~"~~ **“** TRRC ~~"~~ **”**) has adopted similar rules including the indefinite suspension of all deep oil and gas produced water injection wells in certain areas covered by the TRRC’ s seismic response program. Increased regulation of hydraulic fracturing and related activities could subject us and our customers to additional permitting and financial assurance requirements, more stringent construction specifications, increased monitoring, reporting and record keeping obligations, and plugging and abandonment requirements. New requirements could result in increased operational costs for us and our customers, and reduce the demand for our services. For more information on each of these items, see our risk factor titled ~~"~~ **“** Federal and state legislative and regulatory initiatives relating to hydraulic fracturing could result in increased costs and additional operating restrictions or delays. ~~"~~ **”** OSHA Matters. The Occupational Safety and Health Act (~~"~~ **“** OSHA ~~"~~ **”**) and comparable state statutes regulate the protection of the health and safety of workers. In addition, the OSHA hazard communication standard requires that information be maintained about hazardous materials used or produced in operations and that this information be provided to employees, state and local government authorities and the public. Human Capital Our employees are our key asset. Our primary human capital management objectives are to effectively engage, develop, retain and reward our employees. As of December 31, ~~2023~~ **2024** , we employed approximately ~~2~~ **1** , ~~070~~ **900** people, and none of our employees are represented by a union. All of our employees work for or support our hydraulic fracturing, wireline ~~and~~ **,** cementing **and power generation services** operating segments. We believe that we have good relations with our employees. We believe that our employees are a key component of our ability to attract and retain customers as a result of their operational excellence in the field. Some examples of significant programs and initiatives that support our objective of attracting, developing and retaining our diverse and inclusive workforce include: • Opportunity and Engagement. We are an equal opportunity employer and prohibit discrimination against any employee and applicant on the basis of any legally protected characteristic. We believe that in order to attract and retain talent with the skill sets and expertise that can help to maximize our operational efficiencies across all levels in the Company, it is in our best interest to create a culture that is inclusive. We conducted ~~an~~ **our second annual** employee engagement survey in **2024. The results show improvement in our overall employee engagement score over the** 2023 **survey** ~~related to inclusion, belonging~~ and ~~other~~ **above industry benchmarks. The survey focuses on** engagement ~~efforts~~ **, manager effectiveness, training and tools to ensure that employees are well equipped to do their jobs effectively and workplace culture. Attracting the right people to ProPetro remains top priority** . Some examples of this effort to recruit and develop **our** ~~a diverse~~ team and ~~create an inclusive~~ culture include: ◦ a commitment to conducting business in a manner that respects all human rights in compliance within the requirements of applicable laws; ◦ a commitment within our business operations to promoting and encouraging respect for human rights and fundamental freedoms for all without distinctions of any kind, such as race, color, sex, language, religion, political or other opinions; ◦ working with personnel, business partners and other parties directly linked to our operations that share our commitment to these same **legal compliance** principles; ◦ maintaining employment policies reflecting our commitments, including our code of conduct, our equal employment opportunity employer policy, and our anti- harassment and anti- discrimination policy; and ◦ providing an anonymous Ethics and Compliance hotline that is promoted internally and accessible from our intranet and website to make it possible for grievances regarding health and safety to be addressed early and remediated directly, in confidence and without fear of retaliation. • Training and Safety. We offer in- depth, role- appropriate safety training upon hiring and as part of the continuous development of our employees. The safety of our employees, our customers, and the communities in which we operate is paramount. We track and evaluate safety incidents at wellsites and offices, and if an accident does occur, we aim to take actions to mitigate similar incidents from reoccurring in the future. The Company seeks to incentivize employees to focus on conducting operations in accordance with our strict safety standards and encourages employees to immediately report any breach of safety protocol. Ten percent of our executive officers’ annual target bonuses under the ~~2023~~ **2024** annual incentive program were based upon the Company’ s achievement of certain safety goals, including a target total recordable incident rate. • Professional Development. In ~~2023~~ **2024** , the Company continued its focus on leadership development, targeting leadership positions including frontline supervisors and above. ~~In addition, we sought~~ **Internal facilitators were trained and certified** to ~~make improvements~~ **deliver content** to ~~our~~ **drive program efficiency and better associate the topics and importance of the training to the business. The Company also transitioned the Human Resources Information System (HRIS) from PayCom to Workday to gain greater talent related functionality and efficiency in the areas of performance management,** succession planning ~~tools and process to enable greater consistency~~ , **learning** ~~talent identification~~ and development **and compensation** planning. ~~We also introduced behavioral optimization tools~~ **Responsibility for Human Capital Management (HCM) in Workday was designed** to ~~aid individual and team~~ **ensure the direct supervisor working closest with the employee is at the center of the conversation driving engagement, providing feedback, rewarding** performance and **supporting development** ~~talent acquisition efforts~~ . • Compensation, Health, Wellness and Benefits. Our employee benefit offerings are designed to meet the varied and evolving needs of ~~a diverse~~ **our entire** workforce across the Company and we believe are consistent with those provided by our peer companies with which we compete for talent. The Company provides employees with the ability to participate in health and welfare plans, including medical, dental, life, accidental death and dismemberment and short- term and long- term disability insurance plans. In ~~2023~~ **2024** , as part of our 401 (k) plan, we ~~introduced opportunities for holistic~~ **continued to focus on** financial wellness education and group and individual consultations for employees **as well as encouraging participation in the program** . The program opportunities included many crucial topics ranging from budgeting and debt management to understanding plan options and investment strategy. Concerning health benefits, in ~~2023~~ **2024** we added additional services focused on emotional and mental health, as well as certain preventative health services related to the early detection of concerns including breast cancer, diabetes and cardiovascular disease. We also strive to give back to the areas in which we conduct business operations, and in which our employees live and work. Our employees give generously and receive up to ~~8~~ **eight** hours per year of paid time off to participate in community service. Our employee- led P. U. M. P. Committee also organizes or sponsors events in which employees can choose to participate in addition to our paid community service time benefit. Availability of Filings Our Annual Reports on Form 10- K, Quarterly Reports on Form 10- Q, Current Reports on Form 8- K and amendments to those reports filed or furnished pursuant to Section 13 (a) or 15 (d) of the Exchange Act, are made available free of charge on our internet website at www. propetroservices. com, as soon as reasonably practicable after we have electronically filed the material with, or furnished it to, the SEC. The SEC maintains an internet site that contains our reports, proxy and

information statements and our other SEC filings. The address of that website is www. sec. gov. Please note that information contained on our website, whether currently posted or posted in the future, is not a part of this Annual Report or the documents incorporated by reference in this Annual Report. ~~10~~ **Board of Directors and Executive Officers Set forth below are the names, age and business experience of the Board of Directors of the company as of February 20, 2025. Phillip A. Gobe, 72, began serving as our Chairman of the Board in July of 2019 and as Executive Chairman in October 2019. Mr. Gobe was appointed as our Chief Executive Officer on March 13, 2020 and served in that role until August 31, 2021, at which point he was re- appointed as Executive Chairman. Mr. Gobe stepped down as Executive Chairman on March 31, 2022, and continues serving the Company as Chairman of the Board. Mr. Gobe has served as a director of Pioneer since July 2014. Mr. Gobe previously served as Chairman of the Board for Pantheon Resources PLC until his June 2023 retirement. He also previously served as a director of Scientific Drilling International and Pioneer Southwest Energy Partners L. P. Mr. Gobe joined Energy Partners, Ltd as Chief Operating Officer in December 2004 and became president in May 2005, and served in those capacities until his retirement in September 2007. Mr. Gobe also served as a director of Energy Partners, Ltd. from November 2005 until May 2008. Prior to that, Mr. Gobe served as Chief Operating Officer for Nuevo Energy Company from February 2001 until its acquisition by Plains Exploration & Production Company in May 2004. Prior to that time, he held numerous operations and human resources positions with Vastar Resources, Inc. and Atlantic Richfield Company (" ARCO ") and its subsidiaries. Mr. Gobe has a Bachelors of Arts degree from the University of Texas and a Master of Business Administration degree from the University of Louisiana in Lafayette. Mr. Gobe' s extensive experience in the energy industry, including service as a director to public corporations in the industry, makes him well suited to serve as Chairman of the Board. Samuel D. Sledge, 38, has served as our Chief Executive Officer and as a member of our Board since August 31, 2021. Mr. Sledge previously served as the Company' s President from April 2021 to August 2021, and prior to that, he served as Chief Strategy and Administrative Officer beginning in March 2020. Mr. Sledge has significant experience with ProPetro having joined the Company in 2011. Mr. Sledge has served in various capacities throughout his tenure such as a Frac Technical Specialist and Technical Operations Manager where his duties included quality control, planning and logistics, and the development of the engineering program. Mr. Sledge has also served as ProPetro' s Vice President of Finance, Corporate Development, and Investor Relations where his responsibilities included financial planning and analysis, strategic initiatives, and investor relations. Mr. Sledge received a Bachelor of Business Administration and a Masters of Business Administration from Baylor University. We believe Mr. Sledge' s experience in the energy industry and his significant experience in management roles at the Company make him well suited to serve as a director. Spencer D. Armour III, 71, has served as a member of our Board since February 2013. Mr. Armour has over 30 years of executive and entrepreneurial experience in the energy services industry. Mr. Armour served as President of PT Petroleum LLC in Midland, Texas from 2011 to 2018. He was the Vice President of Corporate Development for Basic Energy Services, Inc. from 2007 to 2008, which acquired Sledge Drilling Corp., a company Mr. Armour co- founded and served as Chief Executive Officer from 2005 to 2006. From 1998 through 2005, he served as Executive Vice President of Patterson- UTI Energy, Inc., which acquired Lone Star Mud, Inc., a company Mr. Armour founded and served as President from 1986 to 1997. Mr. Armour also served on the board of Patterson- UTI Energy, Inc. from 1999 to 2001. He currently serves on the boards of Viper Energy, Inc. and CES Energy Solutions Corp and is a partner at Geneses Investments. Mr. Armour received a B. S. in Economics from the University of Houston in 1977 and served on the University of Houston System Board of Regents from 2011 until 2018. We believe that Mr. Armour' s extensive experience in the energy services industry and his deep knowledge of industry dynamics within the Permian Basin make him well suited to serve as a director. Mark S. Berg, 66, has served as a member of our Board since 2019. Mr. Berg is a senior energy industry executive with extensive commercial and operational experience, including leadership of strategic planning, business development, land, water management, completion and well services, environmental, sustainability, legal, government relations and communications. During his 20- year career with Pioneer Natural Resources (" Pioneer "), then an NYSE- listed independent oil and gas exploration and production company, first as Executive Vice President & General Counsel from 2005 to 2014 and then as Executive Vice President, Corporate Operations from 2014 until its merger with ExxonMobil in 2024, he played a key role in transforming the company into a major U. S. shale resource developer. He led the negotiating team for the $ 65 billion merger with ExxonMobil as well as multiple multibillion- dollar mergers, global divestitures, and cross- border joint ventures. Prior to joining Pioneer, Mr. Berg served from 2002 to 2004 as Senior Vice President, General Counsel & Secretary of Hanover Compressor Company, then an NYSE- listed company specializing in natural gas compression and processing, where he instituted disciplined internal controls, resolved an SEC investigation, and settled securities class action litigation. From 1997 to 2002 he served as Executive Vice President & General Counsel of American General Corporation, a Fortune 200 diversified financial services company, and oversaw its $ 27 billion merger with American International Group (" AIG "). Mr. Berg began his career with the Houston based law firm Vinson & Elkins L. L. P. and served as a partner from 1990 through 1997, focused on mergers, acquisitions and international project development. From 2018 to 2020, he served on the board of directors of HighPoint Resources, an exploration and production company then listed on the NYSE. Effective March 2025, Mr. Berg has been appointed to serve on the boards of Oncor Electric Delivery Holdings Company LLC and Oncor Electric Delivery Company LLC, a regulated electricity transmission and distribution company. Mr. Berg also serves as the founding Vice Chairman of the Permian Strategic Partnership, a coalition of Permian Basin energy companies and higher education institutions focused on supporting public education, healthcare, road safety and workforce development in the Permian Basin region. Anthony J. Best, 75, has served as a member of our Board since January 2018 and was elected to serve as Lead Independent Director in October 2019. Mr. Best has over 40 years of experience in the energy industry. Mr. Best retired as the Chairman of the board of Newpark Resources in May 2023. He was previously a director with Quantum Energy Partners' (" Quantum ") portfolio companies, ExL Petroleum and Middle Fork Energy Partners, and also served as Senior Advisor for Quantum. Prior to joining Quantum, Mr. Best served in various roles with SM Energy Company, an oil and gas exploration company, commencing in 2006 as its President and Chief Operating Officer, and as its Chief Executive Officer from February 2007 through January 2015. From 2003 to 2005, Mr. Best served as President and Chief Executive Officer of Pure Resources, Inc., a Unocal development and exploration company. From 2000 to 2003, Mr. Best served as an independent consultant offering leadership and oil and gas consultation to energy companies and volunteer organizations, and from 1979 through 2000, Mr. Best served in various roles of increasing responsibility at ARCO, culminating in the position of President, ARCO Latin America. Mr. Best holds a Master of Science in Engineering Management degree from the University of Alaska and a Bachelor of Science degree in Mechanical Engineering from Texas A & M University. Prior to beginning his business career, Mr. Best served five years as an engineering officer in the United States Air Force. We believe that Mr. Best' s experience in significant management roles with companies operating in the Permian Basin and his broad experience in the energy industry make him well suited to serve as a director. G. Larry Lawrence, 73, was appointed to our Board in December 2020. Mr. Lawrence previously served as Audit Committee Chair of Legacy Reserves, LP' s Board of Directors, a role he held from 2006 to 2019. From January 2021 until June 2021, Mr. Lawrence served as the interim Chief Financial Officer of Natural Gas Services Group, a natural gas compression equipment provider, where he previously served as Chief Financial Officer for nine years. Prior to Natural Gas Services Group, Mr. Lawrence served as Chief Financial Officer for Lynx Operating Co. Inc., an oil and gas exploration company, for three years and as Chief Financial Officer for Pure Resources, Inc., an oil and gas E & P company, for two years. He has also held finance and management consulting positions for Parson Group, ARCO and Crescent Consulting. Mr. Lawrence earned his bachelor' s degree with an accounting major from Dillard University in New Orleans. We believe that Mr. Lawrence' s broad experience in the energy industry, including his service as a director and executive officer with various companies, makes him well suited to serve as a director. Jack B. Moore, 71, has served as a member of our Board since March 2017. Mr. Moore most recently served as President and Chief Executive Officer of Cameron International Corporation (" Cameron "), an oil and gas industry equipment manufacturer and provider, from April 2008 to October 2015 and served as Chairman of the Board of Cameron from May 2011 until it was acquired by Schlumberger in April 2016. Prior to his employment with Cameron, Mr. Moore held various management positions at Baker Hughes Incorporated, where he was employed for 23 years. Mr. Moore currently serves on the Board of Directors of Occidental Petroleum Corporation, KBR Inc., and the University of Houston System Board of Regents. Mr. Moore previously served on the board of the American Petroleum Institute, the National Ocean Industries Association, Rowan Companies plc, and the Petroleum Equipment Suppliers Association. Mr. Moore received a Bachelor of Business Administration from the University of Houston and attended the Advanced Management Program at Harvard Business School. We believe that Mr. Moore' s wealth of experience in the oilfield service sector, including service as a director and executive officer to various public corporations in the sector, makes him well suited to serve as a director. Mary P. Ricciardello, 69, has served as a member of our Board since January 2023. Ms. Ricciardello currently serves as a director, Audit Committee member and Corporate Governance, Nominating and Sustainability Committee member at Eagle Materials Inc. Ms. Ricciardello previously served as a director at Devon Energy from 2008 to 2021, Noble Corporation from 2003 to 2020, Enlink Midstream from 2014 to 2018, Midstates Petroleum from 2010 to 2013 and U. S. Concrete from 2003 to 2010. Beginning in 1982, Ms. Ricciardello enjoyed a distinguished, two- decade career at Reliant Energy Inc. (" Reliant ") and its predecessor, Houston Lighting & Power Company, an electricity generation and retail services company, where she held several roles of increasing responsibility in the financial services and treasury functions. In 1996, Ms. Ricciardello was appointed as Reliant' s Vice President and Comptroller and she served as its Senior Vice President and Chief Accounting Officer from 1999 until her retirement in 2002. Ms. Ricciardello earned a Bachelor of Science degree in Business Administration from the University of South Dakota and an MBA from the University of Houston. She is also a Texas licensed Certified Public Accountant and earned a CERT Certificate in Cybersecurity from Carnegie Mellon University. We believe that Ms. Ricciardello is well suited to serve as a director based on her accounting and financial expertise and public company board and committee experience. Michele Vion, 65, was appointed to our Board in February 2020. Ms. Vion previously served as Vice President, Human Resources at HighPoint Resources Corporation, a successor to the Bill Barrett Corporation, an oil and gas E & P company, from August 2010 to September 2019. Ms. Vion was previously employed at Level 3 Communications, Inc., an international communications company, starting in 2006 and ultimately as Group Vice President of Human Resources up to January 2010. Ms. Vion also previously served as Vice President of Human Resources for Sun Microsystems, Inc., a computer networking company, for seven years. She also previously held senior human resource and client account management positions at Prudential Financial,**

Inc., an insurance and investment management company and JP Morgan, a global financial services firm. Prior to joining JP Morgan, Ms. Vion served in an accounting position as a Regional Controller for the Eastern Region at Sony Corporation of America. Ms. Vion previously served as Compensation Committee Chair and as a member of the Audit Committee of Boingo Wireless, Inc.' s Board of Directors, roles she held from 2018 until Boingo' s acquisition by Digital Colony Management, LLC in June 2021. Ms. Vion also served on the board and as Chair of the Compensation Committee and as member of the Audit Committee and Nominating and Corporate Governance Committee of Callidus Software Inc., a publicly- traded, cloud- based software company, from 2005 to 2016. Ms. Vion holds a Bachelor of Arts in East Asian Studies and Economics from Wesleyan University, has attended Stanford University' s Director' s College, and participated in the Financial Times' Director Exchange. We believe that Ms. Vion is well suited to serve as a director based on her executive leadership experience in human resources and accounting and public company board and committee experience. Alex V. Volkov, 52, has served as a member of our Board since May 2024. Mr. Volkov is currently Vice President- Commercial & Integration, for ExxonMobil Upstream Unconventional business. Alex joined ExxonMobil in 1997 in Houston, Texas. During his early tenure with the company he has held diverse assignments in the areas of marketing, business development, supply chain logistics, and business strategy development. From 2014 to 2016, Alex was based in Moscow, Russia where he served as Vice President of Exxon Neftegas Limited responsible for ExxonMobil commercial activities in Russia, including natural gas sales and marketing of Sakhalin- 1 gas resources. Alex moved to the United Kingdom in 2016 and he was appointed Vice President, International Gas, ExxonMobil Gas & Power Marketing and Chairman, ExxonMobil Gas Marketing Europe in 2018. In this capacity, he was responsible for ExxonMobil' s natural gas marketing and trading activities in Europe, Russia, Caspian, Malaysia, Thailand, and Australia. In 2019 Alex moved to Houston and was named Vice President, Global LNG Marketing. In this role, he had global responsibility for ExxonMobil' s Liquefied Natural Gas (LNG) portfolio and marketing of LNG for ExxonMobil' s projects and joint ventures. Between 2021 and 2023 Alex served first as Vice President, Commercial & Power and then as Vice President, Strategy and Business Development which included Upstream Acquisitions & Divestment team that was responsible for evaluation and negotiation of ExxonMobil / Pioneer merger announced in October 2023 and after the announcement he served as Transition Executive overseeing the integration of two companies. He assumed his current position in July of 2024. Alex graduated from the University of Nizhni Novgorod, Russia in 1994 and he also holds an MBA from the University of Alabama. Set forth below are the name, age, position and description of the business experience of our executive officers (other than those who are also Directors and included above) as of February 20, 2025. David S. Schorlemer, 57, began serving as a Special Advisor to the Chief Financial Officer on October 12, 2020 until his appointment as Chief Financial Officer on October 23, 2020. Mr. Schorlemer has two decades of experience in senior level positions in public and private companies and has focused on building integrated business systems and support organizations. He most recently served as Executive Vice President, Chief Financial Officer, Treasurer and Secretary of Basic Energy Services, Inc., a Fort Worth, Texas based oilfield services company, from September 2018 until joining the Company. Prior to that, he served as the Chief Financial Officer of Gulf Island Fabrication, Inc. from January 2017 to August 2018. His work history also includes serving as Chief Financial Officer for three oilfield services companies: GR Energy Services Management, LP from January 2016 to December 2016, Stallion Oilfield Holdings, Inc., September 2004 to December 2015 and Q Services, Inc. from July 1997 until its merger with Key Energy Services, Inc. in July 2002. He also held the role of vice president, marketing and strategic planning for Key Energy Services, Inc. from July 2002 to September 2004. Prior to entering the energy services industry, Mr. Schorlemer was a technology consultant and project manager with Accenture' s Technology Practice where he worked on various domestic and international projects with Fortune 500 Companies in industries including: telecommunications, transportation, automotive and manufacturing and oil and gas. Mr. Schorlemer earned his Bachelor of Business Administration degree in finance from The University of Texas, and his Master of Business Administration from Texas A & M University. Adam Muñoz, 42, has served as our President and Chief Operating Officer since August 2021, and prior to that, he served as Chief Operating Officer since January 2021 and served as Senior Vice President of Operations since March 2020. Mr. Muñoz joined the Company in 2010 to initiate ProPetro' s Permian pressure pumping operation. Prior to joining ProPetro, Mr. Muñoz held sales and operations roles at Frac Tech Services and Weatherford International. Since joining ProPetro, Mr. Muñoz has served as the Director of Business Development and Technical Services where he was responsible for overseeing the growth of the hydraulic fracturing operations as well as managing the department' s day- to- day technical services. Mr. Muñoz has most recently served as the Vice President of Frac Services where his duties included leading the hydraulic fracturing division through specific efforts to increase operational efficiencies and maximize financial productivity. Mr. Muñoz received a Bachelor of Business Marketing from The University of Texas at the Permian Basin. John J. " Jody " Mitchell, 42, has served as our General Counsel and Corporate Secretary of the Company since January 2023. Prior to his appointment as General Counsel, Mr. Mitchell served as the Company' s Vice President and Deputy General Counsel since April 2021. Before joining the Company, Mr. Mitchell served in various roles at Concho Resources Inc., a hydrocarbon exploration company acquired by ConocoPhillips in 2021 (" Concho "), from 2014 to 2021, including Director of Marketing and Midstream and, prior to that, Associate General Counsel. Before joining Concho, Mr. Mitchell served as counsel supporting the upstream and midstream businesses at Petrohawk Energy Corporation (" Petrohawk ") and at BHP Billiton following BHP Billiton' s acquisition of Petrohawk. Mr. Mitchell began his career as an associate at Locke Lord Bissell & Liddell LLP, where he concentrated on oil, gas and energy litigation and construction litigation. Mr. Mitchell holds a Bachelor of Arts from the University of Texas and a Juris Doctor from the University of Houston Law Center. Shelby K. Fietz, 43, has served as our Chief Commercial Officer of the Company since November 2023. Mr. Fietz joined ProPetro in 2012, and prior to his appointment as Chief Commercial Officer, Mr. Fietz served as the Company' s Vice President of Commercial, leading the business development, sales, supply chain, and marketing functions. He also previously held the position of Vice President of Business Development, Sales and Marketing, while also leading our supply chain organization. Prior to his appointment as an officer, Mr. Fietz held roles of increasing responsibility within ProPetro in both operations and business development. Mr. Fietz also serves in a leadership capacity with the Permian Basin Chapter of the Energy Workforce and Technology Council. Mr. Fietz holds a Bachelor of Science from Angelo State University. Celina M. Davila, 44, has served as our Chief Accounting Officer since November 2023. Prior to her appointment as Chief Accounting Officer, Ms. Davila served as the Company' s Director of Accounting and Corporate Controller since August 2022 and as Corporate Controller since October 2019. Ms. Davila joined the Company in January 2019 as Hydraulic Fracturing Controller. Prior to joining the Company, Ms. Davila served in various roles at Pioneer, a leading independent natural resources company, from 2012 to 2018, including Accounting Manager and, prior to that, Accounting Supervisor. Ms. Davila began her career as a Senior Auditor at Johnson, Miller, and Co. Ms. Davila is a Certified Public Accountant and holds a Bachelor of Arts in Accounting and a Master in Business Administration degree from Texas Tech University. Item 1A. Risk Factors. The following is a description of significant factors that could cause actual results to differ materially from those contained in forward- looking statements made in this Annual Report and presented elsewhere by management from time to time. Such factors may have a material adverse effect on our business, financial condition and results of operations. It is not possible to predict or identify all such factors. Consequently, you should not consider any such list to be a complete statement of all our potential risks or uncertainties. Due to these, and other factors, past performance should not be considered an indication of future performance. Our business and financial performance depends on the historically cyclical oil and natural gas industry and particularly on the level of capital spending and E & P activity within the United States and in the Permian Basin, and a decline in prices for oil and natural gas may cause fluctuation in operating results or otherwise have an adverse effect on our revenue, cash flows, profitability and growth. Demand for most of our services depends substantially on the level of capital expenditures in the Permian Basin by companies in the oil and natural gas industry. As a result, our operations are dependent on the levels of capital spending and activity in oil and gas exploration, development and production. Demand for our services is largely dependent on oil and natural gas prices, and our customers' well completion budgets and rig count. Prolonged low oil and gas prices would generally depress the level of oil and natural gas exploration, development, production, and well completion activity and would result in a corresponding decline in the demand for the completion services that we provide. Historically, oil prices and markets have been extremely volatile. Prices are affected by many factors beyond our control. The average WTI oil price per barrel was approximately $ **76, $** 78 ~~,~~ **and** $ 94 ~~and $ 68~~ for the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~, respectively. In 2023, the volatility and overall decline in oil and natural gas prices caused a reduction in our customers' spending and associated drilling and completion activities, which has had and may continue to have an adverse effect on our revenue and cash flows, if the WTI oil price remains highly volatile or declines in the future. Many factors over which we have no control affect the supply of, and demand for our services, and our customers' willingness to explore, develop and produce oil and natural gas, and therefore, influence prices for our services, including: • the actions by the members of OPEC with respect to oil production levels and announcements of potential changes in such levels, including the ability of the OPEC countries to agree on and comply with supply limitations; • the domestic and foreign supply of, and demand for, oil and natural gas; • the level of prices, and expectations about future prices, of oil and natural gas; • the level of global oil and natural gas E & P; • the cost of exploring for, developing, producing and delivering oil and natural gas; • the supply of and demand for drilling and hydraulic fracturing and wireline equipment, including the supply and demand for lower emissions hydraulic fracturing and wireline equipment; • cost increases and supply chain constraints related to our services; • the expected decline in rates of current production; • the price and quantity of foreign imports; • political and economic conditions in oil and natural gas producing countries and regions, including the United States, the Middle East, Africa, South America and Russia; • the actions taken by the United States and other countries on climate change or to transition away from fossil fuels; • the severity and duration of world health events and related economic repercussions; • speculative trading in crude oil and natural gas derivative contracts; • the level of consumer product demand; • the discovery rates of new oil and natural gas reserves; • contractions in the credit market; • the strength or weakness of the U. S. dollar; • available pipeline and other transportation capacity; • the levels of oil and natural gas storage; • weather conditions and other natural disasters; • domestic and foreign tax policy; • domestic and foreign governmental approvals and regulatory requirements and conditions, including tighter emissions standards in the energy industry **and proposed tariffs; • the result of the U. S presidential election** ; • the continued threat of terrorism and the impact of military and other action, including military action in the Middle East; • political or civil unrest in the United States or elsewhere, including the Russia- Ukraine war and the conflict in the Israel- Gaza region and related instability in the Middle East, including from Houthi rebels in Yemen **, and tensions with Iran** ; • technical advances affecting energy consumption; • the proximity and capacity of oil and natural gas pipelines and other transportation facilities; • the price and availability of alternative fuels; • the ability of oil and natural gas producers to

raise equity capital and debt financing; • merger and divestiture activity among oil and natural gas producers; and • overall domestic and global economic conditions. These factors and the volatility of the energy markets make it extremely difficult to predict future oil and natural gas price movements with any certainty. In 2022, Russia launched a large- scale invasion of Ukraine, leading to armed hostilities and imposition of sanctions on Russian economic trades. Since October 2023, an ongoing conflict between Israel and Palestinian militants in the Israel- Gaza region has led to armed hostilities. These events, which have impacted economic activity and disrupted global supply chain dynamics, have contributed to the unpredictable nature of crude oil prices. We derive our revenues from companies in the oil and natural gas E & P industry, a historically cyclical industry with levels of activity that are significantly affected by the levels and volatility of oil and natural gas prices. We have experienced, and may in the future experience, significant fluctuations in operating results as a result of the reactions of our customers to changes in oil and natural gas prices. For example, a decline in oil and gas prices, combined with adverse changes in the capital and credit markets, could cause many E & P companies to significantly reduce their 2020 and 2021 capital budgets and drilling activity. This could result in a significant decline in demand for ~~oilfield~~ **energy** services and could adversely impact the prices ~~oilfield~~ **energy** service companies can charge for their services. These factors have materially and adversely affected our business, results of operations and financial condition. In addition, a majority of the service revenue we earn is based upon a charge for a relatively short period of time (for example, a day, a week or a month) for the actual period of time the service is provided to our customers. By contracting services on a short - term basis, we are exposed to the risks of a rapid reduction in market prices and utilization and resulting volatility in our revenues. Our operations are geographically concentrated in the Permian Basin. For the years ended December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~, approximately 98. **5 %, 98.** 1 % ~~,~~ **and** 98. 3 ~~% and 98. 7~~ %, respectively, of our revenues were attributable to our operations in the Permian Basin. As a result of this concentration, we may be disproportionately exposed to the impact of regional supply and demand factors, delays or interruptions of production from wells in the Permian Basin caused by significant governmental regulation, processing or transportation capacity constraints, market limitations, curtailment of production or interruption of the processing or transportation of oil and natural gas produced from the wells in these areas. In addition, the effect of fluctuations on supply and demand may become more pronounced within specific geographic oil and natural gas producing areas such as the Permian Basin, which may cause these conditions to occur with greater frequency or magnify the effects of these conditions. Due to the concentrated nature of our operations, we could experience any of the same conditions at the same time, resulting in a relatively greater impact on our revenue than they might have on other companies that have more geographically diverse operations. ~~In August 2022, the president signed the IRA 2022 into law.~~ The IRA 2022 **, signed into law in August 2022,** provides for hundreds of billions of dollars in incentives for the development of renewable energy, clean hydrogen, clean fuels, electric vehicles and supporting infrastructure and carbon capture and sequestration, amongst other provisions. **If not modified, repealed or revoked by the current administration,** ~~These~~ **these** incentives could further accelerate the transition of the economy away from the use of fossil fuels towards lower- or zero- carbon emissions alternatives, which could decrease demand for oil and gas and consequently adversely affect the business of our customers, thereby reducing demand for our services. In addition, the IRA 2022 imposes the first ever federal fee on the emission of GHG through a methane emissions charge. The IRA 2022 amends the federal CAA to impose a fee on the emission of methane from sources required to report their GHG emissions to the EPA, including those sources in the offshore and onshore petroleum and natural gas production and gathering and boosting source categories. The methane emissions charge **began** ~~will start~~ in calendar year 2024 at $ 900 per ton of methane, ~~increase~~ **increased** to $ 1, 200 in 2025, and **will** be set at $ 1, 500 for 2026 and each year after. Calculation of the fee is based on certain thresholds established in the IRA 2022. ~~The~~ **We cannot predict whether how or when the current administration might take action to revise or repeal the** methane emissions charge **. Additionally, Congress may take actions to repeal or revise the IRA 2022, including with respect to the methane emissions charge, which timing or outcome similarly cannot be predicted. To the extent that the methane emissions charge is implemented as originally promulgated, it** could increase our customers' operating costs and adversely affect their businesses, thereby reducing demand for our services. A prolonged economic slowdown or recession in the United States, adverse events relating to the energy industry or regional, national and global economic conditions and factors, particularly a further slowdown in the E & P industry, could negatively impact our operations and therefore adversely affect our results. The risks associated with our business are more acute during periods of economic slowdown or recession because such periods may be accompanied by decreased exploration and development spending by our customers, decreased demand for oil and natural gas and decreased prices for oil and natural gas. New technology may cause us to become less competitive. The ~~oilfield~~ **energy** service industry is subject to the introduction of new drilling and completion techniques and services using new technologies **including artificial intelligence** , some of which may be subject to patent or other intellectual property protections. As competitors and others use or develop new or comparable technologies in the future, we may lose market share or be placed at a competitive disadvantage. The transition to lower emissions equipment is capital intensive and could require us to convert all our conventional Tier II equipment to lower emissions equipment. If we are unable to quickly transition to lower emissions equipment, the demand for our services could be adversely impacted. For example, many E & P companies, including our customers, are transitioning to a lower emissions operating environment and may require us to invest in equipment with lower emissions profiles. Further, we may face competitive pressure to develop, implement or acquire and deploy certain technology improvements at a substantial cost, such as our ~~FORCESM~~ **FORCE ®** electric- powered hydraulic fracturing fleets deployed in 2023, or the cost of implementing or purchasing a technology like ~~FORCESM~~ **FORCE ®** may be substantially higher than anticipated, and we may not be able to successfully implement the technologies we may purchase. In ~~2022~~ **2024** , we recorded **a property** ~~an~~ **and equipment** impairment **charge of $ 188. 6 million on our conventional Tier II diesel- only hydraulic fracturing pumping units and associated conventional assets, (the" Tier II Units") because we determined that the marketability of our Tier II Units had declined due to decreasing customer demand for and related pricing pressures on such equipment, among other factors. In 2022, we recorded a property and equipment impairment charge** of $ 57. 5 million on our DuraStim ® electric- powered equipment because they did not meet our expectations. Some of our competitors have greater financial, technical and personnel resources that may allow them to enjoy technological advantages and develop and implement new products on a timely basis or at an acceptable cost. We cannot be certain that we will be able to develop and implement new technologies or products on a timely basis or at an acceptable cost. Limits on our ability to develop, effectively use and implement new and emerging technologies could have a material adverse effect on our business, financial condition, prospects or results of operations. The ~~oilfield~~ **energy** service industry is capital intensive. In conducting our business and operations, we have made, and expect to continue to make, substantial capital expenditures. Our total capital expenditures incurred were approximately $ **133. 4 million, $** 310. 0 million ~~,~~ **and** $ 365. 3 ~~million and $ 165. 2~~ million during the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~. We have historically financed capital expenditures primarily with funding from cash on hand, cash flow from operations, equipment and vendor financing and borrowings under our credit facility. We may be unable to generate sufficient cash from operations and other capital resources to maintain planned or future levels of capital expenditures which, among other things, may prevent us from acquiring new equipment (including equipment with a lower emissions profile) or properly maintaining our existing equipment. Any disruptions or volatility in the global financial markets may lead to an increase in interest rates or a contraction in credit availability impacting our ability to finance our operations. Our ~~borrowing~~ **Borrowing** ~~base~~ **Base (as defined below)** was $ ~~152~~ **164** . ~~0~~ **1** million as of December 31, ~~2023~~ **2024** . If our customer activity levels decline in the future resulting in a decrease in our eligible accounts receivable, our ~~borrowing~~ **Borrowing** ~~base~~ **Base** could decline. This could put us at a competitive disadvantage or interfere with our growth plans. Further, our actual capital expenditures could exceed our capital expenditure budget. In the event our capital expenditure requirements at any time are greater than the amount of liquidity we have available, we could be required to seek additional sources of capital, which may include debt financing, joint venture partnerships, sales of assets, offerings of debt or equity securities or other means. We may not be able to obtain any such alternative source of capital. We may be required to curtail or eliminate contemplated activities. If we can obtain alternative sources of capital, the terms of such alternative may not be favorable to us. In particular, the terms of any debt financing may include covenants that significantly restrict our operations. Our inability to grow as planned may reduce our chances of maintaining and improving profitability. Concerns over ~~general economic, business or industry conditions may have a material adverse effect on our results of operations, liquidity and financial condition. Concerns over~~ global economic conditions, geopolitical issues (including the Russia- Ukraine war and conflicts in the ~~Israel- Gaza region~~ **Middle East, including tensions with Iran**), public health crises, interest rates, inflation, the availability and cost of credit in the United States ~~and ,~~ foreign financial markets **and potential changes in U. S trade policy, including the imposition of tariffs and the resulting consequences** have contributed to increased economic uncertainty and diminished expectations for the global economy. These factors, combined with volatility in commodity prices, business and consumer confidence and unemployment rates, could precipitate an economic slowdown. Concerns about global economic growth have had a significant adverse impact on global financial markets and commodity prices. **In addition, there is currently significant uncertainty about the future relationship between the United States and various other countries, including changes arising as a result of the current presidential administration, with respect to trade policies, treaties, tariffs, taxes, and other limitations on cross- border operations.** The historically unpredictable nature of oil and natural gas prices, and particularly the volatility over the past two years have caused a reduction in our customers' spending and associated drilling and completion activities, which had and may continue to have an adverse effect on our revenue and cash flows. If the economic climate in the United States or abroad deteriorates or remains uncertain, worldwide demand for petroleum products could diminish, which could impact the price at which oil, natural gas and natural gas liquids can be sold, which could affect the ability of our customers to continue operations and adversely impact our results of operations, liquidity and ~~financial condition. Our indebtedness and liquidity needs could restrict our operations and adversely affect our~~ financial condition. Our business is capital intensive and our existing and future indebtedness, whether incurred in connection with acquisitions, operations or otherwise, may adversely affect our operations and limit our growth, and we may have difficulty making debt service payments on such indebtedness as payments become due. Our level of indebtedness may affect our operations in several ways, including the following: • increasing our vulnerability to general adverse economic and industry conditions; • the covenants that are contained in the agreements governing our indebtedness could limit our ability to borrow funds, dispose of assets, pay dividends and make certain investments; • our debt covenants could also affect our flexibility in planning for, and reacting to, changes in the economy and in our industry; • any failure to comply with the financial or other debt covenants, including covenants that impose requirements to maintain certain financial ratios, could result in an event of default, which could result in some or all of our indebtedness becoming immediately due and payable; • our level of debt could impair our ability to obtain additional financing, or obtain additional financing on favorable terms in the future for working capital, capital expenditures, research and development efforts, potential strategic acquisitions or other general corporate purposes; • placing us at a competitive disadvantage relative to competitors that have less debt; and • our business may not generate sufficient cash flow from operations to

enable us to meet our obligations under our indebtedness. Furthermore, interest rates on future indebtedness could be higher than current levels, causing our financing costs to increase accordingly. Changes in interest rates, either positive or negative, may affect the yield requirements of investors who invest in our shares, and a rising interest rate environment could have an adverse impact on the price of our shares, our ability to issue equity or incur debt. Restrictions in our ABL Credit Facility and any future financing agreements may limit our ability to finance future operations or capital needs or capitalize on potential acquisitions and other business opportunities. The operating and financial restrictions and covenants in our credit facility and any future financing agreements could restrict our ability to finance future operations or capital needs or to expand or pursue our business activities. For example, our ABL Credit Facility restricts or limits our ability to: • grant liens; • incur additional indebtedness; • engage in a merger, consolidation or dissolution; • enter into transactions with affiliates; • sell or otherwise dispose of assets, businesses and operations; • materially alter the character of our business as currently conducted; and • make acquisitions, investments and capital expenditures. Furthermore, our ABL Credit Facility contains certain other operating and financial covenants. Our ability to comply with the covenants and restrictions contained in the ABL Credit Facility may be affected by events beyond our control, including prevailing economic, financial and industry conditions. If market or other economic conditions deteriorate, our ability to comply with these covenants may be impaired. If we violate any of the restrictions, covenants, ratios or tests in our ABL Credit Facility, a significant portion of our indebtedness may become immediately due and payable and our lenders' commitment to make further loans to us may terminate. Further, our borrowing base, as redetermined monthly, has a borrowing base of the sum of 85. 0 % to 90. 0 % of eligible accounts receivable and 80 % of eligible unbilled accounts (up to a maximum of 25 % of the borrowing base), in each case, depending on the credit ratings of our accounts receivable counterparties, less customary reserves (the " Borrowing Base "). Changes to our operational activity levels or customer concentration levels have an impact on our total eligible accounts receivable, which could result in significant changes to our borrowing base and therefore our availability under our ABL Credit Facility. If our customer activity declines in the future, our borrowing base could decline. If our borrowing base is reduced below the amount of our outstanding borrowings, we will be required to repay the excess borrowings immediately on demand by the lenders. We might not have, or be able to obtain, sufficient funds to make these accelerated payments. Any subsequent replacement of our ABL Credit Facility or any new indebtedness could have similar or greater restrictions. Please read ~~"~~ **“** Management' s Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources — Credit Facility and Other Financing Arrangements. ~~"~~ **”** We may record losses or impairment charges related to goodwill and long- lived assets including intangible assets. Changes in future market conditions and prolonged periods of low utilization, changes in technology or the sale of assets below their carrying value may cause us to experience losses in our results of operations. These events could result in the recognition of impairment charges or losses from asset sales that negatively impact our financial results. Significant impairment charges or losses from asset sales as a result of a decline in market conditions or otherwise could have a material adverse effect on our results of operations in future periods. For example, in ~~2021~~ **2024**, we recorded ~~loss on disposal~~ **property and equipment impairment charges** of ~~asset~~ $ ~~3~~ **188**. ~~5~~ **6** million in connection with ~~the sale of~~ our ~~two turbines~~ **Tier II Units and $ 23. 6 million in connection with the goodwill in our wireline operating segment**. In 2022, we recorded **property and equipment** impairment charges of $ 57. 5 million in connection with our DuraStim ® electric powered hydraulic fracturing equipment. If oil and natural gas prices trade at depressed price levels, and our equipment remains idle or under- utilized, the estimated fair value of such equipment may decline, which will result in additional impairment expense in the future. Our operations are exposed to the risks inherent to our industry, such as equipment defects, vehicle accidents, worksite injuries to our or third- party personnel, fires, explosions, blowouts, surface cratering, uncontrollable flows of gas or well fluids, pipe or pipeline failures, abnormally pressured formations and various environmental hazards, such as oil spills and releases of, and exposure to, hazardous substances. For example, our operations are subject to risks associated with hydraulic fracturing, including any mishandling, surface spillage or potential underground migration of fracturing fluids, including hydrochloric acid and other chemical additives. In addition, our operations are exposed to potential natural disasters, including blizzards, tornadoes, storms, floods, other adverse weather conditions and earthquakes. The occurrence of any of these events could result in substantial losses to us due to injury or loss of life, severe damage to or destruction of property, natural resources and equipment, pollution or other environmental damage, cleanup responsibilities, regulatory investigations and penalties or other damage resulting in curtailment or suspension of our operations or the loss of customers **. For example, in January 2025, we experienced an accident at a customer site that resulted in one fatality and injured two others, which temporarily halted operations and is subject to routine investigation by OSHA**. The cost of managing such risks may be significant. The frequency and severity of such incidents will affect operating costs, insurability and relationships with customers, employees and regulators. In particular, our customers may elect not to purchase our services if they view our environmental or safety record as unacceptable, which could cause us to lose customers and substantial revenues. Our insurance may not be adequate to cover all losses or liabilities we may suffer. We are also self- insured up to $ 10 million per occurrence for certain losses arising from or attributable to fire and / or explosion at wellsites that do not have qualified fire suppression measures. Furthermore, we may be unable to maintain or obtain insurance of the type and amount we desire at reasonable rates. As a result of market conditions, premiums and deductibles for certain of our insurance policies have increased and could escalate further. In addition, sub - limits have been imposed for certain risks. In some instances, certain insurance could become unavailable or available only for reduced amounts of coverage. If we were to incur a significant liability for which we are not fully insured, it could have a material adverse effect on our business, results of operations and financial condition. In addition, we may not be able to secure additional insurance or bonding that might be required by new governmental regulations. This may cause us to restrict our operations, which might severely impact our financial position. Since hydraulic fracturing activities are part of our operations, they are covered by our insurance against claims made for bodily injury, property damage and cleanup costs stemming from a sudden and accidental pollution event. However, we may not have coverage if we are unaware of the pollution event and unable to report the" occurrence" to our insurance company within the time frame required under our insurance policy. In addition, these policies do not provide coverage for all liabilities, and the insurance coverage may not be adequate to cover claims that may arise, or we may not be able to maintain adequate insurance at rates we consider reasonable. A loss not fully covered by insurance could have a material adverse effect on our financial position, results of operations and cash flows. ~~A~~ **Terrorist activities, anti -** terrorist ~~attack~~ **efforts**, **other** armed ~~conflict~~ **conflicts** ~~or~~ **and** political or civil unrest ~~could harm our business. Terrorist activities, anti - terrorist efforts, other armed conflicts and political or civil unrest~~, including the Russia- Ukraine war and conflicts in the **Middle East** ~~Israel- Gaza region~~, could adversely affect the U. S. and global economies and could prevent us from meeting financial and other obligations. We could experience loss of business, delays or defaults in payments from payors or disruptions of fuel supplies and markets if pipelines, production facilities, processing plants, refineries or transportation facilities are direct targets or indirect casualties of an act of terror or war. Such activities could reduce the overall demand for oil and natural gas, which, in turn, could also reduce the demand for our services. Terrorist activities, the threat of potential terrorist activities, political or civil unrest and any resulting economic downturn could adversely affect our results of operations, impair our ability to raise capital or otherwise adversely impact our ability to realize certain business strategies. We may be subject to claims for personal injury and property damage, which could materially adversely affect our financial condition and results of operations. We operate with most of our customers under master service agreements (~~"~~ **“** MSAs ~~"~~ **”**). We endeavor to allocate potential liabilities and risks between the parties in the MSAs. Generally, under our MSAs, including those relating to our hydraulic fracturing services, we assume responsibility for, including control and removal of, pollution or contamination which originates above surface and originates from our equipment or services. Our customer assumes responsibility for, including control and removal of, all other pollution or contamination which may occur during operations, including that which may result from seepage or any other uncontrolled flow of drilling fluids. We may have liability in such cases if we are negligent or commit willful acts. Generally, our customers also agree to indemnify us against claims arising from their employees' personal injury or death to the extent that, in the case of our hydraulic fracturing operations, their employees are injured or their properties are damaged by such operations, unless resulting from our gross negligence or willful misconduct. Similarly, we generally agree to indemnify our customers for liabilities arising from personal injury to or death of any of our employees, unless resulting from gross negligence or willful misconduct of the customer. In addition, our customers generally agree to indemnify us for loss or destruction of customer - owned property or equipment and in turn, we agree to indemnify our customers for loss or destruction of property or equipment we own. Losses due to catastrophic events, such as blowouts, are generally the responsibility of the customer. However, despite this general allocation of risk, we might not succeed in enforcing such contractual allocation, might incur an unforeseen liability falling outside the scope of such allocation or may be required to enter into an MSA with terms that vary from the above allocations of risk. Litigation arising from a catastrophic occurrence at a location where our equipment and services are being used may result in us being named as a defendant in lawsuits asserting large claims. As a result, we may incur substantial losses which could materially and adversely affect our financial condition and results of operation. The oil and natural gas industry has become increasingly dependent on digital technologies to conduct certain processing activities. For example, we depend on digital technologies to perform many of our services and process and record operational and accounting data. At the same time, cyber incidents, including deliberate attacks or unintentional events, have increased. The frequency and magnitude of cybersecurity attacks is increasing and attackers have become more sophisticated. Cybersecurity attacks are similarly evolving and include without limitation use of malicious software, surveillance, credential stuffing, spear phishing, social engineering, use of deepfakes (i. e., highly realistic synthetic media generated by artificial intelligence), attempts to gain unauthorized access to data, and other electronic security breaches that could lead to disruptions in critical systems, unauthorized release of confidential or otherwise protected information and corruption of data. We may be unable to anticipate, detect or prevent future attacks, particularly as the methodologies used by attackers change frequently or are not identifiable until deployed. We may also be unable to investigate or remediate incidents as attackers are increasingly using techniques and tools designed to circumvent controls, to avoid detection, and to remove or obfuscate forensic evidence. The U. S. government has issued public warnings indicating that energy assets might be specific targets of cyber security threats. Our technologies, systems and networks, and those of our vendors, suppliers and other business partners, may become the target of cyberattacks or information security breaches that could result in the unauthorized release, gathering, monitoring, misuse, loss or destruction of proprietary information, personal information and other data, or other disruption of our business operations. In addition, certain cyber incidents, such as unauthorized surveillance, may remain undetected for an extended period. Our systems and insurance coverage (if any) for protecting against cyber security risks, including cyberattacks, may not be sufficient and may not protect against or cover all of the losses (including potential reputational loss) we may experience as a result of the realization of such risks. As cyber incidents continue to evolve, we may be required to expend additional resources to continue to modify or enhance our protective measures or to investigate and remediate the effects of cyber incidents. We utilize technologies, controls and procedures, as well as internal staff and external service providers to protect our systems and data, to identify and

remediate vulnerabilities and to monitor and respond to threats. However, there can be no assurance that such measures will be sufficient to prevent security breaches from occurring. No security measure is infallible. If we or the third parties with whom we interact were to experience a successful attack, the potential consequences to our business, workforce and the communities in which we operate could be significant, including financial losses, regulatory fines, loss of business, an inability to settle transactions or maintain operations, litigation costs, remediation costs, disruptions related to investigation, and significant damage to our reputation. We **may grow through acquisitions and / or internal expansions, and our failure to properly plan and manage such growth may adversely affect our performance. We** have completed and may in the future pursue, asset acquisitions or acquisitions of businesses. **We have internally expanded and may in the future expand into new lines of business.** Any acquisition of assets or businesses **, or expansion into new lines of business** involves potential risks, including the failure to realize expected profitability, growth or accretion; environmental or regulatory compliance matters or liability; title or permit issues; the incurrence of significant charges, such as impairment of goodwill, property and equipment or intangible assets or restructuring charges; and the incurrence of unanticipated liabilities and costs for which indemnification is unavailable or inadequate. The process of upgrading acquired assets to our specifications and integrating acquired assets or businesses may also involve unforeseen costs and delays or other operational, technical and financial difficulties and may require a significant amount of time and resources and may divert management' s attention from existing operations or other priorities. For example, in ~~2023~~ **2024** , we acquired the assets and operations of **AquaProp** ~~Par Five~~ , and we are in the process of fully integrating all parts of the acquired business into our operations. **In late 2024, we also started a new line of business to provide power generation services to oil and gas producers and non- oil and gas applications such as general industrial projects and data centers. This new line of business has not begun any revenue- generating activities yet.** We must plan and manage any acquisitions **and expansions** effectively to achieve revenue growth and maintain profitability in our evolving market. Any failure to manage acquisitions **and expansions** effectively or integrate acquired assets or businesses into our existing operations successfully, or to realize the expected benefits from an acquisition or minimize any unforeseen operational difficulties, could have a material adverse effect on our business, financial condition, prospects or results of operations. The U. S. inflation rate steadily increased in 2021 and 2022 before decreasing to a moderate level in 2023 **through 2024** . Inflation in wages, materials, parts, equipment and other costs has the potential to adversely affect our results of operations, cash flows and financial position by increasing our overall cost structure, particularly if we are unable to achieve commensurate increases in the prices we charge our customers for our products and services. In addition, the existence of inflation in the economy has the potential to result in higher interest rates, which could result in higher borrowing costs, supply shortages, increased costs of labor, weakening exchange rates and other similar effects. Sustained levels of high inflation have likewise caused the U. S. Federal Reserve and other central banks to increase interest rates ~~multiple times~~ in 2023 **followed by decreases in 2024,** and the U. S. Federal Reserve may **maintain high** ~~continue to raise~~ benchmark interest rates into ~~2024~~ **2025** in an effort to curb inflationary pressure on the costs of goods and services across the U. S., which could have the effects of raising the cost of capital and depressing economic growth, either of which — or the combination thereof — could hurt the financial and operating results of our business. To the extent elevated inflation remains **, and as a result potential changes in U. S trade policy, including the imposition of tariffs and the resulting consequences** , we may experience further cost increases for our operations, including labor costs and equipment. We cannot predict any future trends in the rate of inflation and a significant increase in inflation, to the extent we are unable to timely pass- through the cost increases to our customers, would negatively impact our business, financial condition and results of operations. ~~Adverse developments affecting the financial services industry, such as events or concerns involving liquidity, defaults or non- performance by financial institutions or transactional counterparties, could adversely affect the Company' s current and projected business operations and its financial condition and results of operations. Events involving limited liquidity, defaults, non- performance or other adverse developments that affect financial institutions, transactional counterparties or other companies in the financial services industry or the financial services industry generally, concerns or rumors about such events or other similar risks, have in the past and may in the future lead to acute or market- wide liquidity problems. In addition, if any of the Company' s customers, suppliers or other business counterparties are unable to access funds held by such a financial institution, such parties' ability to pay their obligations to the Company or to enter into new commercial arrangements requiring additional payments to the Company could be adversely affected. Inflation and rapid increases in interest rates have led to a decline in the trading value of previously issued government securities with interest rates below current market interest rates. Although the U. S. Department of Treasury, Federal Deposit Insurance Corporation (" FDIC") and Federal Reserve Board have announced a program to mitigate the risk of potential losses on the sale of such instruments, widespread demands for customer withdrawals or other needs of financial institutions for immediate liquidity may exceed the capacity of such program. Additionally, the Company maintains cash balances at third- party financial institutions in excess of the FDIC standard insurance limits, and there is no guarantee that the U. S. Department of Treasury, FDIC and Federal Reserve Board will provide access to uninsured funds in the future in the event of the closure of such banks or financial institutions, or that they would do so in a timely fashion. Access to funding sources and other credit arrangements in amounts adequate to finance the Company' s business operations could be significantly impaired by the foregoing factors that affect the Company, any financial institutions with which the Company enters into credit agreements or arrangements directly, or the financial services industry or economy in general. These factors could include, among others, events such as liquidity constraints or failures, the ability to perform obligations under various types of financial, credit or liquidity agreements or arrangements, disruptions or instability in the financial services industry or financial markets, or concerns or negative expectations about the prospects for companies in the financial services industry. The results of events or concerns that involve one or more of these factors could include a variety of material and adverse impacts on the Company' s current and projected business operations and the Company' s financial condition and results of operations. These risks include, but may not be limited to, the following: • delayed access to deposits or other financial assets or the uninsured loss of deposits or other financial assets; • inability to enter into credit facilities or other working capital resources; • potential or actual breach of contractual obligations that require the Company to maintain letters of credit or other credit support arrangements; or • termination of cash management arrangements and / or delays in accessing or actual loss of funds subject to cash management arrangements. In addition, investor concerns regarding the U. S. or international financial systems could result in less favorable commercial financing terms, including higher interest rates or costs and tighter financial and operating covenants, or systemic limitations on access to credit and liquidity sources, thereby making it more difficult for the Company to acquire financing on acceptable terms or at all. Any decline in available funding or access to cash and liquidity resources could, among other risks, adversely impact the Company' s ability to meet operating expenses or other obligations, financial or otherwise, result in breaches of the Company' s financial and / or contractual obligations, or result in violations of federal or state wage and hour laws. In addition, any further deterioration in the macroeconomic economy or financial services industry could lead to losses or defaults by the Company' s customers, vendors or suppliers. Any of these impacts, or any other impacts resulting from the factors described above or other related or similar factors, could have material adverse impacts on the Company' s liquidity and their current and / or projected business operations and financial condition and results of operations.~~ The majority of our revenue is generated from our hydraulic fracturing services. Due to the large percentage of our revenue historically derived from our hydraulic fracturing services with recurring customers and the limited availability of our fracturing units, we have had some degree of customer concentration. Our top ten customers represented approximately **75. 3 %,** 85. 5 % ~~,~~ **and** 91. 2 ~~% and 91. 4~~ % of our consolidated revenue for the years ended December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~ , respectively. It is likely that we will depend on a relatively small number of customers for a significant portion of our revenue in the future. If a major customer fails to pay us, revenue would be impacted and our operating results and financial condition could be harmed. Additionally, if we were to lose any material customer, we may not be able to redeploy our equipment at similar utilization or pricing levels and such loss could have an adverse effect on our business until the equipment is redeployed at similar utilization or pricing levels. ~~Endeavor Energy Resources and~~ XTO Energy **, Permian Resources and EOG Resources** accounted for 19. 7 % ~~and 18~~ **, 14** . ~~2~~ **9 % and 10. 6** %, respectively, of our revenue for the year ended December 31, ~~2023~~ **2024** . If either of these customers were to significantly reduce or discontinue our services, it could have a material adverse effect on our financial condition, results of operations and cash flows. There have been many recent mergers and acquisitions in the oil and gas industry. In ~~October~~ **May** ~~2023~~ **2024** , Pioneer ~~entered~~ **merged with and** into a ~~merger agreement with Exxon Mobil Corporation~~ **wholly owned subsidiary of ExxonMobil. The Company currently provides pressure pumping, wireline and other services to ExxonMobil and previously provided such services to Pioneer** . Mergers and acquisitions involving our customers could negatively impact our future business with them or positively impact our business by providing us access to potential new customers. ~~We face significant competition that may cause us to lose market share, and competition in our industry has intensified during the industry downturn.~~ The ~~oilfield~~ **energy** service industry is highly competitive and has relatively few barriers to entry. The principal competitive factors impacting sales of our services are price, reputation and technical expertise, equipment and service quality and health and safety standards. The market is also fragmented and includes numerous small companies capable of competing effectively in our markets on a local basis, as well as several large companies that possess substantially greater financial and other resources than we do. Our larger competitors' greater resources could allow those competitors to compete more effectively than we can. For instance, our larger competitors may offer services at below - market prices or bundle ancillary services at no additional cost to our customers. We compete with large national and multi - national companies that have longer operating histories, greater financial, technical and other resources and greater name recognition than we do. Several of our competitors provide a broader array of services and have a stronger presence in more geographic markets. In addition, we compete with several smaller companies capable of competing effectively on a regional or local basis. Some jobs are awarded on a bid basis, which further increases competition based on price. Pricing is often the primary factor in determining which qualified contractor is awarded a job. The competitive environment may be further intensified by tighter emissions standards in the energy industry and mergers and acquisitions among oil and natural gas companies or other events that have the effect of reducing the number of available customers. As a result of competition, we may lose customers or customer work and lose market share or be unable to maintain or increase prices for our present services or to acquire additional business opportunities, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. Our competitors may be able to respond more quickly to new or emerging technologies and services and changes in customer requirements. The amount of equipment available may exceed demand, which could result in active price competition. In addition, some E & P companies have commenced completing their wells using their own hydraulic fracturing equipment and personnel. Any increase in the development and utilization of in - house fracturing capabilities by our customers could decrease the demand for our services and have a material adverse impact on our business. Pressure on pricing for our services resulting from the industry downturn has impacted, and may continue to impact, our ability to maintain utilization and pricing for our services or implement price increases. During periods of declining pricing for our services, we may not be able to reduce our costs accordingly, which could further

adversely affect our results of operations. Also, we may not be able to successfully increase prices without adversely affecting our utilization levels. The inability to maintain our utilization and pricing levels, or to increase our prices as costs increase, could have a material adverse effect on our business, financial condition and results of operations. Furthermore, competition among ~~oilfield~~ **energy** service and equipment providers is affected by each provider' s reputation for safety and quality. We cannot assure that we will be able to maintain our competitive position. We are exposed to the credit risk of our customers, and any material nonpayment or nonperformance by our customers could adversely affect our business, results of operations and financial condition. We are subject to the risk of loss resulting from nonpayment or nonperformance by our customers. Our credit procedures and policies may not be adequate to fully eliminate customer credit risk. If we fail to adequately assess the creditworthiness of existing or future customers or unanticipated deterioration in their creditworthiness, any resulting increase in nonpayment or nonperformance by them and our inability to re - market or otherwise use the production could have a material adverse effect on our business, results of operations and financial condition. In weak economic environments, we may experience increased delays and failures to pay due to, among other reasons, a reduction in our customers' cash flow from operations and their access to the credit markets or other sources of capital. The unpredictable nature of oil and gas prices in recent years and other factors may have negatively impacted the financial condition and liquidity of some of our customers, and future declines or continued volatility could impact their ability to meet their financial obligations to us. If our customers delay paying or fail to pay us a significant amount of our outstanding receivables, it could have a material adverse effect on our liquidity, results of operations, and financial condition. We purchase specialized equipment, parts and raw materials (including, for example **, power generation equipment** , frac sand, chemicals and fluid ends) from third party suppliers and affiliates. In some cases, our customers are responsible for supplying necessary raw materials (including frac sand), parts and / or equipment. At times during the business cycle, there is a high demand for hydraulic fracturing and other ~~oilfield~~ **energy** services and extended lead times to obtain equipment and raw materials needed to provide these services. For example, in 2021 and 2022, there was significant disruption in supply chains around the world caused by the COVID- 19 pandemic that impacted our operations. Should our current suppliers (or our customers' suppliers where applicable) be unable or unwilling to provide the necessary equipment, parts or raw materials or otherwise fail to deliver the products timely and / or in the quantities required, any resulting delays in the provision of our services could have a material adverse effect on our business, financial condition, results of operations and cash flows. In addition, future price increases for this type of equipment, parts and raw materials could negatively impact our ability to purchase new equipment, to update or expand our existing fleets, to timely repair equipment in our existing fleets or meet the current demands of our customers. We may be required to pay fees to certain of our Sand Suppliers based on minimum volumes under long- term contracts regardless of actual volumes received. We enter into purchase agreements with the Sand Suppliers to secure supply of sand in the normal course of our business. The agreements with the Sand Suppliers require that we purchase minimum volume of sand, based primarily on a certain percentage of our sand requirements from our customers or in certain situations based on predetermined fixed minimum volumes, otherwise certain penalties (shortfall fees) may be charged. The shortfall fee represents liquidated damages and is either a fixed percentage of the purchase price for the minimum volumes or a fixed price per ton of unpurchased volumes. Our current agreements with Sand Suppliers expire at different times prior to December 31, 2025. Disruption of our supply chain could adversely impact our ability to provide our services. Our suppliers use multiple forms of transportation to bring their products to market, including truck, ocean and air- cargo shipments. Disruption to the timely supply of raw materials, parts and finished goods or increases in the cost of transportation services, including due to general inflationary pressures, cost of fuel and labor, labor disputes, governmental regulation or governmental restrictions limiting specific forms of transportation, could have an adverse effect on our ability to provide our services, which would adversely affect our results of operations, cash flows and financial position. Many key responsibilities within our business have been assigned to a small number of employees. The loss of their services could adversely affect our business. In particular, the loss of the services of one or more members of our executive team, such as our Chief Executive Officer, President and Chief Operating Officer, Chief Financial Officer, Chief Accounting Officer, Chief Commercial Officer and General Counsel could disrupt our operations. We do not maintain **" "** key person **" "** life insurance policies on any of our employees. As a result, we are not insured against any losses resulting from the death of our key employees. The delivery of our services requires skilled and qualified workers with specialized skills and experience who can perform physically demanding work. As a result of the volatility of the ~~oilfield~~ **energy** service industry and the demanding nature of the work, workers may choose to pursue employment in fields that offer a less challenging work environment at wage rates that are competitive. Our ability to be productive and profitable will depend upon our ability to employ and retain skilled workers. In addition, our ability to expand our operations depends in part on our ability to increase the size of our skilled workers. As a result of the physical nature of our operations, we have experienced difficulties in attracting and retaining skilled workers. If demand for our services increases, we may experience difficulty in hiring or re- hiring skilled and unskilled workers in the future to meet that demand. At times, the demand for skilled workers in our geographic areas of operations is high, and the supply is limited. As a result, competition for experienced ~~oilfield~~ **energy** service personnel is intense, and we face significant challenges in competing for crews and management with large and well - established competitors. A significant increase in the wages paid by competing employers could result in a reduction of our skilled labor force, increases in the wage rates that we must pay, or both. Furthermore, if we are unable to adjust wages to account for rapidly rising inflationary cost, there could be a reduction in the available skilled labor force we could attract or retain. If any of these events were to occur, our capacity and profitability could be diminished and our growth potential could be impaired. The nature of our operations, including the handling, storing, transporting and disposing of a variety of fluids and substances, including hydraulic fracturing fluids, which can contain substances such as hydrochloric acid, and other regulated substances, air emissions and wastewater discharges exposes us to some risks of environmental liability, including the release of pollutants from oil and natural gas wells and associated equipment to the environment. The cost of compliance with these laws can be significant. Failure to properly handle, transport or dispose of these materials or otherwise conduct our operations in accordance with these and other environmental laws could expose us to substantial liability for administrative, civil and criminal penalties, cleanup and site restoration costs and liability associated with releases of such materials, damages to natural resources and other damages, as well as potentially impair our ability to conduct our operations. Such liability is commonly on a strict, joint and several liability basis, without regard to fault. Liability may be imposed as a result of our conduct that was lawful at the time it occurred or the conduct of, or conditions caused by, prior operators or other third parties. Neighboring landowners and other third parties may file claims against us for personal injury or property damage allegedly caused by the release of pollutants into the environment. Environmental laws and regulations have changed in the past, and they may change in the future and become more stringent. For example, the **prior administration** ~~current government has~~ made climate change a focus of its administration. For more information, see our risk factor titled, " Our and our customers' operations are subject to a series of risks arising out of the threat of climate change that could result in increased operating costs, limit the areas in which oil and natural gas production may occur, and reduce demand for the products and services we provide. " Separately, current and future claims and liabilities may have a material adverse effect on us because of potential adverse outcomes, defense costs, diversion of management resources, unavailability of insurance coverage and other factors. The ultimate costs of these liabilities are difficult to determine and may exceed any reserves we may have established. If existing environmental requirements or enforcement policies change, we may be required to make significant unanticipated capital and operating expenditures. ~~The threat of~~ **Numerous proposals regarding** climate change ~~continues to attract considerable attention in the United States and in foreign countries. Numerous proposals~~ have been made and could continue to be made at the international, national, regional and state levels of government to monitor and limit existing emissions of GHGs as well as to restrict or eliminate future GHG emissions. As a result, our operations as well as the operations of our oil and natural gas E & P customers are subject to a series of regulatory, political, litigation, and financial risks associated with the production and processing of fossil fuels and emission of GHGs. In the United States, no comprehensive climate change legislation has been implemented at the federal level, though recently passed laws such as the IRA 2022 advance numerous climate- related objectives. Additionally, following the U. S. Supreme Court finding that GHG emissions constitute a pollutant under the CAA, the EPA has adopted regulations that, among other things, establish construction and operating permit reviews for GHG emissions from certain large stationary sources, require the monitoring and annual reporting of GHG emissions from certain petroleum and natural gas system sources in the United States, implement New Source Performance Standards directing the reduction of certain pollutants from certain new, modified, or reconstructed facilities in the oil and natural gas sector, and together with the DOT, implementing GHG emissions limits on vehicles manufactured for operation in the United States. In ~~September~~ **December** ~~2020~~ **2023** ~~, the government revised prior regulations to rescind certain methane standards and remove the transmission and storage segments from the source category for certain regulations. However, subsequently, the U. S. Congress approved, and the president signed into law, a resolution under the Congressional Review Act to repeal the September 2020 revisions to the methane standards, effectively reinstating the prior standards. Additionally, in November 2021~~ , the EPA finalized a rule that established OOOOb more stringent new source and OOOOc first- time existing source standards of performance for methane and volatile organic compound emissions for oil and gas facilities. Under the final rule, states will have two years to prepare and submit their plans to impose methane emissions controls on existing sources. The presumptive standards under the final rule are generally the same for both new and existing sources, including enhanced leak detection using optical gas imaging and subsequent repair equipment, and reduction of emissions by 95 % through capture and control systems. The rule also revises requirements for fugitive emissions monitoring and repair as well as equipment leaks and the frequency of monitoring surveys, establishes a" super- emitter" response program to timely mitigate emissions events as detected by governmental agencies or qualified third parties, triggering certain investigation and repair requirements, and provides additional options for the use of advanced monitoring to encourage the deployment of innovative technologies to detect and reduce methane emissions. ~~It~~ **However the EPA' s final rule** is ~~likely that~~ **currently being challenged by 23 states and a coalition of industry groups in** ~~these~~ -- **the** ~~requirements~~ **U. S Circuit Court of Appeals for the D. C. Circuit. Additionally, at this time, it remains uncertain as to whether the current administration** will ~~be subject~~ **repeal or modify this rule and the timing with respect** to ~~legal challenge~~ **the same** . **Notwithstanding this,** ~~Failure~~ **failure** to comply with these new methane rules may result in substantial fines and penalties for non- compliance, as well as injunctive relief. Additionally, various states and groups of states have adopted or are considering adopting legislation, regulations or other regulatory initiatives that are focused on such areas such as GHG cap and trade programs, carbon taxes, reporting and tracking programs, and restriction of emissions. At the international level, the United Nations- sponsored Paris Agreement, requires member states to submit non- binding, individually- determined reduction goals known as NDCs every five years after 2020. **The** ~~Following the president' s executive order in January 2021, the~~ United States rejoined the Paris Agreement **in January 2021** and, in April 2021, established a goal of reducing economy- wide net GHG emissions 50- 52 % below 2005 levels by 2030. ~~Additionally~~ **However** , ~~at the 26th Conference of the Parties (" COP26")~~ in **January** ~~Glasgow in November 2021~~ **2025** , **the current President signed an**

Executive Order once again withdrawing the United States ~~and the European Union jointly announced the launch of the Global Methane Pledge, an initiative committing to a collective goal of reducing global methane emissions by at least 30 % from 2020 levels by 2030, including" all feasible reductions" in the energy sector. At the 27th Conference of the Parties -- **Paris** in November 2022, countries reiterated the agreements - **Agreement and** from **any** COP26 and were called upon to accelerate efforts toward the phase out of inefficient fossil fuel subsidies. The U. S. also announced, in conjunction with the European Union and other partner countries, that it would develop standards for monitoring and reporting methane emissions to help create a market for low methane- intensity natural gas. At the 28th Conference of the Parties (" COP28 ") in December 2023, countries reached an agreement to tackle climate change by transitioning away from fossil fuels in energy systems in a just, orderly and equitable manner. The agreement set global targets to triple the capacity of renewable energy like wind and solar power, and to double the rate of energy efficiency improvements, both by 2030, and also called on countries to accelerate low- and zero- emission technologies like carbon capture and storage. Although no firm commitment~~ **commitments** ~~or timeline to transition away from fossil fuels was~~ made **under** ~~at COP28, there can be no guarantees that countries will not seek to implement plans to transition away from fossil fuels in the future. Additionally, the agreements could result in increased pressure among financial institutions and various stakeholders to reduce or otherwise impose more stringent limitations on funding for and increase potential opposition to the production and use of fossil fuels. However, the impacts of these actions are unclear at this time. Additionally, various states and groups of states have adopted or are considering adopting legislation, regulations or other regulatory initiatives that are focused on such areas GHG cap and trade programs, carbon taxes, reporting and tracking programs, and restriction of emissions. At the international level,~~ the United Nations **Framework Convention** ~~- sponsored Paris Agreement, requires member states to submit non-~~ **on Climate Change** ~~- binding, individually- determined reduction goals known as NDC' s every five years after 2020 .~~ **The full** ~~Following the president' s executive order in January 2021, the United States rejoined the Paris Agreement and, in April 2021, established a goal of reducing economy- wide net GHG emissions 50- 52 % below 2005 levels by 2030. Additionally, at the COP26 in Glasgow in November 2021, the United States and the European Union jointly announced the launch of a Global Methane Pledge, an initiative committing to a collective goal of reducing global methane emissions by at least 30 % from 2020 levels by 2030, including " all feasible reductions " in the energy sector. However, the impacts -~~ **impact** of these ~~actions are unclear~~ **recent developments is uncertain** at this time. Governmental, scientific, and public concern over the threat of climate change arising from GHG emissions has resulted in increasing political risks in the United States **. For example** , ~~including climate- change- related pledges made by~~ **in January 2024 the government announced a temporary pause on pending decisions on liquefied natural gas exports to** certain ~~candidates~~ **countries. However, upon taking office, the current President signed an Executive Order resuming the processing of permit applications** for ~~public office~~ **such projects** . ~~On January 27, 2021, the president issued~~ **Litigation risks are also increasing as a number of parties have sought to bring suit against certain oil** ~~an~~ **and natural gas companies operating in the United States in state** ~~executive order that commits to substantial action on climate change, calling for -~~ **or federal court** , **alleging** among other things, ~~the~~ **that such companies** ~~increased --~~ **created public nuisances** ~~use of zero- emissions vehicles~~ by **producing** ~~the federal government, the elimination of subsidies provided to the fossil fuel~~ **fuels that contributed to** ~~industry, and an increased emphasis on~~ climate **change** ~~- related risk across government agencies and economic sectors. The executive order also suspended the issuance of new leases for oil and gas development on federal land; for more information, see our risk factor titled" Federal and state legislative and regulatory initiatives relating to hydraulic fracturing could result in increased costs and additional operating restrictions~~ or ~~delays." Other actions~~ that **such companies have been aware of the adverse effects of climate change but failed to adequately disclose** ~~the~~ **those impacts to** ~~current government may take include the~~ **their investors** ~~imposition of more restrictive requirements for the development of pipeline infrastructure~~ or **customers** ~~liquefied natural gas export facilities, or more restrictive GHG emissions limitations for oil and gas facilities~~ . **Additionally** ~~For example,~~ on January 26, 2024, the **former** president announced a temporary pause on pending decisions on new exports of LNG to countries that the United States does not have free trade agreements with, pending Department of Energy review of the underlying analyses for authorizations. The pause ~~is~~ **was** intended to provide time to integrate certain considerations, including potential energy cost increases for consumers and manufacturers and the latest assessment of the impact of GHG emissions, to ensure adequate guards against health risks ~~are~~ **. The Department of Energy finalized its study** in ~~place~~ **December 2024. However, upon taking office, the current President signed an Executive Order resuming the processing of permit applications for such projects. At this time, it is unclear what actions the Presidential Administration may take, if at all, with respect to the Department of Energy' s study** . Litigation risks are also increasing as a number of parties have sought to bring suit against certain oil and natural gas companies operating in the United States in state or federal court, alleging among other things, that such companies created public nuisances by producing fuels that contributed to climate change or that such companies have been aware of the adverse effects of climate change but failed to adequately disclose those impacts to their investors or customers. There ~~are~~ **have** also **recent been** increasing financial risks for companies in the fossil fuel sector as **certain** shareholders currently invested in fossil-fuel energy companies concerned about the potential effects of climate change may elect in the future to shift some or all of their investments into non- fossil fuel related sectors. Institutional lenders who provide financing to fossil- fuel energy companies also have become more attentive to sustainable lending practices and some of them may elect not to provide funding for fossil fuel energy companies ~~. For example, at COP26, the Glasgow Financial Alliance for Net Zero (" GFANZ") announced~~ **although this trend has waned recently and several high- profile banks and institutional investors have withdrawn from various associations** that **aim** ~~commitments from over 450 firms across 45 countries had resulted in over $ 130 trillion in capital committed~~ to **limit** ~~net zero goals. The various sub- alliances of GFANZ generally require participants to set short- term, sector- specific targets to transition their~~ financing **of industries that emit significant GHG** ~~, investing, and / or underwriting activities to net zero~~ emissions ~~by 2050 .~~ **Any** ~~There is also a risk that financial institutions will be required to adopt policies that have the effect of reducing the funding provided to the fossil fuel sector. In late 2020, the Federal Reserve announced that it has joined the Network for Greening the Financial System (" NGFS"), a consortium of financial regulators focused on addressing climate- related risks in the financial sector. Subsequently, the Federal Reserve has issued a statement in support of the efforts of the NGFS to identify key issues and potential solutions for the climate- related challenges most relevant to central banks and supervisory authorities. Limitation~~ **limitation** of investments in and financings for fossil fuel energy companies could result in the restriction, delay or cancellation of drilling programs or development or production activities. **Separately** ~~In January 2023, the Federal Reserve launched a pilot climate scenario analysis exercise, with six of the United States' largest banks participating to enhance the ability of firms and supervisors to measure and manage climate- related financial risk. Additionally ,~~ the SEC released a final rule on climate- related disclosures on March 6, 2024, requiring the disclosure of certain climate- related risks and financial impacts, as well as GHG emissions **, which was subsequently stayed by** ~~. Large accelerated filers will be required to incorporate the applicable climate- related disclosures into their --~~ **the** ~~filings beginning in fiscal year~~ **U. S. Court of Appeals for the Fifth Circuit. The future of the rule remains uncertain at this time given the litigation; however, on February 11,** 2025, ~~with additional requirements relating to the disclosure of Scope 1~~ **SEC Acting Chairman Mark T. Uyeda released a public statement** and **notified the U. S. Court of Appeals** ~~2 GHG emissions, if material, and attestation reports~~ for ~~certain~~ **the Eighth Circuit (where the challenges** ~~large~~ **-- are** ~~accelerated filers subsequently phasing~~ **consolidated) to hold off scheduling argument** in **the case to provide time for the SEC to further deliberate the final rule and determine next steps** . ~~Similarly~~ **Relatedly** , certain states have enacted or are otherwise considering disclosure requirements for certain climate- related risks. ~~While we are still assessing our obligations under the rule, enhanced~~ **Enhanced** climate- related disclosure requirements could increase our operating costs and lead to reputational or other harm with customers, regulators, or other stakeholders to the extent our disclosures do not meet their own standards or expectations. Consequently, we are also exposed to increased litigation risks relating to alleged climate- related damages resulting from our operations, statements alleged to have been made by us or others in our industry regarding climate change risks, or in connection with any future disclosures we may make regarding reported emissions, particularly given the inherent uncertainties and estimation required with respect to calculating and reporting GHG emissions. We also cannot predict how financial institutions and investors might consider any information disclosed under any such requirements when making investment decisions, and as a result it is possible that we could face increases with respect to the costs of, or restrictions imposed on, our access to capital. ~~The adoption and implementation of new~~ **Climate change may result in various physical risks, such as the increased frequency** or ~~more stringent international, federal~~ **intensity of extreme weather events** or **changes in** ~~state legislation, regulations or other --~~ **the** ~~regulatory initiatives~~ **meteorological and hydrological patterns,** that **could adversely impact us, our customers'** ~~impose more stringent standards for GHG emissions from the oil~~ and ~~natural gas sector~~ **our suppliers' operations. Such physical risks may result in damage to our customers' facilities** or otherwise ~~restrict the~~ **adversely impact our operations, such as if facilities** ~~areas --~~ **are subject to water use curtailments** in **response to drought, or demand for our customers' products, such as to the extent warmer winters reduce the demand for energy for heating purposes,** which ~~this sector~~ may **ultimately** ~~produce oil and natural gas or generate GHG emissions could result in increased costs of compliance or costs of consuming, and thereby~~ reduce demand for ~~, oil~~ **the products** and ~~natural gas, which could reduce demand for our~~ services ~~and products~~ **we provide** . **Such physical** ~~Additionally, political, litigation and financial~~ risks may **also impact** ~~result in our oil and natural gas customers restricting or~~ **our suppliers** ~~canceling production activities~~ , **which may adversely affect** ~~incurring liability for infrastructure damages as a result of climatic changes, or~~ **our** ~~impairing their~~ ability to **provide our products** ~~continue to operate in an~~ **and** ~~economic manner, which also could reduce demand for our~~ services ~~and products~~ . **Extreme weather** ~~One or more of these developments could have a material adverse effect on our business, financial condition~~ **conditions** ~~and results of~~ **can interfere with our** operations **and increase our costs, and damage resulting from extreme weather may not be fully insured** . Our hydraulic fracturing operations are a significant component of our business, and it is an important and common practice that is used to stimulate production of hydrocarbons, particularly oil and natural gas, from tight formations, including shales. The process, which involves the injection of water, sand and chemicals under pressure into formations to fracture the surrounding rock and stimulate production, is typically regulated by state oil and natural gas commissions. However, federal agencies have asserted regulatory authority over certain aspects of the process. For example, the EPA has previously issued a series of rules under the CAA that establish new emission control requirements for emissions of volatile organic compounds and methane from certain oil and natural gas production and natural gas processing operations and equipment. Separately, the BLM finalized a rule governing hydraulic fracturing on federal lands but this rule was subsequently rescinded. Although several of these rulemakings have been rescinded, modified or subjected to legal challenges, new or more stringent regulations may be promulgated by the government. For example, **in March 2024** the BLM **finalized** ~~recently proposed~~ a rule that ~~would~~ **requires operators to** limit flaring from well sites on federal lands, **and** ~~as well as allow~~ **allows** the delay or denial of permits if BLM finds that an operator' s methane waste minimization plan is insufficient. ~~In~~ **The rule was challenged by various states in the District Court of North Dakota and, in September 2024, the court ordered that**

the rule cannot be enforced within the plaintiff states pending the outcome of the litigation. Although the rule is currently being implemented in areas not covered by the order, the future of the rule is uncertain. Additionally in January 2021, the president issued an executive order suspending new leasing activities, but not operations under existing leases, for oil and gas E & P on non- ~~Indian~~ **Native American** federal lands pending completion of a comprehensive review and reconsideration of federal oil and gas permitting and leasing practices that take into consideration potential climate and other impacts associated with oil and gas activities on such lands and waters. Although the leasing pause was effectively halted by a permanent injunction in August 2022, in response to the executive order, the DOI issued a report recommending various changes to the federal leasing program, though many such changes would require Congressional action. In ~~July~~ **April** ~~2023~~ **2024** , the BLM ~~proposed~~ **finalized** a rule **updating** ~~to update~~ the fiscal terms of federal oil and gas leases, ~~which would increase~~ **increasing** fees, rents, royalties, and bonding requirements. The rule ~~would~~ also ~~add~~ **adds** new criteria for BLM to consider when determining whether to lease nominated land, including the presence of important habitats or wetlands, the presence of historical properties or sacred sites, and recreational use of the land. **Any** ~~BLM anticipates a final action on the proposal in Spring 2024. As a result, we cannot predict the final scope of regulations or restrictions that may apply to oil and gas operations on federal lands. However, any~~ regulations that ban or effectively ban such operations may adversely impact demand for our products and services. Further, legislation to amend the Safe Drinking Water Act to repeal the exemption for hydraulic fracturing (except when diesel fuels are used) from the definition of " underground injection " and require federal permitting and regulatory control of hydraulic fracturing, as well as legislative proposals to require disclosure of the chemical constituents of the fluids used in the fracturing process, have been proposed in previous sessions of Congress. Several states and local jurisdictions in which we or our customers operate also have adopted or are considering adopting regulations that could restrict or prohibit hydraulic fracturing in certain circumstances, impose more stringent operating standards and / or require the disclosure of the composition of hydraulic fracturing fluids. Federal and state governments have also investigated whether the disposal of produced water into underground injection wells has caused increased seismic activity in certain areas. In response to concerns regarding induced seismicity, regulators in some states have imposed, or are considering imposing, additional requirements in the permitting of produced water disposal wells or otherwise to assess any relationship between seismicity and the use of such wells. For example, Oklahoma has issued rules for wastewater disposal wells in 2014 that imposed certain permitting and operating restrictions and reporting requirements on disposal wells in proximity to faults and also, from time to time, has implemented plans directing certain wells where seismic incidents have occurred to restrict or suspend disposal well operations. In particular, the Oklahoma Corporation Commission released well completion seismicity guidelines for operators in the SCOOP and STACK require hydraulic fracturing operations to be suspended following earthquakes of certain magnitudes in the vicinity. In addition, the Oklahoma Corporation Commission' s Oil and Gas Conservation Division has previously issued an order limiting future increases in the volume of oil and natural gas wastewater injected into the ground in an effort to reduce the number of earthquakes in the state. The TRRC has adopted similar rules and, in September 2021, issued a notice to disposal well operators in the Gardendale Seismic Response Area near Midland, Texas to reduce daily injection volumes following multiple earthquakes above a 3. 5 magnitude over an 18 month period. The notice also required disposal well operators to provide injection data to TRRC staff to further analyze seismicity in the area. Subsequently, the TRRC ordered the indefinite suspension of all deep oil and gas produced water injection wells in the area, effective December 31, 2021. The Gardendale Seismic Response area has since been expanded in response to an additional earthquake in December 2022, covering 17 additional wells. In December 2023, a further 23 deep disposal well permits were suspended in the Northern Culberson- Reeves Seismic Response Area. While we cannot predict the ultimate outcome of these actions, any action that temporarily or permanently restricts the availability of disposal capacity for produced water or other oilfield fluids may increase our customers' costs or require them to suspend operations, which may adversely impact demand for our products and services. Increased regulation of hydraulic fracturing and related activities could subject us and our customers to additional permitting and financial assurance requirements, more stringent construction specifications, increased monitoring, reporting and recordkeeping obligations, and plugging and abandonment requirements. New requirements could result in increased operational costs for us and our customers, and reduce the demand for our services. Increasing trucking regulations may increase our costs and negatively impact our results of operations. In connection with our business operations, including the transportation and relocation of our hydraulic fracturing equipment and shipment of frac sand, we operate trucks and other heavy equipment. As such, we operate as a motor carrier in providing certain of our services and therefore are subject to regulation by the DOT and by various state agencies. These regulatory authorities exercise broad powers, governing activities such as the authorization to engage in motor carrier operations, driver licensing, insurance requirements, financial reporting and review of certain mergers, consolidations and acquisitions, and transportation of hazardous materials. Our trucking operations are subject to possible regulatory and legislative changes that may increase our costs. Some of these possible changes include increasingly stringent environmental regulations, changes in the hours of service regulations which govern the amount of time a driver may drive or work in any specific period, onboard black box recorder device requirements or limits on vehicle weight and size. Interstate motor carrier operations are subject to safety requirements prescribed by the DOT. To a large degree, intrastate motor carrier operations are subject to state safety regulations that mirror federal regulations. Matters such as the weight and dimensions of equipment are also subject to federal and state regulations. From time to time, various legislative proposals are introduced, including proposals to increase federal, state, or local taxes, including taxes on motor fuels, which may increase our costs or adversely impact the recruitment of drivers. We cannot predict whether, or in what form, any increase in such taxes applicable to us will be enacted. Certain motor vehicle operators require registration with the DOT. This registration requires an acceptable operating record. The DOT periodically conducts compliance reviews and may revoke registration privileges based on certain safety performance criteria that could result in a suspension of operations. Increased attention to ESG matters, conservation measures, commercial development and technological advances could reduce demand for oil and natural gas and our services. Fuel conservation measures, alternative fuel requirements, increasing consumer demand for alternatives to oil and natural gas, increased attention to climate change and other ESG **- related** matters, and technological advances in fuel economy and energy generation devices could reduce demand for oil and natural gas, resulting in reduced demand for ~~oilfield~~ **energy** services. The impact of the changing demand for oil and natural gas services and products may have a material adverse effect on our business, financial condition, results of operations and cash flows. The commercial development of economically - viable alternative energy sources and related products (such as electric vehicles, wind, solar, geothermal, tidal, fuel cells and biofuels) could have a similar effect. The IRA 2022 appropriates significant federal funding for renewable energy initiatives, which could accelerate the use and commercial viability of alternative energy sources and decrease demand for oil and natural gas. The IRA 2022 has incentivized the further development of and investment in clean energy through the use of tax credits, and future legislation could expand these benefits for alternative energy sources. In addition, **legislation has been previously proposed that would make changes to** certain U. S. federal income tax ~~deductions~~ **provisions** currently ~~available~~ **applicable** with respect to oil and natural gas exploration and development **companies** , including **by eliminating** the ~~allowance of~~ percentage depletion **allowance** for oil and natural gas properties **, may . While it remains to** be ~~eliminated as a result seen if the current administration would modify or repeal some or all~~ of ~~proposed legislation. Any~~ **the IRA 2022, any** future decreases in the rate at which oil and natural gas reserves are discovered or developed, whether due to the passage of legislation, increased governmental regulation leading to limitations, or prohibitions on exploration and drilling activity, including hydraulic fracturing, or other factors, could have a material adverse effect on our business and financial condition, even in a stronger oil and natural gas price **and regulatory** environment. Moreover, while we may create and publish voluntary disclosures regarding ESG **- related** matters from time to time, certain statements in those voluntary disclosures may be based on **expectations and assumptions or** hypothetical **scenarios** ~~expectations and assumptions~~ that may or may not be representative of current or actual risks or events or forecasts of expected risks or events, including the costs associated therewith. Such expectations and assumptions **or hypothetical scenarios** are necessarily uncertain and may be prone to error or subject to misinterpretation given the long timelines involved and the lack of an established ~~single~~ approach to identifying, measuring and reporting on many ESG matters. Additionally, we may announce various targets or product and service offerings in an attempt to improve our ESG profile. However, **such targets are often aspirational and** we cannot guarantee that we will be able to meet any such targets or that such targets or offerings will have the intended results on our ESG profile, including but not limited to as a result of unforeseen costs, consequences or technical difficulties associated with such targets or offerings. Also, despite any voluntary actions, we may receive pressure from certain investors, lenders or other groups to adopt more aggressive climate or other ESG- related goals or policies, but we cannot guarantee that we will be able to **pursue or** implement such goals because of potential costs or technical or operational obstacles **. Additionally, certain statements or initiatives with respect to ESG- related matters that we may pursue or assert are increasingly subject to heightened scrutiny from the public and governmental authorities, as well as other parties. For example, the SEC has recently taken enforcement action against companies for ESG-related misconduct, including alleged " greenwashing, " (i. e., the process of conveying misleading information or making false claims that overstate potential ESG benefits). Certain regulators, such as the SEC and various state agencies, as well as nongovernmental organizations and other private actors have filed lawsuits under various securities and consumer protection laws alleging that certain ESG statements, goals or standards were misleading, false or otherwise deceptive. Additionally, certain employment practices and social initiatives are the subject of scrutiny by both those calling for the continued advancement of such policies, as well as those who believe they should be curbed, including government actors, and the complex regulatory and legal frameworks applicable to such initiatives continue to evolve. More recent political developments could mean that we face increasing criticism or litigation risks from certain " anti- ESG " parties, including various governmental agencies. Such sentiment may focus on our environmental commitments (such as reducing GHG emissions) or our pursuit of certain employment practices or social initiatives that are alleged to be political or polarizing in nature or are alleged to violate laws based, in part, on changing priorities of, or interpretations by, federal agencies or state governments. As a result, we may be subject to pressure in the media or through other means, such as governmental investigations, enforcement actions, or other proceedings, all of which could adversely affect our reputation, business, financial performance, market access and growth. Accordingly, there may be increased costs related to reviewing, implementing and managing such policies, as well as compliance and litigation risks based both on positions we do or do not take, or work we do or do not perform** . In addition, organizations that provide information to investors on corporate governance and related matters have developed ratings processes for evaluating companies on their approach to ESG matters. Such ratings are used by some investors to inform their investment and voting decisions. **While such ratings do not impact all investors' investment or voting decisions,** ~~Unfavorable~~ **unfavorable** ESG ratings and recent activism directed at shifting funding away from companies with energy- related assets could lead to increased negative investor sentiment toward us and our industry and to the diversion of investment to other industries, which could have a negative impact on our stock price and our access to and costs of capital. Additionally, to the extent ESG

matters negatively impact our reputation, we may not be able to compete as effectively to recruit or retain employees, which may adversely affect our operations. **Furthermore, employment practices and social initiatives are also the subject of scrutiny by stakeholders, federal agencies, state governments, regulators and other third- parties. The complex regulatory and legal frameworks applicable to such initiatives continue to evolve. We cannot be certain of the impact of such regulatory, legal and other developments on our business. To the extent any enforcement actions or other litigation is brought against us as a result of emerging viewpoints and legal interpretations, our business, financial condition and access to financing may be materially and adversely affected.** Water is an essential component of unconventional shale oil and natural gas production during both the drilling and hydraulic fracturing processes. Over the past several years, certain of the areas in which we and our customers operate have experienced extreme drought conditions and competition for water in such areas is growing. In addition, some state and local governmental authorities have begun to monitor or restrict the use of water subject to their jurisdiction for hydraulic fracturing to ensure adequate local water supply. For instance, some states require E & P companies to report certain information regarding the water they use for hydraulic fracturing and to monitor the quality of groundwater surrounding some wells stimulated by hydraulic fracturing. Generally, our water requirements are met by our customers from sources on or near their sites, but there is no assurance that our customers will be able to obtain a sufficient supply of water from sources in these areas. Our or our customers' inability to obtain water from local sources or to effectively utilize flowback water could have an adverse effect on our financial condition, results of operations and cash flows. Our ability to use our NOLs may be limited. **As of** ~~The Tax Cuts and Jobs Act included a reduction to the maximum deduction allowed for net operating losses generated in tax years after~~ December 31, ~~2017, and the elimination of carrybacks of net operating losses. As of December 31, 2023~~ **2024** , we had approximately $ ~~296~~ **186** ~~.6~~ **1** million of U. S. federal NOLs, ~~some~~ **all** of which will **have an unlimited carryforward** ~~begin to expire in 2035. Approximately $ 87. 7 million of our U. S. federal NOLs relate to pre- 2018 periods~~ . As of December 31, ~~2023~~ **2024** , our state net operating losses were approximately $ ~~48~~ **42** . ~~1~~ **8** million and will begin to expire in 2030. Utilization of these NOLs depends on many factors, including our future income, which cannot be assured. In addition, Section 382 (~~"~~ **"** Section 382 ~~"~~ **"**) of the Internal Revenue Code of 1986, as amended ~~(the" Code")~~ , generally imposes an annual limitation on the amount of taxable income that may be offset by NOLs when a corporation has undergone an ~~"~~ **"** ownership change ~~"~~ **"** (as determined under Section 382). Generally, a change of more than 50 % in the ownership of a corporation' s stock, by value, over a three - year period constitutes an ownership change for U. S. federal income tax purposes. Any unused annual limitation may, subject to certain limitations, be carried over to later years. We may experience **future** ownership changes, which may result in annual limitation under Section 382 determined by multiplying the value of our stock at the time of the ownership change by the applicable long - term tax - exempt rate as defined in Section 382, increased under certain circumstances as a result of recognizing built - in gains in our assets existing at the time of the ownership change. The limitations arising from ownership changes may prevent utilization of our NOLs prior to their expiration. Future ownership changes or regulatory changes could further limit our ability to utilize our NOLs. To the extent we are not able to offset our future income with our NOLs, this could adversely affect our operating results and cash flows if we attain profitability. We are subject to various complex and evolving U. S. federal, state and local tax laws. U. S. federal, state and local tax laws, policies, statutes, rules, regulations or ordinances could be interpreted, changed, modified or applied adversely to us, in each case, possibly with retroactive effect. Any significant variance in our interpretation of current tax laws or a successful challenge of one or more of our tax positions by the Internal Revenue Service or other tax authorities could increase our future tax liabilities and adversely affect our operating results and cash flows. We ~~have~~ **are subject to certain requirements of Section 404. If we or our auditors** ~~identified~~ **identify** ~~a~~ **and report** material ~~weakness~~ **weaknesses** in ~~our~~ internal control over financial reporting **, our investors may lose confidence in our reported information and our stock price may be negatively affected. We are required to comply** with ~~regard to segregation of~~ certain **provisions of Section 404, which requires that we document and test our internal control over financial reporting and issue our management' s assessment of our internal control over financial reporting. This section also requires that our independent registered public** accounting ~~duties~~ **firm issue** ~~and~~ **an** ~~management review~~ **attestation report on such internal control. Effective internal** controls **are necessary for us to provide reliable financial reports and prevent fraud** . ~~We may~~ **If we or our auditors** identify ~~additional~~ **and report** material weaknesses in ~~the future~~ **internal controls over financial reporting** or ~~otherwise~~ **if we** fail to maintain an effective system of internal controls, ~~which~~ **such instances** may result in material misstatements of our financial statements, cause us to fail to meet our reporting obligations, investors may lose confidence in our financial reporting, and our stock price may decline as a result ~~or cause us to fail to meet our reporting obligations. In connection with the preparation of our financial statements for the year ended December 31, 2023, we identified a material weakness in our internal control over financial reporting, resulting from our failure to maintain adequate segregation of duties or sufficient compensating management review controls to effectively mitigate an inadequate system access control configuration in our accounting system in which manual journal entry approvers can modify the entries before posting. This deficiency is solely related to manual journal entries and has no impact on system- generated journal entries flowing through our accounting system and other feeder systems. Due to this control deficiency, other manual- dependent controls were deemed ineffective. This material weakness could result in a misstatement of the aforementioned account balances or disclosures that would result in a material misstatement of the annual or interim consolidated financial statements that would not be prevented or detected. Notwithstanding such material weakness, our management believes that our financial statements included in this Annual Report on Form 10- K present fairly, in all material respects, our financial position, results of operations and cash flows for the periods presented in accordance with accounting principles generally accepted in the United States of America (" U. S. GAAP "). We have taken steps to remediate this material weakness and plan to take additional steps to further improve our overall internal control environment. We have implemented a segregation of duties conflict process by limiting access of certain employees of the Company who are owners of management review controls; tested whether this access resulted in any inappropriate entries being recorded or revised and concluded that no such instances occurred; implemented a technical solution to ensure that access to our system of records adequately limits incompatible duties and strengthened our monitoring and review controls over journal entry processing; and implemented control activities related to additional independent reviews of manual entries posted in the accounting system and are currently evaluating additional procedures to further strengthen the Company' s overall segregation of duties. These actions are subject to ongoing management review and the oversight of our Audit Committee and Board. The material weakness described above or any newly identified material weakness could limit our ability to prevent or detect a misstatement of our accounts or disclosures that could result in a material misstatement of our annual or interim financial statements. We cannot assure you that the measures we have taken to date, or any measures we may take in the future, will be sufficient to remediate the control deficiencies that led to the material weakness in our internal control over financial reporting described above or to avoid potential future material weaknesses. Effective internal controls are necessary for us to provide reliable financial reports and prevent fraud. If we are unable to successfully remediate our existing or any future material weakness in our internal control over financial reporting, or identify any additional material weaknesses that may exist, the accuracy and timing of our financial reporting may be adversely affected, we may be unable to maintain compliance with securities law requirements regarding timely filing of periodic reports in addition to applicable stock exchange listing requirements, we may be unable to prevent fraud, investors may lose confidence in our financial reporting, and our stock price may decline as a result~~ . Our certificate of incorporation authorizes our board of directors (the ~~"~~ **"** Board ~~"~~ **"**) to issue preferred stock without shareholder approval. If our Board elects to issue preferred stock, it could be more difficult for a third party to acquire us. In addition, some provisions of our certificate of incorporation and bylaws could make it more difficult for a third party to acquire control of us, even if the change of control would be beneficial to our shareholders, including: • limitations on the removal of directors; • limitations on the ability of our shareholders to call special meetings; • advance notice provisions for shareholder proposals and nominations for elections to the Board to be acted upon at meetings of shareholders; • providing that the Board is expressly authorized to adopt, or to alter or repeal our bylaws; and • establishing advance notice and certain information requirements for nominations for election to our Board or for proposing matters that can be acted upon by shareholders at shareholder meetings. **Our business could be negatively affected as a result of the actions of activist shareholders.** Publicly traded companies have increasingly become subject to campaigns by investors seeking to increase shareholder value by advocating corporate actions such as financial restructuring, increased borrowing, special dividends, stock repurchases, sales of assets or even sale of the entire company. Given our shareholder composition and other factors, it is possible such shareholders or future activist shareholders may attempt to effect such changes or acquire control over us. Responding to proxy contests and other actions by such activist shareholders or others in the future would be costly and time- consuming, disrupt our operations and divert the attention of our Board and senior management from the pursuit of business strategies, which could adversely affect our results of operations and financial condition. Additionally, perceived uncertainties as to our future direction as a result of shareholder activism or changes to the composition of the Board may lead to the perception of a change in the direction of our business, instability or lack of continuity which may be exploited by our competitors, cause concern to our current or potential customers, and make it more difficult to attract and retain qualified personnel. If customers choose to delay, defer or reduce transactions with us or transact with our competitors instead of us because of any such issues, then our business, financial condition, revenues, results of operations and cash flows could be adversely affected. Our certificate of incorporation provides that, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will, to the fullest extent permitted by applicable law, be the sole and exclusive forum for (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers, employees or agents to us or our shareholders, (iii) any action asserting a claim arising pursuant to any provision of the Delaware General Corporation Law, our certificate of incorporation or our bylaws, or (iv) any action asserting a claim against us that is governed by the internal affairs doctrine, in each such case subject to such Court of Chancery having personal jurisdiction over the indispensable parties named as defendants therein. The exclusive forum provision would not apply to suits brought to enforce any liability or duty created by the Securities Act or the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. To the extent that any such claims may be based upon federal law claims, Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. Furthermore, Section 22 of the Securities Act creates concurrent jurisdiction for federal and state courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder. The enforceability of similar choice of forum provisions in other companies' certificates of incorporation or similar governing documents has been challenged in legal proceedings, and it is possible that a court could find the choice of forum provisions contained in our certificate of incorporation to be inapplicable or unenforceable, including with respect to claims arising under the U. S. federal securities laws. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock will be deemed to have notice of, and consented to, the provisions of our certificate of incorporation regarding exclusive forum. This choice of forum provision may limit

a shareholder' s ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers, employees or agents, which may discourage such lawsuits against us and such persons. Alternatively, if a court were to find these provisions of our certificate of incorporation inapplicable to, or unenforceable in respect of, one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could adversely affect our business, financial condition or results of operations. The market price of our common stock is subject to volatility. The market price of our common stock could be subject to wide fluctuations in response to, and the level of trading of our common stock may be affected by, numerous factors, many of which are beyond our control. These factors include, among other things, our limited trading volume, the concentration of holdings or our common stock, actual or anticipated variations in our operating results and cash flow, the nature and content of our earnings releases, announcements or events that impact our products, customers, competitors or markets, business conditions in our markets and the general state of the securities markets, volatility in oil and gas prices and the market for energy- related stocks, as well as general economic and market conditions and other factors that may affect our future results, including those described in this report. Significant sales of our common stock, or the expectation of these sales, by significant shareholders, officers or directors could materially and adversely affect the market price of our common stock. We are not restricted from issuing additional common stock, including securities that are convertible into or exchangeable for, or that represent a right to receive, common stock. In addition, we may issue common stock as consideration in future mergers and acquisitions, as we did in the Silvertip Acquisition. Any issuance of additional shares of our common stock or convertible securities will dilute the ownership interest of our common stockholders. Sales of a substantial number of shares of our common stock or other equity- related securities in the public market, or the perception that these sales could occur, could depress the market price of our common stock and impair our ability to raise capital through the sale of additional equity securities. We cannot predict the effect that future sales of our common stock or other equity- related securities would have on the market price of our common stock. There can be no assurance that **we will purchase all the shares authorized under** our share repurchase program ~~will be fully consummated~~ or that such program will enhance the long- term value of our share price. On ~~May 17~~ **April 24** , ~~2023~~ **2024** , **our** ~~the Company' s~~ Board approved ~~a~~ **an increase and extension to the** share repurchase program ~~that allows~~ **previously authorized on May 17, 2023. The program permits the share repurchase of up to an additional $ 100. 0 million of** the Company **'** ~~to repurchase up to $ 100 million of the Company'~~ s common stock ~~through~~ **for a total of $ 200. 0 million** and ~~including~~ **extends the expiration date by one year to** May 31, ~~2024~~ **2025** . There is no obligation for **us** ~~the Company~~ to continue to repurchase or to repurchase any specific dollar amount of stock ~~. The timing, as well as the number and value of shares repurchased under the program, will be determined by the Company at its discretion and will depend on a variety of factors, including management' s assessment of the intrinsic value of the Company' s common stock, the market price of the Company' s common stock, general market and economic conditions, available liquidity, compliance with the Company' s debt and other agreements, applicable legal requirements, and other considerations. The Company is not obligated to purchase any shares under the repurchase program,~~ and the program may be suspended, modified ~~,~~ or discontinued at any time without prior notice. The **timing, as well as the number and value of shares repurchased under the program, will be determined by the Company at its discretion and will depend on a variety of factors, including management' s assessment of the intrinsic value of our common stock, the market price of the our common stock, general market and economic conditions, available liquidity, compliance with the Company' s debt and other agreements, applicable legal requirements, and other considerations. The share** repurchase program could affect the price of our stock and increase volatility in the market. We cannot guarantee that **we will purchase all of** the **shares authorized under the share** repurchase program ~~will be fully consummated~~ or that such program will enhance the long- term value of our share price. In addition, repurchase regulations and taxes may add additional payment burden to the Company from our share repurchase program. ~~For example~~ **In the past** , ~~the~~ **there** ~~current government has proposed~~ **have been proposals to** ~~increasing~~ **increase** the amount of the **U. S. federal stock repurchase** excise tax from 1 % to 4 % ~~.~~ **, ~~However~~ however** , it is unclear whether such a change in the amount of the excise tax will be enacted and, if enacted, how soon any such change could take effect. Item 1B. Unresolved Staff Comments. None. Item 1C. Cybersecurity. We have established an Information Security Management System (the " ISMS "), which is integrated into our overall risk management system, to help us achieve our business goals. The ISMS defines our information security risk management approach and specifies the requirements for establishing, implementing, operating, monitoring, reviewing, maintaining and improving a risk assessment framework within the context of our overall business risks. The ISMS also specifies the requirements for implementing security controls designed to meet the needs of individual departments or parts thereof. Risk Management and Strategy Our cybersecurity strategy focuses on implementing controls, technologies, and other processes to assess, identify, and manage material cybersecurity risks. We have processes in place designed to assess, identify, manage, and address material cybersecurity threats and incidents, including: annual security awareness training for employees, mechanisms designed to detect and monitor unusual network activity, and containment and incident response tools. Our ISMS is designed to help us identify and manage material risks from cybersecurity threats, and as part of our ISMS, we engage a range of third- party service providers, including assessors, consultants, and auditors, to assist us in these processes. Our risk assessment framework involves an information security risk assessment procedure that helps us identify potential cybersecurity threats and vulnerabilities (including relating to the use of third- party service providers) and then determine strategies to mitigate or counter the threats. As part of this process, we conduct annual penetration testing utilizing a third- party service provider. We have implemented controls designed to identify and mitigate cybersecurity threats associated with our use of third- party service providers. Such providers are subject to security risk assessments at the time of onboarding, contract renewal, and upon detection of an increase in risk profile. We use a variety of inputs in such risk assessments, including information supplied by providers and third parties. In addition, we require our providers to meet appropriate security requirements, controls and responsibilities and investigate security incidents that have impacted our third- party providers, as appropriate. Our Information Technology Director also works with third- party service providers to assess potential cybersecurity threats and determines risk scores based on the likelihood of threats and the potential impacts of the threats, prioritizes risk and determines and recommends to our management controls aimed to counter such threats. We assess third- party cybersecurity controls through a cybersecurity questionnaire and include security and privacy addenda to our contracts where applicable. We also maintain procedures designed to protect the security of personally identifiable information, and our Privacy Policy provides details regarding the collection, storage, usage, and destruction of data. We require all employees to engage in data- security training upon hire and receive ongoing training thereafter. In the event of an incident, we intend to follow our incident response plan, which outlines the steps to be followed from incident detection to mitigation, recovery and notification, including notifying functional areas (e. g., legal), as well as senior leadership and the Board, as appropriate. ~~Governance~~ Management is responsible for assessing, identifying, and managing risks from cybersecurity threats. Our cybersecurity risk management efforts are led by our Information Technology Director, who oversees our cybersecurity activities and is informed about and monitors the prevention, detection, mitigation and remediation of cybersecurity incidents as part of our ISMS. The Information Technology Director ~~is part of the Company' s Security Committee and~~ reports to the ~~Security~~ **audit** ~~Committee~~ **committee of our Board** with respect to emerging cybersecurity incidents deemed to have a moderate or higher business impact, even if immaterial to us. Our ~~Security Committee, comprised of the~~ Information Technology Director ~~, the~~ **and our** Chief Financial Officer **are** ~~, the Chief Legal Counsel and the Vice President of Human Resources is~~ ultimately responsible for the implementation of our cybersecurity risk management processes. To facilitate effective oversight, **they** ~~our Security Committee holds~~ ~~.~~ **hold** discussions on cybersecurity risks, incident trends, and the effectiveness of cybersecurity measures as necessitated by emerging cybersecurity risks. ~~The~~ **They have** ~~Security Committee has~~ experience managing enterprises relying on technology and business systems with cybersecurity risks and consults with trusted advisors where appropriate. The audit committee of our Board is responsible for oversight of risks from cybersecurity threats. The Information Technology Director presents an update on cybersecurity risk management to the audit committee of our Board during quarterly meetings and the audit committee ~~reports~~ **provides relevant updates** to the Board. Impact of Risks from Cybersecurity Threats As of the date of this report, though the Company and our service providers have experienced certain cybersecurity incidents, we are not aware of any previous cybersecurity incidents that have materially affected or are reasonably likely to materially affect us, including our business strategy, results of operations and financial condition. We acknowledge that cybersecurity threats are continually evolving, and the possibility of future cybersecurity incidents remains. Despite the implementation of our cybersecurity processes, our security measures cannot guarantee that a significant cybersecurity attack will not occur. While we devote resources to our security measures designed to protect our systems and information, no security measure is infallible. See Part I," Item 1A. Risk Factors" of this Annual Report for additional information about the risks to our business associated with a breach or other compromise to our information and operational technology systems. Item 2. Properties. Our corporate headquarters is located at 303 W. Wall Street, Suite 102, Midland, Texas 79701. In addition to our headquarters, we also own and lease other properties that are used for field offices, yards **,** or storage in the Permian Basin. We believe that our facilities are adequate for our current operations. Item 3. Legal Proceedings. Disclosure concerning legal proceedings is incorporated by reference to" Note 18. Commitments and Contingencies — Contingent Liabilities" of our Consolidated Financial Statements contained in this Annual Report. From time to time, we may be subject to various other legal proceedings and claims incidental to or arising in the ordinary course of our business. Item 4. Mine and Safety Disclosures. PART II Item 5. Market for Registrant' s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities. Market Information On March 22, 2017, we consummated our initial public offering of our common stock at a price of $ 14. 00 per share. Our common stock is traded on the New York Stock Exchange under the symbol" PUMP." Holders As of December 31, ~~2023~~ **2024** , there were ~~109~~ **102** , ~~483~~ **994** , ~~281~~ **958** shares of common stock outstanding, held of record by ~~twelve~~ **five** holders. The number of record holders of our common stock does not include Depository Trust Company participants or beneficial owners holding shares through nominee names. ~~Dividend~~ **Dividends** We do not anticipate declaring or paying any cash dividends to holders of our common stock in the foreseeable future. We currently intend to retain future earnings, if any, to finance the growth of our business and repay borrowings under our ABL Credit Facility, if any. Our future dividend policy is within the discretion of our Board and will depend upon then - existing conditions, including our results of operations, financial condition, capital requirements, investment opportunities, statutory restrictions on our ability to pay dividends and other factors our Board may deem relevant. In addition, our ABL Credit Facility places certain restrictions on our ability to pay cash dividends. Share Repurchase Program The following sets forth information with respect to our repurchases of shares of common stock during the three months ended December 31, ~~2023~~ **2024** : PeriodTotal number of shares purchasedAverage price paid per share (2) Total number of shares purchased as part of publicly announced plans or programs (1) Approximate dollar value of shares that may yet be purchased under the plans or programs (1) October 1, ~~2023~~ **2024** to October 31, ~~2023894~~ **2024353** , ~~300~~ **171** $ ~~10~~ **8** , ~~21~~ **15 353, 171 $** ~~894~~ ~~89~~ , ~~300 $ 54~~ **654** , **253** ~~611, 997~~ November 1, ~~2023~~ **2024** to November 30, ~~2023213~~ **202470** , ~~967~~ **305** $ ~~9~~ **7** , ~~75 213~~ ~~13 70~~ , ~~967~~ **305** $ **89,** ~~52~~ **152** , **858** ~~526, 741~~ December 1, ~~2023~~ **2024** to December 31, **2024 —**

The program permits the Company to repurchase of up to an additional $ 100 million of the Company ' s common stock beginning immediately for a total of $ 200 million and continuing through and including extends the expiration date by one year to May 31, 2024 2025 . The shares may be repurchased from time to time in open market transactions, block trades, accelerated share repurchases, privately negotiated transactions, derivative transactions or otherwise, certain of which may be made pursuant to a trading plan meeting the requirements of Rule 10b5- 1 under the Exchange Act, as amended, in compliance with applicable state and federal securities laws. (2) The average price paid per share includes commissions. Performance Graph The annual changes for the periods shown in the following graph are based on the assumption that $ 100 had been invested in our common stock, the Russell 2000 Index (" " Russell 2000 " ") and a self- constructed peer group index of comparable companies (" " Updated Peer Group " ") on December 31, 2018 2019 , and that all dividends were reinvested at the closing prices of the dividend payment dates. The relevant companies included in our Updated Peer Group consists of Liberty Energy Inc., Patterson- UTI Energy, Inc., RPC, Inc., Calfrac Well Services Ltd., and Mammoth Energy Services, Inc , and ProFrac Holding Corp. (added in 2024). We have also included our previous peer group (" Former Peer Group ") which did not include ProFrac Holding Corp. in the following graph . The total cumulative dollar returns shown on the graph represent the value that such investments would have had on the last trading date of 2023 2024 . The calculations exclude trading commissions and taxes. The stock price performance on the following graph and table is not necessarily indicative of future stock price performance. 32 DatePeer 35 DateFormer Peer GroupUpdated Peer GroupRussell 2000ProPetro Holding Corp. 12 / 31 / 2018 2019 $ 100. 0 $ 100. 0 $ 100. 0 $ 100. 0 12 / 31 / 2019 $ 70. 8 $ 125. 5 $ 91. 3 12 / 31 / 2020 $ 45 64 . 4 1 $ 150 64 . 6 1 $ 59 120. 0 $ 65 . 7 12 / 31 / 2021 $ 56 80 . 9 3 $ 80. 3 $ 137. 7 $ 172 72 . 0 9 $ 65. 8 12 / 31 / 2022 $ 108 153 . 5 1 $ 137 153. 1 $ 109 . 6 $ 84 92 . 2 12 / 31 / 2023 $ 92 130. 0 $ 106. 4 $ 128 . 1 $ 160 74. 5 12 / 31 / 2024 $ 116. 6 $ 95. 7 $ 142 . 9 $ 68 82 . 0 9 Item 6. [Reserved] 33 36 Item 7. Management' s Discussion and Analysis of Financial Condition and Results of Operations. You should read the following discussion and analysis of our financial condition and results of operations together with our audited consolidated financial statements and the related notes included in this Annual Report. Some of the information contained in this discussion and analysis or set forth elsewhere in this Annual Report, including information with respect to our plans and strategy for our business and related financing, includes forward - looking statements that involve risks and uncertainties. You should read the" Risk Factors" section of this Annual Report for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward - looking statements contained in the following discussion and analysis. Basis of Presentation This discussion of our results omits our results of operations and cash flows for the year ended December 31, 2021 2022 , and the comparison of our results of operations for the years ended December 31, 2023, and 2022 and 2021 , which may be found in our Annual Report on Form 10- K for the year ended December 31, 2022 2023 , filed with the SEC on February 23 March 13 , 2023 2024 . Unless otherwise indicated, references in this " " Management' s Discussion and Analysis of Financial Condition and Results of Operations " " to " " ProPetro Holding Corp., " " " " the Company, " " " " we, " " " " our, " " " " us " " or like terms refer to ProPetro Holding Corp. and its subsidiaries. Overview We are a leading integrated oilfield energy service company, located in Midland, Texas, focused on providing innovative hydraulic fracturing, wireline and other complementary oilfield completion energy and power generation services to leading upstream oil and gas companies engaged in the exploration and production (" E & P ") of North American oil and natural gas resources. Our operations are primarily focused in the Permian Basin, where we have cultivated longstanding customer relationships with some of the region' s most active and well - capitalized E & P companies. The Permian Basin is widely regarded as one of the most prolific oil - producing areas in the United States, and we believe we are one of the leading providers of completion services in the region. Our completion services includes our operating segments comprised of hydraulic fracturing, wireline and cementing operations. Our hydraulic fracturing operations account for approximately 78 75 . 5 6 % of our total revenues and operations. Our total available hydraulic horsepower (" " HHP " ") at December 31, 2023 2024 , was 1, 461 556 , 500 HHP, which was comprised of 452 450 , 500 000 HHP of our Tier IV Dynamic Gas Blending (" DGB ") dual- fuel equipment, 144 294 , 000 HHP of FORCESM -- FORCE ® electric- powered equipment and 865 812 , 000 500 HHP of conventional Tier II equipment. Our hydraulic fracturing fleets range from approximately 50, 000 to 80, 000 HHP depending on the job design and customer demand at the wellsite. Our equipment has been designed to handle the operating conditions commonly encountered in the Permian Basin and the region' s increasingly high- intensity well completions (including simultaneous hydraulic fracturing (" Simul- Frac"), which involves fracturing multiple wellbores at the same time), which are characterized by longer horizontal wellbores, more stages per lateral and increasing amounts of proppant per well. With the industry transition to lower emissions equipment and Simul- Frac, in addition to several other changes to our customers' job designs, we believe that our available fleet capacity could decline if we decide to reconfigure our fleets to increase active HHP and backup HHP at wellsites. In addition, in 2021 and 2022, we committed to additional conversions of our Tier II equipment to Tier IV DGB, and to purchase new Tier IV DGB dual- fuel equipment. As such, we entered into conversion and purchase agreements with our equipment manufacturers for a total of 452, 500 HHP of Tier IV DGB dual- fuel equipment and as of December 31, 2023, we have received all of the converted and new Tier IV DGB dual- fuel equipment by the end of 2023, representing 450, 000 HHP of our Tier IV DGB dual- fuel equipment as of December 31, 2024 . In 2022, we entered into three- year electric fleet leases for a total of four FORCESM -- FORCE ® electric- powered hydraulic fracturing fleets with 60, 000 HHP per fleet and in June 2024, we entered into an additional three- year lease for a fifth FORCE ® electric- powered hydraulic fracturing fleet with 72, 000 HHP . As of December 31, 2023 2024 , we have received 144 294 , 000 HHP of FORCESM -- FORCE ® electric- powered equipment representing four fleets and a portion of the fifth fleet . We currently expect to receive the remaining equipment associated with the fifth second and third fleets and all equipment associated with the fourth fleet in the first half of 2025. In the fourth quarter of 2024 , we formed a new subsidiary, ProPetro Energy Solutions, LLC, (" PROPWR ") to provide power generation services to oil and gas producers and non- oil and gas applications such as general industrial projects and data centers . On This subsidiary has ordered equipment, but it has not yet begun revenue- generating activities. 37 secured by substantially all assets of the former employee' s business and the former employee' s ownership interests in and distributions from the business. The note receivable is to be paid to the Company in quarterly installments with interest of 10 % per annum from March 31, 2025, to December 31, 2029. We recorded a gain on disposal of $ 8. 2 million related to the sale of the business. The former employee was part of our cementing operations until November 1, 2022 2024 , and is no longer affiliated with the Company. On May 31, 2024 , we consummated the acquisition of all of the outstanding equity limited liability company interests in Aqua Prop of Silvertip Completion Services Operating , LLC (the " Silvertip AquaProp "), which provides wet sand solutions for hydraulic fracturing sand requirements at oil well sites (the " AquaProp Acquisition ") . The cash consideration , which provides wireline perforation and ancillary services solely in the Permian Basin in exchange for the AquaProp Acquisition includes 10. 1 million shares of our common stock valued at $ 106 13 , 7 million paid to , $ 30. 0 million of cash, the payoff of seller, $ 7. 2 million of assumed paid to settle the seller' s outstanding debt, and the payment of certain $ 0. 3 million paid for other -- the closing and seller' s transaction costs expenses . At December 31, 2023 As a result of the AquaProp Acquisition , we expanded our had 23 wireline units available to provide wireline perforation --- operations into the wet and sand ancillary services. The Silvertip Acquisition positions the Company as a more resilient and diversified completions- focused oilfield service business unit provider headquartered in the Permian Basin . 34 On December 1, 2023, we consummated the purchase of the assets and operations of Par Five Energy Services LLC (" Par Five "), which provides cementing services in the Delaware Basin, in exchange for $ 25. 4 million of cash , including deferred cash consideration of $ 3 . 1 million which is payable to Par Five ' s business or its beneficiary on June 1, 2025, with interest of 4. 0 % per annum (the " Par Five Acquisition "). The Par Five Acquisition complements complemented our existing cementing business and enables enabled us to serve both the Midland and Delaware sub- Basins basins of the Permian Basin. Our On November 1, 2022, we consummated the acquisition of all of the outstanding limited liability company interests of Silvertip Completion Services Operating, LLC (the " Silvertip Acquisition "), which provides wireline perforation and ancillary services in the Permian Basin in exchange for 10. 1 million shares of our common stock valued at $ 106. 7 million, $ 30. 0 million of cash, the payoff of $ 7. 2 million of assumed debt, and the payment of certain other closing and transaction costs. At December 31, 2024, we had 26 wireline units available to provide wireline perforation and ancillary services. Collectively, the AquaProp Acquisition, the Par Five Acquisition and the Silvertip Acquisition have positioned the Company as a more integrated and diversified completions- focused energy service provider. See Note 4. Business Acquisitions in the financial statements for additional disclosures. We believe that our substantial market presence in the Permian Basin positions us well to capitalize on drilling and completion activity in the region. Primarily, our operational focus has been in the Permian Basin' s Midland sub- basin, where our customers have operated. However, we have increased our operations in the Delaware sub- basin and are well- positioned to support further increases to our activity in this area in response to demand from our customers. Over time, we expect the Permian Basin' s Midland and Delaware sub- basins to continue to command a disproportionate share of future North American E & P spending. We have historically conducted our business through four operating segments: hydraulic fracturing, wireline, cementing and coiled tubing. Prior to the fourth quarter of fiscal year 2023, our operating segments met the aggregation criteria and were aggregated into the " Completion Services " reportable segment and our coiled tubing operations (which were divested in September 2022) were shown in the " All Other " category. Effective as of in the the fourth quarter of fiscal year 2023, we revised our segment reporting as we determined that our three operating segments no longer met the criteria to be aggregated. In the fourth quarter of fiscal year 2024, we formed PROPWR to provide power generation services to oil and gas producers and non- oil and gas applications such as general industrial projects and data centers. This new subsidiary has ordered equipment, but it has not yet begun revenue- generating activities. Our Hydraulic hydraulic Fracturing fracturing and , Wireline wireline and cementing operating segments meet the criteria of a reportable segment. Our cementing and our divested coiled tubing and our newly formed power generation services segments are do not meet the material, are not separately reportable , segment criteria and are included within the " All Other " category. Prior period segment information has Additionally, our corporate administrative activities do not involve business activities from which it may earn revenues and its results are not regularly reviewed by the Company' s Chief Operating Decision Maker (the " CODM ") when making key operating and resource decisions. As a result, corporate administrative expenses have been included under " Reconciling Items revised to conform to our current presentation. " For additional financial information on our reportable segments presentation, please see reportable segment information in Part II- Item 8, " " Financial Statements and Supplementary Data. " " Pioneer Pressure Pumping Acquisition On December 31, 2018, we consummated the purchase of certain pressure pumping assets and real property from Pioneer Natural Resources USA, Inc. (" Pioneer ") and Pioneer

Pumping Services, LLC in the Pioneer Pressure Pumping Acquisition in exchange for 16. 6 million shares of our common stock and $ 110. 0 million in cash **. In May 2024** , **Pioneer merged with** and **into a wholly owned subsidiary of ExxonMobil after which ExxonMobil became the owner of these shares. The Company** ~~concurrently~~ ~~---~~ **currently provides pressure pumping, wireline and other services to ExxonMobil and previously provided such services to Pioneer. 38 On April 22, 2024, we** entered into a **sub-** ~~pressure pumping services~~ agreement **for** ~~(the" Pioneer Services Agreement") with Pioneer. On March 31, 2022, we entered into an amended and restated pressure pumping services agreement (the " A & R Pressure Pumping Services Agreement ") to replace the Pioneer Services Agreement that was entered into in connection with the Pioneer Pressure Pumping Acquisition. This agreement expired at the conclusion of its term and was replaced by the Fleet One Agreement and Fleet Two Agreement described below. On October 31, 2022, we entered into two pressure pumping services agreements (the " Fleet One Agreement " and the " Fleet Two Agreement ") with Pioneer, pursuant to which we provided~~ hydraulic fracturing services with **XTO, a wholly owned subsidiary of ExxonMobil, pursuant to which we will provide hydraulic fracturing, wireline and pumpdown services with** two committed **FORCE ® electric- powered hydraulic fracturing** fleets **with the option to add a third FORCE ® fleet (also with wireline and pumpdown services) for a period of three years or for contracted hours, whichever occurs last with respect to each fleet** , subject to certain termination and release rights. The ~~Fleet One Agreement was effective as of January 1, 2023 and was terminated on August 31, 2023. The Fleet Two Agreement was effective as of January 1, 2023 and was terminated on May 12, 2023. In October 2023, Pioneer entered into a merger agreement with Exxon Mobil Corporation. Similarly, the~~ geopolitical and macroeconomic consequences of **military action in the Middle East,** the Russian invasion of Ukraine, including the associated sanctions, and the adverse impacts of the COVID- 19 pandemic ~~in recent years~~ have resulted in volatility in supply and demand dynamics for crude oil and associated volatility in crude oil pricing. As the global response to the COVID- 19 pandemic began to wane, the demand and prices for crude oil increased from the lows experienced in 2020, with the WTI average crude oil price ~~35 If~~ **reaching approximately $ 94 per barrel in 2022, the highest average price in the prior ten years. However, the WTI average crude oil price declined to approximately $ 78 per barrel in 2023 and approximately $ 76 per barrel in 2024. We believe that the volatility of crude oil prices in recent years has been partly driven by declines in crude oil supplies, concerns over sanctions resulting from Russia' s invasion of Ukraine, concerns over a potential disruption of Middle Eastern oil supplies resulting from the conflict in the Middle East, slower crude oil production growth due to the lack of reinvestment in the oil and gas industry in the last three years, the extension of OPEC production cuts of approximately 3. 9 million barrels per day originally announced in 2023, and concerns of a potential global recession resulting from high inflation and interest rates. With the significant increase in global crude oil prices from 2021, including the WTI crude oil price, there was a significant increase in** the Permian Basin rig count ~~and market conditions improve~~ **from approximately 179 at the beginning of 2021 to approximately 353 at the end of 2022** . ~~including~~ **according to the Baker Hughes. Following the increase in rig count and the WTI crude oil price, the energy service industry has experienced increased demand for its completion services, and** improved pricing **. However, the Permian Basin rig count experienced a 13 % decrease in 2023 to 309 at the end of 2023 and further decreased to 304 at the end of 2024 which resulted in a reduction in the demand** for ~~our~~ **completion** services and **pressure on pricing of our services. Sustained levels of high inflation likewise caused the U. S. Federal Reserve and other central banks to increase interest rates, and to the extent elevated inflation remains, we may experience further cost increases for our operations, including interest rates,** labor **costs** ~~availability,~~ and **equipment. We cannot predict any future trends in the rate of inflation and crude oil prices. A significant increase in or continued high levels of inflation, to the extent** we are ~~able~~ **unable** to ~~meet~~ **timely pass-through the cost increases to** our customers ~~'~~ **, further declines in crude oil prices, or potential change in U. S trade policy, including the imposition of tariffs and the resulting consequences, would negatively impact our business, financial condition and results of operations. See Part II, Item 1A. " Risk Factors — We may be adversely affected by the effects of inflation. " Government regulations and investors are demanding the oil and gas industry transition to a lower emissions operating environment, including upstream and energy service companies. As a result, we are working with our customers and equipment manufacturers to transition our equipment to a lower emissions profile. Currently, a number of lower emission solutions for pumping equipment, including Tier IV DGB dual- fuel, FORCE ® electric, direct drive gas turbine and other technologies have been developed, and we expect additional lower emission solutions will be developed in the future. We are continually evaluating these technologies and other investment and acquisition opportunities that would support our existing and new customer relationships. The transition to** lower emissions equipment ~~demands~~ **is quickly evolving and will be capital intensive. Over time** , we ~~believe~~ **may be required to convert substantially all of our conventional Tier II equipment to lower emissions equipment. We have transitioned our hydraulic fracturing available equipment portfolio from approximately 10 % lower emissions equipment in 2021 to approximately 35 % in 2022, 60 % in 2023, 70 % in 2024, and expect to increase to approximately 75 % by the end of the first quarter of 2025. To the extent any of our customers have certain expectations** ~~our~~ **or** ~~operational and~~ **requirements with respect to emissions reductions from their contractors, if we are unable to continue quickly transitioning to lower emissions equipment, the demand for our services could be adversely impacted. 39** financial results will also continue to improve. If the rig count or market conditions do not improve or decline in the future, and we are unable to increase our pricing or pass- through future cost increases to our customers, there could be a material adverse impact on our business, results of operations and cash flows. **Our results of operations have historically reflected seasonal tendencies, typically in the fourth quarter, relating to the holiday season, inclement winter weather and exhaustion of our customers' annual budgets. As a result, we typically experience declines in our operating and financial results in November and December, even in a stable commodity price and operations environment.** ~~2023~~ **2024** Operational Highlights Over the course of the year ended December 31, ~~2023~~ **2024** : ~~•~~ **we** ~~improved pricing and increased operational efficiency at wellsites; • our average effectively utilized hydraulic fracturing fleet count was approximately 15 active fleets, consistent with 15 active fleets in 2022; • successfully integrated our wireline business with our existing hydraulic fracturing and cementing businesses; 36 •~~ deployed two ~~FORCESM~~ ~~-~~ **FORCE ®** electric- powered hydraulic fracturing fleets with a total capacity of 120, 000 HHP **.** ~~, and transitioned 452, 500 HHP of our~~ **Four FORCE ® electric** ~~equipment portfolio to lower emissions, Tier IV DGB dual-~~ **powered hydraulic fracturing** ~~fuel equipment. By adding two additional electric~~ fleets ~~by the end of the first half of 2024, are now operating under contract with leading customers; •~~ our available equipment portfolio is expected to be comprised of approximately ~~65~~ **75** % lower emissions (~~FORCESM~~ ~~-~~ **FORCE ®** electric and Tier IV DGB dual- fuel), and ~~35~~ **25** % conventional diesel equipment **by the end of 2025** ; ~~•~~ **despite market volatility, our average active hydraulic fracturing fleet count was approximately 14 fleets, a decrease from 15 active fleets in 2023; • we** published our ~~inaugural~~ **second annual** sustainability report, which describes our commitment to building a sustainable business that supports the safe, reliable production of the energy the world needs by offering competitive, value- driving services to customers, while benefitting our shareholders, communities, and other stakeholders; ~~and • on December 1, 2023,~~ we consummated the purchase of **all** ~~the assets and operations~~ of ~~Par Five~~ **the outstanding equity interests in AquaProp on May 31, 2024** , which provides ~~cementing~~ **wet sand solutions for hydraulic fracturing sand requirements at oil well sites; and • we formed PROPWR in the fourth quarter of 2024, to provide power generation** services ~~in the Delaware Basin~~ **to oil and gas producers and non- oil and gas applications such as general industrial projects and data centers** . **This subsidiary has ordered equipment, but has not yet begun revenue- generating activities.** ~~2023~~ **2024** Financial Highlights Financial highlights for the year ended December 31, ~~2023~~ **2024** : ~~•~~ ~~revenue increased~~ **net loss was** $ ~~350~~ **137** . ~~7~~ **9** million, ~~or 27. 4 %, to $ 1, 630. 4 million, as~~ compared to **net income of** $ **85** ~~1, 279~~ . ~~7~~ **6** million for the year ended December 31, ~~2022~~ **2023** ~~; • cost of services (exclusive of depreciation and amortization) increased $ 249~~ . **Diluted net loss per common share was $ 1. 31, compared to diluted net income of $** 0 ~~million or 28~~ . **76** ~~2~~ % ~~to $ 1, 131. 8 million, as compared to $ 882. 8 million~~ for the year ended December 31, ~~2022~~ **2023** ~~; cost~~ **. Net loss for included property and equipment impairment expense** of ~~services as a percentage~~ **$ 188. 6 million related to our conventional Tier II diesel- only hydraulic fracturing pumping units and associated conventional assets and goodwill impairment expense** of ~~revenue~~ **$ 23. 6 million related to the goodwill in our wireline operating segment. Adjusted EBITDA of approximately $ 283. 2 million** ~~increased~~ **decreased 29** ~~to 69~~ . ~~4~~ **9** % **,** ~~in 2023~~ compared to ~~69~~ **$ 404** . 0 % **million** for the year ended December 31, ~~2022; • general and administrative expenses, inclusive of stock- based compensation, increased $ 2. 6 million, or 2. 3 % to $ 114. 4 million, as compared to $ 111. 8 million for the year ended December 31, 2022; • no impairment expense was recorded during the year December 31,~~ 2023 ~~, compared to $ 57. 5 million impairment expense recorded during the year ended December 31, 2022 related to our DuraStim ® electric- powered hydraulic fracturing equipment; • net income was $ 85. 6 million, compared to $ 2. 0 million for the year ended December 31, 2022. Diluted net income per common share was $ 0. 76, compared to $ 0. 02 for the year ended December 31, 2022. Adjusted EBITDA of approximately $ 404. 0 million increased 27. 6 %, compared to $ 316. 6 million for the year ended December 31, 2022~~ (see reconciliation of Adjusted EBITDA to net income in the subsequent section ~~" "~~ How We Evaluate Our Operations ~~" "~~); ~~•~~ **capital expenditures were reduced to $ 133. 4 million or 57 % as compared to 2023; • net cash provided by operating activities less net cash used in investing activities improved by $ 106. 6 million compared to 2023; • our accounts receivable to accounts payable ratio increased to 2. 1 from 1. 5. Working capital (current assets less current liabilities) increased to $ 70. 0 million from $ 39. 7 million; •** our total liquidity was $ ~~134~~ **160. 9 million as of December 31, 2024. consisting of cash and cash equivalents of $ 50** . 4 million ~~, consisting of cash, cash equivalents and restricted cash of $ 33. 4 million~~ and remaining availability of $ ~~101~~ **110** . ~~0~~ **5** million under our ABL Credit Facility; **we had** $ 45. 0 million of borrowings as of December 31, ~~2023~~ **2024 ,** under our ABL Credit Facility; and • the Company repurchased and retired ~~5~~ **7** . ~~8~~ **2** million shares of common stock for an aggregate of $ ~~51~~ **59** . ~~7~~ **1** million, an average price per share of $ 8. ~~93~~ **21** including commissions, under the **share** repurchase program. As of December 31, ~~2023~~ **2024** , $ ~~48~~ **89** . ~~3~~ **2** million remained authorized for future repurchases of common stock under the **share** repurchase program ~~. • In connection with the review of our power ends estimated useful life, effective January 1, 2023, we are writing off the remaining book value of power ends that prematurely fail as accelerated depreciation. These write- off amounts were $ 12. 5 million, $ 11. 8 million, $ 8. 4 million and $ 6. 0 million for the three months ended March, 31, 2023, June 30, 2023, September 30, 2023 and December 31, 2023, respectively. However, to conform to prior year presentation, we have presented these write- off amounts within loss on disposal of assets for the year ended December 31, 2023. In 2022 and 2021, we wrote off the remaining book value of prematurely failed and disposed of power ends to loss on disposal of assets~~ . Our Assets and Operations Completion services includes our hydraulic fracturing, wireline and cementing operations. We primarily provide these services to E & P companies in the Permian Basin. During the year ended December 31, ~~2023~~ **2024** , our hydraulic fracturing, wireline and cementing operations accounted for ~~78~~ **75** . ~~5~~ **6** %, 14. 1 % **,** and ~~7~~ **10** . ~~4~~ **3** % of our total revenue, respectively. Our equipment has been designed to handle Permian Basin specific operating conditions and the region' s increasingly high - intensity well completions, which are characterized by longer horizontal wellbores, more frac stages per lateral and increasing amounts of proppant per well. We plan to continually reinvest in our equipment to ensure optimal performance and reliability. ~~37~~

How We Generate Revenue We generate revenue through our completion services, and more specifically, by providing hydraulic fracturing services to our customers. We ~~own and~~ operate a fleet of mobile hydraulic fracturing, wireline and cementing units and other auxiliary equipment to perform completion services to E & P companies. We also provide personnel and services that are tailored to meet each of our customers' needs. Hydraulic fracturing operations account for a significant portion of our total revenue. We charge our customers on a per - job basis, in which we set pricing terms after receiving full specifications for the requested job, including the lateral length of the customer' s wellbore, the number of frac stages per well, the amount of proppant and chemicals to be used and other parameters of the job. In addition to hydraulic fracturing services, we generate revenue through other completion services that we provide to our customers, including **wireline,** cementing ~~, wireline~~ and other related services. These completion services are complementary to each other and are undertaken in unison with hydraulic fracturing services. They are provided through various contractual arrangements, including on a turnkey contract basis, in which we set a price to perform a particular job, or a daywork contract basis, in which we are paid a set price per day for our services. We are also sometimes paid by the hour for these complementary services. Demand for our services is largely dependent on oil and natural gas prices, and our customers' well completion budgets and rig count. Our revenue, profitability and cash flows are highly dependent upon prevailing crude oil prices and expectations about future prices. For many years, oil prices and markets have been extremely volatile. Prices are affected by many factors beyond our control. The average WTI oil price per barrel was approximately $ **76, $** 78, **and** $ 94 ~~and $ 68~~ for the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~, respectively. In January ~~2024~~ **2025**, the WTI oil price was approximately $ 74 per barrel. If the WTI oil price declines in the future or remains highly volatile, demand for our services may be negatively impacted, which could result in a significant decrease in our future profitability and cash flows. We monitor oil and natural gas prices and the Permian Basin rig count to enable us to more effectively plan our business and forecast the demand for our services. The historical weekly average Permian Basin rig count based on Baker Hughes rig count information was as follows: Year Ended December 31, Drilling Rig Type (Permian Basin) ~~2023202220221Directional3~~ ---- **202420232022Directional3** 3 ~~2~~ **3** ~~Horizontal323~~ **Horizontal296 323** 318 ~~227 Vertical9~~ **Vertical10 9** 14 ~~11 Total335~~ **Total309** 335 ~~240~~ **335** Average Permian Basin rig count to U. S. rig ~~count48~~ **count51. 6 % 48** . 7 % 46. 3 ~~% 50. 5~~ % Costs of Conducting our Business The principal direct costs involved in operating our business are direct labor, expendables and other direct costs. Direct Labor Costs. Payroll and benefit expenses related to our crews and other employees that are directly or indirectly attributable to the effective delivery of services are included in our operating costs. Direct labor costs amounted to **30. 2 % and** 28 ~~. 7 % and 27~~. 7 % of total costs of service for the years ended December 31, **2024, and** 2023 ~~and 2022~~, respectively. The increase in our direct labor costs percentage is driven by wage adjustments and higher headcount resulting from business acquisitions. Expendables. Expendables include the product and freight costs associated with proppant, chemicals and other consumables used in our completion services and other operations. These costs comprise a substantial variable component of our service costs, particularly with respect to the quantity and quality of sand and chemicals demanded when providing hydraulic fracturing services. Expendable product costs comprised approximately **25. 7 % and** 32. 9 % ~~and 33. 6 %~~ of total costs of service for the years ended **41** December 31, **2024, and** 2023 ~~and 2022~~, respectively. The percentage decrease in our expendables ~~in 2023~~ was primarily attributable to certain customers electing to directly source sand and the associated logistics. Other Direct Costs. We incur other direct expenses related to our service offerings, including the costs of fuel, repairs and maintenance, general supplies, equipment rental **, lease costs on our FORCE ® electric- powered hydraulic fracturing fleets,** and other miscellaneous operating expenses. Fuel is consumed both in the operation and movement of our equipment. Repairs and maintenance costs are expenses directly related to upkeep of equipment, which have been amplified by the demand for higher horsepower jobs. Capital expenditures to upgrade or extend the useful life of equipment are capitalized and are not included in other direct costs. Other direct costs were **44. 1 % and** 38. 4 ~~% and 38. 7~~ % of total costs of service for the years ended December 31, **2024, and** 2023 ~~and 2022~~, respectively. ~~38~~ **The percentage increase in our other direct costs was primarily attributable to lease costs on our FORCE ® fleets.** Our management uses Adjusted EBITDA or Adjusted EBITDA margin to evaluate and analyze the performance of our various operating segments. Adjusted EBITDA and Adjusted EBITDA Margin We view Adjusted EBITDA and Adjusted EBITDA margin as important indicators of performance. We define EBITDA as our earnings, before (i) interest expense, (ii) income taxes and (iii) depreciation and amortization. We define Adjusted EBITDA as EBITDA, plus (i) loss / (gain) on disposal of assets **and businesses**, (ii) stock- based compensation, (iii) **business acquisition contingent consideration adjustments, (iv)** other expense / (income) ~~and ,~~ (~~iv~~ **v**) other unusual or nonrecurring (income) / expenses, such as impairment **expenses** ~~charges, retention bonuses, severance~~ , costs related to asset acquisitions, insurance recoveries, one- time professional fees and legal settlements **and (vi) retention bonuses and severance expense**. Adjusted EBITDA margin reflects our Adjusted EBITDA as a percentage of our revenues. Adjusted EBITDA and Adjusted EBITDA margin are supplemental measures utilized by our management and other users of our financial statements such as investors, commercial banks, and research analysts, to assess our financial performance because it allows us and other users to compare our operating performance on a consistent basis across periods by removing the effects of our capital structure (such as varying levels of interest expense), asset base (such as depreciation and amortization), nonrecurring (income) expenses and items outside the control of our management team (such as income taxes). Adjusted EBITDA and Adjusted EBITDA margin have limitations as analytical tools and should not be considered as an alternative to net income (loss), operating income (loss), cash flow from operating activities or any other measure of financial performance presented in accordance with **accounting principles generally accepted in the United States of America (“** GAAP **”)**. Note Regarding Non - GAAP Financial Measures Adjusted EBITDA and Adjusted EBITDA margin are not financial measures presented in accordance with GAAP (**" “** non- GAAP **" ”**), except when specifically required to be disclosed by GAAP in the financial statements. We believe that the presentation of Adjusted EBITDA and Adjusted EBITDA margin provide useful information to investors in assessing our financial condition and results of operations because it allows them to compare our operating performance on a consistent basis across periods by removing the effects of our capital structure, asset base, nonrecurring expenses (income) and items outside the control of the Company. Net income (loss) is the GAAP measure most directly comparable to Adjusted EBITDA. Adjusted EBITDA and Adjusted EBITDA margin should not be considered as alternatives to the most directly comparable GAAP financial measure. Each of these non- GAAP financial measures has important limitations as analytical tools because they exclude some, but not all, items that affect the most directly comparable GAAP financial measures. You should not consider Adjusted EBITDA and Adjusted EBITDA margin in isolation or as a substitute for an analysis of our results as reported under GAAP. Because Adjusted EBITDA and Adjusted EBITDA margin may be defined differently by other companies in our industry, our definitions of these non- GAAP financial measures may not be comparable to similarly titled measures of other companies, thereby diminishing their utility. The following tables **set forth certain** ~~provide a reconciliation of Adjusted EBITDA to the GAAP~~ financial **information with respect to the Company' s** ~~measure of net income (loss) for each of our~~ reportable segments ~~for the specified periods~~ **; intersegment revenues are shown under “ Reconciling Items ”** (in thousands): Hydraulic ~~FracturingWirelineAll~~ **FracturingWirelineCementingAll** ~~OtherYear~~ **OtherReconciling ItemsTotalYear** ended December 31, ~~2023Net income~~ **2024Service revenue** $ ~~131~~ **1** , **092, 000 $ 203, 182 $ 149, 411 $ — $ (307) $ 1, 444, 286 Adjusted EBITDA $ 270, 505 $** ~~343~~ **43 $** ~~42~~ , ~~051~~ **857** $ ~~17~~ **26** , ~~882~~ **539 $ (370) $ (57, 288) $ 283, 243** Depreciation and amortization **$** ~~156, 057 18~~ **182** , ~~762 5~~ **188 $ 20** , **633 $ 8** ~~845 Interest expense 1~~ , ~~014~~ **812 $** — **$ 100 $ 211** ~~14 Loss on disposal of assets 71~~ , ~~756 562 796 Other~~ **733 Property and equipment impairment** expense (1) ~~6~~ **$ 188** , ~~000~~ **601 $** — **$** — **$** ~~Other general and administrative expense4~~ — ~~28 Retention bonus and severance expense635 555 100 Adjusted EBITDA~~ $ — ~~366, 809~~ $ **188,** ~~61~~ **601 Goodwill** , ~~930 $ 24, 665 Hydraulic FracturingWirelineAll OtherYear ended December 31, 2022Net income (loss) $ 71, 697 $ 5, 388 $ (7, 865) Depreciation and amortization 117, 753 2, 619 7, 329 Impairment~~ **impairment** expense (2) **$** ~~57, 454~~ — **$ 23, 624 $** — ~~Loss (gain)~~ **$** — **$** — **$ 23, 624 Operating lease expense** on **FORCE ® fleets** ~~disposal of assets88, 765 (77) 13, 953 Other income~~ (3) ~~(2~~ **$ 47** , **141 $** ~~668) (4)~~ — **$** ~~Other general and administrative expense (4) 5, 124~~ — **$** — **$** ~~Severance expense1, 061~~ — ~~17 Adjusted EBITDA~~ $ ~~339~~ **47** , ~~186~~ **141 Capital expenditures $ 116, 257** $ 7, ~~926 $ 13~~ **713 $ 9** , ~~434~~ **376 $** — **$ 42 $ 133, 388 Goodwill $ 920 $** — **$** — **$** — **$** — **$ 920 Total assets $ 961, 485 $ 156, 349 $ 73, 935 $** — **$ 31, 876 $ 1, 223, 645** Hydraulic ~~FracturingWirelineAll~~ **FracturingWirelineCementingAll** ~~OtherYear~~ **OtherReconciling ItemsTotalYear** ended December 31, ~~2021Net loss~~ **2023Service revenue** $ **1** ~~(15~~ , ~~292)~~ **280, 523 $ 229, 599 $ 120, 277** $ — $ ~~(427) Depreciation and amortization 124, 999~~ — ~~8~~ **$ 1** , ~~076 Loss on disposal of assets 64, 986~~ — ~~14 Severance expense~~ — — ~~30~~ **630 , 399** Adjusted EBITDA $ ~~174~~ **366** , ~~693~~ **809 $ 61, 930 $ 24, 665** $ — $ **(49, 444) $ 403, 960 Depreciation and amortization $ 156, 057 $ 18, 762 $ 5, 845 $** — **$ 222 $ 180, 886 Operating lease expense on FORCE ® fleets (3) $ 5, 087 $** — **$** — **$** — **$** — **$ 5, 087 Capital expenditures $ 294, 377 $ 12, 203 $ 3, 440 $** — **$** — **$ 310, 020 Goodwill $** — **$ 23, 624 $** — **$** — **$** — **$ 23, 624 Total assets $ 1, 189, 526 $ 198, 957 $ 78, 475 $** — **$ 13, 354 $ 1, 480, 312 Hydraulic FracturingWirelineCementingAll OtherReconciling ItemsTotalYear ended December 31, 2022Service revenue $ 1, 143, 216 $ 31, 188 $ 91, 857 $ 13, 440 $** — **$ 1, 279, 701 Adjusted EBITDA $ 339, 186 $** 7, ~~693~~ **926 $ 14, 897 $ (1, 463) $ (43, 956) $ 316, 590 Depreciation and amortization $ 117, 753 $ 2, 619 $ 5, 089 $ 2, 240 $ 407 $ 128, 108 Property and equipment impairment expense (1) $ 57, 454 $** — **$** — **$** — **$** — **$ 57, 454 Capital expenditures $ 347, 757 $ 2, 265 $ 7, 769 $ 1, 876 $ 5, 649 $ 365, 316 Goodwill $** — **$ 23, 624 $** — **$** — **$** — **$ 23, 624 Total assets $ 1, 092, 658 $ 173, 489 $ 46, 944 $** — **$ 22, 695 $ 1, 335, 786** _____ (1) ~~Includes settlement~~ **Represents noncash property and equipment impairment** ~~expenses~~ **expense resulting from routine audits. on our conventional Tier II diesel- only hydraulic fracturing pumps and associated conventional assets** (~~2~~ **“ Tier II Units ”**) ~~Represents~~ **for the year ended December 31, 2024, and noncash impairment** expense **on** ~~in connection with the impairment of~~ our DuraStim ® electric- powered hydraulic fracturing equipment **for the year ended December 31, 2022. (4) For definitions of the non - GAAP financial measures of Adjusted EBITDA and Adjusted EBITDA margin and reconciliation of Adjusted EBITDA and Adjusted EBITDA margin to our most directly comparable financial measures calculated in accordance with GAAP, please read ~~"~~ **" ~~"~~** How We Evaluate Our Operations. **"** ~~" Included in our Adjusted EBITDA is reservation and idle fees of $ 0 and $ 27. 0 million for the years ended December 31, 2023 and 2022, respectively.~~ (5) The non - GAAP financial measure of Adjusted EBITDA margin for the Hydraulic Fracturing segment is calculated by taking Adjusted EBITDA for the Hydraulic Fracturing segment as a percentage of our revenues for the Hydraulic Fracturing segment. Revenue. Revenue ~~increased~~ **decreased** ~~27~~ **11** . 4 %, or $ ~~350~~ **186** , ~~7~~ **1** million, to $ 1, ~~630~~ **444** . ~~4~~ **3** million for the year ended December 31, ~~2023~~ **2024** , as compared to $ 1, ~~279~~ **630** . ~~7~~ **4** million for the year ended December 31, ~~2022~~ **2023** . Revenue by reportable segment was as follows: Hydraulic Fracturing. Our hydraulic fracturing segment revenues ~~increased~~ **decreased** ~~12~~ **14** . ~~0~~ **7** %, or $ ~~137~~ **188** , ~~3~~ **5** million for the year ended December 31, ~~2023~~ **2024** , as compared to the year ended December 31, ~~2022~~ **2023 . The decrease was primarily attributable to a decrease in our customers' activity levels as a result of a decrease in drilling activity and decreased customer pricing, partially offset by the addition of AquaProp' s operations in May 2024, which contributed $ 44. 1 million in revenues during 2024. Our average active hydraulic fracturing fleet count was approximately 14 fleets for the year ended December 31, 2024, a decrease from 15 fleets for the year ended December 31, 2023. Intersegment revenues, consisting of revenues derived from our wireline segment, totaled $ 0. 3 million and $ 0 for the years ended December 31, 2024 and 2023, respectively. Wireline. Our wireline segment revenue decreased 11. 5 %, or $ 26. 4 million for the year ended December 31, 2024, as compared to the year ended December 31, 2023. The decrease was primarily attributable to a decrease in our customers' activity levels as a result of a decrease in drilling activity and decreased customer pricing. Cementing. Our cementing segment revenue increased 24. 2 %, or $ 29. 1 million for the year ended December 31, 2024, as compared to the year ended December 31, 2023** . The increase was primarily attributable to the **addition of Par Five' s operations in December 2023, which contributed to $ 35. 3 million of the** increase in **revenues. Cost of Services. Cost of** ~~our existing and new customers' activity levels, resulting in higher demand for completion~~ services **decreased 5** ~~, and improved pricing~~ . ~~Our effectively utilized hydraulic fracturing fleet count was flat at 15 active fleets~~ **9 %, or $ 66. 3 million, to $ 1, 065. 5 million** for the year ended December 31, ~~2023~~ **2024** , ~~as in~~ **from $ 1, 131. 8 million during** the year ended December 31, ~~2022. The effectively utilized fleet count is determined by dividing the total number of days our fleets were actively working at wellsites during the month by 25 days (predetermined number of expected active work days in the month). Our revenue for the years ended December 31,~~ 2023 ~~and December 31, 2022 included reservation fees charged to a customer of approximately $ 0 and $ 27. 0 million, respectively. Wireline. Our wireline segment revenue increased 636. 2 %, or $ 198. 4 million for the year ended December 31, 2023, as compared to the year ended December 31, 2022. The increase was primarily attributable to a full year of activity for the year ended December 31, 2023 compared to only 61 days of activity during year ended December 31, 2022 since the wireline business was acquired on November 1, 2022. All Other. Revenue from the All Other category comprising of our cementing and our disposed of coiled tubing operations increased 14. 2 %, or $ 15. 0 million for the year ended December 31, 2023, as compared to the year ended December 31, 2022. The increase was primarily attributable to the increase in our existing and new customers' activity levels, resulting in higher demand for completion services, and improved pricing, partially offset by the discontinuation of our coiled tubing operations effective September 1, 2022. Cost of Services. Cost of services increased 28. 2 %, or $ 249. 0 million, to $ 1, 131. 8 million for the year ended December 31, 2023, from $ 882. 8 million during the year ended December 31, 2022** . Cost of services by reportable segment was as follows: Hydraulic Fracturing. Cost of services for our hydraulic fracturing segment ~~increased~~ **decreased** $ ~~110~~ **86** , ~~1~~ **0** million during the year ended December 31, ~~2023~~ **2024** , as compared to the year ended December 31, ~~2022~~ **2023 . As a percentage of hydraulic fracturing segment revenues (including equipment reservation fees), hydraulic fracturing cost of services was 73. 3 % for the year ended December 31, 2024, as compared to 69. 2 % for the year ended December 31, 2023 driven by the decreased activity levels, customer price decreases and the impact of general cost inflation. The decrease in cost of services was partially offset by an increase of $ 7. 6 million in insurance expense resulting from higher allocation of workers' compensation, general liability and automobile insurance costs to cost of services in 2024 compared to 2023 since these costs are primarily incurred for our operational workforce, and the addition of AquaProp' s operations in May 2024, which added $ 42. 5 million in cost of services during the year ended December 31, 2024. Wireline. Our wireline segment cost of services decreased 4. 7 %, or $ 7. 2 million for the year ended December 31, 2024, as compared to the year ended December 31, 2023 due to scaling back in response to decreased revenues. Intersegment cost of services, consisting of cost of services incurred to our hydraulic fracturing segment, totaled $ 0. 3 million and $ 0 for the years ended December 31, 2024 and 2023, respectively. Cementing. Our cementing cost of services increased 30. 1 %, or $ 27. 2 million for the year ended December 31, 2024, as compared to the year ended December 31, 2023** . The increase was primarily attributable to **the addition of Par Five' s operations in December 2023, which resulted in $ 27. 9 million of the net** ~~increased~~ **increase in cost of** ~~activity levels resulting from the increased demand for our~~ services **,** ~~as compared to 2022, and the impact of general~~ **General** ~~cost inflation~~ **and Administrative Expenses** . **General and administrative expenses remained flat at $ 114** ~~As a percentage of hydraulic fracturing revenues (including reservation fees), hydraulic fracturing cost of services increased to 69~~ . ~~2 %~~ **3 million** for the year ended December 31, ~~2023~~ **2024** , as compared to ~~67~~ **$ 114** . ~~9 %~~ **4 million** for the year ended December 31, ~~2022~~ **2023** . Excluding ~~reservation fees revenue~~ **nonrecurring and noncash items (i. e., stock- based compensation of $ 17. 3 million, legal settlements (net of insurance reimbursements)** of $ 0 ~~and $ 27~~ . ~~0~~ **2** million ~~for the years ended December 31~~ , **transaction expenses** ~~2023 and 2022, respectively, our hydraulic fracturing cost~~ of **$ 1** ~~services as a percentage of hydraulic fracturing revenues for the years ended December 31, 2023 and 2022 was approximately 69~~ . **6 million and retention bonuses and severance expenses of $** 2 ~~% and 69~~ . **3 million** ~~5 %, respectively. The decrease was a result of increased operational efficiencies and improved customer pricing~~ , partially offset by ~~costs~~ **business acquisition contingent consideration adjustments** of $ ~~38~~ **2** . ~~0~~ **6** million ~~associated with the replacement of fluid ends during~~ **), general and administrative expenses were $ 95. 5 million for** the year ended December 31, ~~2023~~ **2024** . ~~Fluid ends were capitalized and depreciated in 2022. Effective January 1~~ , ~~2023, the Company commenced expensing fluid ends~~ as **compared to** ~~part of cost of services rather than capitalizing fluid ends as part of property and equipment as a result of the change in estimated useful life. Wireline. Our wireline segment cost of services increased 634. 9 %, or~~ $ ~~134~~ **94** . ~~2~~ **6** million for the year ended December 31, 2023 **. Depreciation and Amortization. Depreciation and amortization increased 17. 1 %** , ~~as compared~~ **or $ 30. 8 million,** to **$ 211. 7 million for** the year ended December 31, ~~2022~~ **2024 , as compared to $ 180. 9 million for the year ended December 31, 2023** . The increase was primarily attributable to ~~a full year of activity for the the year ended December 31, 2023 compared to only 61 days of activity during year ended December 31, 2022 since the wireline business was acquired on November 1, 2022. All Other. Cost of services for the All Other category comprising of our cementing and our disposed of coiled tubing operations increased 5. 4 %, or $ 4. 6 million for the year ended December 31, 2023, as compared to the year ended December 31, 2022. The increase was primarily attributable to increased activity levels resulting from the increased demand for our services as compared to 2022, and the impact of general cost inflation, partially offset by the discontinuation of our coiled tubing operations~~

~~effective September 1, 2022. General and Administrative Expenses. General and administrative expenses increased 2. 3 %, or $ 2. 6 million, to $ 114. 4 million for the year ended December 31, 2023, as compared to $ 111. 8 million for the year ended December 31, 2022. The net increase was primarily attributable to~~ (i) **assets placed into service since December 31, 2023** ~~a $ 6. 3 million increase in payroll and related expenses~~, (ii) ~~a $ 5. 1 million increase in utilities, advertising and other office expenses, (iii) a $ 2. 1 million increase in travel expenses, and (iv) a $ 0. 4 million net increase in other general and administrative expenses, partially offset by (i) a $ 7. 4 million decrease in stock- based compensation expense primarily attributable to non- recurring incremental stock- based compensation in 2022 resulting from the acceleration of stock awards in connection with the resignation of former executives and (ii) a $ 3. 9 million decrease in one- time legal settlement expenses. Excluding nonrecurring and non- cash items (i. e., stock- based compensation of $ 14. 5 million, legal settlements (net of insurance reimbursements) of $ 0. 7 million, transaction expenses of $ 2. 3 million, and retention bonuses and severance expenses of $ 2. 3 million), general and administrative expenses were $ 94. 6 million for the year ended December 31, 2023, as compared to $ 80. 3 million for the year ended December 31, 2022. Depreciation and Amortization. Depreciation and amortization increased 41. 2 %, or $ 52. 8 million, to $ 180. 9 million for the year ended December 31, 2023, as compared to $ 128. 1 million for the year ended December 31, 2022. The increase was primarily attributable to the increase in our fixed asset base as of December 31, 2023. Impairment Expense. There was no impairment expense during the year ended December 31, 2023. During the year ended December 31, 2022, we recorded $ 57. 5 million in connection with the impairment of our DuraStim ® electric powered hydraulic fracturing equipment, which is included in our Hydraulic Fracturing reportable segment. Loss on Disposal of Assets. Loss on the disposal of assets decreased 28. 5 %, or $ 29. 1 million, to $ 73. 0 million for the year ended December 31, 2023, as compared to $ 102. 1 million for the year ended December 31, 2022. The decrease was primarily attributable to a loss of approximately $ 13. 8 million from the disposal of our coiled tubing assets on September 1, 2022 and the Company expensing costs associated with replacement of fluid ends as part of cost of services resulting from the change in estimated useful life effective January 1, 2023, partially offset by losses incurred from the decommissioning / conversion of certain hydraulic fracturing equipment and the write- off of certain hydraulic fracturing equipment as a result of an accidental fire at a wellsite in March 2023. Interest Expense. Interest expense increased to $ 5. 3 million for the year ended December 31, 2023, as compared to $ 1. 6 million for the year ended December 31, 2022. The increase was primarily attributable to higher average outstanding borrowings under our ABL Credit Facility during the year ended December 31, 2023 and~~ the addition of a finance lease for certain power generation equipment in August 2023 **which resulted in $ 19** . ~~Other Expense~~ **0 million of amortization,** (~~Income~~ **iii**) ~~- Other -~~ **the** ~~expense was approximately~~ **addition of Par Five' s operations in December 2023 which resulted in a** $ ~~9~~ **3** . 5 million ~~for~~ **increase in depreciation and (iv) the addition of AquaProp' s operations in May 2024 which included $ 3. 5 million of depreciation and amortization. Property and Equipment Impairment Expense. During** the year ended December 31, ~~2023~~ **2024** , ~~as compared to other income~~ **we recorded noncash property and equipment impairment expense** of $ ~~11~~ **188** . 6 million ~~for~~ **in connection with the impairment of our Tier II Units, which is included in our Hydraulic Fracturing reportable segment. No property and equipment impairment expense was recorded during** the year ended December 31, ~~2022~~ **2023** . ~~Other~~ **Goodwill Impairment** ~~expense~~ **Expense .** ~~during~~ **During** the year ended December 31, **2024, we recorded goodwill impairment expense of $ 23. 6 million in our Wireline reportable segment during the year ended December 31, 2024. No goodwill impairment expense was recorded during the year ended December 31, 2023. Loss on Disposal of Assets and Business. Loss on the disposal of assets and business decreased 89. 8 %, or $ 65. 5 million, to $ 7. 5 million for the year ended December 31, 2024, as compared to $ 73. 0 million for the year ended December 31, 2023. The decrease was primarily attributable to an $ 8. 2 million gain related to the sale of our cementing business located in Vernal, Utah, during 2024, losses incurred during 2023 from the decommissioning of certain hydraulic fracturing equipment, replacement of certain major components in connection with our conversion of certain Tier II hydraulic fracturing equipment to Tier IV DGB, and the write- off of certain hydraulic fracturing equipment as a result of an accidental fire at a wellsite in March 2023. Interest Expense. Interest expense increased to $ 7. 8 million for the year ended December 31, 2024, as compared to $ 5. 3 million for the year ended December 31, 2023. The increase was primarily attributable to higher average outstanding borrowings under our ABL Credit Facility during the year ended December 31, 2024 and the addition of a finance lease for certain power generation equipment in August 2023. Other (Income) Expense. Other income was approximately $ 5. 5 million for the year ended December 31, 2024, as compared to other expense of $ 9. 5 million for the year ended December 31, 2023. Other income during the year ended December 31, 2024 is primarily comprised of tax refunds (net of advisory fees) totaling $ 5. 0 million, insurance reimbursements of $ 2. 0 million and a $ 2. 6 million decrease in estimated fair value of the contingent consideration payable on our acquisition of AquaProp, partially offset by a $ 2. 0 million loss to a customer related to an accidental cementing job failure. Other expense for the year ended December 31,** 2023 is ~~primarily~~ comprised of settlement expenses resulting from routine audits and ~~one~~ **true** ~~- time~~ **up** health insurance costs totaling approximately $ 7. 4 million ~~,~~ and a $ 2. 5 million unrealized loss on short- term investment. ~~Other~~ **Income Taxes. Total** income ~~during~~ **tax benefit was $ 31. 4 million resulting in an effective tax rate of 18. 5 % for** the year ended December 31, ~~2022~~ **2024** ~~is comprised of a $ 10. 7 million net tax refund of sales~~ , ~~excise and use taxes and $ 2. 7 million of non- cash income from equipment parts inventory received from an equipment manufacturer~~ as **compared to** ~~settlement of our warranty claims, partially offset by a $ 1. 6 million unrealized loss on short- term investment. Income Taxes. Total~~ income tax expense ~~was~~ **of** $ 29. 9 million resulting in an effective tax rate of 25. 9 % for the year ended December 31, 2023 ~~, as compared to $ 5~~ . **The change in income** ~~4 million or an effective~~ tax **benefit recorded during** ~~rate of 72. 5 % for~~ the year ended December 31, ~~2022~~ **2024** ~~. The~~ **, compared to the** change in income tax expense recorded during the year ended December 31, 2023, ~~compared to the year ended December 31, 2022,~~ is primarily attributable to the difference in the impact of nondeductible expenses **and state taxes** on the **pre- tax loss for 2024, as compared to** pre- tax income for 2023 ~~, as compared to 2022~~ . Our liquidity is currently provided by (i) existing cash balances, (ii) operating cash flows and (iii) borrowings under our ABL Credit Facility (as defined below). Our cash is primarily used to fund our operations, support growth opportunities, fund share repurchases under our share repurchase program and satisfy future debt payments. Our ~~restricted cash, which was received from a customer will be used solely for the construction or operation of FORCESM electric- powered hydraulic fracturing equipment. Our~~ Borrowing Base (as defined below), as redetermined monthly, is tied to the sum of 85 % to 90 % of monthly eligible accounts receivable and 80 % of eligible unbilled accounts (up to a maximum of 25 % of the Borrowing Base), in each case, depending on the credit ratings of our accounts receivable counterparties, less customary reserves. Changes to our operational activity levels and our customers' credit ratings have an impact on our total eligible accounts receivable, which could result in significant changes to our Borrowing Base and, therefore, our availability under our ABL Credit Facility. We received advance payments from a customer for our services, and the amount outstanding in connection with the advance payments was $ **11. 8 million and $** 19. 2 million ~~and $ 10. 0 million~~ as of December 31, **2024 and** 2023 ~~and 2022~~ , respectively. ~~These~~ **There were no** amounts ~~included~~ **of** restricted cash ~~of $ 0 and $ 10. 0 million~~ as of December 31, **2024 and** 2023 ~~and 2022, respectively~~ . As of December 31, ~~2023~~ **2024** , our borrowings under our ABL Credit Facility were $ 45. 0 million and our total liquidity was $ ~~134~~ **160. 9 million, consisting of cash and cash equivalents of $ 50** . 4 million ~~, consisting of cash~~ and ~~cash equivalents of~~ $ ~~33~~ **110** . **5** ~~4 million and $ 101. 0~~ million of availability under our ABL Credit Facility. On ~~May 17~~ **April 24** , ~~2023~~ **2024** , the **Company' s board of directors (the "** Board ~~authorized~~ **") approved** ~~and~~ **an increase and extension to** the ~~Company announced a~~ share repurchase program ~~that allows~~ **previously authorized on May 17, 2023. The program permits** the ~~Company to~~ repurchase **of** up to **an additional** $ 100 million of the Company ~~'~~ **'** s common stock ~~beginning immediately~~ **for a total of $ 200 million** and ~~continuing through and including~~ **extends the expiration date by one year to** May 31, ~~2024~~ **2025** . The shares may be repurchased from time to time in open market transactions, block trades, accelerated share repurchases, privately negotiated transactions, derivative transactions or otherwise, certain of which may be made pursuant to a trading plan meeting the requirements of Rule 10b5- 1 under the Exchange Act, as amended, in compliance with applicable state and federal securities laws. The timing, as well as the number and value of shares repurchased under the program, will be determined by the Company at its discretion and will depend on a variety of factors, including management' s assessment of the intrinsic value of the Company' s common stock, the market price of the Company' s common stock, general market and economic conditions, available liquidity, compliance with the Company' s debt and other agreements, applicable legal requirements, and other considerations. The Company is not obligated to purchase any shares under the **share** repurchase program, and the program may be suspended, modified, or discontinued at any time without prior notice. The Company expects to fund the repurchases using cash on hand and expected free cash flow to be generated through May ~~2024~~ **2025** . During the year ended December 31, ~~2023~~ **2024** , the Company repurchased and retired ~~5~~ **7** . ~~8~~ **2** million shares of common stock for an aggregate of $ ~~51~~ **59** . ~~7~~ **1** million, an average price per share of $ 8. ~~93~~ **21** including commissions, under the **share** repurchase program. As of December 31, ~~2023~~ **2024** , $ ~~48~~ **89** . ~~3~~ **2** million remained authorized for future repurchases of common stock under the **share** repurchase program. ~~As part~~ **On May 31, 2024, the Company consummated the acquisition** of ~~our real estate~~ **all of the outstanding equity interests in AquaProp, which provides wet sand solutions for hydraulic fracturing sand requirements at oil well sites. The cash** ~~consolidation -~~ **consideration** ~~strategy~~ **for this acquisition includes $ 13. 7 million paid to the seller, $ 7. 2 million paid to settle the seller' s outstanding debt, and $ 0. 3 million paid for the seller' s transaction expenses. On November 1, 2024** , we sold our **cementing business located** ~~corporate office building and the associated real property~~ in ~~August 2023~~ **Vernal, Utah, to a business owned by a former employee as part of a strategic repositioning. We received a promissory note** for ~~cash proceeds of~~ $ ~~4~~ **13** . ~~7~~ **0** million ~~after commission~~ **as consideration. The note receivable is secured by substantially all assets of the former employee' s business** and ~~closing costs~~ **the former employee' s ownership interests in** and ~~recognized~~ **distributions from the business. The note receivable is to be paid to the Company in quarterly installments with interest of 10 % per annum from March 31, 2025 to December 31, 2029. We recorded** a gain on disposal of ~~assets of~~ $ ~~0~~ **8** . **2 million related to the sale of the business. The former employee was part of our cementing operations until November** 1 ~~million during the year ended December 31~~ , ~~2023~~ **2024 and is no longer affiliated with** ~~. We have subsequently relocated our corporate office to a leased office space. See" Note 17- Leases" for further information. On December 1, 2023,~~ the Company ~~consummated the purchase of the assets and operations of Par Five, which provides cementing services in the Delaware Basin in exchange for cash consideration of $ 25. 4 million. Par Five' s business complements our existing cementing business and enables us to serve both the Midland and Delaware Basins of the Permian Basin~~ . There can be no assurance that our operations and other capital resources will provide cash in sufficient amounts to maintain planned or future levels of capital expenditures and to continue with our share repurchases under our share repurchase program or fund future business acquisitions. Future cash flows are subject to a number of variables, and are highly dependent on the drilling ~~,~~ **and** completion, and production activity by our customers, which in turn is highly dependent on oil and natural gas prices. Depending upon market conditions and other factors, we may issue equity and debt securities or take other actions necessary to fund our business, strategy or meet our future long- term liquidity requirements. Cash ~~, Restricted Cash~~ and Cash Flows The following table sets forth our net cash provided by (used in) operating,

investing and financing activities during the years ended December 31, **2024 and** 2023 ~~and 2022~~, respectively. Year Ended December 31, (in thousands) ~~20232022Net~~ **20242023Net** cash provided by operating activities $ **252, 295 $** 374, 742 ~~$ 300, 429~~ Net cash used in investing activities $ (**155, 099) $ (** 384, 127 ~~) $ (349, 745~~) Net cash ~~(~~ used in ~~) provided by~~ financing activities $ (**80, 107) $ (** 46, 123) ~~$ 26, 260~~ Operating Activities Net cash provided by operating activities was $ ~~374~~ **252** . ~~7~~ **3** million for the year ended December 31, ~~2023~~ **2024** , as compared to $ ~~300~~ **374** . ~~4~~ **7** million for the year ended December 31, ~~2022~~ **2023** . The net ~~increase~~ **decrease** of $ ~~74~~ **122** . ~~3~~ **4** million was primarily due to **lower** ~~the improvement in our~~ net income **adjusted** ~~, resulting from the increase in our existing and new customers' activity levels, resulting in higher demand~~ for **noncash expenses** ~~completion services, increased operational efficiencies~~ and the ~~addition of wireline operations. The increase in cash provided by operating activities was also impacted by~~ timing of our receivable collections from our customers and payments to our vendors ~~, partially offset by increases in inventories and prepaid expenses~~. Investing Activities Net cash used in investing activities ~~increased~~ **decreased** to $ ~~384~~ **155** . 1 million for the year ended December 31, ~~2023~~ **2024** , from $ ~~349~~ **384** . ~~7~~ **1** million for the year ended December 31, ~~2022~~ **2023** . The ~~increase~~ **decrease** was primarily attributable to ~~maintenance~~ **our** capital ~~expenditures~~ **light strategy** and **the completion of** our **planned** ~~investment~~ **investments** in ~~lower emissions Tier IV DGB dual- fuel equipment (conversion of Tier II equipment to~~ Tier IV DGB equipment ~~and new Tier IV DGB equipment)~~. The following table summarizes our capital expenditures incurred by reportable segment for the periods indicated: Year Ended December 31, (in thousands) ~~20232022Reportable~~ ---- **20242023Reportable** Segments: Hydraulic Fracturing $ **116, 257 $** 294, 377 ~~$ 347, 757 Wireline12~~ **Wireline7 , 713 12** , 203 ~~2~~ **Cementing 9** , ~~265 All Other~~ **376 3, 440 Reconciling Items** (1) **42 — Total capital expenditures** ~~3, 440 9, 645 Reconciling Items~~ (2) ~~— 5~~ **$ 133** , **388** ~~649 Total capital expenditures~~ $ 310, 020 ~~$ 365, 316~~ (1) ~~All Other~~ **Reconciling Items** ~~includes~~ **include** our **corporate facilities** ~~cementing operating segment and our disposed coiled tubing operations~~. (2) **See Note 3. Supplemental Cash Flows Information in the financial statements for noncash** ~~Reconciling~~ **reconciling** ~~Items~~ **items** ~~include our corporate facilities~~. Financing Activities Net cash used in financing activities ~~was~~ **increased to** $ ~~46~~ **80** . 1 million for the year ended December 31, ~~2023~~ **2024** , compared to ~~net cash provided by of~~ $ ~~26~~ **46** . ~~3~~ **1** million for the year ended December 31, ~~2022~~ **2023** . The net increase was primarily driven by **net** ~~share repurchases of $ 51. 7 million, repayments of~~ borrowings of $ 15. 0 million ~~and~~ **under our ABL Credit Facility during the year ended December 31, 2023, a $ 13. 0 million increase in** payments of finance lease obligation ~~of~~ **and a** $ **7.** 4 ~~.7~~ million **increase in share repurchases and repayments of insurance financing of $ 1. 0 million during the year ended December 31, 2024, partially offset by a $ 1. 6 million decrease in tax withholdings paid for net settlement of equity awards and payment of debt issuance costs of $ 1. 2 million during the year ended December 31, 2023** . Our revolving credit facility, as amended and restated in April 2022, prior to giving effect to the amendment to the revolving credit facility in June 2023, had a total borrowing capacity of $ 150. 0 million. The revolving credit facility had a borrowing base of 85 % to 90 %, depending on the credit ratings of our accounts receivable counterparties, of monthly eligible accounts receivable less customary reserves. The revolving credit facility included a springing fixed charge coverage ratio to apply when excess availability was less than the greater of (i) 10 % of the lesser of the facility size or the borrowing base or (ii) $ 10. 0 million. Under the revolving credit facility we were required to comply, subject to certain exceptions and materiality qualifiers, with certain customary affirmative and negative covenants, including, but not limited to, covenants pertaining to our ability to incur liens, indebtedness, changes in the nature of our business, mergers and other fundamental changes, disposal of assets, investments and restricted payments, amendments to our organizational documents or accounting policies, prepayments of certain debt, dividends, transactions with affiliates, and certain other activities. Effective June 2, 2023, the Company entered into an amendment to its amended and restated revolving credit facility **. The amendment increased** the **borrowing capacity under the ABL Credit Facility to $ 225. 0 million (subject to the Borrowing Base limit), and extended the maturity date to June 2, 2028. Effective June 26, 2024, the company entered into an amendment to its amended and restated** revolving credit facility (**the revolving credit facility,** as amended and restated in April 2022, as amended in June 2023 **, as amended in June 2024** and as may be amended further, **" ~~the~~ "** ABL Credit Facility **" "**). The amendment increased the ~~borrowing capacity under the ABL Credit Facility~~ **amount of noncash consideration that may be considered cash pursuant** to **certain permitted dispositions** ~~$ 225. 0 million (subject to the Borrowing Base limit), and extended the maturity date to June 2, 2028~~. The ABL Credit Facility has a borrowing base of the sum of 85 % to 90 % of monthly eligible accounts receivable and 80 % of eligible unbilled accounts (up to a maximum of 25 % of the ~~Borrowing~~ **borrowing** ~~Base~~ **base**) **, in each case, depending on the credit ratings of our accounts receivable counterparties,** less customary reserves (the **" "** Borrowing Base **" "**) ~~, in each case, depending on the credit ratings of our accounts receivable counterparties,~~ as redetermined monthly. The Borrowing Base as of December 31, ~~2023~~ **2024** , was approximately $ ~~152~~ **164** . ~~0~~ **1** million. The ABL Credit Facility includes a springing fixed charge coverage ratio to apply when excess availability is less than the greater of (i) 10 % of the lesser of the facility size or the Borrowing Base or (ii) $ 15. 0 million. Under the ABL Credit Facility we are required to comply, subject to certain exceptions and materiality qualifiers, with certain customary affirmative and negative covenants, including, but not limited to, covenants pertaining to our ability to incur liens or indebtedness, changes in the nature of our business, mergers and other fundamental changes, disposal of assets, investments and restricted payments, amendments to our organizational documents or accounting policies, prepayments of certain debt, dividends, transactions with affiliates, and certain other activities. Borrowings under the ABL Credit Facility are secured by a first priority lien and security interest in substantially all assets of the Company. Borrowings under the ABL Credit Facility accrue interest based on a three- tier pricing grid tied to availability, and we may elect for loans to be based on either the Secured Overnight Financing Rate (**" "** SOFR **" "**) or the base rate, plus the applicable margin, which ranges from 1. 75 % to 2. 25 % for SOFR loans and 0. 75 % to 1. 25 % for base rate loans **. The weighted average annual interest rate for our ABL Credit Facility for the year ended December 31, 2024, was 7. 12 %** . The loan origination costs relating to the ABL Credit Facility are classified as an asset ~~in~~ **on** our balance sheet. As of December 31, **2024, and** 2023 ~~and 2022~~, we had outstanding borrowings under our ABL Credit Facility of $ 45. 0 million and $ ~~30~~ **45** . 0 million, respectively **. We entered into a contractual arrangement with an equipment manufacturer to purchase mobile natural gas- fueled power generation equipment for our PROPWR business line, with a total cost of $ 122. 0 million, of which approximately $ 103. 7 million, representing progress payments beyond the initial down payment on this equipment, will be financed. We currently expect to start receiving this equipment from the end of the second quarter of 2025 through early 2026** . Off Balance Sheet Arrangements We had no material off balance sheet arrangements as of December 31, ~~2023~~ **2024** . Capital Requirements, Future Sources and Use of Cash Capital expenditures incurred were $ ~~310~~ **133** . ~~0~~ **4** million during the year ended December 31, ~~2023~~ **2024** , as compared to $ ~~365~~ **310** . ~~3~~ **0** million during the year ended December 31, ~~2022~~ **2023** . The significant portion of our total capital expenditures incurred during the year ended December 31, ~~2023~~ **2024 ,** were maintenance capital expenditures and conversion of our hydraulic fracturing equipment to lower emissions equipment. Our future material use of cash will be to fund our capital expenditures. Capital expenditures for ~~2024~~ **2025** are projected to be primarily related to capital expenditures to extend the useful life of our existing completion services assets, costs to convert some existing equipment to lower emissions **equipment, purchase power generation** equipment, strategic purchases and other ancillary equipment purchases, subject to market conditions and customer demand. Our future capital expenditures depend on our projected operational activity, emission requirements and planned conversions to lower emissions equipment, among other factors, which could vary significantly throughout the year. Based on our current plan and projected activity levels for ~~2024~~ **2025** , we expect our capital expenditures to range between $ **300 million to $ 400 million which includes approximately $ 150 million to $** 200 million ~~to~~ **for our completion services business and approximately** $ ~~250~~ **150** million **to $ 200 million for our PROPWR business. We entered into a contractual arrangement with an equipment manufacturer to purchase mobile natural gas- fueled power generation equipment for our PROPWR business line, with a total cost of $ 122. 0 million, of which approximately $ 103. 7 million will be financed, representing progress payments beyond the initial down payment on this equipment. We currently expect receive this equipment beginning with the end of the second quarter of 2025 through early 2026. We entered into a contractual arrangement with another related equipment manufacturer to purchase additional natural gas- fueled power generation equipment for our PROPWR business line, with a total cost of $ 25. 0 million. We currently expect to receive this equipment in the first half of 2025** . We could incur significant additional capital expenditures if our projected activity levels increase during the course of the year, inflation and supply chain tightness continues to adversely impact our operations or we invest in new or different lower emissions equipment. The Company will continue to evaluate the emissions profile of its equipment over the coming years and may, depending on market conditions, convert or retire additional conventional Tier II equipment in favor of lower emissions equipment. The Company' s decisions regarding the retirement or conversion of equipment or the addition of lower emissions equipment will be subject to a number of factors, including (among other factors) the availability of equipment, including parts and major components, supply chain disruptions, prevailing and expected commodity prices, customer demand and requirements and the Company' s evaluation of projected returns on conversion or other capital expenditures. Depending on the ~~impacts~~ **impact** of these factors, the Company may decide to retain conventional equipment for a longer period of time or accelerate the retirement, replacement or conversion of that equipment. We anticipate our capital expenditures will be funded by existing cash, cash flows from operations, and if needed, borrowings under our ABL Credit Facility. Our cash flows from operations will be generated from services we provide to our customers. Contractual Obligations The following table presents our contractual obligations and other commitments as of December 31, ~~2023~~ **2024** : (in thousands) PeriodTotal 1 year or lessMore than 1 yearABL Credit Facility (1) $ 45, 000 $ — $ 45, 000 Operating leases (2) (3) ~~110~~ **126** , ~~083 33~~ **550 51** , ~~680 76~~ **238 75** , ~~403~~ **312** Finance lease (4) ~~52, 534~~ **34** ~~19~~ , ~~872 32~~ **377 20** , ~~662~~ **915 13, 462** Sand ~~commitment~~ **commitments** (5) ~~17~~ **1** , ~~659 17~~ **500 1** , ~~659~~ **500** — **Equipment purchase commitments (6) 147, 000 120, 160 26, 840** Par Five deferred cash consideration (~~6~~ **7**) 3, ~~180~~ **109 3, 109** — **AquaProp deferred cash consideration (8)** 3, ~~180~~ **664 3, 664 —** Total $ ~~228~~ **361** , ~~456~~ **200** $ ~~71~~ **200** , ~~211~~ **586** $ ~~157~~ **160** , ~~245~~ **614** (1) Exclusive of future commitment fees, amortization of deferred financing costs, interest expense or other fees on our ABL Credit Facility because obligations thereunder are floating rate instruments and we cannot determine with accuracy the timing of future loan advances, repayments of future interest rates to be changed. However, assuming a weighted average interest rate of ~~6~~ **7** . ~~69~~ **12** %, and that our ABL Credit Facility debt balance remains the same, our estimated annual interest payment will be $ 3. ~~0~~ **2** million. (2) Operating leases exclude short- term leases and other commitments (see Note 17. Leases and Note 18. Commitments and Contingencies in the financial statements for additional disclosures). (3) Includes our leases for ~~FORCESM~~ **FORCE ®** electric- powered hydraulic fracturing fleets (~~240~~ **312** , 000 HHP). We expect to receive the remaining equipment under these leases in the first half of ~~2024~~ **2025** . (4) Finance lease for certain power generation equipment (70 MW) to support electric- powered hydraulic fracturing equipment. (5) Relates to a take- or- pay sand commitment with one of our sand vendors. (6) Represents **contractual commitments with two equipment manufacturers to purchase 140 megawatts of mobile natural gas- fueled power generation equipment for our PROPWR business line (see Note 18. Commitments and Contingencies in the financial statements for additional disclosures). (7) Represents** the unpaid portion of the purchase consideration on our acquisition of Par Five

~~assets~~ to be used to cover **(i)** the amount by which the estimated purchase price exceeds the final purchase price **, if any, and (ii) any indemnity obligations of the seller, if any. (8) Represents the unpaid portion of the purchase consideration on our acquisition of AquaProp to be used to cover (i) the amount by which the estimated purchase price exceeds the final purchase price, if any, and (ii) any indemnity obligations of the seller** , if any. We enter into other purchase agreements with Sand Suppliers to secure **the** supply of sand in the normal course of our business. The agreements with the Sand Suppliers require that we purchase **a** minimum volume of sand, based primarily on a certain percentage of our sand requirements from our customers or in certain situations based on predetermined fixed minimum volumes, otherwise certain penalties (shortfall fees) may be charged. The shortfall fee represents liquidated damages and is either a fixed percentage of the purchase price for the minimum volumes or a fixed price per ton of unpurchased volumes. Our current agreements with Sand Suppliers expire at different times prior to December 31, 2025. Our agreed upon sand requirements or minimum volumes are based on certain future events such as our customer demand, which cannot be reasonably estimated. If the activity level of our customers declines and the future demand for our services is materially and adversely affected, we may be required to pay for more sand from one of our Sand Suppliers than we need in the performance of our services, regardless of whether we take physical delivery of such sand. In such an event, we may be required to pay shortfall fees or other penalties under the purchase agreement, which could have a material adverse effect on our business, financial condition, or results of operations. Recent Accounting Pronouncements Disclosure concerning recently issued accounting standards is incorporated by reference to" Note 2- Significant Accounting Policies" of our Consolidated Financial Statements contained in this Annual Report. Critical Accounting Policies and Estimates The discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the financial statements and the reported revenues and expenses during the years. We evaluate these estimates and assumptions on an ongoing basis and base our estimates on historical experience, current conditions and various other assumptions that we believe to be reasonable under the circumstances. The results of these estimates form the basis for making judgments about the carrying values of assets and liabilities as well as identifying and assessing the accounting treatment with respect to commitments and contingencies. Our actual results may materially differ from these estimates. Listed below are the accounting policies that we believe are critical to our financial statements due to the degree of uncertainty regarding the estimates or assumptions involved, and that we believe are critical to the understanding of our operations. ~~Property~~ **Business Combinations Business combinations are accounted for under the acquisition method of accounting. Under this method, the assets acquired** and ~~Equipment~~ **liabilities assumed are recognized at their respective fair values as of the date of acquisition. The excess, if any, of the acquisition price over the fair values of the assets acquired and liabilities assumed is recorded as goodwill if the definition of a business is met. For significant acquisitions, we utilize third- party appraisal firms to assist us in determining the fair values for certain assets acquired and liabilities assumed using discounted cash flows and other applicable valuation techniques. We record any acquisition related costs as expenses when incurred. Adjustments to the fair values of assets acquired and liabilities assumed are made until we obtain all relevant information regarding the facts and circumstances that existed as of the acquisition date (the " measurement period "), not to exceed one year from the date of the acquisition. We recognize measurement period adjustments in the period in which we determine the amounts, including the effect on earnings of any amounts we would have recorded in previous periods if the accounting had been completed at the acquisition date. The estimation of the fair values of assets and liabilities acquired in business combinations requires significant judgment. Our fair value estimates require us to use significant observable and unobservable inputs. The estimates of fair value are also subject to significant variability, are sensitive to changes in market conditions, and are reasonably likely to change in the future. A significant change in the observable and unobservable inputs and determination of fair value of the assets and liabilities acquired could significantly impact our consolidated financial statements.** Our property and equipment are recorded at cost, less accumulated depreciation. Upon sale or retirement of property and equipment, the cost and related accumulated depreciation are removed from the balance sheet and the net amount, less proceeds from disposal, is recognized as a gain or loss in earnings. We primarily retire certain components of equipment such as fluid ends and power ends, rather than the entire pieces of equipment. The associated loss is recorded in our statement of operations as part of net loss on disposal of assets **and businesses** , which was $ **7. 5 million, $** 73. 0 million, **and** $ 102. 1 ~~million and $ 64. 6~~ million for the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~ , respectively. The estimated useful lives and salvage values of property and equipment ~~is~~ **are** subject to key assumptions such as maintenance, utilization and job variation. Unanticipated future changes in these assumptions could negatively or positively impact our net income (loss). A 10 % change in the useful lives of our property and equipment would have resulted in approximately $ ~~17~~ **18** . ~~0~~ **5** million impact on pre- tax loss during the year ended December 31, ~~2023~~ **2024** . Depreciation of property and equipment is provided on the straight - line method over estimated useful lives as shown in the table below. LandIndefiniteBuildings and property improvements5- 30 yearsVehicles 1 - 5 yearsEquipment 1 - 22 yearsLeasehold improvements 5 - 20 years Impairment of Long- Lived Assets In accordance with the Financial Accounting Standards Board Accounting Standards Codification (**" "** ASC **" "**) 360 regarding Accounting for the Impairment or Disposal of Long - Lived Assets, we review the long - lived assets including intangible assets to be held and used whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future undiscounted cash flows attributable to the assets is less than the carrying amount of such assets. In this circumstance, we recognize an impairment loss for the amount by which the carrying amount of the assets exceeds the estimated fair value of the asset. Our cash flow forecasts require us to make certain judgments regarding long - term forecasts of future revenue and costs and cash flows related to the assets subject to review. The significant assumption in our cash flow forecasts is our estimated equipment utilization and profitability. The significant assumption is uncertain in that it is driven by future demand for our services and utilization, which could be impacted by crude oil market prices, future market conditions and technological advancements. Our fair value estimates for certain long - lived assets require us to use significant other observable inputs, including assumptions related to market based on recent auction sales or selling prices of comparable equipment. The estimates of fair value are also subject to significant variability, are sensitive to changes in market conditions, and are reasonably likely to change in the future. If the crude oil market declines or the demand for our services does not recover, and if our equipment remains idle or underutilized, the estimated fair value of such equipment may decline, which could result in future impairment charges. Though the impacts of variations in any of these factors can have compounding or offsetting impacts, a 10 % decline in the estimated future cash flows of our existing asset groups will not indicate an impairment. **During the year ended December 31, 2024, we recorded property and equipment impairment expense of approximately $ 188. 6 million in connection with our conventional Tier II diesel- only hydraulic fracturing pumping units and associated conventional assets.** In 2022, we recorded **property and equipment** impairment expense of $ 57. 5 million on our DuraStim ® electric- powered hydraulic fracturing equipment within the hydraulic fracturing operating segment. ~~Goodwill and Other~~ Intangible ~~Assets~~ **assets consist of trademark / trade name, customer relationships and favorable contracts. Trademark / trade names are amortized on a straight - line basis over useful lives of ten and fifteen years. Customer relationships are amortized on a straight - line basis over useful lives of six and ten years. Favorable contracts are amortized on a straight - line basis over useful lives of thirty months and five years. Internally developed software will be amortized on a straight - line basis over a useful life of twenty- nine months. Our estimated useful life could be sensitive to changes in market conditions and management' s judgment, and are likely to change in the future if certain events occur. Presently, there are no events or circumstances that will cause us to believe that our estimated useful life for our intangible assets are likely to change.** Goodwill is the excess of the consideration transferred over the fair value of the tangible and identifiable intangible assets and liabilities recognized. Goodwill is not amortized. We perform an annual impairment test of goodwill and intangible assets as of December 31, or more frequently if circumstances indicate that impairment may exist. In connection with the ~~Silvertip~~ **AquaProp** Acquisition, we added $ ~~23~~ **0** . ~~6~~ **9** million of goodwill **in our hydraulic fracturing operating segment** during the year ended December 31, ~~2022~~ **2024 . We recorded goodwill impairment expense of $ 23. 6 million in our wireline reporting unit during the year ended December 31, 2024** . There were no additions to goodwill during the year ended December 31, 2023. The ~~wireline~~ **hydraulic fracturing** operating segment ~~is was~~ the only segment with goodwill at December 31, **2024. The wireline operating segment was the only segment with goodwill at December 31,** 2023 ~~and 2022~~ . There were no goodwill impairment losses during the ~~years~~ **year** ended December 31, 2023 ~~and 2022~~ . We performed our annual goodwill impairment test in accordance with ASC 350, Intangibles — Goodwill and Other, on December 31, ~~2023~~ **2024** , at which time, we determined that the fair value of our wireline reporting unit was substantially in excess of its carrying value **resulting in impairment** . The quantitative impairment test we perform for goodwill utilizes certain assumptions, including forecasted equipment utilization, pricing and cost assumptions. Our discounted cash flow analysis includes significant assumptions regarding discount rates, utilization, expected profitability margin, forecasted maintenance capital expenditures, and the timing of expected cash flow. As such, our goodwill analysis incorporates inherent uncertainties that are difficult to predict in volatile economic environments and could result in impairment charges in future periods if actual results materially differ from the estimated assumptions utilized in our forecast. As of December 31, **2024, and** 2023 ~~and 2022~~ , our goodwill carrying value was $ **0. 9 million and $** 23. 6 million ~~and $ 23. 6 million~~ , respectively. ~~Intangible~~ **In accordance with ASC Topic 842, the Company determines if a contract is a lease at inception and evaluates identified leases for operating and finance lease accounting. Operating or finance lease right- of- use** assets ~~consist of customer relationships~~ and **liabilities** ~~trademark / trade name. In connection with the Silvertip Acquisition, we added intangible assets consisting of $ 46. 5 million of customer relationships and $ 10. 8 million of trademark / trade name during the year ended December 31, 2022. Intangible assets~~ are ~~amortized~~ **recognized at the commencement date based on the present value of lease payments over the lease term. The Company uses a discount rate based on its estimated incremental borrowing rate** on a **collateralized** ~~straight - line~~ basis with **similar terms** ~~an~~ **and** ~~estimated useful life~~ **economic considerations as its lease payments at the lease commencement in determining the present value** of ~~ten years~~ **lease payments** . ~~Our estimated useful life could~~ **Lease terms may include options to renew the lease or purchase the underlying assets, however, the Company typically cannot determine its intent to renew the lease or purchase the assets with reasonable certainty at inception. The Company elected the short- term lease recognition practical expedient provided by ASC 842 in which leases with a term of twelve months or less will not** be **recognized on** ~~sensitive to changes in market conditions and management' s judgment, and are likely to change in the future if certain events occur. Presently, there~~ -- **the** ~~are~~ **balance sheet, and the practical expedient to** ~~no~~ **not separate lease and non- lease components** ~~events or circumstances that will cause us to believe that our estimated useful life~~ for ~~our intangible~~ **real estate class of** assets ~~are likely~~ **. We elected** to ~~change~~ **analogize to the measurement guidance of ASC 360 to capitalize costs incurred to place a leased asset into its intended use and to present such capitalized costs as part of the related**

lease right- of- use asset cost as initial direct costs . Income taxes are accounted for under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the consolidated financial statements. Under this method, deferred tax assets and liabilities are determined on the basis of differences between the consolidated financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date. We recognize deferred tax assets to the extent that we believe these assets are more likely than not to be realized. In making such a determination, we consider all positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, and the results of recent operations. If we determine that we would not be able to fully realize our deferred tax assets in the future in excess of their net recorded amount, we would record a valuation allowance, which would increase our provision for income taxes. In determining our need for a valuation allowance as of December 31, ~~2023~~ **2024** , we have considered and made judgments and estimates regarding estimated future taxable income. These estimates and judgments include some degree of uncertainty and changes in these estimates and assumptions could require us to record additional valuation allowances for our deferred tax assets and the ultimate realization of tax assets depends on the generation of sufficient taxable income. Our methodology for recording income taxes requires a significant amount of judgment in the use of assumptions and estimates. Additionally, we forecast certain tax elements, such as future taxable income, as well as evaluate the feasibility of implementing tax planning strategies. Given the inherent uncertainty involved with the use of such variables, there can be significant variation between anticipated and actual results. Unforeseen events may significantly impact these variables, and changes to these variables could have a material impact on our income tax accounts. The final determination of our income tax liabilities involves the interpretation of local tax laws and related authorities in each jurisdiction. Changes in the operating environments, including changes in tax law, could impact the determination of our income tax liabilities for a tax year ~~. Share Repurchases All shares of common stock repurchased through the Company' s share repurchase program are retired upon repurchase. The Company accounts for the purchase price of repurchased common stock in excess of par value ($ 0. 001 per share of common stock) as a reduction of additional paid- in capital, and will continue to do so until additional paid- in capital is reduced to zero. Thereafter, any excess purchase price will be recorded as a reduction of retained earnings~~ . Item 7A. Quantitative and Qualitative Disclosure of Market Risks Foreign Currency Exchange Risk Our operations are currently conducted entirely within the U. S.; therefore, we had no significant exposure to foreign currency exchange risk in ~~2023~~ **2024** . Commodity Price Risk Our materials and fuel purchases expose us to commodity price risk. Our material costs primarily include the cost of inventory consumed while performing our completion services such as proppants, perforating guns, chemicals, guar, trucking and fluid supplies. Our fuel costs consist primarily of diesel and natural gas used by our various trucks and other motorized equipment. The prices for fuel and materials in our inventory are volatile and are impacted by changes in supply and demand, as well as market uncertainty and regional shortages. Historically, we have generally been able to pass along a significant portion of our commodity price risk to our customers; however, we may be unable to do so in the future. We do not engage in commodity price hedging activities. Interest Rate Risk We may be subject to interest rate risk on variable rate borrowings under our ABL Credit Facility. We do not currently engage in interest rate derivatives to hedge our interest rate risk. The impact of a 1 % increase in interest rates on our variable rate debt would have resulted in an increase in interest expense and corresponding decrease / (increase) in pre - tax income / (loss) of approximately $ 0. 5 million, $ 0. **5 million, and $ 0.** 1 million ~~and $ 0~~ , for the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~ , respectively. Credit Risk Financial instruments that potentially subject us to concentrations of credit risk are trade receivables. We extend credit to customers and other parties in the normal course of business. We have established various procedures to manage our credit exposure, including maintaining an allowance for doubtful accounts. Item 8. Financial Statements and Supplementary Data. **FINANCIAL STATEMENTS Reports of Independent Registered Public Accounting Firm (PCAOB ID: 49) 53Report of Independent Registered Public Accounting Firm (PCAOB ID: 34) 58Consolidated Balance Sheets as of December 31, 2024 and 202359Consolidated Statements of Operations for the years ended December 31, 2024, 2023 and 202260Consolidated Statements of Changes in Shareholders' Equity for the years ended December 31, 2024, 2023 and 202261Consolidated Statements of Cash Flows for the years ended December 31, 2024, 2023 and 202262Notes to Consolidated Financial Statements64** REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM To the Shareholders and the Board of Directors of ProPetro Holding Corp. ~~and Subsidiaries:~~ Opinion on the Financial Statements We have audited the accompanying consolidated balance ~~sheet~~ **sheets** of ProPetro Holding Corp. and **its** ~~Subsidiaries~~ **subsidiaries** (the Company) as of December 31, **2024 and** 2023, the related consolidated statements of operations, shareholders ' **'** equity and cash flows ~~,~~ for **each of** the **two** ~~year~~ **years in** ~~then~~ **the period** ended **December 31, 2024** , and the related notes **to the consolidated financial statements** (collectively, the financial statements). In our opinion, the financial statements **referred to above** present fairly, in all material respects, the financial position of the Company as of December 31, **2024 and** 2023, and the results of its operations and its cash flows for **each of** the **two** ~~year~~ **years in** ~~then~~ **the period** ended **December 31, 2024,** in conformity with accounting principles generally accepted in the United States of America. We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company ' **'** s internal control over financial reporting as of December 31, ~~2023~~ **2024** , based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013, and our report dated ~~March 13~~ **February 20** , ~~2024~~ **2025** , expressed an **unqualified** opinion ~~that~~ **on the effectiveness of** the Company **' s** ~~had not maintained effective~~ internal control over financial reporting **. As discussed in Notes 2 and 11 to the financial statements, the Company adopted ASU 2023- 07, Segment Reporting (Topic 280)** as of December 31, ~~2023~~ **2024** , **and** ~~based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013. As discussed in Note 11 to the financial statements, the Company~~ changed the composition of its segment information in 2023. We **also** have audited the adjustments necessary to restate the 2022 ~~and 2021~~ segment information **and to reflect the adoption of ASU 2023- 07, Segment Reporting (Topic 280) to the 2022 segment information,** as provided in Note 11. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review or apply any procedures to the 2022 ~~or 2021~~ financial statements of the Company other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 2022 ~~and 2021~~ financial statements taken as a whole. Basis for Opinion These financial statements are the responsibility of the Company ' **'** s management. Our responsibility is to express an opinion on the Company ' **'** s financial statements based on our ~~audit~~ **audits** . We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with U. S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our ~~audit~~ **audits** in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our ~~audit~~ **audits** included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our ~~audit~~ **audits** also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our ~~audit~~ **audits** ~~provides~~ **provide** a reasonable basis for our opinion. Critical Audit ~~Matter~~ **Matters** The critical audit ~~matter~~ **matters** communicated below **are** ~~is a matter~~ **matters** arising from the current period audit of the financial statements that ~~was~~ **were** communicated or required to be communicated to the audit committee and that: (1) ~~relates~~ **relate** to accounts or disclosures that are material to the financial statements and (2) involved **our** especially challenging, subjective or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit ~~matter~~ **matters** below, providing separate opinions on the critical audit ~~matter~~ **matters** or on the accounts or disclosures to which ~~it~~ **they** ~~relates~~ **relate** . ~~Acquisition~~ **Business Combination** — **Aqua Prop** ~~Par Five Energy Services~~ , LLC **As discussed in** ~~— Fair value of assets acquired, and liabilities assumed — Refer to Notes~~ **Note** ~~1 and~~ 4 ~~to~~ **of** the **consolidated** financial statements **, the** ~~Critical Audit Matter Description The~~ Company completed the acquisition of ~~Par Five Energy Services,~~ **all of the outstanding equity interests in Aqua Prop** LLC (**AquaProp** ~~" Par Five "~~) **on May 31, 2024,** for ~~a~~ total ~~purchase~~ consideration **transferred** of $ ~~25~~ **35** . ~~4~~ **8** million ~~on December 1, 2023 (the " which included contingent consideration with an Acquisition~~ **acquisition ") date fair value of $ 10. 9 million** . The Company accounted for ~~the Acquisition using~~ **this transaction under** the acquisition method of accounting for business combinations **whereby** ~~. Accordingly,~~ the ~~purchase price~~ **fair value of the consideration transferred** was allocated to the assets acquired **, including a customer relationship intangible asset of $ 18. 6 million,** and liabilities assumed based ~~on~~ **upon** their ~~respective estimated~~ **acquisition date** fair values. **Management estimated the fair value** ~~The largest asset classes acquired include property and equipment consisting mainly~~ of **the contingent consideration by applying a probability- weighted expected return** ~~oilfield cementing pumps, vehicles, trailer, tanks, and support equipment. The~~ method for ~~determining~~ **the different scenarios that may occur based upon the amount of additional equipment delivered by the seller, at the request of the Company, and the amount of wet sand expected to be delivered by such equipment within a 30- month period. Management estimated the** fair value ~~varied depending on the type~~ of the **customer relationship intangible** asset ~~or liability and involved management making significant estimates related~~ **using a discounted cash flow method whereby forecasted cash flows expected** to ~~assumptions such as replacement cost, normal useful~~ **be derived from the intangible asset over the economic** life ~~and economic obsolescence~~ **of the asset, adjusted for expected attrition, are discounted to present value** . We identified the valuation of ~~property and equipment arising out of~~ the **customer relationship intangible asset and the contingent consideration liability at the AquaProp** ~~Acquisition~~ **acquisition date** as a critical audit matter because of the **significant** ~~estimates and~~ assumptions management ~~makes to determine~~ **used in estimating** the fair ~~value~~ **values** ~~of~~ **, including forecasted cash flows and** ~~these~~ **the selection of** ~~assets. This required~~ a ~~high degree~~ **discount rate for the customer relationship intangible asset and forecasted tonnage** of **wet** ~~auditor judgement and~~ **sand expected** ~~an increased extent of effort, including the need~~ to **be delivered for** ~~involve our internal valuation specialists, when performing audit procedures to evaluate~~ the ~~reasonableness of~~ **contingent consideration. Auditing** management' s assumptions ~~such as replacement cost, normal useful life~~ **involved a high degree of auditor judgment and** ~~and~~ **an increase in** ~~economic obsolescence. How the Critical Audit~~ **audit** ~~Matter Was Addressed in~~ **effort, including the use of valuation specialists, due to the impact** ~~the~~ **these** ~~Audit~~ **assumptions could have on the accounting estimates.** Our audit procedures related to the **valuation** ~~fair value~~ of ~~property and equipment acquired as part of~~ the ~~Acquisition~~ **customer relationship intangible asset and the contingent consideration liability** included the following, among others: • We obtained an understanding of the relevant controls related to **management' s** ~~the recording of assets acquired and liabilities assumed in a~~ business combination **fair value estimates** and tested such controls for design and operating effectiveness **, including controls over management' s review of significant assumptions used in the fair value estimates** . •

With We read the purchase and sale agreement to understand and evaluate the terms of the acquisition. • We tested the reasonableness of management' s forecasts of cash flows in the valuation of the customer relationship intangible asset by comparing the them assistance to historical results and evaluating publicly available industry information. • We tested the reasonableness of management' s forecasts of tonnage of wet sand to be delivered by comparing the estimated capacity of each piece of equipment to in- process contracts and considering the impact of the estimated timing of the delivery to the estimate of fair value. • We utilized our internal valuation specialists , we evaluated to assist in the reasonableness following procedures, among others: ◦ Evaluating the appropriateness of the valuation models methodology and significant assumptions including estimates of trend factor calculation, replacement cost, normal useful life, and economic obsolescence by (1) evaluating the source information and assumptions used by management , (2) to estimate the fair values of the customer relationship intangible asset and contingent consideration and testing the their mathematical accuracy . ◦ Evaluating of the calculation, and (3) comparing our estimates to those -- the appropriateness of the methodology used by management to develop the attrition rate for the customer relationship. ◦ Comparing the source information underlying the determination of the discount rates to publicly available market data and verifying the accuracy of the calculations. Impairment of Long- lived Assets — Fair Value of Conventional Tier II Diesel- only Hydraulic Fracturing Pumping Units and Associated Conventional Assets As discussed in Notes 2 and 5 to the consolidated financial statements, at September 30, 2024, the Company performed a recoverability assessment on the long- lived assets in its conventional Tier II diesel- only hydraulic fracturing pumping units and associated conventional assets asset group (the " Tier II Units "). In performing the recoverability assessment, the Company first compared the carrying value of the asset group to the estimated undiscounted cash flows to be generated over the remaining useful life of the asset group' s primary asset. Because the carrying value of the asset group exceeded the estimated undiscounted cash flows, the Company then estimated the fair value of the asset group, utilizing both a market approach and a cost approach, and recorded an impairment charge of $ 188. 6 million. We identified management' s estimated fair value of the Tier II Units as a critical audit matter because of the significant assumptions management used in estimating the fair value of the assets, including the selection of the valuation methods used to estimate fair value, the determination of the highest and best use of the assets, and consideration of the appropriateness of market data, among others. Auditing management' s assumptions involved a high degree of auditor judgment and an increase in audit effort, including the use of our valuation specialists, due to the impact these assumptions could have on the accounting estimate. Our audit procedures related to the Company' s estimate of the fair value of the Tier II Units included the following, among others: • We obtained an understanding of the relevant controls related to management' s estimate of fair value of the Tier II Units and tested such controls for design and operating effectiveness, including controls over management' s review of the significant assumptions used in estimating the fair value of the underlying assets. • We tested the completeness and accuracy of the Tier II Units by agreeing the carrying values and other relevant information to the underlying support. • We utilized our valuation specialists to assist in the following procedures, among others: ◦ Evaluating the appropriateness of the valuation models used by management to estimate the fair value of the Tier II Units and testing their mathematical accuracy. ◦ Evaluating management' s determination of the highest and best use of the Tier II Units. ◦ Corroborating managements estimates of fair value by comparing such estimates to publicly available market data. Goodwill Impairment Testing — Wireline Reporting Unit As discussed in Notes 2 and 5 to the consolidated financial statements, management tests the Company' s goodwill for impairment, at the reporting unit level, at December 31 of each fiscal year, or more frequently if events or changes in circumstances indicate the goodwill might be impaired. To test goodwill for impairment, management compares the estimated fair value of the reporting unit to the carrying amount, including the recorded goodwill. An impairment is recorded when the carrying value of the reporting unit exceeds its estimated fair value. The Company' s estimated reporting unit fair value is based on a combination of income and market approaches. The income approach involves the use of a discounted cash flow method with the cash flow projections discounted at an appropriate discount rate. The market approach involves the use of comparable public companies' market multiples in estimating the fair value. During the year ended December 31, 2024, the Company recorded a goodwill impairment charge of $ 23. 6 million in its Wireline reporting unit, which represented a full impairment of the goodwill in that reporting unit. We identified the valuation of the Wireline reporting unit as a critical audit matter because of the significant assumptions management used in estimating the fair value of the reporting unit, including revenue growth rates and margin percentages used in the projected cash flows, the determination of the discount rate applicable to the reporting unit, and the identification of comparable guideline public companies and market multiples. Auditing management' s assumptions involved a high degree of auditor judgment and an increase in audit effort, including the use of valuation specialists, due to the impact these assumptions could have on the estimate of fair value. Our audit procedures related to the estimated fair value of the Wireline reporting unit included the following, among others: • We obtained an understanding of the relevant controls related to management' s impairment assessment and tested such controls for design and operating effectiveness, including controls over management' s review of the significant assumptions utilized in the fair value measurement. • We tested the reasonableness of management' s forecasts of cash flows, including revenue and margins, by comparing them to historical results and evaluating publicly available industry information. • We tested the underlying data used by management in the development of the forecasts of cash flows for accuracy and completeness by agreeing it to source data. ◦ Evaluating the appropriateness of the Company' s valuation methodology and testing the mathematical accuracy. ◦ Testing the reasonableness of the discount rate using in the income approach by comparing the inputs used by management to publicly available market data. ◦ Evaluating the comparability of the guideline public companies identified by management based upon publicly available market data. ◦ Corroborating the market multiples selected by the Company in the market approach by comparing them publicly available market data . / s / RSM US LLP We have served as the Company' s auditor since 2023. Houston, Texas PCAOB ID: 49 Opinion on Internal Control over Financial Reporting We have audited ProPetro Holding Corp and Subsidiaries .' s (the Company ' s) internal control over financial reporting as of December 31, 2023 2024 , based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013. In our opinion, because of the effect of the Company maintained, in all material respects weakness described below on the achievement of the objectives of the control criteria , the Company has not maintained effective internal control over financial reporting as of December 31, 2023 2024 , based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013. We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements of the Company as of and for the year ended December 31, 2023 and our report dated March 13 February 20 , 2024 2025 expressed an unqualified opinion . As described in Management' s Report on those consolidated Internal Control over financial Financial statements. A material weakness Reporting, management has excluded Aqua Prop, LLC from is its assessment a deficiency, or a combination of deficiencies, in internal control over financial reporting as of December 31 , such that 2024, because it was acquired by there -- the Company in a purchase business combination in the second quarter of 2024. We have also excluded Aqua Prop, LLC from our audit of internal control over financial reporting. Aqua Prop, LLC is a reasonable possibility that a material misstatement wholly owned subsidiary whose total assets and revenue represent approximately 4. 9 % and 3. 1 %, respectively, of the related Company' s annual or interim consolidated financial statements statement amounts will not be prevented or detected on a timely basis. The following material weakness has as been identified and included in management' s assessment. The Company did not maintain adequate segregation of duties or sufficient compensating management review controls to effectively mitigate an and for inadequate system access control configuration in its accounting system in which manual journal entry approvers can modify the entries before posting. This deficiency is solely related to manual journal entries and has no impact on system- generated journal entries flowing through its accounting system and other -- the year ended December 31 feeder systems. This issue impacts all manual journal entries impacting all affected transaction cycles. Due to this control deficiency, other manual- dependent controls were deemed ineffective. This material weakness was considered in determining the nature, timing and extent of audit tests applied in our audit of the 2023 consolidated financial statements, and this report does not affect our report dated March 13 , 2024 , on those consolidated financial statements . The Company' s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting in the accompanying Management' s Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company' s internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with U. S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Definition and Limitations of Internal Control over Financial Reporting A company ' ' s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company ' ' s internal control over financial reporting includes those policies and procedures that : (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company ' ' s assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. ProPetro Holding Corp. and Subsidiaries We have audited, before the effects of the retrospective adjustments to the disclosures for a change in the composition of reportable segments and the adoption of ASU No. 2023- 07, Segment Reporting, discussed in Note 11 to the consolidated financial statements, the consolidated balance sheet statements of operations, shareholders' equity, and cash flows of ProPetro Holding Corp. and Subsidiaries (the " " Company " ") as of December 31, 2022, the related consolidated statements of

~~operations, shareholders' equity, and cash flows~~ , for ~~each of~~ the ~~two years~~ - **year** ~~in the period~~ ended December 31, 2022, and the related notes (collectively, referred to as, the **" "** financial statements **" "**) (the 2022 ~~and 2021~~ financial statements before the effects of the retrospective adjustments discussed in Note 11 to the financial statements are not presented herein). In our opinion, the 2022 ~~and 2021~~ financial statements, before the effects of the retrospective adjustments to the disclosures for a change in the composition of reportable segments **and the adoption of ASU No. 2023- 07, Segment Reporting,** discussed in Note 11 to the financial statements, present fairly, in all material respects, the **results** ~~financial position~~ of the Company **' s** ~~as of December 31, 2022, and the results of its~~ operations and ~~its~~ cash flows for ~~each of~~ the ~~two years~~ - **year** ~~in the period~~ ended December 31, 2022, in conformity with accounting principles generally accepted in the United States of America. We were not engaged to audit, review, or apply any procedures to the retrospective adjustments to the disclosures for a change in the composition of reportable segments **and the adoption of ASU No. 2023- 07, Segment Reporting** discussed in Note 11 to the financial statements, and accordingly, we do not express an opinion or any other form of assurance about whether such retrospective adjustments are appropriate and have been properly applied. Those retrospective adjustments were audited by other auditors. ~~Basis of Opinion~~ These financial statements are the responsibility of the Company' s management. Our responsibility is to express an opinion on the Company' s financial statements based on our ~~audits~~ - **audit** . NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 1. ORGANIZATION AND HISTORY ProPetro Holding Corp. (**" "** Holding **" "**), a Texas corporation was formed on April 14, 2007, and it is a holding company for its wholly owned subsidiaries ProPetro Services, Inc., a Texas corporation (**" "** Services **" "**), ~~and~~ Silvertip Completion Services Operating, LLC, a Delaware limited liability company (**" "** Silvertip **" "**) **, Aqua Prop, LLC, a Texas limited liability company (" AquaProp ") and ProPetro Energy Solutions, LLC, a Texas limited liability company (" PROPWR ")** . Services ~~and ,~~ Silvertip **and AquaProp** together offer hydraulic fracturing, wireline, cementing **, wet sand solutions** and other complementary services to oil and gas producers, located primarily in Texas ~~,~~ **and** New Mexico . **PROPWR has not begun any revenue- generating activities yet** and ~~Utah~~ **was formed to provide power generation services to oil and gas producers and non- oil and gas applications such as general industrial projects and data centers, located primarily in Texas and New Mexico and will do business as PROPWR** . Holding was converted and

incorporated as a Delaware Corporation on March 8, 2017 **. Unless otherwise indicated, references in these notes to consolidated financial statements to " ProPetro Holding Corp., " " the Company, " " we, " " our, " " us, " or like terms refer to Holding, Services, Silvertip, AquaProp, and PROPWR. On November 1, 2024, we sold our cementing business located in Vernal, Utah, to Big 4 Services LLC, a Wyoming limited liability company (" Big 4 "), solely owned by a former employee as part of a strategic repositioning. We received a promissory note for $ 13. 0 million as consideration. The note receivable is secured by substantially all assets of Big 4 and the former employee' s ownership interests in and distributions from Big 4. The note receivable is to be paid to the Company in quarterly installments with interest of 10 % per annum from March 31, 2025 to December 31, 2029. We recorded a gain on disposal of $ 8. 2 million related to the sale of the business within loss on disposal of assets and business within our consolidated statement of operations for the year ended December 31, 2024. The former employee was part of our cementing operations until November 1, 2024 and is no longer affiliated with the Company. The Company does not expect to have any significant continuing involvement with Big 4 other than collection of the note receivable. On May 31, 2024, we consummated the acquisition of all of the outstanding equity interests in AquaProp, which provides wet sand solutions for hydraulic fracturing sand requirements at oil well sites (the " AquaProp Acquisition "). The cash consideration for the AquaProp Acquisition includes $ 13. 7 million paid to the seller, $ 7. 2 million paid to settle the seller' s outstanding debt, and $ 0. 3 million paid for the seller' s transaction expenses. As a result of the acquisition, we expanded our operations into the wet sand service business unit. On April 22, 2024, we entered into a sub-agreement for hydraulic fracturing services with XTO Energy Inc. (" XTO"), a wholly owned subsidiary of ExxonMobil, pursuant to which we will provide hydraulic fracturing, wireline and pumpdown services with two committed FORCE ® electric- powered hydraulic fracturing fleets with the option to add a third FORCE ® fleet (also with wireline and pumpdown services) for a period of three years or for contracted hours, whichever occurs last, with respect to each fleet, subject to certain termination and release rights** . On December 1, 2023, we consummated the purchase of the assets and operations of Par Five Energy Services LLC (" Par Five "), which provides cementing services in the Delaware Basin in exchange for $ 25. **3 million of cash including deferred cash consideration of $ 3. 1 million which is payable to Par Five or its beneficiary on June 1, 2025, with interest at** 4 ~~million of cash~~ **. 0 % per annum** (the " Par Five Acquisition "). Par Five' s business complements our existing cementing business and enables us to serve both the Midland and Delaware **sub-** ~~Basins~~ **basins** of the Permian Basin. On November 1, 2022, we consummated the acquisition of all of the outstanding limited liability company interests of Silvertip, which provides wireline perforation and ancillary services solely in the Permian Basin in exchange for 10. 1 million shares of our common stock valued at $ 106. 7 million, $ 30. 0 million of cash, the payoff of $ 7. 2 million of assumed debt, and the payment of certain other closing and transaction costs (~~" "~~ the Silvertip Acquisition ~~" "~~) ~~. Unless otherwise indicated, references in these notes to consolidated financial statements to" ProPetro Holding Corp.,"" the Company,"" we,"" our,"" us" or like terms refer to Holding, Services, and Silvertip~~ . On December 31, 2018, we consummated the purchase of certain pressure pumping assets and real property from Pioneer Natural Resources USA, Inc. (" Pioneer ") and Pioneer Pumping Services, LLC (" Pioneer Pumping Services ") ~~in connection with our purchase of certain pressure pumping assets and real property~~ (the " Pioneer Pressure Pumping Acquisition ") ~~in exchange for~~ **. In connection with the Pioneer Pressure Pumping Acquisition, Pioneer received** 16. 6 million shares of our common stock and $ 110. 0 million in cash **. In May 2024** , **Pioneer merged with** and ~~concurrently entered~~ into a **wholly owned subsidiary of Exxon Mobil Corporation (" ExxonMobil ") after which ExxonMobil became the owner of these shares. The Company currently provides** pressure pumping **, wireline and other** services ~~agreement (the"~~ **to ExxonMobil and previously provided such services to** Pioneer ~~Services Agreement") with Pioneer. The pressure pumping assets acquired included hydraulic fracturing pumps of 510, 000 hydraulic horsepower (" HHP"), four coiled tubing units and the associated equipment maintenance facility~~ . 2. SIGNIFICANT ACCOUNTING POLICIES A summary of the significant accounting policies consistently applied in the preparation of the accompanying consolidated financial statements are as follows: Principles of Consolidation — The accompanying consolidated financial statements include the accounts of Holding and its wholly owned subsidiaries, Services ~~and ,~~ Silvertip **, AquaProp, and PROPWR** . All intercompany accounts and transactions have been eliminated in consolidation. Basis of Presentation — The accompanying consolidated financial statements and related notes have been prepared pursuant to the rules and regulations of the United States Securities and Exchange Commission (" SEC") and in conformity with accounting principles generally accepted in the United States of America (" GAAP"). Use of Estimates — Management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and revenues and expenses during the reporting period. Such estimates include, but are not limited to, allowance for credit losses, useful lives for depreciation of property and equipment, estimates of fair value of property and equipment, estimates related to fair value of reporting units for purposes of assessing goodwill, intangible assets, discount rates underlying our lease right- of- use assets and ~~PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS2. SIGNIFICANT ACCOUNTING POLICIES (Continued)~~ liabilities, estimates related to deferred tax assets and liabilities, including any related valuation allowances, and estimates of fair value of stock - based compensation. Actual results could differ from those estimates. Revenue Recognition — The Company' s services are sold based upon contracts with customers. The Company recognizes revenue when it satisfies a performance obligation by transferring control over a product or service to a customer. Hydraulic fracturing is an oil well completion technique, which is part of the overall well completions process. It is a well- stimulation technique intended to optimize hydrocarbon flow paths during the completion phase of shale wellbores. The process involves the injection of water, sand and chemicals under high pressure into shale formations. Our hydraulic fracturing contracts with our customers have one performance obligation, which is the contracted total stages, satisfied over time. We recognize revenue over time using a progress output, unit- of- work performed method, which is based on the agreed fixed transaction price and actual stages completed. We believe that recognizing revenue based on actual stages completed faithfully depicts how our hydraulic fracturing services are transferred to our customers over time. ~~In addition, certain of our hydraulic fracturing equipment may be entitled to reservation fee charges if a customer were to reserve committed hydraulic fracturing equipment. The Company recognizes revenue related to reservation fee charges on a daily basis as the performance obligations are met.~~ Acidizing, which is part of our hydraulic fracturing operating segment, involves a well- stimulation technique where acid or similar chemicals are injected under pressure into formations to form or expand fissures. Our acidizing contracts have one performance obligation, satisfied at a point- in- time, upon completion of the contracted service or sale of acid or chemical when control is transferred to the customer. Jobs for these services are typically short term in nature, with most jobs completed in less than a day. We recognize acidizing revenue at a point- in- time, upon completion of the performance obligation. **Wet sand solutions, which is part of our hydraulic fracturing operating segment, involve providing onsite storage and handling of wet sand used in the completion phase of shale wellbores. We recognize revenue from sale of wet sand, location services and transportation services over time using a progress output, unit- of- work performed method, which is based on the agreed fixed transaction price, fixed units per stage and actual stages completed.** Our cementing services use pressure pumping equipment to deliver a slurry of liquid cement that is pumped down a well between the casing and the borehole. Our cementing contracts have one performance obligation, satisfied at a point- in- time, upon completion of the contracted service when control is transferred to the customer. Jobs for these services are typically short term in nature, with most jobs completed in less than a day. We recognize cementing revenue at a point- in- time, upon completion of the performance obligation. Wireline services (including pumpdown) are oil well completion techniques, which are part of the well ~~completions~~ **completion** services. Our wireline services utilize equipment with a drum of wireline to deploy perforating guns in the well to perforate the casing, cement, and formation. Once the well is perforated, the well can be fractured. Pumpdown utilizes pressure pumping equipment to pump water into the well to deploy perforating guns attached to wireline through the lateral section of a well. Our wireline contracts with our customers have one performance obligation, which is the contracted total stages, satisfied over time. We recognize revenue over time using a progress output, unit- of- work performed method, which is based on the agreed fixed transaction price and actual stages completed. We believe that **PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS2. SIGNIFICANT ACCOUNTING POLICIES (Continued)** recognizing revenue based on actual stages completed faithfully depicts how our wireline services are transferred to our customers over time. In addition, certain of our wireline equipment is entitled to daily equipment charges while the equipment is on the customer' s locations. The Company recognizes revenue related daily equipment charges on a daily basis as the performance obligations are met. The transaction price for each performance obligation for all our completion services is fixed per our contracts with our customers. Coiled tubing involves complementary downhole well completion / remedial services. The performance obligation for these services had a fixed transaction price which was satisfied at a point- in- time upon completion of the service when control was transferred to the customer. Accordingly, we recognized revenue at a point- in- time, upon completion of the service and transfer of control to the customer. Effective September 1, 2022, we shut down our coiled tubing operations, and disposed of all of our coiled tubing assets. **The Company assesses customers' ability and intention to pay, which is based on a variety of factors including historical payment experience and financial condition. Payment terms and conditions vary by contract type, although terms generally include a requirement of payment within 30 to 60 days. Business Combinations — Business combinations are accounted for under the acquisition method of accounting. Under this method, the assets acquired and liabilities assumed are recognized at their respective fair values as of the date of acquisition. The excess, if any, of the acquisition price over the fair values of the assets acquired and liabilities assumed is recorded as goodwill if the definition of a business is met. For significant acquisitions, we utilize third- party appraisal firms to assist us in determining the fair values for certain assets acquired and liabilities assumed using discounted cash flows and other applicable valuation techniques. We record any acquisition related costs as expenses when incurred.** Cash and Cash Equivalents — All highly liquid investments with an original maturity of three months or less. Restricted Cash ~~and Customer Cash Advances~~ — Our restricted cash ~~relates~~ **related** to cash received from a customer in connection with our contract with the customer to provide ~~FORCESM~~ **FORCE ®** electric- powered hydraulic fracturing equipment and services. The restricted cash **was** ~~will be~~ used to pay for contractually agreed upon expenditures ~~. The cash advances from the customer will be credited towards the customer' s invoice as our revenue performance obligations are met over the contract period~~ . Our restricted cash balances at December 31, **2024 and** 2023 ~~and 2022~~ were $ 0 and $ ~~10.~~ 0 ~~million~~ , respectively ~~. The cash advances received represent contract liabilities in connection with the performance of certain completion services. The cash advance (contract liability) balances, which are included in accrued and other current liabilities in our consolidated balance sheets, were $ 19. 2 million and $ 10. 0 million as of December 31, 2023 and 2022, respectively. During 2023, we recognized revenue of $ 5. 7 million from the cash advance amount outstanding at the beginning of the period. We had no cash advance amounts outstanding at the beginning of 2022, and we recognized no associated revenue during 2022~~ . Accounts Receivable — Accounts receivable are stated at the amount billed and billable to customers. At December 31, **2024, December 31,** 2023 and **January 1,** ~~2022~~ **2023 , amounts billed to customers (net of allowance for credit**

losses) included as part of our accounts receivable was $ 148. 8 million, $ 181. 6 million, and $ 164. 0 million, respectively. At December 31, 2024, December 31, 2023, and January 1, 2023, accrued revenue (unbilled receivable) included as part of our accounts receivable was $ **47. 2 million, $** 55. 4 million and $ 51. 9 million, respectively. At December 31, ~~2023~~ **2024** , the transaction price allocated to the remaining performance obligation for our partially completed hydraulic fracturing and wireline operations was $ ~~33~~ **38** , ~~8~~ **7** million, which is expected to be completed and recognized within one month following the current period balance sheet date. At December 31, ~~2022~~ **2023** , the transaction price allocated to the remaining performance obligation for our then partially completed hydraulic fracturing and wireline operations was $ ~~38~~ **33** , ~~7~~ **8** million, which was recorded as part of revenues for the year ended December 31, ~~2023~~ **2024** . As of December 31, ~~2023~~ **2024** , the Company had **no** ~~$ 0. 2 million~~ allowance for credit losses. Our allowance for credit losses is based on the evaluation of both our historic collection experience and economic outlook for the oil and gas industry. We evaluated the historic loss experience on our accounts receivable and also considered separately customers with receivable balances that may be negatively impacted by current or future economic developments and market conditions. While the Company has not experienced significant credit losses in the past and has not yet seen material changes to the payment patterns of its customers, the Company cannot predict with any certainty the degree to which the impacts of depressed economic activities, including the potential impact of periodically adjusted borrowing base limits, level of hedged production, or unforeseen well shut- downs may affect the ability of its customers to timely pay receivables when due. Accordingly, in future periods, the Company may revise its estimates of expected credit losses. The table below shows a summary of allowance for credit losses: (in thousands) Year Ended December 31, ~~2023~~**2022**~~2021~~**Balance** ~~----~~ **2024****2023****2022Balance** - January 1, $ **236 $** 419 $ 217 ~~$ 1, 497~~ Provision for credit losses during the ~~period~~**34** ~~--~~ **period — 34** 202 ~~282~~ Write- off during the period (**236) (** 217) — ~~(1, 562)~~ Balance- December 31, $ **— $** 236 $ 419 **Contract Assets and Liabilities — We do not have any significant contract asset balances other than amounts billed to customers and accrued revenue discussed in the Accounts Receivable section above. Contract liabilities include cash advances from a customer in connection with our contract with the customer to provide FORCE ® electric- powered hydraulic fracturing equipment and services. These cash advances from the customer will be credited towards the customer' s invoice as our revenue performance obligations are met over the contract period. The cash advances received represent contract liabilities in connection with the performance of certain completion services. The cash advance (contract liability) balances, which are included in accrued and other current liabilities in our consolidated balance sheets, were** $ ~~217~~ **11. 8 million, $ 19. 2 million, and $ 10. 0 million at December 31, 2024, December 31, 2023, and January 1, 2023, respectively. During the years ended December 31, 2024 and 2023, we recognized revenue of $ 6. 7 million, and $ 5. 7 million, respectively, from the cash advance amount outstanding at the beginning of the period.** Inventories — Inventories, which consists only of raw materials and fluid ends, are stated at lower of average cost and net realizable value **. Note Receivable — Note receivable is stated at face value plus accrued interest and represents the consideration received for sale of our cementing business located in Vernal, Utah, to a business owned by a former employee and is secured by substantially all assets of the former employee' s business and the former employee' s ownership interests in and distributions from the business. The note receivable is to be paid to the Company in quarterly installments with interest of 10 % per annum from March 31, 2025, to December 31, 2029. At December 31, 2024, the note receivable had a carrying amount of $ 13. 2 million including accrued interest, which the Company expects to be fully collectible. Of the carrying amount at December 31, 2024, the amount collectible within one year was $ 2. 1 million and the amount collectible beyond one year was $ 11. 1 million, which are included in our consolidated balance sheet under other current assets and other noncurrent assets, respectively** . Property and Equipment — The Company' s property and equipment are recorded at cost, less accumulated depreciation. Depreciation — Depreciation of property and equipment is provided on the straight - line method over the following estimated useful lives: ~~LandIndefiniteBuildings and property improvements5- 30 yearsVehicles 1 - 5 yearsEquipment 1 - 22 yearsLeasehold improvements 5 - 20 years~~ Upon sale or retirement of property and equipment, including certain major components of our completion services equipment that are replaced, the cost and related accumulated depreciation are removed from the balance sheet and the net amount, less proceeds from disposal, is recognized as a gain or loss in the statement of operations. A significant portion of our loss on disposal of assets **and businesses** relates to replacement of major components like fluid and power ends. The Company recorded a loss on disposal of assets **and businesses** of **$ 7. 5 million,** $ 73. 0 million, **and** $ 102. 1 ~~million and $ 64. 6~~ million for the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~ , respectively. Impairment of Long - Lived Assets — In accordance with Financial Accounting Standards Board (" FASB") Accounting Standards Codification (" ASC") 360, Accounting for the Impairment or Disposal of Long - Lived Assets, the Company reviews its long - lived assets to be held and used whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future undiscounted cash flows attributable to the asset group is less than the carrying amount of such asset group. In this circumstance, the Company recognizes an impairment loss for the amount by which the carrying amount of the asset group exceeds the fair value of the asset group. ~~No impairment expense was recorded during~~ **During** the year ended December 31, ~~2023~~ **2024 , we recorded property and equipment impairment expense of approximately $ 188** . **6 million in connection with our conventional Tier II diesel- only hydraulic fracturing pumping units and associated conventional assets, (the " Tier II Units "). No property and equipment impairment expense were recorded** ~~During~~ **during** the year ended December 31, **2023. During the year ended December 31,** 2022, we recorded **property and equipment** impairment expense of approximately $ 57. 5 million in connection with our DuraStim ® electric- powered hydraulic fracturing equipment. ~~No impairment expense was recorded during the year ended December 31, 2021.~~ The Company accounts for long - lived assets to be disposed of at the lower of their carrying amount or fair value, less cost to sell once management has committed to a plan to dispose of the assets. Goodwill — Goodwill is the excess of the consideration transferred over the fair value of the tangible and identifiable intangible assets and liabilities recognized **in a business combination** . Goodwill is not amortized. We perform an annual impairment test of goodwill as of December 31, or more frequently if circumstances indicate that impairment may exist. The determination of impairment is made by comparing the carrying amount of a reporting unit with its fair value, which is generally calculated using a combination of market and income approaches. If the fair value of the reporting unit exceeds the carrying value, no further testing is performed. If the fair value of the reporting unit is less than the carrying value, we consider goodwill to be impaired, and the amount of impairment loss is calculated and recorded in the statement of operations. On **May 31, 2024, we acquired AquaProp for $ 35. 8 million. We accounted for the AquaProp Acquisition as a business combination using the acquisition method of accounting. Goodwill of $ 0. 9 million was recorded within our hydraulic fracturing operating segment as of the AquaProp Acquisition Date (as defined below), which represents the excess of the purchase price over the fair value of the assets and liabilities assumed. On** November 1, 2022, we acquired Silvertip for $ 148. 1 million. We accounted for the Silvertip Acquisition as a business combination using the acquisition method of accounting. Goodwill of $ 23. 6 million was recorded **within our wireline operating segment** as of the Silvertip Acquisition Date (as defined below), which represents the excess of the purchase price over the fair value of the assets and liabilities assumed. **We conducted** ~~The acquisition complemented~~ our ~~existing business. As annual impairment test of goodwill in accordance with ASC 350, Intangibles — Goodwill and Other, as~~ of December 31, ~~2023~~ **2024** ~~and 2022~~ , ~~our~~ **and determined that the** goodwill ~~carrying value in our wireline operating segment and reporting unit~~ was **fully impaired due** ~~$ 23. 6 million and $ 23. 6 million, respectively. There were no additions~~ to ~~goodwill~~ **the Company updating its outlook for this reporting unit as a result of decreased revenue and profitability experienced** during the year ended December 31, ~~2023~~ **2024** . ~~The~~ **Accordingly, we recorded goodwill impairment expense of $ 23. 6 million in our** wireline ~~operating segment is the only segment with goodwill at December 31, 2023 and 2022. We conducted our annual impairment test of goodwill in accordance with ASC 350, Intangibles — Goodwill and Other, as of December 31, 2023 and determined that no impairment to the carrying value of goodwill for our~~ reporting unit **for** ~~(wireline operating segment) was required. There were no goodwill impairment losses during~~ the ~~years~~ **year** ended December 31, **2024. No impairment to the carrying value of goodwill for our hydraulic fracturing reporting unit was required. The following table summarizes goodwill by operating segment as of December 31, 2024, and** 2023 and ~~2022.~~ **changes for the years then ended: (in thousands) Hydraulic FracturingWirelineTotalBalance as of January 1, 2023Goodwill $ — $ 23, 624 $ 23, 624 Accumulated impairment losses — — — — 23, 624 23, 624 Goodwill acquired during year — — — Impairment losses — — — — Balance as of December 31, 2023Goodwill — 23, 624 23, 624 Accumulated impairment losses — — — — 23, 624 23, 624 Goodwill acquired during year3, 130 — 3, 130 Measurement period adjustment (2, 210) — (2, 210) Impairment losses — (23, 624) (23, 624) Balance as of December 31, 2024Goodwill920 23, 624 24, 544 Accumulated impairment losses — (23, 624) (23, 624) $ 920 $ — $ 920** Intangible Assets — Intangible assets consist of customer relationships ~~and~~ **,** trademark / trade name ~~purchased~~ **, favorable contracts acquired** in connection with the **acquisition of** Silvertip ~~Acquisition~~ **and AquaProp and internally developed software costs** . In connection with the **acquisition of** Silvertip ~~Acquisition~~ , we added intangible assets consisting of $ 46. 5 million of customer relationships and $ 10. 8 million of trademark / trade name **. In connection with the acquisition of AquaProp, we added intangible assets consisting of $ 18. 6 million of customer relationships, $ 1. 3 million of trademark / trade name and $ 2. 2 million of favorable contracts** . Intangible assets are amortized on a basis that reflects the pattern in which the economic benefits of the intangible assets are realized on a straight - line basis over the asset' s estimated useful life ~~, which is ten years~~ . No significant residual value is estimated for intangible assets. **Leases — In accordance with ASC Topic 842, the Company determines if a contract is a lease at inception and evaluates identified leases for operating and finance lease accounting. Operating or finance lease right- of- use assets and liabilities are recognized at the commencement date based on the present value of lease payments over the lease term. The Company uses a discount rate based on its estimated incremental borrowing rate on a collateralized basis with similar terms and economic considerations as its lease payments at the lease commencement in determining the present value of lease payments. Lease terms may include options to renew the lease or purchase the underlying assets, however, the Company typically cannot determine its intent to renew the lease or purchase the assets with reasonable certainty at inception. The Company elected the short- term lease recognition practical expedient provided by ASC 842 in which leases with a term of twelve months or less will not be recognized on the balance sheet, and the practical expedient to not separate lease and non- lease components for real estate class of assets. We elected to analogize to the measurement guidance of ASC 360 to capitalize costs incurred to place a leased asset into its intended use and to present such capitalized costs as part of the related lease right- of- use asset cost as initial direct costs.** Income Taxes — Income taxes are accounted for under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the consolidated financial statements. Under this method, deferred tax assets and liabilities are determined on the basis of differences between the consolidated financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the

enactment date. ~~We recognize deferred tax assets to the extent that we believe these assets are more likely than not to be realized. In making such a determination, we consider all positive and negative evidence, including future reversals of existing taxable temporary~~ differences, projected future taxable income, and the results of recent operations. If we determine that we would not be able to fully realize our deferred tax assets in the future, we would record a valuation allowance. Deferred Loan Costs — The Company capitalized certain costs in connection with the amendment and restatement of its revolving credit facility, including lender, legal, and accounting fees. These costs are being amortized over the term of the related loan using the straight - line method. Unamortized deferred loan costs associated with loans paid off or refinanced with different lenders are expensed in the period in which such an event occurs. Deferred loan costs are classified as a reduction of long - term debt or in certain instances as an asset in the consolidated balance sheet. Amortization of deferred loan costs is recorded as interest expense in the statement of operations, and during the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~, the amount of expense recorded was $ 0. 4 million, $ 0. **4 million, and $ 0.** 8 ~~million and $ 0. 5~~ million, respectively. Stock- Based Compensation — The Company recognizes the cost of stock- based awards on a straight - line basis over the requisite service period of the award, which is usually the vesting period under the fair value method. Total compensation cost is measured on the grant date or modification date, as applicable, using fair value estimates. Insurance Financing — The Company annually renews its commercial insurance policies, and may choose to either directly pay the insurance premium or finance a portion of the premium. If the Company finances a portion of the premium, a prepaid insurance asset is recorded and amortized monthly over the relevant period. Concentration of Credit Risk — The Company' s assets that are potentially subject to concentrations of credit risk are cash and cash equivalents and trade accounts receivable. Cash balances are maintained in financial institutions, which at times exceed federally insured limits. The Company monitors the financial condition of the financial institutions in which accounts are maintained and has not experienced any losses in such accounts. The receivables of the Company are with credible operators in the oil and natural gas industries. The Company performs ongoing evaluations as to the financial condition of its customers with respect to trade receivables. Share Repurchases — All shares of common stock repurchased through the Company' s share repurchase program are retired upon repurchase. The Company accounts for the purchase price of repurchased common stock in excess of par value ($ 0. 001 per share of common stock) as a reduction of additional paid- in capital, and will continue to do so until additional paid- in capital is reduced to zero. Thereafter, any excess purchase price will be recorded as a reduction of retained earnings. **Variable Interest Entities — The Company may enter into strategic investments or other arrangements that are considered variable interests and such entities are considered variable interest entities (" VIE "). If the Company is the primary beneficiary of a VIE, it is required to consolidate the entity. To determine if the Company is the primary beneficiary of a VIE, the Company evaluates, at the inception of the Company' s involvement with a VIE and on an ongoing basis, whether it has (i) the power to direct the activities that most significantly impact the VIE' s economic performance, and (ii) the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE. The assessment of whether the Company is the primary beneficiary of its VIE investments requires significant assumptions and judgments. VIEs that are not consolidated are accounted for under the measurement alternative, equity method, amortized cost, or other appropriate methodology based on the nature of the interest held.** Change in Accounting Estimates — Current trends in hydraulic fracturing equipment operating conditions such as larger pads, changes to job design and increased pumping hours per day have resulted in shorter useful lives for certain critical components that are included in our property and equipment assets. These recent trends necessitated a review of useful lives of our critical components like fluid ends, power ends, hydraulic fracturing units and other components in the first quarter of 2023. We determined that the estimated useful life of fluid ends is now less than one year, resulting in our determination that costs associated with the replacement of these components will no longer be capitalized, but instead recorded in inventories and amortized to cost of services over their estimated useful life. We have also shortened the estimated useful lives of power ends to two years from five years and hydraulic fracturing units to ten years from fifteen years. This change in accounting estimates was made effective January 1, 2023 **,** and accounted for prospectively. The net effect of this change for the year ended December 31, ~~2023~~ **2024** , was a $ ~~19~~ **15** . ~~1~~ **6** million ~~decrease~~ **increase** in net ~~income~~ **loss** , or $ 0. ~~17~~ **15** per basic and diluted share, respectively. **The net** ~~Additionally, in connection with the review of our fluid ends and power ends estimated useful life, effective --- **effect** January 1, 2023, we are writing off~~ **of this change** ~~the remaining book value of power ends that prematurely fail as accelerated depreciation. These write- off amounts were $ 12. 5 million, $ 11. 8 million, $ 8. 4 million and $ 6. 0 million for the three months ended March, 31, 2023, June 30, 2023, September 30, 2023 and December 31, 2023, respectively. However, to conform to prior year presentation, we have presented these write- off amounts within loss on disposal of assets~~ for the year ended December 31, 2023 ~~. In 2022 and 2021~~ , **was a $ 19. 1 million decrease in net income, or $ 0. 17 per basic and diluted share, respectively. The Company plans to phase out its Tier II Units earlier than the current weighted average remaining useful life of this asset group in response to decreasing customer demand for and related pricing pressures on this asset group. Accordingly** we **shortened** ~~wrote off~~ the remaining ~~book value~~ **useful lives** of ~~prematurely failed and disposed of power~~ **those Tier II Units that currently have useful lives beyond 2027 to no longer than the** ~~ends~~ **end of 2027** to **align with management' s use and expected economic life. This change was made effective October 1, 2024. The net effect of this change for the year ended December 31, 2024, was a $ 1. 7 million increase in net** loss ~~on disposal of assets~~ **, or $ 0. 02 per basic and diluted share, respectively** . Recently Issued Accounting Standards In October 2023, the FASB issued Accounting Standards Update (" ASU") No. 2023- 06, Disclosure Improvements: Codification Amendments in Response to the SEC' s Disclosure Update and Simplification Initiative. This ASU incorporates certain SEC disclosure requirements into the FASB Accounting Standards Codification (" Codification "). The amendments in the ASU represent changes to clarify or improve disclosure and presentation requirements of a variety of Codification topics, allow users to more easily compare entities subject to the SEC' s existing disclosures with those entities that were not previously subject to the requirements, and align the requirements in the Codification with the SEC' s regulations. ASU 2023- 06 will become effective for each amendment on the effective date of the SEC' s corresponding disclosure rule changes. We do not expect ASU 2023- 06 to have a material impact on our consolidated financial statements. In November 2023, the FASB issued ASU No. 2023- 07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which requires public **business** entities to disclose on an annual and interim basis, 1) significant segment expenses that are regularly provided to the Chief Operating Decision Maker (the " CODM ") and included within each reported measure of segment profit or loss (collectively referred to as the " significant expense principle ") and 2) an amount for other segment items representing the difference between segment revenue less the segment expenses disclosed under the significant expense principle and each reported measure of segment profit or loss. This ASU also requires public entities to provide all annual disclosures about a reportable segment' s profit or loss and assets currently required by Topic 280 in interim periods, clarifies that if the CODM uses more than one measure of a segment' s profit or loss in assessing segment performance and deciding how to allocate resources, a public entity may report one or more of those additional measures of segment profit or loss but at least one of the reported segment profit or loss measures (or the single reported measure, if only one is disclosed) should be the measure that is most consistent with the measurement principles under GAAP. This ASU also requires disclosure of the title and position of the CODM and an explanation of how the CODM uses the reported measure (s) of segment profit or loss in assessing segment performance and deciding how to allocate resources, and requires a public entity that has a single reportable segment to provide all the disclosures required by the amendments in this ASU and all existing segment disclosures in Topic 280. This ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. ~~Early adoption is permitted.~~ We **adopted this** ~~do not expect~~ ASU 2023- 07 ~~to have a material effect on our consolidated financial statements~~ **for the fiscal year ended December 31, 2024, as required under this standard. See Note 11. Reportable Segment Information** . In December 2023, the FASB issued ASU No. 2023- 09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which requires disaggregation of certain components included in the Company' s effective tax rate and income taxes paid disclosures. The guidance is effective for annual periods beginning after December 15, 2024. We are currently assessing the impact of ASU 2023- 09 on our consolidated financial statements but do not expect it will have a material impact. **In November 2024, the FASB issued ASU No. 2024- 03, Income Statement: Reporting Comprehensive Income: Expense Disaggregation Disclosures (Subtopic 220- 40), which requires public business entities to disclose, in the notes to financial statements, additional information about specific expense categories in the notes to financial statements at interim and annual reporting periods. In January 2025, the FASB issued ASU No. 2025- 01, Clarifying the Effective Date, which revised the effective date of ASU No. 2024- 03 for interim periods. The guidance is effective for annual periods beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027. We are currently assessing the impact of ASU 2024- 03 and ASU 2025- 01 on our consolidated financial statements.** 3. BUSINESS ACQUISITIONS On **May 31, 2024, the Company completed the acquisition of all of the outstanding equity interests in AquaProp, which provides wet sand solutions for hydraulic fracturing sand requirements at oil well sites. As a result of the acquisition, the Company expanded its operations into the wet sand service business unit. The following table summarizes the consideration transferred to AquaProp at the acquisition date: (in thousands) Fair value of purchase consideration: Cash $ 21, 216 Deferred cash consideration3, 664 Contingent consideration10, 900 Total consideration $ 35, 780 Cash consideration includes $ 13. 7 million paid to the seller, $ 7. 2 million paid to settle the seller' s outstanding debt, and $ 0. 3 million paid for the seller' s transaction expenses. The deferred cash consideration of $ 3. 7 million will be used to cover the amount by which the estimated purchase price exceeds the final purchase price, if any. The unused amount is payable to the seller on May 31, 2025. This obligation is shown within other current liabilities in our consolidated balance sheets. As of December 31, 2024, the outstanding amount for this obligation was $ 3. 7 million. Included in the deferred cash consideration is a liability incurred to the seller of $ 1. 8 million. In the purchase agreement as a post- closing transaction, AquaProp' s seller agreed to purchase and then sell to the Company, and the Company agreed to purchase from the seller, two additional equipment spreads within 90 days of the closing at a purchase price equal to cost**

plus a 50 % premium. The post- closing transaction was determined to be a transaction separate from the business combination, but the premium was determined to represent consideration transferred in the business combination as the above market terms of the arrangement would not have been agreed upon absent the business combination. Accordingly, the liability incurred to the seller was recognized as consideration in the business combination as cash was not paid at closing. The post- closing transaction for PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 4. BUSINESS ACQUISITIONS (Continued) the Company' s purchase of the additional equipment occurred in July 2024 and the purchases were accounted for as additions to property and equipment in our consolidated balance sheet and capital expenditures in our consolidated statement of cash flows. Also in the purchase agreement as an additional post- closing transaction, the seller agreed to purchase and then deliver to the Company up to five more additional equipment spreads at the request of the Company within a 30- month period following the delivery of the first additional spread at a purchase price equal to the lower of $ 4. 8 million or cost. The additional post- closing transaction was determined to be a transaction separate from the business combination, but the Company recorded an intangible asset amounting to $ 0. 3 million for the estimated fair value of the potential favorable pricing on such spreads as part of the consideration transferred in the business combination. This intangible asset is included within favorable contracts in the table below. The additional post- closing transaction for the Company' s purchase of the additional equipment will be accounted for as additions to property and equipment in our consolidated balance sheet and capital expenditures in our consolidated statement of cash flows. The acquisition of AquaProp also included a contingent consideration arrangement that requires additional consideration to be paid by the Company to the seller based on the amount of wet sand delivered during a 30- month period following the delivery of the first additional spread, attributable to the five additional equipment spreads described above. Amounts are payable under the earnout arrangement if the Company reaches certain delivery thresholds (in tons) of wet sand using the specific equipment provided by the seller or by other parties. The range of the undiscounted amounts the Company could be obligated to pay under the contingent consideration agreement is between $ 0 and $ 12. 5 million. The fair value of the contingent consideration for the business combination recognized at the acquisition date of $ 10. 9 million was estimated by applying the probability- weighted expected return method for the different scenarios that may occur based on the amount of additional equipment delivered by the seller, at the request of the Company, and the amount of wet sand expected to be delivered by such equipment. The fair value measurement of the contingent consideration is based on significant inputs not observable in the market, and thus represent Level 3 measurements. The contingent consideration payable will be adjusted to estimated fair value at the end of each subsequent reporting period until the contingencies are resolved and consideration payments are made. The estimated fair value of the contingent consideration payable was $ 8. 3 million at December 31, 2024, resulting in a $ 2. 6 million decrease from May 31, 2024. The decrease in the estimated fair value of the contingent consideration payable was primarily driven by updated projections regarding the probability of different scenarios and the amount and timing of additional equipment to be delivered by the seller under those scenarios. The decrease in the estimated contingent consideration payable is included in general and administrative expenses in our consolidated statement of operations for the year ended December 31, 2024. The following table summarizes the recognized amounts of identified assets, and liabilities assumed at the acquisition date: (in thousands) Recognized amounts of assets acquired and liabilities assumed: Cash $ 178 Accounts receivable10, 551 Property and equipment13, 468 Intangible assets: Trade name1, 300 Customer relationships18, 600 Favorable contracts2, 210 Accounts payable (1, 423) Factored receivables (10, 024) Total net assets acquired34, 860 Goodwill920 Total consideration $ 35, 780 The fair value of the assets acquired includes accounts receivable of $ 10. 6 million. The gross amount due under contracts is $ 10. 6 million, of which none is expected to be uncollectible. The Company did not acquire any other class of receivable as a result of the acquisition of AquaProp. The assets acquired include three intangible assets, the trademark / trade name for AquaProp, customer relationships and favorable contracts. The trademark was assigned a fair value of $ 1. 3 million with zero residual value and will be amortized on a straight - line basis over fifteen years. The customer relationships were assigned a fair value of $ 18. 6 million with zero residual value and will be amortized on a straight - line basis over six years. The favorable contracts were assigned a fair value of $ 2. 2 million with zero residual value out of which $ 0. 3 million will be amortized over thirty months and $ 1. 9 million will be amortized over five years. The fair value of the trademark was estimated using the relief- from- royalty method, which calculates the hypothetical royalty fees that would be saved by owning an intangible asset rather than licensing it from another owner. This method forecasts revenue over the estimated useful life of the asset and then applies the following: a royalty rate based on comparable royalty and / or licensing transactions, income tax rate and discount rate, to calculate the discounted cash flows to arrive at the value of the trademark. Key assumptions include revenue forecasted at historical trends with a 0 % long- term growth rate, 1. 0 % royalty rate, 21. 6 % income tax rate and a 40. 5 % discount rate. The fair value of the customer relationships was estimated using the multi- period excess earnings method. This method is a specific application of the discounted cash flow method, in which revenue derived from the intangible asset is estimated using total business revenue as a proxy and subsequently adjusted for attrition. Then deductions are made for business expenses and required returns attributable to other assets in the business. The excess earnings after these deductions are discounted to present value at an appropriate rate of return to arrive at the intangible asset value. Key assumptions include revenue forecasted at historical trends with a 0 % long- term growth rate, 20. 0 % attrition rate, 21. 6 % income tax rate and a 40. 5 % discount rate. The fair value of the favorable contracts was estimated using a discounted cash flow analysis. Key assumptions include forecasted revenue based on a probability- weighting of the number of spreads that will be active with a 0 % long- term growth rate, 21. 6 % income tax rate and a 35. 0 % discount rate. The goodwill is attributable to the acquired workforce and significant synergies. Goodwill is assigned 100 % to the hydraulic fracturing operating segment of the Company. The goodwill recognized is deductible for income tax purposes. During the period from May 31, 2024, to December 31, 2024, the Company made measurement period adjustments to recognize favorable contracts intangible assets of $ 2. 2 million and decrease goodwill by $ 2. 2 million and to increase accounts payable acquired as part of the acquisition of AquaProp by $ 0. 5 million to reflect facts and circumstances in existence as of the acquisition date. The adjustment to accounts payable decreased the deferred cash consideration payable to the seller. The acquired business generated revenues of $ 44. 1 million and a net loss of $ 2. 3 million for the period from May 31, 2024, to December 31, 2024. The following combined supplemental unaudited pro forma information presents consolidated information of the Company as if the AquaProp Acquisition had occurred on January 1, 2023. The supplemental unaudited pro forma information presented below is for illustrative purposes only and does not reflect future events that occurred after December 31, 2024, or any operating efficiencies or inefficiencies that may result from the AquaProp Acquisition. The information is not necessarily indicative of results that would have been achieved had the Company controlled AquaProp during the periods presented. The information presented below does not include the year ended December 31, 2022, as AquaProp was formed in 2023. (unaudited, in thousands) Year Ended December 31, 20242023Revenue $ 1, 486, 776 $ 1, 653, 010 Net (loss) income (126, 736) 91, 508 The Company had material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and net (loss) income. These adjustments included nonrecurring acquisition costs incurred in 2024 but have been adjusted to be reflected in 2023. These pro forma amounts have been calculated after applying the Company' s accounting policies and adjusting the results of AquaProp to reflect the additional depreciation that would have been charged assuming the fair value adjustments to property and equipment had been applied from January 1, 2023, with the consequential tax effects. For the year ended December 31, 2024, the Company incurred acquisition- related costs of $ 1. 5 million. These expenses are included in general and administrative expenses on the Company' s consolidated statement of operations for the year ended December 31, 2024, and are reflected in pro forma net income for the year ended December 31, 2023, in the table above. The Company' s consolidated statement of operations for the year ended December 31, 2024, includes 215 days of AquaProp operations as the AquaProp Acquisition closed on May 31, 2024. On December 1, 2023, the Company completed the acquisition of certain assets and certain liabilities of Par Five **which** ~~. Par Five is an oilfield service company based in Artesia, New Mexico that~~ provides cementing and remediation services across the Permian Basin in Texas and New Mexico. As a result of the acquisition, the Company expanded its operations in the cementing service business unit. The following table summarizes the consideration transferred to Par Five and the recognized amounts of identified assets acquired and liabilities assumed at the acquisition date: (in thousands) Total purchase consideration: Cash $ 22, 215 Deferred cash payment3, ~~180~~ **109** Total consideration $ 25, **324** ~~395 PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 4. BUSINESS ACQUISITIONS (Continued)~~ (in thousands) Recognized amounts of assets acquired and liabilities assumed: Accounts receivable $ 8, ~~712~~ **641** Inventory321 Property, plant and equipment17, 175 Accrued liabilities (813) Total net assets acquired $ 25, **324** ~~395 Preliminary estimates of fair values of the assets acquired and the liabilities assumed are based on information available through the issuance of these consolidated financial statements, and the Company is continuing to evaluate the underlying inputs and assumptions used in the valuations. Accordingly, these preliminary estimates are subject to change during the measurement period, which is up to one year from the acquisition date.~~ The deferred cash consideration of $ 3. ~~2~~ **1** million will be used to cover **(i)** the amount by which the estimated purchase price exceeds the final purchase price, if any **and (ii) indemnity obligations of the seller** . The unused amount is payable to Par Five or its beneficiary on June 1, 2025 **,** and accrues interest at 4. 0 % per annum. This obligation is shown within other **current** ~~long- term~~ liabilities in our consolidated balance ~~sheets~~ **sheet as** ~~. As~~ of December 31, ~~2023~~ **2024 . As of December 31, 2024** , the outstanding amount for this obligation was $ 3. ~~2~~ **1** million. The fair value of the assets acquired includes account receivables of $ 8. ~~7~~ **6** million. The gross amount due under contracts is $ 8. ~~7~~ **6** million, of which none is expected to be uncollectible. The Company did not acquire any other class of receivable as a result of the acquisition of Par Five. The **Company previously recognized a preliminary estimate of $ 8. 7 million for accounts receivable acquired as part of the Par Five Acquisition. During the year ended December 31, 2024, the Company made measurement period adjustments to net decrease accounts receivable by $ 0. 1 million. These measurement period adjustments reflect facts and circumstances in existence as of the acquisition date. The cumulative impact of these adjustments was a decrease in deferred cash consideration payable. The** acquired business contributed revenues of $ 4. 9 million and net income of $ 1. 2 million to the Company for the period from December 1, 2023 **,** to December 31, 2023. The following **combined supplemental** unaudited pro forma ~~summary~~ **information** presents consolidated information of the Company as if the business combination had occurred on January 1, 2022 **. The supplemental pro forma information presented below is for illustrative purposes only and does not reflect future events that occurred after December 31, 2023, or any operating efficiencies or inefficiencies that may result from the Par Five Acquisition. The information is not necessarily indicative of results that would have been achieved had the Company controlled Par Five during the periods**

presented . (unaudited, in thousands) Year Ended December 31, 20232022Revenue $ 1, 672, 350 $ 1, 315, 970 Net income99, 536 4, 823 The Company had material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and net income. These adjustments included nonrecurring acquisition costs incurred in 2023 but have been adjusted to be reflected in 2022. These pro forma amounts have been calculated after applying the Company' s accounting policies and adjusting the results of Par Five to reflect the additional depreciation that would have been charged assuming the fair value adjustments to property, plant, and equipment had been applied from January 1, 2022, with the consequential tax effects. For the year ended December 31, 2023, the Company incurred $ 1. 3 million of acquisition costs. These expenses are included in general and administrative expenses on the Company' s consolidated ~~income~~ statement **of operations** for the year ended December 31, 2023 **,** and are reflected in pro forma net income for the year ended December 31, 2022, in the table above. The Company' s consolidated statement of operations for the year ended December 31, 2023 **,** includes 31 days of Par Five operations as the Par Five Acquisition closed on December 1, 2023. On November 1, 2022 (the" Silvertip Acquisition Date"), the Company entered into a purchase and sale agreement with New Silvertip Holdco, LLC, pursuant to which the Company acquired 100 % of the outstanding limited liability company interests of Silvertip, a wireline services company in the Permian Basin, in exchange for total consideration of $ 148. 1 million (the" Silvertip Purchase Price") consisting of 10. 1 million shares of ~~our~~ **the Company' s** common stock valued at $ 106. 7 million, $ 30. 0 million of cash, the payoff of $ 7. 2 million of assumed debt, and the payment of $ 4. 1 million of certain seller closing and transaction costs ~~. The Silvertip Acquisition positions the Company as a more resilient and diversified completions- focused oilfield service provider headquartered in the Permian Basin~~ . The Company accounted for the Silvertip Acquisition using the acquisition method of accounting. The Silvertip Purchase Price was allocated to the major categories of assets acquired and liabilities assumed based upon their estimated fair value at the Silvertip Acquisition Date. The estimated fair values of certain assets and liabilities, including accounts receivable, require significant judgments and estimates. The measurements of assets acquired and liabilities assumed, are based on inputs that are not observable in the market and thus represent Level 3 inputs. The following table summarizes the fair value of the consideration transferred in the Silvertip Acquisition and the Silvertip Purchase Price to the fair value of the assets acquired and liabilities assumed (which are included within the accompanying consolidated balance sheet as of December 31, 2022) as of the Silvertip Acquisition Date: (in thousands) Total purchase consideration: Cash consideration $ 30, 000 Equity consideration106, 736 Debt payments and closing costs11, 320 Total consideration $ 148, 056 Cash and cash equivalents $ 2, 681 Accounts receivable and unbilled revenue21, 079 Inventories1, 209 Prepaid expenses2, 476 Other current assets1, 059 Property and equipment (1) 52, 478 Intangible assets: Trademark / trade name (2) 10, 800 Customer relationships (2) 46, 500 Goodwill23, 624 Operating lease right- of- use asset2, 783 Total assets acquired164, 689 Accounts payable7, 659 Accrued and other current liabilities6, 178 Operating lease liability2, 796 Total liabilities assumed16, 633 Total purchase consideration $ 148, 056 (1) Remaining useful lives ranging from less than one to 22 years. (2) Definite lived intangibles with amortization period of 10 years. The goodwill arising from the Silvertip Acquisition is attributable to the expected operational synergies resulting from our integrated service offerings. The goodwill arising from the Silvertip Acquisition has been allocated to our wireline operations, and are included in our wireline operating segment. The Company' s transaction costs were recognized separately from the acquisition of assets and assumptions of liabilities in the Silvertip Acquisition, and were expensed as incurred. These costs are included within general and administrative expenses in our consolidated statements of operations. The following combined pro forma information assumes the Silvertip Acquisition occurred on January 1, 2021. The pro forma information presented below is for illustrative purposes only and does not reflect future events that occurred after December 31, 2022 **,** or any operating efficiencies or inefficiencies that may result from the Silvertip Acquisition. The information is not necessarily indicative of results that would have been achieved had the Company controlled Silvertip during the periods presented. (unaudited, in thousands) Year Ended December 31, 20222021Revenue ~~----~~ **2022Revenue** $ 1, 428, 282 ~~$ 1, 013, 261~~ Net ~~income~~ **income26** ~~(loss) (1) 26~~ , 716 ~~(43, 957) (1) The nonrecurring acquisition costs of $ 2. 2 million were included in our pro forma results for the year ended December 31, 2021.~~ The Company' s consolidated statement of operations for the year ended December 31, 2022, includes 61 days of Silvertip operations as the Silvertip Acquisition closed on November 1, 2022. 5. FAIR VALUE MEASUREMENTS Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i. e., the" exit price") in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various valuation approaches and establishes a hierarchy for inputs used in measuring fair value that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used, when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company' s assumptions about the assumptions other market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the observability of inputs as follows: Level 1 — Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not applied to Level 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these instruments does not entail a significant degree of judgment. Level 2 — Valuations based on one or more quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. Level 3 — Valuations based on inputs that are unobservable and significant to the overall fair value measurement. A financial instrument' s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The Company' s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 5. FAIR VALUE MEASUREMENTS (Continued) Assets and Liabilities Measured at Fair Value on a Recurring Basis The fair values of cash ~~,~~ **and** cash equivalents ~~and restricted cash~~ , accounts receivable, accounts payable, accrued and other current liabilities, and long- term debt are estimated to be approximately equivalent to carrying amounts as of December 31, **2024, and** 2023 ~~and 2022~~ and have been excluded from the table below. Assets measured at fair value on a recurring basis as of December 31, ~~2023~~ **2024 ,** are set forth below: (~~In~~ **in** thousands) Estimated fair value measurementsBalanceQuoted prices inactive market (Level 1) Significant otherobservable inputs (Level 2) Significant otherunobservable inputs (Level 3) Total gains (losses) December 31, **2024: Short- term investment $ 7, 849 $ 7, 849 $ — $ — $ 105 Business acquisition contingent consideration payable $ 8, 300 $ — $ — $ 8, 300 $ 2, 600 December 31,** 2023: Short- term investment $ 7, 745 $ 7, 745 $ — $ — $ (2, 538 ~~) December 31, 2022: Short- term investment $ 10, 283 $ 10, 283 $ — $ — $ (1, 570~~) Short- term investment — On September 1, 2022, the Company received 2. 6 million common shares of STEP Energy Services Ltd. (~~"~~ **“** STEP ~~"~~ **”**) with an estimated fair value of $ 11. 8 million as part of the consideration for the sale of our coiled tubing assets to STEP. The shares were treated as an investment in equity securities measured at fair value using Level 1 inputs based on observable prices on the Toronto Stock Exchange and are shown under current assets in our consolidated balance sheets. As of December 31, ~~2023~~ **2024** , the fair value of the short- term investment was estimated at $ 7. ~~7~~ **8** million. The fluctuation in stock price resulted in an unrealized **gain of $ 0. 1 million for the year ended December 31, 2024, an unrealized** loss of $ 2. 5 million **for the year ended December 31, 2023, and** ~~and~~ **an unrealized loss of** $ 1. 6 million for ~~2023 and~~ **the year ended December 31,** 2022 **. Included in the unrealized gain for the year ended December 31** , ~~respectively~~ **2024, was a loss of $ 0. 7 million resulting from noncash foreign currency translation** . Included in the unrealized loss **for the year ended December 31, 2023,** was a gain of $ 0. 1 million ~~and~~ **resulting from noncash foreign currency translation. Included in the unrealized loss for the year ended December 31, 2022, was** a loss of $ 0. 3 million resulting from **noncash** ~~non- cash~~ foreign currency translation ~~for the years ended December 31, 2023 and 2022, respectively~~ . The unrealized **gains and** losses resulting from stock price fluctuation and **noncash** ~~non- cash~~ foreign currency translation are included in other income (expense) in our consolidated statements of operations. The Company is restricted from selling, transferring or assigning more than 0. 9 million shares in any one calendar month **. Business acquisition contingent consideration payable — On May 31, 2024, the Company completed the acquisition of all of the outstanding equity interests in AquaProp in exchange for $ 13. 7 million of cash, $ 3. 7 million of deferred cash consideration payable to AquaProp' s seller by May 31, 2025, the payoff of $ 7. 2 million of assumed debt, the payment of $ 0. 3 million of certain transaction costs and estimated contingent consideration of $ 10. 9 million. The contingent consideration payable was measured at fair value using Level 3 inputs based on the probability- weighted expected return method and is shown under other long- term liabilities in our condensed consolidated balance sheets. The fair value of the contingent consideration payable is remeasured at the end of each reporting period. As of December 31, 2024, the estimated fair value of the contingent consideration payable was $ 8. 3 million resulting in a $ 2. 6 million decrease from May 31, 2024. The decrease in the estimated fair value of the contingent consideration payable was primarily driven by updated projections regarding the probability of different scenarios and the amount and timing of additional equipment to be delivered by the seller under those scenarios. Increases or decreases in any valuation inputs in isolation may result in a significantly lower or higher fair value measurement in the future. The following table presents a reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3): (in thousands) Year Ended December 31, 2024Business acquisition contingent consideration payable- opening balance $ — Addition10, 900 Decrease in estimated fair value (1) (2, 600) Business acquisition contingent consideration payable- closing balance $ 8, 300 (1) The decrease in the estimated fair value of the business acquisition contingent consideration payable is included in other income (expense) in our consolidated statement of operations for the year ended December 31, 2024** . Assets Measured at Fair Value on a Nonrecurring Basis **Assets measured at fair value on a nonrecurring basis are set forth below: (in thousands) Estimated fair value measurementsBalanceQuoted prices inactive market (Level 1) Significant otherobservable inputs (Level 2) Significant otherunobservable inputs (Level 3) Total gains (losses) December 31, 2024: Implied fair value of wireline reporting unit goodwill (1) $ — $ — $ — $ — $ (23, 624) November 1, 2024: Note receivable on sale of Vernal, Utah cementing business $ 13, 000 $ — $ 13, 000 $ — $ — September 30, 2024: Property and equipment, net $ 63, 791 $ — $ — $ 63, 791 $ (188, 601) (1) The implied fair value of our wireline reporting unit was determined using Level 3 inputs and was $ 0 at December 31, 2024 (the measurement date) after full impairment.** Certain assets and liabilities are measured at fair value on a nonrecurring basis. These items are not measured at fair value on an ongoing basis but may be subject to fair value adjustments in certain circumstances. These assets and liabilities include those acquired through the **business combinations** ~~Par Five Acquisition~~ , which are required to be measured at fair value on the acquisition date according to ASC Topic 805, Business Combinations (see Note 4. Business Acquisitions) **. The Company performed a fair value assessment of the $ 13. 0 million promissory note obtained as consideration for the sale of its cementing business located in Vernal, Utah, to Big 4 on November 1, 2024 (the date of the transaction), and concluded that the fair value of the note receivable approximated its carrying value and no discount or premium adjustment was needed. The Company utilized market interest rates for business loans which**

represented inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly (Level 2) to determine the implied fair value of the note receivable . Whenever events or circumstances indicate that the carrying value of long- lived assets may not be recoverable, the Company reviews the carrying values of long - lived assets, such as property and equipment and other assets to determine if they are recoverable. If any long - lived assets are determined to be unrecoverable, an impairment expense is recorded in the period. **As part of the quarterly evaluation for the three months ended September 30, 2024, after evaluating the current market conditions and new information available, such as decreasing customer demand for and related pricing pressures on its Tier II Units, among other factors, the Company determined that the marketability of its Tier II Units had declined. As a result, the Company plans to strategically phase out its Tier II Units before the end of the original weighted average remaining useful life of this asset group. The Company performed an impairment analysis on its Tier II Units as of September 30, 2024, by comparing estimated future cash flows on an undiscounted basis to the carrying value of these assets. The Company determined that its Tier II Units were impaired, as their carrying value was greater than their estimated future cash flows on an undiscounted basis. Accordingly, we recorded property and equipment impairment expense of approximately $ 188. 6 million within our hydraulic fracturing operating segment during the year ended December 31, 2024, in connection with our Tier II Units. As of September 30, 2024 (the impairment measurement date), the estimated fair value of our Tier II Units was $ 63. 8 million which was determined using the market and cost approaches, which represent Level 3 inputs in the fair value measurement hierarchy. Our fair value estimates required us to use significant unobservable inputs, including assumptions related to replacement cost, among others. The fair value of approximately 95 % of our Tier II Units was estimated using the market approach and the remaining assets were valued using the cost approach. For assets valued using the market approach, we relied upon the direct match and comparable match methods of the market approach to value certain assets such as hydraulic fracturing pumps and their associated engines, transmissions, and power ends where significant market data was available and an active secondary market exists. Key assumptions include declining desirability for conventional diesel equipment due to emissions and fuel efficiency challenges based on research gathered from third party auctioneers. For assets valued using the cost approach, we estimated the current cost of reproducing a new replica of the asset being appraised using the same, or closely similar, materials for each asset or group of assets by using the indirect (trending) method of the cost approach. Allowances were made for physical deterioration as well as functional and economic obsolescence as appropriate. Key assumptions include forecasted use of Tier II Units. The carrying value of our Tier II Units as of September 30, 2024, prior to the impairment expense was approximately $ 252. 4 million.** No impairment of property and equipment was recorded during the year ended December 31, 2023. We recorded **property and equipment** impairment expense of approximately $ 57. 5 million during the year ended December 31, 2022, in connection with our DuraStim ® electric- powered hydraulic fracturing pumps that did not meet the manufacturer' s specifications or our expectations ~~. There was no impairment of assets during the year ended December 31, 2021~~ . We generally apply fair value techniques to our reporting units on a nonrecurring basis associated with valuing potential impairment loss related to goodwill, if any. Our estimate of the reporting unit fair value is based on a combination of income and market approaches, Level ~~1 and~~ 3 ~~,~~ ~~respectively,~~ in the fair value hierarchy. The income approach involves the use of a discounted cash flow method, with the cash flow projections discounted at an appropriate discount rate. The market approach involves the use of comparable public companies' market multiples in estimating the fair value. **We used both the guideline public company method and the guideline transaction method under the market approach.** Significant assumptions include projected revenue growth, capital expenditures ~~,~~ ~~utilization~~ , gross margins, discount rates, terminal growth rates, and weight allocation between income and market approaches. If the reporting unit' s carrying amount exceeds its fair value, we consider goodwill impaired, and the impairment loss is calculated and recorded in the period. ~~There were no additions to~~ **We conducted our annual impairment test of** goodwill **as of December 31, 2024, and determined that the goodwill in our wireline operating segment and reporting unit with a carrying value of $ 23. 6 million was fully impaired due to the Company updating its outlook for this reporting unit as a result of decreased revenue and profitability experienced** during the year ended December 31, ~~2023~~ **2024** . ~~We added~~ **Accordingly, we recorded goodwill impairment expense of** $ 23. 6 million ~~of goodwill during~~ **in our wireline reporting unit for** the year ended December 31, ~~2022~~ **2024** ~~(see Note 4. Business Acquisitions). There were no additions to goodwill during the year ended December 31, 2021~~ . We **applied weightings** ~~conducted our annual impairment test~~ of **75 %** goodwill as of December 31 ~~,~~ ~~2023~~ **25 %,** and **0 % to the fair values derived from the income approach, the guideline public company method and the guideline transaction method, respectively, to assess fair value. We used the Gordon Growth Model to** ~~determined~~ ~~.~~ **determine** ~~that no~~ **the terminal value and applied a terminal growth rate of 3. 0 %, a 23. 0 % income tax rate and a 24. 9 % discount rate for the wireline reporting unit. No** impairment to the carrying value of goodwill for our **hydraulic fracturing** reporting unit ~~(wireline operating segment)~~ was required. There were no goodwill impairment losses during the years ended December 31, 2023, **and** 2022 ~~and 2021~~ . ~~The wireline~~ **See Note 2. Significant Accounting Policies for a summary of goodwill by** operating segment ~~is the only segment which has goodwill at December 31, 2023 and 2022~~ . ~~The table below sets forth the changes in the carrying amount of goodwill. (in thousands) Goodwill as of January 1, 2022 — net $ — Goodwill addition during the year23, 624 Less impairment losses — Goodwill as of December 31, 2022 — net23, 624 Goodwill addition during the year — Less impairment losses — Goodwill as of December 31, 2023 — net $ 23, 624~~ 6. LONG - TERM DEBT Asset- Based Loan Credit Facility Our revolving credit facility, as amended and restated in April 2022, prior to giving effect to the amendment to the revolving credit facility in June 2023, had a total borrowing capacity of $ 150 **. 0** million. The revolving credit facility had a borrowing base of 85 % to 90 %, depending on the credit ratings of our accounts receivable counterparties, of monthly eligible accounts receivable less customary reserves. The revolving credit facility ~~,~~ included a springing fixed charge coverage ratio to apply when excess availability was less than the greater of (i) 10 % of the lesser of the facility size or the borrowing base or (ii) $ 10. 0 million. Under the revolving credit facility, we were required to comply, subject to certain exceptions and materiality qualifiers, with certain customary affirmative and negative covenants, including, but not limited to, covenants pertaining to our ability to incur liens, indebtedness, changes in the nature of our business, mergers and other fundamental changes, disposal of assets, investments and restricted payments, amendments to our organizational documents or accounting policies, prepayments of certain debt, dividends, transactions with affiliates, and certain other activities. Effective June 2, 2023, the Company entered into an amendment to its amended and restated revolving credit facility **. The amendment increased the borrowing capacity under** the revolving credit facility ~~(as amended and restated in April 2022, as amended in June 2023 and as may be amended further," ABL Credit Facility"). The amendment increased the borrowing capacity under the ABL Credit Facility~~ to $ 225. 0 million (subject to the Borrowing Base (as defined below) limit), and extended the maturity date to June 2, 2028. **Effective June 26, 2024, the Company entered into an amendment to its amended and restated revolving credit facility (the revolving credit facility, as amended and restated in April 2022, as amended in June 2023, as amended in June 2024, and as may be amended further," ABL Credit Facility"). The amendment increased the amount of noncash consideration that may be considered cash pursuant to certain permitted dispositions.** The ABL Credit Facility has a borrowing base of the sum of 85 % to 90 % of monthly eligible accounts receivable and 80 % of eligible unbilled accounts (up to a maximum of 25 % of the borrowing base), in each case, depending on the credit ratings of our accounts receivable counterparties, less customary reserves (the" Borrowing Base"), ~~in each case, depending on the credit ratings of our accounts receivable counterparties,~~ as redetermined monthly. The Borrowing Base as of December 31, ~~2023~~ **2024** , was approximately $ ~~152~~ **164** , ~~0~~ **1** million. The ABL Credit Facility includes a springing fixed charge coverage ratio to apply when excess availability is less than the greater of (i) 10 % of the lesser of the facility size or the Borrowing Base or (ii) $ 15. 0 million. Under the ABL Credit Facility we are required to comply, subject to certain exceptions and materiality qualifiers, with certain customary affirmative and negative covenants, including, but not limited to, covenants pertaining to our ability to incur liens or indebtedness, changes in the nature of our business, mergers and other fundamental changes, disposal of assets, investments and restricted payments, amendments to our organizational documents or accounting policies, prepayments of certain debt, dividends, transactions with affiliates, and certain other

activities. Borrowings under the ABL Credit Facility are secured by a first priority lien and security interest in substantially all assets of the Company. ~~Borrowings under~~ **The loan origination costs relating to** the ABL Credit Facility **are classified as** ~~accrue interest based on a three- tier pricing grid tied to availability, and~~ **an asset in our balance sheet. As of December 31, 2024, and 2023,** we **had outstanding borrowings under** ~~may elect for loans to be based on either the Secured Overnight Financing Rate (" SOFR") or the base rate, plus the applicable margin, which ranges from 1. 75 % to 2. 25 % for SOFR loans and 0. 75 % to 1. 25 % for base rate loans. The weighted average interest rate for~~ our ABL Credit Facility **of $ 45. 0 million and $ 45. 0 million, respectively. After borrowings outstanding and letters of credit of approximately $ 8. 6 million under the ABL Credit Facility, we had approximately $ 110. 5 million available** for ~~the year ended~~ **borrowing under our ABL Credit Facility as of** December 31, ~~2023~~ **2024** ~~, was 6. 69 %~~. 9. ACCRUED AND OTHER CURRENT LIABILITIES Accrued and other current liabilities consisted of the following: (in thousands) December 31, ~~20232022Accrued~~ **20242023Financed and accrued** insurance $ **5, 140 $** 1, 222 ~~$ 517~~ Accrued payroll and related expenses **19, 562** 14, 284 ~~14, 137~~ Deferred revenue (advance from customer) **11, 823** 19, 190 ~~10, 000~~ Capital expenditure, taxes and ~~others~~ **other** ~~accruals40~~ **accruals34 , 398 40** , 920 ~~24, 373~~ Total $ **70, 923 $** 75, 616 ~~$ 49, 027~~ 10. EMPLOYEE BENEFIT PLAN The Company has a 401 (k) plan, modified effective January 1, 2019 **,** and further modified effective April 1, 2022. The Company matches 100 % of the employee contributions up to 6 % of gross salary, up to the annual limit. The employees are fully vested in their contributions when made. Prior to the April 1, 2022 **,** modification, the employees vested in the Company' s contributions to the 401 (k) plan 25 % per year, beginning in the employee' s first year of service, with full vesting occurring after four years of service. Effective April 1, 2022, the Company allows for immediate vesting of the Company' s contributions. During the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~, the recorded expense under the plan was $ **6. 8 million, $** 5. 9 million, **and** $ 4. 6 ~~million and $ 2. 8~~ million, respectively. 11. REPORTABLE SEGMENT INFORMATION The Company currently has ~~three~~ **four** operating segments for which discrete financial information is readily available: hydraulic fracturing (inclusive of acidizing **and wet sand solutions**), wireline ~~and~~ **,** cementing **and our newly formed power generation services PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 11. REPORTABLE SEGMENT INFORMATION (Continued) which has not begun any revenue- generating activities yet** . These operating segments represent how the CODM evaluates performance and allocates resources **. Our CODM is a group comprised of our Chief Executive Officer, Chief Financial Officer, Chief Operating Officer and Chief Commercial Officer. On November 1, 2024, the Company sold its cementing business located in Vernal, Utah, to a business owned by a former employee as part of a strategic repositioning. We recorded a gain on disposal of $ 8. 2 million related to the sale of the business within loss on disposal of assets and business within our consolidated statement of operations for the year ended December 31, 2024. The sale of these assets did not qualify for presentation and disclosure as a discontinued operation, and accordingly, we have recorded the resulting gain from the sale as part of our loss on disposal of assets and business in our consolidated statement of operations. The former employee was part of the Company' s cementing operations until November 1, 2024 and is no longer affiliated with the Company** . On September 1, 2022, the Company shut down its coiled tubing operations and disposed of its coiled tubing assets to STEP as part of a strategic repositioning, and recorded a loss on disposal of $ 13. 8 million. The divestiture of our coiled tubing assets did not qualify for presentation and disclosure as a discontinued operation, and accordingly, we have recorded the resulting loss from the disposal as part of our loss **(gain)** on disposal of assets in our consolidated statement of operations. We have historically conducted our business through four operating segments: hydraulic fracturing, wireline, cementing and coiled tubing. Prior to the fourth quarter of fiscal year 2023, our operating segments met the aggregation criteria and were aggregated into the " Completion Services " reportable segment and our coiled tubing operations (which were divested in September 2022) were shown in the " All Other " category. Effective **in** ~~as of~~ the fourth quarter of fiscal year 2023, we revised our segment reporting as we determined that our ~~three~~ operating segments no longer met the criteria to be aggregated. **In the fourth quarter of fiscal year 2024, we formed a new subsidiary to provide power generation services. This new subsidiary has not begun any revenue- generating activities yet.** Our ~~Hydraulic~~ **hydraulic** ~~Fracturing~~ **fracturing** ~~and~~ **,** ~~Wireline~~ **wireline and cementing** operating segments meet the criteria of a reportable segment. Our ~~cementing and our~~ divested coiled tubing **and our newly formed power generation services** segments do not meet the reportable segment criteria and are included within the " All Other " category. Additionally, our corporate administrative activities do not involve business activities from which it may earn revenues and its results are not regularly reviewed by the Company' s CODM when making key operating and resource decisions. As a result, corporate administrative expenses have been included under " Reconciling Items. " ~~Prior period segment information has been revised to conform to our current presentation.~~ Our hydraulic fracturing operating segment revenue approximated **75. 6 %,** 78. 5 % ~~,~~ **and** 89. 3 ~~% and 91. 6~~ % of our revenue for the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~, respectively. Revenue from our wireline operating segment (resulting from the acquisition of Silvertip in 2022) approximated 14. 1 % **, 14. 1 %** and 2. 4 % of our revenue for the years ended December 31 **, 2024** , 2023 and 2022, respectively. Our cementing operating segment revenue approximated **10. 3 %,** 7. 4 % ~~,~~ **and** 7. 2 ~~% and 6. 5~~ % of our revenue for the years ended December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~, respectively. Our **newly formed power generation services operating segment has not begun any revenue- generating activities yet. Revenue from our** coiled tubing ~~revenue~~ **operating segment which was divested in 2022** approximated 1. 1 % ~~and 1. 9 %~~ of our revenue for the ~~years~~ **year** ended December 31, 2022 ~~and 2021, respectively~~. Our operating segments are subject to inherent uncertainties which may influence our prospective activities. Inter- segment revenues are not material and are not shown separately in the tables below. The Company manages and assesses the performance of ~~the~~ **its** reportable ~~segment~~ **segments** by ~~its~~ **their** adjusted EBITDA (earnings before interest expense, income taxes, depreciation and amortization, stock- based compensation expense, other income or expense, gain or loss on disposal of assets **and businesses** and other unusual or nonrecurring expenses or income such as impairment charges, retention bonuses, severance, costs related to asset acquisitions, insurance recoveries, one- time professional fees and legal settlements). ~~PROPETRO HOLDING CORP~~ **As part of the CODM' s review of segment- level performance, each member of the CODM group reviews the adjusted EBITDA of the Company' s reportable segments and provides expertise and analyses from their respective areas which drive the evaluation of the performance of the Company' s reportable segments and allocation of resources to those segments** . ~~NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 11~~ **Even though the CEO has the authority to override the other members for strategic or other reasons, key decisions are made jointly by the CODM group** . ~~REPORTABLE SEGMENT INFORMATION (Continued)~~ The following tables set forth certain financial information with respect to the Company' s reportable segments **; intersegment revenues and cost of services are shown under " Reconciling Items "** (in thousands): Hydraulic ~~FracturingWirelineAll~~ **FracturingWirelineCementingAll** OtherReconciling ItemsTotalYear ended ~~and as of~~ December 31, **2024Service revenue (1) $ 1, 092, 000 $ 203, 182 $ 149, 411 $ — $ (307) $ 1, 444, 286 Cost of service- labor $ 233, 156 $ 53, 609 $ 35, 353 $ (6) $ — $ 322, 112 Cost of service- expendables $ 149, 809 $ 56, 533 $ 67, 986 $ — $ (307) $ 274, 021 Cost of service- other direct costs $ 417, 237 $ 37, 983 $ 14, 151 $ 10 $ — $ 469, 381 General and administrative expenses excluding nonrecurring and non cash items for reportable segments $ 21, 294 $ 11, 200 $ 5, 381 $ 366 $ — $ 38, 241 Adjusted EBITDA for reportable segments $ 270, 505 $ 43, 857 $ 26, 539 $ (370) $ — $ 340, 531 Depreciation and amortization $ 182, 188 $ 20, 633 $ 8, 812 $ — $ 100 $ 211, 733 Property and equipment impairment expense (2) $ 188, 601 $ — $ — $ — $ — $ 188, 601 Goodwill impairment expense (3) $ — $ 23, 624 $ — $ — $ — $ 23, 624 Capital expenditures $ 116, 257 $ 7, 713 $ 9, 376 $ — $ 42 $ 133, 388 Goodwill $ 920 $ — $ — $ — $ — $ 920 Total assets $ 961, 485 $ 156, 349 $ 73, 935 $ — $ 31, 876 $ 1, 223, 645 Hydraulic FracturingWirelineCementingAll OtherReconciling ItemsTotalYear ended December 31,** 2023Service revenue **$** ~~$~~ **(** 1 **) $ 1** , 280, 523 $ 229, 599 $ 120, 277 $ — $ **— $** 1, 630, 399 **Cost of service- labor $ 239, 037 $ 58, 212 $ 27, 871 $ — $ — $ 325, 120 Cost of service- expendables $ 258, 004 $ 61, 883 $ 52, 008 $ — $ — $ 371, 895 Cost of service- other direct costs $ 389, 115 $ 35, 262 $ 10, 409 $ — $ — $ 434, 786 General and administrative expenses excluding nonrecurring and non cash items for reportable segments $ 27, 559 $ 12, 311 $ 5, 324 $ — $ — $ 45, 194** Adjusted EBITDA **for reportable segments** $ 366, 809 $ 61, 930 $ 24, 665 $ — $ **— $** 453, 404 **Depreciation and amortization $ 156, 057 $ 18, 762 $ 5, 845 $ — $ 222 $ 180, 886** Capital expenditures $ 294, 377 $ 12, 203 $ 3, 440 $ — $ **— $** 310, 020 Goodwill $ — $ 23, 624 **$ —** $ — $ — $ 23, 624 Total assets $ 1, 189, 526 $ 198, 957 $ 78, 475 $ **— $** 13, 354 $ 1, 480, 312 Hydraulic ~~FracturingWirelineAll~~ **FracturingWirelineCementingAll** OtherReconciling ItemsTotalYear ended ~~and as of~~ December 31, 2022Service revenue ~~$~~ **(** 1 **) $ 1** , 143, 216 $ 31, 188 $ ~~105~~ **91** , ~~297~~ **857 $ 13, 440** $ — $ 1, 279, 701 **Cost of service- labor $ 208, 011 $ 8, 046 $ 22, 450 $ 6, 007 $ — $ 244, 514 Cost of service- expendables $ 246, 558 $ 8, 514 $ 41, 427 $ 265 $ — $ 296, 764 Cost of service- other direct costs $ 321, 452 $ 4, 582 $ 8, 011 $ 7, 497 $ — $ 341, 542 General and administrative expenses excluding nonrecurring and non cash items for reportable segments $ 28, 009 $ 2, 120 $ 5, 071 $ 1, 135 $ — $ 36, 335** Adjusted EBITDA **for reportable segments** $ 339, 186 $ 7, 926 $ ~~13~~ **14** , ~~434~~ **897 $ (1, 463)** $ — $ 360, 546 **Depreciation and amortization $ 117, 753 $ 2, 619 $ 5, 089 $ 2, 240 $ 407 $ 128, 108 Property and equipment impairment expense (2) $ 57, 454 $ — $ — $ — $ — $ 57, 454** Capital expenditures $ 347, 757 $ 2, 265 $ ~~9~~ **7** , ~~645~~ **769 $ 1, 876** $ 5, 649 $ 365, 316 Goodwill $ — $ 23, 624 **$ —** $ — $ — $ 23, 624 Total assets $ 1, 092, 658 $ 173, 489 $ 46, 944 $ **— $** 22, 695 $ 1, 335, 786 **(1) Revenue recognized over time under our** Hydraulic ~~FracturingWirelineAll OtherReconciling ItemsTotalYear~~ **Fracturing reportable segment was $ 1, 077. 2 million, $ 1, 263. 7 million and $ 1, 133. 2 million for the years** ended ~~and as of~~ December 31, ~~2021~~**Service 2024, 2023, and 2022, respectively. Major Customers The Company had revenue from the following significant customers that accounted for the following percentages of the Company' s total revenue: Year Ended December 31, ~~20232022021Customer~~ ---- **202420232022Customer** A **19. 7 % 18. 2 % 15. 0 % Customer B 14. 9 % 6. 2 % 0. 0 % Customer C 10. 6 % 9. 6 % 2. 9 % Customer D6. 9 % 4. 8 % 0. 8 % Customer E 6. 6 %** 19. 7 % 28. 3 % ~~14 Customer F2~~ , 6 % **0** ~~Customer B 18~~ . ~~2~~ **5** % ~~15~~ **1** . **4** ~~0 % 8. 8~~ % Customer **G1** ~~C 9~~ . 6 % ~~2~~ **7** . ~~9~~ **7** % ~~0~~ **33** . 1 % Customer **H0** ~~D 8~~ . 0 % ~~— % — % Customer E 7. 7 % 33. 1 % 54.~~ 2 % ~~Customer F2~~ . 3 % 4. 7 % ~~— %~~ **The above** ~~Customer~~ **customers are third- party** ~~G0. 5 % 1. 4 % 4. 4 % Customer~~ **customers** ~~H — % — % 3~~ . 8 % **Revenue from these customers was derived our Hydraulic Fracturing, Wireline and Cementing segments and our All Other category.** 12. NET ~~INCOME~~ (LOSS) **INCOME** PER SHARE Basic net ~~income~~ (loss) **income** per common share is computed by dividing the net ~~income~~ (loss) **income** relevant to the common stockholders by the weighted- average number of shares outstanding during the year. Diluted net ~~income~~ (loss) **income** per common share uses the same net ~~income~~ (loss) **income** divided by the sum of the weighted- average number of shares of common stock outstanding during the period, plus dilutive effects of options, performance stock units (" PSUs ") and restricted stock units (" RSUs ") outstanding during the period calculated using the treasury method and the potential dilutive effects of preferred stocks (if any) calculated using the if-converted method. (In thousands, except for per share data) Year Ended December 31, ~~20232022021Numerator~~ ---- **202420232022Numerator** (both basic and diluted) Net ~~income~~ (loss) **income** relevant to common stockholders $ **(137, 859) $** 85, 634 $ 2, 030 ~~$ (54, 185)~~ DenominatorDenominator for basic net ~~income~~ (loss) **income** per ~~share113~~ **share105 , 469 113** , 004 105, 868 ~~102, 655~~ Dilutive effect of stock options — — 80 — Dilutive effect of performance stock ~~units42~~ -- **units — 42** 506 — Dilutive effect of restricted stock ~~units370~~ --- **units — 370** 485 — Denominator for diluted net ~~income~~ (loss) **income** per ~~share113~~ **share105 , 469 113** , 416 106, 939 ~~102, 655~~ Basic net ~~income~~ (loss) **income** per common share ~~$~~ **(1. 31)** 0. 76 ~~$~~ 0. 02 ~~$ (0. 53)~~ Diluted net ~~income~~ (loss) **income** per common share ~~$~~ **(1. 31)** 0. 76 ~~$~~ 0. 02 ~~$ (0. 53)~~ PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 12. NET INCOME (LOSS) PER SHARE (Continued) As shown in the table below, the following stock options, RSUs and PSUs outstanding as of December 31, **2024,** 2023, **and** 2022 ~~and 2021~~ have not been included in the calculation of diluted ~~income~~ (loss) **income** per common share for the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~ because they would be anti- dilutive to the calculation of diluted net ~~income~~ (loss) **income** per common share: (In thousands) ~~20232022021Stock~~ ---- **202420232022Stock** ~~options286~~ **options179 286** 491 ~~798~~ Restricted stock ~~units82~~ **units1 82** 12 ~~1, 413~~ Performance stock ~~units411~~ --- **units** — ~~1, 586 Total779~~ **411 — Total180 779** 503 ~~3, 797~~ 13. SHARE REPURCHASE PROGRAM On ~~May 17~~ **April 24** , ~~2023~~ **2024** , the Company' s board of directors (the" Board") ~~authorized~~ **approved** ~~and~~ **an increase and extension to** the ~~Company announced a~~ share repurchase program ~~that allows~~ **previously authorized on May 17, 2023. The program permits** the ~~Company to~~ repurchase **of** up to **an additional** $ 100 million of the Company' s common stock ~~beginning immediately~~ **for a total of $ 200 million** and ~~continuing through and including~~ **extends the expiration date by one year to** May 31, ~~2024~~ **2025** . The shares may be repurchased from time to time in open market transactions, block trades, accelerated share repurchases, privately negotiated transactions, derivative transactions or otherwise, certain of which may be made pursuant to a trading plan meeting the requirements of Rule 10b5- 1 under the Exchange Act, in compliance with applicable state and federal securities laws. The timing, as well as the number and value of shares repurchased under the program, will be determined by the Company at its discretion and will depend on a variety of factors, including management' s assessment of the intrinsic value of the Company' s common stock, the market price of the Company' s common stock, general market and economic conditions, available liquidity, compliance with the Company' s debt and other agreements, applicable legal requirements, and other considerations. The Company is not obligated to purchase any shares under the **share** repurchase program, and the program may be suspended, modified, or discontinued at any time without prior notice. The Company expects to fund the repurchases using cash on hand and expected free cash flow to be generated through May ~~2024~~ **2025** . The ~~Inflation Reduction Act of 2022 (" IRA 2022") provides for, among other things, the imposition of a new~~ 1 % U. S. federal excise tax on certain repurchases of stock by publicly traded U. S. corporations **applies** ~~such as us after December 31, 2022. Accordingly, the excise tax will apply~~ to our share repurchase program ~~in 2023 and in subsequent taxable years. The current government has proposed increasing the amount of the excise tax from 1 % to 4 %; however, it is unclear whether such a change in the amount of the excise tax will be enacted and, if enacted, how soon any such change could take effect~~ . All shares of common stock repurchased under the share repurchase program are canceled and retired upon repurchase. The Company accounts for the purchase price of repurchased shares of common stock in excess of par value ($ 0. 001 per share of common stock) as a reduction of additional- paid- in capital, and will continue to do so until additional paid- in- capital is reduced to zero. Thereafter, any excess purchase price will be recorded as a reduction of retained earnings. During the year ended December 31, ~~2023~~ **2024** , the Company paid an aggregate of $ ~~51~~ **59** . ~~7~~ **1** million, an average price per share of $ 8. ~~93~~ **21** including commissions, for share repurchases under the share repurchase program, thereby retiring ~~5~~ **7** . ~~8~~ **2** million shares. The Company has accrued $ 0. ~~4~~ **5** million in respect of the IRA 2022 repurchase excise tax as of December 31, ~~2023~~ **2024** . As of December 31, ~~2023~~ **2024** , $ ~~48~~ **89** . ~~3~~ **2** million remained authorized for future repurchases of common stock under the **share** repurchase program. 14. STOCK - BASED COMPENSATION Stock Option Plan In March 2013, we approved the Stock Option Plan of ProPetro Holding Corp. (the" Stock Option Plan") pursuant to which our Board may grant stock options to our consultants, directors, executives and employees. No awards have been granted under the Stock Option Plan following our Initial Public Offering ~~(" IPO")~~ , and no further awards will be granted under the Stock Option Plan. **As of December 31, 2024, there were no awards outstanding under the Stock Option Plan.** 2017 Incentive Award Plan In March 2017, our shareholders approved the ProPetro Holding Corp. 2017 Incentive Award Plan (the" 2017 Incentive Plan") pursuant to which our Board was authorized to grant stock options, RSUs, PSUs, or other stock- based and cash awards to consultants, directors, executives and employees. The 2017 Incentive Plan originally authorized up to 5, 800, 000 shares of common stock to be issued with respect to awards granted pursuant to the plan. No awards have been granted under the 2017 ~~PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 14. STOCK - BASED COMPENSATION (Continued)~~ Incentive Plan following approval of the 2020 Incentive Plan (as defined below), and no further awards will be granted under the 2017 Incentive Plan. 2020 Long Term Incentive Plan **PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 14. STOCK - BASED COMPENSATION (Continued)** In October 2020, our shareholders approved the ProPetro Holding Corp. 2020 Long Term Incentive Plan (the" 2020 Incentive Plan") pursuant to which our Board may grant stock options, RSUs, PSUs, or other stock- based and cash awards to consultants,

directors, executives and employees. The 2020 Incentive Plan authorized up to 4, 650, 000 shares of common stock to be issued under awards granted pursuant to the plan. The 2020 Incentive Plan became effective on October 22, 2020, and as of such date no further awards will be granted under the 2017 Incentive Plan. In May 2023, our stockholders approved the Amended and Restated ProPetro Holding Corp. 2020 Long Term Incentive Plan (the" A & R 2020 Incentive Plan"), which had been previously approved by the Board. The A & R 2020 Incentive Plan became effective on May 11, 2023 , and replaced the 2020 Incentive Plan. The A & R 2020 Incentive Plan authorizes up to 8, 050, 000 shares of common stock to be issued under awards granted pursuant to the plan in lieu of the 4, 650, 000 shares of common stock available for issuance under the 2020 Incentive Plan. The 2017 Incentive Plan and the A & R 2020 Incentive Plan are herein collectively referred to as the" Incentive Plans." Stock Options On March 16, 2017, we granted 793, 738 stock option awards to certain key employees, officers and directors pursuant to the 2017 Incentive Plan which ~~are~~ **were** scheduled to vest in four substantially equal annual installments, subject to a continuing service requirement. The contractual term for the options awarded is 10 years. The fair value of each stock option award granted was estimated on the date of grant using the Black- Scholes option- pricing model. There were no new stock option grants during the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~. As of December 31, ~~2023~~ **2024** , there was no aggregate intrinsic value for our outstanding or exercisable stock options because the closing stock price as of December 31, ~~2023~~ **2024** , was below the cost to exercise the options. No stock options were exercised during the year ended December 31, ~~2023~~ **2024** . The weighted average remaining contractual term for the outstanding and exercisable stock options as of December 31, ~~2023~~ **2024** , was ~~3.~~2 **. 0** years and ~~3.~~2 **. 0** years, respectively. A summary of the stock option activity during the year ended December 31, ~~2023~~ **2024** , is presented below (in thousands, except for exercise price): Number of SharesWeighted Average Exercise PriceOutstanding at January 1, ~~2023488~~ **2024180** $ 14. 00 Granted — $ — Exercised — $ — Forfeited — $ — Expired (~~308~~ **1**) $ 14. 00 Outstanding at December 31, ~~2023180~~ **2024179** $ 14. 00 Exercisable at December 31, ~~2023180~~ **2024179** $ 14. 00 Restricted Stock Units In ~~2023~~ **2024** , we granted 1, ~~704~~ **806** , ~~189~~ **956** RSUs to employees, officers and directors pursuant to the **A & R** 2020 Incentive Plan, which generally vest ratably over a three- year vesting period **or a two- year period at one- third after first year anniversary and two- thirds after the second year anniversary** , in the case of awards to employees and officers, and generally vest in full after one year, in the case of awards to directors. RSUs are subject to restrictions on transfer and are generally subject to a risk of forfeiture if the award recipient ceases to be an employee or director of the Company prior to vesting of the award. Each RSU represents the right to receive one share of common stock. The grant date fair value of the RSUs is based on the closing share price of our common stock on the date of grant. For the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~, the Company recognized stock compensation expense for RSUs of approximately $ **11. 9 million, $** 7. 8 million ~~,~~ **and** $ 11. 1 ~~million and $ 6. 2~~ million, respectively. On March 31, 2022, the Company modified the RSUs previously granted to a former officer in 2019, 2020 **,** and 2021 to accelerate the vesting of such RSUs in connection with his separation agreement. On December 31, 2022, the Company modified the RSUs previously granted to a former officer in 2020, 2021 **,** and 2022 to accelerate the vesting of such RSUs in connection with his separation agreement. As a result of these modifications, we recorded a net incremental stock expense of $ 1. 2 million during the year ended December 31, 2022. As of December 31, ~~2023~~ **2024** , the total unrecognized compensation expense for all RSUs was approximately $ 15. ~~4~~ **9** million, and is expected to be recognized over a weighted- average period of approximately 1. ~~8~~ **6** years. The following table summarizes the RSUs activity during the year December 31, ~~2023~~ **2024** (in thousands, except for fair value): Number ofSharesWeightedAverageGrant DateFair Value (" FV") Outstanding at January 1, ~~20231~~ **20242** , ~~268~~ **264** $ ~~10~~ **9** , ~~91~~ **81** Granted1, ~~704~~ **807** $ ~~9~~ **7** . ~~30~~ **44** Vested (~~558~~ **937**) $ ~~10~~ **9** . ~~59~~ **51** Forfeited (~~150~~ **133**) $ ~~10~~ **8** . ~~40~~ **35** Canceled — $ — Outstanding at December 31, ~~20232~~ **20243** , ~~264~~ **001** $ ~~9~~ **8** . ~~81~~ **54** Performance Stock Units In ~~2023~~ **2024** , we granted ~~454~~ **637** , ~~788~~ **266** PSUs to certain key employees and officers as new awards under the **A & R** 2020 Incentive Plan. Each PSU earned represents the right to receive either one share of common stock or, as determined by the administrator in its sole discretion, a cash amount equal to the fair market value of one share of common stock or amount of cash on the day immediately preceding the settlement date. The actual number of shares of common stock that may be issued under the PSUs ranges from 0 % up to a maximum of 200 % of the target number of PSUs granted to the participant, based on our total shareholder return (" TSR") relative to a designated peer group of comparable companies (“ Peer Group ”), generally at the end of a three- year period. In addition to the TSR conditions, vesting of the PSUs is generally subject to the recipient’ s continued employment through the end of the applicable performance period. Compensation expense is recorded ratably over the corresponding requisite service period. The grant date fair value of PSUs is determined using a Monte Carlo **simulation** ~~probability model~~. Grant recipients do not have any shareholder rights until performance relative to the Peer Group has been determined following the completion of the performance period and shares have been issued. In connection with a former officer’ s separation agreement, on March 31, 2022, the Company modified the PSUs previously granted to such former officer in 2020 and 2021 to provide for deemed satisfaction of the service requirement applicable to such PSUs as of March 31, 2022, such that such PSUs shall remain outstanding and eligible to vest based on our TSR relative to the Peer Group over the applicable performance period. In connection with a former officer’ s separation agreement, on December 31, 2022, the Company modified the PSUs previously granted to such former officer in 2021 and 2022 to provide for deemed satisfaction of the service requirement applicable to such PSUs as of December 31, 2022, such that such PSUs shall remain outstanding and eligible to vest based on our TSR relative to the Peer Group over the applicable performance period. As a result of these modifications, we recorded a net incremental stock expense of $ 2. 6 million during the year ended December 31, 2022. For the years ended December 31, **2024,** 2023, **and** 2022 **,** ~~and 2021~~ the Company recognized stock compensation expense for the PSUs of approximately $ **5. 4 million, $** 6. 6 million ~~,~~ **and** $ 10. 8 ~~million and $ 5. 5~~ million, respectively. The following table summarizes information about PSUs activity during the year ended December 31, ~~2023~~ **2024** (in thousands, except for fair value): PeriodGrantedTarget Shares Outstanding at January 1, ~~2023TargetSharesGrantedTarget~~ **2024TargetSharesGrantedTarget** Shares VestedTargetSharesForfeitedTarget Shares Outstanding at December 31, **20242021620** ~~20232020809 — (493) (316) — 2021632~~ — — (~~12~~ **620**) ~~620 —~~ ~~2022316~~ **2022306** — — (~~10~~ **5**) ~~306 2023~~ **301 2023438** — ~~455~~ — (~~17~~ **7**) ~~438~~ **431 2024 — 637 — (4) 633** Total1, ~~757 455~~ **364 637 —** (**636** ~~493) (355~~) 1, ~~364~~ **365** Weighted Average Fair Value Per Share $ **15. 80 $ 8. 22 $ — $ 14. 73 $** 12. **77** ~~72 $ 14. 40 $ 8. 30 $ 9. 17 $ 15. 80~~ The total stock compensation expense for the years ended December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~ for all stock awards was approximately $ **17. 3 million, $** 14. 5 million ~~,~~ **and** $ 21. 9 ~~million and $ 11. 5~~ million, respectively, and the associated tax benefit related thereto was $ 3. **6 million, $ 3.** 0 million ~~,~~ **and** $ 4. 6 ~~million and $ 2. 4~~ million, respectively. The total unrecognized stock- based compensation expense as of December 31, ~~2023~~ **2024** was approximately $ 21. ~~6~~ **7** million, and is expected to be recognized over a weighted- average period of approximately 1. ~~5~~ **6** years. 15. As of December 31, ~~2023~~ **2024** , the Company had approximately $ ~~296~~ **186** , ~~6~~ **1** million of U. S. federal NOLs, ~~some~~ **all** of which will **have an unlimited carryforward** ~~begin to expire in 2035. Approximately $ 87. 7 million of the Company’ s U. S. federal NOLs relate to pre- 2018 periods~~. As of December 31, ~~2023~~ **2024** , the Company’ s state NOLs were approximately $ ~~48~~ **42** . ~~1~~ **8** million and will begin to expire in 2030. Utilization of NOLs ~~carryforwards~~ may be limited **under Section 382 of the Code** due to ~~past or~~ future ownership changes. As of December 31, ~~2023~~ **2024** , we determined that $ 0. 6 million valuation allowance was necessary against our state deferred tax assets. The Company’ s U. S. federal income tax returns for the year ended December 31, ~~2020~~ **2021** , and through the most recent filing remain open to examination by the Internal Revenue Service under the applicable U. S. federal statute of limitations provisions. The various states in which the Company is subject to income tax are generally open to examination for the tax years ended December 31, ~~2019~~ **2020** , and through the most recent filing. The Company records uncertain tax positions in accordance with ASC 740, Income Taxes, on the basis of a two- step process in which (1) we determine whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more- likely- than- not recognition threshold, we recognize the largest amount of tax benefit that is more than 50 % likely to be realized upon ultimate settlement with the related tax authority. As of December 31, **2024,** 2023 ~~,~~ **and** 2022 ~~and 2021~~, no uncertain tax positions were recorded. The Company will continue to evaluate its tax positions in accordance with ASC 740 and will recognize any future effect as either a benefit or charge to income in the applicable period. Income tax penalties and interest assessments recognized under ASC 740 are accrued as a tax expense in the period that the Company’ s taxes are in an uncertain tax position. Any accrued tax penalties or interest assessments will remain until the uncertain tax position is resolved with the taxing authorities or until the applicable statute of limitations has expired. 16. RELATED- PARTY TRANSACTIONS Operations and Maintenance Yards The Company rents three yards from an entity in which a director of the Company has an equity interest, and the total annual rent expense for each of the three yards was approximately $ 0. 03 million, $ 0. 1 million and $ 0. 1 million, respectively. The Company previously rented two additional yards from this entity and incurred rent expense of $ 0. 02 million and $ 0. 1 million, respectively during the year ended December 31, 2023. **ExxonMobil and Pioneer** On December 31, 2018, we consummated **the purchase of certain pressure pumping assets and real property from** the Pioneer Pressure Pumping Acquisition ~~with Pioneer and Pioneer Pumping Services~~. In connection with the Pioneer Pressure Pumping Acquisition, Pioneer received 16. 6 million shares of our

common stock and approximately $ 110. 0 million in cash. In ~~October~~ **May** ~~2023~~ **2024**, Pioneer **merged with and into a wholly owned subsidiary of Exxon Mobil Corporation (" ExxonMobil ") after which ExxonMobil became the owner of these shares. The Company currently provides pressure pumping, wireline and other services to ExxonMobil and previously provided such services to Pioneer. On April 22, 2024, we** entered into a ~~merger~~ **sub-** agreement **for Hydraulic Fracturing Services** with ~~Exxon Mobil Corporation~~ **XTO Energy Inc**. ~~On March 31, 2022, we entered into the A & R Pressure Pumping Services Agreement, which was initially entered into in connection with the Pioneer Pressure Pumping Acquisition. The A & R Pressure Pumping Services Agreement expired at the conclusion of its term and was replaced by the Fleet One Agreement and Fleet Two Agreement described below. On October 31, 2022, we entered into two pressure pumping services agreements~~ (**" XTO** ~~the" Fleet One Agreement" and" Fleet Two Agreement"~~) ~~with Pioneer~~ **, a wholly owned subsidiary of ExxonMobil**, pursuant to which we **will** ~~provided~~ **provide** hydraulic fracturing **, wireline and pumpdown** services with two committed **FORCE ® electric- powered hydraulic fracturing** fleets **with the option to add a third FORCE ® fleet (also with wireline and pumpdown services) for a period of three years or for contracted hours, whichever occurs last, with respect to each fleet**, subject to certain termination and release rights ~~. The Fleet One Agreement was effective as of January 1, 2023 and was terminated on August 31, 2023. The Fleet Two Agreement was effective as of January 1, 2023 and was terminated on May 12, 2023. In October 2023, Pioneer entered into a merger agreement with Exxon Mobil Corporation~~. Revenue from services provided to **ExxonMobil (including Pioneer and XTO) subsequent to Pioneer' s merger with ExxonMobil accounted for $ 187. 7 million of our total revenue during the year ended December 31, 2024. Revenue from services provided to** Pioneer (including **equipment** reservation fees) **prior to its merger with ExxonMobil** accounted for approximately $ **6. 8 million of our total revenue during the year ended December 31, 2024. Revenue from services provided to Pioneer (including equipment reservation fees) prior to its merger with ExxonMobil accounted for approximately $** 125. 1 million ~~,~~ **and** $ 423. 7 ~~million and $ 473. 8~~ million of our total revenue during the years ended December 31, 2023 ~~,~~ **and** 2022 ~~and 2021~~, respectively. As of December 31, ~~2023~~ **2024**, the total accounts receivable due from **ExxonMobil (including** Pioneer **and XTO)**, including estimated unbilled receivable for services we provided, amounted to $ ~~2~~ **70**. ~~4~~ **8** million and the amount due to **ExxonMobil (including** Pioneer **and XTO)** was $ 0. As of December 31, ~~2022~~ **2023**, the balance due from Pioneer for services ~~(including reservation fees)~~ we provided amounted to approximately $ ~~46~~ **2. 4 million and the amount due to Pioneer was $ 0. Big 4 and Former Employee On November 1, 2024, we sold our cementing business located in Vernal, Utah, to Big 4 which is solely owned by a former employee as part of a strategic repositioning. We received a promissory note for $ 13. 0 million as consideration. The note receivable is secured by substantially all assets of Big 4 and the former employee' s ownership interests in and distributions from Big 4. The note receivable is to be paid to the Company in quarterly installments with interest of 10 % per annum from March 31, 2025 to December 31, 2029. The note receivable is considered subordinated financial support to Big 4 and represents a variable interest to the Company in Big 4. See Note 19. Variable Interest Entity for the carrying value of the note receivable as of December 31, 2024. We recorded interest income of $ 0**. 2 million ~~and~~ **for the year ended December 31, 2024 which is included in our consolidated statement of operations under** ~~the~~ **other** ~~amount due to Pioneer~~ **income (expense). Cash inflows from collections on the note receivable will be included in our consolidated statement of cash flows under cash flows from investing activities. The former employee** was ~~$ 0~~ **part of our cementing operations until November 1, 2024, and is no longer affiliated with the Company**. 17. LEASES ~~On January 1, 2019, we implemented ASC 842, using the modified retrospective transition method and elected not to restate prior years. Accordingly, the effects of adopting ASC 842 were adjusted in the beginning of 2019 while prior periods are accounted for under the legacy GAAP, ASC 840. There was no cumulative effect adjustment on beginning retained earnings. We also elected other practical expedients provided by the new lease standard, the short- term lease recognition practical expedient in which leases with a term of twelve months or less will not be recognized on the balance sheet, and the practical expedient to not separate lease and non- lease components for real estate class of assets. Our discount rate was based on our estimated incremental borrowing rate on a collateralized basis with similar terms and economic considerations as our lease payments at the lease commencement. Below is a description of our operating and finance leases.~~ PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 17. LEASES (Continued) Operating Leases Description of ~~Lease~~ **Leases** ~~In March 2013, we entered into a ten~~ **We have operating leases for five FORCE ® electric** ~~- year real estate lease contract~~ **powered hydraulic fracturing equipment fleets** (the **" Electric Fleet** ~~" Real Estate One Lease~~ **Leases " "**) ~~with a commencement date of April 1~~, **facilities** ~~2013, as part of the expansion of our equipment yard. For the years ended December 31, 2023, 2022~~ and **office space** ~~2021, the Company made lease payments of approximately $ 0. 1 million, $ 0. 4 million and $ 0. 4 million, respectively~~. The ~~assets~~ **terms** and **conditions of** ~~liabilities under this contract are included in our Hydraulic Fracturing reportable segment. In addition to the~~ **these** ~~contractual lease~~ **leases** ~~period,~~ **vary by** the **type** ~~contract includes an optional renewal~~ of ~~up to ten years. However,~~ the **underlying** ~~Company terminated the Real Estate One Lease at the end of the term, March 1, 2023. We accounted for our Real Estate One Lease as an operating lease. This conclusion resulted from the existence of the right to control the use of the assets~~ **asset** ~~throughout the lease term~~. We did not account for ~~the~~ land separately from ~~the building~~ **buildings under our leases** of **facilities** ~~the Real Estate One Lease~~ because we concluded that the accounting effect was insignificant. **Our operating** ~~As part of our expansion of our hydraulic fracturing equipment maintenance program, we entered into a two- year maintenance facility real estate lease~~ **leases do** ~~contract (the" Maintenance Facility Lease") with a commencement date of March 14, 2022. During the year ended December 31, 2023 the Company made lease payments of approximately $ 0. 3 million. In addition to the contractual lease period, the contract includes an optional renewal for three additional periods of one year each, however, the Company plans to terminate the Maintenance Facility Lease at the end of the term, February 29, 2024. The contract does~~ not include ~~a~~ residual value ~~guarantee~~ **guarantees**, covenants or financial restrictions. Further, **our operating leases do** ~~the Maintenance Facility Lease does~~ not contain variability in payments resulting from either an index change or rate change. We ~~accounted~~ **assumed two leases** for **facilities** ~~our Maintenance Facility Lease~~ as **an part of our acquisition of Silvertip Completion Services Operating, LLC on November 1, 2022. Our** operating **leases have remaining** lease ~~. This conclusion resulted from the existence of the right to control the use of the assets throughout the lease term~~ **terms**. ~~We did not account for the land separately from the building~~ of **approximately 0. 8 years to 3. 9 years** ~~the Maintenance Facility Lease because we concluded that the accounting effect was~~ **as** ~~insignificant. As~~ of December 31, ~~2023~~ **2024**, ~~the weighted average discount rate and~~ **. Our operating leases have renewal options** ~~remaining~~ **ranging from none to three renewal options of up to one year each at the end of their current contractual** lease **periods** ~~term was approximately 3~~. **Further** ~~4 % and 0. 2 years~~, **our** respectively. ~~In August 2022 and December 2022, we entered into equipment lease contracts (the"~~ Electric Fleet Leases ~~") for a duration~~ **have options to purchase the underlying equipment at the end of their initial term** of approximately three years **or at the end of** each **renewal period. However, in management' s judgment the exercise of neither the renewal options nor the purchase options are reasonably assured** for **any lease** ~~a total of four FORCESM electric- powered hydraulic fracturing fleets with 60, 000 HHP per fleet~~. ~~The~~ **In addition to fixed rent payments, the** Electric Fleet Leases contain ~~options to either extend each lease for up to three additional periods of one year each or purchase the equipment at the end of their initial term of approximately 3. 0 years or at the end of each subsequent renewal period. The first of the Electric Fleet Leases (the" Electric Fleet One Lease") commenced on August 23, 2023 when we received some of the equipment associated with the first FORCESM electric- powered hydraulic fracturing fleet. During the year ended December 31, 2023, the Company made lease payments of approximately $ 2. 2 million, including variable lease payments of approximately $ 0. 1 million. During the year ended December 31, 2023, the Company incurred initial direct costs of approximately $ 14. 3 million to place the leased equipment into its intended use, which are included in the right- of- use asset cost related to the Electric Fleet One Lease. The assets and liabilities under this contract are included in our Hydraulic Fracturing reportable segment. In management' s judgment the exercise of neither the renewal option nor the purchase option is reasonably assured. In addition to fixed rent payments, the Electric Fleet One Lease contains~~ variable payments based on equipment usage. The ~~Electric Fleet One Lease does not include a residual value guarantee, covenants or financial restrictions. We accounted for the Electric Fleet One Lease as an operating lease. Our assumptions resulted from the existence of the~~ right ~~to control the~~ **- of-** use ~~of the~~ assets ~~throughout the lease term. As of December 31, 2023, the weighted average discount rate~~ and **liabilities related to** remaining lease term was approximately 7. 3 % and 3. 0 years, respectively. The second of the Electric Fleet Leases ~~(the" Electric Fleet Two Lease") commenced on November 1, 2023 when we received some of the equipment associated with the second FORCESM electric- powered hydraulic fracturing fleet. During the year ended December 31, 2023, the Company made lease payments of approximately $ 1. 0 million, including variable lease payments of approximately $ 0. 03 million. During the year ended December 31, 2023, the Company incurred initial direct costs of approximately $ 9. 4 million to place the leased equipment into its intended use, which are included in the right- of- use asset cost related to the Electric Fleet Two Lease. The assets and liabilities under this contract~~ are included in our Hydraulic Fracturing reportable segment ~~. In management' s judgment the exercise of neither the renewal option nor the purchase option is reasonably assured. In addition to fixed rent payments~~, **related to leases** ~~the Electric Fleet Two Lease contains variable payments based on equipment usage. The Electric Fleet Two Lease does not include a residual value guarantee, covenants or financial restrictions. We accounted~~ for **facilities** ~~the Electric Fleet Two Lease as an operating lease. Our assumptions resulted from the existence of the right to control the use of the assets throughout the lease term. As of December 31, 2023, the weighted average discount rate and remaining lease term was approximately 7. 3 % and three years, respectively. As of December 31, 2023, we have not received some of the equipment contracted under the Electric Fleet Two Lease. Since we have not taken possession of these assets and do not control them, we have not accounted for the associated right- of- use asset and lease obligation on our balance sheet as of December 31, 2023. The third of the Electric Fleet Leases (the" Electric Fleet Three Lease", and collectively with the Electric Fleet One Lease and the Electric Fleet Two Lease, the " Electric Fleet Leases ") commenced on December 19, 2023, when we received some of the equipment associated with the third FORCESM electric- powered hydraulic fracturing fleet. During the year ended December 31, 2023, the Company made lease payments of approximately $ 0. 1 million and no variable lease payments. During the year ended December 31, 2023, the Company incurred initial direct costs of approximately $ 1. 4 million to place the leased equipment into its intended use, which~~ are included in ~~the right- of- use asset cost~~ **our Hydraulic Fracturing and Wireline reportable segments, and** related to **office space** ~~the Electric Fleet Three Lease. The assets and liabilities under this contract~~ are included in ~~our Hydraulic Fracturing reportable segment. In management' s judgment the exercise of neither the renewal option nor the purchase option is reasonably assured. In addition to fixed rent payments, the Electric Fleet Three Lease contains variable payments based on equipment usage. The Electric Fleet Three Lease does not include a residual value guarantee, covenants or financial restrictions. We accounted for the Electric Fleet Three Lease as an operating lease. Our assumptions resulted from the existence of the right to control the use of the assets throughout the lease term. As of December 31, 2023, the weighted average discount rate and remaining lease term was approximately 7. 3 % and 3. 0 years, respectively. As of December 31, 2023, we have not received some of the equipment contracted under the Electric Fleet Three Lease.~~

Since we have not taken possession of these assets and do not control them, we have not accounted for the associated right- of- use asset and lease obligation on our balance sheet as of December 31, 2023. The Electric Fleet Lease on the fourth FORCESM electric- powered hydraulic fracturing fleet has not yet commenced. We currently do not control the assets under this lease because they are currently being manufactured by the vendor and we have not taken possession of the assets. The delivery of the FORCESM electric- powered hydraulic fracturing fleets is as each fleet is manufactured. We currently expect to receive the remaining equipment associated with the second and third fleets and all equipment associated with the fourth fleet in the first half of 2024. Given that the Company has not yet taken possession of the assets under these leases, the Company has not accounted for the associated right- of- use asset and lease obligation on its balance sheet as of December 31, 2023. In October 2022, we entered into a real estate lease contract for 5. 3 years (the" Real Estate Two Lease") with a commencement date of March 1, 2023. During the year ended December 31, 2023, the Company made lease payments of approximately $ 0. 3 million. The assets and liabilities under this contract are included in our Hydraulic Fracturing reportable segment. In addition to the contractual lease period, the contract includes two optional renewals of one year each, and in management' s judgment the exercise of the renewal option is not reasonably assured. The contract does not include a residual value guarantee, covenants or financial restrictions. Further, the Real Estate Two Lease does not contain variability in payments resulting from either an index change or rate change. We accounted for our Real Estate Two Lease as an operating lease. Our assumptions resulted from the existence of the right to control the use of the assets throughout the lease term. We did not account for the land separately from the building of the Real Estate Two Lease because we concluded that the accounting effect was insignificant. As of December 31, 2023, the weighted average discount rate and remaining lease term was approximately 6. 3 % and 4. 3 years, respectively. As part of the Silvertip Acquisition, we assumed two real estate lease contracts (the" Silvertip One Lease" and" Silvertip Two Lease," and collectively the" Silvertip Leases") with remaining terms of 4. 8 years and 6. 1 years, respectively, from the Silvertip Acquisition Date. During the year ended December 31, 2023, we extended the Silvertip One Lease for an additional 1. 3 years. During the year ended December 31, 2023, the Company made lease payments of approximately $ 0. 2 million and $ 0. 3 million on the Silvertip One Lease and the Silvertip Two Lease, respectively. The assets and liabilities under these contracts are recorded in our wireline operating segment within our Wireline reportable segment. The Silvertip Leases do not have any renewal options, residual value guarantees, covenants or financial restrictions. Further, the Silvertip Leases do not contain variability in payments resulting from either an index change or rate change. We accounted for the Silvertip One Lease and the Silvertip Two Lease as operating leases. This conclusion resulted from the existence of the right to control the use of the assets throughout the lease term. We did not account for the land and separately from the building of the real estate leases because we concluded that the accounting effect was insignificant. As of December 31, 2023, the weighted average discount rate and remaining lease term on the Silvertip One Lease was approximately 6. 3 % and 4. 9 years, respectively. As of December 31, 2023, the weighted average discount rate and remaining lease term for the Silvertip Two Lease was approximately 2. 1 % and 4. 9 years, respectively. In March 2023, we entered into a real estate lease contract for 5. 7 years (the" Silvertip Three Lease"), with a commencement date of April 1, 2023. During the year ended December 31, 2023, the Company made lease payments of approximately $ 0. 1 million on the Silvertip Three Lease. The assets and liabilities under this contract are recorded in our wireline operating segment within our Wireline reportable segment. The contract does not include a residual value guarantee, covenants or financial restrictions. Further, the Silvertip Three Lease does not contain variability in payments resulting from either an index change or rate change. We accounted for the Silvertip Three Lease as an operating lease. This conclusion resulted from the existence of the right to control the use of the assets throughout the lease term. We did not account for the land separately from the building of the Silvertip Three Lease because we concluded that the accounting effect was insignificant. As of December 31, 2023, the weighted average discount rate and remaining lease term on the Silvertip Three Lease was approximately 6. 3 % and 4. 9 years, respectively. On June 1, 2023, we commenced an office space lease contract for 5. 0 years (the" Silvertip Office Lease"). During the year ended December 31, 2023, the Company made lease payments of approximately $ 0. 1 million on the Silvertip Office Lease. The assets and liabilities under this contract are recorded in our wireline operating segment within our Wireline reportable segment. The contract does not include a residual value guarantee, covenants or financial restrictions. Further, the Silvertip Office Lease does not contain variability in payments resulting from either an index change or rate change. We accounted for the Silvertip Office Lease as an operating lease. This conclusion resulted from the existence of the right to control the use of the assets throughout the lease term. As of December 31, 2023, the weighted average discount rate and remaining lease term was approximately 6. 5 % and 4. 4 years, respectively. In August 2023, in connection with the relocation of our corporate office, we entered into an office space lease contract for 2. 1 years (the" Corporate Office Lease"), with a commencement date of September 8, 2023. During the year ended December 31, 2023, the Company made lease payments of approximately $ 0. 02 million on the Corporate Office Lease. The assets and liabilities under this contract are recorded in our corporate administrative function. **Year Ended** In addition to the contractual lease period, the contract includes an optional renewal for 0. 8 years, and in management' s judgment the exercise of the renewal option is not reasonably assured. The contract does not include a residual value guarantee, covenants or financial restrictions. Further, the Corporate Office Lease does not contain variability in payments resulting from either an index change or rate change. We accounted for the Corporate Office Lease as an operating lease. This conclusion resulted from the existence of the right to control the use of the assets throughout the lease term. As of December 31, **(in thousands) 20242023Operating** 2023, the weighted average discount rate and remaining lease term was approximately 7. 1 % and 1. 8 years, respectively. As of December 31, 2023, our total operating lease right **of use cost $ 182, 130 $ 85, 775 Operating lease amortization of right** - of- use asset **assets49** cost was $ 85. 8 million, **836** and accumulated amortization was $ 7. 2 million. As of December 31, 2022, our total **192 Net Book Value of** operating **Operating Leases** lease right- of- use asset cost was $ **132** 4. 6 million, **294** and accumulated amortization was $ **78, 583** 1. 5 million. Finance Leases **We have** In January 2023, we entered into a three- year equipment lease contract (the" Power Equipment Lease") for certain power generation equipment with a commencement date of August 23, 2023. During the year ended December 31, 2023, the Company made lease payments of approximately $ 5. 7 million on the Power Equipment Lease. The assets and liabilities under this contract are included in our Hydraulic Fracturing reportable segment. In addition to the contractual lease period, the contract includes an optional renewal for one year, and in management' s judgment the exercise of the renewal option is not reasonably assured. The contract does not include a residual value guarantee, covenants or financial restrictions. Further, the Power Equipment Lease does not contain variability in payments resulting from either an index change or rate change. **The right- of- use assets and liabilities under this contract are included in our Hydraulic Fracturing reportable segment.** We accounted for the Power Equipment Lease as a finance lease. This conclusion resulted from the existence of the right to control the use of the assets throughout the lease term, the present value of lease payments being equal to or in excess of substantially all of the fair value of the underlying assets and the lease term being the major part of the remaining economic life of the underlying assets. As of **Year Ended** December 31, **(in thousands) 20242023Finance** 2023, the weighted average discount rate and remaining lease term was approximately 7. 3 % and 2. 6 years, respectively. As of December 31, 2023, the total finance lease right **of use cost $ 54, 842 $ 52, 612 Finance lease amortization of right** - of- use asset **assets24** cost was approximately $ 52. 6 million, **129** and accumulated amortization was approximately $ 5. 2 million. As of December 31, 2022, we had no **163 Net Book Value of** finance **Finance Leases $ 30, 713 $ 47, 449 Lease Costs The components of** lease **costs** right- of- use assets. Maturity Analysis of Lease Liabilities The maturity analysis of liabilities and reconciliation to undiscounted and discounted remaining future lease payments for operating leases as of December 31, 2023 are as follows: **Year Ended December 31,** (in thousands) Operating LeasesFinance Leases2024 **202420232022Operating lease cost** $ 20 **48**, 399 **759** $ **6, 636 $ 682Finance lease cost: Amortization of right- of- use assets24,** 19 **129 5**, **163** 872 202520, 322 19, 872 202619, 194 12, 790 20271, 225 — 2028821 **Interest on lease liabilities2, 892 1, 014** — Total undiscounted future lease payments61, 961 52, 534 Amount representing interest (6, 332) (4, 585) Present value of future lease payments (lease obligation) $ 55, 629 $ 47, 949 The total cash paid for amounts included in the measurement of our operating lease liability during the year ended December 31, 2023, was approximately $ 4. 6 million. The total cash paid for amounts included in the measurement of our finance lease **cost27** liabilities during the year ended December 31, 2023 **021 6**, **177 — Variable lease cost3** was approximately $ 4. 7 million. During the year ended December 31, **950 144 — Short** 2023, we recorded non- **term** cash operating lease **cost833 830 825** obligations totaling approximately $ 56. 1 million arising from obtaining right- of- use assets related to our execution of the Real Estate Two Lease, the Silvertip Three Lease, the Silvertip Office Lease, the Electric Fleet One Lease, the Electric Fleet Two Lease, the Electric Fleet Three Lease and the Corporate Office Lease, and our extension of the Silvertip One Lease. During the year ended December 31, 2023, we recorded non- cash finance lease obligations totaling approximately $ 52. 6 million arising from obtaining right- of- use assets related to the commencement of the Power Equipment Lease. During the year ended December 31, 2022, total cash paid for amounts included in the measurement of our operating lease liabilities was approximately $ 0. 7 million. During the year ended December 31, 2022, we recorded a non- cash operating lease obligation of approximately $ 0. 6 million as a result of our execution of the Maintenance Facility Lease. Short- Term Leases We elected the practical expedient option, consistent with ASC 842, to exclude leases with a term of twelve months or less (" short- term lease") from our balance sheet and continue to record short- term leases as a period expense. Initial Direct Costs We elected to analogize to the measurement guidance of ASC 360 to capitalize costs incurred to place a leased asset into its intended use and to present such capitalized costs as part of the related lease right- of- use asset cost as initial direct costs. Lease **The Company incurred initial direct** Costs **costs For of approximately $ 25. 5 million, $ 25. 0 million during** the years ended December 31, **2024 and** 2023, **respectively** 2022 and 2021, we recorded operating **to place the** lease **leased equipment into its intended use, which are included in the right- of- use assets** cost **related to** of approximately $ 6. 6 million, $ 0. 7 million and $ 0. 3 million, respectively, in our **Electric Fleet Leases** consolidated statements of operations. For **No initial direct costs were incurred during** the year ended December 31, 2023 **2022 . Supplemental Cash Flow Information Supplemental cash flow information related to leases are as follows: Year Ended December 31**, we recorded **(in thousands) 202420232022Cash paid for amounts included in the measurements of lease liabilities: Operating cash flows from operating leases $ 34, 688 $ 4, 573 $ 748 Operating cash flows from** finance **lease2, 892 1, 014 — Financing cash flows from finance lease17, 676 4, 663 — Noncash** lease **obligations arising from obtaining** cost of approximately $ 6. 2 million in our consolidated statements of operations comprising of amortization of finance right- of- use asset **assets** of approximately $ 5. **related to: Operating leases (1) 70, 856 56, 108 605 Finance lease (** 2 **) 2, 230 52, 612 — (** million and interest on finance lease liabilities of approximately $ 1 **) During** . 0 million. For the years **year** ended December 31, 2022 **2024** and 2021, we had no finance **recorded noncash operating** lease costs. For **obligations arising from obtaining right- of- use assets related to** the **receipt of equipment under the Electric Fleet Leases. During the** years **year** ended December 31, 2023, 2022 and 2021, we recorded variable **noncash operating** lease cost **obligations arising from obtaining right-** of **- use assets related to** approximately $ 0. 1 million, $ 0 and $ 0, respectively, in our consolidated statements of operations. For the **receipt of equipment under the Electric Fleet Leases, our execution of facilities and office leases and our extension of a facilities lease. (2) During the** years **year**

ended December 31, ~~2023~~ **2024** ~~, 2022 and 2021~~, we recorded ~~short~~ **noncash finance lease obligations related to additional rent on the Power Equipment Lease. During the year ended December 31, 2023, we recorded noncash finance lease obligations arising from obtaining right** - **of- use assets related to the commencement of the Power Equipment Lease. Lease Terms and Discount Rates Lease terms and discount rates are as follows: December 31, 20242023Weighted average remaining lease** term **: Operating leases2. 4 years3. 1 yearsFinance leases1. 6 years2. 6 yearsWeighted average discount rate: Operating leases7. 0 % 7. 1 % Finance leases7. 3 % 7. 3 % The discount rates used for our operating and finance leases are determined based on the weighted average annual interest rate on our ABL Credit Facility effective at the time of inception or modification of each** lease ~~cost of approximately $ 0~~. **Maturity Analysis of Lease Liabilities The maturity analysis of liabilities and reconciliation to undiscounted and discounted remaining future lease payments for operating leases as of December 31, 2024 are as follows: (in thousands) Operating LeasesFinance Leases202544, 600 20, 916 202643, 835 13, 462 202717, 379 — 2028820 — 2029 — — 2030 — — Total undiscounted future lease payments $ 106, 634 34, 378 Amount representing interest (** 8 ~~million~~, **722) (1** ~~$ 0. 8 million and $ 0. 6 million~~, **874) Present value** ~~respectively, in our consolidated statements~~ of ~~operations.~~ **future lease payments (lease obligation) 97, 912 32, 504** 18. COMMITMENTS AND CONTINGENCIES We entered into certain commitments for fixed assets, consumables and services incidental to the ordinary conduct of our business, generally for quantities required for our operations and at competitive market prices. These commitments are designed to assure sources of supply and are not expected to be in excess of normal requirements. We entered into **a contractual arrangement with an equipment manufacturer to purchase mobile natural gas- fueled power generation equipment for our PROPWR business line, with a total cost of $ 122. 0 million, of which approximately $ 103. 7 million, representing progress payments beyond the initial down payment on this equipment, will be financed. We currently expect to start receiving this equipment from the end of the second quarter of 2025 through early 2026. We entered into a contractual arrangement with another related equipment manufacturer to purchase additional natural gas- fueled power generation equipment for our PROPWR business line, with a total cost of $ 25. 0 million. We currently expect to receive these generators in the first half of 2025. The power generation equipment from these contractual arrangements represent total capacity of 140 megawatts. PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 18. COMMITMENTS AND CONTINGENCIES (Continued) We entered into** the Electric Fleet Leases, which contain options to extend the leases or purchase the equipment at the end of each lease or at the end of each subsequent renewal period. As of December 31, ~~2023~~ **2024**, ~~three~~ **all five** of the Electric Fleet Leases commenced when the Company took possession of all equipment associated with the first **four** ~~FORCESM~~ -- **FORCE ®** electric- powered hydraulic fracturing ~~fleet~~ **fleets** and some of the equipment associated with the **fifth** ~~second and third fleets~~ - **fleet under these leases**. Lease payments pertaining to the remaining equipment under the **fifth** ~~second, third and fourth~~ Electric Fleet ~~Leases~~ - **Lease are is** expected to commence when the Company takes possession of the **remaining** associated equipment. We currently expect to receive the remaining equipment associated with the **fifth** ~~second and third fleets and all equipment associated with the fourth~~ fleet in the first half of ~~2024~~ **2025**. The total estimated contractual commitment in connection with the Electric Fleet Leases excluding the cost associated with the option to purchase the equipment at the end of each lease is approximately $ ~~103~~ **121**. ~~7~~ **8** million. We also entered into the Power Equipment Lease. The total estimated contractual commitment in connection with the Power Equipment Lease is approximately $ ~~52~~ **34**. ~~5~~ **4** million. The Company enters into purchase agreements with its sand suppliers (the ~~"~~ **“** Sand Suppliers ~~"~~ **”**) to secure supply of sand as part of its normal course of business. The agreements with the Sand Suppliers require that the Company purchase a minimum volume of sand, based primarily on a certain percentage of our sand requirements from our customers or in certain situations based on predetermined fixed minimum volumes, otherwise certain penalties (shortfall fees) may be charged. The shortfall fee represents liquidated damages and is either a fixed percentage of the purchase price for the minimum volumes or a fixed price per ton of unpurchased volumes. Our agreements with the Sand Suppliers expire at ~~different times prior to~~ December 31, 2025. Our sand agreement with one of our Sand Suppliers that will expire on December 31, ~~2024~~ **2025**, has a take- or- pay commitment of $ ~~17~~ **1**. ~~7~~ **5** million. During the years ended December 31, **2024,** 2023, **and** 2022 ~~and 2021~~, no shortfall fee was recorded. As of December 31, **2024 and** 2023 ~~and 2022~~, the Company had issued letters of credit of $ **8.** 6 ~~. 0~~ million and $ 6. 0 million, respectively, under the ABL Credit Facility in connection with the Company' s casualty insurance policy. Legal Matters **We have been named in various claims, lawsuits or threatened actions in the ordinary course of our business. We intend to defend these matters vigorously; however, litigation is inherently unpredictable, and the ultimate outcome or effect of any claim, lawsuit or action cannot be predicted with certainty. As a result, there can be no assurance as to the ultimate outcome of any litigation matter. Any claims against us, whether meritorious or not, could cause us to incur significant costs and expenses and require significant amounts of management and operational time and resources. With respect to each matter or exposure, we have made an assessment, in accordance with GAAP, of the probability that the resolution of the matter would ultimately result in a loss. When we determine that an unfavorable resolution of a matter is probable and such amount of loss can be estimated, we record a liability at the time that both of these criteria are met. Our management believes that we have recorded adequate accruals for any liabilities that may reasonably be expected to result from these matters.** In ~~September 2019~~ **the opinion of our management**, **no pending or known threatened claims, actions or proceedings against us are expected to have** a **material adverse effect** ~~complaint, captioned Richard Logan, Individually and On Behalf of All Others Similarly Situated, Plaintiff, v. ProPetro Holding Corp., et al., (the" Logan Lawsuit"), was filed against the Company and certain of its then current and former officers and directors in the U. S. District Court for the Western District of Texas. As amended by later complaints, the Logan Lawsuit asserted claims~~ on **our consolidated financial position** ~~behalf of a putative class of shareholders who purchased the Company' s common stock between March 17~~, **results of operations** ~~2017 and March 13, 2020~~ or ~~purchased the Company' s common stock pursuant to the Company' s IPO in March 2017. Plaintiffs alleged violations of Sections 10 (b) and 20 (a) of the Exchange Act and Rule 10b- 5 promulgated thereunder, and Sections 11 and 15 of the Securities Act against the Company, certain former officers and current and former directors, alleging that the defendants made allegedly inaccurate or misleading statements or omissions about the Company' s business, operations and prospects. On August 11, 2022, the Company entered into a settlement of the Logan Lawsuit, pursuant to which the Company' s insurers have paid a~~ cash **flows** ~~sum into a settlement fund to be distributed to members of the putative class. On May 11, 2023, the settlement was granted final court approval~~. Environmental and Equipment Insurance The Company is subject to various federal, state and local environmental laws and regulations that establish standards and requirements for protection of the environment. The Company cannot predict the future impact of such standards and requirements, which are subject to change and can have retroactive effectiveness. The Company continues to monitor the status of these laws and regulations. Currently, the Company has not been fined, cited or notified of any environmental violations that would have a material adverse effect upon its financial position, liquidity or capital resources. However, management does recognize that by the very nature of the Company' s business, material costs could be incurred in the near term to maintain compliance. The amount of such future expenditures is not determinable due to several factors, including the unknown magnitude of possible regulation or liabilities, the unknown timing and extent of the corrective actions which may be required, the determination of the Company' s liability in proportion to other responsible parties and the extent to which such expenditures are recoverable from insurance or indemnification. ~~PROPETRO HOLDING CORP. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS 18. COMMITMENTS AND CONTINGENCIES (Continued)~~ The Company is self- insured up to $ 10 million per occurrence for certain losses arising from or attributable to fire and / or explosion at the wellsites that do not have qualified fire suppression measures. No accrual was recorded in our financial statements in connection with this self- insurance strategy because the occurrence of fire and / or explosion cannot be reasonably estimated. Regulatory Audits In 2020, the Texas Comptroller of Public Accounts (the “ Comptroller ”) commenced a routine audit of the Company' s motor vehicle and other related fuel taxes for the periods of July 2015 through December 2020. As of December 31, ~~2023~~ **2024**, the audit was substantially ~~compete~~ **complete** and the Company accrued for an estimated settlement expense of $ 6. 0 ~~million. In January 2022, we entered into a settlement agreement with the Comptroller for a $ 10. 7 million tax refund, net of consulting fees, in connection with certain limited sales and use tax for the audit period July 1, 2015 through December 31, 2018. The net refund to the company of $ 10. 7 million was recorded as part of other income in our statement of operations during the year December 31, 2022. During the year ended December 31, 2021, we recorded a net refund of approximately $ 2. 1~~ million. In May 2022, the Company received a notification from the Comptroller that it will commence a routine audit of the Company’ s gross receipt taxes, which will routinely cover up to a four- year period. As of December 31, ~~2023~~ **2024**, the audit **was nearing completion and the Company accrued for an estimated settlement expense of $ 0. 8 million. 19. VARIABLE INTEREST ENTITY A VIE** is ~~still ongoing and~~ - **an entity with any of** the ~~final outcome cannot~~ **following characteristics: (i) the entity does not have enough equity to finance its activities without additional financial support, (ii) the equity holders, as a group, lack the characteristics of a controlling financial interest or (iii) the entity is structured with non- substantive voting rights. Consolidation of a VIE is required for the party deemed to** be ~~reasonably estimated. In June 2023,~~ the ~~Company received confirmation from~~ **primary beneficiary, if any. The primary beneficiary is** the ~~Comptroller~~ **party who has both (a) the power to direct the activities of a VIE** that **most significantly impact** ~~it will commence a routine audit of~~ the ~~Company~~ **VIE** ' s ~~direct payment sales tax in August~~ **economic performance and (b) the obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE. On November 1,** ~~2023~~ **2024 , we sold our cementing business located in Vernal, Utah, to a Big 4, which is solely owned by a former employee as part of a strategic repositioning. We received a promissory note** for **$ 13. 0 million as consideration. The note receivable is secured by substantially all assets of Big 4 and** the ~~period February 1~~ **former employee’ s ownership interests in and distributions from the entity. The note receivable is to be paid to the Company in quarterly installments with interest of 10 % per annum from March 31**, ~~2020~~ **2025** to December 31, ~~2022~~ **2029 . We evaluated our note receivable from Big 4 for VIEs in accordance with ASC 810, Consolidation. The Company holds a variable interest in Big 4 and Big 4 is a VIE due to its lack of sufficient equity to finance its operations without additional subordinated financial support from the Company. The note receivable from Big 4 is considered subordinated financial support and represents a variable interest to the Company in Big 4. Assets and liabilities related to the Company’ s variable interest in Big 4 included in the Company’ s consolidated balance sheets are limited to the unpaid balance of the note receivable and any accrued interest. The Company’ s maximum exposure to loss as a result of its involvement with Big 4 is also limited to the unpaid balance of the note receivable and any accrued interest. The consolidation of Big 4 is not required as the Company is not the primary beneficiary of this VIE as we do not have the power to direct the activities that most significantly impact Big 4’ s economic performance. We consider such activities to include performing customer contract obligations, maintaining and establishing customer relationships, and managing costs, among other operational activities. We do not have any control over such activities. Such power is held by Big 4’ s sole owner. We account for the note receivable (our variable interest) at amortized cost**. As of December 31, ~~2023~~ **2024**, the

carrying value of ~~audit is still ongoing and~~ the ~~final outcome cannot be reasonably estimated~~ **note receivable including interest was $ 13** . ~~19~~ **2 million** . ~~SUBSEQUENT EVENTS Subsequent to~~ **Of the carrying value at December 31, 2024 the amount collectible within one** year **was $ 2. 1 million** ~~- end, we received some of the remaining equipment associated with our second, third~~ and ~~fourth FORCESM electric- powered hydraulic fracturing fleets~~ **the amount collectible beyond one year was $ 11. 1 million, which are included in our consolidated balance sheet** under ~~the~~ **other current assets and** ~~Electric Fleet Leases, resulting in the~~ **other** ~~addition of~~ non **current** ~~- cash operating lease obligations totaling approximately $ 16. 3 million arising from obtaining right- of- use~~ assets ~~related to this equipment. Subsequent to year- end~~ , **respectively** ~~we repurchased an additional 2. 6 million shares under our share repurchase program amounting to $ 19. 5 million, bringing the total repurchases since the inception of the program to 8. 4 million shares~~ . Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure Item 9A. Controls and Procedures Evaluation of Disclosure Controls and Procedures ~~The Company~~ **We maintain disclosure controls and procedures that are designed to provide reasonable assurance that the information required to be disclosed by us in our reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC** ' s **rules and forms and that such information is accumulated and communicated to our** management, **including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. As required by Rule 13a- 15 (b) under the Exchange Act, we have evaluated, under the supervision and** with the participation of ~~its~~ **our management, including our** ~~Principal~~ **principal** ~~Executive~~ **executive** ~~Officer~~ **officer** and ~~Principal~~ **principal** ~~Financial~~ **financial** ~~Officer~~ **officer** , ~~evaluated~~ the effectiveness of the ~~Company' s~~ **design and operation of our** disclosure controls and procedures **(** ~~as of December 31, 2023. The term" disclosure controls and procedures,"~~ as defined in ~~Rule~~ **Rules** 13a- 15 (e) **and 15d- 15 (e)** under the Exchange Act **) as of** ~~, means controls and other -~~ **the** ~~procedures~~ **end of the period covered by this Form 10- K. Based upon** that **evaluation,** ~~are designed to ensure that information required to be disclosed by a company in the reports that it files or~~ **our** ~~submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the rules and forms promulgated by the SEC. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company' s management, including its~~ principal executive **officer** and principal financial ~~officers~~ **officer concluded that our** ~~, as appropriate to allow timely decisions regarding required~~ disclosure ~~. Management recognizes that any~~ controls and procedures **were effective at the** ~~, no matter how well designed and operated, can provide only~~ reasonable assurance **level** ~~of achieving their objectives and management necessarily applies its judgment in evaluating the cost- benefit relationship of possible controls and procedures. Our Principal Executive Officer and Principal Financial Officer have evaluated the effectiveness of our disclosure controls and procedures~~ as of December 31, ~~2023~~ **2024 . As** , and have concluded that our disclosure controls and procedures were not **noted** ~~effective due to the material weakness described below~~ in **"** Management' s Report on Internal Control ~~Over~~ **over** Financial Reporting ~~. " Notwithstanding the~~ **, management' s evaluation of, and** conclusion **on** ~~by our Principal Executive Officer and Principal Financial Officer that our disclosure controls and procedures as of December 31~~ , **the** ~~2023, were not effective~~ **effectiveness of** ~~, and notwithstanding the material weakness in our~~ internal control over financial reporting ~~described below~~ **did not include the internal controls of AquaProp** ~~, our management believes that our~~ **which was acquired on May 31, 2024. Under guidelines established by the SEC, companies are permitted to exclude acquisitions from their assessment of internal control over** financial **reporting during the first year** ~~statements included in this Annual Report on Form 10- K present fairly, in all material respects, our financial position, results~~ of ~~operations and -~~ **an** ~~cash flows for~~ **acquisition while integrating** the **acquired** ~~periods presented in accordance with accounting principles generally accepted in the United States of America (" U. S. GAAP "). The Company~~ **company . We are in the process of integrating AquaProp** ' s **internal controls with our internal controls over financial reporting. As a result of these integration activities, certain controls will be evaluated and may be changed. The** management **of ProPetro Holding Corp.** is responsible for establishing and maintaining adequate internal control over financial reporting **for the Company, as** ~~. Internal control over financial reporting is~~ defined in ~~Rule~~ **Rules** 13a- 15 (f) **and 15d- 15 (f)** under the Exchange Act ~~as~~ **. ProPetro Holding Corp. maintains** a ~~process~~ **system of internal accounting controls** designed ~~by, or under the supervision of, the Company' s Principal Executive Officer and Principal Financial Officer and effected by the Company' s board of directors, management and other personnel~~ to provide reasonable assurance ~~regarding the reliability of~~ **, at a reasonable cost, that assets are safeguarded against loss** ~~our -~~ **or unauthorized use and that the financial records are adequate and can be relied upon to produce financial statements in accordance with GAAP. The internal control system is augmented by written policies and procedures, an internal audit program and the selection and training of qualified personnel. This system includes policies that require adherence to ethical business standards and compliance with all applicable laws and regulations. There are inherent limitations to the effectiveness of any control system. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Also, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company will be detected. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. The Company intends to continually improve and refine its internal controls. Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operation of our internal control over** financial reporting **as** ~~and the preparation~~ of **December 31, 2024, based on criteria established in the 2013 Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management believes that ProPetro Holding Corp. maintained effective internal control over financial reporting as of December 31, 2024. Management' s evaluation of, and conclusion on, the effectiveness of internal control over financial reporting did not include the internal controls of AquaProp, which was acquired on May 31, 2024, and whose** financial statements **constitute 4. 9 % and 3. 1 % of total assets and revenue, respectively of the consolidated financial statement amounts as of and** for ~~external purposes in accordance with U- the~~ **year ended December 31, 2024** ~~. S. GAAP. Management conducted~~ **The independent registered public accounting firm, RSM US LLP, Houston, Texas, United States, has audited the consolidated financial statements as of and for the year ended December 31, 2024, and has also issued** ~~the~~ **their** ~~assessment of~~ **report on** the effectiveness of the Company' s internal control over financial reporting ~~based on criteria in the SEC guidance on conducting such assessments as of the end of the period covered by this report. Management conducted the assessment based on certain criteria established in the Internal Control- Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013. As a result of this assessment, management concluded that, as of December 31, 2023, our internal control over financial reporting was not effective due to the material weakness described below. Segregation of Duties and Management Review Control A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that a reasonable possibility exists that a material misstatement of our annual or interim financial statements would not be prevented or detected on a timely basis. The material weakness is related to the Company' s information technology environment whereby the Company did not maintain adequate segregation of duties or sufficient compensating management review controls to effectively mitigate an inadequate system access control configuration in its accounting system in which manual journal entry approvers can modify the entries before posting. This deficiency is solely related to manual journal entries and has no impact on system- generated journal entries flowing through our accounting system and other feeder systems. Due to this control deficiency, other manual- dependent controls were deemed ineffective. Subsequent to the identification of this material weakness, the Company conducted additional procedures and determined that there was no material misstatement in its consolidated financial statements for the year ended December 31, 2023. The independent registered public accounting firm, RSM US LLP, Houston, Texas, United States, Auditor Firm ID # 49, has audited the consolidated financial statements as of and for the year ended December 31, 2023, and has also issued their report on the effectiveness of the Company' s internal control over financial reporting~~ , included in this Annual Report under Part II, Item 8 above. ~~Remediation Plan and Status The Company has taken, among other items, the following measures to address the material weakness identified: • Evaluated the potential impact of the identified material weakness and accordingly, performed additional testing of certain transactions and journal entries in 2023 to ensure completeness and accuracy of its financial statements, and no material exception was identified. • Tested whether this access resulted in any inappropriate journal entries being recorded or revised and concluded that no such instances occurred. • Implemented a segregation of duties conflict process by limiting the access of certain employees of the Company who are owners of management review controls. • Implemented a technical solution to ensure that access to our system of records adequately limits incompatible duties and strengthened our monitoring and review controls over journal entry processing. • Implemented control activities related to additional independent reviews of manual entries posted in the accounting system and are currently evaluating additional procedures to further strengthen the Company' s overall segregation of duties. Although we have taken preliminary actions to eliminate the identified material weakness, we will continue to evaluate, test, and implement further actions that will further strengthen the Company' s overall internal controls over financial reporting. Remediation generally requires making changes to how controls are designed and implemented and then adhering to those changes for a sufficient period of time such that the effectiveness of those changes is demonstrated with an appropriate amount of consistency. The measures we are implementing are subject to continued management review supported by confirmation and testing, as well as audit committee oversight. Management remains committed to the implementation of remediation efforts to address the material weakness. We will continue to implement measures to remedy our internal control deficiencies, though there can be no assurance that our efforts will ultimately have the intended effects.** Changes in Internal Control over Financial Reporting ~~Except as described above, there~~ **There** were no changes in our system of internal control over financial reporting (as defined in Rule 13a- 15 (f) **and 15d- 15 (f)** under the Exchange Act) that occurred during the quarter ended December 31, ~~2023~~ **2024** , that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting. Item 9B. Other Information Trading Plans During the three months ended December 31, ~~2023~~ **2024** , no director or officer of the Company adopted or terminated a " Rule 10b5- 1 trading arrangement " or " non- Rule 10b5- 1 trading arrangement, " as each term is defined in Item 408 of Regulation S- K. Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections Not applicable. Part III Item 10. Directors, Executive Officers and Corporate Governance The information required by Item 10 is incorporated by reference to the Company' s Proxy Statement for its ~~2024~~ **2025** Annual Meeting of Stockholders, which is expected to be filed before the end of April ~~2024~~ **2025** . VolkovDirectorFebruary 20, 2025Alex V. Volkov EXHIBIT 19. 1 INSIDER TRADING COMPLIANCE POLICY (Adopted as of May 12, 2023) I. SUMMARY The purpose of this Insider Trading Compliance Policy (this " Policy ") is to establish rules intended to help prevent insider trading in the securities of ProPetro Holding Corp. (together with its subsidiaries, the " Company ") and to preserve the Company' s reputation for integrity. In addition to civil and criminal penalties that the government may impose, your failure to comply with this Policy may subject you to Company- imposed sanctions, up to and including removal or dismissal for cause, whether or not your failure to comply with this Policy results in a violation of law. This Policy applies to all officers (as defined herein), directors and employees of the Company. Individuals subject to this Policy are responsible for ensuring that members of their households also comply with this Policy. This Policy also applies to any entities controlled by individuals subject to the Policy, including any corporations, partnerships or trusts, and transactions by these entities should be treated for the purposes of this Policy as if they were for the individual' s own account. This Policy applies to all transactions in the Company' s securities, including common stock, bonds, notes, debentures, options, warrants and other convertible securities, as well as derivative instruments. Every executive officer, director and employee must review this**

Policy carefully. Questions regarding the Policy should be directed to the Company' s General Counsel. References in this Policy to the General Counsel mean the General Counsel or the General Counsel' s designee. The Company reserves the right to amend or rescind this Policy or any portion of it at any time and to adopt different policies and procedures at any time. In the event of any conflict or inconsistency between this Policy and any other materials distributed by the Company, this policy shall govern. If a law conflicts with this Policy, you must comply with the law. II. STATEMENT OF POLICIES REGARDING TRANSACTING ON MATERIAL NON- PUBLIC INFORMATION A. No Transacting on Material, Non- Public Information No officer, director or employee shall transact in any type of the Company' s securities while in possession of material, non- public information relating to the Company, except as described in Section III of this Policy below. It is also the policy of the Company that the Company will not engage in transactions in the Company' s equity securities (as defined in the Securities Exchange Act of 1934) while aware of material, non- public information relating to the Company or its securities, except for: • transactions with plan participants (or their permitted assignees) pursuant to an equity- based compensation plan of the Company; US 9980554 • transactions made pursuant to written plans for transacting in the Company' s securities that, at the time adopted, conform to all of the requirements of Rule 10b51 as then in effect; • transactions with counterparties who are at the time also aware of the material, nonpublic information or who acknowledge, agree or represent that they are aware that the Company may possess material, non- public information but are not relying on the disclosure or omission to disclose to them of any such information; or • any other transaction expressly authorized by the Board of Directors or any committee thereof, or by senior management in consultation with the Compliance Officer. B. No Tipping No executive officer, director or employee shall directly or indirectly communicate material, non- public information about the Company to anyone for use in transacting in the Company' s securities or make recommendations or express opinions as to transacting in the Company' s securities on the basis of material non- public information (" tipping "). Material nonpublic information about the Company must not be communicated to anyone except as necessary to the conduct of the Company' s business and in accordance with the Company' s policies regarding the protection or authorized external disclosure of Company information. C. Transaction Windows This Policy requires that, except as set forth in Section III of this Policy below, the Window Group (defined below) refrain from executing transactions in the Company' s securities other than during periods when there are no restrictions on transactions, including Scheduled Blackout Periods and Unscheduled Blackout Periods as described below (" Transaction Windows "). All transactions in the Company' s securities, even during a Transaction Window, by any member of the Window Group, must be pre- cleared by the Company' s General Counsel in accordance with Section IV. A of this Policy. It should be noted that even during a Transaction Window, any person aware of material, non- public information concerning the Company should not engage in any transactions in the Company' s securities until the information has become public or is no longer material, whether or not the Company has recommended a suspension of transacting to that person. Transacting in the Company' s securities during a Transaction Window should not be considered a " safe harbor, " and all insiders should use good judgment at all times. D. Scheduled Blackout Periods Except as set forth in Section III of this Policy below, none of the following persons (the " Window Group ") shall transact in the securities of the Company during the periods designated by the General Counsel from time to time (each such period referred to as a " Scheduled Blackout Period "): 2 • All directors and officers, members of the Company' s Disclosure Committee, and entities controlled by any such persons; and • any other person who is so notified from time to time by the General Counsel in writing. " Officer " means the Company' s Chief Executive Officer, President, Principal Financial Officer, Principal Operating Officer, Principal Accounting Officer, General Counsel, Controller, Chief Administrative Officer and any Executive Vice President, Senior Vice President or Vice President. For the purposes of this Policy, a " trading day " is a day on which the New York Stock Exchange is open for trading. Additionally, the restrictions on transactions in the Company' s securities during a Scheduled Blackout Period also apply to the following persons: • spouses of, and family members and other persons sharing the same household as, any of the persons in the first bullet point above; and • family members of the persons listed in the first bullet point above (such as ancestors, brothers or sisters (whether by whole or half- blood) or lineal descendants and any spouse of any of the foregoing) who do not share the same household as such persons but (1) who are employees or (2) whose transactions in Company securities are directed by or are subject to the influence or control of such persons or who consult with such persons before they transact in Company securities. E. Unscheduled Blackout Periods From time to time, the Company, through the Board of Directors or the General Counsel, may recommend that officers, directors, employees or others suspend transacting in the Company' s securities or the securities of other companies because of developments known to the Company and not yet disclosed to the public (each such period of suspension, an " Unscheduled Blackout Period "). Subject to the exceptions noted below, all those persons so notified may not transact in the securities of the Company or another specified Company until the Board of Directors or the General Counsel ends such Unscheduled Blackout Period, and should not disclose to others the existence of any such Unscheduled Blackout Period. III. EXCEPTIONS Except for the restrictions for the Window Group as set forth below in Section IV. A and as otherwise specifically noted, this Policy does not apply to the following transactions (if applicable to the Company): A. purchases of the Company' s securities from the Company or sales of the Company' s securities to the Company; B. exercises or settlements of stock options or other stock-based compensation or the surrender of shares to the Company in payment of the exercise price, net settlement or in satisfaction of any tax withholding obligations in a manner permitted by the applicable 3 equity award agreement, vesting of equity- based awards granted pursuant to the Company' s plans or other awards, or award payouts by the Company under any equitybased compensation plan, that in each case do not involve a subsequent market sale of the Company' s securities or settlement, including as part of a " cashless exercise " of a Company stock option through a broker; C. acquisition of Company securities through any Company employee stock purchase plan, if one is established, though this exception does not apply to a subsequent sale of the acquired securities; D. purchases or sales of Company securities in 401 (k) plans resulting from the periodic contribution of money; E. transactions in diversified mutual funds that are invested in the Company' s F. purchases of the Company' s securities under any Company dividend reinvestment plan resulting from reinvestment of dividends paid on the Company' s securities. This exception also includes sales of any Company securities purchased pursuant to the plan. However, this exception does not include voluntary purchases of the Company' s securities resulting from additional contributions chosen to be made to a dividend reinvestment plan, and to an election to participate in the plan or to increase the level of participation in the plan; G. transactions in the Company' s securities made pursuant to a " Rule 10b5- 1 Plan. " A Rule 10b5- 1 Plan is a written plan for transacting in the Company' s securities that, at the time it is adopted or modified, conforms to all of the requirements of Rule 10b5- 1 promulgated under the Securities Exchange Act of 1934. You must obtain authorization from the General Counsel before entering into or modifying or terminating (other than by its normal terms) a Rule 10b5- 1 Plan; and H. any transaction specifically approved in advance by the Company' s General Counsel, or by the Chief Executive Officer in transactions by the General Counsel or persons or entities subject to this policy as a result of their relationship with the General Counsel. IV. ADDITIONAL RESTRICTIONS REGARDING TRANSACTING ON MATERIAL NON- PUBLIC INFORMATION A. Mandatory Pre- Clearance of Transactions by the Window Group All transactions in the Company' s securities (including without limitation, acquisitions and dispositions of Company stock, the exercise of stock options, giving gifts of the Company' s securities and the sale of Company stock issued upon exercise of stock options), even during a Transaction Window, by any member of the Window Group must be pre- cleared by the Company' s General Counsel. Pre- clearance does not relieve anyone of his or her responsibility under the U. S. Securities and Exchange Commission (" SEC ") rules. 4 A request for pre- clearance must be in writing (including by e- mail), should be made at least two business days in advance of the proposed transaction and should include the identity of the member of the Window Group, the type of proposed transaction (for example, an open market purchase, a privately negotiated sale, an option exercise, etc.), the proposed date of the transaction and the number of shares or other securities to be involved. The General Counsel shall have sole discretion to decide whether to clear any contemplated transaction. The Chief Executive Officer shall have sole discretion to decide whether to clear transactions by the General Counsel or persons or entities subject to this policy as a result of their relationship with the General Counsel. Members of the Window Group must obtain pre- clearance in writing (including by e- mail) prior to commencing any transactions in the Company' s securities; oral pre- clearance is not sufficient. All transactions that are pre- cleared must be effected within three business days of receipt of the preclearance or such shorter or longer period as designated by the General Counsel unless a specific exception has been granted by the General Counsel. A pre- cleared transaction (or any portion of a pre- cleared transaction) that has not been effected during such period must be pre- cleared again prior to execution. Notwithstanding receipt of pre- clearance, if the member of the Window Group becomes aware of material non- public information or becomes subject to a Scheduled or Unscheduled Blackout Period before the transaction is effected, the transaction may not be completed. None of the Company, the General Counsel or the Company' s other employees will have any liability for any delay in reviewing, or refusal of, a request for pre- clearance submitted pursuant to this Section IV. A. Notwithstanding any pre- clearance of a transaction pursuant to this Section IV. A, none of the Company, the General Counsel or the Company' s other employees assumes any liability for the legality or consequences of such transaction to the person engaging in such transaction. Please note that the clearance of a proposed transaction by the General Counsel or the Company' s other employees does not constitute legal advice regarding or otherwise acknowledge that a member of the Window Group does not possess material non- public information. Window Group members must ultimately make their own judgments regarding, and are personally responsible for determining, whether they are in possession of material non- public information. B. Non- Rule 10b5- 1 Arrangements Members of the Window Group are prohibited from entering any " non- Rule 10b5- 1 trading arrangement, " as the term is defined by Regulation S- K. C. Post- Termination Transactions If an individual is in possession of material, non- public information about the Company or another publicly- traded company as set forth in Section II. E above when his or her service relationship with the Company terminates, that individual may not transact in the securities of the Company or other publicly-traded company until that information has become public or is no longer material. 5 V. ADDITIONAL PROHIBITED TRANSACTIONS It is the Company' s Policy that officers, directors and employees of the Company shall comply with the following policies with respect to certain transactions in the Company securities: A. Short Sales Short sales of the Company' s securities are prohibited by this Policy. B. Derivative Securities Transactions in puts, calls or other derivative securities involving the Company' s equity securities, on an exchange or in any other organized market, whether or not issued by the Company, are prohibited by this Policy. C. Hedging Transactions Hedging or monetization transactions involving the Company' s securities are prohibited by this Policy. D. Purchases of the Company' s

Securities on Margin; Pledging the Company' s Securities to Secure Margin or Other Loans; Standing and Limit Orders Margin purchases of the Company' s securities are prohibited by this Policy. Pledging the Company' s securities as collateral to secure loans is also prohibited. This prohibition means, among other things, that you cannot hold the Company' s securities in a " margin account " (which would allow you to borrow against your holdings to buy securities). Standing and limit orders (except standing and limit orders under an approved Rule 10b5- 1 Plan) should be used only for a very brief period of time. VI. DEFINITION OF MATERIAL NON- PUBLIC INFORMATION A. What Information is Material? A determination as to whether information is material depends upon the facts and circumstances. Information is considered " material " if there is a substantial likelihood that a reasonable investor would consider it important in making a decision to buy, sell or hold a security. Material information can be positive or negative and can relate to virtually any aspect of a company' s business or to any type of security, debt or equity. An illustrative, non- exhaustive list of examples of information that could be, but is not necessarily, considered material includes: a material change in a company' s dividend policy; projections of future corporate earnings or losses; news of possible mergers, significant acquisitions, tender offers or significant dispositions; news of major new products or product developments; significant business developments such as major contract awards or cancellations, significant developments regarding strategic collaborators; major personnel changes, particularly the departure or election of officers or certain directors; significant borrowing or financing 6 developments including pending public sales or offerings of debt or equity securities; defaults on borrowings; bankruptcies; and significant litigation or regulatory actions. B. What Information is Non- public? Information is " non- public " if it is not generally known or available to the general public. Examples of public disclosure include public filings with the SEC and the Company' s press releases. In order for information to be considered public, it must not only be disclosed publicly, but adequate time must have passed for the market as a whole to assess the information. Although timing may vary depending upon the circumstances, generally at least two full trading days should be allowed after the broad release of information before such information is deemed public. VII. EXECUTION AND RETURN OF CERTIFICATION OF COMPLIANCE After reading this Policy, upon request, all officers, directors and employees should execute and return to the Company' s General Counsel the Certification of Compliance form attached hereto as " Attachment A ". This document states a policy of the Company and is not intended to be regarded as the rendering of legal advice. 7 ATTACHMENT A I have received, reviewed and understand the Insider Trading Compliance Policy (the " Policy ") of ProPetro Holding Corp. (the " Company ") and undertake, as a condition to my present and continued employment (or, if I am not an employee, affiliation) with the Company, to comply fully with the policies and procedures contained therein. I understand and agree that, if I am a director, executive officer or employee of the Company or one of its subsidiaries or other affiliates, my failure to comply in all respects with the Company' s policies, including the Policy, is a basis for termination for cause of my employment or service with the Company and any subsidiary or other affiliate to which my employment or service now relates or may in the future relate. I hereby certify, to the best of my knowledge, that during the calendar year ended December 31, 20 [__], I have complied fully with all policies and procedures set forth in the Policy. _____ _____ SIGNATURE DATE TITLE Exhibit 21. 1 SubsidiaryState of Organization ProPetro Services, Inc. (the " Company "), for the year ended December 31, ~~2023~~ **2024** , as filed with the Securities and Exchange Commission on the date hereof (the " Report "), I, David S. Schorlemer, Chief Financial Officer of the Company, certify, pursuant to 18 U. S. C. § 1350, as adopted pursuant to § 906 of the Sarbanes- Oxley Act of 2002, that, to my knowledge: / s / David S. Schorlemer ~~EXHIBIT 97. 1 INCENTIVE- BASED COMPENSATION RECOVERY (CLAWBACK) POLICY This Incentive- Based Compensation Recovery Policy (this " Policy ") was adopted by the Compensation Committee (the " Committee ") of the Board of Directors (the " Board ") of ProPetro Holding Corp. (the " Company "), effective as of October 11, 2023 (the " Effective Date "). This Policy is intended to comply with the requirements of Section 10D of the Securities Exchange Act of 1934 (the " Exchange Act ") and the rules and regulations promulgated thereunder and Section 303A. 14 of the New York Stock Exchange (" NYSE ") Listed Company Manual (collectively, the " Recovery Rules ") and shall be interpreted as such. Unless otherwise specified by the Board and permitted by the Recovery Rules, this Policy will be administered by the Committee (the " Administrator "). 1. Recovery. If the Company is required to prepare a Restatement, the Administrator shall take reasonably prompt action to recover the Excess Amount, if any, from the Covered Persons. The Company must recover all Excess Amounts from the Covered Persons unless, after exercising a normal due process review of all the relevant facts and circumstances and taking all steps required by Exchange Act Rule 10D- 1 and any applicable exchange listing standard, the Committee determines that recovery would be impracticable and one of the following conditions is met: a. The direct expense paid to a third party to assist in enforcing the Policy would exceed the amount to be recovered. Before coming to this conclusion, the Company must make a reasonable attempt to recover such Excess Amount, document such reasonable attempt (s) to recover, and provide documentation to the NYSE to the extent required. b. Recovery would violate a home country law adopted prior to November 28, 2022. Before concluding that it would be impracticable to recover any Excess Amount on violation of home country law, the Company must obtain an opinion of home country counsel, acceptable to the NYSE, that recovery would result in such a violation, and must provide such opinion to the NYSE. c. Recovery would likely cause an otherwise tax- qualified retirement plan, under which benefits are broadly available to employees of the Company, to fail to meet the requirements of Section 401 (a) (13) or 411 (a) of the Internal Revenue Code (the " Code ") and applicable regulations issued thereunder. 2. Administration. The Administrator shall have full authority to administer, amend or terminate this Policy. The Administrator shall, subject to the provisions of this Policy, make such determinations and interpretations and take such actions in connection with this Policy as it deems necessary, appropriate or advisable. All determinations and interpretations made by the Administrator shall be final, binding and conclusive. Notwithstanding the foregoing, no amendment or termination of this Policy shall be effective if such amendment or termination would (after taking into account any actions taken by the Company contemporaneously with such amendment or termination) cause the Company to violate any federal securities laws, rules of the U. S. Securities and Exchange Commission (the " SEC "), or the rules of any national securities exchange or national securities association on which the Company' s securities are then listed. 3.~~

Method of Recovery. Subject to applicable law, the Administrator may seek to recover Excess Amounts by (i) requiring a Covered Person to repay such amount to the Company; (ii) offsetting a Covered Person' s other compensation; or (iii) such other means or combination of means as the Committee, in its sole discretion, determines to be appropriate. The Company shall use its best efforts to ensure that the method of recovery employed does not violate Section 409A of the Code and the applicable regulations issued thereunder but shall not be liable to any Covered Person for any resulting liability thereunder. To the extent that a Covered Person fails to repay all Excess Amounts to the Company as determined pursuant to this Policy, the Company shall take all actions reasonable and appropriate to recover such amount, subject to applicable law. 4. Acknowledgement by Covered Persons. The Administrator shall provide notice to and may seek written acknowledgement of this Policy from each Covered Person; provided that the failure to provide such notice or obtain such acknowledgement shall not affect the applicability or enforceability of this Policy. 5. No Indemnification. Notwithstanding the terms of any of the Company' s organizational documents, any corporate policy or any contract, the Company shall not indemnify any Covered Person against the loss of any Excess Amount. 6. Disclosure. The Company shall file all disclosures with respect to this Policy and any actions taken to recover Excess Amounts thereunder required by any federal securities laws, SEC rules, or the rules of any national securities exchange or national securities association on which the Company' s securities are then listed. 7. Governing Law. The validity, construction, and effect of this Policy and any determinations relating to this Policy shall be construed in accordance with the laws of the State of Delaware without regard to its conflict of laws principles. 8. Successors. This Policy shall be binding and enforceable against all Covered Persons and their beneficiaries, heirs, executors, administrators or other legal representatives. 9. Policy Not Exclusive Remedy. This Policy is in addition to (and not in lieu of) any right of repayment, forfeiture or off- set against any Covered Person that may be available under applicable law or otherwise (whether implemented prior to or after adoption of this Policy). Nothing within this Policy is intended to limit any right of recovery of the Company pursuant to any other Company clawback or compensation recoupment policies or arrangements that may be in effect from time to time (" Other Recovery Policies "); provided, however, that if there is any conflict between this Policy and any Other Recovery Policies, this Policy shall control. The Administrator may, in its sole discretion and in the exercise of its business judgment, determine whether and to what extent additional action is appropriate to address the circumstances surrounding any Restatement to minimize the likelihood of any recurrence and to impose such other discipline as it deems appropriate. 10. Defined Terms. For purposes of this Policy, the following terms will have the meanings set forth below: " Applicable Period " means the three completed fiscal years preceding the earlier of: (i) the date that the Board, the Administrator, the Audit Committee of the Board (the " Audit Committee "), or the officer or officers of the Company authorized to take such action if action is not required by the Board, the Administrator or the Audit Committee, concludes, or reasonably should have concluded, that the Company is required to prepare a Restatement; or (ii) the date a court, regulator, or other legally authorized body directs the Company to prepare a Restatement. The Applicable Period shall be extended to include any transition period (that results from a change in the Company' s fiscal year) within or immediately following the three completed fiscal years described in the preceding sentence; provided, that a transition period between the last day of the Company' s previous fiscal year and the first day of its new fiscal year that comprises a period of nine to twelve months shall be deemed a completed fiscal year. " Covered Person " shall include the Company' s president, principal financial officer, principal accounting officer (or if there is no such accounting officer, the controller), any vice- president of the Company in charge of a principal business unit, division, or function (such as sales, administration, or finance), any other officer who performs a policy- making function, or any other person (including any executive officer of the Company' s controlled affiliates) who performs similar policy- making functions for the Company. For the avoidance of doubt, " policy- making function " is not intended to include policymaking functions that are not significant. Covered Persons shall include, at a minimum, executive officers identified pursuant to Item 401 (b) of Regulation S- K. It is intended that individuals identified as Covered Persons pursuant to this Policy will be consistent with those identified as " officers " pursuant to Rule 16a- 1 (f) promulgated pursuant to the Exchange Act. " Excess Amount " means the value of all Incentive- Based Compensation (calculated on a pre- tax basis) Received after October 2, 2023 by a person: (i) after beginning service as a Covered Person; (ii) who served as a Covered Person at any time during the performance period for that Incentive- Based Compensation; (iii) while the Company had a class of securities listed on a national securities exchange or national securities association; and (iv) during the Applicable Period, that exceeded the amount of Incentive- Based Compensation that otherwise would have been Received had the amount been determined based on the applicable Financial Performing Measures, as reflected in the Restatement, computed without regard to any taxes paid on such amounts. With respect to Incentive- Based Compensation based on stock price or total shareholder return (" TSR "), where the Excess Amount is not subject to mathematical recalculation directly from the information in a Restatement: (i) the amount will be based on a reasonable estimate made by the Administrator of the effect of the Restatement on the stock price or TSR upon which the Incentive- Based Compensation was received and (ii) the Company shall maintain documentation of the determination of that reasonable estimate and provide such documentation to the national securities exchange or national securities association on which the Company' s securities are listed at the time of the Restatement. " Financial Reporting Measure " means a measure that is determined and presented in accordance with the accounting principles used in preparing the Company' s financial statements (including " non- GAAP " financial measures, such as those appearing in earnings releases), and any measure that is derived wholly or in part from such measure. Examples of Financial Reporting Measures include, but are not limited to, measures based on revenues, net income, operating income, financial ratios, EBITDA, liquidity measures, free cash flow, and return measures. Stock price and TSR also are Financial Reporting Measures. For the avoidance of doubt, a Financial Reporting Measure need not be presented within the financial statements or included in a filing with the SEC to qualify as such. " Incentive- Based Compensation " includes any compensation that is granted, earned, or vested based wholly or in part upon the attainment of a Financial Reporting Measure; however it does not include: (i) base salaries; (ii) discretionary cash bonuses; (iii) awards (either cash or equity) that are based upon subjective, strategic or operational standards; and (iv) equity awards that vest solely on the passage of time. Incentive- Based Compensation is deemed " Received " in any Company fiscal period during which the Financial Reporting Measure specified in the Incentive- Based Compensation award is attained, even if the payment or grant of the Incentive- Based Compensation occurs after the end of that period. " Restatement " means an accounting restatement of any of the Company' s financial statements due to the Company' s material noncompliance with any financial reporting requirement under U. S. securities laws, including any required accounting restatement to correct an error in previously issued financial statements that is material to the previously issued financial statements (often referred to as a " Big R " restatement), or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period (often referred to as a " little r " restatement). As of the Effective Date (but subject to changes that may occur in accounting principles and rules following the Effective Date), a Restatement does not include situations in which financial statement changes did not result from material non- compliance with financial reporting requirements, such as, but not limited to retrospective: (i) application of a change in accounting principles; (ii) revision to reportable segment information due to a change in the structure of the Company' s internal organization; (iii) reclassification due to a discontinued operation; (iv) application of a change in reporting entity, such as from a reorganization of entities under common control; (v) adjustment to provision amounts in connection with a prior business combination; and (vi) revision for stock splits, stock dividends, reverse stock splits or other changes in capital structure. Excludes amount for disposal group and discontinued operations. Cash includes, but is not limited to, currency on hand, demand deposits with banks or financial institutions, and other accounts with general characteristics of demand deposits. Cash equivalents include, but are not limited to, short- term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > References < / a > < div style =" display: none;" > < p > Reference 1: http: / / www. xbrl. org / 2003 / role / disclosureRef < br >- Topic 230 < br >- SubTopic 10 < br >- Name Accounting Standards Codification < br >- Section 50 < br >- Paragraph 8 < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / / 1943274 / 2147482913 / 230- 10- 50- 8 < br > < br > Reference 2: http: / / fasb. org / us- gaap / role / ref / legacyRef < br >- Topic 230 < br >- SubTopic 10 < br >- Name Accounting Standards Codification < br >- Section 45 < br >- Paragraph 24 < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / / 1943274 / 2147482740 / 230- 10- 45- 24 < br > < br > Reference 3: http: / / fasb. org / us- gaap / role / ref / legacyRef < br >- Name Accounting Standards Codification < br >- Topic 230 < br >- SubTopic 10 < br >- Section 45 < br >- Paragraph 4 < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / / 1943274 / 2147482740 / 230- 10- 45- 4 < br > < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details < / a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: < / strong > < / td > < td style =" white- space: nowrap;" > us- gaap_CashCashEquivalentsRestrictedCashAndRestrictedCashEquivalents < / td > < / tr > < tr > < td style =" padding- right: 4px; white- space: nowrap;" > < strong > Namespace Prefix: < / strong > < / td > < td > us- gaap_ < / td > < / tr > < tr > < td > < strong > Data Type: < / strong > < / td > < td > xbrli: monetaryItemType < / td > < / tr > < tr > < td > < strong > Balance Type: < / strong > < / td > < td > debit < / td > < / tr > < tr > < td > < strong > Period Type: < / strong > < / td > < td > instant < / td > < / tr > < / table > < / div > < / div > < / td > < / tr > < table > < table border =" 0" cellpadding =" 0" cellspacing =" 0" class =" authRefData" style =" display: none;" id =" defref_us- gaap_CommitmentsAndContingencies" > < tr > < td class =" hide" > < a style =" color: white;" href =" javascript: void (0);" onclick =" Show. hideAR ();" > X < / a > < / td > < / tr > < tr > < td > < div class =" body" style =" padding: 2px;" > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > - Definition < / a > < div > < p > Represents the caption on the face of the balance sheet to indicate that the entity has entered into (1) purchase or supply arrangements that will require expending a portion of its resources to meet the terms thereof, and (2) is exposed to potential losses or, less frequently, gains, arising from (a) possible claims against a company' s resources due to future performance under contract terms, and (b) possible losses or likely gains from uncertainties that will ultimately be resolved when one or more future events that are deemed likely to occur do occur or fail to occur. < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > References < / a > < div style =" display: none;" > < p > Reference 1: http: / / www. xbrl. org / 2003 / role / disclosureRef < br >- Topic 944 < br >- SubTopic 210 < br >- Name Accounting Standards Codification < br >- Section S99 < br >- Paragraph 1 < br >- Subparagraph (SX 210. 7- 03 (a) (19)) < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / / 1943274 / 2147479440 / 944- 210- S99- 1 < br > < br > Reference 2: http: / / www. xbrl. org / 2003 / role / disclosureRef < br >- Topic 946 < br >- SubTopic 210 < br >- Name Accounting Standards Codification < br >- Section S99 < br >- Paragraph 1 < br >- Subparagraph (SX 210. 6- 04 (15)) < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / / 1943274 / 2147479617 / 946- 210- S99- 1 < br > < br > Reference 3: http: / / fasb. org / us- gaap / role / ref / legacyRef < br >- Name Accounting Standards Codification < br >- Topic 942 < br >- SubTopic 210 < br >- Section S99 < br >- Paragraph 1 < br >- Subparagraph (SX 210. 9- 03. 17) < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / / 1943274 / 2147479853 / 942- 210- S99- 1 < br > < br > Reference 4:

Excludes amount for disposal group and discontinued operations. Cash includes, but is not limited to, currency on hand, demand deposits with banks or financial institutions, and other accounts with general characteristics of demand deposits. Cash equivalents include, but are not limited to, short- term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > References < / a > < div style =" display: none;" > < p > Reference 1: http: / / www. xbrl. org / 2003 / role / disclosureRef < br > - Topic 230 < br > - SubTopic 10 < br > - Name Accounting Standards Codification < br > - Section 50 < br > - Paragraph 8 < br > - Publisher FASB < br > - URI https: / / asc. fasb. org / / 1943274 / 2147482913 / 230- 10- 50- 8 < br > < br > Reference 2: http: / / fasb. org / us- gaap / role / ref / legacyRef < br > - Topic 230 < br > - SubTopic 10 < br > - Name Accounting Standards Codification < br > - Section 45 < br > - Paragraph 24 < br > - Publisher FASB < br > - URI https: / / asc. fasb. org / / 1943274 / 2147482740 / 230- 10- 45- 24 < br > < br > Reference 3: http: / / fasb. org / us- gaap / role / ref / legacyRef < br > - Name Accounting Standards Codification < br > - Topic 230 < br > - SubTopic 10 < br > - Section 45 < br > - Paragraph 4 < br > - Publisher FASB < br > - URI https: / / asc. fasb. org / / 1943274 / 2147482740 / 230- 10- 45- 4 < br > < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details < / a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: < / strong > < / td > < td style =" white- space: nowrap;" > us- gaap_CashCashEquivalentsRestrictedCashAndRestrictedCashEquivalents < / td > < / tr > < tr > < td style =" padding- right: 4px; white- space: nowrap;" > < strong > Namespace Prefix: < / strong > < / td > < td > us- gaap_ < / td > < / tr > < tr > < td > < strong > Data Type: < / strong > < / td > < td > xbrli: monetaryItemType < / td > < / tr > < tr > < td > < strong > Balance Type: < / strong > < / td > < td > debit < / td > < / tr > < tr > < td > < strong > Period Type: < / strong > < / td > < td > instant < / td > < / tr > < / table > < / div > < / div > < / td > < / tr > < / table > < table border =" 0" cellpadding =" 0" cellspacing =" 0" class =" authRefData" style =" display: none;" id =" defref_us- gaap_CashCashEquivalentsRestrictedCashAndRestrictedCashEquivalentsPeriodIncreaseDecreaseIncludingExchangeRateEffect" > < tr > < td class =" hide" > < a style =" color: white;" href =" javascript: void (0);" onclick =" Show. hideAR ();" > X < / a > < / td > < / tr > < tr > < td > < div class =" body" style =" padding: 2px;" > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > - Definition < / a > < div > < p > Amount of increase (decrease) in cash, cash equivalents, and cash and cash equivalents restricted to withdrawal or usage; including effect from exchange rate change. The Company recognizes revenue when it satisfies a performance obligation by transferring control over a product or service to a customer. < / span > < / div > < div style =" margin- bottom: 10pt; padding- left: 36pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Hydraulic fracturi < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > ng is an oil well completion technique, which is part of the overall well completions process. It is a well- stimulation technique intended to optimize hydrocarbon flow paths during the completion phase of shale w < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > ellbores. The process involves the injection of water, sand and chemicals under high pressure into shale formations. Our hydraulic fracturing contracts with our customers have one performance obligation, which is the contracted total stages, satisfied over time. We recognize revenue over time using a progress output, unit- of- work performed method, which is based on the agreed fixed transaction price and actual stages completed. We believe that recognizing revenue based on actual stages completed faithfully depicts how our hydraulic fracturing services are transferred to our customers over time. In addition, certain of our hydraulic fracturing equipment may be entitled to reservation fee charges if a customer were to reserve committed hydraulic fracturing equipment. The Company recognizes revenue related to reservation fee charges on a daily basis as the performance obligations are met. < / span > < / div > < div style =" margin- bottom: 10pt; padding- left: 36pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Acidizing, which is part of our hydraulic fracturing operating segment, involves a well- stimulation technique where acid or similar chemicals are injected under pressure into formations to form or expand fissures. Our acidizing contracts have one performance obligation, satisfied at a point- in- time, upon completion of the contracted service or sale of acid or chemical when control is transferred to the customer. Jobs for these services are typically short term in nature, with most jobs completed in less than a day. We recognize acidizing revenue at a point- in- time, upon completion of the performance obligation. < / span > < / div > < div style =" margin- bottom: 10pt; padding- left: 36pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Our cementing services use pressure pumping equipment to deliver a slurry of liquid cement that is pumped down a well between the casing and the borehole. Our cementing contracts have one performance obligation, satisfied at a point- in- time, upon completion of the contracted service when control is transferred to the customer. Jobs for these services are typically short term in nature, with most jobs completed in less than a day. We recognize cementing revenue at a point- in- time, upon completion of the performance obligation. < / span > < / div > < div style =" margin- bottom: 10pt; padding- left: 36pt; text- align: justify" > < span style =" background- color: # ffffff; color: # 000000; font-family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Wireline services (including pumpdown) are oil well completion techniques, which are part of the well completions services. Our wireline services utilize equipment with a drum of wireline to deploy perforating guns in the well to perforate

the casing, cement, and formation. Once the well is perforated, the well can be fractured. Pumpdown utilizes pressure pumping equipment to pump water into the well to deploy perforating guns attached to wireline through the lateral section of a well. Our wireline contracts with our customers have one performance obligation, which is the contracted total stages, satisfied over time. We recognize revenue over time using a progress output, unit- of- work performed method, which is based on the agreed fixed transaction price and actual stages completed. We believe that recognizing revenue based on actual stages completed faithfully depicts how our wireline services are transferred to our customers over time. In addition, certain of our wireline equipment is entitled to daily equipment charges while the equipment is on the customer & # 8217; s locations. The Company recognizes revenue related daily equipment charges on a daily basis as the performance obligations are met. < / span > < / div > < div style =" margin- bottom: 8pt; padding- left: 36pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > The transaction price for each performance obligation for all our completion services is fixed per our contracts with our customers. < / span > < / div > < div style =" margin- bottom: 8pt; padding- left: 36pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Coiled tubing involves complementary downhole well completion / remedial services. The performance obligation for these services had a fixed transaction price which was satisfied at a point- in- time upon completion of the service when control was transferred to the customer. Accordingly, we recognized revenue at a point- in- time, upon completion of the service and transfer of control to the customer. Effective September 1, 2022, we shut down our coiled tubing operations, and disposed of all of our coiled tubing assets. < / span > < / div > < div style =" margin- bottom: 8pt; text- align: justify" > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Cash and Cash Equivalents < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 8212; & # 160; All highly liquid investments with an original maturity of three months or less. < / span > < / div > < div style =" margin- bottom: 8pt; text- align: justify" > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Restricted Cash and Customer Cash Advances < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 8212; & # 160; Our restricted cash relates to cash received from a customer in connection with our contract with the customer to provide FORCE < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 6. 5pt; font- weight: 400; line- height: 120 %; position: relative; top:- 3. 5pt; vertical- align: baseline" > SM < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > electric- powered hydraulic fracturing equipment and services. The cash advance (contract liability) balances, which are included in accrued and other current liabilities in our consolidated balance sheets, were < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > $ 19. 2 million and $ 10. 0 million as of December & # 160; 31, 2023 an < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > d 2022, respectively. During 2023, we recognized revenue of $ 5. 7 million < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > from the cash advance amount outstanding at the beginning of the period. We had < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > no < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > cash advance amounts outstanding at the beginning of < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > 2022, and we recognized no associated revenue < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > during 2022. < / span > < / div > < div style =" margin- bottom: 8pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Accounts Receivable < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 160; & # 8212; & # 160; Accounts receivable are stated at the amount billed and billable to customers. At December & # 160; 31, 2023 and 2022 accrued revenue (unbilled receivable) included as part of our accounts receivable was < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > $ 55. 4 million < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > and $ 51. 9 million, respectively. At December & # 160; 31, 2023, the transaction price allocated to the remaining performance obligation for our partially completed hydraulic fracturing and wireline operations was < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > $ 33. 8 million, < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > which is expected to be completed and recognized within one month following the current period balance sheet date. At December & # 160; 31, 2022, the transaction price allocated to the remaining performance obligation for our then partially completed hydraulic fracturing and wireline operations was $ 38. 7 million, which was recorded as part of revenues for the year ended December & # 160; 31, 2023. < / span > < / div > < div style =" margin- bottom: 8pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > As of December & # 160; 31, 2023, the Company had < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > $ 0. 2 million allowance for credit losses. Our allowance for credit losses is based on the evaluation of both our historic collection < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > experience and economic outlook for the oil and gas industry. We evaluated the historic loss experience on our accounts receivable and also considered separately customers with receivable balances that may be negatively impacted by current or future economic developments and market conditions. While the Company has not experienced significant credit losses in the past and has not yet seen material changes to the payment patterns of its customers, the Company cannot predict with any certainty the degree to which the impacts of depressed economic activities, including the potential impact of periodically adjusted borrowing base limits, level of hedged production, or unforeseen well shut- downs may affect the ability of its customers to timely pay receivables when due. Accordingly, in future periods, the Company may revise its estimates of expected credit losses. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > The table below shows a summary of allowance for credit losses: < / span > < / div > < div style =" margin- bottom: 10pt; text- indent: 18pt" > < table style =" border- collapse: collapse; display: inline- table; margin- bottom: 5pt; vertical- align: text- bottom; width: 90. 204 %" > < tr > < td style =" width: 1. 0 %" > < / td > < td style =" width: 64. 540 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 1. 0 %" > < / td > < td style =" width: 9. 921 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 448 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 1. 0 %" > < / td > < td style =" width: 9. 921 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 448 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 1. 0 %" > < / td > < td style =" width: 9. 922 %" > < / td > < td style =" width: 0. 1 %" > < / td > < / tr > < tr > < td colspan =" 3" style =" padding: 2px 1pt; text- align: left; vertical- align: bottom" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" > (in thousands) < / span > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < / tr > < tr > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 15" style =" padding: 2px 1pt; text- align: center; vertical- align: middle" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" > Year Ended December 31, < / span > < / td > < / tr > < tr > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 2px 1pt; text- align: center; vertical- align: middle" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" > 2023 < / span > < / td > < td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 0 1pt" > < / td > < td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 2px 1pt; text- align: center; vertical- align: middle" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" > 2022 < / span > < / td > < td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 0 1pt" > < / td > < td colspan =" 3" style =" border- top: 1pt solid # 000; padding: 2px 1pt; text- align: center; vertical- align: middle" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" > 2021 < / span > < / td > < / tr > < tr > < td colspan =" 3" style =" background- color: # ececff; padding: 2px 1pt; text- align: left; vertical- align: middle" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 100 %" > Balance- January 1, < / span > < / td > < td style =" background- color: # ececff; border- top: 1pt solid # 000; padding: 2px 0 2px 1pt; text- align: left; vertical- align: bottom" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 100 %" > $ < / span > < / td > < td style =" background- color: # ececff; border- top: 1pt solid # 000; padding: 2px 0; text- align: right; vertical- align: bottom" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 100 %" > 419 & # 160; < / span > < / td > < td style =" background- color: # ececff; border- top: 1pt solid # 000; padding: 2px 1pt 2px 0; text- align: right; vertical- align: bottom" > < / td > < td colspan

In this circumstance, the Company recognizes an impairment loss for the amount by which the carrying amount of the asset group exceeds the fair value of the asset group. No impairment expense was recorded during the year ended December 31, < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > 2023. < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > D < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > uring the year ended December 31, < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > 2022 < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" >, w < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > e recorded < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > < span style =" - see- ix- hidden: f- 403" > < span style =" - see- ix- hidden: f- 404" > < span style =" - see- ix- hidden: f- 405" > impairment expense < / span > < / span > < / span > of approximately $ 57. 5 million in connection with our < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > DuraStim & # 174; < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > electric- powered hydraulic fracturing equipment. < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > No impairment expense was recorded during the year ended December & # 160; 31, 2021. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > The Company accounts for long & # 8209; lived assets to be disposed of at the lower of their carrying amount or fair value, less cost to sell once management has committed to a plan to dispose of the assets. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Goodwill < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 160; & # 8212; & # 160; Goodwill is the excess of the consideration transferred over the fair value of the tangible and identifiable intangible assets and liabilities recognized. Goodwill is not amortized. We perform an annual impairment test of goodwill as of December & # 160; 31, or more frequently if circumstances indicate that impairment may exist. The determination of impairment is made by comparing the carrying amount of a reporting unit with its fair value, which is generally calculated using a combination of market and income approaches. If the fair value of the reporting unit exceeds the carrying value, no further testing is performed. If the fair value of the reporting unit is less than the carrying value, we consider goodwill to be impaired, and the amount of impairment loss is calculated and recorded in the statement of operations. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > On November 1, 2022, we acquired Silvertip for $ 148. 1 million. We accounted for the Silvertip Acquisition as a business combination using the acquisition method of accounting. Goodwill of $ 23. 6 million was recorded as of the Silvertip Acquisition Date (as defined below), which represents the excess of the purchase price over the fair value of the assets and liabilities assumed. The acquisition complemented our existing business. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > As of December & # 160; 31, 2023 and 2022, our goodwill carrying value was $ 23. 6 & # 160; million and $ 23. 6 & # 160; million, respectively. There were no additions to goodwill during the year ended December & # 160; 31, 2023. The wireline operating segment is the only segment with goodwill at December & # 160; 31, 2023 and 2022. We conducted our annual impairment test of goodwill in accordance with ASC 350, < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Intangibles & # 8212; Goodwill and Other < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" >, as of December & # 160; 31, 2023 and determined that no impairment to the carrying value of goodwill for our reporting unit (wireline operating segment) was required. < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > There were no goodwill impairment losses during the years ended < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > December & # 160; 31, 2023 and 2022. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Intangible Assets < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 160; & # 8212; & # 160; < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Intangible assets consist of customer relationships and trademark / trade name purchased in connection with the Silvertip Acquisition. In connection with the Silvertip Acquisition, we added intangible assets consisting of $ 46. 5 & # 160; million of customer relationships and $ 10. 8 & # 160; million of trademark / trade name. Intangible assets are amortized on a basis that reflects the pattern in which the economic benefits of the intangible assets are realized on a straight & # 8209; line basis over the asset & # 8217; s estimated useful life, which is ten years. No significant residual value is estimated for intangible assets. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Income Taxes < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 160; & # 8212; & # 160; Income taxes are accounted for under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the consolidated financial statements. Under this method, deferred tax assets and liabilities are determined on the basis of differences between the consolidated financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > We recognize deferred tax assets to the extent that we believe these assets are more likely than not to be realized. In making such a determination, we consider all positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, and the results of recent operations. If we determine that we would not be able to fully realize our deferred tax assets in the future, we would record a valuation allowance. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Deferred Loan Costs < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 160; & # 8212; & # 160; The Company capitalized certain costs in connection with the amendment and restatement of its revolving credit facility, including lender, legal, and accounting fees. These costs are being amortized over the term of the related loan using the straight & # 8209; line method. Unamortized deferred loan costs associated with loans paid off or refinanced with different lenders are expensed in the period in which such an event occurs. Deferred loan costs are classified as a reduction of < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > long & # 8209; term debt or in certain instances as an asset in the consolidated balance sheet. Amortization of deferred loan costs is recorded as interest expense in the statement of operations, and during the years ended December & # 160; 31, 2023, 2022 and 2021, the amount of expense recorded was < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > $ 0. 4 million, < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > $ 0. 8 million and $ 0. 5 million, respectively. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Stock- Based Compensation < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 160; & # 8212; & # 160; The Company recognizes the cost of stock- based awards on a straight & # 8209; line basis over the requisite service period of the award, which is usually the vesting period under the fair value method. Total compensation cost is measured on the grant date or modification date, as applicable, using fair value estimates. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Insurance Financing < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 160; & # 8212; & # 160; The Company annually renews its commercial insurance policies, and may choose to either directly pay the insurance premium or finance a portion of the premium. If the Company finances a portion of the premium, a prepaid insurance asset is recorded and amortized monthly over the relevant period. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Concentration of Credit Risk < / span > < span style =" color: # 000000; font- family:'

Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 160; & # 8212; & # 160; The Company & # 8217; s assets that are potentially subject to concentrations of credit risk are cash and cash equivalents and trade accounts receivable. Cash balances are maintained in financial institutions, which at times exceed federally insured limits. The Company monitors the financial condition of the financial institutions in which accounts are maintained and has not experienced any losses in such accounts. The receivables of the Company are with credible operators in the oil and natural gas industries. The Company performs ongoing evaluations as to the financial condition of its customers with respect to trade receivables. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Share Repurchases < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 160; & # 8212; & # 160; All shares of common stock repurchased through the Company' s share repurchase program are retired upon repurchase. The Company accounts for the purchase price of repurchased common stock in excess of par value ($ 0. 001 per share of common stock) as a reduction of additional paid- in capital, and will continue to do so until additional paid- in capital is reduced to zero. Thereafter, any excess purchase price will be recorded as a reduction of retained earnings. < / span > < / div > < div style =" margin- bottom: 12pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Change in Accounting Estimates < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > & # 160; & # 8212; & # 160; Current trends in hydraulic fracturing equipment operating conditions such as larger pads, changes to job design and increased pumping hours per day have resulted in shorter useful lives for certain critical components that are included in our property and equipment assets. These recent trends necessitated a review of useful lives of our critical components like fluid ends, power ends, hydraulic fracturing units and other components in the first quarter of 2023. We determined that the estimated useful life of fluid ends is now less than one year, resulting in our determination that costs associated with the replacement of these components will no longer be capitalized, but instead recorded in inventories and amortized to cost of services over their estimated useful life. We have also shortened the estimated useful lives of power ends to two years from five years and hydraulic fracturing units to ten years from fifteen years. This change in accounting estimates was made effective January 1, 2023 and accounted for prospectively. The net effect of this change for the year ended December & # 160; 31, 2023, was a $ 19. 1 million decrease in net income, or $ 0. 17 per basic and diluted share, respectively. < / span > < / div > < div style =" margin- bottom: 9pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Additionally, in connection with the review of our fluid ends and power ends estimated useful life, effective January 1, 2023, we are writing off the remaining book value of power ends that prematurely fail as accelerated depreciation. These write- off amounts were $ 12. 5 million, $ 11. 8 million, $ 8. 4 million and $ 6. 0 million for the three months ended March, 31, 2023, June 30, 2023, September 30, 2023 and December 31, 2023, respectively. However, to conform to prior year presentation, we have presented these write- off amounts within loss on disposal of assets for the year ended December & # 160; 31, 2023. In 2022 and 2021, we wrote off the remaining book value of prematurely failed and disposed of power ends to loss on disposal of assets. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Recently Issued Accounting Standards < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > In October 2023, the FASB issued Accounting Standards Update (" ASU") No. 2023- 06, < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Disclosure Improvements: Codification Amendments in Response to the SEC & # 8217; s Disclosure Update and Simplification Initiative. < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > This ASU incorporates certain SEC disclosure requirements into the FASB Accounting Standards Codification (& # 8220; Codification & # 8221;). The amendments in the ASU represent changes to clarify or improve disclosure and presentation requirements of a variety of Codification topics, allow users to more easily compare entities subject to the SEC & # 8217; s existing disclosures with those entities that were not previously subject to the requirements, and align the requirements in the Codification with the SEC & # 8217; s regulations. ASU 2023- 06 will become effective for each amendment on the effective date of the SEC' s corresponding disclosure rule changes. We do not expect ASU 2023- 06 to have a material impact on our consolidated financial statements < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" >. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > In November 2023, the FASB issued ASU No. 2023- 07, < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" >, which requires public entities to disclose on an annual and interim basis, 1) significant segment expenses that are regularly provided to the Chief Operating Decision Maker (the & # 8220; CODM & # 8221;) and included within each reported measure of segment profit or loss (collectively referred to as the & # 8220; significant expense principle & # 8221;) and 2) an amount for other segment items < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > representing the difference between segment revenue less the segment expenses disclosed under the significant expense principle and each reported measure of segment profit or loss. This ASU also requires public entities to provide all annual disclosures about a reportable segment & # 8217; s profit or loss and assets currently required by Topic 280 in interim periods, clarifies that if the CODM uses more than one measure of a segment & # 8217; s profit or loss in assessing segment performance and deciding how to allocate resources, a public entity may report one or more of those additional measures of segment profit or loss but at least one of the reported segment profit or loss measures (or the single reported measure, if only one is disclosed) should be the measure that is most consistent with the measurement principles under GAAP. This ASU also requires disclosure of the title and position of the CODM and an explanation of how the CODM uses the reported measure (s) of segment profit or loss in assessing segment performance and deciding how to allocate resources, and requires a public entity that has a single reportable segment to provide all the disclosures required by the amendments in this ASU and all existing segment disclosures in Topic 280. This ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. We do not expect ASU 2023- 07 to have a material effect on our consolidated financial statements. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > In December 2023, the FASB issued ASU No. 2023- 09, < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Income Taxes (Topic 740): Improvements to Income Tax Disclosures < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" >, which requires disaggregation of certain components included in the Company & # 8217; s effective tax rate and income taxes paid disclosures. The guidance is effective for annual periods beginning after December 15, 2024. We are currently assessing the impact of ASU 2023- 09 on our consolidated financial statements but do not expect it will have a material impact. < / span > < / div > < span > < / span > < / td > < / tr > < / table > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" class =" authRefData" style =" display: none;" id =" defref_us- gaap_AccountingPoliciesAbstract" > < tr > < td class =" hide" > < a style =" color: white;" href =" javascript: void (0);" onclick =" Show. hideAR ();" > X < / a > < / td > < / tr > < tr > < td > < div class =" body" style =" padding: 2px;" > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" >- References < / a > < div > < p > No definition available. < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details < / a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: < / strong > < / td > < td style =" white- space: nowrap;" > us- gaap_AccountingPoliciesAbstract < / td > < / tr > < tr > < td style =" padding- right: 4px; white- space: nowrap;" > < strong > Namespace Prefix: < / strong > < / td > < td > us- gaap_ < / td > < / tr > < tr > < td > < strong > Data Type: < / strong > < / td > < td > xbrli: stringItemType < / td > < / tr > < tr > < td > < strong > Balance Type: < / strong > < / td > < td > na < / td > < / tr > < tr > < td > < strong > Period Type: < / strong > < / td > < td > duration < / td > < / tr > < / table > < / div > < / div > < / td > < / tr > < / table > < table border =" 0" cellpadding =" 0" cellspacing =" 0" class =" authRefData" style =" display: none;" id =" defref_us- gaap_SignificantAccountingPoliciesTextBlock" > < tr > < td class =" hide" > < a style =" color: white;" href =" javascript: void (0);" onclick =" Show. hideAR ();" > X < / a > < / td > < / tr > < tr > < td > < div class =" body" style =" padding: 2px;" > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" >- Definition < / a > < div > < p > The entire disclosure for all significant accounting policies of the reporting entity. < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > References < / a > < div style =" display: none;" > < p > Reference 1: http: / / www. xbrl. org / 2003 / role / disclosureRef < br >- Topic 235 < br >- SubTopic 10 < br >- Name Accounting Standards Codification < br >- Section 50 < br >- Paragraph 1 < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / / 1943274 / 2147483426 / 235- 10- 50- 1 < br > < br > Reference 2: http: / / fasb. org / us- gaap / role / ref / legacyRef < br >- Topic 235 < br >- Name Accounting Standards Codification < br >- Publisher FASB < br >- URI https: / / asc. fasb. org / / 235 / tableOfContent < br > < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details < / a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: < / strong > < / td > < td style =" white- space: nowrap;" > us- gaap_SignificantAccountingPoliciesTextBlock < / td > < / tr > < tr > < td style =" padding- right: 4px; white- space: nowrap;" > < strong > Namespace Prefix: < / strong > < / td > < td > us- gaap_ < / td > < / tr > < tr > < td > < strong > Data Type: < / strong > < / td > < td > dtr- types: textBlockItemType < / td > < / tr > < tr > < td > < strong > Balance Type: < / strong > < / td > < td > na < / td > < / tr > < tr > < td > < strong > Period Type: < / strong > < / td > < td > duration < / td > < / tr > < / table > < / div > < / div > < / td > < / tr > < / table > < / div > < / body > < / html > < / TEXT > < / DOCUMENT > < DOCUMENT > < TYPE > XML < SEQUENCE > 25 < FILENAME > R10. htm < DESCRIPTION > IDEA: XBRL DOCUMENT < TEXT > < html > < head > < title > < / title > < link rel =" stylesheet" type =" text / ess" href =" include / report. ess" > < script type =" text / javascript" src =" Show. js" > / * Do Not Remove This Comment * / < / script > < script type =" text / javascript" > function toggleNextSibling (e) { if (e. nextSibling. style. display = =' none') { e. nextSibling. style. display =' block'; } else { e. nextSibling. style. display =' none'; } } < / script > < / head > < body > < span style =" display: none;" > v3. 24. 0. 1 < / span > < table class =" report" border =" 0" cellspacing =" 2" id =" idm140681966217568" > < tr > < th class =" tl" colspan =" 1" rowspan =" 2" > < div style =" width: 200px;" > < strong > SUPPLEMENTAL CASH FLOWS INFORMATION < br > < / strong > < / div > < / th > < th class =" th" colspan =" 1" > 12 Months Ended < / th > < / tr > < tr > < th class =" th" > < div > Dec.

uses various valuation approaches and establishes a hierarchy for inputs used in measuring fair value that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used, when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company & # 8217; s assumptions about the assumptions other market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the observability of inputs as follows: < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Level & # 160; 1 & # 160; & # 8212; Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not applied to Level & # 160; 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these instruments does not entail a significant degree of judgment. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Level & # 160; 2 & # 160; & # 8212; Valuations based on one or more quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Level & # 160; 3 & # 160; & # 8212; Valuations based on inputs that are unobservable and significant to the overall fair value measurement. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > A financial instrument & # 8217; s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The Company & # 8217; s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Assets and Liabilities Measured at Fair Value on a Recurring Basis < / span > < / div > < div style =" margin- bottom: 10pt; If any long & # 8209; lived assets are determined to be unrecoverable, an impairment expense is recorded in the period. < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > No impairment of property and equipment was recorded during the year ended < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > December & # 160; 31, 2023. We recorded impairment expense of < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > approximately $ 57. 5 million during the year ended December & # 160; 31, 2022, in connection with our < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > DuraStim & # 174; < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > electric- powered hydraulic fracturing pumps that did not meet the manufacturer' s specifications or our expectations. < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > There was no impairment of assets during the year ended December & # 160; 31, 2021. < / span > < / div > < div style =" margin- bottom: 10pt; margin- top: 5pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > We generally apply fair value techniques to our reporting units on a nonrecurring basis associated with valuing potential impairment loss related to goodwill, if any. Our estimate of the reporting unit fair value is based on a combination of income and market approaches, Level 1 and 3, respectively, in the fair value hierarchy. The income approach involves the use of a discounted cash flow method, with the cash flow projections discounted at an appropriate discount rate. The market approach involves the use of comparable public companies & # 8217; market multiples in estimating the fair value. Significant assumptions include projected revenue growth, capital expenditures, utilization, gross margins, discount rates, terminal growth rates, and weight allocation between income and market approaches. If the reporting unit & # 8217; s carrying amount exceeds its fair value, we consider goodwill impaired, and the impairment loss is calculated and recorded in the period. < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > There were no additions to goodwill during the year ended December & # 160; 31, 2023. We added $ 23. 6 million of goodwill during the year ended December & # 160; 31, 2022 (see Note 4. Business Acquisitions). There were no additions to goodwill during the year ended December 31, 2021. We conducted our annual impairment test of goodwill as of December & # 160; 31, 2023 and determined that no impairment to the carrying value of goodwill for our reporting unit (wireline operating segment) was required. There were no goodwill impairment losses during the years ended December & # 160; 31, 2023, 2022 and 2021 < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" >. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > The wireline operating segment is the only segment which has goodwill at December & # 160; 31, 2023 and 2022. Such disclosures about the financial instruments, assets, and liabilities would include: (1) the fair value of the required items together with their carrying amounts (as appropriate); (2) for items for which it is not practicable to estimate fair value, disclosure would include: (a) information pertinent to estimating fair value (including, carrying amount, effective interest rate, and maturity, and (b) the reasons why it is not practicable to estimate fair value; (3) significant concentrations of credit risk including: (a) information about the activity, region, or economic characteristics identifying a concentration, (b) the maximum amount of loss the entity is exposed to based on the gross fair value of the related item, (c) policy for requiring collateral or other security and information as to accessing such collateral or security, and (d) the nature and brief description of such collateral or security; (4) quantitative information about market risks and how such risks are managed; (5) for items measured on both a recurring and nonrecurring basis information regarding the inputs used to develop the fair value measurement; and (6) for items presented in the financial statement for which fair value measurement is elected: (a) information necessary to understand the reasons for the election, (b) discussion of the effect of fair value changes on earnings, (c) a description of [similar groups] items for which the election is made and the relation thereof to the balance sheet, the aggregate carrying value of items included in the balance sheet that are not eligible for the election; (7) all other required (as defined) and desired information. < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > References < / a > < div style =" display: none;" > < p > Reference 1: http: / / www. xbrl. org / 2003 / role / disclosureRef < br > - SubTopic 820 < br > - Name Accounting Standards Codification < br > - Section 50 < br > - Paragraph 2 < br > - Publisher FASB < br > - URI https: / / asc. fasb. org / / 1943274 / 2147482106 / 820- 10- 50- 2 < br > < / p > < / div > < a href =" javascript: void (0);" onclick =" Show. toggleNext (this);" > Details < / a > < div style =" display: none;" > < table border =" 0" cellpadding =" 0" cellspacing =" 0" > < tr > < td > < strong > Name: < / strong > < / td > < td style =" white- space: nowrap;" > us- gaap_FairValueDisclosuresTextBlock < / td > < / tr > < tr > < td style =" padding- right: 4px; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > The Company currently has three operating segments for < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > which discrete financial information is readily available: hydraulic fracturing (inclusive of acidizing), wireline and cementing. T < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > hese operating segments represent how the CODM evaluates performance and allocates resources. < / span > < / div > < div style =" margin- bottom: 10pt; padding- right: 2. 25pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > On September 1, 2022, the Company shut down its coiled tubing operations and disposed of its coiled tubing assets to STEP as part of a strategic repositioning, and recorded a loss on disposal of $ 13. 8 million. The divestiture of our coiled tubing assets did not qualify for presentation and disclosure as a discontinued operation, and accordingly, we have recorded the resulting loss from the disposal as part of our loss on disposal of assets in our consolidated statement of operations. < / span > < / div > < div style =" text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 112 %" > We have historically conducted our business through four operating segments: hydraulic fracturing, wireline, cementing and coiled tubing. Prior to the fourth quarter of fiscal year 2023, our operating segments met the aggregation criteria and were aggregated into the & # 8220; Completion Services & # 8221; reportable segment and our coiled tubing operations (which were divested in September 2022) were shown in the & # 8220; All Other & # 8221; category. < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 12pt; font- weight: 400; line- height: 112 %" > < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 112 %" > Effective as of the fourth quarter of fiscal year 2023, we revised our segment reporting as we determined that our three operating segments no longer met the criteria to be aggregated. Our Hydraulic Fracturing and Wireline operating segments meet the criteria of a reportable segment. Our cementing and our divested coiled tubing segments do not meet the reportable segment criteria and are included within the & # 8220; All Other & # 8221; category. Additionally, our corporate administrative activities do not involve business activities from which it may earn revenues and its results are not regularly reviewed by the Company & # 8217; s CODM when making key operating and resource decisions. As a result, corporate administrative expenses have been included under & # 8220; Reconciling Items. & # 8221; Prior period segment information has been revised to conform to our current presentation. < / span > < / div > < div style =" text- align: justify" > < span > < br / > < / span > < / div > < div style =" margin- bottom: 10pt; padding- right: 2. 25pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Our hydraulic fracturing operating segment revenue approximated 78. 5 %, 89. 3 % and 91. 6 % of our revenue for the years ended December & # 160; 31, 2023, 2022 and 2021, respectively. Revenue from our wireline operating segment (resulting from the acquisition of Silvertip in 2022) approximated 14. 1 % and 2. 4 % of our revenue for the years ended December & # 160; 31, 2023 and 2022, respectively. Our cementing operating segment revenue approximated 7. 4 %, 7. 2 % and 6. 5 % of our revenue for the years ended December & # 160; 31, 2023, 2022 and 2021, respectively. Our coiled tubing revenue approximated 1. 1 % and 1. 9 % of our revenue for the years ended December 31, 2022 and 2021, respectively. Our operating segments are subject to inherent uncertainties which may influence our prospective activities. Inter- segment revenues are not material and are not shown separately in the tables below. < / span > < / div > < div style =" margin- bottom: 10pt; padding- right: 2. 25pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > The Company manages and assesses the performance of the reportable segment by its adjusted EBITDA (earnings before interest expense, income taxes, depreciation and amortization, stock- based compensation expense, other income or expense, gain or loss on disposal of assets and other unusual or nonrecurring expenses or income such as impairment charges, retention bonuses, severance, costs related to asset acquisitions, insurance recoveries, one- time professional fees and legal settlements). < / span > < / div > < div style =" margin- bottom: 10pt; padding- right: 2. 25pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > The following tables set forth certain financial information with respect to the Company & # 8217; s reportable segments (in thousands): < / span > < / div > < div style =" margin- top: 5pt; padding- left: 6. 75pt; padding- right: 6. 75pt; text- align: center" > < table style =" border- collapse: collapse; display: inline- table; margin- bottom: 5pt; vertical- align: text- bottom; width: 95. 906 %" > < tr > < td style =" width: 1. 0 %" > < / td > < td style =" width: 39. 753 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 1. 0 %" > < / td > < td style =" width: 10. 332 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 562 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 1. 0 %" > < / td > < td style =" width: 9. 570 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 409 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 1. 0 %" > < / td > < td style =" width: 10. 332 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 409 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 1. 0 %" > < / td > < td style =" width: 10. 332 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 0. 562 %" > < / td > < td style =" width: 0. 1 %" > < / td > < td style =" width: 1. 0 %" > < / td > < td style =" width: 10. 339 %" > < / td > < td style =" width: 0. 1 %" > < / td > < / tr > < tr style =" height: 3pt" > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < / tr > < tr > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" border- top: 1. 5pt solid # 000; padding: 2px 1pt; text- align: left; vertical- align: middle" > < div style =" margin- bottom: 1pt; text- align: center" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" > Hydraulic Fracturing < / span > < / div > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" border- top: 1. 5pt solid # 000; padding: 2px 1pt; text- align: center; vertical- align: middle" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" > Wireline < / span > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" border- top: 1. 5pt solid # 000; padding: 2px 1pt; text- align: center; vertical- align: middle" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" > All Other < / span > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" border- top: 1. 5pt solid # 000; padding: 2px 1pt; text- align: left; vertical- align: middle" > < div style =" margin- bottom: 1pt; text- align: center" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 100 %" > Reconciling Items < / span > < / div > < / td > < td colspan =" 3" style =" padding: 0 1pt" > < / td > < td colspan =" 3" style =" border- top: 1. 5pt solid # 000; padding: 2px

text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > On May 17, 2023, the Company' s board of directors (the" Board") authorized and the Company announced a share repurchase program that allows the Company to repurchase up to $ 100 million of the Company' s common stock beginning immediately and continuing through and including May 31, 2024. The shares may be repurchased from time to time in open market transactions, block trades, accelerated share repurchases, privately negotiated transactions, derivative transactions or otherwise, certain of which may be made pursuant to a trading plan meeting the requirements of Rule 10b5- 1 under the Exchange Act, in compliance with applicable state and federal securities laws. The timing,

as well as the number and value of shares repurchased under the program, will be determined by the Company at its discretion and will depend on a variety of factors, including management' s assessment of the intrinsic value of the Company' s common stock, the market price of the Company' s common stock, general market and economic conditions, available liquidity, compliance with the Company' s debt and other agreements, applicable legal requirements, and other considerations. The Company is not obligated to purchase any shares under the repurchase program, and the program may be suspended, modified, or discontinued at any time without prior notice. The Company expects to fund the repurchases using cash on hand and expected free cash flow to be generated through May 2024. The Inflation Reduction Act of 2022 (" IRA 2022") provides for, among other things, the imposition of a new 1 % U. S. federal excise tax on certain repurchases of stock by publicly traded U. S. corporations such as us after December 31, 2022. Accordingly, the excise tax will apply to our share repurchase program in 2023 and in subsequent taxable years. The current government has proposed increasing the amount of the excise tax from 1 % to 4 %; however, it is unclear whether such a change in the amount of the excise tax will be enacted and, if enacted, how soon any such change could take effect. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > All shares of common stock repurchased under the share repurchase program are canceled and retired upon repurchase. The Company accounts for the purchase price of repurchased shares of common stock in excess of par value ($ 0. 001 per share of common stock) as a reduction of additional- paid- in capital, and will continue to do so until additional paid- in- capital is reduced to zero. Thereafter, any excess purchase price will be recorded as a reduction of retained earnings. During the year ended December & # 160; 31, 2023, the Company paid an aggregate of < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > $ 51. 7 & # 160; million < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" >, an average price per share of $ 8. 93 including commissions, for share repurchases under the share repurchase program, thereby retiring 5. 8 million shares. The Company has accrued < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > $ 0. 4 million < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > in respect of the IRA 2022 repurchase excise tax as of December & # 160; 31, 2023. As of December & # 160; 31, 2023, < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > $ 48. 3 million < / span > < span style =" color: # 000000; font- size: 10pt; font- weight: 400; linc- height: 120 %" > SUs to certain key employees and officers as new awards under the 2020 Incentive Plan. Each PSU earned represents the right to receive either one share of common stock or, as determined by the administrator in its sole discretion, a cash amount equal to the fair market value of one share of common stock or amount of cash on the day immediately preceding the settlement date. The actual number of

shares of common stock that may be issued under the PSUs ranges from & # 160; 0 % & # 160; up to a maximum of 200 % of the target number of PSUs granted to the participant, based on our total shareholder return (" TSR") relative to a designated peer group of comparable companies (& # 8220; Peer Group & # 8221;), generally at the end of a three- year period. In addition to the TSR conditions, vesting of the PSUs is generally subject to the recipient & # 8217; s continued employment through the end of the applicable performance period. Compensation expense is recorded ratably over the corresponding requisite service period. The grant date fair value of PSUs is determined using a Monte Carlo probability model. Grant recipients do not have any shareholder rights until performance relative to the Peer Group has been determined following the completion of the performance period and shares have been issued. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > In connection with a former officer & # 8217; s separation agreement, on March 31, 2022, the Company modified the PSUs previously granted to such former officer in 2020 and 2021 to provide for deemed satisfaction of the service requirement applicable to such PSUs as of March 31, 2022, such that such PSUs shall remain outstanding and eligible to vest based on our TSR relative to the P < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > cer Group over the applicable performance period. In connection with a former officer & # 8217; s separation agreement, on December 31, 2022, the Company modified the PSUs previously granted to such former officer in 2021 and 2022 to provide for deemed satisfaction of the service requirement applicable to such PSUs as of December 31, 2022, such that such PSUs shall rem < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > ain outstanding and eligible to vest based on our TSR relative to the Peer Group over the applicable performance period. As a result of these modifications, we recorded a net incremental stock expense of $ 2. 6 million during the year ended December 31, 2022. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; Accordingly, the effects of adopting ASC 842 were adjusted in the beginning of 2019 while prior periods are accounted for under the legacy GAAP, ASC 840. There was no cumulative effect adjustment on beginning retained earnings. We also elected other practical expedients provided by the new lease standard, the short- term lease recognition practical expedient in which leases with a term of twelve months or less will not be recognized on the balance sheet, and the practical expedient to not separate lease and non- lease components for real estate class of assets. Our discount rate was based on our estimated incremental borrowing rate on a collateralized basis with similar terms and economic considerations as our lease payments at the lease commencement. Below is a description of our operating and finance leases. < / span > < / div > < div style =" margin- bottom: 10pt" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 700; line- height: 120 %" > Operating Leases < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- style: italic; font- weight: 400; line- height: 120 %" > Description of Lease < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > In March 2013, we entered into a ten- year real estate lease contract (the < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > " < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > Real Estate One Lease < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > " < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" >) with a commencement date of April 1, 2013, as part of the expansion of our equipment yard. For the years ended December & # 160; 31, 2023, 2022 and 2021, the Company made lease payments of approximately < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > $ 0. 1 million < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" >, $ 0. 4 million and $ 0. 4 million, respectively. < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > The assets and liabilities under this contract are included < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > in our Hydraulic Fracturing reportable segment. In addition to the contractual lease period, the contract includes an optional renewal of up to ten years. However, the Company terminated the Real Estate One Lease at the end of the term, March 1, 2023. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 112 %" > We accounted for our Real Estate One Lease as an operating lease. This conclusion resulted from the existence of the right to control the use of the assets throughout the lease term. We did not account for the land separately from the building of the Real Estate One Lease because we concluded that the accounting effect was insignificant. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > As part of our expansion of our hydraulic fracturing equipment maintenance program, we entered into a two- year maintenance facility real estate lease contract (the" Maintenance Facility Lease") with a commencement date of March 14, 2022. During the year ended December & # 160; 31, 2023 the Company made lease payments of approximately $ 0. 3 million. In addition to the contractual lease period, the contract includes an optional renewal for three additional periods of one year each, however, the Company plans to terminate the Maintenance Facility Lease at the end of the term, February 29, 2024. The contract does not include a residual value guarantee, covenants or financial restrictions. Further, the Maintenance Facility Lease does not contain variability in payments resulting from either an index change or rate change. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > We accounted for our Maintenance Facility Lease as an operating lease. This conclusion resulted from the existence of the right to control the use of the assets throughout the lease term. We did not account for the land separately from the building of the Maintenance Facility Lease because we concluded that the accounting effect was insignificant. As of December & # 160; 31, 2023, the weighted average discount rate and remaining lease term was approximately 3. 4 % and 0. 2 years, respectively. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > In August 2022 and December 2022, we entered into equipment lease contracts (the" Electric Fleet Leases") for a duration of approximately three years each for a total of four FORCE < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 6. 5pt; font- weight: 400; line- height: 120 %; position: relative; top:- 3. 5pt; vertical- align: baseline" > SM < / span > < span style =" color: # 000000; font-

family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > electric- powered hydraulic fracturing fleets with 60, 000 HHP per fleet. The Electric Fleet Leases contain options to either extend each lease for up to three additional periods of one year each or purchase the equipment at the end of their initial term of approximately 3. 0 years or at the end of each subsequent renewal period. < / span > < / div > < div style =" margin- bottom: 10pt; text- align: justify" > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > The first of the Electric Fleet Leases (the" Electric Fleet One Lease") commenced on August 23, 2023 when we received some of the equipment associated with the first FORCE < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 6. 5pt; font- weight: 400; line- height: 120 %; position: relative; top:- 3. 5pt; vertical- align: baseline" > SM < / span > < span style =" color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > electric- powered hydraulic fracturing fleet. During the year ended December & # 160; 31, 2023, the Company made lease payments of approximately $ 2. 2 million, including variable lease payments of approximately $ 0. 1 million. During the year ended December & # 160; 31, 2023, the Company incurred initial direct costs of approximately $ 14. 3 million to place the leased equipment into its intended use, which are included in the right- of- use asset cost related to the Electric Fleet One Lease. The assets and liabilities under this contract are included in our Hydraulic Fracturing reportable segment. In management' s judgment the exercise of neither the renewal option nor the purchase option is reasonably assured. In addition to fixed rent payments, the Electric Fleet One Lease contains variable payments based < / span > < span style =" background- color: # ffffff; color: # 000000; font- family:' Times New Roman', sans- serif; font- size: 10pt; font- weight: 400; line- height: 120 %" > on equipment usage.
